ISUMMIT PARTNERS, LLC  
NOTES TO FINANCIAL STATEMENTS  
FROM INCEPTION JANUARY 18, 2000 THROUGH DECEMBER 31, 2000

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

-----  
This summary of significant accounting policies of ISUMMIT PARTNERS, LLC, dba My Family MD (the Company) is presented to assist in understanding the Company's financial statements. The financial statements and notes are representations of the Company's management who is responsible for its integrity and objectivity. These accounting policies conform to generally accepted accounting principles and have been consistently applied in the preparation of the financial statements.

a. Business Activity

-----  
The Company was formed in January 2000. The focus of the Company is to allow patients to assist their physicians in both wellness and disease management through their unique MD Wizard application readily accessible via the Internet. The purpose of the Internet enabled software is to streamline clinical care for the patient, physician and institutions, including insurance providers and hospitals.

b. Cash and Cash Equivalents

-----  
The Company considers all highly liquid investments with maturities of three months or less at the time of the purchase to be cash equivalents.

c. Property and Equipment

-----  
Property and equipment are stated at cost. Depreciation is computed on the straight-line method (half-year convention) over estimated useful life. The estimated useful lives of property and equipment are from 3 to 5 years. Expenditures for maintenance and repairs are charged against operations. Renewals and betterments that materially extend the life of the assets are capitalized.

d. Revenue Recognition

-----  
In October 1997, the American Institute of Certified Public Accountant's Accounting Standards Executive Committee ("ACSEC") issued Statement of Position ("SOP") 97-2, "Software Revenue Recognition." SOP 97-2 was effective January 1, 1998 and generally requires revenue earned on software arrangements involving multiple elements such as software products, upgrades, enhancements, post-contract customer support, installation and training to be allocated to each element based on the relative fair value of the elements. Upon commencement of operations, the Company will adopt SOP 97-2 and SOP 98-9 as discussed below.

In December 1998, the ACSEC released SOP 98-9, "Modification of SOP 97-2, "Software Revenue Recognition with Respect to Certain Transactions." SOP 98-9 amends SOP 97-2 to require that an entity recognize revenue for multiple element arrangements by means of the "residual method" when (1) there is vendor-specific objective evidence ("VSOE") of the fair values of all the undelivered elements that are not accounted for by means of long-term contract accounting, (2) VSOE

Edgar Filing: I TRAX INC - Form 8-K/A

of fair value does not exist for one or more of the delivered elements, and (3) all revenue recognition criteria of SOP 97-2 (other than the requirement for VSOE of the fair value of each delivered element) are satisfied.
