Report of Independent Auditors

The Employee Benefits Committee
Sprint Corporation

We have audited the accompanying statements of net assets available for benefits of the Sprint Retirement Savings Plan for Bargaining Unit Employees (the Plan) as of December 31, 2002 and 2001, and the related statements of changes in net assets available for benefits for each of the three years in the period ended December 31, 2002. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2002 and 2001, and the changes in its net assets available for benefits for each of the three years in the period ended December 31, 2002, in conformity with accounting principles generally accepted in the United States.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedules listed in the index to the financial statements are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in our audits of the financial statements and, in our opinion, are fairly stated in all material respects in relation to the financial statements taken as a whole.

SPRINT RETIREMENT SAVINGS PLAN FOR BARGAINING UNIT EMPLOYEES
NOTES TO FINANCIAL STATEMENTS
December 31, 2002

1. DESCRIPTION OF THE PLAN

The following brief description of the Sprint Retirement Savings Plan for Bargaining Unit Employees (the Plan) provides only general information. Participants should refer to the Plan document and the summary plan description for more complete information.

General

The Plan is a defined contribution plan established by Sprint Corporation ("Sprint" or the "Company") and adopted by a number of its subsidiaries that provide local telecommunications services.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

Edgar Filing: SPRINT CORP - Form 11-K

Participation in the Plan is voluntary. Individuals who are represented by a collective bargaining unit that has negotiated for benefits under the Plan and who are employed by the Company or one of its adopting subsidiaries are eligible to participate upon date of hire. Employees of the Company or one of its subsidiaries which are not eligible to participate in the Plan may be eligible to participate in one of other similar plans established by the Company.

Contributions

Participants can contribute a portion of their salary or wages to a pre-tax account up to the maximum amount designated in their collective bargaining agreement under which they are covered. This amount is referred to as the basic contribution. Federal income taxes are deferred on these amounts contributed to the pre-tax accounts until the funds are withdrawn from the Plan.

Pre-tax participant contributions may not exceed annual limitations defined in the Internal Revenue Code (Code) of \$11,000 for the 2002 plan year and \$10,500 for both the 2001 and the 2000 plan years. The percentage that can be contributed by participants who meet the definition of a highly compensated employee as defined in the Code is periodically recomputed in order to maintain compliance with the nondiscrimination provisions of the Code. Previously, certain participants were allowed to make after-tax contributions when so provided. Currently contributions are allowed to only the pre-tax account. Subject to certain limitations and restrictions, the Plan permits participants to make rollover contributions from other plans qualified under Section 401 of the Code.

The Company makes a matching contribution to the Plan in an amount which, together with forfeitures of the Company contribution due to participants' withdrawals, equals the total of the Company contribution as required under the applicable collective bargaining agreements.

Contributions are made in Company common stocks with a market value equal to the Company contribution requirement.

SPRINT RETIREMENT SAVINGS PLAN FOR BARGAINING UNIT EMPLOYEES
NOTES TO FINANCIAL STATEMENTS
December 31, 2002

1. DESCRIPTION OF THE PLAN (Continued)

Contributions (Continued)

Effective the first quarter of the 2000 plan year, the allocation of the Company matching contribution is subject to change based on the relative market capitalization of FON and PCS stocks. During the 2001 plan year, the Company contribution invested in FON stock ranged from 43% to 51% and the company matching contribution invested in PCS stock ranged from 49% to 57%. During the 2002 plan year, the company contribution invested in FON stock ranged from 43% to 68% and the company matching contribution invested in PCS stock ranged from 32% to 57%. The allocation changes on a quarterly basis based on the relative market capitalization.

If so provided in the applicable collective bargaining agreement, the Plan provides that the Company may make an optional additional Company contribution.

Edgar Filing: SPRINT CORP - Form 11-K

The amount of this additional contribution, if any, will be based on a quarterly comparison of the performance of the Company's common stocks with the performance of common stocks of other telecommunications companies.

Effective March 2002, participants can choose to receive Sprint FON dividends as taxable payments annually on vested FON company matching contributions and pre-2002 employee FON contributions.

In 2002, catch-up contributions were made available to collective bargaining units that negotiated for this benefit. Participants who were age 49 (or older) on December 31, 2001 and who were making the maximum elective contribution for the year were eligible to make an additional \$1,000 in pre-tax contributions to their Plan Account.

Investment Funds

Participants may direct their contributions into any of twenty-five funds among the Growth Stock Funds, Dividend Growth Stock Fund, Balanced Stock Funds, Money Market Fund, Bond Funds, International Equity Funds, Small Capitalization Growth Stock Fund, Small Capitalization Value Stock Funds, Mid Capitalization Growth Stock Fund, Mid Capitalization Value Stock Fund, Equity Index Fund and Emerging Market Equity Fund, as well as the Sprint FON Stock Fund and the Sprint PCS Stock Fund. Vesting

Participants are 100% vested in their participant contribution account balances at all times.

Effective December 1, 2001, participants have a right to their Company contributions based on a graded vesting schedule, which is: 20% vested after two years of service, 40% vested after three years of service, 60% vested after four years of service and 100% vested after five or more years of continuous service with the Company. Earlier vesting may occur, if while an employee of the Company, a participant (1) attains age 65, (2) incurs a permanent and total disability, or (3) dies.

Withdrawing participants who do not meet these vesting guidelines forfeit the non-vested portion of the Company contribution. Such amounts are used to offset future Company contribution requirements.

Edgar Filing: SPRINT CORP - Form 11-K

1. DESCRIPTION OF THE PLAN (Continued)

Withdrawals

Participants may withdraw the vested value of their account when they retire, terminate employment with the Company, reach age 59 1/2, meet "hardship" requirements defined in the Code, or become permanently and totally disabled. Withdrawals may also be made from the after-tax portion of their account and the vested portion of their Company contribution account that has been held by the Plan for two full calendar years following the year of contribution. These withdrawals may not be made more often than twice per year. The minimum withdrawal is the lesser of \$1,000 or 50% of the amount that may be withdrawn.

Participant Loans

Participants may borrow the lesser of (1) one-half of the total value of their vested account balance, (2) \$50,000 reduced by the highest outstanding balance of the participant's loan from the Plan during the one year period ending on the date the loan is made, or (3) the total value of their pre-tax account. The minimum loan is \$1,000.

Participants may have no more than two loans outstanding from the Plan at a time. Amounts borrowed by participants must be repaid within 5 years and no sooner than 6 months. In the event that the proceeds of the loan are used to acquire a participant's principal residence, the maximum repayment period may be as much as 25 years. The interest rate charged on loans is set by the Employee Benefits Committee.

Participant Accounts

A separate account is maintained for each participant in the Plan. Each participant's account is adjusted for (a) Company contributions on behalf of the participant, (b) the participant's contributions to the Plan, including rollover contributions, (c) the participant's share of any investment income, (d) withdrawals, (e) loans, and (f) forfeitures of Company contributions due to the participant's withdrawal.

Administration and Plan Expenses

The Plan is administered by the Employee Benefits Committee of Sprint. Administrative and investment expenses are expenses of the Plan and, except to the extent paid by the Company, are paid out of the trust. Certain administrative charges for employee loans are borne by the participants with outstanding loans.

Termination

Although the Company has not expressed an intention to terminate the Plan, it reserves the right to amend or terminate the Plan at any time. Should the Plan terminate, the accounts of all participants will become non-forfeitable as of the date of termination.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of the significant accounting policies of the Plan:

Valuation of Investments

Investments of the Plan are generally valued at fair value. The fair value of the common stock is based on the value of the last reported sale in the active market they are traded in on the last business day of the year. The fair value of equity mutual funds and bond mutual funds are valued at the redemption price. The fair value of the short term investments is estimated at cost plus accrued interest. Notes receivable from participants are valued at their principal balance.

Interest and Dividend Income

Dividend income is recorded on the ex-dividend date. Income from the investments is recorded as earned on an accrual basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts in the financial statements. Actual results could differ from these estimates.

Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated March 26, 1996, stating that the Plan is qualified under Section 401(a) of the Code and, therefore, the related trust is exempt from taxation. Subsequent to this issuance of the determination letter, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax exempt.

Withdrawals

Withdrawals, other than cash, are recorded at the fair market value of the assets on the date of distribution.
