PART I

ITEM 1. BUSINESS

SRI/Surgical Express, Inc. ("SRI" or the "Company"), formerly Sterile Recoveries, Inc.(R), provides hospitals and surgery centers with a comprehensive surgical procedure-based daily delivery service. The foundations of this service are SRI's reusable surgical products, including gowns, towels, drapes, basins, and instruments, and its daily delivery and retrieval of these products for each customer. To provide its customers a comprehensive offering for surgical procedures, the Company complements these reusable products with cost-effective disposable accessory packs and individual single sterile disposable items. SRI(R) believes its superior quality reusable products and its service

Edgar Filing: SRI SURGICAL EXPRESS INC - Form 10-K

solutions, including direct delivery to its customers' departments, differentiate SRI from its competitors.

At eleven regional facilities, SRI collects, sorts, cleans, inspects, packages, sterilizes, and delivers its reusable products on a just-in-time basis. SRI offers an integrated "closed-loop" reprocessing service which uses two of the most technologically advanced reusable textiles: (i) a GORE(R) Surgical Barrier Fabric for gowns and drapes that is breathable yet liquidproof and provides a viral/bacterial barrier and (ii) an advanced microfiber polyester surgical fabric for gowns and drapes, which is liquid and bacterial resistant.

In 1998, SRI introduced its new service, Surgical Express(R), which uses daily delivery and retrieval to provide customers an expanded program of products and services. Surgical Express is an outsourced Surgical Case Cart Management Program, which the Company expects will reduce hospital and surgery center processing costs and those customers' investment in surgical products. The Company's Surgical Express program offers its customers disposable accessory packs containing smaller surgical items that are not reusable, such as needles, syringes, and tubing. The flexibility the Company offers its customers by combining reusable surgical gowns, towels, drapes, and basins with disposable products and laparoscopic instruments is a unique product and service offering, which the Company believes improves its competitive position in the marketplace.

During the third quarter of 2000, the Company began furnishing its Surgical Express service to two independent hospital networks (IHNs). The agreements with these two IHNs provide for the exclusive use of SRI's Surgical Express program for their reusable products and their custom disposable accessory packs for all procedures.

Also during the third quarter of 2000, the Company began delivering to hospital customers its new laparoscopy program, Surgical Express for Laparoscopy. This program combines the state-of-the-art reusable laparoscopic instruments from Aesculap, Inc. and the Company's Surgical Express products and services into an integrated program that (a) provides hospital customers with the reusable and disposable products, including reusable instruments, needed for laparoscopic surgical procedures, and (b) includes arrangements to deliver and retrieve the instruments and other reusable products. The Company charges customers a single per procedure price for the supplies and instruments required for a laparoscopic surgical procedure.

The Company offers the laparoscopy program pursuant to a Joint Marketing Agreement dated April 28, 2000, between the Company and Aesculap, Inc., one of the oldest and largest worldwide suppliers of surgical instruments. The agreement term is three years and renews for additional three-year terms, unless either party provides notice of non-renewal at least 120 days before its expiration. The agreement provides for Aesculap to furnish and repair laparoscopic instruments. The Company delivers, retrieves, and reprocesses the instruments and is responsible for customer relationships. Aesculap receives an agreed share of the revenues from each procedure, based on the number and kinds of procedures, and the number and combination of instruments for each procedure. Because Aesculap furnishes the instruments, the Company expects its return on capital will be favorably impacted by this new business.

SRI currently serves a customer base of over 400 hospitals and surgery centers located in 25 states, including Duke University Medical Center (Durham), Johns Hopkins Medical Center (Baltimore), Jewish Healthcare Systems (Louisville), St. Luke's Episcopal Hospital (Houston), Jackson Memorial Hospital (Miami), and IHC Hospitals, Inc. (Salt Lake City). SRI is increasingly focused on large networks of hospitals and in 2000 discontinued service to several small hospitals and surgery centers because the cost of service was not commensurate with revenue. None of these customers accounted for a material portion of the Company's revenues.

The Company maintains agreements to supply two group purchasing organizations. SRI's agreement with Hospital Services Corporation of America ("HSCA") designates the Company as an approved vendor of reusable surgical products to HSCA's hospital and surgery center members. In addition, the Company has an agreement to provide its "Surgical Express" program to Novation member hospitals. Novation is the supply company for Voluntary Hospitals of America (VHA) and University HealthSystem Consortium (UHC). SRI will offer Novation members its Surgical Express program as a unitized delivery system featuring reusable surgical textiles, reusable instruments, and disposable accessory packs.

SRI believes that Surgical Express is a superior quality and competitively priced alternative to a full disposable program, other procedure-based surgical supply programs, and operating an in-house reusable program for surgical products. The Company's delivery service offers savings to hospitals by reducing or eliminating the following costly steps associated with the disposable or in-house alternatives: (i) disposing of biohazardous wastes, (ii) carrying an inventory of disposable surgical products, including costly disposable instruments, and (iii) in-house processing of reusable surgical products. In addition to these cost savings, the Company's liquidproof and liquid resistant gowns offer surgeons and surgical staff enhanced protection against transmission of blood-borne pathogens, including the HIV and hepatitis viruses, and the Company's reusable gowns are made with a breathable surgical fabric, which is designed for superior comfort during long procedures. Also, the Company believes hospitals will be attracted by the convenience of its complete supply management program that is provided and billed on a per-procedure basis.

THE MARKET

The United States health care system includes approximately 7,400 acute care hospitals, over 2,750 freestanding surgery centers, and a variety of other health care facilities. According to industry sources, approximately 33 million surgical procedures were performed at hospitals and surgery centers in 1999. The Company believes that between \$100-\$150 of surgical products service revenues, including \$40-\$50 from reusable products, can be realized from a typical surgical procedure. Where SRI will provide instruments for the procedure, such as in laparoscopic cases, revenues can be \$500 per procedure depending upon the product mix.

In the 1980's, hospitals began using custom procedure trays because of their convenience. This trend continued growing throughout the 1990's. A custom procedure tray typically contains, in disposable form, most of the sterile products used in a particular surgical or other medical procedure. Industry sources estimate total annual sales of custom procedure trays in the United States to be \$1.5 billion. The Company believes that custom procedure trays suffer shortcomings in comparison to reusable products, including costs associated with excessive product content, storage, handling and waste disposal, lost instruments and the working capital requirements required to carry product inventory.

The hospitals that converted to custom procedure trays generally eliminated the in-house personnel and equipment used to process reusable surgical products. Furthermore, the hospitals that retained in-house facilities are increasingly unwilling to support the personnel and capital needs required to operate those facilities. Especially with the growth of managed care and associated decrease in surgical service reimbursements, hospitals are seeking to significantly reduce their costs. The Company believes that these hospitals will purchase a service that provides daily delivery of substantially better quality

Edgar Filing: SRI SURGICAL EXPRESS INC - Form 10-K

surgical products, eliminates their capital investment requirements, and reduces their employee and space demands.

The following developments have created a market opportunity for SRI's Surgical Express program:

CONTINUED PRESSURE ON HOSPITALS TO CONTAIN COST AND RAISE PRODUCTIVITY. With the growth of managed care and a decrease in surgical service reimbursements, economic constraints continue to require hospitals to become more efficient by limiting capital investments and reducing staff and costs. Hospitals are continually seeking to decrease their cost of operations, including supplies and waste disposal. SRI's service eliminates the need for in-house inventory or processing facilities and the process costs associated with stocking and discarding disposable products.

CONCERN REGARDING THE TRANSMISSION OF INFECTIOUS DISEASES. The health care industry must manage risks of transmission of infectious diseases through cross-infections. These concerns increase the desirability of surgical barrier fabrics that protect surgeons and surgical staff from patient liquids. SRI's liquidproof gown prevents liquid and viral strike-through in critical areas during surgical procedures involving higher risk. The Company's standard gown is specially designed to resist liquid and bacterial strike-through in most other surgical procedures.

2

CONCERN REGARDING THE HANDLING AND DISPOSAL OF BIOHAZARDOUS WASTE. The disposal of large volumes of infectious and hazardous waste generated by the health care industry continues to attract increased public awareness. The increased burdens on hospitals generating biohazardous waste due to restrictions on incineration and access to dump sites offer an advantage to reprocessing systems, such as SRI's, which replace disposable surgical products with reusable surgical products. The SRI reprocessing system substantially reduces biohazardous waste and its impact on the environment.

INCREASED OUTSOURCING OF HOSPITAL FUNCTIONS THAT DO NOT INVOLVE PATIENT CARE. Hospitals with significant staff, capital and space dedicated to in-house processing of reusable surgical products are increasingly outsourcing this function to more efficient outside providers. This trend is consistent with the overall industry focus on efficiency and improved patient care. Surgical Express allows hospitals to outsource to SRI the ownership and reprocessing of surgical products, including instruments, and inventory management of complementary disposable products as well.

STRATEGY

The Company's objective is to continue its growth and become the surgical supply solution, providing reusable surgical products and related delivery and retrieval services to hospitals and surgery centers. The Company's principal strategies for achieving this objective are as follows:

LEVERAGE INFRASTRUCTURE WITH INCREASED PENETRATION IN EXISTING MARKETS. The Company believes its existing facilities currently operate at approximately 60% of their aggregate annual revenue capacity. The Company believes that by supplementing its core reusable product line with instruments and other components of its Surgical Express program, SRI should substantially increase its total revenue capacity in existing facilities and reduce its need for significant additional capital expenditures for equipment or new facilities.

HELP SOLVE HOSPITALS' COST ISSUES. The Company believes that its service addresses hospitals' needs to reduce operating costs. More importantly,

Edgar Filing: SRI SURGICAL EXPRESS INC - Form 10-K

when fully implemented, SRI's Surgical Express program offers hospitals more comprehensive value by reducing product expenditures, supply chain process costs, biohazardous waste, and instrument costs. Under its Surgical Express programs, the Company will also provide hospitals an attractive per procedure billing arrangement that allows them to easily measure that cost component of their services.

EXPAND NATIONAL AND REGIONAL AGREEMENTS. The Company's existing service agreements are primarily with individual hospitals. To leverage their purchasing power, many hospitals have joined in large groups and increasingly in recent years, smaller independent delivery networks. These small regional buying groups believe that they can negotiate and control their product supply relatively better than large group purchasing organizations. SRI maintains arrangements to supply national group purchasing organizations Novation (the supply company for VHA and UHC) and Health Services Corporation of America (see "Business--Group Purchasing Agreements"). As a key part of its marketing strategy, management will offer its Surgical Express Program to national and regional hospital groups, as well as the individual hospitals that have been SRI's customer base.

ADD FACILITIES IN SELECTED MARKETS. SRI currently services customers in 25 states through eleven regional facilities. SRI serves several large metropolitan areas through highway transport and satellite depots supported by a regional facility. To expand geographically, the Company in 1999 built additional facilities in Stockton, California and Chattanooga, Tennessee, which were markets that it previously served by highway transport. From these new facilities, SRI now serves new metropolitan areas that were previously too distant from an existing regional facility. Under its Surgical Express program, the Company will open new distribution centers that enable the Company to service larger accounts and provide closer customer contact, enabling the Company to move into selected markets without constructing a new facility. In 2000, the Company added new distribution centers in Worcester, Massachusetts to service UMass Memorial Medical Center and Burlington, North Carolina to service Rex Healthcare.

UTILIZE OPERATIONAL KNOWLEDGE. The Company's management originally designed and developed its 11 facilities and has gained substantial knowledge by operating them since the Company's inception. The Company continues to supplement that expertise through processing and engineering experience with instruments and other products. The Company believes that no other supplier offers comparable knowledge and experience in the reusable product segment.

3

DELIVERY, RETRIEVAL AND REPROCESSING SYSTEM

SRI's Surgical Express procedure-based service furnishes hospital customers the products needed for a surgical procedure, including reusable packs, disposable accessory packs, single sterile items, and instruments. Following a procedure, the hospital discards the small amount of disposable products used and places soiled reusable products into SRI's lockable carts.

SRI's closed-loop reprocessing service picks up soiled reusable surgical products from its customers and sorts, cleans, inspects, packages, sterilizes, and redelivers the products to customers. In one trip, SRI's trucks deliver clean carts of sterilized surgical products to the hospital or surgical center and retrieve carts containing soiled products and return them to its facility for reprocessing. The specially designed aluminum carts which hold sterile products are locked to maintain security. Carts conveniently roll for delivery within the hospital and convert into hampers to hold soiled or used products after the procedure. The customer avoids the need to maintain secondary stock locations and the costs of either reprocessing reusable products or

Edgar Filing: SRI SURGICAL EXPRESS INC - Form 10-K

stocking and discarding disposable products.

Upon return to SRI's facility, the contents of the soiled carts are sorted by product type in a controlled area and transferred to the appropriate area for processing and decontamination. Soiled linen products are processed through an automated washing and drying process that delivers clean and decontaminated, products to the pack room floor, where they are carefully inspected, repaired if necessary, folded, and assembled into packs. Surgical instruments are segregated and processed through specially designed processes by qualified Instrument Technicians. SRI processes only high quality reusable instruments designed to be thoroughly cleaned and disinfected. Following the cleaning/disinfecting process, all instruments are 100% inspected and tested for functionality prior to being included in a pack/instrument set. Stainless steel basin components, delivery carts and other hard reusable products are processed through special tunnel washers before reuse. Following assembly, packs are steam sterilized and combined with complementary disposable packs for delivery to the customers. All processing is performed in accordance with documented procedures.

Because the Company's ability to manage its amortization expense depends on maintaining its sewn goods' useful lives, SRI closely monitors its reprocessing to ensure longevity. SRI uses a barcoding system to track its reusable surgical products' status, history, and number of uses. SRI continues to improve its operating processes.

The growth of SRI's business reflects its products' appeal, its service quality, and general customer resistance to change when the SRI system is in place. SRI also believes its direct relationship with the hospital's staff has been important in attracting and retaining customers. Many of SRI's competitors use a distributor system that introduces an intermediary between the competition and their customers, which SRI believes adds costs and reduces customer contact.

The Company's sales process for new customers is typically six to eighteen months in duration from initial contact to a purchase commitment. The extended sales process is typically due to the complicated approval process within hospitals for purchases from new suppliers, the long duration of existing supply contracts, and implementation delays pending termination of a hospital's previous supply relationships. Conversely, SRI's high service level, quality products, and customer resistance to change help it retain existing customers. SRI believes that its new Surgical Express program for laparoscopy procedures will have shorter lead times, as experienced in the early months of its sales efforts.

SRI bills its customers weekly for its previous week's deliveries under service contracts or purchase orders. Consistent with industry custom, these contracts generally are cancelable by either party with 90 days notice, and customers may without penalty unilaterally reduce their use of the Company's services under these contracts. Surgical Express contracts will have longer terms, typically three to five years, with more stringent cancellation provisions. The Company does not have any order backlog because its products are generally delivered daily in response to customer orders. Surgical Express customers will be typically billed on a per procedure basis, rather than based on products delivered.

PRODUCTS

SRI's principal reusable surgical products are its liquidproof and liquid resistant surgical gowns, towels, drapes, and stainless steel basin sets. SRI offers these products in a variety of packs configured to the hospital's specific needs. Packs are comprised of various combinations of gowns, absorbent towels, liquidproof backtable covers, mayo stand covers, and stainless components.

The Company's liquidproof gown has GORE(R) Surgical Barrier Fabric in critical areas to provide protection for procedures which present a higher risk of liquid strike-through. This protection is critical to SRI's customers given continuing concerns of doctors, staff, and regulatory authorities regarding transmission of blood-borne pathogens, including the HIV and hepatitis viruses. The Gore Surgical Barrier fabric is a liquidproof, breathable material providing additional protection for the surgical staff while allowing for continued comfort during the longest procedures. The Company's liquid resistant gown is made of an advanced microfiber polyester fabric designed to resist liquid and bacterial strike-through in most surgical procedures. All of SRI's gowns and drapes offer the wearer both comfort and breathability, combined with a high level of protection from liquid penetration that SRI believes is superior to that offered by disposable products.

SRI contracts with third-party vendors for the weaving of microfiber fabric and the cutting and sewing of garments, wraps and drapes. The Company in August 1998 signed a ten-year sales and manufacturing agreement with Standard Textile Co., Inc., under which Standard Textile will manufacture the bulk of SRI's reusable textile products with fabric provided by W.L. Gore and other textile suppliers. The other components of the Company's products are currently available at reasonable costs from a variety of suppliers. To complement its reusable surgical products, the Company offers disposable accessory packs containing smaller surgical products, such as needles, syringes, and tubing. The Company develops these packs with its customers' cooperation to assure a desirable and cost-effective product mix. SRI purchases the products from major manufacturers, assembles the products in packs, arranges for ethylene oxide sterilization by a third party, and delivers them to customers on its carts with its reusable products.

SRI has in 2000 expanded its product offering to include selected reusable instruments. SRI offers laparoscopic instruments through its Surgical Express service for laparoscopic procedures. The service includes instruments, reusable textiles, and disposable products used in the procedure.

EMPLOYEES

As of December 31, 2000, SRI employed 1,089 people, consisting of 70 persons in management, administration and finance at its corporate office and 1,019 people in various positions at the Company's facilities. The Company's employees are not covered by a collective bargaining agreement. The Company considers its employee relations to be good.

COMPETITION

SRI competes with sellers of both reusable and disposable gowns, drapes, utensils, and other products for surgical procedures. This product market is dominated by disposables, especially custom procedure trays. SRI believes it is the leading provider of high quality reusable surgical gowns and drapes, and that with its Surgical Express Program, SRI effectively competes with suppliers of disposable custom procedure trays.

Unlike SRI, many of SRI's competitors offer full national coverage. Some of these competitors have much greater resources than the Company. The Company's principal competitors are Allegiance Corporation (a subsidiary of Cardinal Health, Inc.), which has a substantial market share, Maxxim Medical Inc., and Kimberly-Clark Corporation.

The Company competes based primarily on price, service, quality,

Edgar Filing: SRI SURGICAL EXPRESS INC - Form 10-K

process improvement, and its ability to save its customers waste disposal costs. The changing healthcare environment in recent years has led to increasingly intense competition among health care suppliers based on price, service, and product performance. Hospitals are seeking cost reductions in response to pressure from governments, insurance companies, and health maintenance organizations. The Company believes its high level of operating expertise significantly benefits it in offering a superior product at a competitive cost. Hospitals increasingly seek buying leverage by purchasing in integrated networks. SRI believes that competitive pressure in these areas will continue.

5

REGULATION

Substantially all of the Company's products and services are subject to extensive government regulation in the United States by federal, state and local governmental agencies, including the Food and Drug Administration (the "FDA"), the Department of Transportation ("DOT"), and the Occupational Safety and Health Administration ("OSHA").

The Company's reusable products are regulated as medical devices by the FDA, which regulates the development, production, distribution, and promotion of medical devices in the United States. Various states in which the Company does business also regulate medical devices. Pursuant to the Federal Food Drug and Cosmetics Act (the "FDA Act"), the Company's medical devices are subject to general controls regarding FDA inspections of facilities, "Current Good Manufacturing Practices ("cGMP's"), labeling, maintenance of records, and medical device reporting with the FDA. To the extent required, the Company has obtained FDA pre-market approval of its devices under Section 510(k) of regulations issued under the FDA Act, which provides for FDA approval on an expedited basis for products shown to be substantially equivalent to devices already cleared by the FDA and currently legally marketable in the United States. Products must be produced in establishments registered with the FDA and manufactured in accordance with cGMP's, as defined under the FDA Act. The cGMP requirements have been substantially revised and incorporated into what is now known as the "Quality System Regulation", or QSRs, (21 CFR Part 820). Since the QSRs were first issued on June 1, 1997, the focus of most routine FDA inspections has been compliance with these new regulations. In addition, the Company's medical devices must be initially listed with the FDA, and its labeling and promotional activities are subject to scrutiny by the FDA and, in certain instances, by the Federal Trade Commission. The Medical Device Reporting ("MDR") regulation obligates the Company to provide information to the FDA on injuries or deaths alleged to have been associated with the use of a product or in connection with certain product failures which could have caused serious injury or death. If the Company fails to comply with the applicable provisions of the FDA Act, the FDA may institute proceedings to detain or seize products, impose fines, enjoin future company activities, impose product labeling restrictions, or enforce product recalls or withdrawals from the market.

The Company and its hospital customers also must comply with regulations of OSHA, including the bloodborne pathogen rule requiring "universal precautions" be observed to minimize exposure to blood and other bodily fluids. To comply with these requirements, the Company's employees wear personal protective equipment when handling soiled linens in the facility's decontamination area. Properly used, the Company's products allow its hospital customers to protect their employees in compliance with these regulations. The Company must comply with local regulations governing the discharge of water used in its operations. The Company uses local licensed contractors to dispose of any biohazardous waste generated by the hospital and received by the Company and therefore does not need to obtain permits for biohazardous waste disposal. The Company must comply with DOT and OSHA regulations governing the transportation of hazardous materials, which include containing and labeling waste as well as

Edgar Filing: SRI SURGICAL EXPRESS INC - Form 10-K

reporting various discharges. The Company complies with these regulations by confining soiled products in marked liquidproof bags and locked, marked transfer carts. Sterilization of the Company's disposable accessory packs is provided by a third-party contractor. The use of ethylene oxide by that contractor in the sterilization of the Company's disposable accessory packs is subject to regulation by FDA, OSHA, and the Environmental Protection Agency.

In addition to the foregoing, other federal, state and local regulatory authorities, including those enforcing laws which relate to the environment, fire hazard control, and working conditions, have jurisdiction to take actions that could have a material adverse effect on the Company. The Company makes expenditures from time to time to comply with environmental regulations, but does not expect any material capital expenditures for environmental compliance in 2001.

CERTAIN CONSIDERATIONS

THIS REPORT, OTHER DOCUMENTS THAT ARE PUBLICLY DISSEMINATED BY THE COMPANY, AND ORAL STATEMENTS THAT ARE MADE ON BEHALF OF THE COMPANY CONTAIN OR MIGHT CONTAIN BOTH STATEMENTS OF HISTORICAL FACT AND FORWARD-LOOKING STATEMENTS. EXAMPLES OF FORWARD-LOOKING STATEMENTS INCLUDE: (I) PROJECTIONS OF REVENUE, EARNINGS, CAPITAL STRUCTURE, AND OTHER FINANCIAL ITEMS, (II) STATEMENTS OF THE PLANS AND OBJECTIVES OF THE COMPANY AND ITS MANAGEMENT, (III) STATEMENTS OF FUTURE ECONOMIC PERFORMANCE, AND (IV) ASSUMPTIONS UNDERLYING STATEMENTS REGARDING THE COMPANY OR ITS BUSINESS. THE CAUTIONARY STATEMENTS SET FORTH BELOW DISCUSS IMPORTANT FACTORS THAT COULD CAUSE ACTUAL RESULTS TO DIFFER MATERIALLY FROM ANY FORWARD-LOOKING STATEMENTS.

6

SALES PROCESS AND MARKET ACCEPTANCE OF PRODUCTS AND SERVICES. The Company's future performance depends on its ability to increase revenues from new and existing customers. The Company's sales process for new customers is typically between six and eighteen months in duration from initial contact to purchase commitment. The extended sales process is typically due to the complicated approval process within hospitals for purchases from new suppliers, the long duration of existing supply contracts, and implementation delays pending termination of a hospital's previous supply relationships. The long sales process inhibits the ability of the Company to quickly increase revenues from new and existing customers or enter new markets. SRI's future performance will also depend on market acceptance of its combination of reusable surgical products, disposable accessory packs, and direct delivery and retrieval service. See "Business--The Market."

NEED FOR CAPITAL. The Company's business is capital intensive and will require substantial capital expenditures for additional surgical products and equipment during the next several years to achieve its operating and expansion plans. To adequately service a new customer, SRI typically makes an investment in new reusable surgical products and carts of approximately 40% of the projected new annual revenue from the customer. The Company's inability to obtain adequate capital could have a material adverse effect on the Company. See "Management's Discussion and Analysis of Financial Condition and Results of Operations -- Liquidity and Capital Resources" and "Note G of Notes to Consolidated Financial Statements."

NEW PRODUCT OFFERING; DEPENDENCE ON A SUPPLIER. Surgical Express for Laparoscopy is a new product offering for the Company. The Company is in its initial stages of implementing the program and remains subject to a risk that the market will not broadly accept it. Further, the Company is relying on Aesculap, Inc. as its major source of supply of laparoscopic instruments for the program. The Joint Marketing Agreement between SRI and Aesculap provides for Aesculap to furnish instruments to the Company for at least three years, subject to terms and conditions stated in the agreement. Any failure of Aesculap to

Edgar Filing: SRI SURGICAL EXPRESS INC - Form 10-K

furnish instruments for any reason would materially adversely affect the Company's ability to implement this program.

DEPENDENCE ON A SIGNIFICANT CUSTOMER. During 2000, Premier Hospitals and HCA-The Healthcare Company hospitals accounted for approximately 20% and 12% of the Company's sales, compared to 23% and 11% in 1999, respectively. The Company has in each of its last five years continued to grow its business with Premier and HCA member hospitals. Although each Premier and HCA hospital currently makes its purchasing decisions on an individual basis, and no single hospital accounted for more than 7% of the Company's sales, the loss of a substantial portion of the Premier or Columbia hospitals' business would have a material adverse effect on the Company.

COMPETITION. The Company's business is highly competitive. Competitors include a number of distributors and manufacturers, as well as the in-house reprocessing operations of hospitals. Certain of the Company's existing and potential competitors possess substantially greater resources than the Company. Some of the Company's competitors, including Allegiance Corporation, serve as the sole supplier of a wide assortment of products to a significant number of hospitals. While the Company has a substantial array of surgical products, many of its competitors have a greater number of products for the entire hospital, which in some instances is a competitive disadvantage for the Company. There is no assurance that the Company will be able to compete effectively with existing or potential competitors. See "Business--Competition."

GOVERNMENT REGULATION. Significant aspects of the Company's businesses are subject to state and federal statutes and regulations governing, among other things, medical waste-disposal and workplace health and safety. In addition, most of the products furnished or sold by the Company are subject to regulation as medical devices by the U.S. Food and Drug Administration, as well as by other federal and state agencies. The Company's facilities are subject to quality systems inspections by FDA officials. The FDA has the power to enjoin future violations, seize adulterated or misbranded devices, require the manufacturer to remove products from the market, and publicize relevant facts. Federal or state governments might impose additional restrictions or adopt interpretations of existing laws that could materially adversely affect the Company.

7

ITEM 2. PROPERTIES

The Company operates eleven processing facilities that range in size between 20,000 and 57,000 square feet in Baltimore, Chattanooga, Cincinnati, Dallas, Detroit, Houston, Los Angeles, Raleigh, Salt Lake City, Stockton, and Tampa. Each facility contains a uniform set of computerized and fully automated heavy duty washers, dryers, and sterilizers to achieve consistent cleaning and sterilization cycles for reusable surgical products. The Company uses standard operating procedures at each facility, and regularly implements at all facilities efficiencies that have been developed and tested at one location.

The Company's properties and the major markets that they serve are summarized below. All of the properties are leased, except for the Cincinnati and Houston processing facilities. The Company also leases its Disposable Accessory Pack facility in Plant City, Florida, at which it assembles and packages surgical products into customer specific disposable accessory packs. The Company transports these disposable accessory packs to a third party facility for sterilization. The Company believes its existing facilities adequately serve its current requirements.

ITEM 3. LEGAL PROCEEDINGS

Neither the Company nor any of its property is subject to any litigation or other legal proceeding expected to have a material effect on the Company or its business.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

No matters were submitted to a vote of security holders during the fourth quarter of 2000.

Edgar Filing: SRI SURGICAL EXPRESS INC - Form 10-K

ITEM 5. MARKET FOR THE REGISTRANT'S COMMON EQUITY AND RELATED SHAREHOLDER MATTERS

The Company's Common Stock trades publicly on The Nasdaq National Market tier of the Nasdaq Stock Market under the symbol "STRC." The table below sets forth the high and low bid quotations for the Company's Common Stock from January 1, 1999 through December 31, 2000. These bid prices represent prices between dealers without adjustment for retail mark-ups, mark-downs, or commissions, and may not necessarily represent actual transactions.

COMMON STOCK PRICE RANGE

1999 ----	HIGH ----	LOW ---
First Quarter	\$12.250	\$ 9.500
Second Quarter	\$12.000	\$ 6.875
Third Quarter	\$12.250	\$ 7.625
Fourth Quarter	\$ 8.250	\$ 6.813
2000 ----		
First Quarter	\$ 7.250	\$ 3.875
Second Quarter	\$ 8.000	\$ 4.266
Third Quarter	\$13.875	\$ 7.625
Fourth Quarter	\$15.500	\$12.188

The Company has never declared or paid cash dividends on its Common Stock. The Company currently expects that its earnings will be retained for development and expansion, and does not anticipate paying dividends on its Common Stock in the foreseeable future. Financial covenants in the Company's credit facility prohibit the payment of cash dividends. See "Management's Discussion and Analysis of Financial Condition and Results of Operations--Liquidity and Capital Resources" and "Notes to Consolidated Financial Statements." On March 1, 2000, there were approximately 50 holders of record of the Common Stock.

On August 31, 1998, the Company acquired from Standard Textile Co., Inc. all the stock of RePak Surgical Enterprises, Inc. ("RePak") in exchange for 566,667 shares of its convertible Series A Preferred Stock. The Series A Preferred Stock is convertible by its holder at any time into the same number of shares of the Company's Common Stock. Under certain conditions, including the Company's Common Stock having an average closing trading price of \$18.00 per share for a specified time period, the Preferred Stock is mandatorily convertible into the Company's Common Stock. The Company's issuance of the Series A Preferred Stock to Standard Textile Co., Inc. was exempt from registration requirements under Section 4(2) of the Securities Act of 1933.

10

ITEM 6. SELECTED FINANCIAL DATA

The following table contains certain selected financial data and is qualified by the more detailed Consolidated Financial Statements and Notes thereto included elsewhere in this report. The selected financial data have been derived from the Company's audited financial statements. The following information should be read in conjunction with the Consolidated Financial Statements and Notes thereto and "Management's Discussion and Analysis of Financial Condition and Results of Operations" included elsewhere in this

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

OVERVIEW

The following discussion and analysis should be read in conjunction with the Company's Consolidated Financial Statements and the Notes thereto included elsewhere in this report. This discussion and analysis contains trend analysis and might contain forward-looking statements. These statements are based on current expectations and actual results might differ materially. Among the factors that could cause actual results to vary are those described in this "Overview" section and in "Business - Certain Considerations."

The Company's revenues are derived from providing hospitals and surgery centers with reusable gowns, towels, drapes, basins, and instruments for use in surgical procedures through a daily comprehensive surgical procedure-based delivery and retrieval system, and also from the sale of disposable surgical products that supplement its reusable surgical product service. The Company's revenue growth is primarily affected by the number of customers, the number and type of surgical procedures it services for each customer, and the pricing by type of surgical pack.

On August 31, 1998, the Company acquired all the shares of stock of RePak, a wholly owned subsidiary of Standard Textile Co., Inc., in exchange for 566,667 shares of its convertible Series A Preferred Stock. From a facility in the Cincinnati area, RePak provides the Ohio and Michigan markets with reusable surgical product services similar to the Company's reprocessing service. The Company also purchased the RePak facility's real estate for \$1.5 million cash from affiliates of Standard Textile. The Company merged RePak into the Company in January 2001. See "Note C of Notes to Consolidated Financial Statements."

On February 26, 1999, the Company acquired assets of NPAC, the reusable

Edgar Filing: SRI SURGICAL EXPRESS INC - Form 10-K

surgical product business of the textile rental segment of National Service Industries, Inc., for approximately \$604,000 cash, of which \$449,000 has been allocated to goodwill. Goodwill is amortized over 30 years. The Company has accounted for the acquisition as a purchase. NPAC's operating results are included in the Company's operating results since the date of acquisition. Pro forma results are not materially different from historical results and therefore are not presented.

12

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITIONS AND RESULTS OF OPERATIONS - (CONTINUED)

RESULTS OF OPERATIONS

The following table sets forth for the periods indicated the percentage of revenues represented by certain items reflected in the statements of income of the Company.

	YEARS ENDED DECEMBER 31,		
	2000	1999	1998
	-----	-----	-----
Revenues	100.0%	100.0%	100.0%

	=====	=====	=====

13

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - (CONTINUED)

YEAR ENDED DECEMBER 31, 2000 COMPARED TO YEAR ENDED DECEMBER 31, 1999

REVENUES

Edgar Filing: SRI SURGICAL EXPRESS INC - Form 10-K

Revenues increased \$9.2 million, or 13.4%, to \$77.8 million in 2000 from \$68.6 million in 1999. The revenue increases were attributable primarily to new customers in the Company's Surgical Express program, and were partially offset by the Company's elimination of relatively low margin business.

GROSS PROFIT

Gross profit increased \$3.2 million, or 14.8%, to \$24.8 million in 2000 from \$21.6 million in 1999. As a percentage of revenues, gross profit increased to 31.8% in 2000 from 31.5% in 1999. The increase in gross profit percentage reflects positive leverage of increased revenues.

DISTRIBUTION EXPENSES

Distribution expenses increased \$172,000 or 3.4%, to \$5.3 million in 2000 from \$5.1 million in 1999. As a percentage of revenues, distribution expenses decreased to 6.8% in 2000 from 7.5% in 1999. The decrease in distribution expenses as a percentage of revenues resulted primarily from the Company's realignment and consolidation of its truck routes made possible by its opening of two new facilities, and was partially offset by increased fuel costs.

SELLING AND ADMINISTRATIVE EXPENSES

Selling and administrative expenses increased \$1.5 million, or 15.7%, to \$11.2 million in 2000 from \$9.7 million in 1999. As a percentage of revenues, selling and administrative expenses increased to 14.4% in 2000 from 14.1% in 1999. The Company's sales and administrative expenses increased due to the sales and marketing expenses the Company is incurring to expand its product offering to include instruments and introduce its Surgical Express program, and due to expenses associated with the Company's new computer system.

INTEREST EXPENSE, NET

Interest expense increased \$867,000, or 282.4%, to \$1.2 million in 2000 from \$307,000 in 1999, primarily due to additional borrowings under the Company's revolving credit facility.

INCOME BEFORE INCOME TAX EXPENSE

As a result of the foregoing, the Company's income before income taxes increased to \$7.1 million in 2000, from \$6.5 million in 1999. As a percentage of revenues, income before income taxes was 9.1% of revenues in 2000 and 9.4% of revenues in 1999.

14

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION

AND RESULTS OF OPERATIONS - (CONTINUED)

INCOME TAX EXPENSE

Income tax expense remained the same at \$2.5 million for 2000 and 1999. The Company's effective tax rate is 34.8% for 2000 and 38.8% for 1999. The reduction of the Company's effective tax rate was due to state income tax credits that will not recur in 2001.

NET INCOME PER COMMON SHARE

The Company recorded net income per common share of \$0.73 on a diluted per share basis, and \$0.78 on a basic per share basis for 2000, compared with

Edgar Filing: SRI SURGICAL EXPRESS INC - Form 10-K

\$0.63 on a diluted per share basis and \$0.66 on a basic per share basis in 1999.

YEAR ENDED DECEMBER 31, 1999 COMPARED TO YEAR ENDED DECEMBER 31, 1998

REVENUES

Revenues increased \$16.3 million, or 31.1%, to \$68.6 million in 1999 from \$52.3 million in 1998. The revenue increases were attributable in roughly equal amounts to new customers and increased revenues from current customers. The Company also benefited from additional revenues from the RePak acquisition.

GROSS PROFIT

Gross profit increased \$4.6 million, or 27.1%, to \$21.6 million in 1999 from \$17.0 million in 1998. As a percentage of revenues, gross profit decreased to 31.5% in 1999 from 32.5% in 1998. The decline in gross profit percentage resulted from the Company's failure to grow revenues as expected in its third and fourth quarters of 1999, and from expenses incurred in opening and initiating operation of two new reprocessing facilities and a new disposable product facility, along with continued implementation costs of the Company's new information systems.

DISTRIBUTION EXPENSES

Distribution expenses increased \$1.3 million, or 35.2%, to \$5.1 million in 1999 from \$3.8 million in 1998. As a percentage of revenues, distribution expenses increased to 7.5% in 1999 from 7.2% in 1998. The increase in distribution expenses as a percentage of revenues resulted primarily from higher fuel costs and new truck routes added to serve new customers as the Company expanded its geographic reach.

SELLING AND ADMINISTRATIVE EXPENSES

Selling and administrative expenses increased \$2.6 million, or 37.3%, to \$9.7 million in 1999 from \$7.1 million in 1998. As a percentage of revenues, selling and administrative expenses increased to 14.1% in 1999 from 13.6% in 1998. Expenses increased due to the significant efforts that the Company made in 1999 to expand its product offering with instruments and to introduce its Surgical Express program. The increase in selling and administrative expenses as a percentage of revenues resulted primarily from expenses incurred by the Company in adding sales representatives and implementing its new information systems.

15

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - (CONTINUED)

INTEREST EXPENSE, NET

Interest expense increased \$255,000 to \$307,000 in 1999 from \$52,000 in 1998, primarily due to borrowings under the Company's revolving credit facility.

INCOME BEFORE INCOME TAX EXPENSE

As a result of the foregoing, the Company's income before income taxes increased to \$6.5 million in 1999, from \$6.1 million in 1998. As a percentage of revenues, income before income taxes was 9.4% of revenues in 1999 and 11.6% of revenues in 1998.

INCOME TAX EXPENSE

Edgar Filing: SRI SURGICAL EXPRESS INC - Form 10-K

Income tax expense increased \$110,000 to \$2.5 million in 1999 from \$2.4 million in 1998. The Company's effective tax rate was 38.8% for 1999 and 39.4% for 1998.

NET INCOME PER COMMON SHARE

The Company recorded net income per common share of \$0.63 on a diluted per share basis, and \$0.66 on a basic per share basis for 1999, compared with \$0.61 on a diluted per share basis and \$0.64 on a basic per share basis in 1998.

LIQUIDITY AND CAPITAL RESOURCES

The Company's principal sources of capital have been cash flows from operations, operating leases for facilities and distribution vehicles, and borrowings under its working capital loan facility.

The Company's positive cash flow provided by operating activities was approximately \$9.4 million in 2000, compared to approximately \$11.0 million in 1999. The decrease in cash from operating activities in 2000 resulted primarily from decreased accounts payable and increased inventories and accounts receivable, and was partially offset by increased net income before amortization, shrinkage and depreciation expense and other accrued expenses.

The Company used approximately \$2.2 million less net cash in investing activities in 2000 than in 1999. The Company in 2000 made capital expenditures for equipment of \$5.6 million and for reusable surgical products of \$9.6 million compared to \$6.3 million for equipment and \$10.9 million for reusable surgical products in 1999. These expenditures were funded from cash provided by operating activities and borrowings under the Company's revolving credit facility.

The Company continues to invest in more reusable surgical products, primarily to support anticipated increases in business. The Company's business is capital intensive and will require substantial capital expenditures for additional surgical products and equipment during the next several years to achieve operating and expansion plans. To adequately service a new customer, the Company estimates that it makes an investment in new reusable surgical products and carts equal to approximately 40% of the projected first year revenue from the customer. The Company estimates capital expenditures

16

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - (CONTINUED)

for new carts and reusable surgical products will be approximately \$800,000 per month for the next 12 months, although the amount will fluctuate with the growth of its business. The Company also made additional expenditures in 2000 of approximately \$3.1 million for equipment upgrades, including the addition of instrument reprocessing equipment and equipment to increase its facilities' aggregate capacity. In recent years, the Company has spent \$2.4 million in a continuing project to upgrade its technology software and related hardware, including \$344,000 in 2000 to substantially complete this project. The Company has spent \$3.9 million to expand and further equip its Cincinnati, Ohio facility, including \$1.6 million in 2000 to complete this project. In addition, the Company has spent approximately \$258,000 as of December 31, 2000, and expects to spend an additional \$1.4 million in 2001 for leasehold improvements for its new corporate offices located in Tampa, Florida.

The Company recently expanded its revolving credit facility with First

Edgar Filing: SRI SURGICAL EXPRESS INC - Form 10-K

Union National Bank to include two participating institutions, SouthTrust Bank and The Bankers Bank, and to increase the available amount from \$15.0 million to \$45.0 million, subject to terms and conditions in the credit agreement. As of December 31, 2000, the Company's outstanding balance under its revolving credit facility was approximately \$15.6 million.

The revolving facility is secured by substantially all of SRI's assets and has a maturity date of June 30, 2003. The facility's interest rate varies between 225 and 275 basis points over LIBOR (6.4390% as of December 31, 2000), depending on the Company's leverage. The credit facility requires the Company to maintain (a) minimum consolidated net worth of not less than \$37.0 million plus 75% of cumulative consolidated net income for each fiscal quarter beginning with the fiscal quarter ending March 31, 2000; (b) a consolidated leverage ratio of not more than 2.5 to 1.0; and (c) a fixed charge coverage ratio of 2.25 to 1.0 through December 31, 2002, and 2.35 to 1.0 thereafter. The credit facility restricts the Company in paying dividends, engaging in acquisition transactions, incurring additional indebtedness, and encumbering its assets.

The revolving credit facility allows the Company to repurchase up to \$5 million of its stock from time to time through open market purchases at prevailing market prices. As of December 31, 2000, the Company had repurchased 35,900 shares of its common stock, valued at approximately \$549,000.

As of February 1, 1999, the Company entered into a \$10.6 million lease agreement for two new processing facilities in Stockton, California and Chattanooga, Tennessee. The lease terms are for three years. The Company guarantees all lease payments and a substantial residual value for the facilities when the lease terms end. The lease terms can be extended upon approval of the Company and the lessor. Each lease agreement includes a purchase option for the Company at the original cost of each leased facility. The Company accounts for these leases as operating leases.

As of December 31, 2000, the Company had cash of approximately \$132,000. The Company believes that its cash flows from operating activities and funds available under its credit facility will be sufficient to fund its growth and anticipated capital requirements for the next twelve months. See "Business - Certain Considerations--Need for Capital."

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company does not have any material market risk sensitive financial instruments.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

17

REPORT OF INDEPENDENT AUDITORS

Board of Directors
SRI/Surgical Express, Inc.

We have audited the accompanying consolidated balance sheets of SRI/Surgical Express, Inc. as of December 31, 2000 and 1999, and the related consolidated statements of income, shareholders' equity, and cash flows for each of the two years in the period ended December 31, 2000. Our audits also included the financial statement schedule listed in the index at Item 14(a) for each of the two years in the period ended December 31, 2000. These financial statements and schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and

Edgar Filing: SRI SURGICAL EXPRESS INC - Form 10-K

schedule based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of SRI/Surgical Express, Inc. at December 31, 2000 and 1999, and the consolidated results of its operations and its cash flows for each of the two years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States. Also, in our opinion, the related financial statement schedule, when considered in relation to the basic financial statements taken as a whole, presents fairly, in all material respects the information set forth therein.

18

REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

Board of Directors
SRI/Surgical Express, Inc.

We have audited the accompanying consolidated statements of income, shareholders' equity and cash flows of SRI/Surgical Express, Inc. for the year ended December 31, 1998. Our audit also included the financial statement schedule listed in the Index at Item 14(a). These financial statements and schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and schedule based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit also includes examining on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the results of the consolidated operations and cash flows of SRI/Surgical Express, Inc for the year ended December 31, 1998, in conformity with accounting principles generally accepted in the United States of America. Also, in our opinion, the related financial statement schedule, when considered in relation to the basic financial statements taken as a whole, presents fairly in all material respects the information set forth therein.

SRI/SURGICAL EXPRESS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE A--DESCRIPTION OF ORGANIZATION AND BUSINESS

SRI/Surgical Express, Inc. ("SRI" or the "Company"), formerly Sterile Recoveries, Inc., provides hospitals and surgery centers in 25 states with a comprehensive surgical procedure-based delivery and retrieval service for reusable gowns, towels, drapes, basins, and instruments, and additionally, provides disposable products necessary for surgery. At eleven regional facilities, SRI collects, sorts, cleans, inspects, packages, sterilizes and

Edgar Filing: SRI SURGICAL EXPRESS INC - Form 10-K

delivers its reusable products on a just-in-time basis. The Company operates in a single industry segment.

NOTE B--SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

PRINCIPLES OF CONSOLIDATION

The consolidated financial statements include the accounts of the Company and its subsidiaries, all of which are wholly-owned. All significant intercompany accounts and transactions have been eliminated in consolidation.

FINANCIAL STATEMENT PRESENTATION

The Company operates on a 52-53 week fiscal year ending the Sunday nearest December 31. The financial statements reflect the Company's year-end as December 31 for presentation purposes. There were 52 weeks in 2000, 53 weeks in 1999, and 52 weeks in 1998.

USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

CASH AND CASH EQUIVALENTS

The Company considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

CONCENTRATION OF CREDIT RISK

The Company has accounts receivable from hospitals and surgery centers. The Company does not believe that there are substantial credit risks associated with those receivables. The Company does not require any form of collateral from the hospitals and surgery centers. The allowance for doubtful accounts as of December 31, 2000 and 1999 was approximately \$106,000 and \$90,000, respectively.

For the years ended December 31, 2000, 1999 and 1998, revenues from two hospital groups (Premier Hospitals and HCA-The Healthcare Company) accounted for approximately 32%, 34% and 39% of the Company's revenues, respectively. No single hospital or surgery center accounted for more than 7% of the Company's revenues for the years ended December 31, 2000, 1999 and 1998, respectively.

INVENTORIES

Inventories, consisting principally of consumables, supplies, and disposable surgical products, are valued at the lower of cost or market, with cost being determined on the first-in, first-out method. As of December 31, 2000 and 1999, the Company had a reserve for slow-moving inventory and obsolescence of approximately \$284,000 and \$107,000, respectively.

SRI/SURGICAL EXPRESS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - (CONTINUED)

REUSABLE SURGICAL PRODUCTS

Edgar Filing: SRI SURGICAL EXPRESS INC - Form 10-K

Reusable surgical products are stated at cost. Amortization is computed on a basis similar to the units of production method. Estimated useful lives are based on the estimated total number of available uses for each product. The expected total available usage for its products using the three principal fabrics (accounting for 85% of its products) are 75, 100, and 125 uses based on several factors. Accumulated amortization as of December 31, 2000 and 1999 was approximately \$10.2 million and \$8.5 million, respectively.

As of December 31, 2000 and 1999, the Company had reserves for shrinkage and obsolescence of approximately \$1.2 million and \$799,000, respectively.

PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment are stated at cost. Depreciation and amortization is computed by the straight-line method over the estimated useful lives of the assets, or the term of the related leases for leasehold improvements.

GOODWILL

Goodwill from acquisitions is stated at cost. Amortization is computed by the straight-line method over a period of 20 to 30 years. For the years ended December 31, 2000, 1999 and 1998, amortization of goodwill was approximately \$218,000, \$202,000 and \$83,000, respectively. Accumulated amortization as of December 31, 2000 and 1999 was approximately \$556,000 and \$338,000, respectively.

On a quarterly basis, the Company evaluates the projected undiscounted cash flows of each business unit to determine, when indicators of impairment are present, whether or not there has been permanent impairment of its long-lived assets, and accrues expenses for the amount, if any, determined to be permanently impaired. No impairment exists for all years presented.

REVENUE RECOGNITION

Revenues are recognized as the agreed upon services are delivered, generally daily. The Company's revenues are principally generated from service agreements with varying terms of one to five years, which are cancelable by either party, generally with a 90-day notice.

Substantially all of the reusable surgical products provided to a customer are owned by the Company. Certain reusable instruments that are included in the comprehensive surgical procedure-based delivery and retrieval service are provided to the Company by a third party agent for a fee. In accordance with Emerging Issues Task Force No. 99-19 REPORTING REVENUE GROSS AS A PRINCIPAL VERSUS NET AS AN AGENT, management has concluded that the Company is acting as a principal in this arrangement and has reported the revenue gross for the comprehensive surgical procedure-based delivery and retrieval service. The fee charged by the third party agent to the Company is included in cost of revenues in the Company's consolidated statements of income.

INCOME TAXES

Income taxes have been provided using the liability method in accordance with Statement of Financial Accounting Standards No. 109 ACCOUNTING FOR INCOME TAXES.

Edgar Filing: SRI SURGICAL EXPRESS INC - Form 10-K

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - (CONTINUED)

FAIR VALUE OF FINANCIAL INSTRUMENTS

The carrying amounts of cash, cash equivalents, accounts payable, and accrued expenses approximate fair value because of the short-term nature of these items. The fair value of the Company's long-term debt approximates its carrying amount as the interest rates change with market interest rates.

NET INCOME PER COMMON SHARE

Basic net income per share is calculated by dividing net income available for common shareholders by the weighted average number of common shares outstanding during the period. Diluted net income per share is calculated by dividing net income by the weighted average number of common and potential common shares outstanding during the period. Potential common shares consist of the dilutive effect of outstanding options, calculated using the treasury stock method and convertible preferred stock, calculated using the if-converted method.

STOCK-BASED COMPENSATION

The Company accounts for stock-based compensation arrangements under the provisions of Accounting Principles Board Opinion No. 25 ACCOUNTING FOR STOCK ISSUED TO EMPLOYEES (APB 25). In 1995, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 123 ACCOUNTING FOR STOCK-BASED COMPENSATION (SFAS 123). Under SFAS 123, the Company may elect to recognize stock-based compensation expense based on the fair value of the awards or continue to account for stock-based compensation under APB 25, and disclose in the consolidated financial statements the effects of SFAS 123 as if the recognition provisions were adopted.

RECENTLY ISSUED ACCOUNTING STANDARDS

The Company has adopted in 1998 Statement of Position 98-1 ACCOUNTING FOR THE COSTS OF COMPUTER SOFTWARE DEVELOPED OR OBTAINED FOR INTERNAL USE (SOP 98-1). This SOP segments an internal use software project into stages and accounts for the project's costs based on the stage in which the costs are incurred. Specified costs for each application development stage are capitalized if the preliminary project stage is complete, management authorized the project, and completion of the project is probable. Capitalizable costs of internal-use software projects consist of (1) external direct costs of materials and services used to develop or purchase internal-use software, (2) payroll and payroll-related costs for time spent directly on the project by employees directly associated with the internal-use software project, and (3) interest costs incurred during the development of internal use software. The Company's adoption of this pronouncement did not materially impact its financial statements. The Company's policy was to capitalize internal-use software costs. Accordingly, to upgrade its technology software and related hardware, the Company capitalized approximately \$2.4 million, including \$344,000 in 2000 as it completed this project. The Company amortizes these costs over five years.

In June 1998, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards No. 133 ACCOUNTING FOR DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES. In June 2000, FASB issued Statement of Financial Accounting Standards No. 138 ACCOUNTING FOR CERTAIN DERIVATIVE INSTRUMENTS AND CERTAIN HEDGING ACTIVITIES - AN AMENDMENT OF FASB STATEMENT NO. 133. These statements require all derivatives to be recorded on the balance sheet at fair market value and establishes new accounting rules for hedging instruments, and are effective for fiscal years beginning after June 15, 2000. The Company currently does not have any derivative instruments and is not

Edgar Filing: SRI SURGICAL EXPRESS INC - Form 10-K

involved in hedging activities and therefore does not expect these Statements to have an impact on its results of operations or financial position.

COMPREHENSIVE INCOME

In June 1997, the FASB issued Statement of Financial Accounting Standards No. 130 REPORTING COMPREHENSIVE INCOME (SFAS 130). SFAS 130 requires that total comprehensive income and comprehensive income per share be disclosed with equal prominence as net income and earnings per share. Comprehensive income is defined

26

SRI/SURGICAL EXPRESS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - (CONTINUED)

as changes in stockholders' equity exclusive of transactions with owners such as capital contributions and dividends and specifically excluded items such as deferred compensation. The Company adopted this Standard in 1998. The Company did not report any items of other comprehensive income in any of the years presented.

RECLASSIFICATIONS

Certain prior year amounts have been reclassified in order to conform to the 2000 presentation.

NOTE C--BUSINESS COMBINATIONS

On February 26, 1999, the Company acquired assets of NPAC, the reusable surgical product business of the textile rental segment of National Service Industries, Inc., for approximately \$604,000 cash, of which \$449,000 has been allocated to goodwill. Goodwill is amortized over 30 years. The Company has accounted for the acquisition as a purchase. NPAC's operating results are included in the Company's operating results since the date of acquisition. Pro forma results are not materially different from historical results and therefore are not presented.

On August 31, 1998, the Company acquired all the stock of RePak Surgical Enterprises, Inc. ("RePak"), a wholly owned subsidiary of Standard Textile Co., Inc. ("Standard Textile"), in exchange for 566,667 shares of its convertible Series A Preferred Stock. The Company also purchased the RePak facility's real estate for \$1.5 million cash from Standard Textile's affiliates. The Company has accounted for the acquisition as a purchase. RePak's operating results are included in the Company's operating results since the date of acquisition. Of the approximately \$8.6 million total costs it incurred to complete the acquisition, the Company allocated approximately \$4.7 million to tangible assets, assumed approximately \$760,000 in liabilities, and allocated approximately \$4.7 million to goodwill. In January 2001, the Company merged RePak into the Company.

The following unaudited pro forma results of operations for the year ended December 31, 1998 assumes the RePak acquisition described above had occurred January 1, 1998, and does not purport to show the results that actually would have occurred if the acquisition was made as of that date or results that might occur in the future.

YEAR ENDED DECEMBER 31, 1998

		-----	-----
		\$19,979,257	\$16,664,0
		=====	=====

For the years ended December 31, 2000, 1999 and 1998, depreciation and amortization expense was approximately \$2.3 million, \$1.5 million, and \$984,000, respectively.

NOTE E- NOTES PAYABLE TO BANK

The Company's outstanding balance under its revolving credit facility with First Union National Bank was approximately \$15.6 million and \$8.9 million as of December 31, 2000 and December 31, 1999, respectively.

The Company recently expanded its revolving credit facility with First Union National Bank to include two participating institutions, SouthTrust Bank and The Bankers Bank, and to increase the available amount from \$15.0 million to \$45.0 million, subject to terms and conditions in the credit agreement.

The revolving facility is secured by substantially all of SRI's assets and has a maturity date of June 30, 2003. The facility's interest rate varies between 225 and 275 basis points over LIBOR (6.4390% as of December 31, 2000), depending on the Company's leverage. The credit facility requires the Company to maintain (a) minimum consolidated net worth of not less than \$37.0 million plus 75% of cumulative consolidated net income for each fiscal quarter beginning with the fiscal quarter ending March 31, 2000; (b) a consolidated leverage ratio of not more than 2.5 to 1.0; and (c) a fixed charge coverage ratio of 2.25 to 1.0 through December 31, 2002, and 2.35 to 1.0 thereafter. The credit facility restricts the Company in paying dividends, engaging in acquisition transactions, incurring additional indebtedness, and encumbering its assets.

Edgar Filing: SRI SURGICAL EXPRESS INC - Form 10-K

The revolving credit facility allows the Company to repurchase up to \$5 million of its stock from time to time through open market purchases at prevailing market prices. As of December 31, 2000, the Company had repurchased 35,900 shares of its common stock, valued at approximately \$549,000.

For the years ended December 31, 2000, 1999 and 1998, interest expense was approximately \$1.3 million, \$320,000, and \$100,000, respectively.

28

SRI/SURGICAL EXPRESS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - (CONTINUED)

NOTE F--COMMITMENTS AND CONTINGENCIES

OPERATING LEASES

The Company leases offices, facilities, office equipment, and distribution vehicles under non-cancellable operating leases with terms ranging from one year to nine years. The office and processing facility leases contain various renewal options and escalating payments. At present, the Company intends to exercise certain aspects of these renewal options when the initial terms expire. The vehicle leases contain contingent rentals based on mileage.

Future minimum lease payments as of December 31, 2000 under leases in excess of one year are as follows:

YEAR ENDING DECEMBER 31

2001	\$ 4,163,000
2002	4,570,000
2003	4,516,000
2004	4,598,000
2005	4,791,000
Thereafter	2,151,000

Total	\$24,789,000
	=====

Rental expense for the years ended December 31, 2000, 1999 and 1998 totaled approximately \$4.1 million, \$3.0 million, and \$1.7 million (including contingent rentals of approximately \$267,000, \$293,000, and \$237,000), respectively.

As of February 1, 1999, the Company entered lease arrangements totaling \$10.6 million for two new processing facilities in Stockton, California and Chattanooga, Tennessee. The lease terms are for three years. The Company guarantees all lease payments and a substantial residual value for the facilities when the lease terms end. The lease terms can be extended upon approval of the Company and the lessor. Each lease agreement includes a purchase option for the Company at the original cost of each leased facility. The Company accounts for these leases as operating leases. For the years ended December 31, 2000 and 1999, lease expense was approximately \$629,000 and \$191,000 for the two facilities, respectively. In addition, the Company has spent approximately \$258,000 as of December 31, 2000, and expects to spend an additional \$1.4 million (unaudited) in 2001 for leasehold improvements for its new corporate offices located in Tampa, Florida.

PURCHASE AGREEMENT WITH STANDARD TEXTILE

Edgar Filing: SRI SURGICAL EXPRESS INC - Form 10-K

In conjunction with the RePak acquisition, the Company signed a procurement agreement with Standard Textile under which the Company agreed to purchase 80% of its reusable surgical products from Standard Textile. The Company's management believes that Standard Textile's prices are and will be comparable to prices available from other vendors. Standard Textile's President and Chief Executive Officer became a director of the Company on August 31, 1998. A significant percentage of the Company's business is dependent on its ability to obtain a key component of its liquid-proof surgical products from one principal vendor.

LEGAL PROCEEDINGS

Neither the Company nor any of its property is subject to any litigation or other legal proceedings expected to have a material effect on the Company or its business.

29

SRI/SURGICAL EXPRESS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - (CONTINUED)

MANAGEMENT INCENTIVE PLAN

The Company has a Management Incentive Plan, the incentives of which are based on various performance factors and are adjusted to reflect the Company's overall performance as determined by the Board of Directors. Payment of the cash incentives is made at the end of the second month after the end of the incentive year. The participant must still be an employee of the Company at that time. Approximately \$483,000, \$200,000, and \$212,000 of incentives were recognized during the years ended December 31, 2000, 1999 and 1998, respectively.

MANAGEMENT EMPLOYMENT AGREEMENTS

The Company has employment agreements with three executives that provide for each person to receive severance pay equal to two years of base salary if the executive is terminated following a change in control of the Company.

NOTE G--INCOME TAX

The provisions for income taxes for the years ended December 31 were as follows:

	2000	1999	1998
	-----	-----	-----

SRI/SURGICAL EXPRESS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - (CONTINUED)

NOTE H--SHAREHOLDERS' EQUITY COMMON STOCK

Subject to preferences which might be applicable to the Company's outstanding Preferred Stock, the holders of the Common Stock are entitled to receive dividends when, as, and if declared from time to time by the Board of Directors out of funds legally available. In the event of liquidation, dissolution, or winding-up of the Company, holders of the Common Stock are entitled to share ratably in all assets remaining after payment of liabilities subject to prior distribution rights of any Preferred Stock then outstanding. The Common Stock has no preemptive or conversion rights and is not subject to call or assessment by the Company. There are no redemption or sinking fund provisions applicable to the Common Stock.

CONVERTIBLE PREFERRED STOCK

The Company is authorized to issue 5,000,000 shares of Preferred Stock, \$.001 par value per share. The Board of Directors has the authority, without any further vote or action by the Company's shareholders, to issue Preferred Stock in one or more series and to fix the number of shares, designations, relative rights (including voting rights), preferences, and limitations of those series to the full extent now or hereafter permitted by Florida law.

On August 31, 1998, the Company acquired from Standard Textile all the stock of Repak. Standard Textile received in this transaction 566,667 shares of the Company's Series A Preferred Stock, which is convertible by its holder at any time into the same number of shares of the Company's Common Stock. Under

Edgar Filing: SRI SURGICAL EXPRESS INC - Form 10-K

certain conditions, including the Company's Common Stock having an average closing trading price of \$18.00 per share for a specified time period, the Series A Preferred Stock is mandatorily convertible into the Company's Common Stock. The Series A Preferred Stock accrues a 2% dividend, payable quarterly, until the earlier of September 2004 or the date that it is converted into Common Stock.

NOTE I--STOCK OPTIONS

The Company maintains three stock option plans, the 1995 Stock Option Plan, the 1996 Non-Employee Director Plan, and the 1998 Stock Option Plan.

THE 1995 STOCK OPTION PLAN

The 1995 Stock Option Plan provides employees with incentive or non-qualified options to purchase up to 700,000 shares of Common Stock. The options vest ratably over four to five years from the date of the grant. All outstanding options vest upon a change in control of the Company. Options granted under this Plan expire no later than ten years after the date granted or sooner in the event of death, disability, retirement or termination of employment. As of December 31, 2000, options to purchase 678,100 shares were outstanding under this Plan.

THE 1998 STOCK OPTION PLAN

The 1998 Stock Option Plan provides employees with incentive or non-qualified options to purchase up to 300,000 shares of Common Stock. The options vest ratably over four to five years from the date of the grant. All outstanding options vest upon a change in control of the Company. Options granted under this Plan expire no later than ten years after the date granted or sooner in the event of death, disability, retirement or termination of employment. As of December 31, 2000, options to purchase 164,000 shares were outstanding under this Plan.

THE NON-EMPLOYEE PLAN

The Non-Employee Plan provides for the grant of non-qualified stock options to purchase up to 100,000 shares of Common Stock to members of the Board of Directors who are not employees of the Company. At the completion of its initial public offering, each non-employee director was granted options to purchase 4,000 shares of Common Stock for each full remaining year of the director's term. Thereafter, on the date on which a new non-

31

SRI/SURGICAL EXPRESS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - (CONTINUED)

employee director is first elected or appointed, he or she is automatically granted options to purchase 4,000 shares of Common Stock for each year of his initial term, and will be granted options to purchase 4,000 shares of Common Stock for each year of any subsequent term to which he is elected. All options become exercisable ratably over the director's term and have an exercise price equal to the fair market value of the Common Stock on the date of grant. As of December 31, 2000, options to purchase 71,500 shares were outstanding under this Plan.

OTHER STOCK OPTIONS

In October 1995, 66,000 non-qualified stock options were granted to a former officer and former director of the Company. The options are fully vested,

Edgar Filing: SRI SURGICAL EXPRESS INC - Form 10-K

and have an exercise price of \$4.43 per share.

In November 1997, 20,000 non-qualified stock options were granted to a former officer and former director of the Company. The options vest ratably over five years, and have an exercise price of \$15.06 per share.

If the Company had elected to recognize compensation expense based upon the fair value at the grant date for awards under these plans consistent with the methodology prescribed by SFAS 123, the Company's net income and earnings per share would be reduced to the pro forma amounts indicated below:

		YEARS ENDED DECEMBER 31,		
		2000	1999	1998
		-----	-----	-----
Net income	As reported	\$ 4,620	\$ 3,954	\$ 3,686
	Pro forma	\$ 3,932	\$ 2,973	\$ 2,991
Basic net income per share	As reported	\$ 0.78	\$ 0.66	\$ 0.64
	Pro forma	\$ 0.66	\$ 0.49	\$ 0.52
Diluted net income per share	As reported	\$ 0.73	\$ 0.63	\$ 0.61
	Pro forma	\$ 0.62	\$ 0.47	\$ 0.50

The fair value of each option grant is estimated on the date of grant using the Binomial options-pricing model with the following weighted-average assumptions used for grants in the years ended December 31, 2000, 1999 and 1998, respectively, no dividend yield for all years, expected volatility of 69%, 61% and 53%; risk-free interest rates of 7.0%, 7.5%, and 6.0%, and expected lives of 4.1, 4.0, and 4.0 years. The weighted average fair value of options granted during the years ended December 31, 2000, 1999 and 1998 were \$4.46, \$5.91, and \$7.89, respectively.

32

SRI/SURGICAL EXPRESS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - (CONTINUED)

A summary of the status of the Company's fixed stock option plan as of December 31, 2000, 1999 and 1998, and changes during the years ended on those dates is presented below:

	OPTIONS	WEIGHTED AVERAGE EXERCISE PRICE
	-----	-----
Outstanding as of December, 31, 1997	631,200	\$ 11.17
Granted	132,500	\$ 17.26
Exercised	(4,900)	\$ 2.98
Forfeited	(55,800)	\$ 13.26
	-----	-----
Outstanding as of December 31, 1998	703,000	\$ 12.21

Edgar Filing: SRI SURGICAL EXPRESS INC - Form 10-K

Granted	216,000	\$ 11.18
Exercised	(12,000)	\$ 7.68
Forfeited	(14,500)	\$ 14.86
	-----	-----
Outstanding as of December 31, 1999	892,500	\$ 11.98
Granted	229,000	\$ 7.69
Exercised	(1,000)	\$ 11.44
Forfeited	(128,900)	\$ 12.10
	-----	-----
Outstanding as of December, 31, 2000	991,600	\$ 10.97
	=====	=====

The following table summarizes information concerning outstanding and exercisable stock options as of December 31, 2000:

RANGE OF EXERCISE PRICES	NUMBER OUTSTANDING	WEIGHTED AVERAGE REMAINING CONTRACTUAL LIFE (YEARS)	WEIGHTED AVERAGE EXERCISE PRICE
-----	-----	-----	-----
\$ 4.43 - 5.85	272,000	5.9	\$ 5.45
\$ 5.86 - 9.50	239,000	4.9	\$ 8.92
\$ 9.51 - 17.50	381,100	6.2	\$14.37
\$17.51 - 19.00	99,500	7.3	\$18.01
	-----		-----
	991,600		\$10.97
	=====		=====
EXERCISABLE SHARES			
\$ 4.43 - 5.85	134,000		\$ 5.15
\$ 5.86 - 9.50	171,300		\$ 9.40
\$ 9.51 - 17.50	179,699		\$15.31
\$17.51 - 19.00	39,800		\$18.01
	-----		-----
	524,799		\$10.99
	=====		=====

At December 31, 1999 and 1998, exercisable options totaled 368,299 and 263,400 at weighted average exercise prices of \$10.25 and \$8.85, respectively.

NOTE J-EARNINGS PER SHARE

The following table sets forth the computation of basic and diluted earnings per share:

	YEARS ENDED DECEMBER 31,	
	2000	1999
	-----	-----

Edgar Filing: SRI SURGICAL EXPRESS INC - Form 10-K

BASIC

Numerator:		
Net income	\$ 4,619,616	\$ 3,954,310
Less effect of dividends of preferred stock	(204,000)	(207,923)
	-----	-----
Net income available for common shareholders	\$ 4,415,616	\$ 3,746,387
	=====	=====
Denominator:		
Weighted average shares outstanding	5,673,396	5,676,160
	=====	=====
Net income per common share - basic	\$ 0.78	\$ 0.66
	=====	=====

DILUTED

Numerator:		
Net income	\$ 4,619,616	\$ 3,954,310
	=====	=====
Denominator:		
Weighted average shares outstanding	5,673,396	5,676,160
Effect of dilutive securities:		
Employee stock options	119,750	79,276
Convertible preferred stock	566,667	566,667
	-----	-----
	6,359,814	6,322,103
	=====	=====
Net income per common share - diluted	\$ 0.73	\$ 0.63
	=====	=====

Options to purchase 666,600, 538,870 and 371,000 shares of common stock were not included for all or a portion of the years ended December 31, 2000, 1999 and 1998 computation of diluted net income per common share, respectively, as the options' exercise prices were greater than the average market price of the common shares and therefore the effect would be anti-dilutive.

NOTE K - 1999 EMPLOYEE BENEFIT PLAN

Effective February 1, 1999, the Company sponsors the SRI/Surgical Express, Inc. 401(k) Plan (the "Plan"), a defined contribution plan established under Section 401(k) of the U.S. Internal Revenue Code. Employees are eligible to contribute voluntarily to the Plan after one year of continued service, satisfying 1,000 hours of service, and attaining age 21. At its discretion, the Company may contribute 25% of the first 4% of the employee's contribution. The Plan allows for employee elective contributions up to an amount equivalent to 15% of salary. Employees are always vested in their contributed balance and vest ratably in the Company's contribution over six years. For the years ended December 31, 2000 and 1999, the Company expense related to the Plan was approximately \$96,000 and \$89,000, respectively.

NOTE L-RELATED PARTY TRANSACTIONS

During the years ended December 31, 2000, 1999 and 1998, the Company paid \$33,000, \$394,000, and \$24,000, respectively, to a company to design and supply the components for water reclamation systems for SRI facilities. A director and shareholder of the Company owns the business providing these services to SRI.

Edgar Filing: SRI SURGICAL EXPRESS INC - Form 10-K

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - (CONTINUED)

During the years ended December 31, 2000, 1999 and 1998, the Company paid approximately \$42,000, \$73,000, and \$76,000, respectively, to two law firms. A member of each law firm was a shareholder of the Company when these services were rendered.

During the years ended December 31, 2000 and 1999, the Company paid approximately \$10.9 million and \$7.4 million, respectively, to a company for the purchase of reusable surgical products. This firm is owned and managed by a director and shareholder of the Company. As of December 31, 2000 and 1999, the Company had accounts payable to that company of approximately \$1.0 million and \$2.6 million, respectively.
