Cigna Corporation ("Cigna") officials expect to participate in meetings with investors and analysts on January 9 and 10, 2018 at the J.P. Morgan Healthcare Conference, including a presentation by David M. Cordani, Cigna's President and Chief Executive Officer. During these meetings, Cigna officials expect to disclose preliminary expectations that shareholders' net income for full year 2017 is projected to be in the range of \$2.115 billion to \$2.165 billion and reaffirm projected full year 2017 consolidated adjusted income from operations, which remains in the range of \$2.60 billion to \$2.65 billion, as described in the table below.

(dollars in millions)	Estimated Full Year 2017 Results
Shareholders' net income	\$2,115 — \$2,165
Net realized investment losses (gains)	(\$156)
Net amortization of other acquired intangible assets	\$72
Special items:	
Debt extinguishment costs	\$209
Merger-related transaction costs	\$17
Long-term care guaranty fund assessment	\$83
Estimated impact of U.S. tax reform legislation	\$260
Adjusted income from operations	\$2,600 — \$2,650

Because the financial statements for the year ended December 31, 2017 have not yet been completed and will be subject to closing adjustments and audit procedures, the estimates provided herein are subject to change, actual results may differ materially from these estimates and additional special items may be identified. The impact of the U.S. tax reform legislation may differ from the estimate above, due to, among other things, changes in interpretations and assumptions that Cigna has made as well as additional regulatory guidance that may be issued.

Cigna discussed its full year 2017 outlook in its press release dated November 2, 2017 and during the related investor conference call. The press release and the conference call transcript are available under Quarterly Reports and SEC Filings in the Investor Relations section of the Company's website located at www.cigna.com/aboutcigna/investors.

Adjusted income (loss) from operations is defined as shareholders' net income (loss) excluding the following after-tax adjustments: net realized investment results, net amortization of other acquired intangible assets and special items. Adjusted income (loss) from operations is a measure of profitability used by Cigna's management because it presents the underlying results of operations of Cigna's businesses and permits analysis of trends in underlying revenue, expenses and shareholders' net income. This consolidated measure is not determined in accordance with accounting principles generally accepted in the United States of America ("GAAP") and should not be viewed as a substitute for the most directly comparable GAAP measure, shareholders' net income.

Cigna's presentation is expected to begin at approximately 3:30 p.m. PST on January 9, 2018. Investors, analysts, and the general public are invited to listen to the presentation free over the Internet via webcast by visiting <http://www.cigna.com> and clicking on About Cigna, then Investor Relations, then the Investor Events link. To listen to this presentation live on the Internet, visit <http://www.cigna.com> at least 15 minutes prior to the presentation (to download and install any necessary audio software).
