This Quarterly Report on Form 10-Q contains a number of forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). These statements may be identified by use of words such as "anticipate," "believe," "could," "estimate," "expect," "intend," "seek," "may," "outlook," "plan," "potential," "predict," "project," "should," "will," "would" and similar terms and phrases, including references to assumptions.

Forward-looking statements are based upon various assumptions and analyses made by Dime Community Bancshares, Inc. (the "Holding Company," and together with its direct and indirect subsidiaries, the "Company") in light of management's experience and its perception of historical trends, current conditions and expected future developments, as well as other factors it believes appropriate under the circumstances. These statements are not guarantees of future performance and are subject to risks, uncertainties and other factors (many of which are beyond the Company's control) that could cause actual conditions or results to differ materially from those expressed or implied by such forward-looking statements. These factors include, without limitation, the following:

- the timing and occurrence or non-occurrence of events may be subject to circumstances beyond the Company's control;
- there may be increases in competitive pressure among financial institutions or from non-financial institutions;
- the net interest margin is subject to material short-term fluctuation based upon market rates;
- changes in deposit flows, loan demand or real estate values may adversely affect the business of The Dime Savings Bank of Williamsburgh (the "Bank");
- changes in accounting principles, policies or guidelines may cause the Company's financial condition to be perceived differently;
- changes in corporate and/or individual income tax laws may adversely affect the Company's business or financial condition;

general economic conditions, either nationally or locally in some or all areas in which the Company conducts business, or conditions in the securities markets or the banking industry may be less favorable than the Company currently anticipates;

legislation or regulatory changes may adversely affect the Company's business;

technological changes may be more difficult or expensive than the Company anticipates;

success or consummation of new business initiatives may be more difficult or expensive than the Company anticipates;

litigation or other matters before regulatory agencies, whether currently existing or commencing in the future, may delay the occurrence or non-occurrence of events longer than the Company anticipates; and

The risks referred to in the section entitled "Risk Factors."

The Company has no obligation to update any forward-looking statements to reflect events or circumstances after the date of this document.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

(Dollars in Thousands Except Per Share Amounts)

1. NATURE OF OPERATIONS

The Holding Company is a Delaware corporation and parent company of the Bank, a New York State chartered stock savings bank. The Holding Company's direct subsidiaries are the Bank, 842 Manhattan Avenue Corp., and Dime Community Capital Trust 1. The Bank's direct subsidiaries are Boulevard Funding Corp., Dime Insurance Agency Inc., DSBW Preferred Funding Corporation, DSBW Residential Preferred Funding Corp., Dime Reinvestment Corp., 195 Havemeyer Corp. and DSB Holdings NY, LLC.

The Bank maintains its headquarters in the Williamsburg section of Brooklyn, New York and operates twenty-five full service retail banking offices located in the New York City ("NYC") boroughs of Brooklyn, Queens, and the Bronx, and in Nassau County, New York. The Bank's principal business is gathering deposits from customers within its market area and via the internet, and investing them primarily in multifamily residential, commercial real estate and mixed used loans, as well as mortgage-backed securities ("MBS"), obligations of the U.S. Government and Government Sponsored Enterprises ("GSEs"), and corporate debt and equity securities. All of the Bank's lending occurs in the greater NYC metropolitan area.

2. SUMMARY OF ACCOUNTING POLICIES

In the opinion of management, the accompanying unaudited condensed consolidated financial statements contain all adjustments necessary for a fair presentation of the Company's financial condition as of September 30, 2015 and December 31, 2014, the results of operations and statements of comprehensive income for the three-month and nine-month periods ended September 30, 2015 and 2014, and the changes in stockholders' equity and cash flows for the nine-month periods ended September 30, 2015 and 2014. The results of operations for the three-month and nine-month periods ended September 30, 2015 are not necessarily indicative of the results of operations for the remainder of the year ending December 31, 2015. Certain information and note disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") have been omitted pursuant to the rules and regulations of the U. S. Securities and Exchange Commission ("SEC").

The preparation of the condensed consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the condensed consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Please see "Part I - Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations - Critical Accounting Policies" for a discussion of areas in the accompanying unaudited condensed consolidated financial statements utilizing significant estimates.

These unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements as of and for the year ended December 31, 2014 and notes thereto.

3. RECENT ACCOUNTING PRONOUNCEMENTS

In April 2014, the Financial Accounting Standards Board issued Accounting Standards Update 2014-08, "Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity" ("ASU 2014-08"). ASU 2014-08 changed the

criteria for reporting discontinued operations and provided financial statement users additional information related to the assets, liabilities, income, and expenses of discontinued operations. ASU 2014-08 also sought to both clarify confusion related to, and inconsistent financial reporting of, discontinued operations under existing GAAP guidance, and enhance convergence between GAAP and International Financial Reporting Standards. Under ASU 2014-08, only disposals that represent strategic shifts and have a major effect on the organization's operations and financial results are to be presented as discontinued operations. ASU 2014-08 further requires disclosure of the pretax income attributable to the disposal of a significant part of an organization that does not meet the criteria for discontinued operations reporting, providing users information about the ongoing trends in a reporting organization's results from continuing operations. The Company adopted ASU 2014-08 effective January 1, 2015. Adoption of ASU 2014-08 did not have a material impact upon the Company's consolidated financial condition or results of operations.

Table of contents

4. TREASURY STOCK

There were no treasury stock repurchases during the three months ended September 30, 2015, or the three-month or nine-month periods ended September 30, 2014. The Holding Company repurchased 20,000 shares of its common stock into treasury during the nine months ended September 30, 2015 at a weighted average cost of \$15.00 per share.

On April 23, 2015, 11,557 shares of the Holding Company's common stock were released from treasury in order to fulfill benefit obligations under the BMP. The closing price of the Holding Company's common stock on that date was \$16.37, and the shares were released utilizing the average historical cost method. On April 30, 2015, 68,069 shares of the Holding Company's common stock were released from treasury in order to fulfill benefit obligations under the Dime Community Bancshares, Inc. 2013 Equity and Incentive Plan (the "2013 Equity and Incentive Plan"). The closing price of the Holding Company's common stock on that date was \$15.92, and the shares were released utilizing the average historical cost method.

On April 30, 2014, 121,333 shares of the Holding Company's common stock were released from treasury in order to fulfill benefit obligations under either the Dime Community Bancshares, Inc. 2004 Stock Incentive Plan (the "2004 Stock Incentive Plan") or the 2013 Equity and Incentive Plan, and 9,364 shares of treasury stock were released in order to fulfill benefit obligations under the BMP. The closing price of the Holding Company's common stock on that date was \$16.30, and the shares were released utilizing the average historical cost method.

Shares either released from treasury stock for earned equity awards or returned to treasury stock due to forfeited equity awards were otherwise immaterial during the three-month and nine-month periods ended September 30, 2015 and 2014.

5. OTHER COMPREHENSIVE INCOME (LOSS)

The before and after tax amounts allocated to each component of other comprehensive income (loss) are presented in the table below. Reclassification adjustments related to securities available-for-sale are included in the line entitled net (loss) gain on securities in the accompanying condensed consolidated statements of income.

	Pre-tax Amount	Tax Expense (Benefit)	After tax Amount
Three Months Ended September 30, 2015			
Securities held-to maturity and transferred securities:			
Change in non-credit component of OTTI	\$ 9	\$ 4	\$ 5
Change in unrealized loss on securities transferred to held to maturity	11	5	6
Total securities held-to-maturity and transferred securities	20	9	11
Securities available-for-sale:			
Change in net unrealized gain during the period	(176)	(79)	(97)
Total securities available-for-sale	(176)	(79)	(97)
Defined benefit plans:			
Reclassification adjustment for expense included in salaries and employee benefits expense	478	216	262
Change in the net actuarial gain or loss	-	-	-
Total defined benefit plans	478	216	262
Total other comprehensive income	\$ 322	\$ 146	\$ 176
Three Months Ended September 30, 2014			
Securities held-to-maturity and transferred securities:			
Change in non-credit component of OTTI	\$ 8	\$ 4	\$ 4

Edgar Filing: DIME COMMUNITY BANCSHARES INC - Form 10-Q

Change in unrealized loss on securities transferred to held to maturity	12	5	7
Total securities held-to-maturity and transferred securities	20	9	11
Securities available-for-sale:			
Change in net unrealized gain during the period	(54)	(24)	(30)
Total securities available-for-sale	(54)	(24)	(30)
Defined benefit plans:			
Reclassification adjustment for expense included in salaries and employee benefits expense	261	117	144
Total defined benefit plans	261	117	144
Total other comprehensive income	\$ 227	\$ 102	\$ 125

8

Table of contents

	Pre-tax Amount	Tax Expense (Benefit)	After tax Amount
Nine Months Ended September 30, 2015			
Securities held-to maturity and transferred securities:			
Change in non-credit component of OTTI	\$(18)	\$ (8)	\$ (10)
Change in unrealized loss on securities transferred to held to maturity	57	26	31
Total securities held-to-maturity and transferred securities	39	18	21
Securities available-for-sale:			
Reclassification adjustment for net gains included in net (loss) gain on securities	(1,384)	(624)	(760)
Change in net unrealized gain during the period	(141)	(64)	(77)
Total securities available-for-sale	(1,525)	(688)	(837)
Defined benefit plans:

Total defined benefit plans	783	351	432
Total other comprehensive income	\$862	\$ 387	\$ 475

Activity in accumulated other comprehensive gain (loss), net of tax, was as follows:

	Securities Held-to-Maturity and Transferred Securities	Securities Available-for-Sale	Defined Benefit Plans	Total Accumulated Other Comprehensive Gain (Loss)
Balance as of January 1, 2015	\$ (826)	\$ 736	\$(8,457)	\$ (8,547)
Other comprehensive income (loss) before reclassifications	21	(77)	(586)	(642)
Amounts reclassified from accumulated other comprehensive loss	-	(760)	776	16
Net other comprehensive income (loss) during the period	21	(837)	190	(626)
Balance as of September 30, 2015	\$ (805)	\$ (101)	\$(8,267)	\$ (9,173)

Balance as of January 1, 2014	\$ (878)	\$ 1,319	\$(5,200)	\$ (4,759)
Other comprehensive income before reclassifications	41	2	-	43
Amounts reclassified from accumulated other comprehensive loss	-	-	432	432
Net other comprehensive income during the period	41	2	432	475
Balance as of September 30, 2014	\$ (837)	\$ 1,321	\$(4,768)	\$ (4,284)

6. EARNINGS PER SHARE ("EPS")

Basic EPS is computed by dividing income attributable to common stock by the weighted-average common shares outstanding during the reporting period. Diluted EPS is computed using the same method as basic EPS, but reflects the potential dilution that would occur if "in the money" stock options were exercised and converted into common stock. In determining the weighted average shares outstanding for basic and diluted EPS, treasury stock and unallocated ESOP shares are excluded. Vested restricted stock award shares are included in the calculation of the weighted average shares outstanding for basic and diluted EPS. Unvested restricted stock award shares are recognized as a special class of securities under ASC 260.

Table of contents

The following is a reconciliation of the numerators and denominators of basic EPS and diluted EPS for the periods presented:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2015	2014	2015	2014
Net income per the Consolidated Statements of Income	\$ 10,081	\$ 11,765	\$ 33,388	\$ 32,259
Less: Dividends paid and earnings allocated to participating securities	(31)	(41)	(105)	(128)
Income attributable to common stock	\$ 10,050	\$ 11,724	\$ 33,283	\$ 32,131
Weighted average common shares outstanding, including participating securities	36,552,925	36,215,186	36,414,645	36,164,129
Less: weighted average participating securities	(224,102)	(295,044)	(252,162)	(305,615)
Weighted average common shares outstanding	36,328,823	35,920,142	36,162,483	35,858,514
Basic EPS	\$0.28	\$0.33	\$0.92	\$0.90
Income attributable to common stock	\$ 10,050	\$ 11,724	\$ 33,283	\$ 32,131
Weighted average common shares outstanding	36,328,823	35,920,142	36,162,483	35,858,514
Weighted average common equivalent shares outstanding	92,631	54,197	87,887	82,231
Weighted average common and equivalent shares outstanding	36,421,454	35,974,339	36,250,370	35,940,745
Diluted EPS	\$0.28	\$0.33	\$0.92	\$0.90

Common equivalent shares resulting from the dilutive effect of "in-the-money" outstanding stock options are calculated based upon the excess of the average market value of the Holding Company's common stock over the exercise price of outstanding in-the-money stock options during the period.

There were 80,000 and 270,996 weighted-average stock options outstanding for the three-month periods ended September 30, 2015 and 2014, respectively, which were not considered in the calculation of diluted EPS since their exercise prices exceeded the average market price during the period. There were 132,976 and 309,444 weighted-average stock options outstanding for the nine-month periods ended September 30, 2015 and 2014, respectively, which were not considered in the calculation of diluted EPS since their exercise prices exceeded the average market price during the period.

7. ACCOUNTING FOR STOCK BASED COMPENSATION

During the three-month and nine-month periods ended September 30, 2015 and 2014, the Holding Company and Bank maintained the Dime Community Bancshares, Inc. 2001 Stock Option Plan for Outside Directors, Officers and Employees, the 2004 Stock Incentive Plan and the 2013 Equity and Incentive Plan (collectively, the "Stock Plans"), which are discussed more fully in Note 15 to the Company's audited consolidated financial statements for the year ended December 31, 2014, and which are subject to the accounting requirements of ASC 505-50 and ASC 718.

Stock Option Awards

Combined activity related to stock options granted under the Stock Plans during the periods presented was as follows:

At or for the Three Months	At or for the Nine Months
-------------------------------	------------------------------

Edgar Filing: DIME COMMUNITY BANCSHARES INC - Form 10-Q

	Ended September 30,		Ended September 30,	
	2015	2014	2015	2014

Weighted average exercise price of vested options – end of period	14.57	14.73	14.57	14.73

Table of contents

There were no grants of stock options during the three-month and nine-month periods ended September 30, 2015 and 2014.

Restricted Stock Awards

Prior to June 2014, the Company issued restricted stock awards to outside directors and certain officers under the 2004 Equity Plan. Presently, the Company issues restricted stock awards periodically to outside directors and certain officers under the 2013 Equity Plan. Typically, awards to outside directors fully vest on the first anniversary of the grant date, while awards to officers vest in equal annual installments over a four-year period.

The following is a summary of activity related to the restricted stock awards granted under the 2004 Equity Plan or 2013 Equity Plan during the periods indicated:

	At or for the Three Months Ended September 30,		At or for the Nine Months Ended September 30,	
	2015	2014	2015	2014
Unvested allocated shares – beginning of period	224,372	295,044	289,660	318,314
Shares granted	-	-	68,069	121,333
Shares vested	-	-	(132,377)	(141,361)
Shares forfeited	(478)	-	(1,458)	(3,242)
Unvested allocated shares – end of period	223,894	295,044	223,894	295,044
Compensation recorded to expense	\$434	\$501	\$1,418	\$1,497

8. LOANS RECEIVABLE AND CREDIT QUALITY

Loans are reported at the principal amount outstanding, net of unearned fees or costs and the allowance for loan losses. Interest income on loans is recorded using the level yield method. Under this method, discount accretion and premium amortization are included in interest income. Loan origination fees and certain direct loan origination costs are deferred and amortized as yield adjustments over the contractual loan terms.

Credit Quality Indicators:

The Company categorizes loans into risk categories based on relevant information about the ability of borrowers to service their debt, such as: current financial information, historical payment experience, credit documentation, public information, and current economic trends, among other factors. The Company analyzes loans individually by classifying them as to credit risk. This analysis includes all non-homogeneous loans, such as multifamily residential, mixed use residential (i.e., loans in which the aggregate rental income of the underlying collateral property is generated from both residential and commercial units, but the majority of such income is generated from the residential units), mixed use commercial real estate (i.e., loans in which the aggregate rental income of the underlying collateral property is generated from both residential and commercial units, but the majority of such income is generated from the commercial units), commercial real estate and construction and land acquisition loans, as well as one-to four family residential and cooperative and condominium apartment loans with balances in excess of the Fannie Mae ("FNMA") conforming loan limits for high-cost areas such as the Bank's primary lending area ("FNMA Limits") that are deemed to meet the definition of impaired. This analysis is performed on a quarterly basis. The Company uses the following definitions for risk ratings:

Special Mention. Loans classified as special mention have a potential weakness that deserves management's close attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects for the loan or of the Bank's credit position at some future date.

Substandard. Loans classified as substandard are inadequately protected by the current net worth and paying capacity of the obligor or of the collateral pledged, if any. Loans so classified have a well-defined weakness or weaknesses that jeopardize the liquidation of the debt. They are characterized by the distinct possibility that the Bank will sustain some loss if the deficiencies are not corrected.

Doubtful. Loans classified as doubtful have all the weaknesses inherent in those classified as substandard, with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of then existing facts, conditions, and values, highly questionable and improbable.

The Bank had no loans classified as doubtful as of September 30, 2015 or December 31, 2014. All real estate loans not classified as Special Mention or Substandard were deemed pass loans at both September 30, 2015 and December 31, 2014.

Table of contents

The following is a summary of the credit risk profile of real estate loans (including deferred costs) by internally assigned grade as of the dates indicated:

Balance at September 30, 2015						
Grade	One- to Four-Family Residential, Including Multifamily Condominiums and Cooperative Apartments		Residential Mixed Use Real Estate		Commercial Real Estate Construction	
						Total Real Estate Loans
Not Graded(1)	\$8,098	\$ -	\$ -	\$ -	\$ -	\$8,098
Pass	58,311	3,550,193	373,219	459,773	-	4,441,496
Special Mention	1,347	9,339	1,630	5,620	-	17,936
Substandard	1,862	7,841	5,573	7,818	-	23,094
Doubtful	-	-	-	-	-	-
Total	\$69,618	\$3,567,373	\$380,422	\$473,211	\$ -	\$4,490,624

(1) Amount comprised of fully performing one- to four-family residential and condominium and cooperative unit loans with balances equal to or less than the FNMA Limits.

Balance at December 31, 2014						
Grade	One- to Four-Family Residential, Including Multifamily Condominiums and Cooperative Apartments		Residential Mixed Use Real Estate		Commercial Real Estate Construction	
						Total Real Estate Loans
Not Graded(1)	\$9,091	\$ -	\$ -	\$ -	\$ -	\$9,091
Pass	60,764	3,271,430	317,718	391,227	-	4,041,139
Special Mention	1,370	20,738	4,944	6,431	-	33,483
Substandard	2,275	6,280	6,005	19,138	-	33,698
Doubtful	-	-	-	-	-	-
Total	\$73,500	\$3,298,448	\$328,667	\$416,796	\$ -	\$4,117,411

(1) Amount comprised of fully performing one- to four-family residential and condominium and cooperative unit loans with balances equal to or less than the FNMA Limits.

For consumer loans, the Company evaluates credit quality based on payment activity. Consumer loans that are 90 days or more past due are placed on non-accrual status, while all remaining consumer loans are classified and evaluated as performing.

The following is a summary of the credit risk profile of consumer loans by internally assigned grade:

Grade	Balance at September 30, 2015	Balance at December 31, 2014
Performing	\$1,466	\$1,825
Non-accrual	2	4
Total	\$1,468	\$1,829

Table of contents

The following is a breakdown of the past due status of the Company's investment in loans (excluding accrued interest and loans held for sale) as of the dates indicated:

At September 30, 2015

	30 to 59 Days Past Due	60 to 89 Days Past Due	Loans 90 Days or More Past Due and Still Accruing Interest	Non-accrual (1)	Total Past Due	Current	Total Loans
Real Estate:							
One- to four-family residential, including condominium and cooperative apartment	\$174	\$4	\$630	\$834	\$1,642	\$67,976	\$69,618
Multifamily residential and residential mixed use	2,244	-	374	547	3,165	3,564,208	3,567,373
Commercial mixed use real estate	130	-	406	-	536	379,886	380,422
Commercial real estate	-	-	1,093	207	1,300	471,911	473,211
Total real estate	\$2,548	\$4	\$2,503	\$1,588	\$6,643	\$4,483,981	\$4,490,624
Consumer	\$2	\$-	\$-	\$2	\$4	\$1,464	\$1,468

(1) Includes all loans on non-accrual status regardless of the number of days such loans were delinquent as of September 30, 2015.

At December 31, 2014

	30 to 59 Days Past Due	60 to 89 Days Past Due	Loans 90 Days or More Past Due and Still Accruing Interest	Non-accrual (1)	Total Past Due	Current	Total Loans
Real Estate:							
One- to four-family residential, including condominium and cooperative apartment	\$240	\$-	\$-	\$1,310	\$1,550	\$71,950	\$73,500
Multifamily residential and residential mixed use	1,187	-	2,922	167	4,276	3,294,172	3,298,448
Commercial mixed use real estate	-	-	411	-	411	328,256	328,667
Commercial real estate	-	-	-	4,717	4,717	412,079	416,796
Total real estate	\$1,427	\$-	\$3,333	\$6,194	\$10,954	\$4,106,457	\$4,117,411
Consumer	\$2	\$-	\$-	\$4	\$6	\$1,823	\$1,829

(1) Includes all loans on non-accrual status regardless of the number of days such loans were delinquent as of December 31, 2014.

Accruing Loans 90 Days or More Past Due

The Bank continued accruing interest on eight real estate loans with an aggregate outstanding balance of \$2,503 at September 30, 2015, and eight real estate loans with an aggregate outstanding balance of \$3,333 at December 31, 2014, all of which were 90 days or more past due on their respective contractual maturity dates. These loans continued to make monthly payments consistent with their initial contractual amortization schedule exclusive of the balloon payments due at maturity. These loans were well secured and were expected to be refinanced, and, therefore, remained on accrual status and were deemed performing assets at the dates indicated above.

Table of contentsTroubled Debt Restructurings ("TDRs")

The following table summarizes outstanding TDRs by underlying collateral type as of the dates indicated:

	As of September 30, 2015		As of December 31, 2014	
	No. of Loans	Balance	No. of Loans	Balance
One- to four-family residential, including condominium and cooperative apartment	2	\$599	2	\$605
Multifamily residential and residential mixed use	3	705	4	1,105
Commercial mixed use real estate	1	4,365	1	4,400
Commercial real estate	2	3,651	4	13,707
Total real estate	8	\$9,320	11	\$19,817

The following table summarizes outstanding TDRs by accrual status as of the dates indicated:

	As of September 30, 2015		As of December 31, 2014	
	No. of Loans	Balance	No. of Loans	Balance
Outstanding principal balance at period end	8	\$9,320	11	\$19,817
TDRs on accrual status at period end	7	9,113	9	15,100
TDRs on non-accrual status at period end	1	207	2	4,717

Accrual status for TDRs is determined separately for each TDR in accordance with the Bank's policies for determining accrual or non-accrual status. At the time an agreement is entered into between the Bank and the borrower that results in the Bank's determination that a TDR has been created, the loan can be on either accrual or non-accrual status. If a loan is on non-accrual status at the time it is restructured, it continues to be classified as non-accrual until the borrower has demonstrated compliance with the modified loan terms for a period of at least six months. Conversely, if at the time of restructuring the loan is performing (and accruing), it will remain accruing throughout its restructured period, unless the loan subsequently meets any of the criteria for non-accrual status under the Bank's policy and agency regulations.

The Company has not restructured troubled consumer loans, as its consumer loan portfolio has not experienced any problem issues warranting restructuring. Therefore, all TDRs were collateralized by real estate at both September 30, 2015 and December 31, 2014.

There were no loans modified in a manner that met the criteria of a TDR during the three-month and nine-month periods ended September 30, 2015.

The following table summarizes activity related to TDRs for the periods indicated:

For the Three Months Ended September 30, 2014			For the Nine Months Ended September 30, 2014		
Pre-Modification Number Outstanding of Loans Recorded	Post-Modification Outstanding Recorded	Investment	Pre-Modification Number Outstanding of Loans Recorded	Post-Modification Outstanding Recorded	Investment

Loan modifications
during the
period that met the
definition of a
TDR:

Commercial mixed use real estate	-	-	-	1	\$4,400	\$4,400
Commercial real estate	1	\$3,500	\$3,500	1	3,500	3,500
TOTAL	1	\$3,500	\$3,500	2	\$7,900	\$7,900

The Bank's allowance for loan losses at September 30, 2015 did not reflect any allocated reserve associated with TDRs. The Bank's allowance for loan losses at December 31, 2014 reflected \$19 of allocated reserve associated with TDRs. Activity related to reserves associated with TDRs was immaterial during the three-month and nine-month periods ended September 30, 2015 and 2014.

As of September 30, 2015 and December 31, 2014, the Bank had no loan commitments to borrowers with outstanding TDRs.

Table of contents

A TDR is considered to be in payment default once it is 90 days contractually past due under the modified terms. All TDRs are considered impaired loans and are evaluated individually for measurable impairment, if any.

There were no TDRs which defaulted within twelve months following the modification during the three-month or nine-month periods ended September 30, 2015 and 2014 (thus no significant impact to the allowance for loan losses during those periods).

Impaired Loans

A loan is considered impaired when, based on then current information and events, it is probable that all contractual amounts due will not be collected in accordance with the terms of the loan. Factors considered by management in determining impairment include payment status, collateral value, and the probability of collecting scheduled principal and interest payments when due. Loans that experience insignificant payment delays or shortfalls generally are not classified as impaired. Management determines the significance of payment delays and shortfalls on a case-by-case basis, taking into consideration all of the circumstances surrounding the loan and the borrower, including the length of the delay, the reasons for the delay, the borrower's prior payment record, and the amount of the shortfall in relation to the principal and interest owed.

The Bank considers TDRs and non-accrual multifamily residential and commercial real estate loans, along with non-accrual one- to four-family loans in excess of the FNMA Limits, to be impaired. Non-accrual one-to four-family loans equal to or less than the FNMA Limits, as well as all consumer loans, are considered homogeneous loan pools and are not required to be evaluated individually for impairment unless considered a TDR.

Impairment is typically measured using the difference between the outstanding loan principal balance and either: 1) the likely realizable value of a note sale; 2) the fair value of the underlying collateral, net of likely disposal costs, if repayment is expected to come from liquidation of the collateral; or 3) the present value of estimated future cash flows (using the loan's pre-modification rate for some of the performing TDRs). If a TDR is substantially performing in accordance with its restructured terms, management will look to either the potential net liquidation proceeds of the underlying collateral or the present value of the expected cash flows from the debt service in measuring impairment (whichever is deemed most appropriate under the circumstances). If a TDR has re-defaulted, generally the likely realizable net proceeds from either a note sale or the liquidation of the collateral is considered when measuring impairment. Measured impairment is either charged off immediately or, in limited instances, recognized as an allocated reserve within the allowance for loan losses.

Please refer to Note 9 for tabular information related to impaired loans.

Loans Re-acquired from FNMA

Until February 20, 2014, the Bank serviced a pool of multifamily loans sold to FNMA, and retained an obligation (off-balance sheet contingent liability) to absorb a portion of any losses (as defined in the seller/servicer agreement) incurred by FNMA in connection with the loans sold (the "First Loss Position"). This pool of loans was re-acquired on February 20, 2014, and the First Loss Position was extinguished. Since re-acquisition, the credit quality of these loans has been evaluated in accordance with the policies and procedures discussed in this note.

The Company paid an aggregate premium of \$13,163 on the real estate loans re-acquired from FNMA during the nine months ended September 30, 2014. The premium is being amortized as an adjustment to interest income throughout the remaining estimated life of the loans. At September 30, 2015 and December 31, 2014, the remaining unamortized premium totaled \$3,944 and \$7,950, respectively.

9. ALLOWANCE FOR LOAN LOSSES

The allowance for loan losses may consist of specific and general components. The Bank's periodic evaluation of its allowance for loan losses (specific or general) is comprised of four primary components: (1) impaired loans; (2) non-impaired substandard loans; (3) non-impaired special mention loans; and (4) pass graded loans. Within these components, the Company has identified the following portfolio segments for purposes of assessing its allowance for loan losses (specific or general): (1) real estate loans; and (2) consumer loans. Within these segments, the Bank analyzes the allowance for loan losses based upon the underlying collateral type (classes). Due to their small homogeneous balances, consumer loans were not individually evaluated for impairment as of both September 30, 2015 and December 31, 2014.

Impaired Loan Component

All multifamily residential, mixed use, commercial real estate and construction loans that are deemed to meet the definition of impaired are individually evaluated for impairment. In addition, all condominium or cooperative apartment

Table of contents

and one- to four-family residential real estate loans in excess of the FNMA Limits are individually evaluated for impairment. Impairment is typically measured using the difference between the outstanding loan principal balance and either: (1) the likely realizable value of a note sale; (2) the fair value of the underlying collateral, net of likely disposal costs, if repayment is expected to come from liquidation of the collateral; or (3) the present value of estimated future cash flows (using the loan's pre-modification rate in the case of some performing TDRs). For impaired loans on non-accrual status, either of the initial two measurements is utilized.

All TDRs are considered impaired loans and are evaluated individually for measurable impairment, if any. If a TDR is substantially performing in accordance with its restructured terms, management will look to either the present value of the expected cash flows from the debt service or the potential net liquidation proceeds of the underlying collateral in measuring impairment (whichever is deemed most appropriate under the circumstances). If a TDR has re-defaulted, the likely realizable net proceeds from either a note sale or the liquidation of the collateral are generally considered when measuring impairment. While measured impairment is generally charged off immediately, impairment attributed to a reduction in the present value of expected cash flows of a performing TDR is generally reflected as an allocated reserve within the allowance for loan losses. At September 30, 2015 and December 31, 2014, there were no allocated reserves related to TDRs within the allowance for loan losses.

Smaller balance homogeneous real estate loans, such as condominium or cooperative apartment and one-to four-family residential real estate loans with balances equal to or less than the FNMA Limits, are collectively evaluated for impairment, and accordingly, are not separately identified for impairment disclosures.

Non-Impaired Substandard Loan Component

At both September 30, 2015 and December 31, 2014, the reserve allocated within the allowance for loan losses associated with non-impaired loans internally classified as Substandard reflected expected loss percentages on the Bank's pool of such loans that were derived based upon an analysis of historical losses over a measurement timeframe. The loss percentage resulting from this analysis was then applied to the aggregate pool of non-impaired Substandard loans at September 30, 2015 and December 31, 2014. Based upon this methodology, increases or decreases in the amount of either non-impaired Substandard loans or charge-offs associated with such loans, or a change in the measurement timeframe utilized to derive the expected loss percentage, would impact the level of reserves determined on non-impaired Substandard loans. As a result, the allowance for loan losses associated with non-impaired Substandard loans is subject to volatility.

The portion of the allowance for loan losses attributable to non-impaired Substandard loans was \$284 at September 30, 2015 and \$371 at December 31, 2014. The decline resulted from both a reduction of \$4,002 in the balance of such loans from December 31, 2014 to September 30, 2015, as well as a lower average loss expectation derived as of September 30, 2015 compared to December 31, 2014.

All non-impaired Substandard loans were deemed sufficiently well secured and performing to have remained on accrual status both prior and subsequent to their downgrade to the Substandard internal loan grade.

Non-Impaired Special Mention Loan Component

At both September 30, 2015 and December 31, 2014, the reserve allocated within the allowance for loan losses associated with non-impaired loans internally classified as Special Mention reflected an expected loss percentage on the Bank's pool of such loans that was derived based upon an analysis of historical losses over a measurement timeframe. The loss percentage resulting from this analysis was then applied to the aggregate pool of non-impaired Special Mention loans at September 30, 2015 and December 31, 2014. Based upon this methodology, increases or decreases in the amount of either non-impaired Special Mention loans or charge-offs associated with such loans, or a change in the measurement timeframe utilized to derive the expected loss percentage, would impact the level of

reserves determined on non-impaired Special Mention loans. As a result, the allowance for loan losses associated with non-impaired Special Mention loans is subject to volatility.

The portion of the allowance for loan losses attributable to non-impaired Special Mention loans declined from \$228 at December 31, 2014 to \$98 at September 30, 2015, due to both a reduction of \$15,547 in the balance of such loans and a lower expected loss percentage applied to such loans at September 30, 2015 compared to December 31, 2014 under the methodology employed.

Pass Graded Loan Component

The Bank initially looks to the underlying collateral type when determining the allowance for loan losses associated with pass graded real estate loans. The following underlying collateral types are analyzed separately: 1) one- to four family residential and condominium or cooperative apartments securing loans in excess of the FNMA Limits; 2) multifamily

Table of contents

residential and residential mixed use; 3) commercial mixed use real estate, 4) commercial real estate; and 5) construction and land acquisition. Within the analysis of each underlying collateral type, the following elements are additionally considered and provided weighting in determining the allowance for loan losses for pass graded real estate loans:

- (i) Charge-off experience (including peer charge-off experience)
- (ii) Economic conditions
- (iii) Underwriting standards or experience
- (iv) Loan concentrations
- (v) Regulatory climate
- (vi) Nature and volume of the portfolio
- (vii) Changes in the quality and scope of the loan review function

The following is a brief synopsis of the manner in which each element is considered:

(i) Charge-off experience - Loans within the pass graded loan portfolio are segmented by significant common characteristics, against which historical loss rates are applied. The Bank also reviews and considers the charge-off experience of peer banks in its lending marketplace in order to determine the existence of potential losses that could take a longer period to flow through its allowance for loan losses.

(ii) Economic conditions - At both September 30, 2015 and December 31, 2014, the Bank assigned a loss allocation to its entire pass graded real estate loan portfolio based, in part, upon a review of economic conditions affecting the local real estate market. Specifically, the Bank considered both the level of, and recent trends in: 1) the local and national unemployment rate, 2) residential and commercial vacancy rates, 3) real estate sales and pricing, and 4) delinquencies in the Bank's loan portfolio.

(iii) Underwriting standards or experience - Underwriting standards are reviewed to ensure that changes in the Bank's lending policies and practices are adequately evaluated for risk and reflected in its analysis of potential credit losses. Loss expectations associated with changes in the Bank's lending policies and practices, if any, are then incorporated into the methodology.

(iv) Loan concentrations - The Bank regularly reviews its loan concentrations (borrower, collateral type and location) in order to ensure that heightened risk has not evolved that has not been captured through other factors. The risk component of loan concentrations is regularly evaluated for reserve adequacy.

(v) Regulatory climate – Consideration is given to public statements made by the banking regulatory agencies that have a potential impact on the Bank's loan portfolio and allowance for loan losses.

(vi) Nature and volume of the portfolio – The Bank considers any significant changes in the overall nature and volume of its loan portfolio.

(vii) Changes in the quality and scope of the loan review function – The Bank considers the potential impact upon its allowance for loan losses of any adverse change in the quality and scope of the loan review function.

Consumer Loans

Due to their small individual balances, the Bank does not evaluate individual consumer loans for impairment. Loss percentages are applied to aggregate consumer loans based upon both their delinquency status and loan type. These loss percentages are derived from a combination of the Company's historical loss experience and/or nationally published loss data on such loans. Consumer loans in excess of 120 days delinquent are typically fully charged off

against the allowance for loan losses.

17

Table of contents

The following table presents data regarding the allowance for loan losses and loans evaluated for impairment by class of loan within the real estate loan segment as well as for the aggregate consumer loan segment:

At or for the Three Months Ended September 30, 2015

Table of contents

Reserve Liability for First Loss Position

The reserve liability maintained in connection with the First Loss Position was recorded as a component of other liabilities, and was estimated using a methodology similar to the allowance for loan losses, with periodic increases or decreases recognized through provisions, charge-offs or recoveries. On February 20, 2014, the Bank repurchased the remaining loans within the pool previously sold to FNMA, and extinguished both the First Loss Position and the remaining \$1,040 related reserve liability.

10. INVESTMENT AND MORTGAGE-BACKED SECURITIES

The following is a summary of major categories of securities owned by the Company (excluding trading securities) at September 30, 2015:

	Purchase Amortized/ Historical Cost	Recorded Amortized/ Historical Cost ⁽¹⁾	Unrealized Gains	Unrealized Losses	Fair Value
Investment securities held-to-maturity:					
Pooled bank trust preferred securities ("TRUPS")	\$15,553	\$5,349	\$2,382	\$(253)	\$7,478
Available-for-sale securities:					
Investment securities					
Registered Mutual Funds	3,894	3,894	5	(215)	3,684
MBS					
Pass-through MBS issued by GSEs	431	431	15	-	446

(1) Amount represents the purchase amortized / historical cost less any OTTI charges (credit or non-credit related) previously recognized. For the TRUPS, amount is also net of the \$874 unamortized portion of the unrealized loss that was recognized in accumulated other comprehensive loss on September 1, 2008 (the day on which these securities were transferred from available-for-sale to held-to-maturity).

The following is a summary of major categories of securities owned by the Company (excluding trading securities) at December 31, 2014:

	Purchase Amortized/ Historical Cost	Recorded Amortized/ Historical Cost ⁽¹⁾	Unrealized Gains	Unrealized Losses	Fair Value
Investment securities held-to-maturity:					
TRUPS	\$15,815	\$5,367	\$1,119	\$(171)	\$6,315
Available-for-sale securities:					
Investment securities					
Registered Mutual Funds	3,860	3,860	-	(124)	3,736
Agency notes	70	70	-	-	70
MBS					
Pass-through MBS issued by GSEs	24,154	24,154	1,453	-	25,607
Private issuer pass through MBS	449	449	6	-	455
Private issuer collateralized mortgage obligations ("CMOs")	343	343	4	-	347

(1) Amount represents the purchase amortized / historical cost less any OTTI charges (credit or non-credit related) previously recognized. For the TRUPS, amount is also net of the \$932 unamortized portion of the unrealized loss that was recognized in accumulated other comprehensive loss on September 1, 2008 (the day on which these securities

were transferred from available-for-sale to held-to-maturity).

The held-to-maturity TRUPS had a weighted average term to maturity of 19.2 years at September 30, 2015. At September 30, 2015, the pass-through MBS issued by GSEs possessed a weighted average contractual maturity of 12.4 years. All of the pass-through MBS issued by GSEs possess an annual interest rate adjustment.

There were no sales of investment securities during the three-month periods ended September 30, 2015 and 2014, and during the nine months ended September 30, 2014, as the entire gain/loss on securities shown in the unaudited statements of income for these periods resulted from market valuation changes on trading securities. Proceeds from the sales of investment securities available-for-sale totaled \$2,070 during the nine months ended September 30, 2015. Gross gains of \$4 and gross losses of \$8 were recognized on these sales. There were no sales of MBS available-for-sale during the three-month periods ended September 30, 2015 and 2014, and during the nine months ended September 30, 2014. Proceeds from the sales of MBS available-for-sale totaled \$24,307 during the nine months ended September 30, 2015. Gross gains of \$1,395 and gross losses of \$7 were recognized on these sales.

Table of contents

Tax provisions related to the gains on sales of investment securities and MBS available-for-sale recognized during the three-month and nine-month periods ended September 30, 2015 and 2014 are disclosed in the condensed consolidated statements of comprehensive income.

As of each reporting period through September 30, 2015, the Company has applied the protocol established by ASC 320-10-65 in order to determine whether OTTI existed for its TRUPS and/or to measure, for TRUPS that have been determined to be other than temporarily impaired, the credit related and non-credit related components of OTTI. As of September 30, 2015, five TRUPS were determined to meet the criteria for OTTI based upon this analysis. At September 30, 2015, these five securities had credit ratings ranging from "C" to "Caa3."

The following table provides a reconciliation of the pre-tax OTTI charges recognized on the Company's TRUPS:

	At or for the Three Months Ended September 30, 2015			At or for the Three Months Ended September 30, 2014		
	Credit Related OTTI Recognized in Earnings	Non-Credit OTTI Recognized in Accumulated Other Comprehensive Loss	Total OTTI	Credit Related OTTI Recognized in Earnings	Non-Credit OTTI Recognized in Accumulated Other Comprehensive Loss	Total OTTI
Cumulative pre-tax balance at the beginning of the period	\$8,769	\$596	\$9,365	\$8,945	\$585	\$9,530

Available-for-Sale Securities:						
Registered Mutual Funds	3,476	215	-	-	3,476	215

TRUPS That Have Maintained an Unrealized Holding Loss for 12 or More Consecutive Months

At September 30, 2015, impairment of two TRUPS was deemed temporary, as management believed that the full recorded balance of the investments would be realized. In making this determination, management considered the following:

Based upon an internal review of the collateral backing the TRUPS portfolio, which accounted for current and prospective deferrals, the securities could reasonably be expected to continue making all contractual payments. The Company does not intend to sell these securities prior to full recovery of their impairment.

Table of contents

There were no cash or working capital requirements nor contractual or regulatory obligations that would compel the Company to sell these securities prior to their forecasted recovery or maturity

The securities have a pool of underlying issuers comprised primarily of banks

None of the securities have exposure to real estate investment trust issued debt (which has experienced high default rates)

The securities feature either a mandatory auction or a de-leveraging mechanism that could result in principal repayments to the Bank prior to the stated maturity of the security

The securities are adequately collateralized

The following table summarizes the gross unrealized losses and fair value of investment securities as of December 31, 2014, aggregated by investment category and the length of time the securities were in a continuous unrealized loss position:

	Less than 12 Months Consecutive Unrealized Losses		12 Months or More Consecutive Unrealized Losses		Total	
	Fair Value	Gross Unrecognized/ Unrealized Losses	Fair Value	Gross Unrecognized/ Unrealized Losses	Fair Value	Gross Unrecognized/ Unrealized Losses

TRUPS	\$-	\$-	\$2,562	\$171	\$2,562	\$171
Available-for-Sale Securities:						
Registered Mutual Funds	3,736	124	-	-	3,736	124

11. FAIR VALUE OF FINANCIAL INSTRUMENTS

The fair value hierarchy established under ASC 820-10 is summarized as follows:

Level 1 Inputs – Quoted prices (unadjusted) for identical assets or liabilities in active markets that the reporting entity has the ability to access at the measurement date.

Level 2 Inputs – Significant other observable inputs such as any of the following: (1) quoted prices for similar assets or liabilities in active markets, (2) quoted prices for identical or similar assets or liabilities in markets that are not active, (3) inputs other than quoted prices that are observable for the asset or liability (e.g., interest rates and yield curves observable at commonly quoted intervals, volatilities, prepayment speeds, loss severities, credit risks, and default rates), or (4) inputs that are derived principally from or corroborated by observable market data by correlation or other means (market-corroborated inputs).

Level 3 Inputs – Significant unobservable inputs for the asset or liability. Significant unobservable inputs reflect the reporting entity's own assumptions about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk). Significant unobservable inputs shall be used to measure fair value to the extent that observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the asset or liability at the measurement date.

The following tables present the assets that are reported on the consolidated statements of financial condition at fair value as of the date indicated segmented by level within the fair value hierarchy. Financial assets are classified in

their entirety based on the lowest level of input that is significant to the fair value measurement.

Trading securities (Registered Mutual Funds):				
Domestic Equity Mutual Funds	\$1,399	\$1,399	\$-	\$ -
International Equity Mutual Funds	159	159	-	-
Fixed Income Mutual Funds	7,001	7,001	-	-
Investment securities available-for-sale:				
Agency notes	70	-	70	-
Registered Mutual Funds:				
Domestic Equity Mutual Funds	2,160	2,160	-	-
International Equity Mutual Funds	415	415	-	-
Fixed Income Mutual Funds	1,161	1,161	-	-
Pass-through MBS issued by GSEs	25,607	-	25,607	-
Private issuer pass through MBS	455	-	455	-
Private issuer CMOs	347	-	347	-

The Company's available-for-sale investment securities and MBS are reported at fair value, which were determined utilizing prices obtained from independent parties. The valuations obtained are based upon market data, and often utilize evaluated pricing models that vary by asset and incorporate available trade, bid and other market information. For securities that do not trade on a daily basis, pricing applications apply available information such as benchmarking and matrix pricing. The market inputs normally sought in the evaluation of securities include benchmark yields, reported trades, broker/dealer quotes (obtained only from market makers or broker/dealers recognized as market participants), issuer spreads, two-sided markets, benchmark securities, bids, offers and reference data. For certain securities, additional inputs may be used or some market inputs may not be applicable. Prioritization of inputs may vary on any given day based on market conditions.

The pass-through MBS issued by GSEs all possessed the highest possible credit rating published by at least one established credit rating agency as of September 30, 2015 and December 31, 2014. Obtaining market values as of September 30, 2015 and December 31, 2014 for these securities utilizing significant observable inputs was not difficult due to their considerable demand. The agency notes, private issuer pass through MBS and private issuer CMOs owned by the Company at December 31, 2014 were sold during the nine months ended September 30, 2015. For each security classification, the value received from the sale approximated the most recently obtained pricing utilizing the methodology indicated above.

There were no assets measured at fair value on a non-recurring basis as of September 30, 2015. The following table summarizes assets measured at fair value on a non-recurring basis as of December 31, 2014:

Assets Measured at Fair Value on a Non-Recurring Basis at December 31, 2014

Description	Fair Value Measurements Using			
	Total	Level 1 Inputs	Level 2 Inputs	Level 3 Inputs
Impaired loans:				
Commercial Mixed Use Real Estate	\$4,400	\$-	\$-	\$4,400

Loans Held for Sale - Loans held for sale are valued at the contractual sales price negotiated and agreed to by the Bank and a third party purchaser (deemed a Level 2 input).

Impaired Loans - Loans with certain characteristics are evaluated individually for impairment. A loan is considered impaired under ASC 310-10-35 when, based upon existing information and events, it is probable that the Bank will be

Table of contents

unable to collect all amounts due, including principal and interest, according to the contractual terms of the loan agreement. The Bank's impaired loans at September 30, 2015 and December 31, 2014 were collateralized by real estate and were thus carried at the lower of the outstanding principal balance or the estimated fair value of the collateral. Fair value is estimated through either a negotiated note sale price (Level 3 input), or, more commonly, a recent real estate appraisal (Level 3 input). The appraisals may utilize a single valuation approach or a combination of approaches including comparable sales and the income approach. Adjustments are routinely made in the appraisal process by the independent appraisers to adjust for differences between the comparable sales and income data available. Such adjustments are usually significant and typically result in a Level 3 classification of the inputs for determining fair value.

An appraisal is generally ordered for all impaired multifamily residential, mixed use and commercial real estate loans for which the most recent appraisal is more than one year old. The Bank never adjusts independent appraisal data upward. Occasionally, management will adjust independent appraisal data downward based upon its own lending expertise and/or experience with the subject property, utilizing such factors as potential note sale values, or a more refined estimate of costs to repair and time to lease the property. Adjustments for potential disposal costs are also considered when determining the final appraised value.

As of September 30, 2015, there were no impaired loans measured at fair value. As of December 31, 2014, impaired loans measured for impairment using the estimated fair value of the collateral had an aggregate principal balance of \$4,400, and no valuation allowance within the allowance for loan losses. Impaired loans measured at fair value using the estimated fair value of the collateral had no impact upon the provision for loan losses during the three-month or nine-month periods ended either September 30, 2015 or 2014.

The following table presents quantitative information about Level 3 fair value measurements for impaired loans measured at fair value on a non-recurring basis at December 31, 2014:

Fair Value	Valuation Technique Utilized	Significant Unobservable Input(s)	Minimum Value	Maximum Value	Weighted Average Value	
Derived	Income approach only	Capitalization rate	N/A	(1) N/A	(1) 7.5	%
(1) Only one loan in this population.						

The carrying amounts and estimated fair values of financial instruments other than those measured at fair value on either a recurring or non-recurring basis at September 30, 2015 and December 31, 2014 were as follows:

	Carrying Amount	Fair Value at September 30, 2015 Using				Total
		Level 1 Inputs	Level 2 Inputs	Level 3 Inputs		
At September 30, 2015						
Assets:

Accrued interest payable	2,729	-	2,729	-		2,729

Cash and Due From Banks – The fair value is assumed to be equal to their carrying value as these amounts are due upon demand (deemed a Level 1 valuation).

Federal Funds Sold and Other Short Term Investments – As a result of their short duration to maturity, the fair value of these assets, principally overnight deposits, is assumed to be equal to their carrying value due (deemed a Level 1 valuation).

TRUPS Held to Maturity – At both September 30, 2015 and December 31, 2014, the Company owned seven TRUPS classified as held-to-maturity.

At December 31, 2014, their estimated fair value was obtained utilizing the following weighted valuation sources: 1) broker quotations (10% valuation weighting), which were deemed to meet the criteria of "distressed sale" pricing under the guidance of ASC 820-10-65-4 (deemed to be a Level 3 valuation for which the Company is not provided detailed information regarding the significant unobservable inputs utilized by the third parties); 2) an internally created cash flow valuation model (45% valuation weighting) that considered the creditworthiness of each individual issuer underlying the collateral pools, and utilized default, cash flow and discount rate assumptions determined by the Company's management (the "Internal Cash Flow Valuation") (deemed to be a Level 3 valuation); and 3) the average of a minimum of two of three available independent cash flow valuation models (45% valuation weighting) (deemed to be a Level 3 valuation for which the Company is not provided detailed information regarding the significant unobservable inputs utilized by the third parties).

The major assumptions utilized as of December 31, 2014 in the Internal Cash Flow Valuation (each of which represents a significant unobservable input as defined by ASC 820-10) were disclosed in Note 17 to the audited financial statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2014 filed on March 16, 2015.

As discussed above, in addition to the Internal Cash Flow Valuation and broker quotations, at December 31, 2014 the Company utilized two additional independent cash flow valuation models in order to estimate the fair value of TRUPS. The two independent cash flow valuation models utilized a methodology similar to the Internal Cash Flow Valuation, differing only in the underlying assumptions utilized to derive estimated cash flows, individual bank defaults and discount rate.

As a result of improved marketplace stability and enhanced trading activity, broker quotations became the sole valuation source utilized to estimate the fair value of TRUPS as of September 30, 2015. The broker quotations at September 30, 2015 were deemed to be a Level 2 valuation.

Loans, Net (Excluding Impaired Loans Carried at Fair Value) – For adjustable rate loans repricing monthly or quarterly, and with no significant change in credit risk, fair values are based on carrying values. The fair value of all remaining loans receivable is determined by discounting anticipated future cash flows of the loans, net of anticipated prepayments, using a discount rate reflecting current market rates for loans with similar terms to borrowers of similar credit quality. The valuation method used for loans does not necessarily represent an exit price valuation methodology as defined under ASC 820. However, since the valuation methodology is deemed to be comparable to a Level 3 input, the fair value of loans receivable other than impaired loans measured at fair value is shown under the Level 3 valuation column.

Table of contents

Accrued Interest Receivable – The estimated fair value of accrued interest receivable approximates its carrying amount, and is deemed to be valued at an input level comparable to its underlying financial asset.

FHLBNY Capital Stock – It is not practicable to determine the fair value of FHLBNY capital stock due to restrictions placed on transferability.

Deposits – The fair value of savings, money market, and checking accounts is, by definition, equal to the amount payable on demand at the reporting date (i.e., their carrying amount), which has been deemed a Level 1 valuation. The fair value of CDs is based upon the present value of contractual cash flows using current interest rates for instruments of the same remaining maturity (deemed a Level 2 valuation).

Escrow and Other Deposits – The fair value of escrow and other deposits is, by definition, equal to the amount payable on demand at the reporting date (i.e., their carrying amount), which has been deemed a Level 1 valuation.

FHLBNY Advances – The fair value of FHLBNY advances is measured by the discounted anticipated cash flows through contractual maturity or next interest repricing date, or an earlier call date if, as of the valuation date, the borrowing is expected to be called (deemed a Level 2 valuation). The carrying amount of accrued interest payable on FHLBNY advances is its fair value and is deemed a Level 2 valuation.

Trust Preferred Securities Payable – The fair value of trust preferred securities payable is estimated using discounted cash flow analyses based on then current borrowing rates for similar types of borrowing arrangements (deemed a Level 2 valuation), and is provided to the Company quarterly independently by a market maker in the underlying security.

Accrued Interest Payable – The estimated fair value of accrued interest payable approximates its carrying amount, and is deemed to be valued at an input level comparable to its underlying financial liability.

12. RETIREMENT AND POSTRETIREMENT PLANS

The Holding Company or the Bank maintains the Retirement Plan of The Dime Savings Bank of Williamsburgh (the "Employee Retirement Plan"), the Retirement Plan for Board Members of Dime Community Bancshares, Inc. (the "Outside Director Retirement Plan"), the BMP, and the Postretirement Welfare Plan of The Dime Savings Bank of Williamsburgh (the "Postretirement Plan"). Net expenses associated with these plans were comprised of the following components:

	Three Months Ended September 30, 2015		Three Months Ended September 30, 2014	
	BMP, Employee and Outside Director Retirement Plans		BMP, Employee and Outside Director Retirement Plans	
		Postretirement Plan		Postretirement Plan
Service cost	\$-	\$ -	\$-	\$ 10
Interest cost	344	18	338	58
Expected return on assets	(414)	-	(444)	-
Amortization of unrealized loss	480	(2)	261	-

Net periodic cost	\$410	\$	16	\$155	\$	68
-------------------	-------	----	----	-------	----	----

27

Table of contents

	Nine Months Ended September 30, 2015		Nine Months Ended September 30, 2014	
	BMP, Employee and Outside Director Retirement Plans		BMP, Employee and Outside Director Retirement Plans	
		Postretirement Plan		Postretirement Plan
Service cost	\$-	\$ 9	\$-	\$ 30
Interest cost	749	556	1,014	174
Expected return on assets	(1,242)	-	(1,332)	-
Curtailment gain(1)	-	(3,394)	-	-
Amortization of unrealized loss	1,257	(27)	783	-
Net periodic cost (gain)	\$764	\$ (2,856)	\$465	\$ 204

(1) The Postretirement Plan was amended effective March 31, 2015, whereby future retirees will not be eligible to participate in the plan. This plan amendment resulted in a curtailment gain.

The Company disclosed in its consolidated financial statements for the year ended December 31, 2014 that it expected to make contributions to, or benefit payments on behalf of, benefit plans during 2015 as follows: Employee Retirement Plan - \$14, BMP - \$604, Outside Director Retirement Plan - \$188, and Postretirement Plan - \$145. The Company made contributions of \$7 to the Employee Retirement Plan during the three months ended September 30, 2015, and \$12 during the nine months ended September 30, 2015, and expects to make the remainder of the estimated contributions during 2015. The Company made benefit payments of \$41 on behalf of the Outside Director Retirement Plan during the three months ended September 30, 2015, and \$130 during the nine months ended September 30, 2015, and expects to make the remainder of the estimated net contributions or benefit payments during 2015. The Company made benefit payments totaling \$25 on behalf of the Postretirement Plan during the three months ended September 30, 2015, and \$56 during the nine months ended September 30, 2015, and expects to make the remainder of the estimated \$145 of contributions or benefit payments during 2015. Since all benefit payments expected to be made to the Postretirement Plan for the year ending December 31, 2015 related to previously earned benefits, the curtailment of future Postretirement Plan benefits enacted during the nine months ended September 30, 2015 had no impact upon the expected benefit payments to be made in 2015. The Company did not make any defined benefit contributions to, or benefit payments on behalf of, the BMP during the three-month or nine-month periods ended September 30, 2015, and does not currently expect to make benefit payments on behalf of the BMP during 2015, since anticipated retirements that formed the basis for these expected benefit payments in 2015 are presently not expected to occur.

13. INCOME TAXES

During the three months ended September 30, 2015 and 2014, the Company's consolidated effective tax rates were 41.3% and 39.8%, respectively. During the nine months ended September 30, 2015 and 2014, the Company's consolidated effective tax rates were 40.8% and 41.1%, respectively. A combination of additional tax strategies and recent tax law changes lowered the effective tax rate during the nine months ended September 30, 2015 compared to the nine months ended September 30, 2014. There were no significant unusual income tax items recognized during the three-month or nine-month periods ended either September 30, 2015 or 2014.

14. MORTGAGE BANKING INCOME

Net mortgage banking income presented in the condensed consolidated statements of income was comprised of the following items:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2015	2014	2015	2014
Gain on the sale of loans	\$-	\$ -	\$-	\$27
Credit to the liability for First Loss Position	-	-	-	1,040
Mortgage banking fees recognized	41	71	154	86
Net mortgage banking income	\$41	\$ 71	\$154	\$1,153

Table of contents

15. PREMISES HELD FOR SALE

During the nine months ended September 30, 2015, the Bank re-classified certain real estate utilized as the corporate headquarters and primary back office operations center of the Company and the Bank to premises held for sale. The aggregate recorded balance of the premises held for sale was \$8,799 at September 30, 2015, the outstanding balance upon transfer.

A Purchase and Sale Agreement has been executed for the properties, for an aggregate price of \$80,000. The sale is expected to close in February 2016.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

General

The Holding Company is a Delaware corporation and parent company of the Bank, a New York State chartered stock savings bank. The Bank maintains its headquarters in the Williamsburg section of Brooklyn, New York and operates twenty-five full service retail banking offices located in the NYC boroughs of Brooklyn, Queens, and the Bronx, and in Nassau County, New York. The Bank's principal business is gathering deposits from customers within its market area and via the internet, and investing them primarily in multifamily residential, commercial real estate and mixed use loans, MBS, obligations of the U.S. government and GSEs, and corporate debt and equity securities. All of the Bank's lending occurs in the greater NYC metropolitan area.

Executive Summary

The Holding Company's primary business is the ownership of the Bank. The Company's consolidated results of operations are dependent primarily on net interest income, which is the difference between the interest income earned on interest-earning assets, such as loans and securities, and the interest expense paid on interest-bearing liabilities, such as deposits and borrowings. The Bank additionally generates non-interest income such as service charges and other fees, mortgage banking related income, and income associated with BOLI. Non-interest expense primarily consists of employee compensation and benefits, federal deposit insurance premiums, data processing costs, occupancy and equipment, marketing and other operating expenses. The Company's consolidated results of operations are also significantly affected by general economic and competitive conditions (particularly fluctuations in market interest rates), government policies, changes in accounting standards and actions of regulatory agencies.

The Bank's primary strategy is generally to seek to increase its product and service utilization for each individual depositor, and increase its household and deposit market shares in the communities that it serves. In recent years, particular emphasis has been placed upon growing individual and small business commercial checking account balances. In addition, the Bank's primary strategy includes the origination of, and investment in, mortgage loans, with an emphasis on NYC multifamily residential and mixed-use real estate loans. The Company believes that multifamily residential and mixed-use loans in and around NYC provide several advantages as investment assets. Initially, they offer a higher yield than investment securities of comparable maturities or terms to repricing. In addition, origination and processing costs for the Bank's multifamily residential and mixed use loans are lower per thousand dollars of originations than comparable one-to four-family loan costs. Further, the Bank's market area has generally provided a stable flow of new and refinanced multifamily residential and mixed-use loan originations. In order to address the credit risk associated with multifamily residential and mixed use lending, the Bank has developed underwriting standards that it believes are reliable in order to maintain consistent credit quality for its loans. The Bank also actively strives to obtain checking account balances affiliated with the operation of the collateral underlying its mortgage loans, as well as personal deposit accounts from its borrowers.

The Bank also strives to provide a stable source of liquidity and earnings through the occasional purchase of investment grade securities, seeks to maintain the asset quality of its loans and other investments, and uses portfolio and asset/liability management techniques in an effort to manage the effects of interest rate volatility on its profitability and capital.

Recent Regulatory Developments

Basel III Capital Rules. In July 2013, the Bank's primary federal regulator, the Federal Deposit Insurance Corporation ("FDIC"), and the Holding Company's principal regulator, the Board of Governors of the Federal Reserve System, published final rules (the "Basel III Capital Rules") that implement, in part, agreements reached by the Basel Committee on Banking Supervision ("Basel Committee") in "Basel III: A Global Regulatory Framework for More Resilient Banks and Banking Systems" ("Basel III") and imposed new capital requirements on the Bank and the Holding Company, effective January 1, 2015.

Table of contents

The Basel III Capital Rules provide for the following minimum capital to risk-weighted assets ratios as of January 1, 2015: a) 4.5% based upon common equity tier 1 capital ("CET1"); b) 6.0% based upon tier 1 capital; and c) 8.0% based upon total regulatory capital. A minimum leverage ratio (tier 1 capital as a percentage of total average assets) of 4.0% is also required under the Basel III Capital Rules. When fully phased in, the Basel III Capital Rules will additionally require institutions to retain a capital conservation buffer, composed of CET1, of 2.5% above these required minimum capital ratio levels. Banking organizations that fail to maintain the minimum 2.5% capital conservation buffer could face restrictions on capital distributions or discretionary bonus payments to executive officers. Restrictions would begin phasing in where the banking organization's capital conservation buffer was below 2.5% at the beginning of a quarter, and distributions and discretionary bonus payments would be completely prohibited if no capital conservation buffer exists. When the capital conservation buffer is fully phased in on January 1, 2019, the Holding Company and the Bank will effectively have the following minimum capital to risk-weighted assets ratios: a) 7.0% based upon CET1; b) 8.5% based upon tier 1 capital; and c) 10.5% based upon total regulatory capital.

The Basel III Capital Rules provide for a number of deductions from, and adjustments to, CET1. These include, for example, the requirement that MSR, deferred tax assets arising from temporary differences that could not be realized through net operating loss carrybacks and significant investments in non-consolidated financial entities be deducted from CET1 to the extent that any one such category exceeds 10% of CET1 or all such items, in the aggregate, exceed 15% of CET1.

Implementation of the deductions from, and other adjustments to, CET1 began on January 1, 2015 and will be phased-in over a 4-year period (beginning at 40% on January 1, 2015 and an additional 20% per year thereafter). The implementation of the capital conservation buffer will begin on January 1, 2016 at 0.625% and increase by 0.625% each subsequent January 1, until it reaches 2.5% on January 1, 2019.

The Basel III Capital Rules prescribe a new standardized approach for risk weightings that expand the risk-weighting categories from the current four Basel I-derived categories (0%, 20%, 50% and 100%) to a larger and more risk-sensitive number of categories, depending on the nature of the assets, generally ranging from 0% for U.S. government and agency securities, to 600% for certain equity exposures, and resulting in higher risk weights for a variety of asset classes. In particular, the Basel III Capital Rules provide stricter rules related to the risk weighting of past due and certain commercial real estate loans, as well as on some equity investment exposures, and replace the existing credit rating approach for determining the risk weighting of securitization exposures with an alternative approach in which senior securitization tranches are assigned a risk weight associated with the underlying exposure and requiring a banking organization to hold capital for the senior tranche based on the risk weight of the underlying exposures. Under the revised approach, for subordinate securitization tranches, a banking organization must hold capital for the subordinate tranche, as well as all more senior tranches for which the subordinate tranche provides credit support.

With respect to the Bank, the Basel III Capital Rules revise the "prompt corrective action" ("PCA") regulations adopted pursuant to Section 38 of the Federal Deposit Insurance Act by: (i) introducing a CET1 ratio requirement at each PCA category (other than critically undercapitalized), with the required CET1 ratio being 6.5% for well-capitalized status; (ii) increasing the minimum Tier 1 capital ratio requirement for each category, with the minimum tier 1 capital ratio for well-capitalized status being 8.0% (as compared to the current 6.0%); and (iii) eliminating the current provision that a bank with a composite supervisory rating of 1 may have a 3.0% leverage ratio and still be adequately capitalized. The Basel III Capital Rules do not change the total risk-based capital requirement for any PCA category.

The Basel III Capital Rules will increase the required capital levels of the Bank and will subject the Holding Company to consolidated capital rules. The Bank and Company made the one-time, permanent election to continue to exclude the effects of accumulated other comprehensive income or loss items included in stockholders' equity for the purposes

of determining the regulatory capital ratios. The following table summarizes the capital ratios calculated under the Basel III Capital Rules framework as of September 30, 2015.

30

Table of contents

	Bank	Consolidated Company	Basel III Minimum Requirement	Basel III Minimum Requirement Plus 2.5% Buffer(1)	Well Capitalized Requirement Under FDIC Prompt Corrective Action Framework(2)
Common equity Tier 1 capital to risk weighted assets	11.91%	12.11%	4.5%	7.0%	6.5%
Tier 1 Capital to risk weighted assets	11.91	14.00	6.0	8.5	8.0
Total Capital to risk weighted assets	12.43	14.53	8.0	10.5	10.0
Tier 1 Capital to average assets (Leverage ratio)	9.36	10.91	4.0	n/a	5.0

(1) The 2.5% buffer percentage represents the fully phased-in requirement as of January 1, 2019.

(2) Only the Bank is subject to these requirements.

Implementation of the Basel III Capital Rules effective January 1, 2015 did not have a material impact upon the operations of the Bank or Holding Company. Management believes that, as of September 30, 2015, the Bank and the Holding Company would meet all capital categories requirements under the Basel III Capital Rules on a fully phased in basis as if such requirement had been in effect on that date.

Table of contents

Critical Accounting Policies

The Company's policies with respect to (1) the methodologies it uses to determine the allowance for loan losses (including reserves for loan commitments), and (2) accounting for defined benefit plans, are its most critical accounting policies because they are important to the presentation of the Company's consolidated financial condition and results of operations, involve a significant degree of complexity and require management to make difficult and subjective judgments which often necessitate assumptions or estimates about highly uncertain matters. The use of different judgments, assumptions or estimates could result in material variations in the Company's consolidated results of operations or financial condition.

The following are descriptions of the Company's critical accounting policies and explanations of the methods and assumptions underlying their application.

Allowance for Loan Losses. The Bank's methods and assumptions utilized to periodically determine its allowance for loan losses are summarized in Note 9 to the Company's condensed consolidated financial statements.

Accounting for Defined Benefit Plans. Defined benefit plans are accounted for in accordance with ASC 715, which requires an employer sponsoring a single employer defined benefit plan to recognize the funded status of such benefit plan in its statements of financial condition, measured as the difference between plan assets at fair value (with limited exceptions) and the benefit obligation. The Company utilizes the services of trained actuaries employed at an independent benefits plan administration entity in order to assist in measuring the funded status of its defined benefit plans.

Liquidity and Capital Resources

The Board of Directors of the Bank has approved a liquidity policy that it reviews and updates at least annually. Senior management is responsible for implementing the policy. The Bank's Asset Liability Committee ("ALCO") is responsible for general oversight and strategic implementation of the policy, and management of the appropriate departments are designated responsibility for implementing any strategies established by ALCO. On a daily basis, appropriate senior management receives a current cash position report and one-week forecast to ensure that all short-term obligations are timely satisfied and that adequate liquidity exists to fund future activities. Reports detailing the Bank's liquidity reserves and forecasted cash flows are presented to appropriate senior management on a monthly basis, and the Board of Directors at each of its meetings. In addition on a monthly basis, a twelve-month liquidity forecast is presented to ALCO in order to assess potential future liquidity concerns. A forecast of cash flow data for the upcoming 12 months is presented to the Board of Directors on an annual basis.

The Bank's primary sources of funding for its lending and investment activities include deposits, loan and MBS payments, investment security principal and interest payments and advances from the FHLBNY. The Bank may also sell selected multifamily residential or mixed use real estate loans to private sector secondary market purchasers, and has in the past sold such loans and one to four family residential loans to FNMA. The Company may additionally issue debt under appropriate circumstances. Although maturities and scheduled amortization of loans and investments are predictable sources of funds, deposit flows and prepayments on mortgage loans and MBS are influenced by interest rates, economic conditions and competition.

The Bank gathers deposits in direct competition with commercial banks, savings banks and brokerage firms, many among the largest in the nation. It must additionally compete for deposit monies against the stock and bond markets, especially during periods of strong performance in those arenas. The Bank's deposit flows are affected primarily by the pricing and marketing of its deposit products compared to its competitors, as well as the market performance of

depositor investment alternatives such as the U.S. bond or equity markets. To the extent that the Bank is responsive to general market increases or declines in interest rates, its deposit flows should not be materially impacted. However, favorable performance of the equity or bond markets could adversely impact the Bank's deposit flows.

Retail branch and Internet banking deposits increased \$369.7 million during the nine months ended September 30, 2015, and \$115.5 million during the nine months ended September 30, 2014. Within deposits, core deposits (i.e., non-CDs) increased \$408.3 million during the nine months ended September 30, 2015 and \$96.7 million during the nine months ended September 30, 2014. These increases were due to both successful gathering efforts tied to promotional money market offerings as well as increased commercial checking balances. CDs declined \$38.6 million during the nine months ended September 30, 2015 and increased \$18.8 million during the nine months ended September 30, 2014. The reduction during the nine months ended September 30, 2015 reflected attrition of promotional CDs that matured, as the bank de-emphasized gathering and retaining CDs during the period, focusing instead on gathering and retaining money market and checking deposits. The increase in CDs during the nine months ended September 30, 2014 resulted primarily from

Table of contents

successful promotional activities related to 30-month and 5-year traditional CDs as well as Individual Retirement Account CDs.

The Bank reduced its outstanding FHLBNY advances by \$104.0 million during the nine months ended September 30, 2015, reflecting both the utilization of deposit inflows to fund asset growth and other operational needs, as well as the prepayment of a \$25.0 million, 4.27% fixed-rate advance due to mature in 2016. A prepayment expense of \$1.4 million was recognized on the prepayment of the \$25.0 million advance. The Bank increased its outstanding FHLBNY advances by \$193.2 million during the nine months ended September 30, 2014, reflecting a need for additional borrowings in order to fund \$221.9 million of loan repurchases during the period.

During the nine months ended September 30, 2015, principal repayments totaled \$683.5 million on real estate loans (including refinanced loans) and \$1.6 million on MBS, and proceeds from the sale of MBS totaled \$24.3 million. During the nine months ended September 30, 2014, principal repayments totaled \$526.4 million on real estate loans (including refinanced loans) and \$4.6 million on MBS. There were no sales of MBS during the nine months ended September 30, 2014. The increase in principal repayments (including refinanced loans) on real estate loans during the nine months ended September 30, 2015 reflected one large borrower relationship that re-financed all loans with the Bank, and another large borrower relationship that re-financed all outstanding loans with another financial institution (thus satisfying the loans with the Bank). The reduction in principal repayments on MBS reflected a decline of \$20.3 million in their average balance from the nine months ended September 30, 2014 to the nine months ended September 30, 2015, as the great majority of the MBS portfolio was sold in March 2015.

Aggregate proceeds from the sales of investment securities and MBS available for sale totaled \$26.4 million during the nine months ended September 30, 2015, reflecting the liquidation of virtually all outstanding investment securities and MBS available for sale in March 2015. The securities were sold in order to offset the cash disbursement and expense associated with the prepayment of the \$25.0 million FHLBNY advance noted previously in this section. A net gain of \$1.4 million was recognized on these sales. No sales of investment securities or MBS available for sale occurred during the nine months ended September 30, 2014.

In the event that the Bank should require funds beyond its ability or desire to generate them internally, an additional source of funds is available through its borrowing line at the FHLBNY. At September 30, 2015, the Bank had an additional potential borrowing capacity of \$615.6 million through the FHLBNY, subject to customary minimum FHLBNY common stock ownership requirements (i.e., 4.5% of the Bank's outstanding FHLBNY borrowings).

The Bank is subject to minimum regulatory capital requirements imposed by its primary federal regulator. As a general matter, these capital requirements are based on the amount and composition of an institution's assets. At September 30, 2015, the Bank was in compliance with all applicable regulatory capital requirements and was considered "well-capitalized" for all regulatory purposes.

The Company generally utilizes its liquidity and capital resources primarily to fund the origination of real estate loans, the purchase of mortgage-backed and other securities, the repurchase of Holding Company common stock into treasury, the payment of quarterly cash dividends to holders of the Holding Company's common stock and the payment of quarterly interest to holders of its outstanding trust preferred debt. During the nine months ended September 30, 2015 and 2014, real estate loan originations totaled \$1.06 billion and \$674.3 million, respectively. The increase from the nine months ended September 30, 2014 to the nine months ended September 30, 2015 reflected both the Company's election to compete less aggressively for new loans during the nine months ended September 30, 2014 as a result of \$221.9 million of loans repurchased during the period, and a more aggressive loan growth target established for the year ending December 31, 2015 versus the year ended December 31, 2014. Security purchases were de-emphasized during the nine months ended both September 30, 2015 and 2014, as the yield offered on highly graded investment securities was not deemed sufficiently attractive.

The Holding Company repurchased 20,000 shares of its common stock during the nine months ended September 30, 2015 at an aggregate cost of \$300,000. No treasury share repurchases occurred during the nine months ended September 30, 2014. As of September 30, 2015, up to 1,104,549 shares remained available for purchase under authorized share purchase programs. Based upon the \$16.90 per share closing price of its common stock as of September 30, 2015, the Holding Company would utilize \$18.7 million in order to purchase all of the remaining authorized shares.

The Holding Company paid \$15.2 million in cash dividends on its common stock during the nine months ended September 30, 2015, up from \$15.1 million during the nine months ended September 30, 2014, reflecting an increase of 330,318 in outstanding shares from October 1, 2014 to September 30, 2015.

Table of contents

Contractual Obligations

The Bank is obligated for rental payments under leases on certain of its branches and equipment. In addition, the Bank generally has outstanding at any time significant borrowings in the form of FHLBNY advances, as well as customer CDs with fixed contractual interest rates. The Holding Company also has \$70.7 million of callable trust preferred borrowings from third parties due to mature in April 2034, which became callable at any time commencing in April 2009. The Holding Company does not currently intend to call this debt. The facts and circumstances surrounding these obligations have not changed materially since December 31, 2014.

Off-Balance Sheet Arrangements

As part of its loan origination business, the Bank generally has outstanding commitments to extend credit to third parties (through either available lines of credit or mortgage loan commitments), which are granted pursuant to its regular underwriting standards. Since these commitments may expire prior to funding, in whole or in part, the contract amounts are not estimates of future cash flows.

The following table presents off-balance sheet arrangements as of September 30, 2015:

	Less than One Year	One Year to Three Years	Over Three Years to Five Years	Over Five Years	Total
	(Dollars in thousands)				
Credit Commitments:					
Available lines of credit	\$36,585	\$-	\$-	\$-	\$36,585
Mortgage loan commitments	115,053	-	-	-	115,053
Total Off-Balance Sheet Arrangements	\$151,638	\$-	\$-	\$-	\$151,638

Asset Quality

General

At both September 30, 2015 and December 31, 2014, the Company had neither whole loans nor loans underlying MBS that would have been considered subprime loans at origination, i.e., mortgage loans advanced to borrowers who did not qualify for market interest rates because of problems with their income or credit history. See Note 10 to the condensed consolidated financial statements for a discussion of impaired investment securities and MBS.

Monitoring and Collection of Delinquent Loans

Management of the Bank reviews delinquent loans on a monthly basis and reports to its Board of Directors at each regularly scheduled Board meeting regarding the status of all non-performing and otherwise delinquent loans in the Bank's portfolio.

The Bank's loan servicing policies and procedures require that an automated late notice be sent to a delinquent borrower as soon as possible after a payment is ten days late in the case of multifamily residential or commercial real estate loans, or fifteen days late in connection with one- to four-family or consumer loans. A second letter is sent to the borrower if payment has not been received within 30 days of the due date. Thereafter, periodic letters are mailed and phone calls placed to the borrower until payment is received. When contact is made with the borrower at any time prior to foreclosure, the Bank will attempt to obtain the full payment due or negotiate a repayment schedule with the borrower to avoid foreclosure.

Accrual of interest is generally discontinued on a loan that meets any of the following three criteria: (i) full payment of principal or interest is not expected; (ii) principal or interest has been in default for a period of 90 days or more (unless the loan is both deemed to be well secured and in the process of collection); or (iii) an election has otherwise been made to maintain the loan on a cash basis due to deterioration in the financial condition of the borrower. Such non-accrual determination practices are applied consistently to all loans regardless of their internal classification or designation. Upon entering non-accrual status, the Bank reverses all outstanding accrued interest receivable.

The Bank generally initiates foreclosure proceedings when a loan enters non-accrual status based upon non-payment, and typically does not accept partial payments once foreclosure proceedings have commenced. At some point during foreclosure proceedings, the Bank procures current appraisal information in order to prepare an estimate of the fair value of the underlying collateral. If a foreclosure action is instituted and the loan is not brought current, paid in full, or refinanced before the foreclosure action is completed, the property securing the loan is transferred to OREO status. The Bank

The maturity date of the loan has been extended with a stated interest rate lower than the current market rate for new debt with similar risk

The outstanding principal amount and/or accrued interest have been reduced

In instances in which the interest rate has been reduced, management would not deem the modification a TDR in the event that the reduction in interest rate reflected either a general decline in market interest rates or an effort to maintain a relationship with a borrower who could readily obtain funds from other sources at the current market interest rate, and the terms of the restructured loan are comparable to the terms offered by the Bank to non-troubled debtors. The Bank did not modify any loans in a manner that met the criteria for a TDR during the nine months ended September 30, 2015 and 2014.

Accrual status for TDRs is determined separately for each TDR in accordance with the policies for determining accrual or non-accrual status that are outlined on page 34. At the time an agreement is entered into between the Bank and the borrower that results in the Bank's determination that a TDR has been created, the loan can be either on accrual or non-accrual status. If a loan is on non-accrual status at the time it is restructured, it continues to be classified as non-accrual until the borrower has demonstrated compliance with the modified loan terms for a period of at least six months. Conversely, if at the time of restructuring the loan is performing (and accruing); it will remain accruing throughout its restructured period, unless the loan subsequently meets any of the criteria for non-accrual status under the Bank's policy, as disclosed on page 34 and agency regulations.

Table of contents

The Bank never accepts receivables or equity interests in satisfaction of TDRs.

At both September 30, 2015 and 2014, all TDRs were collateralized by real estate that generated rental income. For TDRs that demonstrated conditions sufficient to warrant accrual status, the present value of the expected net cash flows of the underlying property was utilized as the primary means of determining impairment. Any shortfall in the present value of the expected cash flows calculated at each measurement period (typically quarter-end) compared to the present value of the expected cash flows at the time of the original loan agreement was recognized as either an allocated reserve (in the event that it related to lower expected interest payments) or a charge-off (if related to lower expected principal payments). For TDRs on non-accrual status, an appraisal of the underlying real estate collateral is deemed the most appropriate measure to utilize when evaluating impairment, and any shortfall in valuation from the recorded balance is accounted for through a charge-off. In the event that either an allocated reserve or a charge-off is recognized on TDRs, the periodic loan loss provision is impacted.

Please refer to Note 8 to the condensed consolidated financial statements for a further discussion of TDRs.

OREO

Property acquired by the Bank, or a subsidiary, as a result of foreclosure on a mortgage loan or a deed in lieu of foreclosure is classified as OREO. Upon entering OREO status, the Bank obtains a current appraisal on the property and reassesses the likely realizable value (a.k.a fair value) of the property quarterly thereafter. OREO is carried at the lower of the fair value or book balance, with any write downs recognized through a provision recorded in non-interest expense. Only the appraised value, or either contractual or formal marketed values that fall below the appraised value, is used when determining the likely realizable value of OREO at each reporting period. The Bank typically seeks to dispose of OREO properties in a timely manner. As a result, OREO properties have generally not warranted subsequent independent appraisals.

OREO properties totaled \$148,000 at September 30, 2015 and \$18,000 at December 31, 2014. The Bank did not recognize any provisions for losses on OREO properties during the three months ended September 30, 2015 and 2014.

The following table sets forth information regarding non-accrual loans and certain other non-performing assets (including OREO) at the dates indicated:

	At September 30, 2015	At December 31, 2014
	(Dollars in Thousands)	
One- to four-family residential including condominium and cooperative apartment	\$ 834	\$ 1,310
Multifamily residential and residential mixed use real estate	547	167
Commercial real estate and commercial mixed use real estate	207	4,717
Consumer	2	4
Total non-accrual loans	1,590	6,198
Non-performing TRUPS	1,227	904
OREO	148	18
Total non-performing assets	2,965	7,120
Ratios:		
Total non-accrual loans to total loans	0.04 %	0.15 %
Total non-performing assets to total assets	0.06	0.16

TDRs and Impaired Loans

TDRs	\$9,320	\$ 19,817
Impaired loans (1)	9,867	19,984

(1) Amount includes all TDRs at both September 30, 2015 and December 31, 2014. See the discussion entitled "Impaired Loans" commencing on page 35 for a reconciliation of non-accrual and impaired loans.

Other Potential Problem Loans

(i) Loans Delinquent 30 to 89 Days

The Bank had six real estate loans, totaling \$2.6 million that were delinquent between 30 and 89 days at September 30, 2015, compared to six such loans totaling \$1.4 million at December 31, 2014. The 30 to 89 day delinquency levels fluctuate monthly, and are generally considered a less accurate indicator of near-term credit quality trends than non-accrual loans.

Table of contents

(ii) Temporary Loan Modifications

There were no temporary modifications entered into during the three-month or nine-month periods ended September 30, 2015 or 2014. Temporary modifications previously entered into performed according to their contractual terms during the three-month and nine-month periods ended September 30, 2015 and 2014.

Reserve for Loan Commitments

At September 30, 2015 and December 31, 2014, the Bank maintained a reserve of \$25,000 associated with unfunded loan commitments accepted by the borrower. This reserve is determined based upon the outstanding volume of loan commitments at each period end. Any increases or reductions in this reserve are recognized in periodic non-interest expense.

Allowance for Loan Losses

The methodology utilized to determine the Company's allowance for loan losses on real estate and consumer loans, along with periodic associated activity, remained constant during the periods ended September 30, 2015 and December 31, 2014. The following is a summary of the components of the allowance for loan losses as of the following dates:

	At September 30, 2015	At June 30, 2015	At December 31, 2014
	(Dollars in Thousands)		
Real Estate Loans:			
Impaired loans	\$-	\$-	\$19
Substandard loans not deemed impaired	284	244	371
Special Mention loans not deemed impaired	99	108	228
Pass graded loans	18,555	18,179	17,851
Sub-total real estate loans	18,938	18,531	18,469
Consumer loans	21	22	24
TOTAL	\$18,959	\$18,553	\$18,493

Activity related to the allowance for loan losses is summarized for the periods indicated as follows:

	Three Months Ended September 30, 2015	Three Months Ended September 30, 2014	Nine Months Ended September 30, 2015	Nine Months Ended September 30, 2014
	(Dollars in Thousands)			
Net charge-offs (recoveries)	\$10	\$34	\$(1,357)	\$(295)
Provision (Credit)	416	(501)	(891)	(1,350)

The allowance for loan losses increased \$406,000 during the three months ended September 30, 2015, due primarily to an increase in reserves on pass graded loans. The increase in reserves for both the pass graded loans and loans rated substandard that were either not deemed impaired or evaluated individually for impairment, resulted from growth in their outstanding balances from June 30, 2015 to September 30, 2015.

The allowance for loan losses increased \$466,000 during the nine months ended September 30, 2015, due primarily to net recoveries of \$1.4 million recognized during the period, that were largely offset by a credit (negative provision) of \$891,000 recorded during the same period that resulted from improvement in the credit quality of the loan portfolio during the period. The \$1.4 million of net recoveries recognized during the nine months ended September 30, 2015 resulted primarily from the resolution of the largest impaired loan during the period. During the nine months ended September 30, 2015, an increase in the estimated reserves associated with pass graded loans, that resulted from growth in their outstanding balance from December 31, 2014 to September 30, 2015, was offset by reductions in the estimated reserves on both loans rated substandard that were either not deemed impaired or evaluated individually for impairment, and loans rated special mention that were not deemed impaired, with both reductions reflecting a decline in their respective outstanding balances from December 31, 2014 to September 30, 2015.

For a further discussion of the allowance for loan losses and related activity during the three-month periods ended September 30, 2015 and 2014, and as of December 31, 2014, please see Note 9 to the condensed consolidated financial statements. Period-end balances of all Substandard, Special Mention and pass graded real estate loans are summarized in Note 8 to the condensed consolidated financial statements.

Comparison of Financial Condition at September 30, 2015 and December 31, 2014

Assets. Assets totaled \$4.8 billion at September 30, 2015, \$335.4 million above their level at December 31, 2014.

Table of contents

Real estate loans increased \$373.2 million during the nine months ended September 30, 2015. During the nine months ended September 30, 2015, the Bank originated \$1.06 billion of real estate loans (including refinancing of existing loans), which exceeded the \$9.6 million of sales and \$683.5 million of aggregate amortization on such loans (also including refinancing of existing loans).

Partially offsetting the growth in real estate loans was a reduction of \$26.0 million in MBS available-for-sale, as the Company sold \$24.3 million of MBS available-for-sale during the nine months ended September 30, 2015 and experienced principal amortization of \$1.6 million prior to the sale. During the nine months ended September 30, 2015, the Company also elected to reduce cash and due from banks by \$4.2 million to meet various liquidity needs, and its investment in FHLBNY common stock by \$4.1 million as a result of a \$104.0 million decline in its outstanding FHLBNY borrowings during the period (as successful deposit gathering reduced the need for FHLBNY borrowings during the period).

During the nine months ended September 30, 2015, premises totaling \$8.8 million were transferred to held for sale. In October 2015, the Bank entered into an agreement to sell these premises for \$80.0 million. This sale transaction is currently expected to close in February 2016.

Liabilities. Total liabilities increased \$311.2 million during the nine months ended September 30, 2015. Retail deposits (due to depositors) increased \$369.7 million and FHLBNY advances declined by \$104.0 million during the period. Please refer to "Part I – Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations - Liquidity and Capital Resources" for a discussion of the increase in retail deposits and decline in FHLBNY advances during the nine months ended September 30, 2015. Mortgagor escrow and other deposits grew by \$39.2 million during the nine months ended September 30, 2015 as a result of the growth in loans during the period.

Stockholders' Equity. Stockholders' equity increased \$24.2 million during the nine months ended September 30, 2015, due primarily to net income of \$33.4 million, \$4.1 million of equity added from stock option exercises, and a \$2.4 million aggregate increase related to expense amortization associated with stock benefit plans that added to the cumulative balance of stockholders' equity. Partially offsetting these items were \$15.2 million in cash dividends paid during the period and an increase in accumulated other comprehensive loss of \$626,000. The increased accumulated other comprehensive loss resulted from a combination of the sale of MBS that previously possessed an unrealized gain and thus lowered accumulated other comprehensive loss, as well as adjustments to defined benefit plans.

Comparison of Operating Results for the Three Months Ended September 30, 2015 and 2014

General. Net income was \$10.1 million during the three months ended September 30, 2015, a reduction of \$1.7 million from net income of \$11.8 million during the three months ended September 30, 2014. During the comparative period, net interest income decreased \$145,000, the provision (credit) for loan losses increased \$917,000 and non-interest expense increased \$1.4 million. Income tax expense declined \$695,000 during the comparative period, as a result of a \$2.4 million decrease in pre-tax income.

Net Interest Income. The discussion of net interest income for the three months ended September 30, 2015 and 2014 presented below should be read in conjunction with the following tables, which set forth certain information related to the consolidated statements of income for those periods, and which also present the average yield on assets and average cost of liabilities for the periods indicated. The average yields and costs were derived by dividing income or expense by the average balance of their related assets or liabilities during the periods represented. Average balances were derived from average daily balances. The yields include fees that are considered adjustments to yields.

Table of contents

The Company's net interest income and net interest margin during the three months ended September 30, 2015 and 2014 were impacted by the following factors:

During the period January 1, 2009 through September 30, 2015, Federal Open Market Committee monetary policies resulted in the maintenance of the overnight federal funds rate in a range of 0.0% to 0.25%, helping deposit and borrowing costs remain at historically low levels.

Marketplace competition and refinancing activity on real estate loans, particularly during the period January 1, 2012 through September 30, 2015, has resulted in an ongoing reduction in the average yield on real estate loans.

Interest Income. Interest income was \$42.9 million during the three months ended September 30, 2015, a decrease of \$1.5 million from the three months ended September 30, 2014, primarily reflecting a reduction of \$1.4 million in interest income on real estate loans attributable to a decline of \$1.8 million in loan prepayment income during the comparative period. Loan prepayment activities, which had exceeded traditional levels during 2014 and the first six months of 2015, subsided during the quarter ended September 30, 2015. The total reduction in interest income on real estate loans during the period was lower than the \$1.8 million decline in loan prepayment income due to growth of \$353.0 million in the average balance of real estate loans during the comparative period, as new originations significantly exceeded amortization and satisfactions during the period October 1, 2014 through September 30, 2015. Interest income on MBS also declined \$222,000 during the comparative period, due to a reduction of \$26.6 million in their average balance, as the Company liquidated virtually its entire MBS portfolio in March 2015 in order to recognize and utilize appreciation in their market valuation. Partially offsetting the lower interest income on real estate loans and MBS was an increase of \$185,000 in interest income on investment securities, as additional interest income (previously owed but not paid timely by the issuing companies) was received and recorded on the TRUPS in the September 2015 quarter.

Interest Expense. Interest expense decreased \$1.3 million, to \$11.1 million, during the three months ended September 30, 2015, from \$12.4 million during the three months ended September 30, 2014. The reduction resulted primarily from lower interest expense of \$2.2 million on borrowed funds and \$132,000 on CDs during the comparative period. The decline in interest expense on borrowings resulted from a reduction of \$28.6 million in their average balance, as borrowings were de-emphasized during the first nine months of 2015, and 74 basis points in their average cost, as higher-cost borrowings that matured during the period January 1, 2015 through September 30, 2015 were not replaced. The reduction in interest expense on CDs reflected a decline of 12 basis points in their average cost, as the Bank competed less aggressively for CDs during the first nine months of 2015, instead emphasizing strategies aimed at growing money market and non-interest bearing checking deposits. Partially offsetting these declines was an increase of \$1.0 million in interest expense on money market deposits, as successful promotional activities increased the average balance of money markets by \$264.3 million from the three months ended September 30, 2014 to the three months ended September 30, 2015.

Provision for Loan Losses. The Company recognized a provision for loan losses of \$416,000 during the three months ended September 30, 2015, compared to a credit (negative provision) for loan losses of \$501,000 during the three months ended September 30, 2014. The \$416,000 provision recorded during the quarter ended September 30, 2015 reflected growth of \$186.3 million in the loan portfolio during the period. The \$501,000 credit recorded during the three months ended September 30, 2014 reflected improvement in the overall credit quality of the loan portfolio from October 1, 2013 through September 30, 2014.

Non-Interest Income. Total non-interest income increased \$82,000 from the three months ended September 30, 2014 to the three months ended September 30, 2015. During the comparative period, \$238,000 of additional non-interest income was recognized on BOLI, as the Company increased its investment in BOLI commencing in October 2014. The increased BOLI income was partially offset by an aggregate reduction of \$101,000 in fees related to loan

commitment extensions and modifications, a \$30,000 reduction in servicing fees on loans sold to third parties, (as the balance of these loans declined as loan payments were received and additional loans were not actively sold to third parties), and \$95,000 of lower non-interest income reflecting a less favorable valuation of mutual fund investments designated as trading.

Non-Interest Expense. Non-interest expense was \$16.1 million during the three months ended September 30, 2015, an increase of \$1.4 million from \$14.7 million during the three months ended September 30, 2014, primarily reflecting higher salaries and employee benefits and additional marketing expense tied to both brand recognition and deposit gathering initiatives. Data processing costs also increased during the comparative period, reflecting higher loan and deposit processing costs, as well as several technological upgrades.

Non-interest expense was 1.37% of average assets during the three months ended September 30, 2015, relatively unchanged from 1.36% during the three months ended September 30, 2014.

Income Tax Expense. Income tax expense approximated \$7.1 million during the three months ended September 30, 2015, down from \$7.8 million during the three months ended September 30, 2014, due to a reduction of \$2.4 million in

Table of contents

pre-tax income during the comparative period. The Company's consolidated tax rate was 41.3% during the three months ended September 30, 2015, up from 39.8% during the three months ended September 30, 2014. Additional income tax expense related to the finalization and filing of prior year tax returns increased the effective tax rate during the three months ended September 30, 2015.

Comparison of Operating Results for the Nine Months Ended September 30, 2015 and 2014

General. Net income was \$33.4 million during the nine months ended September 30, 2015, an increase of \$1.1 million from net income of \$32.3 million during the nine months ended September 30, 2014. During the comparative period, net interest income increased \$2.2 million, the provision (credit) for loan losses increased by \$459,000 (as a \$459,000 lower credit were recognized), non-interest income increased \$435,000 and non-interest expense increased \$509,000. Income tax expense increased \$508,000 during the comparative period, as a result of \$1.6 million of additional pre-tax income.

Net Interest Income. The discussion of net interest income for the nine months ended September 30, 2015 and 2014 presented below should be read in conjunction with the following tables, which set forth certain information related to the consolidated statements of income for those periods, and which also present the average yield on assets and average cost of liabilities for the periods indicated. The average yields and costs were derived by dividing income or expense by the average balance of their related assets or liabilities during the periods represented. Average balances were derived from average daily balances. The yields include fees that are considered adjustments to yields.

Analysis of Net Interest Income

	Nine Months Ended September 30, 2015				2014			
	Average Balance	Interest	Average Yield/ Cost		Average Balance	Interest	Average Yield/ Cost	
	(Dollars In Thousands)

Net change in net interest income	\$8,049	\$(5,879)	\$2,170

The Company's net interest income and net interest margin during the nine months ended September 30, 2015 and 2014 were impacted by the following factors:

During the period January 1, 2009 through September 30, 2015, Federal Open Market Committee monetary policies resulted in the maintenance of the overnight federal funds rate in a range of 0.0% to 0.25%, helping deposit and borrowing costs remain at historically low levels.

Marketplace competition and refinancing activity on real estate loans, particularly during the period January 1, 2012 through September 30, 2015, has resulted in an ongoing reduction in the average yield on real estate loans.

Interest Income. Interest income was \$129.9 million during the nine months ended September 30, 2015, an increase of \$924,000, from the nine months ended September 30, 2014, primarily reflecting increases in interest income of \$1.1 million on real estate loans, \$270,000 on investment securities and \$130,000 on federal funds sold and other short term investments. The increased interest income on real estate loans reflected growth of \$325.8 million in their average balance during the comparative period, as new originations significantly exceeded amortization and satisfactions during the period October 1, 2014 through September 30, 2015. Partially offsetting the higher interest income on real estate loans from the growth in their average balance, was a reduction of 30 basis points in their average yield, resulting from both continued low benchmark lending rates and heightened marketplace competition. Additional interest income (previously owed but not paid timely by the issuing companies) was received and recorded on the Bank's TRUPS in the September 2015 quarter, generating the majority of the \$270,000 increase in interest income on investment securities during the comparative period. The increase in interest income on federal funds sold and other short-term investments resulted from a more favorable yield earned on the Company's investment in

FHLB NY capital stock, reflecting higher discretionary dividends declared by the FHLB NY. Partially offsetting these increases was a reduction of \$523,000 in interest income on MBS, primarily reflecting a decline of \$20.3 million in their average balance during the comparative period, as the Company liquidated virtually its entire MBS portfolio in March 2015.

Interest Expense. Interest expense decreased \$1.2 million, to \$34.9 million, during the nine months ended September 30, 2015, from \$36.2 million during the nine months ended September 30, 2014. Reductions of \$3.4 million in interest expense on borrowed funds and \$342,000 on CDs during the comparative period were offset by an increase of \$2.5 million in interest expense on money market deposits. Interest expense on borrowings declined \$3.4 million due to a reduction of 42 basis points in their average cost, as higher-cost borrowings that matured during the period January 1, 2015 through September 30, 2015 were not replaced. The reduction in interest expense on CDs reflected a decline of 14 basis points in their average cost, as the Bank competed less aggressively for CDs during the first nine months of 2015, instead emphasizing strategies aimed at growing money market and non-interest bearing checking deposits. The increase of \$1.5 million in interest expense on money market deposits reflected successful promotional activities that increased their average balance by \$204.3 million and their average cost by 17 basis points from the nine months ended September 30, 2014 to the nine months ended September 30, 2015.

Table of contents

Provision for Loan Losses. The Company recognized a credit (negative provision) for loan losses of \$891,000 during the nine months ended September 30, 2015, compared to a credit (negative provision) for loan losses of \$1.4 million during the nine months ended September 30, 2014. The credits recorded during the nine months ended both September 30, 2015 and 2014 reflected continued improvement in the overall credit quality of the loan portfolio from October 1, 2013 through September 30, 2015. The credit recorded during the nine months ended September 30, 2015 also reflected a \$1.5 million recovery of previously charged-off amounts from the favorable resolution of the Bank's largest problem loan. The lower credit to the allowance recognized during the nine months ended September 30, 2015 resulted primarily from growth of \$439.4 million in the real estate loan portfolio from October 1, 2014 to September 30, 2015.

Non-Interest Income. Total non-interest income increased \$435,000 from the nine months ended September 30, 2014 to the nine months ended September 30, 2015, due primarily to a gain of \$1.4 million recognized on the sale of MBS during the nine months ended September 30, 2015, \$689,000 of increased income from BOLI, as the Company increased its investment in BOLI commencing in October 2014, and an increase of \$176,000 in loan application fee income during the comparative period that reflected higher loan origination activity. Partially offsetting these increases were the following non-recurring non-interest income items recognized during the nine months ended September 30, 2014: 1) a \$649,000 gain on the sale of real estate; and 2) a credit of \$1.0 million recognized as additional mortgage banking income during the nine months ended September 30, 2014. The \$1.0 million credit eliminated the liability in relation to the First Loss Position on loans that were re-acquired from FNMA during the nine months ended September 30, 2014.

Non-Interest Expense. Non-interest expense was \$46.4 million during the nine months ended September 30, 2015, an increase of \$509,000 from \$45.8 million during the nine months ended September 30, 2014. During the nine months ended September 30, 2015, a non-recurring \$3.4 million reduction was recognized in salaries and employee benefits from the curtailment of certain postretirement health benefits. Excluding the impact of the \$3.4 million defined benefit curtailment, non-interest expense would have increased by \$3.9 million during the comparative period as a result of higher salaries and employee benefits, increased occupancy and equipment expenses from the accelerated depreciation of some automated teller machine equipment, additional marketing expenses tied to both brand recognition and deposit gathering initiatives, and heightened data processing costs associated with both higher loan and deposit processing activities and several technological upgrades.

Excluding the non-recurring \$3.4 million reduction, non-interest expense was 1.45% of average assets during the nine months ended September 30, 2015, up slightly from 1.44% during the nine months ended September 30, 2014, due to the \$3.9 million of additional non-interest expense.

Income Tax Expense. Income tax expense approximated \$23.0 million during the nine months ended September 30, 2015, up from \$22.5 million during the nine months ended September 30, 2014, due to an increase of \$1.6 million in pre-tax income during the comparative period. The Company's consolidated tax rate was 40.8% during the nine months ended September 30, 2015, down from 41.1% during the nine months ended September 30, 2014. A combination of additional tax strategies and tax law changes lowered the effective tax rate in 2015 compared to 2014.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Quantitative and qualitative disclosures about market risk were presented at December 31, 2014 in Item 7A of the Holding Company's Annual Report on Form 10-K, filed with the SEC on March 16, 2015. The following is an update of the discussion provided therein.

General. Virtually all of the Company's market risk continues to reside at the Bank level. The Bank's largest component of market risk remains interest rate risk. The Company is not subject to foreign currency exchange or commodity price risk. At September 30, 2015, the Company owned mutual fund investments totaling \$8.7 million

that were designated as trading. At September 30, 2015, the Company did not conduct transactions involving derivative instruments requiring bifurcation in order to hedge interest rate or market risk.

Assets, Deposit Liabilities and Wholesale Funds. There was no material change in the composition of assets, deposit liabilities or wholesale funds from December 31, 2014 to September 30, 2015. See "Part I - Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations - Liquidity and Capital Resources" for a discussion of deposit and borrowing activity during the period.

Interest Rate Risk Exposure Analysis

Economic Value of Equity ("EVE") Analysis. In accordance with agency regulatory guidelines, the Bank simulates the impact of interest rate volatility upon EVE using several interest rate scenarios. EVE is the difference between the present value of the expected future cash flows of the Bank's assets and liabilities and the value of any off-balance sheet items, such as firm commitments to originate loans, or derivatives, if applicable.

Table of contents

Traditionally, the fair value of fixed-rate instruments fluctuates inversely with changes in interest rates. Increases in interest rates thus result in decreases in the fair value of interest-earning assets, which could adversely affect the Company's consolidated results of operations in the event they were to be sold, or, in the case of interest-earning assets classified as available-for-sale, reduce the Company's consolidated stockholders' equity, if retained. The changes in the value of assets and liabilities due to fluctuations in interest rates measure the interest rate sensitivity of those assets and liabilities.

In order to measure the Bank's sensitivity to changes in interest rates, EVE is calculated under market interest rates prevailing at a given quarter-end ("Pre-Shock Scenario"), and under various other interest rate scenarios ("Rate Shock Scenarios") representing immediate, permanent, parallel shifts in the term structure of interest rates from the actual term structure observed in the Pre-Shock Scenario. An increase in the EVE is considered favorable, while a decline is considered unfavorable. The changes in EVE between the Pre-Shock Scenario and various Rate Shock Scenarios due to fluctuations in interest rates reflect the interest rate sensitivity of the Bank's assets, liabilities, and off-balance sheet items that are included in the EVE. Management reports the EVE results to the Bank's Board of Directors on a quarterly basis. The report compares the Bank's estimated Pre-Shock Scenario EVE to the estimated EVEs calculated under the various Rate Shock Scenarios.

The calculated EVEs incorporate some asset and liability values derived from the Bank's valuation model, such as those for mortgage loans and time deposits, and some asset and liability values provided by reputable independent sources, such as values for the Bank's MBS and CMO portfolios, as well as all borrowings. The Bank's valuation model makes various estimates regarding cash flows from principal repayments on loans and deposit decay rates at each level of interest rate change. The Bank's estimates for loan repayment levels are influenced by the recent history of prepayment activity in its loan portfolio, as well as the interest rate composition of the existing portfolio, especially in relation to the existing interest rate environment. In addition, the Bank considers the amount of fee protection inherent in the loan portfolio when estimating future repayment cash flows. Regarding deposit decay rates, the Bank tracks and analyzes the decay rate of its deposits over time, with the assistance of a reputable third party, and over various interest rate scenarios. Such results are utilized in determining estimates of deposit decay rates in the valuation model. The Bank also generates a series of spot discount rates that are integral to the valuation of the projected monthly cash flows of its assets and liabilities. The Bank's valuation model employs discount rates that it considers representative of prevailing market rates of interest, with appropriate adjustments it believes are suited to the heterogeneous characteristics of the Bank's various asset and liability portfolios. No matter the care and precision with which the estimates are derived, however, actual cash flows could differ significantly from the Bank's estimates, resulting in significantly different EVE calculations.

The analysis that follows presents, as of September 30, 2015 and December 31, 2014, the estimated EVE at both the Pre-Shock Scenario and the +200 Basis Point Rate Shock Scenario. The analysis additionally presents the percentage change in EVE from the Pre-Shock Scenario to the +200 Basis Point Rate Shock Scenario at both September 30, 2015 and December 31, 2014.

	At September 30, 2015			At December 31, 2014		
	EVE	Dollar Change	Percentage Change	EVE	Dollar Change	Percentage Change
Rate Shock Scenario (Dollars in Thousands)						
+ 200 Basis Points	\$478,062	\$(57,871)	-10.8%	\$498,138	\$(49,201)	-9.0%
Pre-Shock Scenario	535,933	-	-	547,339	-	-

The Bank's Pre-Shock Scenario EVE decreased from \$547.3 million at December 31, 2014 to \$535.9 million at September 30, 2015. This decrease resulted from a less favorable valuation ascribed to the Bank's real estate portfolio from both a decline in the portfolio rate from December 31, 2014 to September 30, 2015 and a reduction in the Bank's real estate portfolio during the nine months ended September 30, 2015 of loans carrying above market interest rates.

The Bank's EVE in the +200 basis point Rate Shock Scenario decreased from \$498.1 million at December 31, 2014 to \$478.1 million at September 30, 2015. The factors contributing to the less favorable valuation included both a decrease in the value of the Bank's real estate loans as discussed in the Pre-Shock Scenario EVE above, and a less favorable valuation on the Bank's wholesale borrowing portfolio resulting from a reduction in its duration from December 31, 2014 to September 30, 2015. Partially offsetting the decrease was a more favorable valuation on core deposits attributable primarily to growth in non-interest bearing checking accounts.

Income Simulation Analysis. As of the end of each quarterly period, the Bank also monitors the impact of interest rate changes through a net interest income simulation model. This model estimates the impact of interest rate changes on the Bank's net interest income over forward-looking periods typically not exceeding 36 months (a considerably shorter period than measured through the EVE analysis). Management reports the net interest income simulation results to the Bank's Board of Directors on a quarterly basis. The following table discloses the estimated changes to the Bank's net interest

Table of contents

income over the 12-month period ending September 30, 2016 assuming instantaneous changes in interest rates for the given Rate Shock Scenarios:

Instantaneous Change in Interest rate of:	Percentage Change in Net Interest Income
+ 200 Basis Points	(15.5)%
+ 100 Basis Points	(7.8)
-100 Basis Points	6.1

Item 4. Controls and Procedures

Management of the Company, with the participation of its Chief Executive Officer and Principal Financial Officer, conducted an evaluation of the effectiveness as of September 30, 2015, of the Company's disclosure controls and procedures, as defined in Rules 13a-15(e) and 15(d)-15(e) under the Exchange Act. Based upon this evaluation, the Chief Executive Officer and Principal Financial Officer concluded that the Company's disclosure controls and procedures were effective as of September 30, 2015 in ensuring that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to management of the Company as appropriate to allow timely decisions regarding required disclosures.

Changes in Internal Control Over Financial Reporting

There was no change in the Company's internal control over financial reporting that occurred during the Company's last fiscal quarter that has materially affected, or is reasonably likely to materially affect, such controls.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings

In the ordinary course of business, the Company is routinely named as a defendant in or party to various pending or threatened legal actions or proceedings. Certain of these matters may seek substantial monetary damages. In the opinion of management, the Company is involved in no actions or proceedings that will have a material adverse impact on its financial condition and results of operations.

Item 1A. Risk Factors

There were no material changes from the risks disclosed in the Risk Factors section of the Company's Annual Report on Form 10-K for the year ended December 31, 2014.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The Holding Company did not repurchase any shares of its common stock into treasury during the three months ended September 30, 2015. No existing repurchase programs expired during the three months ended September (c)30, 2015, nor did the Company terminate any repurchase programs prior to expiration during the period. As of September 30, 2015, the Holding Company had an additional 1,104,549 shares remaining eligible for repurchase under its twelfth stock repurchase program, which was publicly announced in June 2007.

Item 3. Defaults Upon Senior Securities

None.

Item 4. (Removed and Reserved)

Item 5. Other Information

None.
