COLONIAL INVESTMENT GRADE MUNICIPAL TRUST ANNUAL REPORT

NOVEMBER 30, 2001

[graphic omitted]

PRESIDENT'S MESSAGE

DEAR SHAREHOLDER:

I want to take this opportunity to let you know that the sale of Liberty Financial's asset management companies -- including Colonial Management Associates -- to FleetBoston Financial was completed effective November 1, 2001.

In light of this change and recent turmoil in the markets, I think it is important to assure you that only the ownership of Colonial has changed. Your trust will continue to be guided by the same investment principles which attracted you to the trust in the first place.

The past year has been an interesting time for US investment markets. At the beginning of 2001, the Federal Reserve began lowering interest rates in hopes of stimulating the sagging economy. In total, we saw ten rate cuts in the first 11 months of the year, bringing the short-term interest rate down from 6.5% to 2.0%. An additional cut in December brought rates to an historic low of 1.75%. These aggressive rate cuts raised some concerns that inflationary pressures could surface, but inflation has thus far been kept in check. At the same time, economic weakness and stock market volatility has prompted investors to shift assets into the bond market -- a move which has benefited municipal bond prices.

Thank you for choosing Colonial Investment Grade Municipal Trust. If you have further questions, we encourage you to contact your financial advisor.

Sincerely,

/s/ Keith T. Banks

Keith T. Banks
President

MEET THE NEW PRESIDENT

Effective November 1, 2001, Mr. Keith T. Banks became president of Liberty Funds. Mr. Banks is currently chief investment officer and chief executive officer of Fleet Asset Management, a position he has held since 2000. Prior to joining Fleet, he was managing director and head of US equity for J.P. Morgan Investment Management from 1996 to 2000. He began his investment career in 1981 as an equity analyst at Home Insurance. A chartered financial analyst, Mr. Banks earned his BA from Rutgers University and his MBA from Columbia Business School.

PORTFOLIO MANAGERS' REPORT

TRUST MAINTAINED DURATION IN THE FACE OF FALLING INTEREST RATES

Colonial Investment Grade Municipal Trust generated an 11.21% (based on net asset value) return during the fiscal year ended November 30, 2001. The trust's return was comparable to its peer group, the Lipper General Municipal Debt Funds (Leveraged), which posted an average return of 10.46%. As the Federal Reserve cut rates throughout 2001, short-term rates fell sharply, steepening the yield curve. In the face of falling short-term rates, our primary strategy was to lock in favorable long-term rates by maintaining a relatively long average maturity.

LONGER AVERAGE DURATION BOOSTED PERFORMANCE WHEN INTEREST RATES FELL

We were convinced interest rates would continue to fall as economic growth slowed and the equity market continued to struggle. For this reason, we focused on maintaining our average duration at the long end of the curve. This strategy helped performance during the period, as the yield curve steepened in step with falling interest rates. We also focused on noncallable bonds and zero-coupon bonds, which pay interest only at maturity. Zeros sell at deep discounts and typically perform well when interest rates fall.

Our exposure to air transportation debt, however, hurt performance during the last three months of the period. Though this sector declined after the September 11 terrorist attacks, we believe that our holdings in this sector are fundamentally sound and expect them to recover during the coming year.

LONG-TERM OUTLOOK REMAINS STEADY

With interest rates at historic lows, we feel the Fed may only have one or two rate cuts left to help boost the economy. In our opinion, the economy will begin to recover slowly after another quarter or two of negative economic growth. As a result, we intend to maintain our strategy of locking in more favorable rates by seeking opportunities for bonds of 10 years and longer.

/s/ William C. Loring, Jr. /s/ Brian M. Hartford, CFA

William C. Loring, Jr. Brian M. Hartford, CFA

Effective December 19, 2001, the Colonial Investment Grade Municipal Trust is managed by Maureen G. Newman. Ms. Newman is a senior vice president of Colonial Management Associates, Inc. (CMA). Prior to joining CMA, she worked at Fidelity Investments for 11 years, managing several mutual funds. Ms. Newman received her BA in economics from Boston College and her MBA from Babson College. She is a chartered financial analyst, a member of the Boston Security Analysts Society and former chairman of the National Federation of Municipal Analysts.

Tax-exempt investing offers current tax-free income, but it also involves certain risks. The value of trust shares will be affected by interest rate changes and the creditworthiness of issues held in the trust. Interest income from certain tax-exempt bonds may be subject to the federal alternative minimum tax for individuals and corporations.

Quality breakdowns are calculated as a percentage of total investments, including short-term obligations. Ratings shown in the quality breakdown represent the highest rating assigned to a particular bond by one of the following nationally recognized rating agencies: Standard & Poor's Corporation, Moody's Investors Service, Inc. or Fitch Investors Service, Inc. Sector breakdowns are calculated as a percentage of net assets.

Because the trust is actively managed, there can be no guarantee that the trust will continue to maintain this quality breakdown or invest in these sectors in the future.

NOTES TO FINANCIAL STATEMENTS

November 30, 2001

NOTE 1. ACCOUNTING POLICIES

ORGANIZATION:

Colonial Investment Grade Municipal Trust (the "Trust"), is a Massachusetts business trust registered under the Investment Company Act of 1940 (the "Act"), as amended, as a diversified, closed-end, management investment company. The Trust's investment objective is to seek as high a level of after-tax total return as is consistent with prudent risk, by pursuing current income generally exempt from ordinary federal income tax and opportunities for long-term appreciation from a portfolio primarily invested in investment grade municipal bonds. The Trust authorized an unlimited number of common shares of beneficial interest and 2,400 Auction Preferred Shares ("APS").

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. The following is a summary of significant accounting policies that are consistently followed by the Trust in the preparation of its financial statements.

SECURITY VALUATION AND TRANSACTIONS:

Debt securities generally are valued by a pricing service based upon market transactions for normal, institutional-size trading units of similar securities. When management deems it appropriate, an over-the-counter or exchange bid quotation is used.

Futures contracts are valued based on the difference between the last sale price and the opening price of the contract.

Short-term obligations with a maturity of 60 days or less are valued at amortized cost.

Investments for which market quotations are not readily available are valued at fair value under procedures approved by the Trustees.

Security transactions are accounted for on the date the securities are purchased, sold or mature.

Edgar Filing: COLONIAL INVESTMENT GRADE MUNICIPAL TRUST - Form N-30D

Cost is determined and gains and losses are based upon the specific identification method for both financial statement and federal income tax purposes.

The Trust may trade securities on other than normal settlement terms. This may increase the risk if the other party to the transaction fails to deliver and causes the Trust to subsequently invest at less advantageous prices.

FEDERAL INCOME TAXES:

Consistent with the Trust's policy to qualify as a regulated investment company and to distribute all of its taxable and tax-exempt income, no federal income tax has been accrued.

At November 30, 2001, capital loss carryforwards available (to the extent provided in regulations) to offset future realized gains were approximately as follows:

YEAR OF EXPIRATION	CAPITAL LOSS CARRYFORWARD
2003	\$ 172,808
2004	1,454,485
2008	3,464,384
	\$5,091,677

Expired capital loss carryforwards, if any, are recorded as a reduction of paid-in capital.

INTEREST INCOME, DEBT DISCOUNT AND PREMIUM:

Interest income is recorded on the accrual basis. Original issue discount is accreted to interest income over the life of the security with a corresponding increase in the cost basis; market discount is not accreted. Premium is amortized against interest income with a corresponding decrease in the cost basis.

Effective December 1, 2001, the Trust will adopt the provisions of the AICPA Audit and Accounting Guide for Investment Companies and will be required to amortize premium and discount on all debt securities. Upon the effective date, this accounting principle change will not have an impact on total net assets, but will result in a reclassification between cost of securities held and net unrealized appreciation/depreciation. Management of the Trust believes that the impact of adopting this principle will not be material to the financial statements.

DISTRIBUTIONS TO SHAREHOLDERS:

Distributions to common and preferred shareholders are recorded on the ex- date.

The amount and character of income and gains to be distributed are determined in accordance with income tax regulations, which may differ from generally accepted accounting principles. Reclassifications are made to the Trust's capital accounts to reflect income and gains available for distribution (or available capital loss carryforwards) under income tax regulations.

The following reclassifications have been made to the financial statements.

	INCREASE (DECREASE)	
PAID-IN CAPITAL	UNDISTRIBUTED NET INVESTMENT INCOME	ACCUMULATED NET REALIZED LOSS

Edgar Filing: COLONIAL INVESTMENT GRADE MUNICIPAL TRUST - Form N-30D

\$62,788

\$14,724

\$(77,512)

These differences are primarily due to market discount reclassification. Net investment income, net realized gains (losses) and net assets were not affected by this reclassification.

Distributions to preferred shareholders are recorded daily and are payable at the end of each dividend period. Each dividend payment period for the APS is generally seven days. The applicable dividend rate for the APS on November 30, 2001 was 1.60%. For the year ended November 30, 2001, the Trust declared dividends to Auction Preferred shareholders amounting to \$1,811,142 representing an average APS dividend rate for such period of 3.02%.

NOTE 2. FEE AND COMPENSATION PAID TO AFFILIATES

MANAGEMENT FEE:

Colonial Management Associates, Inc. (the "Advisor") is the investment advisor of the Trust and furnishes accounting and other services and office facilities for a monthly fee equal to 0.65% annually of the Trust's average weekly net assets.

On November 1, 2001, Liberty Financial Companies, Inc., the former parent of the Advisor, completed the sale of its asset management business, including the Advisor, to Fleet National Bank ("Fleet"). This transaction resulted in a change of control of the Advisor and, therefore, an assignment of the Advisor's investment advisory contract with the Trust to Fleet. The Trust had obtained approval of a new investment advisory contract by the Trust's Board of Trustees and trust shareholders, which became effective upon completion of the sale. The new contract is identical to the prior contract in all material respects except for its effective and termination dates.

BOOKKEEPING FEE:

The Advisor is responsible for providing pricing and bookkeeping services to the Trust under a Pricing and Bookkeeping Agreement. Under a separate agreement (the "Outsourcing Agreement"), the Advisor has delegated those functions to State Street Bank and Trust Company ("State Street"). The Advisor pays fees to State Street under the Outsourcing Agreement.

During the period December 1, 2000 to June 30, 2001, the Advisor provided bookkeeping and pricing services to the Trust for a monthly fee equal to \$18,000 annually plus 0.0233% annually of the Trust's average net assets over \$50 million. Effective July 1, 2001, under its pricing and bookkeeping agreement with the Trust, the Advisor receives from the Trust an annual flat fee of \$10,000, paid monthly, and in any month that the Trust's average net assets are more than \$50 million, a monthly fee equal to the average net assets of the Trust for that month multiplied by a fee rate that is calculated by taking into account the fees payable to State Street under the Outsourcing Agreement.

OTHER:

The Trust pays no compensation to its officers, all of whom are employees of the Advisor.

The Trust's Trustees may participate in a deferred compensation plan which may be terminated at any time. Obligations of the plan will be paid solely out of the Trust's assets.

The Trust has an agreement with its custodian bank under which \$609 of custodian fees were reduced by balance credits applied for the year ended November 30, 2001. The Trust could have invested a portion of the assets utilized in connection with the expense offset arrangements in an income producing asset if it had not entered into such agreements.

Edgar Filing: COLONIAL INVESTMENT GRADE MUNICIPAL TRUST - Form N-30D

NOTE 3. PREFERRED SHARE OFFERING

On August 26, 1999, the Trust offered and currently has outstanding 2,400 APS. The APS are redeemable at the option of the Trust on any dividend payment date at the redemption price of \$25,000 per share, plus an amount equal to any dividends accumulated on a daily basis unpaid through the redemption date (whether or not such dividends have been declared). Total proceeds, net of commissions, of \$59,250,000, were received upon completion of the offering.

APS commissions of \$750,000 from the offering and costs incurred by the Trust in connection with the offering of the APS totaling \$190,094 and \$59,649 for the fiscal years 2000 and 1999, respectively, were recorded as a reduction of capital paid in excess of par applicable to common shares.

Under the Act, the Trust is required to maintain asset coverage of at least 200% with respect to the APS as of the last business day of each month in which any APS are outstanding.

Additionally, the Trust is required to meet more stringent asset coverage requirements under the terms of the APS and in accordance with the guidelines prescribed by the rating agencies. Should these requirements not be met, or should dividends accrued on the APS not be paid, the Trust may be restricted in its ability to declare dividends to common shareholders or may be required to redeem certain of the APS. At November 30, 2001, there were no such restrictions on the Trust.

NOTE 4. PORTFOLIO INFORMATION

INVESTMENT ACTIVITY:

During the year ended November 30, 2001, purchases and sales of investments, other than short-term obligations, were \$57,275,578 and \$57,511,277, respectively.

Unrealized appreciation (depreciation) at November 30, 2001, based on cost of investments for both financial statement and federal income tax purposes was:

Gross unrealized appreciation	\$11,997,281
Gross unrealized depreciation	(4,829,319)

Net unrealized appreciation	\$ 7,167,962

OTHER:

The Trust had greater than 10% of its net assets at November 30, 2001, invested in New York, Texas and Massachusetts, collectively.

There are certain risks arising from geographic concentration in any state. Certain revenue or tax related events in a state may impair the ability of certain issuers of municipal securities to pay principal and interest on their obligations.

The Trust may focus its investments in certain industries, subjecting it to greater risk than a fund that is more diversified.

The Trust may invest in municipal and Treasury bond futures contracts and purchase and write options on futures. The Trust may invest in these instruments to hedge against the effects of changes in the value of portfolio securities due to anticipated changes in interest rates and/or market conditions, for duration management, or when the transactions are economically appropriate to the reduction of risk inherent in the management of the Trust and not for trading purposes. The use of futures contracts and options involves certain risks, which include (1) imperfect correlation between the price movement of the instruments

Edgar Filing: COLONIAL INVESTMENT GRADE MUNICIPAL TRUST - Form N-30D

and the underlying securities, (2) inability to close out positions due to different trading hours, or the temporary absence of a liquid market, for either the instrument or the underlying securities or (3) an inaccurate prediction by the Advisor of the future direction of interest rates. Any of these risks may involve amounts exceeding the amount recognized in the Trust's Statement of Assets and Liabilities at any given time.

FINANCIAL HIGHLIGHTS

Selected data throughout each period is as follows
(common shares unless otherwise noted):

REPORT OF INDEPENDENT ACCOUNTANTS

TO THE SHAREHOLDERS AND THE TRUSTEES OF COLONIAL INVESTMENT GRADE MUNICIPAL TRUST

In our opinion, the accompanying statement of assets and liabilities, including the investment portfolio, and the related statements of operations and of changes in net assets and the financial highlights present fairly, in all material respects, the financial position of Colonial Investment Grade Municipal Trust (the "Trust") at November 30, 2001, the results of its operations, the changes in its net assets and the financial highlights for the periods indicated, in conformity with accounting principles generally accepted in the United States of America. These financial statements and the financial highlights (hereafter referred to as "financial statements") are the responsibility of the Trust's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these financial statements in accordance with auditing standards generally accepted in the United States of America which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits, which included confirmation of portfolio positions at November 30, 2001 by correspondence with the custodian and brokers, provide a reasonable basis for our opinion.

Thomas C. Theobald	2,194	7
Anne-Lee Verville	2,194	7

FEDERAL TAX INFORMATION

99.35% of the distributions from net investment income will be treated as exempt income for federal income tax purposes.

DIVIDEND REINVESTMENT PLAN

As a shareholder in the Trust you are eligible to participate in the Dividend Reinvestment Plan.

The Trust generally distributes net investment income monthly and capital gains annually. Under the Trust's Dividend Reinvestment Plan (the "Plan") all distributions will be reinvested automatically in additional shares of the Trust, unless the shareholder elects to receive cash or the shares are held in broker or nominee name and a reinvestment service is not provided by the broker or nominee. All cash distributions will be mailed by check directly to the record holder by the dividend paying agent.

If the market price of the shares on the distribution payment date is equal to or greater than the net asset value, Plan participants will be issued shares at the higher of net asset value or 95% of the market price. The aggregate market value of the shares may constitute income to shareholders for federal income tax purposes. However, if the market price of the shares is less than the net asset value, shares will be bought as soon as practicable (but no more than 30 days after the distribution, except as may be required to comply with federal securities laws) in the open market for the accounts of Plan participants. If, during this purchase period, the market price surpasses the net asset value, the average per share price paid may exceed the net asset value of the shares, resulting in the acquisition of fewer shares than if the distribution had been in newly-issued shares.

All Plan accounts receive written confirmations of all transactions. Shares purchased under the Plan are held in uncertificated form. Each shareholder's proxy includes shares purchased pursuant to the Plan. The automatic reinvestment of distributions does not relieve participants of any income tax payable on the distributions.

Fees and expenses of the Plan other than brokerage charges are incurred on shares issued directly by the Trust. Participants will bear a pro-rata share of brokerage charges incurred on open market purchases.

A Plan participant may terminate his or her participation by written notice to the Plan agent. The Plan may be amended or terminated on 30 days written notice to the Plan participants. All correspondence concerning the Plan should be directed to State Street Bank and Trust Company, the Plan agent, by mail at P.O. Box 8200, Boston, MA 02266-8200 or by phone at 1-800-426-5523.
