This Form 10-Q contains forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934. Forward-looking statements are statements that do not relate strictly to historical or current facts. You can identify forward-looking statements by the fact they use words such as should, anticipate, estimate, approximate, expect, may, will, project, intend, plan, believe and other words of similar meaning and expression in connection with any discussion of future operating or financial performance. These statements are likely to relate to, among other things, our strategy, goals, plans and projections regarding our financial position, results of operations, market position, and product development, all of which are based on current expectations that involve inherent risks and uncertainties, including factors that could delay, divert or change any of them in the next several years. It is not possible to predict or identify all factors; however, they may include the following: global and regional economic conditions; risks associated with the availability and costs of the raw materials we use to manufacture our products; our ability to protect our intellectual property in foreign jurisdictions; risks associated with our foreign operations and international markets, such as currency exchange rates, different regulatory environments, trade barriers, exchange controls, and social and political instability; energy costs; commodity prices; risks associated with integrating recent acquisitions, as well as any future acquisitions, and achieving the expected savings and synergies; risks relating to our recent business divestitures; competition; demands on management resources; future terrorist attacks or acts of war; labor relations; demand for and market acceptance of new and existing products; and risks associated with the implementation of restructuring plans and environmental remediation matters. We provide additional information about many of the specific risks we face in the Risk Factors Section of our Annual Report on Form 10-K, and in this Form 10-Q as applicable. We can give no assurance that any goal or plan set forth in forward-looking statements can be achieved and readers are cautioned not to place undue reliance on such statements, which speak only as of the date made. We undertake no obligation to release publicly any revisions to forward-looking statements as a result of future events or developments.

**KENNAMETAL INC.**

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)**

**1. ORGANIZATION**

Kennametal Inc. was incorporated in Pennsylvania in 1943 and maintains its world headquarters in Latrobe, Pennsylvania. Kennametal Inc. and its subsidiaries (collectively, Kennametal or the Company ) is a leading global manufacturer and supplier of tooling, engineered components and advanced materials consumed in production processes. End users of our products include metalworking manufacturers and suppliers in the aerospace, automotive, machine tool and farm machinery industries, as well as manufacturers and suppliers in the highway construction, coal mining, quarrying and oil and gas exploration industries. Our end users products include items ranging from airframes to coal, medical implants to oil wells and turbochargers to motorcycle parts. We previously operated three global business units consisting of Metalworking Solutions & Services Group (MSSG), Advanced Materials Solutions Group (AMSG) and J&L Industrial Supply (J&L). During fiscal 2006, we divested our J&L segment.

**2. BASIS OF PRESENTATION**

The condensed consolidated financial statements, which include our accounts and those of our majority-owned subsidiaries, should be read in conjunction with the 2006 Annual Report on Form 10-K. The condensed consolidated balance sheet as of June 30, 2006 was derived from the audited balance sheet included in our 2006 Annual Report on Form 10-K. These interim statements are unaudited; however, we believe that all adjustments necessary for a fair statement of the results of the interim periods were made and all adjustments are normal, recurring adjustments. The results for the three months ended September 30, 2006 and 2005 are not necessarily indicative of the results to be expected for a full fiscal year. Unless otherwise specified, any reference to a year is to a fiscal year ended June 30. For example, a reference to 2007 is to the fiscal year ending June 30, 2007. When used in this Form 10-Q, unless the context requires otherwise, the terms we, our and us refer to Kennametal Inc. and its subsidiaries.

**3. NEW ACCOUNTING STANDARDS**

In September 2006, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 158, Employers Accounting for Defined Benefit Pension and Other Postretirement Plans an amendment of FASB Statements No. 87, 88, 106, and 132(R) (SFAS 158). SFAS 158 requires an employer to recognize the overfunded or underfunded status of a defined benefit postretirement plan as an asset or liability in its statement of financial position and to recognize changes in that funded status in the year in which the changes occur through comprehensive income of a business entity. SFAS 158 also requires an employer to measure the funded status of a plan as of the date of its year-end statement of financial position. SFAS 158 is effective for Kennametal June 30, 2007. We are in the process of evaluating the provisions of SFAS 158 to determine the impact of adoption on our financial condition.

In September 2006, the Securities and Exchange Commission issued Staff Accounting Bulletin No. 108, (SAB 108), which expresses the staff's views regarding the process of quantifying financial statement misstatements. The guidance in SAB 108 must be applied in our 2007 annual financial statements. We are in the process of evaluating the guidance in SAB 108 to determine the impact, if any, on our results of operations or financial condition.

In September 2006, the FASB issued SFAS 157, Fair Value Measurements (SFAS 157). SFAS 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures about fair value measurements. SFAS 157 is effective for Kennametal July 1, 2008. We are in the process of evaluating the provisions of SFAS 157.

**Table of Contents****KENNAMETAL INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)**

In June 2006, the FASB issued FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes an Interpretation of FASB Statement No. 109 (FIN 48). FIN 48 prescribes a method of recognition, measurement, presentation and disclosure within the financial statements for uncertain tax positions that a company has taken or expects to take in a tax return. FIN 48 is effective for Kennametal July 1, 2007. We are in the process of evaluating the provisions of FIN 48 to determine the impact of adoption, if any, on our results of operations or financial condition.

**4. SUPPLEMENTAL CASH FLOW DISCLOSURES**

Change in fair value of interest rate swaps	(5,629)	5,195

**5. DIVESTITURES**

In 2006, we divested our J&L segment for \$359.2 million, subject to post-closing adjustment. We have received \$355.7 million in net proceeds related to the sale of this business of which \$5.5 million was received during second quarter of 2007. In accordance with the terms of the sale agreement, the parties have agreed to submit certain claims raised by the purchaser related to the post-closing adjustment to binding arbitration for resolution. We believe that the purchaser's claims are without merit. We expect to collect the remaining \$3.5 million prior to December 31, 2006. During the quarter, we recognized a pre-tax loss of \$1.7 million.

**6. DISCONTINUED OPERATIONS**

During 2006, our Board of Directors and management approved plans to divest our Kemmer Praezision Electronics business (Electronics) and our consumer retail product line, including industrial saw blades (CPG) as a part of our strategy to exit non-core businesses. These divestitures are accounted for as discontinued operations. As a result, prior years' financial results have been restated to reflect the activity from these operations as discontinued operations.

The divestiture of Electronics, which was part of the AMSEG segment, will occur in two separate transactions. The first transaction closed during 2006. The second transaction is expected to close during the second quarter of 2007. The assets and liabilities of the business have been recorded at fair value.

The divestiture of CPG, which was part of the MSSG segment, closed August 31, 2006 for net consideration of \$31.2 million. We have received \$21.2 million in net proceeds related to the sale of this business of which \$1.5 million and \$0.2 million were received during 2006 and second quarter of 2007, respectively. We expect to receive the remaining \$10.0 million prior to February 28, 2007. During the quarter, we recognized an additional pre-tax loss of \$0.3 million, which has been recorded in discontinued operations. Future adjustments related to this divestiture are not expected to be material. The assets and liabilities of this business were recorded at fair value and presented as held for sale as of June 30, 2006.

## 7. STOCK-BASED COMPENSATION

Stock options are granted to eligible employees at fair market value on the date of grant. Stock options are exercisable under specific conditions for up to 10 years from the date of grant. The aggregate number of shares authorized for issuance under the Kennametal Inc. Stock and Incentive Plan of 2002, as amended (the 2002 Plan), are 3,750,000. Under the provisions of the 2002 Plan, participants may deliver our stock, owned by the

holder for at least six months, in payment of the option price and receive credit for the fair market value of the shares on the date of delivery. The fair value of shares delivered during the three months ended September 30, 2006 was \$0.1 million. Stock option expense for the three months ended September 30, 2006 and 2005 was \$1.7 million and \$3.1 million, respectively. In addition to stock option grants, the 2002 Plan permits the award of restricted stock to directors, officers and key employees.

The assumptions used in our Black-Scholes valuation related to grants made during the period were as follows:  
risk free interest rate 5.0 percent, expected life 4.5 years, volatility 22.4 percent and dividend yield 1.4 percent.

\$12.87

The amount of cash received from the exercise of options during the three months ended September 30, 2006 and 2005 was \$2.3 million and \$5.1 million respectively. The related tax benefit for the three months ended September 30, 2006 and 2005 was \$0.3 million and \$0.7 million respectively. The total intrinsic value of options exercised during the three months ended September 30, 2006 and 2005 was \$1.0 million and \$2.2 million, respectively. As of September 30, 2006, the total unrecognized compensation cost related to options outstanding was \$7.6 million and is expected to be recognized over a weighted average period of 2.8 years.

Changes in our restricted stock for the three months ended September 30, 2006 were as follows:

	Shares	Weighted Average Fair Value
Unvested restricted stock, June 30, 2006	442,155	\$44.06

During the three months ended September 30, 2006 and 2005, compensation expense related to restricted stock awards was \$2.1 million and \$2.2 million respectively. As of September 30, 2006, the total unrecognized compensation cost related to unvested restricted stock was \$11.9 million and is expected to be recognized over a weighted average period of 2.4 years.

**Table of Contents****KENNAMETAL INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)****8. BENEFIT PLANS**

We sponsor several defined benefit pension plans that cover substantially all employees. Additionally, we provide varying levels of postretirement health care and life insurance benefits to most U.S. employees.

The table below summarizes the components of the net periodic cost of our defined benefit pension plans:

(in thousands)	Three Months Ended September 30,	
	2006	2005
Service cost	\$ 2,417	\$ 2,956
Interest cost	9,499	8,519
Expected return on plan assets	(11,224)	(9,495)
Amortization of transition obligation	37	37
Amortization of prior service cost	166	179
Amortization of actuarial loss	1,295	3,420
Total net periodic pension cost	\$ 2,190	\$ 5,616

The decrease in net periodic pension cost is primarily the result of an increase in the discount rates applied to our plans and an increase in expected return on plan assets resulting from funding \$73.0 million in the prior year related to our U.S. and U.K. defined benefit pension plans.

During the three months ended September 30, 2006 and 2005, the Company contributed \$1.3 million and \$2.0 million, respectively, to its various defined benefit pension plans. During the three months ended September 30, 2006 and 2005, the Company also expensed contributions of \$2.3 million and \$2.7 million, respectively, to its defined contribution plan.

The table below summarizes the components of the net periodic cost (benefit) of our other postretirement and postemployment benefit plans:

(in thousands)	Three Months Ended September 30,	
	2006	2005
Service cost	\$ 133	\$ 208
Interest cost	420	436
Amortization of prior service cost	12	(858)
Amortization of actuarial gain	(367)	(212)
Total net periodic cost (benefit)	\$ 198	\$ (426)

**9. INVENTORIES**

Inventories are stated at the lower of cost or market. We use the last-in, first-out (LIFO) method for determining the cost of a significant portion of our U.S. inventories. The cost for the remainder of our inventories is determined

under the first-in, first-out or average cost methods. We used the LIFO method of valuing inventories for approximately 51.0 percent and 53.0 percent of total inventories at September 30, 2006 and June 30, 2006, respectively. Because inventory valuations under the LIFO method are based on an annual determination of quantities and costs as of June 30 of each year, the interim LIFO valuations are based on our projections of expected year-end inventory levels and costs. Therefore, the interim financial results are subject to any final year-end LIFO inventory adjustments.

**Table of Contents****KENNAMETAL INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)**

**10. ENVIRONMENTAL MATTERS**

The operation of our business has exposed us to certain liabilities and compliance costs related to environmental matters. We are involved in various environmental cleanup and remediation activities at certain of our locations.

**Superfund Sites** We are involved as a potentially responsible party (PRP) at various sites designated by the United States Environmental Protection Agency (USEPA) as Superfund sites, including the Li Tungsten Superfund site in Glen Cove, New York. With respect to the Li Tungsten site, we recorded an environmental reserve following the identification of other PRPs, an assessment of potential remediation solutions and an entry of a unilateral order by the USEPA directing certain remedial action. In May 2006, we reached an agreement in principle with the U.S. Department of Justice (DOJ) with respect to this site; the DOJ informed us that it would accept a payment of \$0.9 million in full settlement for its claim against us for costs related to the Li Tungsten site. To date, the draft Consent Order and Agreement for settlement of our Li Tungsten liability has not been finalized, but we expect that the final settlement will proceed according to the terms outlined in the agreement in principle. At September 30, 2006 we had an accrual of \$1.0 million recorded relative to this environmental issue. Cash payments made against this reserve during the quarter were immaterial.

During 2006, the USEPA notified us that we have been named as a PRP at the Alternate Energy Resources Inc. site located in Augusta, Georgia. The proceedings in this matter have not yet progressed to a stage where it is possible to estimate the ultimate cost of remediation, the timing and extent of remedial action that may be required by governmental authorities, or the amount of our liability, if any, alone or in relation to that of any other PRPs.

**Other Environmental Issues** Additionally, we also maintain reserves for other potential environmental issues. At September 30, 2006 the total of these accruals was \$5.3 million, and represents anticipated costs associated with the remediation of these issues. Cash payments made against these reserves were immaterial for the quarter.

**11. INCOME TAXES**

The effective income tax rate for the three months ended September 30, 2006 and 2005 was 31.7 percent and 34.7 percent, respectively. The reduction relative to our statutory rate of 35.0 percent is primarily due to benefits sustained from the prior year implementation of our pan-European business model strategy.

**Table of Contents****KENNAMETAL INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)****12. EARNINGS PER SHARE**

Basic earnings per share is computed using the weighted average number of shares outstanding during the period, while diluted earnings per share is calculated to reflect the potential dilution that occurs related to the issuance of capital stock under stock option grants and restricted stock awards.

For purposes of determining the number of diluted shares outstanding, weighted average shares outstanding for basic earnings per share calculations were increased due solely to the dilutive effect of unexercised stock options and restricted stock awards by 0.8 million and 1.0 million for the three months ended September 30, 2006 and 2005. Unexercised stock options to purchase our capital stock of 0.7 million and 1.0 million shares for the three months ended September 30, 2006 and 2005, are not included in the computation of diluted earnings per share because the option exercise price was greater than the average market price, and therefore their inclusion would have been anti-dilutive.

**13. COMPREHENSIVE INCOME**

Comprehensive income is as follows:

(in thousands)	Three Months Ended September 30,	
	2006	2005
Net income	\$30,361	\$28,097

**15. SEGMENT DATA**

We currently operate two reportable segments consisting of MSSG and AMMSG, and Corporate. During 2006, we divested our J&L segment. We do not allocate corporate costs, performance-based bonuses, domestic pension expense, interest expense, other expense, income taxes, stock-based compensation expense or minority interest to the operating segment results presented below.

**16. SUBSEQUENT EVENTS**

On October 24, 2006, the Board of Directors authorized a repurchase program of up to 3.3 million shares of our outstanding capital stock. The purchases would be made from time to time, on the open market or in private transactions, with consideration given to the market price of the stock, the nature of other investment opportunities, cash flows from operating activities and general economic conditions.

At the Annual Meeting of Shareowners on October 24, 2006, our shareowners voted to increase the authorized shares of capital stock from 70,000,000 shares to 120,000,000 shares. Shares of capital stock may be used for general purposes, including stock splits and stock dividends, acquisitions, possible financing activities and other employee, executive and director benefit plans. We have no present plans, arrangements, commitments or understanding with respect to the issuance of these additional shares of capital stock.

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

**RESULTS OF CONTINUING OPERATIONS**

**SALES**

Sales for the three months ended September 30, 2006 were \$542.8 million, a decrease of \$3.0 million, or 1.0 percent, from \$545.8 million in the prior year quarter. The decrease in sales is primarily attributed to the net effect of acquisitions and divestitures of 8.0 percent partially offset by 6.0 percent organic growth. Outside sales for J&L for the three months ended September 30, 2005 were \$65.0 million. The increase in organic sales for the quarter is primarily attributed to favorable market conditions, particularly in the energy and mining markets, and market penetration in developing economies.

**GROSS PROFIT**

Gross profit for the three months ended September 30, 2006 decreased \$10.3 million, or 5.2 percent, to \$187.0 million from \$197.3 million in the prior year quarter. This decrease is primarily due to the net impact of acquisitions and divestitures of \$17.5 million and higher raw material costs, partially offset by organic sales growth, which favorably impacted gross profit by \$8.9 million, and favorable product mix.

Gross profit margin for the three months ended September 30, 2006 decreased 170 basis points from 36.2 percent in the prior year quarter to 34.5 percent. The decrease is primarily attributed to higher raw material costs partially offset by favorable product mix and the net impact of acquisitions and divestitures.

**OPERATING EXPENSE**

Operating expense for the three months ended September 30, 2006 was \$135.0 million, a decrease of \$9.9 million, or 6.8 percent, compared to \$144.9 million in the prior year quarter. The decrease in operating expense is primarily attributed to the net impact of acquisitions and divestitures of \$10.9 million and a \$2.8 million reduction in professional fee expense, driven by a reduction in fees related to compliance with section 404 of the Sarbanes-Oxley Act of 2002, partially offset by foreign currency exchange rate fluctuations of \$2.2 million.

**AMORTIZATION EXPENSE**

Amortization expense was \$1.9 million for the three months ended September 30, 2006, an increase of \$0.5 million from \$1.4 million in the prior year quarter. This increase is due to the impact of acquisitions.

**Table of Contents****ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (CONTINUED)****INTEREST EXPENSE**

Interest expense for the three months ended September 30, 2006 decreased to \$7.4 million from \$7.8 million in the prior year quarter. This decrease is due primarily to a \$191.2 million decrease in the average daily domestic borrowings offset by the impact of higher average borrowing rates. The weighted average domestic borrowing rate increased from 5.2% in the prior year quarter to 7.0% in the current quarter.

**OTHER INCOME, NET**

Other income for the three months ended September 30, 2006 was \$3.0 million compared to \$0.9 million in the prior year quarter. This increase is primarily due to increased interest income of \$1.7 million and a reduction in accounts receivable securitization fees of \$1.0 million.

**INCOME TAXES**

The effective income tax rate for the three months ended September 30, 2006 and 2005 was 31.7 percent and 34.7 percent, respectively. The reduction relative to our statutory rate of 35.0 percent is primarily due to benefits sustained from the prior year implementation of our pan-European business model strategy.

**INCOME FROM CONTINUING OPERATIONS**

Income from continuing operations for the three months ended September 30, 2006 was \$29.5 million, or \$0.76 per diluted share, compared to \$28.1 million, or \$0.72 per diluted share, in the same quarter last year. The increase in income from continuing operations is a result of the factors previously discussed.

**DISCONTINUED OPERATIONS**

During 2006, our Board of Directors and management approved plans to divest our Kemmer Praezision Electronics business (Electronics) and our consumer retail product line, including industrial saw blades (CPG) as a part of our strategy to exit non-core businesses. These divestitures are accounted for as discontinued operations. As a result, prior years' financial results have been restated to reflect the activity from these operations as discontinued operations for all periods presented.

The divestiture of Electronics, which was part of the AMSEG segment, will occur in two separate transactions. The first transaction closed during 2006. The second transaction is expected to close during the second quarter of 2007.

The divestiture of CPG, which was part of the MSSG segment, closed August 31, 2006 for net consideration of \$31.2 million. We have received \$21.2 million in net proceeds related to the sale of this business of which \$1.5 million and \$0.2 million were received during 2006 and second quarter of 2007, respectively. We expect to receive the remaining \$10.0 million prior to February 28, 2007. During the quarter, we recognized an additional pre-tax loss of \$0.3 million, which has been recorded in discontinued operations. Future adjustments related to this divestiture are not expected to be material.

The following represents the results of discontinued operations:

(in thousands)	Three Months Ended September 30,	
	2006	2005
Sales	\$ 12,610	\$ 23,452
Income (loss) from discontinued operations before income taxes	\$ 1,161	\$ (222)
Income tax expense (benefit)	254	(241)
Income from discontinued operations	\$ 907	\$ 19

**Table of Contents****ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (CONTINUED)****DIVESTITURES**

In 2006, we divested our J&L segment for \$359.2 million, subject to post-closing adjustment. We have received \$355.7 million in net proceeds related to the sale of this business of which \$5.5 million was received during second quarter of 2007. In accordance with the terms of the sale agreement, the parties have agreed to submit certain claims raised by the purchaser related to the post-closing adjustment to binding arbitration for resolution. We believe that the purchaser's claims are without merit. We expect to collect the remaining \$3.5 million prior to December 31, 2006. During the quarter, we recognized a pre-tax loss of \$1.7 million.

**BUSINESS SEGMENT REVIEW**

Our operations were previously organized into three reportable segments consisting of Metalworking Solutions & Services Group (MSSG), Advanced Materials Solutions Group (AMSG) and J&L Industrial Supply (J&L) and Corporate. We divested J&L in 2006. For the three months ended September 30, 2005, J&L outside sales, intersegment sales and operating income were \$65.0 million, \$0.2 million and \$6.8 million, respectively. The presentation of segment information reflects the manner in which we organize segments for making operating decisions and assessing performance.

**METALWORKING SOLUTIONS & SERVICES GROUP**

(in thousands)	Three Months Ended September 30,

External sales	\$357,084	\$331,580
Intersegment sales	33,443	47,737
Operating income	45,666	45,941

For the three months ended September 30, 2006, MSSG external sales increased 7.7 percent, or \$25.5 million, from the prior year quarter. This increase was driven primarily by growth in metalworking and industrial product sales in North America of 8.9 percent and 8.1 percent, respectively, an increase in European sales of 5.8 percent and growth in Asia Pacific sales of 14.6 percent. MSSG experienced growth in the aerospace, distribution and energy markets. Favorable foreign currency effects were \$7.4 million for the quarter.

For the three months ended September 30, 2006, operating income decreased \$0.2 million from the prior year quarter. The decrease in operating income is primarily due to higher raw material costs offset by continued cost containment and price realization in Europe and Asia Pacific.

**Table of Contents****ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (CONTINUED)****ADVANCED MATERIALS SOLUTIONS GROUP**

(in thousands)	Three Months Ended September 30,	
	2006	2005
External sales	\$185,727	\$149,184
Intersegment sales	9,753	9,224
Operating income	27,386	23,852

For the three months ended September 30, 2006, AMSG external sales increased 24.5 percent, or \$36.5 million, from the prior year quarter. The increase in sales is attributed to organic sales growth due to favorable market conditions and the effects of acquisitions. The increase in sales was achieved primarily in energy, engineered and mining and construction products, which were up 32.1 percent, 17.0 percent and 8.6 percent, respectively.

For the three months ended September 30, 2006, operating income increased \$3.5 million, or 14.8 percent, over the prior year quarter. The increase is attributed to sales growth discussed above and the effects of acquisitions partially offset by higher raw material costs.

**CORPORATE**

(in thousands)	Three Months Ended September 30,	
	2006	2005
Operating income	\$(24,691)	\$(25,561)

Corporate represents corporate shared service costs, certain employee benefit costs, stock-based compensation expense and eliminations of operating results between segments. For the three months ended September 30, 2006, operating loss decreased \$0.9 million, or 3.4 percent, compared to the prior year. The decrease is primarily attributed to reductions in employment costs of \$1.4 million and fees related to compliance with section 404 of the Sarbanes-Oxley Act of 2002 of \$1.5 million, partially offset by an unfavorable post-closing adjustment of \$1.7 million related to the J&L divestiture.

**LIQUIDITY AND CAPITAL RESOURCES**

Cash flows from discontinued operations are not deemed material and have been combined with cash flows from continuing operations within each cash flow statement category. The absence of cash flows from discontinued operations is not expected to have a material impact on our future liquidity and capital resources.

Our cash flow from operations is our primary source of financing for capital expenditures and internal growth. During the three months ended September 30, 2006, cash flow used for operating activities was \$18.8 million, compared to cash flow provided by operating activities of \$20.5 million for the prior year period. Cash flow used for operating activities for the period ended September 30, 2006 consists of net income and non-cash items totaling \$57.9 million offset by changes in certain assets and liabilities netting to \$76.7 million. Contributing to this change was a decrease in accrued income taxes of \$72.3 million as a result of tax payments related to the gain on divestiture of J&L and cash repatriated during 2006 under the American Jobs Creation Act (AJCA). During the three months ended September 30, 2006, cash paid for income taxes totaled \$86.2 million. Cash flow provided by operating activities for the three months ended September 30, 2005 consisted of net income and non-cash items totaling \$54.5 million offset by changes in certain assets and liabilities netting to \$34.0 million. Contributing to this change was an increase in inventory of \$33.8 million resulting from higher raw material costs and the increase in production to meet sales demand, offset by a net decrease in accounts receivable of \$6.4 million due to focused collection efforts.

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (CONTINUED)**

Net cash flow used for investing activities was \$75.8 million for the three months ended September 30, 2006, an increase of \$62.7 million, compared to \$13.1 million in the prior year period. During the three months ended September 30, 2006, cash used for investing activities includes \$22.7 million used for purchases of property, plant and equipment, which consisted primarily of equipment upgrades and \$73.9 million used for the acquisition of business assets, partially offset by proceeds from divestitures of \$20.2 million. During the prior year period, cash used for investing activities included \$14.9 million of purchases of property, plant and equipment, which consisted primarily of equipment upgrades.

During the three months ended September 30, 2006 net cash flow used for financing activities was \$21.3 million, an increase of \$9.0 million, compared to \$12.3 million in the prior year period. During the current year period, cash used for financing activities includes a \$10.6 million net decrease in borrowings, \$9.4 million for the repurchase of capital stock and \$7.3 million of cash dividends paid to shareowners offset by \$6.2 million of dividend reinvestment and the effects of employee benefit and stock plans. During the prior year period, cash provided by financing activities included a \$15.9 million net decrease in borrowings, \$4.6 million for the repurchase of capital stock, \$9.5 million of dividend reinvestment and the effects of employee benefit and stock plans and cash dividends paid to shareowners of \$7.3 million.

We believe that cash flow from operations and the availability under our credit lines will be sufficient to meet our cash requirements over the next 12 months.

There have been no material changes in our contractual obligations and commitments since June 30, 2006.

**OFF-BALANCE SHEET ARRANGEMENTS**

The Company is party to a three-year securitization program, which permits us to securitize up to \$10.0 million of accounts receivable. As of September 30, 2006, the Company had no securitized accounts receivable.

**FINANCIAL CONDITION**

Total assets were \$2,359.9 million at September 30, 2006, compared to \$2,435.3 million at June 30, 2006. Working capital decreased \$33.1 million to \$591.6 million at September 30, 2006 from \$624.7 million at June 30, 2006. The decrease in working capital is primarily driven by cash used for acquisitions of \$73.9 million partially offset by cash proceeds from divestitures of \$20.2 million.

Total liabilities decreased \$100.2 million to \$1,025.1 million at September 30, 2006 from \$1,125.3 million at June 30, 2006, primarily due to decreases in accrued income taxes of \$75.4 million. Shareowners' equity increased \$24.2 million to \$1,319.6 million as of September 30, 2006 from \$1,295.4 million as of June 30, 2006. The increase is primarily a result of net income of \$30.4 million and the effect of employee benefit and stock plans of \$8.4 million partially offset by cash dividends paid to shareowners of \$7.3 million and \$9.4 million for the purchase of treasury stock.

**DISCUSSION OF CRITICAL ACCOUNTING POLICIES**

There have been no material changes to our critical accounting policies since June 30, 2006.

**NEW ACCOUNTING STANDARDS**

In September 2006, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans* an amendment of FASB Statements No. 87, 88, 106, and 132(R) (SFAS 158). SFAS 158 requires an employer to recognize the overfunded or underfunded status of a defined benefit postretirement plan as an asset or liability in its statement of financial position and to recognize changes in that funded status in the year in which the changes occur through comprehensive income of a business entity. SFAS 158 also requires an employer to measure the funded status of a plan as of the date of its year-end statement of financial position. SFAS 158 is effective for Kennametal June 30, 2007. We are in the process of evaluating the provisions of SFAS 158 to determine the impact of adoption on our financial condition.

In September 2006, the Securities and Exchange Commission issued Staff Accounting Bulletin No. 108, (SAB 108), which expresses the staff's views regarding the process of quantifying financial statement misstatements. The guidance in SAB 108 must be applied in our 2007 annual financial statements. We are in the process of evaluating the guidance in SAB 108 to determine the impact, if any, on our results of operations or financial condition.

In September 2006, the FASB issued SFAS 157, *Fair Value Measurements* (SFAS 157). SFAS 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures about fair value measurements. SFAS 157 is effective for Kennametal July 1, 2008. We are in the process of evaluating the provisions of SFAS 157.

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (CONTINUED)**

In June 2006, the FASB issued FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes an Interpretation of FASB Statement No. 109 (FIN 48). FIN 48 prescribes a method of recognition, measurement, presentation and disclosure within the financial statements for uncertain tax positions that a company has taken or expects to take in a tax return. FIN 48 is effective for Kennametal July 1, 2007. We are in the process of evaluating the provisions of FIN 48 to determine the impact of adoption, if any, on our results of operations or financial condition.

**ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

We have experienced certain changes in our exposure to market risk from June 30, 2006. The fair value of our interest rate swap agreements was a liability of \$8.5 million as of September 30, 2006 compared to a liability of \$14.2 million as of June 30, 2006. The offset to this liability is a corresponding increase to long-term debt, as the instruments are accounted for as a fair value hedge of our long-term debt. The \$5.7 million change in the recorded value of these agreements was non-cash and was the result of marking these instruments to market.

There have been no other material changes to our market risk exposure since June 30, 2006.

**ITEM 4. CONTROLS AND PROCEDURES**

As of the end of the period covered by this quarterly report on Form 10-Q, the Company's management evaluated, with the participation of the company's Chief Executive Officer and Chief Financial Officer, the effectiveness of the Company's disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)). The Company's disclosure controls were designed to provide a reasonable assurance that information required to be disclosed in reports that we file or submit under the Securities Exchange Act of 1934, as amended (Exchange Act), is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission. It should be noted that the design of any system of controls is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions, regardless of how remote. However, the controls have been designed to provide reasonable assurance of achieving the controls' stated goals. Based on that evaluation, the Company's Chief Executive Officer and Chief Financial Officer, have concluded that the Company's disclosure controls and procedures are effective to provide reasonable assurance at September 30, 2006 to ensure that information required to be disclosed in the reports that we file or submit under the Exchange Act was (i) accumulated and communicated to management, including the Company's Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure and (ii) recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission.

There were no changes in the Company's internal control over financial reporting that occurred during the Company's most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

**SHARES OF CAPITAL STOCK ISSUED UNDER DIVIDEND REINVESTMENT PLAN**

As a result of a dividend paid on its capital stock, the Company issued 12,808 shares of capital stock pursuant to its Dividend Reinvestment Plan (DRIP) in excess of the number of shares that were previously registered under the Securities Act of 1933, as amended (the Securities Act) for the DRIP on Form S-3 registration statements on file with the Securities and Exchange Commission (SEC) which were referenced in the DRIP prospectus. Those shares were issued on August 4, 2006 and the closing price of the Company's capital stock on that date was \$52.71.

The Company corrected the administrative oversight by using its existing omnibus shelf registration statement on Form S-3 and filing a prospectus supplement to cover an additional 500,000 shares under the DRIP. The prospectus supplement was filed on November 7, 2006. We believe that the use of the omnibus shelf registration statement and filing of the prospectus supplement complied with the Securities Act.
