Adj EBITDA Margin	15.6%	12.3%		

\* Reconciliation to net loss follows in this document

2004 Operating Highlights

We charted year-on-year revenue growth for the first year since 2000 as our customers' markets strengthened and the overall B2B media industry began to see signs of recovery.

Print media was slightly down after two years of double-digit declines, while online media product sales accelerated as customers continued to direct a higher percentage of marketing budgets to Web marketing.

Our trade show/conference business mirrored industry recovery trends. Event results grew on the strength of our Natural Products Expos and our Comfortech event, growth of our targeted technology conferences, sales of roadshow events, and the introduction of new conferences across several markets.

2004 Revenues by Product Line

Ø Publishing down 2.9% to \$143.6M from \$147.9M

Ø Events up 16.3% to \$51.4M from \$44.2M

Ø Online up 26.6% to \$17.6M from \$13.9M

### 2004 Strategic Highlights

Management's focus is to drive revenues and profits and return Penton to a position of positive net free cash. Two of the company's key strategies to drive revenues and profits include expanding our portfolio so that we are offering media solutions across all platforms to every market we serve, and to continue to accelerate our eMedia business.

Ø Every Penton operating group now offers in print, in person and online channels to their markets.

Ø EMedia product development accelerated, we invested in strategic partnerships, and revenues expanded 27%.  
*Current eMedia operations highlights include:*

### Key Stats

26% growth in page views from Jan 2004 to Jan 2005 to over 13.3 million page views per month

Delivered over 125 million requested e-mails, including 75 million e-newsletters

Produced over 100 webcasts in 2004

25 digital editions of our magazines either active or pending launch

### Web Site Re-Launches

Air Transport World

Contracting Business

Hydraulics & Pneumatics

IndustryWeek

Windows IT Pro Europe

### Strategic Partnerships

Strategic relationship with Google for sponsored links on content and search pages

Strategic partnership with DiscoverCircuits.com joining as key site within our Electronics OEM network

### Vendor Relationships

Signed WhatCounts as email provider

Signed MeritDirect as email list rental management company

Signed On24 as primary webcast provider

Signed WebSideStory HitBox Enterprise as Web metrics/analysis provider

Acquired Nav4 vertical market search technology

Organic growth and strategic acquisitions also are part of our growth strategy. Our launch pipeline has been robust, particularly with online media products; we recently purchased the largest known online database of power semiconductors and power supplies from Davis Marketing Communications, which strengthened our electronics OEM franchise; and we've been launching a number of new events—roadshows and annual conferences—in the design/engineering, foodservice, baking, manufacturing, and IT markets.

2004 Market Trends

Markets that have been difficult for Penton over the past few years (industrial/manufacturing and tech) experienced improved results in 2004, while our natural products market continued to show strong results.

- Ø Our Industry segment saw a 1% decline in revenues, primarily due to a publishing decline in one unit (government). Online media and trade shows/conferences both grew in this diversified industrial segment.
- Ø Our Technology portfolio saw modest growth for the year, with publishing in our IT media unit continuing to experience difficulty. Declines in overall segment publishing revenues were more than offset by significant revenue increases for events and online media, with outstanding performance for IT roadshows and conferences and online media in our electronics OEM and IT units.
- Ø Our Lifestyle portfolio saw a 14% revenue increase on the strength of events, as well as publishing.

Liquidity/Balance Sheet

Penton's 2004 year-end total debt of \$329.1M was reduced in February to \$323.6M as we repurchased \$5.5M face value of our subordinated notes. The buyback also will reduce annual interest payments by \$0.6M.

The company does not expect liquidity issues going forward. We have full access to \$33.7M of availability on our credit facility, and we are current on our bond interest payments.

**Reconciliation of Consolidated Adjusted EBITDA to Net Loss**

\$ in thousands

	<b>2004</b>	<b>2003</b> <b>Restated</b>
