TIFFANY & CO. AND SUBSIDIARIES  
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
(Unaudited)

1. CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

The accompanying condensed consolidated financial statements include the accounts of Tiffany & Co. (the "Company") and its subsidiaries in which a controlling interest is maintained. Controlling interest is determined by majority ownership interest and the absence of substantive third-party participating rights or, in the case of variable interest entities, by majority exposure to expected losses, residual returns or both. Intercompany accounts, transactions and profits have been eliminated in consolidation. Subsequent events have been evaluated through the date and time the financial statements were issued on December 2, 2009. The interim statements are unaudited and, in the opinion of management, include all adjustments (which include only normal recurring adjustments) necessary to fairly state the Company's financial position as of October 31, 2009 and 2008 and the results of its operations and cash flows for the interim periods presented. The condensed consolidated balance sheet data for January 31, 2009 is derived from the audited financial statements, which are included in the Company's Annual Report on Form 10-K and should be read in connection with these financial statements. As permitted by the rules of the Securities and Exchange Commission, these financial statements do not include all disclosures required by generally accepted accounting principles.

The Company's business is seasonal in nature, with the fourth quarter typically representing at least one-third of annual net sales and approximately one-half of annual net earnings. Therefore, the results of its operations for the three and nine months ended October 31, 2009 and 2008 are not necessarily indicative of the results of the entire fiscal year.

2. NEW ACCOUNTING STANDARDS

In December 2007, new accounting guidance was issued by the Financial Accounting Standards Board ("FASB") which requires a company to clearly identify and present ownership interests in subsidiaries held by parties other than the company in the consolidated financial statements within the

## Edgar Filing: TIFFANY & CO - Form 10-Q

equity section but separate from the company's equity. It also requires the amount of consolidated net earnings attributable to the parent and to the noncontrolling interest to be clearly identified and presented on the face of the consolidated statement of earnings; changes in ownership interest to be accounted for similarly, as equity transactions; and, when a subsidiary is deconsolidated, that any retained noncontrolling equity investment in the former subsidiary and the gain or loss on the deconsolidation of the subsidiary be measured at fair value. The new requirements did not have a material effect on the Company's financial position or earnings.

In September 2006, new accounting guidance was issued by the FASB which establishes a framework for measuring fair value of assets and liabilities and expands disclosures about fair value measurements. The changes to current practice resulting from the application of the new guidance relate to the definition of fair value, the methods used to measure fair value and the expanded disclosures about fair value measurements. The guidance is effective for fiscal years beginning after November 15, 2007. In February 2008, the implementation of the provisions relating to nonfinancial assets and liabilities, except those that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually), was deferred to fiscal years beginning after November 15, 2008. Management adopted the remaining provisions on February 1, 2009. This adoption impacts the way in which the Company calculates fair value for its annual impairment review of goodwill and when conditions exist that require the Company to calculate the fair value of long-lived assets; management has determined that this did not have a material effect on the Company's financial position or earnings.

7

### 3. RESTRUCTURING CHARGES

In the fourth quarter of 2008, the Company's New York subsidiary offered a voluntary retirement incentive to approximately 800 U.S. employees who met certain age and service eligibility requirements. Approximately 600 employees accepted the early retirement incentive and retired from the Company effective February 1, 2009. In addition, to further align the Company's ongoing cost structure with the anticipated retail environment for luxury goods, management approved a plan in January 2009 to involuntarily terminate additional manufacturing, selling and administrative employees, primarily in the U.S. The employment of most of these employees ended in February 2009. In total, these actions resulted in a reduction of approximately 10% of worldwide staffing.

Cash expenditures related to the restructuring charges are expected to total \$33,361,000. Most of this amount will be paid in 2009. The following table presents the reconciliation of the cash-related restructuring liabilities and spending against those liabilities:

(in thousands)	Restructuring Liability
Liability as of February 1, 2009	\$ 33,361
Payments	(31,642)

## Edgar Filing: TIFFANY & CO - Form 10-Q

Liability as of October 31, 2009 \$ 1,719  
=====

### 4. ACQUISITIONS & DISPOSITIONS

On October 26, 2009, the Company acquired all noncontrolling interests in two majority-owned entities that indirectly engage through majority-owned subsidiaries in diamond sourcing and polishing operations in South Africa and Botswana, respectively, for total consideration of \$18,000,000, of which \$11,000,000 was paid upon closing of the transaction and the remaining \$7,000,000 will be paid on or before August 1, 2010. This acquisition is accounted for as an equity transaction since the Company maintained control of the two entities prior to the acquisition. Therefore, the Company recorded a decrease to additional paid-in capital of \$20,460,000 in the third quarter of 2009 related to this transaction. In addition, the Company paid \$4,000,000, to terminate a third party management agreement. Management determined that this transaction was separate from the acquisition of the remaining noncontrolling interests; accordingly, the termination fee was recorded within selling, general and administrative expenses.

In the fourth quarter of 2008, management concluded that it would no longer invest in its IRIDESSE business due to its ongoing operating losses and insufficient near-term growth prospects, especially in the current economic environment. Therefore, management committed to a plan to close IRIDESSE locations in 2009 as the Company reached agreements with landlords and sold its inventory. All IRIDESSE stores have been closed.

The results of IRIDESSE are presented as a discontinued operation in the condensed consolidated statements of earnings for all periods presented. Prior to the reclassification, IRIDESSE results had been included within the Other non-reportable segment.

Summarized statements of earnings data for IRIDESSE are as follows:

	Three Months Ended October 31,		Nine Months E	
(in thousands)	2009	2008	2009	
Net sales	\$ 1,044	\$ 2,078	\$	13,231

Benefit from income taxes	17	1,207		2,881
Net earnings (loss) from discontinued operations	\$ 30	\$ (1,779)	\$	(3,013)

## Edgar Filing: TIFFANY & CO - Form 10-Q

### 5. INVENTORIES

(in thousands)	October 31, 2009	January 31, 2009
Finished goods	\$ 1,046,648	\$ 1,115,333
Raw materials	438,360	416,805
Work-in-process	56,880	69,098
Inventories, net	\$ 1,541,888	\$ 1,601,236

### 6. INCOME TAXES

The effective income tax rate for the third quarter of 2009 was 22.0% versus 32.1% in the prior year. The effective income tax rate for the nine months ended October 31, 2009 was 29.2% versus 35.8% in the prior year. The decrease in the effective income tax rates in 2009 were due to favorable reserve adjustments of approximately \$5,600,000 and \$11,200,000 in the third quarter and nine months ended October 31, 2009, respectively, associated with the settlement of certain tax audits and the expiration of statutory periods. Accordingly, during the nine months ended October 31, 2009, the gross amount of unrecognized tax benefits decreased \$25,589,000 to \$28,892,000. There were no material changes to accrued interest and penalties as of that date.

As a matter of course, various taxing authorities regularly audit the Company. The Company's tax filings are currently being examined by tax authorities in jurisdictions where its subsidiaries have a material presence, including New York state (tax years 2004-2007) and Japan (tax years 2004-2007). Tax years from 2003-present are open to examination in U.S. Federal, various state and other foreign jurisdictions. The Company believes that its tax positions comply with applicable tax laws and that it has adequately provided for these matters. However, the audits may result in proposed assessments where the ultimate resolution may result in the Company owing additional taxes. The Company does not anticipate any material changes to the total gross amount of unrecognized tax benefits over the next 12 months. Future developments may result in a change in this assessment.

### 7. EARNINGS PER SHARE

Basic earnings per share ("EPS") is computed as net earnings divided by the weighted-average number of common shares outstanding for the period. Diluted EPS includes the dilutive effect of the assumed exercise of stock options and unvested restricted stock units.

The following table summarizes the reconciliation of the numerators and denominators for the basic and diluted EPS computations:

(in thousands)	Three Months Ended October 31,	Nine Oc
	2009	2008

Edgar Filing: TIFFANY & CO - Form 10-Q

Net earnings for basic and diluted EPS	\$	43,339	\$	43,777	\$	124,
Weighted-average shares for basic EPS		124,202		123,399		124,
Incremental shares based upon the assumed exercise of stock options and unvested restricted stock units		1,380		1,500		
Weighted-average shares for diluted EPS		125,582		124,899		124,

For the three months ended October 31, 2009 and 2008, there were 3,528,000 and 3,665,000 stock options and restricted stock units excluded from the computations of earnings per diluted share due to their antidilutive effect. For the nine months ended October 31, 2009 and 2008, there were 6,380,000 and

9

3,108,000 stock options and restricted stock units excluded from the computations of earnings per diluted share due to their antidilutive effect.

8. DEBT

In July 2009, the Company entered into a new \$400,000,000 multi-bank, multi-currency, committed unsecured revolving credit facility ("Credit Facility") and has the option to increase the committed amount to \$500,000,000, subject to bank approval. The Credit Facility replaces the Company's previous \$450,000,000 revolving credit facility. The Credit Facility is intended for working capital and other corporate purposes and includes specific financial covenants and ratios and limits certain payments, investments and indebtedness, in addition to other requirements customary to such borrowings. Borrowings are at nine participating banks and are at interest rates based upon local currency borrowing rates plus a margin based on the Company's leverage ratio. There was \$30,906,000 outstanding (with a weighted average interest rate of 2.9%) and \$369,094,000 available to be borrowed under the Credit Facility at October 31, 2009. The Credit Facility will expire in July 2012.

In April 2009, the Company, in a private transaction with various institutional lenders, issued, at par, \$50,000,000 of 10% Series A Senior Notes due April 2018. The proceeds are available for general corporate purposes. The agreement requires lump sum repayments upon maturity and includes specific financial covenants and ratios and limits certain payments, investments and indebtedness, in addition to other requirements customary to such borrowings. The note purchase agreement contains provisions for an uncommitted shelf facility by which the Company may issue, over the next three years, up to an additional \$100,000,000 of Senior Notes for up to a 12-year term at a fixed interest rate based on the U.S. Treasury rates at the time of borrowing plus an applicable credit spread.

## Edgar Filing: TIFFANY & CO - Form 10-Q

In February 2009, the Company, in a private transaction, issued, at par, \$125,000,000 of 10% Series A-2009 Senior Notes due February 2017 and \$125,000,000 of 10% Series B-2009 Senior Notes due February 2019. The proceeds are available to refinance existing indebtedness and for general corporate purposes. The agreement requires lump sum repayments upon maturity and includes specific financial covenants and ratios and limits certain payments, investments and indebtedness, in addition to other requirements customary to such borrowings.

### 9. HEDGING INSTRUMENTS

#### Background Information

The Company uses a limited number of derivative financial instruments, including interest rate swap agreements, forward contracts, put option contracts and net-zero-cost collar arrangements (combination of call and put option contracts) to mitigate its exposures to changes in interest rates, foreign currency and precious metal prices. Derivative instruments are recorded on the consolidated balance sheet at their fair values, as either assets or liabilities, with an offset to current or comprehensive earnings, depending on whether the derivative is designated as part of an effective hedge transaction and, if it is, the type of hedge transaction. If a derivative instrument meets certain hedge accounting criteria, the derivative instrument is designated as one of the following on the date the derivative is entered into:

- o Fair Value Hedge - A hedge of the exposure to changes in the fair value of a recognized asset or liability or an unrecognized firm commitment. For fair value hedge transactions, both the effective and ineffective portions of the changes in the fair value of the derivative and changes in the fair value of the item being hedged are recorded in current earnings.
- o Cash Flow Hedge - A hedge of the exposure to variability in the cash flows of a recognized asset, liability or a forecasted transaction. For cash flow hedge transactions, the effective portion of the changes in fair value of derivatives are reported as other comprehensive income ("OCI") and are recognized in current earnings in the period or periods during which the hedged transaction affects current earnings. Amounts excluded from the effectiveness calculation and any ineffective portions of the change in fair value of the derivative are recognized in current earnings.

The Company formally documents the nature and relationships between the hedging instruments and hedged

items for a derivative to qualify as a hedge at inception and throughout the hedged period. The Company also documents its risk management objectives, strategies for undertaking the various hedge transactions and method of assessing hedge effectiveness. Additionally, for hedges of forecasted transactions, the significant characteristics and expected terms of a forecasted transaction must be specifically identified, and it must be probable that each forecasted transaction will occur. If it were deemed no longer probable that the forecasted transaction would occur, the gain or loss on the derivative financial instrument would be recognized in current earnings. Derivative financial instruments qualifying for hedge accounting

## Edgar Filing: TIFFANY & CO - Form 10-Q

must maintain a specified level of effectiveness between the hedge instrument and the item being hedged, both at inception and throughout the hedged period.

The Company does not use derivative financial instruments for trading or speculative purposes.

### Types of Derivative Instruments

**Interest Rate Swap Agreements** - In the second quarter of 2009, the Company entered into interest rate swap agreements to effectively convert its fixed rate 2002 Series D and 2008 Series A obligations to floating rate obligations. Additionally, since the fair value of the Company's fixed rate long-term debt is sensitive to interest rate changes, the interest rate swap agreements serve as a hedge to changes in the fair value of these debt instruments. The Company is hedging its exposure to changes in interest rates over the remaining maturities of the debt agreements being hedged. The Company accounts for the interest rate swaps as fair value hedges. As of October 31, 2009, the notional amount of interest rate swap agreements outstanding was \$160,000,000.

**Foreign Exchange Forward Contracts** - The Company uses foreign exchange forward contracts to offset the foreign currency exchange risks associated with foreign currency-denominated liabilities and intercompany transactions between entities with differing functional currencies. These foreign exchange forward contracts are designated and accounted for as either cash flow hedges or economic hedges that are not designated as hedging instruments. As of October 31, 2009, the notional amount of foreign exchange forward contracts accounted for as cash flow hedges was approximately \$107,729,000 and the notional amount of foreign exchange forward contracts accounted for as undesignated hedges was approximately \$45,815,000. The term of all outstanding foreign exchange forward contracts as of October 31, 2009 ranged from one to ten months.

**Put Option Contracts** - The Company's wholly-owned subsidiary in Japan satisfies nearly all of its inventory requirements by purchasing merchandise, payable in U.S. dollars, from the Company's principal subsidiary. To minimize the potentially negative effect of a significant strengthening of the U.S. dollar against the Japanese yen, the Company purchases put option contracts as hedges of forecasted purchases of merchandise over a maximum term of 12 months. If the market yen exchange rate at the time of the put option contract's expiration is stronger than the contracted exchange rate, the Company allows the put option to expire, limiting its loss to the cost of the put option contract. The Company accounts for its put option contracts as cash flow hedges. The Company assesses hedge effectiveness based on the total changes in the put option contracts' cash flows. As of October 31, 2009, the notional amount of put option contracts accounted for as cash flow hedges was \$10,000,000. During October 2009, the Company de-designated several of its outstanding put option contracts (notional amount of \$107,729,000) and entered into offsetting call option contracts. These put and call option contracts are accounted for as undesignated hedges. Any gains or losses on these put option contracts are substantially offset by losses or gains on the call option contracts.

**Precious Metal Collars & Forward Contracts** - The Company periodically hedges a portion of its forecasted purchases of precious metals for use in its internal manufacturing operations in order to minimize the effect of volatility in precious metal prices. The Company may use a combination of call and put option contracts in net-zero-cost collar arrangements ("precious metal collars") or forward contracts. For precious metal collars, if the price of the precious metal at the time of the expiration

Edgar Filing: TIFFANY & CO - Form 10-Q

of the precious metal collar is within the call and put price, the precious metal collar would expire at no cost to the Company. The Company accounts for its precious metal collars and forward contracts as cash flow hedges. The Company assesses hedge effectiveness based on the total changes in the precious metal collars' cash flows. The maximum term over which the Company is hedging its exposure to the variability of future cash flows for all forecasted transactions is 12 months. As of October 31, 2009, there were 3,500 ounces of platinum and 103,000 ounces of silver precious metal collars and forward contracts outstanding.

- and other expenses, net on the Company's Condensed Consolidated Statement of Earnings.
- b The gain or loss recognized in earnings is included within Cost of Sales on the Company's Condensed Consolidated Statement of Earnings.
  - c Gains or losses on the undesignated foreign exchange forward contracts substantially offset foreign exchange losses or gains on the liabilities and transactions being hedged.

There was no material ineffectiveness related to the Company's hedging instruments for the period ended October 31, 2009. The Company expects that approximately \$4,292,000 of net pre-tax derivative losses included in accumulated other comprehensive income at October 31, 2009 will be reclassified into earnings within the next 12 months. This amount will vary due to fluctuations in foreign currency exchange rates and precious metal prices.

For information regarding the location and amount of the derivative instruments in the Condensed Consolidated Balance Sheet, refer to "Note 10. Fair Value of Financial Instruments."

### Concentration of Credit Risk

A number of major international financial institutions are counterparties to the Company's derivative financial instruments. The Company enters into derivative financial instrument agreements only with counterparties meeting certain credit standards (a credit rating of A/A2 or better at the time of the agreement), limiting the amount of agreements or contracts it enters into with any one party. The Company may be exposed to credit losses in the event of nonperformance by individual counterparties or the entire group of counterparties. The Company has not recognized any losses due to counterparty non-performance for the nine months ended October 31, 2009.

## 10. FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. U.S. GAAP establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. U.S. GAAP prescribes three levels of inputs that may be used to measure fair value:

Level 1 - Quoted prices in active markets for identical assets or liabilities. Level 1 inputs are considered to carry the most weight within the fair value hierarchy due to the low levels of judgment required in determining fair values.

Level 2 - Observable market-based inputs or unobservable inputs that are corroborated by market data.

Level 3 - Unobservable inputs reflecting the reporting entity's own assumptions. Level 3 inputs are considered to carry the least weight within the fair value hierarchy due to substantial levels of judgment required in determining fair values.

## Edgar Filing: TIFFANY & CO - Form 10-Q

The Company uses the market approach to measure fair value for its mutual funds, interest rate swap agreements, put and call option contracts, precious metal collars and forward contracts. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities.

Financial assets and liabilities carried at fair value at October 31, 2009 are classified in the table below in one of the three categories described above:

Financial Assets	Estimated Fair Value			
(in thousands)	Carrying Value	Level 1	Level 2	Level 3
Mutual funds a	\$ 28,515	\$ 28,515	\$ --	\$ --
Derivatives designated as hedging instruments:

12. SEGMENT INFORMATION

The Company's reportable segments are as follows:

- o Americas includes sales in TIFFANY & CO. stores in the United States, Canada and Latin/South America, as well as sales of TIFFANY & CO. products in certain of those markets through business-to-business, Internet, catalog and wholesale operations;
- o Asia-Pacific includes sales in TIFFANY & CO. stores, as well as sales of TIFFANY & CO. products in certain markets through business-to-business, Internet and wholesale operations;
- o Europe includes sales in TIFFANY & CO. stores, as well as sales of TIFFANY & CO. products in certain markets through business-to-business, Internet and wholesale operations; and
- o Other consists of non-reportable segments, primarily wholesale sales of diamonds obtained through bulk purchases that were subsequently deemed not suitable for the Company's needs. In addition, Other includes earnings received from a third-party licensing agreement.

Certain information relating to the Company's segments is set forth below:

15

(in thousands)	Three Months Ended October 31,		Nine Months October
	2009	2008	2009
Net sales:			
Americas	\$ 303,515	\$ 331,783	\$ 887,371
Asia-Pacific	225,840	205,992	639,190
Europe	64,994	58,157	188,913

## Edgar Filing: TIFFANY & CO - Form 10-Q

Total reportable segments	594,349	595,932	1,715,474
Other	3,863	20,220	12,846
	\$ 598,212	\$ 616,152	\$ 1,728,320

Earnings (losses) from continuing operations*:			
Americas	\$ 39,244	\$ 48,369	\$ 124,451
Asia-Pacific	54,395	49,010	151,610
Europe	9,382	7,843	29,109
	103,021	105,222	305,170
Total reportable segments	(1,863)	(451)	(7,293)
Other	\$ 101,158	\$ 104,771	\$ 297,877

\*Represents earnings (losses) from continuing operations before unallocated corporate expenses, other income and interest and other expenses, net.

The following table sets forth a reconciliation of the segments' earnings from continuing operations to the Company's consolidated earnings from continuing operations before income taxes:

	Three Months Ended October 31,		Nine Months October
(in thousands)	2009	2008	2009
Earnings from continuing operations for segments	\$ 101,158	\$ 104,771	\$ 297,877
Unallocated corporate expenses	(30,341)	(23,268)	(82,434)
Interest and other expenses, net	(11,326)	(14,449)	(35,898)
Other (expenses) income, net	(4,000)	--	442
	\$ 55,491	\$ 67,054	\$ 179,987
Earnings from continuing operations before income taxes			

Unallocated corporate expenses includes certain costs related to administrative support functions which the Company does not allocate to its segments. Such unallocated costs include those for information technology, finance, legal and human resources.

Other (expenses) income, net in the third quarter of 2009 represents \$4,000,000 paid to terminate a third party management agreement (see "Note 4. Acquisitions & Dispositions"). Other (expenses) income, net in the nine months ended October 31, 2009 also includes \$4,442,000 of income received in connection with the assignment of the Tahera Diamond Corporation commitments and liens to an unrelated third party, which represents full settlement under the terms of the assignment agreement. The Company had taken an impairment charge of \$47,981,000 in the year ended January 31,
