

ANADARKO PETROLEUM CORP

Form 425

April 24, 2019

Filed by Occidental Petroleum Corporation

Pursuant to Rule 425 under the Securities Act of 1933

and deemed filed pursuant to Rule 14a-12

under the Securities Exchange Act of 1934

Subject Company: Anadarko Petroleum Corporation

Commission File No.: 001-08968

April 24, 2019 Occidental Proposal to Acquire Anadarko

---

**Cautionary Statements Forward-Looking Statements** Any statements in this presentation about Occidental Petroleum Corporation's ("Occidental") expectations, beliefs, plans or forecasts, including statements regarding the proposed transaction between Occidental and Anadarko Petroleum Corporation ("Anadarko"), benefits and synergies of the proposed transaction and future opportunities for the combined company and products and securities, that are not historical facts are forward-looking statements. These statements are typically identified by words such as "estimate," "project," "predict," "will," "would," "should," "could," "may," "might," "anticipate," "plan," "intend," "believe," "expect," "objective," "likely" or similar expressions that convey the prospective nature of events or outcomes. Forward-looking statements involve estimates, expectations, projections, goals, forecasts, assumptions, risks and uncertainties. Actual results may differ from anticipated results, sometimes materially, and reported or expected results should not be considered an indication of future performance. Factors that could cause actual results to differ include, but are not limited to: global commodity pricing fluctuations; changes in supply and demand for Occidental's products; higher-than-expected costs; the regulatory approval environment; not successfully completing, or any material delay of, field developments, expansion projects, capital expenditures, efficiency projects, acquisitions or dispositions; technological developments; uncertainties about the estimated quantities of oil and natural gas reserves; lower-than-expected production from operations, development projects or acquisitions; exploration risks; general economic slowdowns domestically or internationally; political conditions and events; liability under environmental regulations including remedial actions; litigation; disruption or interruption of production or manufacturing or facility damage due to accidents, chemical releases, labor unrest, weather, natural disasters, cyber-attacks or insurgent activity; and failures in risk management. Such factors also include the ultimate outcome of any possible transaction between Occidental and Anadarko, including the possibility that Anadarko will reject the proposed transaction with Occidental or that the terms of any definitive agreement will be materially different from those described herein; uncertainties as to whether Anadarko will cooperate with Occidental regarding the proposed transaction; the parties' ability to consummate the proposed transaction; the conditions to the completion of the proposed transaction, including the receipt of Anadarko stockholder approval and Occidental stockholder approval; that the regulatory approvals required for the proposed transaction may not be obtained on the terms expected or on the anticipated schedule or at all; Occidental's ability to finance the proposed transaction; Occidental's indebtedness, including the substantial indebtedness Occidental expects to incur in connection with the proposed transaction and the need to generate sufficient cash flows to service and repay such debt; Occidental's ability to meet expectations regarding the timing, completion and accounting and tax treatments of the proposed transaction; the possibility that Occidental may be unable to achieve expected synergies and operating efficiencies within the expected time-frames or at all and to successfully integrate Anadarko's operations with those of Occidental; that such integration may be more difficult, time-consuming or costly than expected; that operating costs, customer loss and business disruption (including, without limitation, difficulties in maintaining relationships with employees, customers or suppliers) may be greater than expected following the proposed transaction or the public announcement of the proposed transaction; the retention of certain key employees of Anadarko may be difficult; that Anadarko and Occidental are subject to intense competition and increased competition is expected in the future; general economic conditions that are less favorable than expected. Additional risks that may affect Occidental's results of operations and financial position appear in Part I, Item 1A "Risk Factors" of Occidental's Annual Report on Form 10-K for the year ended December 31, 2018, and in Occidental's other filings with the U.S. Securities and Exchange Commission ("SEC"). Because the factors referred to above could cause actual results or outcomes to differ materially from those expressed or implied in any forward-looking statements, you should not place undue reliance on any such forward-looking statements. Further, any forward-looking statement speaks only as of the date of this presentation and, unless legally required, Occidental does not undertake any obligation to update any forward-looking statement, as a result of new information, future events or otherwise.

---

**Cautionary Statements No Offer or Solicitation** This presentation does not constitute an offer to sell or the solicitation of an offer to buy any securities or a solicitation of any vote or approval, nor shall there be any sale of securities in any jurisdiction in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any such jurisdiction. No offer of securities shall be made except by means of a prospectus meeting the requirements of Section 10 of the Securities Act of 1933, as amended. **Additional Information and Where to Find It** This presentation relates to a proposal which Occidental has made for an acquisition of Anadarko. In furtherance of this proposal and subject to future developments, Occidental (and, if a negotiated transaction is agreed, Anadarko) may file one or more registration statements, proxy statements, tender offer statements or other documents with the SEC. This presentation is not a substitute for any proxy statement, registration statement, tender offer statement, prospectus or other document Occidental and/or Anadarko may file with the SEC in connection with the proposed transactions. **INVESTORS AND SECURITY HOLDERS ARE URGED TO READ THE PROXY STATEMENT(S), REGISTRATION STATEMENT(S), TENDER OFFER STATEMENT, PROSPECTUS AND ANY OTHER RELEVANT DOCUMENTS FILED WITH THE SEC CAREFULLY IN THEIR ENTIRETY IF AND WHEN THEY BECOME AVAILABLE BECAUSE THEY WILL CONTAIN IMPORTANT INFORMATION ABOUT OCCIDENTAL, ANADARKO AND THE PROPOSED TRANSACTIONS.** Any definitive proxy statement(s) or prospectus(es) (if and when available) will be mailed to stockholders of Occidental and/or Anadarko, as applicable. Investors and security holders will be able to obtain copies of these documents (if and when available) and other documents filed with the SEC by Occidental free of charge through the website maintained by the SEC at [www.sec.gov](http://www.sec.gov). Copies of the documents filed by Occidental (if and when available) will also be made available free of charge by accessing Occidental's website at [www.oxy.com](http://www.oxy.com). **Participants** This presentation is neither a solicitation of a proxy nor a substitute for any proxy statement or other filings that may be made with the SEC. Nonetheless, Occidental and its directors and executive officers and other members of management and employees may be deemed to be participants in the solicitation of proxies in respect of the proposed transactions. Information about Occidental's executive officers and directors is available in Occidental's Annual Report on Form 10-K for the year ended December 31, 2018, which was filed with the SEC on February 21, 2019, and in its proxy statement for the 2019 Annual Meeting which was filed with the SEC on March 28, 2019. To the extent holdings of Occidental securities have changed since the amounts printed in the proxy statement for the 2019 Annual Meeting, such changes have been or will be reflected on Statements of Change in Ownership on Form 4 filed with the SEC. Additional information regarding the interests of such potential participants will be included in one or more registration statements, proxy statements, tender offer statements or other documents filed with the SEC if and when they become available. These documents (if and when available) may be obtained free of charge from the SEC's website <http://www.sec.gov>.

---

**Cautionary Statements Use of non-GAAP Financial Information** This presentation includes non-GAAP financial measures. Where available, reconciliations to comparable GAAP financial measures can be found on Occidental's website at [www.oxy.com](http://www.oxy.com). Occidental is unable to provide a reconciliation of non-GAAP financial measures contained in this presentation that are presented on a forward-looking basis because Occidental is unable, without unreasonable efforts, to estimate and quantify the most directly comparable GAAP components, largely because predicting future operating results is subject to many factors outside of Occidental's control and not readily predictable and that are not part of Occidental's routine operating activities, including various domestic and international economic, regulatory, political and legal factors.

**Cautionary Note to U.S. Investors** The Securities and Exchange Commission (SEC) permits oil and gas companies, in their filings with the SEC, to disclose only proved, probable and possible reserves. Any reserve estimates provided in this presentation that are not specifically designated as being estimates of proved reserves may include "potential" reserves and/or other estimated reserves not necessarily calculated in accordance with, or contemplated by, the SEC's latest reserve reporting guidelines. U.S. investors are urged to consider closely the oil and gas disclosures in our 2018 Form 10-K and other reports and filings with the SEC. Copies are available from the SEC and through our website, [www.oxy.com](http://www.oxy.com)

---

Compelling Strategic & Financial Merits Highly accretive to CFPS and Free CFPS after dividends \$3.5 B free cash flow improvements through synergies and capital reduction \$10-15 B of planned portfolio optimization and free cash flow support rapid deleveraging Oxy's shale, Enhanced Oil Recovery (EOR), and major project expertise applied across complementary asset base Oxy has operated in over 40 countries, most U.S. basins, Colorado, and the Gulf of Mexico in the last 30 years Completely aligned with Oxy's dividend + growth strategy Moderating growth to 5% across a more diverse high return portfolio greatly enhances free cash generation and security Cash Flow Per Share calculated as cash flow from operations before working capital, less distributions attributable to non-controlling interest, divided by total diluted shares outstanding. Free Cash Flow Per Share calculated as cash flow from operations before working capital, less distributions attributable to non-controlling interest, capex and dividends, divided by total diluted shares outstanding.

---

Proposal Details Structure and Consideration Oxy proposal to acquire Anadarko for \$76.00 per share –\$38.00 cash and 0.6094 Oxy shares per Anadarko share –Equity purchase price of \$38 B –Total transaction value of \$57 B (including Western Midstream debt and non-controlling interest) Offer price in line with Anadarko 52-week high and Oxy offers made in 2018 and 2019 Pro Forma Ownership 71 % legacy Oxy shareholders 29 % legacy Anadarko shareholders Financing Oxy will issue approximately 309 MM shares to Anadarko shareholders Committed financing in place for cash requirement of transaction \$10-15 B of planned asset sales in the next 12 – 24 months
