NOTE 10 - RELATED PARTY TRANSACTIONS

We use World Wide Express, a package delivery company owned 40% by Norman Hames, our western operations chief operating officer, to provide delivery services for us. During the nine months ended September 30, 2012, we paid approximately \$458,000 to World Wide Express for those services.

NOTE 11 – SUBSEQUENT EVENTS

On October 10, 2012 we completed the refinancing of our senior secured credit facilities for an aggregate of \$451.25 million. The refinancing includes a new credit agreement providing for a \$350 million senior secured term loan and a \$101.25 million senior secured revolving credit facility. See Note 1 for further details regarding this debt refinancing.

On October 1, 2012 we acquired a 100% controlling interest in one of our non-consolidated joint venture imaging centers in which we previously held a 50% non-consolidated equity investment. As a result of this transaction, we began consolidating this imaging center, recording all of its assets and liabilities at their fair value at October 1, 2012.

On October 29, 2012, Hurricane Sandy made landfall on the east coast of the United States bringing with it tropical storm force or hurricane winds and massive rains and flooding. This resulted in a negative impact to our operations in Maryland, Delaware, New York and New Jersey. We experienced site closures, loss of power and other related business disruptions. While our procedural volumes in our East Coast operations suffered as a result of the inability of patients to honor their scheduled appointments, the inability to schedule new appointments and the difficulties in patients getting to our locations as a result of dangerous travel conditions, we retain business interruption insurance to assist us in the mitigation of these circumstances. It is too early to estimate the extent of the financial impact of these events on our business.

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward-Looking Statements

This quarterly report on Form 10-Q contains "forward-looking statements" within the meaning of Section 27A of the Securities Act and Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements reflect current views about future events and are based on our currently available financial, economic and competitive data and on current business plans. Actual events or results may differ materially depending on risks and uncertainties that may affect our operations, markets, services, prices and other factors.

Statements concerning our ability to successfully acquire and integrate new operations, to grow our contract management business, our financial guidance, our future cost saving efforts, our increased business from new equipment or operations and our ability to finance our operations are forward-looking statements. In some cases, you can identify forward-looking statements by terminology such as "may," "will," "should," "expect," "intend," "pan," "anticipat "believe," "estimate," "predict," "potential," "continue," "assumption" or the negative of these terms or other comparable terminology.

Forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements.

The factors included in "Risk Factors," in our annual report on Form 10-K for the fiscal year ended December 31, 2011, as amended or supplemented by the information, if any, in Part II – Item 1A below, among others, could cause our actual results to differ materially from those expressed in, or implied by, the forward-looking statements. You should consider the inherent limitations on, and risks associated with, forward-looking statements and not unduly rely on the accuracy of predictions contained in such forward-looking statements. These forward-looking statements speak only as of the date when they are made. Except as required under the federal securities laws or by the rules and regulations of the Securities and Exchange Commission ("SEC"), we do not undertake any obligation to update forward-looking statements to reflect events, circumstances, changes in expectations, or the occurrence of unanticipated events after the date of those statements. Moreover, in the future, the Company, through senior management, may make forward-looking statements that involve the risk factors and other matters described in this quarterly report on Form 10-Q as well as other risk factors subsequently identified, including, among others, those identified in the Company's filings with the SEC on Form 10-K, Form 10-Q and Form 8-K.

We do not undertake any responsibility to release publicly any revisions to these forward-looking statements to take into account events or circumstances that occur after the date of this quarterly report. Additionally, we do not undertake any responsibility to update you on the occurrence of any unanticipated events which may cause actual

results to differ from those expressed or implied by the forward-looking statements contained in this quarterly report.

Overview

With 236 centers, which we operate directly or indirectly through joint ventures as of September 30, 2012, located in California, Delaware, Maryland, New Jersey, Rhode Island, Florida, and New York, we are the leading national provider of freestanding, fixed-site outpatient diagnostic imaging services in the United States based on number of locations and aggregate annual imaging revenue. Our centers provide physicians with imaging capabilities to facilitate the diagnosis and treatment of diseases and disorders and may reduce unnecessary invasive procedures, often minimizing the cost and amount of care for patients. Our services include magnetic resonance imaging (MRI), computed tomography (CT), positron emission tomography (PET), nuclear medicine, mammography, ultrasound, diagnostic radiology (X-ray), fluoroscopy and other related procedures. The vast majority of our centers offer multi-modality imaging services, a key point of differentiation from our competitors. Our multi-modality strategy diversifies revenue streams, reduces exposure to reimbursement changes and provides patients and referring physicians one location to serve the needs of multiple procedures.

We seek to develop leading positions in regional markets in order to leverage operational efficiencies. Our scale and density within selected geographies provides close, long-term relationships with key payors, radiology groups and referring physicians. Each of our facility managers is responsible for managing relationships with local physicians and payors, meeting our standards of patient service and maintaining profitability. We provide corporate training programs, standardized policies and procedures and sharing of best practices among the physicians in our regional networks.

We derive substantially all of our revenue, directly or indirectly, from fees charged for the diagnostic imaging services performed at our facilities. For the nine months ended September 30, 2012, we performed 3,127,687 diagnostic imaging procedures and generated total net service fee revenue of \$487.8 million.

The condensed consolidated financial statements include the accounts of Radnet Management, Inc. (or "Radnet Management") and Beverly Radiology Medical Group III, a professional partnership ("BRMG"). The consolidated financial statements also include Radnet Management I, Inc., Radnet Management II, Inc., Radiologix, Inc., Radnet Management Imaging Services, Inc., Delaware Imaging Partners, Inc., New Jersey Imaging Partners, Inc. and Diagnostic Imaging Services, Inc. ("DIS"), all wholly owned subsidiaries of Radnet Management. All of these affiliated entities are referred to collectively as "RadNet", "we", "us", "our" or the "Company" in this report.

Accounting Standards Codification ("ASC") Section 810-10-15-14 stipulates that generally any entity with a) insufficient equity to finance its activities without additional subordinated financial support provided by other parties, or b) equity holders that, as a group, lack the characteristics specified in the ASC which evidence a controlling financial interest, is considered a Variable Interest Entity ("VIE"). We consolidate all VIE's in which we own a majority voting interest and all VIE's for which we are the primary beneficiary. We determine whether we are the primary beneficiary of a VIE through a qualitative analysis that identifies which variable interest holder has the controlling financial interest in the VIE. The variable interest holder who has both of the following has the controlling financial interest and is the primary beneficiary: (1) the power to direct the activities of the VIE that most significantly impact the VIE's economic performance and (2) the obligation to absorb losses of, or the right to receive benefits from, the VIE that could potentially be significant to the VIE. In performing our analysis, we consider all relevant facts and circumstances, including: the design and activities of the VIE, the terms of the contracts the VIE has entered into, the nature of the VIE's variable interests issued and how they were negotiated with or marketed to potential investors, and which parties participated significantly in the design or redesign of the entity.

Howard G. Berger, M.D. is our President and Chief Executive Officer, a member of our Board of Directors and is deemed to be the beneficial owner, directly and indirectly, of approximately 14.1% of our outstanding common stock as of September 30, 2012. Dr. Berger also owns, indirectly, 99% of the equity interests in BRMG. BRMG provides all of the professional medical services at the majority of our facilities located in California under a management agreement with us, and employs physicians or contracts with various other independent physicians and physician groups to provide the professional medical services at most of our other California facilities. We generally obtain professional medical services from BRMG in California, rather than provide such services directly or through subsidiaries, in order to comply with California's prohibition against the corporate practice of medicine. However, as a result of our close relationship with Dr. Berger and BRMG, we believe that we are able to better ensure that medical service is provided at our California facilities in a manner consistent with our needs and expectations and those of our referring physicians, patients and payers than if we obtained these services from unaffiliated physician groups. BRMG is a partnership of ProNet Imaging Medical Group, Inc., Breastlink Medical Group, Inc. and Beverly Radiology Medical Group, Inc., each of which are 99% or 100% owned by Dr. Berger. RadNet provides non-medical, technical and administrative services to BRMG for which it receives a management fee, pursuant to the terms of the management agreement. Through the management agreement and our relationship with Dr. Berger, we have exclusive authority over all non-medical decision making related to the ongoing business operations of BRMG. Through our management agreement with BRMG we determine the annual budget of BRMG and make all physician employment decisions. BRMG has insignificant operating assets and liabilities, and de minimis equity. Through the management agreement with us, all of BRMG's cash flows are transferred to us. We have determined that BRMG is a VIE, and that

we are the primary beneficiary, and consequently, we consolidate the revenue and expenses of BRMG. BRMG recognized \$15.0 million and \$13.0 million, and \$41.4 million and \$40.6 million of net revenues for the three and nine months ended September 30, 2012 and 2011, respectively, and \$15.0 million and \$13.0 million, and \$41.4 million and \$40.6 million of operating expenses for the three and nine months ended September 30, 2012 and 2011, respectively. RadNet recognized \$53.0 million and \$47.0 million, and \$156.6 million and \$142.5 million of net revenues for the three and nine months ended September 30, 2012 and 2011, respectively, for management services provided to BRMG relating primarily to the technical portion of total billed revenue. The cash flows of BRMG are included in the accompanying condensed consolidated statements of cash flows. All intercompany balances and transactions have been eliminated in consolidation. The creditors of BRMG do not have recourse to our general credit and there are no other arrangements that could expose us to losses. However, BRMG is managed to recognize no net income or net loss and, therefore, RadNet may be required to provide financial support to cover any operating expenses in excess of operating revenues.

Aside from centers in California where we contract with BRMG for the provision of professional medical services and consolidate 100% of the patient service revenue, at the remaining centers in California and at all of the centers which are located outside of California, we have entered into long-term contracts with independent radiology groups in the area to provide physician services at those facilities. These third party radiology practices provide professional services, including supervision and interpretation of diagnostic imaging procedures, in our diagnostic imaging centers. The radiology practices maintain full control over the provision of professional services. The contracted radiology practices generally have outstanding physician and practice credentials and reputations; strong competitive market positions; a broad sub-specialty mix of physicians; a history of growth and potential for continued growth. In these facilities we enter into long-term agreements with radiology practice groups (typically 40 years). Under these arrangements, we provide management services and receive a fee which includes 100% of the technical reimbursements associated with imaging procedures for the use of our diagnostic imaging equipment and the provision of technical services. Our service fees also include a portion of the practice group's professional revenue, including revenue derived outside of our diagnostic imaging centers as well as fees for administrative services. The radiology practice groups retain the professional reimbursements associated with imaging procedures after deducting service fees paid to us. We have no financial interest in the independent (non-BRMG) radiology practices; accordingly, we do not consolidate the financial statements of those practices in our consolidated financial statements and record only our service fee revenue.

Critical Accounting Policies

Use of Estimates

Our discussion and analysis of financial condition and results of operations are based on our consolidated financial statements that were prepared in accordance with U.S. generally accepted accounting principles, or GAAP. Management makes estimates and assumptions when preparing financial statements. These estimates and assumptions affect various matters, including:

- our reported amounts of assets and liabilities in our consolidated balance sheets at the dates of the financial statements;
- ·our disclosure of contingent assets and liabilities at the dates of the financial statements; and
- our reported amounts of net revenue and expenses in our consolidated statements of operations during the reporting periods.

These estimates involve judgments with respect to numerous factors that are difficult to predict and are beyond management's control. As a result, actual amounts could differ materially from these estimates.

The Securities and Exchange Commission, or SEC, defines critical accounting estimates as those that are both most important to the portrayal of a company's financial condition and results of operations and require management's most difficult, subjective or complex judgment, often as a result of the need to make estimates about the effect of matters that are inherently uncertain and may change in subsequent periods. In Note 2 to our consolidated financial statements in our annual report on Form 10-K for the year ended December 31, 2011, we discuss our significant accounting policies, including those that do not require management to make difficult, subjective or complex judgments or estimates. The most significant areas involving management's judgments and estimates are described below.

During the period covered in this report, there were no material changes to the critical accounting estimates we use, and have described in our annual report on Form 10-K for the fiscal year ended December 31, 2011.

Revenues

Service fee revenue, net of contractual allowances and discounts, consists of net patient fees received from various payers and patients themselves based mainly upon established contractual billing rates, less allowances for contractual adjustments and discounts. As it relates to BRMG centers, this service fee revenue includes payments for both the professional medical interpretation revenue recognized by BRMG as well as the payment for all other aspects related to our providing the imaging services, for which we earn management fees from BRMG. As it relates to non-BRMG centers, this service fee revenue is earned through providing the use of our diagnostic imaging equipment and the provision of technical services as well as providing administration services such as clerical and administrative personnel, bookkeeping and accounting services, billing and collection, provision of medical and office supplies, secretarial, reception and transcription services, maintenance of medical records, and advertising, marketing and promotional activities.

Service fee revenues are recorded during the period the services are provided based upon the estimated amounts due from the patients and third-party payers. Third-party payers include federal and state agencies (under the Medicare and Medicaid programs), managed care health plans, commercial insurance companies and employers. Estimates of contractual allowances under managed care health plans are based upon the payment terms specified in the related contractual agreements. Contractual payment terms in managed care agreements are generally based upon predetermined rates per discounted fee-for-service rates. We also record a provision for doubtful accounts (based primarily on historical collection experience) related to patients and copayment and deductible amounts for patients who have health care coverage under one of our third-party payers.

Our service fee revenue, net of contractual allowances and discounts less the provision for bad debts for the three and nine months ended September 30, are summarized in the following table (in thousands):

	Three Months Ended September 30,		Nine Mont September	
	2012	2011	2012	2011
Commercial Insurance/Managed Care Capitation	\$111,963	\$100,795	\$340,750	\$301,618
Medicare	33,492	28,840	103,899	87,539
Medicaid	5,663	4,759	16,250	14,734
Workers Compensation/Personal Injury	7,281	6,201	21,174	19,501
Other	8,629	7,985	25,200	22,640
Service fee revenue, net of contractual allowances and discounts	167,027	148,579#	507,273	446,032
Provision for bad debts	(6,574)	(5,558)	(19,453)	(16,260)
Net service fee revenue	\$160,453	\$143,021	\$487,820	\$429,772

The break-out of our service fee revenue, net of contractual allowances and discounts, is calculated based upon global payments received from consolidated imaging centers from dates of service from each respective period illustrated.

Provision for Bad Debts

Although outcomes vary, our policy is to attempt to collect amounts due from patients, including co-payments and deductibles due from patients with insurance, at the time of service. We provide for an allowance against accounts receivable that could become uncollectible by establishing an allowance to reduce the carrying value of such receivables to their estimated net realizable value. We estimate this allowance based on the aging of our accounts receivable by each type of payer over an 18-month look-back period, and other relevant factors. A significant portion of our provision for bad debt relates to co-payments and deductibles owed to us by patients with insurance. There are various factors that can impact collection trends, such as changes in the economy, which in turn have an impact on the increased burden of co-payments and deductibles to be made by patients with insurance. These factors continuously change and can have an impact on collection trends and our estimation process.

Reclassifications

Certain reclassifications have been made to the three and nine months ended September 30, 2011 consolidated financial statements and accompanying notes to conform to the three and nine months ended September 30, 2012 presentation. Additionally, we have adjusted the prior year's presentation as a result of the adoption of ASU 2011-07, Health Care Entities (Topic 954). In connection with this adjustment, we identified certain mechanical errors in our

historical calculation of the provision for bad debts, resulting in the gross up of the provision for bad debts and revenues by \$3.0 million and \$9.0 million for the three and nine months ended September 30, 2011, respectively. The error has been corrected in these financial statements and upon adoption of the new guidance, resulted in no impact to net service fee revenue.

Accounts Receivable

Substantially all of our accounts receivable are due under fee-for-service contracts from third party payors, such as insurance companies and government-sponsored healthcare programs, or directly from patients. Services are generally provided pursuant to one-year contracts with healthcare providers. Receivables generally are collected within industry norms for third-party payors. We continuously monitor collections from our payors and maintain an allowance for bad debts based upon specific payor collection issues that we have identified and our historical experience.

Depreciation and Amortization of Long-Lived Assets

We depreciate our long-lived assets over their estimated economic useful lives with the exception of leasehold improvements where we use the shorter of the assets' useful lives or the lease term of the facility for which these assets are associated.

Deferred Tax Assets

We evaluate the realizability of the net deferred tax assets and assess the valuation allowance periodically. If future taxable income or other factors are not consistent with our expectations, an adjustment to our allowance for net deferred tax assets may be required. For net deferred tax assets we consider estimates of future taxable income, including tax planning strategies in determining whether our net deferred tax assets are more likely than not to be realized.

Valuation of Goodwill and Long-Lived Assets

Goodwill at September 30, 2012 totaled \$174.1 million. Goodwill is recorded as a result of business combinations. Management evaluates goodwill, at a minimum, on an annual basis and whenever events and changes in circumstances suggest that the carrying amount may not be recoverable in accordance with Financial Accounting Standards Board ("FASB"), ASC Topic 350, Intangibles – Goodwill and Othelmpairment of goodwill is tested at the reporting unit level by comparing the reporting unit's carrying amount, including goodwill, to the fair value of the reporting unit. The fair value of a reporting unit is estimated using a combination of the income or discounted cash flows approach and the market approach, which uses comparable market data. If the carrying amount of the reporting unit exceeds its fair value, goodwill is considered impaired and a second step is performed to measure the amount of impairment loss, if any. We tested goodwill for impairment on October 1, 2011. Based on our test, we noted no impairment related to goodwill as of October 1, 2011. However, if estimates or the related assumptions change in the future, we may be required to record impairment charges to reduce the carrying amount of goodwill. No indications of impairment were noted at September 30, 2012.

We evaluate our long-lived assets (property and equipment) and definite-lived intangibles for impairment whenever indicators of impairment exist. The accounting standards require that if the sum of the undiscounted expected future cash flows from a long-lived asset or definite-lived intangible is less than the carrying value of that asset, an asset impairment charge must be recognized. The amount of the impairment charge is calculated as the excess of the asset's carrying value over its fair value, which generally represents the discounted future cash flows from that asset or in the case of assets we expect to sell, at fair value less costs to sell. No indicators of impairment were identified with respect to our long-lived assets as of September 30, 2012.

Recent Accounting Standards

In April 2011, the FASB issued Accounting Standards Update ("ASU") 2011-04, *Fair Value Measurement (Topic 820)* ("ASU 2011-04"), which contains amendments to achieve common fair value measurement and disclosures in U.S. GAAP and International Financial Reporting Standards. ASU 2011-04 explains how to measure fair value for financial reporting. The guidance does not require fair value measurements in addition to those already required or permitted by other Topics. This ASU was effective for the Company beginning January 1, 2012. The adoption of ASU

2011-04 did not have a material effect on the Company's consolidated results of operations, financial position or liquidity.

On January 1, 2012, we adopted ASU 2011-05, "Comprehensive Income (Topic 220): Presentation of Comprehensive Income," which updates existing guidance on comprehensive income. This guidance eliminates the option to present the components of other comprehensive income as part of our Condensed Consolidated Statements of Equity and Comprehensive Income, which was our previous presentation. It requires companies to present the total of comprehensive income, the components of net income and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. In the two statement approach which we have adopted, the first statement presents total net income and its components followed consecutively by a second statement that presents total other comprehensive income, the components of other comprehensive income and the total of comprehensive income. The adoption of this pronouncement did not have any effect on our financial condition or results of operations, though it did change our financial statement presentation.

On January 1, 2012, we adopted ASU 2011-07, "Health Care Entities (Topic 954): Presentation and Disclosure of Patient Service Revenue, Provision for Bad Debts, and the Allowance for Doubtful Accounts for Certain Health Care Entities," which requires health care entities to present the provision for doubtful accounts relating to patient service revenue as a deduction from patient service revenue in the statement of operations rather than as an operating expense. Additional disclosures relating to sources of patient revenue and the allowance for doubtful accounts related to patient accounts receivable are also required. Such additional disclosures are included in Note 1. The adoption of this ASU had no impact on our financial condition, results of operations or cash flows, although it did change our financial statement presentation.

On January 1, 2012, we adopted ASU 2011-08, "Intangibles—Goodwill and Other (Topic 350): Testing Goodwill for Impairment", simplifying how a company is required to test goodwill for impairment. Companies will now have the option to first assess qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount. If the company determines that it is not more likely than not that the fair value of a reporting unit is less than its carrying amount, then performing the two-step impairment test is unnecessary.

Recent Developments and Facility Acquisitions

On October 10, 2012 we completed the refinancing of our senior secured credit facilities for an aggregate of \$451.25 million. The refinancing includes a new credit agreement providing for a \$350 million senior secured term loan and a \$101.25 million senior secured revolving credit facility. See Note 1 to our unaudited condensed consolidated financial statements included in this quarterly report on Form 10-Q for further details regarding this debt refinancing.

On October 1, 2012 we acquired a 100% controlling interest in one of our non-consolidated joint venture imaging centers in which we previously held a 50% non-consolidated equity investment. As a result of this transaction, we began consolidating this imaging center, recording all of its assets and liabilities at their fair value at October 1, 2012.

On August 6, 2012 we formed a limited liability company with Barnabas Health, a New Jersey owner and operator of a large New Jersey hospital system, for the purpose of creating a New Jersey imaging network under our management. Our first endeavor was to establish a multi-modality imaging center located in Cedar Knolls, New Jersey, of which we own 49%. Our initial investment of approximately \$1.8 million was recorded to investment in non-consolidated joint ventures.

On July 23, 2012, we completed our acquisition of a multi-modality imaging center, Orthopedic Imaging Center, LLC, located in Redlands, California, for cash consideration of \$700,000. We have made a fair value determination of the acquired assets and approximately \$400,000 of fixed assets and \$300,000 of goodwill was recorded with respect to this transaction.

On July 1, 2012, we completed the sale of a 41% portion of our ownership interest of one of our consolidated joint ventures to our existing partner in that joint venture for \$1.8 million. After the sale, we retained a 49% ownership interest in this joint venture. As a result of this transaction we de-consolidated this joint venture and recorded the fair value of our remaining interest as an investment in non-consolidated joint venture accounted for under the equity method. We recorded a gain on de-consolidation of a joint venture of approximately \$2.8 million with respect to this transaction. Approximately \$1.4 million of this gain is related to the re-measurement to current fair value of our remaining 49% interest, using a market based valuation approach. The main input used in our valuation model was the \$1.8 million sale price of a 41% interest.

On May 1, 2012, we completed our acquisition of Advanced Medical Imaging of Stuart, L.P., which consists of two multi-modality imaging centers located in Stuart, Florida, for cash consideration of \$1.0 million. We have made a fair value determination of the acquired assets and approximately \$39,000 of fixed assets, \$88,000 of other current assets and \$923,000 of goodwill was recorded with respect to this transaction.

On April 1, 2012, we completed our acquisition of West Coast Radiology, which consists of five multi-modality imaging centers in Orange County, California, for cash consideration of \$8.1 million and the assumption of approximately \$1.4 million of capital lease obligations. The centers are located in Anaheim, Santa Ana/Tustin, Irvine and Mission Viejo/Laguna Niguel and operate a combination of MRI, CT, ultrasound, mammography, X-ray and other related modalities. We have made a fair value determination of the acquired assets and approximately \$715,000 of working capital, \$3.1 million of fixed assets, \$5.4 million of goodwill, and \$200,000 of intangible assets was recorded with respect to this transaction.

On February 29, 2012, we completed the acquisition of a multi-modality imaging center from TODIC, L.P. located in Camarillo, California for cash consideration of \$350,000 and the assumption of a \$121,000 capital lease liability. The facility provides MRI, CT, mammography, ultrasound and X-ray services. We have made a fair value determination of the acquired assets and assumed liabilities and approximately \$425,000 of fixed assets and \$86,000 of goodwill was recorded with respect to this transaction as well as the assumption of approximately \$40,000 of accrued liabilities.

On February 29, 2012, we completed the acquisition of a multi-modality imaging center from Progressive MRI, LLC located in Frederick, Maryland for cash consideration of \$230,000. The facility provides MRI, CT, mammography, ultrasound and X-ray services. We have made a fair value determination of the acquired assets and approximately \$230,000 of fixed assets was recorded with respect to this transaction.

On November 7, 2011, we completed our acquisition of all outstanding equity interests in Raven Holdings U.S., Inc. ("RH") from CML Healthcare, Inc. Aggregate consideration for the purchase was approximately \$40.4 million, consisting of approximately \$28.2 million in cash, \$9.0 million in a seller note and approximately \$3.4 million of assumed equipment-related debt. With the services of an external valuation expert, we have made a final fair value determination of the acquired assets and assumed liabilities and approximately \$2.4 million of working capital, \$2.3 million of assets held for sale, \$22.8 million of fixed assets, which is approximately \$8.1 million lower than our initial estimate, \$1.9 million of investments in non-consolidated joint ventures, which is approximately \$933,000 higher than our initial estimates, \$2.2 million of intangible assets, \$279,000 of other assets and \$11.8 million of goodwill was recorded with respect to this transaction. We also assumed approximately \$3.1 million of other liabilities relating to unfavorable lease contract reserves, which is approximately \$2.2 million higher than our initial estimate. Along with our \$8.1 million adjustment to the value of acquired fixed assets, we recorded catch-up reductions to depreciation of approximately \$1.1 million for the period from November 7, 2011 through June 30, 2012 of which approximately \$275,000 relates to the period from November 7 through December 31, 2011. Along with our adjustment to the value of other liabilities, we recorded catch-up reductions to rent expense of approximately \$435,000 for the period from November 7, 2011 through June 30, 2012 of which approximately \$142,000 relates to the period from November 7 through December 31, 2011.

Industry Updates

For services for which we bill Medicare directly, we are paid under the Medicare Physician Fee Schedule, which is updated on an annual basis. Under the Medicare statutory formula, payments under the Physician Fee Schedule would have decreased for the past several years if Congress failed to intervene.

For 2010, the Centers for Medicare and Medicaid Services ("CMS") projected a rate reduction of 21.2% in the absence of Congressional intervention. However, over the course of the first six months of 2010, various temporary solutions were enacted by Congress which resulted in delaying any such change to the physician fee schedule. Ultimately, a 2.2% increase in the conversion factor was passed by Congress effective June 1, 2010, further delaying the pending 21.2% conversion factor reduction to November 30, 2010. On November 2, 2010, CMS released the calendar year 2011 Medicare Physician Fee Schedule. Again, the rule would have significantly reduced physician fee schedule payments in 2011 had Congress not acted by passing the Physician Payment and Therapy Relief Act of 2010 and the Medicare and Medicaid Extenders Act of 2010, which together continued the 2.2% update from June 2010 through December 31, 2011. Similarly, the calendar year 2012 Medicare Physician Fee Schedule provided for a 27.4% decrease to the physician fee schedule which was averted by Congress passing the Middle Class Tax Relief and Job Creation Act of 2012, which froze physician payment rates through December 31, 2012. While Congress has historically provided temporary relief from the formula-driven reductions in the conversion factor, it cannot be guaranteed that Congress will act to provide relief in the future. The failure of Congress to act could adversely impact our revenues and results of operations. In CMS's 2013 Medicare Physician Fee Schedule Proposed Rule, CMS proposed reducing the conversion factor by 27.4%, which could significantly reduce payments to us, unless Congress intervenes.

Related Party Transactions

We use World Wide Express, a package delivery company owned 40% by Norman Hames, our western operations chief operating officer, to provide delivery services for us. During the nine months ended September 30, 2012, we paid approximately \$458,000 to World Wide Express for those services.

Results of Operations

The following table sets forth, for the periods indicated, the percentage that certain items in the statements of income bears to service fee revenue, net of contractual allowances and discounts.

RADNET, INC. AND SUBSIDIARIES

CONDENSED CONSOLIDATED STATEMENTS OF INCOME

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2012	2011	2012	2011
NET SERVICE FEE REVENUE	2012	2011	2012	2011

Three Months Ended September 30, 2012 Compared to the Three Months Ended September 30, 2011

Service fee revenue for the three months ended September 30, 2012 was \$167.0 million compared to \$148.6 million for the three months ended September 30, 2011, an increase of \$18.4 million, or 12.4%.

Service fee revenue, including only those centers which were in operation throughout the third quarters of both 2012 and 2011, decreased \$1.6 million, or 1.1%. This 1.1% decrease is primarily the result of a similar percentage decrease in procedure volumes. This comparison excludes revenue contributions from centers that were acquired or divested subsequent to July 1, 2011. For the three months ended September 30, 2012, service fee revenue from centers that were acquired subsequent to July 1, 2011 and excluded from the above comparison was \$21.7 million. For the three months ended September 30, 2011, service fee revenue from centers that were acquired subsequent to July 1, 2011 and excluded from the above comparison was \$1.7 million.

Provision for Bad Debts

Provision for bad debts increased \$1.0 million, or 18.3%, to \$6.6 million, or 3.9% of net revenue, for the three months ended September 30, 2012 compared to \$5.6 million, or 3.7% of net revenue, for the three months ended September 30, 2011. This increase is in line with the increase in service fee revenues.

Operating Expenses

Cost of operations for the three months ended September 30, 2012 increased approximately \$15.5 million, or 13.1%, from \$117.7 million for the three months ended September 30, 2011 to \$133.2 million for the three months ended September 30, 2012. The following table sets forth our cost of operations and total operating expenses for the three months ended September 30, 2012 and 2011 (in thousands):

	Months Ended nber 30,		2011		
Salaries and professional reading fees, excluding stock-based compensation	\$ 73,400		\$	66,657	
Stock-based compensation	433			709	
Building and equipment rental	14,637			13,254	
Medical supplies	9,598			8,458	
Other operating expenses *	35,155			28,669	
Cost of operations	133,223			117,747	
Depreciation and amortization Loss (gain) on sale	13,369			14,309	
and disposal of equipment	(45)		(331)
Severance costs	66			316	
Total operating expenses	\$ 146,613		\$	132,041	

Salaries and professional reading fees, excluding stock-based compensation and severance

^{*} Includes billing fees, office supplies, repairs and maintenance, insurance, business tax and license, outside services, utilities, marketing, travel and other expenses.

Salaries and professional reading fees increased \$6.7 million, or 10.1%, to \$73.4 million for the three months ended September 30, 2012 compared to \$66.7 million for the three months ended September 30, 2011.

Salaries and professional reading fees, including only those centers which were in operation throughout the third quarters of both 2012 and 2011 decreased \$2.0 million, or 2.9%. This 2.9% decrease is in line with our decrease in service fee revenue. This comparison excludes expenses from centers that were acquired or divested subsequent to July 1, 2011. For the three months ended September 30, 2012, salaries and professional reading fees from centers that were acquired subsequent to July 1, 2011 and excluded from the above comparison was approximately \$9.1 million. For the three months ended September 30, 2011, salaries and professional reading fees from centers that were acquired subsequent to July 1, 2011 and excluded from the above comparison was approximately \$438,000.

Stock-based compensation

Stock-based compensation decreased \$276,000, or 38.9%, to approximately \$433,000 for the three months ended September 30, 2012 compared to \$709,000 for the three months ended September 30, 2011. The decrease is due to fewer equity compensation instruments being issued in the current quarter compared to the same quarter last year.

Building and equipment rental

Building and equipment rental expenses increased \$1.4 million, or 10.4%, to \$14.6 million for the three months ended September 30, 2012 compared to \$13.2 million for the three months ended September 30, 2011.

Building and equipment rental expenses, including only those centers which were in operation throughout the third quarters of both 2012 and 2011 increased \$223,000, or 1.7%. This comparison excludes expenses from centers that were acquired or divested subsequent to July 1, 2011. For the three months ended September 30, 2012, building and equipment rental expenses from centers that were acquired subsequent to July 1, 2011 and excluded from the above comparison was approximately \$1.2 million. For the three months ended September 30, 2011, building and equipment rental expenses from centers that were acquired subsequent to July 1, 2011 and excluded from the above comparison was \$20,000.

Medical supplies

Medical supplies expense increased \$1.1 million, or 13.5%, to \$9.6 million for the three months ended September 30, 2012 compared to \$8.5 million for the three months ended September 30, 2011.

Medical supplies expenses, including only those centers which were in operation throughout the third quarters of both 2012 and 2011, decreased \$376,000, or 4.6%. This 4.6% decrease is in line with our decrease in service fee revenue. This comparison excludes expenses from centers that were acquired or divested subsequent to July 1, 2011. For the three months ended September 30, 2012, medical supplies expense from centers that were acquired subsequent to July 1, 2011 and excluded from the above comparison was \$1.8 million. For the three months ended September 30, 2011, medical supplies expense from centers that were acquired subsequent to July 1, 2011 and excluded from the above comparison was \$333,000.

Depreciation and amortization

Depreciation and amortization decreased \$940,000, or 6.6%, to \$13.4 million for the three months ended September 30, 2012 compared to the same period last year. The decrease is due to a catch-up reduction to depreciation of approximately \$1.4 million recorded in September of 2012 related to our finalization of purchase accounting for our acquisition of Raven Holdings U.S., Inc. This is offset by an increase of approximately \$460,000 due to property and equipment additions for existing centers as well as newly acquired centers.

Loss (gain) on sale and disposal of equipment

We recorded a net loss on sale of equipment of approximately \$45,000 for the three months ended September 30, 2012 primarily related to the difference between the net book value of certain equipment sold and proceeds we received from the sale. We recorded a net gain on disposal of equipment of approximately \$331,000 for the three months ended September 30, 2011 primarily related to the difference between the net book value of certain equipment damaged in a fire at one of our imaging facilities and insurance proceeds we received from claims filed on this damaged equipment.

Interest expense

Interest expense for the three months ended September 30, 2012 increased approximately \$633,000, or 4.8%, to \$13.9 million for the three months ended September 30, 2012 compared to \$13.2 million for the three months ended

September 30, 2011. This 4.8% increase is primarily due to our increased borrowings on our revolving credit facility subsequent to September 30, 2011. Interest expense for the three months ended September 30, 2012 included \$767,000 of amortization of deferred loan costs as well as \$276,000 of amortization of Accumulated Other Comprehensive Loss associated with fair value adjustments to our interest rate swaps accumulated prior to April 6, 2010, the date of our initial debt refinancing. Interest expense for the three months ended September 30, 2011 included \$719,000 of amortization of deferred loan costs as well as \$306,000 of amortization of Accumulated Other Comprehensive Loss associated with fair value adjustments to our interest rate swaps accumulated prior to April 6, 2010, the date of our initial debt refinancing. See "Liquidity and Capital Resources" in our annual report on Form 10-K for the year ended December 31, 2011 for more details on our initial debt refinancing.

Gain on de-consolidation of joint venture

On July 1, 2012, we completed the sale of a 41% ownership interest of one of our consolidated joint ventures to our existing partner in that joint venture for \$1.8 million. After the sale, we retained a 49% ownership interest in this joint venture. As a result of this transaction we de-consolidated this joint venture and recorded the fair value of our remaining interest as an investment in non-consolidated joint venture accounted for under the equity method. We recorded a gain on de-consolidation of a joint venture of approximately \$2.8 million with respect to this transaction. Approximately \$1.4 million of this gain is related to the re-measurement to current fair value of our remaining 49% interest, using a market based valuation approach. The main input used in our valuation model was the \$1.8 million sale price of a 41% interest.

Other income

For the three months ended September 30, 2012, we recorded approximately \$1.4 million of other income primarily related to fair value adjustments on our interest rate swaps. For the three months ended September 30, 2011, we recorded approximately \$1.5 million of other income primarily related to fair value adjustments on our interest rate swaps.

Income tax expense

For the three months ended September 30, 2012 and 2011, we recorded \$30,000 and \$234,000, respectively, of income tax expense primarily related to taxable income generated in the states of California, Maryland and Delaware.

Equity in earnings from unconsolidated joint ventures

For the three months ended September 30, 2012, we recognized equity in earnings from unconsolidated joint ventures of \$909,000 compared to \$1.0 million for the three months ended September 30, 2011. This small decrease is in line with a small decrease in procedure volumes at these joint venture imaging centers.

Nine Months Ended September 30, 2012 Compared to the Nine Months Ended September 30, 2011

Service Fee Revenue

Service fee revenue for the nine months ended September 30, 2012 was \$507.3 million compared to \$446.0 million for the nine months ended September 30, 2011, an increase of \$61.3 million, or 13.7%.

Service fee revenue, including only those centers which were in operation throughout the first nine months of both 2012 and 2011, decreased \$2.2 million, or 0.5%. This 0.5% decrease is primarily the result of a similar percentage decrease in procedure volumes. This comparison excludes revenue contributions from centers that were acquired or divested subsequent to January 1, 2011. For the nine months ended September 30, 2012, service fee revenue from centers that were acquired subsequent to January 1, 2011 and excluded from the above comparison was \$73.1 million. For the nine months ended September 30, 2011, service fee revenue from centers that were acquired subsequent to January 1, 2011 and excluded from the above comparison was \$9.6 million.

Provision for Bad Debts

Provision for bad debts increased \$3.2 million, or 19.6%, to \$19.5 million, or 3.8% of net revenue, for the nine months ended September 30, 2012 compared to \$16.3 million, or 3.6% of net revenue, for the nine months ended September 30, 2011. This increase is in line with the increase in service fee revenues.

Operating Expenses

Cost of operations for the nine months ended September 30, 2012 increased approximately \$52.5 million, or 14.9%, from \$352.7 million for the nine months ended September 30, 2011 to \$405.2 million for the nine months ended September 30, 2012. The following table sets forth our cost of operations and total operating expenses for the nine months ended September 30, 2012 and 2011 (in thousands):

	Nine Months Ended		
	September 30,		
	2012	2011	
Salaries and professional reading fees, excluding stock-based compensation	\$222,368	\$196,341	
Stock-based compensation	2,139	2,499	
Building and equipment rental	45,117	39,986	
Medical supplies	29,263	24,775	
Other operating expenses *	106,290	89,087	
Cost of operations	405,177	352,688	
Depreciation and amortization	43,154	42,526	
Loss (gain) on sale and disposal of equipment	255	(1,928)	
Severance costs	678	970	
Total operating expenses	\$449,264	\$394,256	

^{*} Includes billing fees, office supplies, repairs and maintenance, insurance, business tax and license, outside services, utilities, marketing, travel and other expenses.

Salaries and professional reading fees, excluding stock-based compensation and severance

Salaries and professional reading fees increased \$26.0 million, or 13.3%, to \$222.4 million for the nine months ended September 30, 2012 compared to \$196.4 million for the nine months ended September 30, 2011.

Salaries and professional reading fees, including only those centers which were in operation throughout the first nine months of both 2012 and 2011 increased \$236,000, or 0.1%. This comparison excludes expenses from centers that were acquired or divested subsequent to January 1, 2011. For the nine months ended September 30, 2012, salaries and professional reading fees from centers that were acquired subsequent to January 1, 2011 and excluded from the above comparison was approximately \$29.0 million. For the nine months ended September 30, 2011, salaries and professional reading fees from centers that were acquired subsequent to January 1, 2011 and excluded from the above comparison was approximately \$3.2 million.

Stock-based compensation

Stock-based compensation decreased \$360,000, or 14.4%, to approximately \$2.1 million for the nine months ended September 30, 2012 compared to \$2.5 million for the nine months ended September 30, 2011. The decrease is due to fewer equity compensation instruments being issued in the first nine months of 2012 compared to the same period last year.

Building and equipment rental

Building and equipment rental expenses increased \$5.1 million, or 12.8%, to \$45.1 million for the nine months ended September 30, 2012 compared to \$40.0 million for the nine months ended September 30, 2011.

Building and equipment rental expenses, including only those centers which were in operation throughout the first nine months of both 2012 and 2011decreased \$327,000, or 0.8%. This 0.8% decrease is primarily due to equipment lease buy-outs occurring subsequent to January 1, 2012. This comparison excludes expenses from centers that were acquired or divested subsequent to January 1, 2011. For the nine months ended September 30, 2012, building and equipment rental expenses from centers that were acquired subsequent to January 1, 2011 and excluded from the above comparison was approximately \$6.2 million. For the nine months ended September 30, 2011, building and equipment rental expenses from centers that were acquired subsequent to January 1, 2011 and excluded from the above comparison was \$776,000.

Medical supplies

Medical supplies expense increased \$4.5 million, or 18.1%, to \$29.3 million for the nine months ended September 30, 2012 compared to \$24.8 million for the nine months ended September 30, 2011.

Medical supplies expenses, including only those centers which were in operation throughout the first nine months of both 2012 and 2011, decreased \$926,000, or 3.8%. This 3.8% decrease is in line with our decrease in service fee revenue. This comparison excludes expenses from centers that were acquired or divested subsequent to January 1, 2011. For the nine months ended September 30, 2012, medical supplies expense from centers that were acquired subsequent to January 1, 2011 and excluded from the above comparison was \$5.9 million. For the nine months ended September 30, 2011, medical supplies expense from centers that were acquired subsequent to January 1, 2011 and excluded from the above comparison was \$448,000.

Depreciation and amortization

Depreciation and amortization increased \$628,000, or 1.5%, to \$43.2 million for the nine months ended September 30, 2012 compared to the same period last year. The increase is due to property and equipment additions for existing centers as well as newly acquired centers. Offsetting this is a catch-up reduction to depreciation of approximately \$1.4 million recorded in September of 2012 related to our finalization of purchase accounting for our acquisition of Raven Holdings U.S., Inc.

Loss (gain) on sale and disposal of equipment

We recorded a net loss on sale of equipment of approximately \$255,000 for the nine months ended September 30, 2012 primarily related to the difference between the net book value of certain equipment sold and proceeds we received from the sale. We recorded a net gain on disposal of equipment of approximately \$1.9 million for the nine months ended September 30, 2011 primarily related to the difference between the net book value of certain equipment damaged in a fire at one of our imaging facilities and insurance proceeds we received from claims filed on this damaged equipment.

Interest expense

Interest expense for the nine months ended September 30, 2012 increased approximately \$1.6 million, or 4.1%, to \$40.9 million for the nine months ended September 30, 2012 compared to \$39.3 million for the nine months ended September 30, 2011. This 4.1% increase is primarily due to our increased borrowings on our revolving credit facility subsequent to the second half of 2011. Interest expense for the nine months ended September 30, 2012 included \$2.3 million of amortization of deferred loan costs as well as \$827,000 of amortization of Accumulated Other Comprehensive Loss associated with fair value adjustments to our interest rate swaps accumulated prior to April 6, 2010, the date of our initial debt refinancing. Interest expense for the nine months ended September 30, 2011 included \$2.2 million of amortization of deferred loan costs as well as \$918,000 of amortization of Accumulated Other Comprehensive Loss associated with fair value adjustments to our interest rate swaps accumulated prior to April 6, 2010, the date of our initial debt refinancing. See "Liquidity and Capital Resources" in our annual report on Form 10-K for the year ended December 31, 2011 for more details on our initial debt refinancing.

Gain on de-consolidation of joint venture

On July 1, 2012, we completed the sale of a 41% ownership interest of one of our consolidated joint ventures to our existing partner in that joint venture for \$1.8 million. After the sale, we retained a 49% ownership interest in this joint venture. As a result of this transaction we de-consolidated this joint venture and recorded the fair value of our remaining interest as an investment in non-consolidated joint venture accounted for under the equity method. We recorded a gain on de-consolidation of a joint venture of approximately \$2.8 million with respect to this transaction. Approximately \$1.4 million of this gain is related to the re-measurement to current fair value of our remaining 49% interest, using a market based valuation approach. The main input used in our valuation model was the \$1.8 million sale price of a 41% interest.

Other income

For the nine months ended September 30, 2012, we recorded approximately \$3.9 million of other income primarily related to fair value adjustments on our interest rate swaps. For the nine months ended September 30, 2011, we recorded approximately \$3.6 million of other income primarily related to fair value adjustments on our interest rate swaps.

Income tax expense

For the nine months ended September 30, 2012 and 2011, we recorded \$696,000 and \$718,000, respectively, of income tax expense primarily related to taxable income generated in the states of California, Maryland and Delaware.

Equity in earnings from unconsolidated joint ventures

For the nine months ended September 30, 2012, we recognized equity in earnings from unconsolidated joint ventures of \$4.2 million compared to \$3.8 million for the nine months ended September 30, 2011. This increase is in line with an increase in procedure volumes at these joint venture imaging centers.

Adjusted EBITDA

We use both GAAP and non-GAAP metrics to measure our financial results. We believe that, in addition to GAAP metrics, these non-GAAP metrics assist us in measuring our cash generated from operations and ability to service our debt obligations. We believe this information is useful to investors and other interested parties because we are highly leveraged and our non-GAAP metrics removes non-cash and certain other charges that occur in the affected period and provides a basis for measuring the Company's financial condition against other quarters.

One non-GAAP measure we believe assists us is Adjusted EBITDA. We define Adjusted EBITDA as earnings before interest, taxes, depreciation and amortization, each from continuing operations and exclude losses or gains on the disposal of equipment, other income or loss, loss on debt extinguishments, bargain purchase gains and non-cash equity compensation. Adjusted EBITDA includes equity earnings in unconsolidated operations and subtracts allocations of earnings to non-controlling interests in subsidiaries, and is adjusted for non-cash or extraordinary and one-time events taking place during the period.

Adjusted EBITDA is reconciled to its nearest comparable GAAP financial measure, net income attributable to RadNet, Inc. common stockholders. Adjusted EBITDA is a non-GAAP financial measure used as an analytical indicator by us and the healthcare industry to assess business performance, and is a measure of leverage capacity and ability to service debt. Adjusted EBITDA should not be considered a measure of financial performance under GAAP, and the items excluded from Adjusted EBITDA should not be considered in isolation or as alternatives to net income, cash flows generated by operating, investing or financing activities or other financial statement data presented in the consolidated financial statements as an indicator of financial performance or liquidity. As Adjusted EBITDA is not a measurement determined in accordance with GAAP and is therefore susceptible to varying methods of calculation, this metric, as presented, may not be comparable to other similarly titled measures of other companies.

The following is a reconciliation of GAAP net income to Adjusted EBITDA for the three and nine months ended September 30, 2012 and 2011, respectively:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2012	2011	2012	2011
Net Income Attributable to RadNet, Inc. Common Stockholders	\$5,053	\$39	\$7,888	\$2,684
Plus Provision for Income Taxes	30	234	696	718
Less Other Income	(1,360)	(1,506)	(3,851)	(3,566)
Plus Interest Expense	13,875	13,242	40,917	39,307
Plus Severence Costs	66	316	678	970
Plus Loss (Gain) on Sale and Disposal of Equipment	(45)	(331)	255	(1,928)
Less gain on de-consolidation of joint venture	(2,777)	_	(2,777)	_
Plus Depreciation and Amortization	13,369	14,309	43,154	42,526
Plus Non Cash Employee Stock Based Compensation	433	709	2,139	2,499
Adjusted EBITDA	\$28,644	\$27,012	\$89,099	\$83,210

Liquidity and Capital Resources

We had a working capital balance of \$31.3 million and \$30.0 million at September 30, 2012 and December 31, 2011, respectively. We had net income attributable to RadNet, Inc.'s common stockholders of \$7.9 million and \$2.7 million for the nine months ended September 30, 2012 and 2011, respectively. We also had an equity deficit of \$59.2 million and \$69.8 million at September 30, 2012 and December 31, 2011, respectively.

We operate in a capital intensive, high fixed-cost industry that requires significant amounts of capital to fund operations. In addition to operations, we require a significant amount of capital for the initial start-up and development expense of new diagnostic imaging facilities, the acquisition of additional facilities and new diagnostic imaging equipment. Because our cash flows from operations have been insufficient to fund all of these capital requirements, we have depended on the availability of financing under credit arrangements with third parties.

Based on our current level of operations, we believe that cash flow from operations and available cash, together with available borrowings from our senior secured credit facilities, will be adequate to meet our short-term and long-term liquidity needs. Our future liquidity requirements will be for working capital, capital expenditures, debt service and general corporate purposes. Our ability to meet our working capital and debt service requirements, however, is subject to future economic conditions and to financial, business and other factors, many of which are beyond our control. If we are not able to meet such requirements, we may be required to seek additional financing. There can be no assurance that we will be able to obtain financing from other sources on the terms acceptable to us, if at all.

On a continuing basis, we also consider various transactions to increase shareholder value and enhance our business results, including acquisitions, divestitures and joint ventures. These types of transactions may result in future cash proceeds or payments but the general timing, size or success of any acquisition, divestiture or joint venture effort and the related potential capital commitments cannot be predicted. We expect to fund any future acquisitions primarily with cash flow from operations and borrowings, including borrowing from amounts available under our senior secured credit facility or through new equity or debt issuances.

We and our subsidiaries or affiliates may from time to time, in our or their sole discretion, continue to purchase, repay, redeem or retire any of our outstanding debt or equity securities in privately negotiated or open market transactions, by tender offer or otherwise. However, we have no formal plan of doing so at this time.

Our business strategy with regard to operations focuses on the following:

- maximizing performance at our existing facilities;
- · focusing on profitable contracting;
- expanding MRI, CT and PET applications;
- · optimizing operating efficiencies; and
- · expanding our networks.

At September 30, 2012, our outstanding indebtedness included our senior notes of \$200.0 million aggregate principal outstanding as well as our senior secured credit facilities consisting of \$277.9 million of senior secured term loan debt outstanding and \$59.8 million outstanding under our revolving credit facility. We had \$61.45 million of available credit under our revolving credit facility, subject to borrowing conditions under that facility as further described in our annual report on Form 10-K for the fiscal year ended December 31, 2011. As of September 30, 2012, we were in compliance with all covenants under our senior secured credit facilities and the senior notes.

On October 10, 2012 we completed the refinancing of our senior secured credit facilities in the aggregate amount of \$451.25 million. The refinancing includes a new credit agreement providing for a \$350 million senior secured term loan and a \$101.25 million senior secured revolving credit facility.

The termination date for the \$350 million term loan shall be on the earliest to occur of (i) the sixth anniversary of the closing date, (ii) the date on which all of the term loans shall become due and payable in full under the new credit agreement whether by acceleration or otherwise and (iii) October 1, 2017 if our senior notes due 2018 have not been refinanced by such date. The termination date for the \$101.25 million revolving credit facility shall be on the earliest to occur of (i) the fifth anniversary of the closing date, (ii) the date the revolving credit facility is permanently reduced to zero pursuant to section 2.13(b) of the new credit agreement, (iii) the date of the termination of the revolving credit facility pursuant to section 8.01 of the new credit agreement and (iv) October 1, 2017 if our senior notes due 2018 have not been refinanced by such date.

The \$350 million term loan and the \$101.25 million revolving credit facility are floating rate facilities, and we may request the interest rate be based upon LIBOR (subject to a 1.25% LIBOR floor for the term loan) plus an applicable margin of 4.25%.

The proceeds from the new credit facilities were used to repay our existing senior secured term loan and revolving credit facility in full and certain other indebtedness, to pay fees and expenses related to the transaction.

The obligations of Radnet Management, Inc. under the new credit facilities are guaranteed by RadNet, Inc. and all of our current and future wholly-owned domestic subsidiaries and certain of our affiliates. The obligations under the new credit facilities and the guarantees are secured by a first priority security interest in substantially all of our assets as well as the assets of our wholly-owned subsidiaries and affiliates.

For more information on our refinancing, see our current report on Form 8-K filed with the SEC on October 10, 2012.

Sources and Uses of Cash

Cash provided by operating activities was \$55.6 million for the nine months ended September 30, 2012 and \$34.1 million for the nine months ended September 30, 2011.

Cash used in investing activities was \$43.7 million and \$46.4 million for the nine months ended September 30, 2012 and 2011, respectively. For the nine months ended September 30, 2012, we purchased property and equipment for approximately \$35.3 million and acquired the assets and businesses of additional imaging facilities for approximately \$10.6 million. We also purchased additional equity interests in non-consolidated joint ventures for approximately \$2.8 million. Offsetting our cash used in investing activities was \$2.3 million in proceeds from the sale of an acquired imaging center that was classified on our consolidated balance sheet at December 31, 2011as an asset held for sale, and also \$1.8 million of proceeds from the sale of joint venture interests.

Cash used in financing activities was \$14.0 million for the nine months ended September 30, 2012 compared to cash provided by financing activities of \$11.9 million for the nine months ended September 30, 2011. The cash used in financing activities for the nine months ended September 30, 2012 was primarily related to payments we made toward our term loans, capital leases and line of credit balances, as well as \$4.6 million of cash payments, net of cash receipts, related to our modified cash flow hedges.

ITEM 3. Quantitative and Qualitative Disclosures about Market Risk

Foreign Currency Exchange Risk. We sell our services exclusively in the United States and receive payment for our services exclusively in U.S. dollars. As a result, our financial results are unlikely to be affected by factors such as changes in foreign currency, exchange rates or weak economic conditions in foreign markets.

After the completion of the acquisition of Image Medical Corporation, the parent of eRAD, Inc. on October 1, 2010, we maintain research and development facilities in Prince Edward Island, Canada and Budapest, Hungary for which expenses are paid in the local currency. Accordingly, we do have currency risk resulting from fluctuations between such local currency and the U.S. Dollar. At the present time, we do not have any foreign exchange currency contracts to mitigate this risk. Fluctuations in foreign exchange rates could impact future operating results. A hypothetical 1% increase in the rate of exchange of foreign currencies against the dollar for 2012 would result in an increase of approximately \$6,000 in our operating expenses for the current year.

Interest Rate Sensitivity. A large portion of our interest expense is not sensitive to changes in the general level of interest in the United States because much of our indebtedness has interest rates that were fixed when we entered into the note payable or capital lease obligation. Our credit facility however, which is classified as a long-term liability on our financial statements, is interest expense sensitive to changes in the general level of interest in the United States because it is priced at a 3.75% spread to the greater of 2% ("LIBOR Floor") or 3 month LIBOR. At September 30, 2012, we had \$303.8 million outstanding under our then existing credit facilities that were tied to LIBOR. Because the LIBOR Floor exceeded the spot rate of 3 month LIBOR (which was at about 36 basis points as of September 30, 2012), the spot rate of 3 month LIBOR would have to increase by more than 164 basis points before we would recognize any increase in our interest expense. The LIBOR rate would have to increase by 264 basis points for us to realize a 1% increase in our borrowing rate under our then existing credit facility and for us to experience an annual increase of \$2.8 million in our interest expense. We have an additional \$33.8 million under our credit facilities that is tied to the prime rate. A hypothetical 1% increase in the prime rate for 2012 could result in an increase of approximately \$338,000 in our interest expense for the current year.

ITEM 4. Controls and Procedures

We maintain disclosure controls and procedures that are designed to provide reasonable assurance that material information is: (1) gathered and communicated to our management, including our principal executive and financial officers, on a timely basis; and (2) recorded, processed, summarized, reported and filed with the SEC as required under the Securities Exchange Act of 1934, as amended.

Our management, with the participation of our chief executive officer and chief financial officer, evaluated the effectiveness of our disclosure controls and procedures as of September 30, 2012. Based on such evaluation, our chief executive officer and chief financial officer concluded that our disclosure controls and procedures were effective for

Edgar Filing: FEDERAL NATIONAL MORTGAGE ASSOCIATION FANNIE MAE - Form ABS-15G/A their intended purpose described above.

Changes in Internal Control over Financial Reporting

No changes were made in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) of the Securities Exchange Act of 1934, as amended) during our most recent fiscal quarter that has materially affected, or is likely to materially affect, our internal control over financial reporting.

Limitations on Disclosure Controls and Procedures.

Our management, including our chief executive officer and chief financial officer, does not expect that our disclosure controls or internal controls over financial reporting will prevent all errors or all instances of fraud. A control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that the control system's objectives will be met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within our company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. Controls can also be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the controls. The design of any system of controls is based in part upon certain assumptions about the likelihood of future events, and any design may not succeed in achieving its stated goals under all potential future conditions. Over time, controls may become inadequate because of changes in conditions or deterioration in the degree of compliance with policies or procedures. Because of the inherent limitation of a cost-effective control system, misstatements due to error or fraud may occur and not be detected.

PART II - OTHER INFORMATION

ITEM 1 Legal Proceedings

We are engaged from time to time in the defense of lawsuits arising out of the ordinary course and conduct of our business. We believe that the outcome of our current litigation will not have a material adverse impact on our business, financial condition and results of operations. However, we could be subsequently named as a defendant in other lawsuits that could adversely affect us.

ITEM 1A Risk Factors

The following is an update to a risk factor described in our annual report on Form 10-K for the year ended December 31, 2011, and should be read in conjunction with the other risk factors therein.

We are vulnerable to earthquakes, harsh weather and other natural disasters.

Our corporate headquarters and 105 of our facilities are located in California, an area prone to earthquakes and other natural disasters. Several of our facilities are located in areas of Florida and the east coast that have suffered from hurricanes. Most recently, our operations in Maryland, Delaware, New York and New Jersey were negatively impacted when Hurricane Sandy made landfall on the east coast in late October 2012, resulting in site closures, loss of power and other related business disruptions. In addition, some of our facilities have been affected by snow and other harsh weather conditions, particularly in February 2010, when winter snow storms in the mid-Atlantic region, including Maryland, Delaware and New Jersey, caused us to close many of our facilities for up to five business days. An earthquake, harsh weather conditions or other natural disaster could decrease scan volume during affected periods and seriously impair our operations. Damage to our equipment or interruption of our business would adversely affect our financial condition and results of operations.

There are no additional material changes to the risk factors previously disclosed in our annual report on Form 10-K for the year ended December 31, 2011.
