PACIFICNET INC. AND SUBSIDIARIES  
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
 (Amounts expressed in United States dollars unless otherwise stated)

1. BASIS OF PRESENTATION

The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-QSB. Accordingly, they do not include all the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, all adjustments (which include only normal recurring adjustments) necessary to present fairly the financial position, results of operations and cash flows for all periods presented have been made. Preparing financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue, and expenses. Examples include provisions for returns and impairment losses, accounting for income taxes, bad debts, and property, plant and equipment lives for depreciation purposes. Actual results may differ from these estimates. The results of operations for the three-month period ended March 31, 2004 are not necessarily indicative of the operating results that may be expected for the entire year ending December 31, 2004. These financial statements should be read in conjunction with the Management's

## Edgar Filing: PACIFICNET INC - Form 10QSB

Discussion and Analysis and financial statements and notes thereto included in the Company's financial statements and accompanying notes thereto as of and for the year ended December 31, 2003, filed with the Company's Annual Report on Form 10-KSB.

### 2. EARNINGS (LOSS) PER SHARE

Basic earnings (loss) per share are based on the weighted average number of shares of common stock outstanding. Diluted earnings or loss per share is based on the weighted average number of shares of common stock outstanding and dilutive common stock equivalents. All earnings per share amounts in these financial statements are basic earnings (loss) per share as defined by SFAS No. 128, "Earnings Per Share." Diluted weighted average shares outstanding exclude the potential issuances of common stock upon exercise of options and warrants because to do so would be antidilutive.

The computation of basic and diluted profit/(loss) per share is as follows:

(IN THOUSANDS OF UNITED STATES DOLLARS, EXCEPT WEIGHTED SHARES AND PER SHARE AMOUNTS)

	THREE MONTHS ENDED	
	MARCH 31, 2004	MARCH 31, 2003

### 3. BUSINESS DISPOSITIONS

In May 2003, the Company decided not to further invest in the Customer Service Support Center in the U.S. As of March 31, 2003, all activities have significantly slowed down due to the economic slowdown in the U.S. During the quarter ended March 31, 2003, the Company wrote off property and equipment of \$150,000. Revenues and net loss information related to Customer Service Support Center operations are as follows (in thousands):

### 4. JOINT VENTURE OPERATIONS

The Company has ceased its participation with International Elite Limited (IEL) in the joint venture company, PacificNet Communications Limited - Macao

## Edgar Filing: PACIFICNET INC - Form 10QSB

Commercial Offshore (the "Joint Venture"). Pursuant to the terms of the Equity Joint Venture Agreement, signed on December 21, 2002, the Company was required to obtain the requisite regulatory and shareholder approval to issue 34 million shares of the Company's common stock in connection with the Joint Venture transaction. The Company still has not received the necessary regulatory and shareholder approval to issue the shares. Since the Company was unable to obtain shareholder approval, the board of directors of the Company determined that it was in the best interest of the Company to terminate its interest in the Joint Venture. Since the Company has not obtained regulatory and shareholder approval of the joint venture transaction and the Company does not control the operating and financing decisions of the joint venture, the Company does not consolidate the assets, liabilities, revenues and expenses of the joint venture. The Company will no longer seek approval to issue the 34 million shares to the Joint Venture and the original 800,000 deposit shares held in escrow were canceled and returned to the Company's treasury. The termination agreement was signed on March 30, 2004. As such, the results of operations for the three months ended March 31, 2003, do not include the activity for the joint venture as previously reported in its March 31, 2003 quarterly filing.

### 5. STOCKHOLDERS' EQUITY

The weighted average exercise price of the options outstanding and exercisable is \$3.06 and \$1.98, respectively, and the weighted average remaining contractual life is 1.91 and 1.28 and years, respectively.

5

The Company accounts for stock-based compensation using the intrinsic value method prescribed by Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees," under which no compensation cost for stock options is recognized for stock option awards granted at or above fair market value. Had compensation expense for the Company's stock-based compensation plans been determined under FAS No. 123, based on the fair market value at the grant dates, the Company's pro forma net loss and pro forma net loss per share would have been reflected as follows at March 31:

	2004	2003

### CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Our discussion and analysis or plan of operations are based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, we evaluate our estimates, including those related to accounts receivable reserves, provisions for impairment losses of affiliated companies and other intangible assets, income taxes and contingencies. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

We believe the following critical accounting policies reflect our more significant estimates and assumptions used in the preparation of our consolidated financial statements:

**ALLOWANCE FOR DOUBTFUL ACCOUNTS** - We evaluate the collectibility of our trade receivables based on a combination of factors. We regularly analyze our significant customer accounts, and, when we become aware of a specific customer's inability to meet its financial obligations to us, such as in the case of bankruptcy filings or deterioration in the customer's operating results or financial position, we record a specific reserve for bad debt to reduce the related receivable to the amount we reasonably believe is collectible. The allowances are calculated based on detailed review of certain individual customer accounts, historical rates and an estimation of the overall economic conditions affecting our customer base. We review a customer's credit history before extending credit. If the financial condition of our customers were to deteriorate, resulting in an impairment of their ability to make payments, additional allowances may be required.

**INCOME TAXES** - We record a valuation allowance to reduce our deferred tax assets to the amount that is more likely than not to be realized. We have considered future market growth, forecasted earnings, future taxable income, and prudent and feasible tax planning strategies in determining the need for a valuation allowance. We currently have recorded a full valuation allowance against net deferred tax assets as we currently believe it is more likely than not that the deferred tax assets will not be realized.

**CONTINGENCIES** - We may be subject to certain asserted and unasserted claims encountered in the normal course of business. It is our belief that the resolution of these matters will not have a material adverse effect on our financial position or results of operations, however, we cannot provide assurance that damages that result in a material adverse effect on our financial position or results of operations will not be imposed in these matters. We account for contingent liabilities when it is probable that future expenditures will be made and such expenditures can be reasonably estimated.

## Edgar Filing: PACIFICNET INC - Form 10QSB

LONG-LIVED ASSETS - We periodically assesses the need to record impairment losses on long-lived assets, such as property, plant and equipment, goodwill and purchased intangible assets, used in operations and its investments when indicators of impairment are present indicating the carrying value may not be recoverable. An impairment loss is recognized when estimated undiscounted future cash flows expected to result from the use of the asset plus net proceeds expected from disposition of the asset (if any) are less than the carrying value of the asset. When an impairment is identified, the carrying amount of the asset is reduced to its estimated fair value. All goodwill will no longer be amortized and potential impairment of goodwill and purchased intangible assets with indefinite useful lives will be evaluated using the specific guidance provided by SFAS No. 142 and SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets." This impairment analysis will be performed at least annually. For investments in affiliated companies that are not majority-owned or controlled, indicators of value generally include revenue growth, operating results, cash flows and other measures. Management then determines whether there has been a permanent impairment of value based upon events and circumstances that have occurred since acquisition. It is reasonably possible that the impairment factors evaluated by management will change in subsequent periods, given that the Company operates in a volatile environment. This could result in material impairment charges in future periods.

**CURRENCY EXCHANGE FLUCTUATIONS.** All of PacificNet's revenues are denominated either in United States dollars or Hong Kong dollars, while its expenses are denominated primarily in Hong Kong dollars and Renminbi ("RMB"), the currency of the People's Republic of China. There can be no assurance that RMB-to-United States dollar or Hong Kong dollar-to-United States dollar exchange rates will remain stable. Although a devaluation of the Hong Kong dollar or RMB relative to the United States dollar would likely reduce PacificNet's expenses (as expressed in United States dollars), any material increase in the value of the Hong Kong dollar or RMB relative to the United States dollar would increase PacificNet's expenses, and could have a material adverse effect on PacificNet's business, financial condition and results of operations. PacificNet has never engaged in currency hedging operations and has no present intention to do so.
