Form 10-Q
November 07, 2011

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

☒ QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT
OF 1934

For the quarterly period ended September 30, 2011

OR

☐ TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF
1934

For the transition period from ____ to ____ .

Commission file number: 1-34167

ePlus inc.

(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of incorporation or
organization)

54-1817218
(I.R.S. Employer Identification No.)

13595 Dulles Technology Drive, Herndon, VA 20171-3413
(Address, including zip code, of principal executive offices)

Registrant's telephone number, including area code: (703) 984-8400

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (Section 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer", "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Edgar Filing: EPLUS INC - Form 10-Q

Large accelerated filer ☐

Accelerated filer ☒

Non-accelerated filer ☐ (Do not check if a smaller reporting company)

Smaller reporting company ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes
☐ No ☒

The number of shares of common stock outstanding as of October 31, 2011 was 8,061,690.

Cautionary Language About Forward-Looking Statements

This Quarterly Report on Form 10-Q contains certain statements that are, or may be deemed to be, “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, and are made in reliance upon the protections provided by such acts for forward-looking statements. Such statements are not based on historical fact, but are based upon numerous assumptions about future conditions that may not occur. Forward-looking statements are generally identifiable by use of forward-looking words such as “may,” “should,” “intend,” “estimate,” “will,” “potential,” “could,” “believe,” “expect,” “anticipate,” “project,” and similar expressions. Readers are cautioned not to place undue reliance on any forward-looking statements made by us or on our behalf. Forward-looking statements are made based upon information that is currently available or management’s current expectations and beliefs concerning future developments and their potential effects upon us, speak only as of the date hereof, and are subject to certain risks and uncertainties. We do not undertake any obligation to publicly update or correct any forward-looking statements to reflect events or circumstances that subsequently occur, or of which we hereafter become aware. Actual events, transactions and results may materially differ from the anticipated events, transactions or results described in such statements. Our ability to consummate such transactions and achieve such events or results is subject to certain risks and uncertainties. Such risks and uncertainties include, but are not limited to, the matters set forth below:

- we offer a comprehensive set of solutions—the bundling of our direct IT sales, professional services and financing with our proprietary software, and may encounter some of the challenges, risks, difficulties and uncertainties frequently faced by similar companies, such as:
 - managing a diverse product set of solutions in highly competitive markets;
 - increasing the total number of customers utilizing bundled solutions by up-selling within our customer base and gaining new customers;
 - adapting to meet changes in markets and competitive developments;
- maintaining and increasing advanced professional services by retaining highly skilled personnel and vendor certifications;
 - integrating with external IT systems, including those of our customers and vendors; and
- continuing to enhance our proprietary software and update our technology infrastructure to remain competitive in the marketplace.
 - our ability to hire and retain sufficient qualified personnel;
 - a decrease in the capital spending budgets of our customers or purchases from us;
 - our ability to protect our intellectual property;
 - the creditworthiness of our customers and our ability to reserve adequately for credit losses;
 - the possibility of goodwill impairment charges in the future;
 - uncertainty and volatility in the global economy and financial markets;
 - changes in the IT industry;
- our ability to raise capital, maintain or increase as needed our line of credit or floor planning facilities, or obtain non-recourse financing for our transactions;
 - our ability to realize our investment in leased equipment;
- significant adverse changes in, reductions in, or losses of relationships with major customers or vendors;
- reduction of manufacturer incentive programs; and
- significant changes in accounting guidance related to the financial reporting of leases, which could impact the demand for our leasing services.

We cannot be certain that our business strategy will be successful or that we will successfully address these and other challenges, risks and uncertainties. For a further list and description of various risks, relevant factors and uncertainties that could cause future results or events to differ materially from those expressed or implied in our forward-looking statements, see the “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of

Operations” sections contained elsewhere in this report, as well as our Annual Report on Form 10-K for the fiscal year ended March 31, 2011 (the “2011 Annual Report”), any subsequent Reports on Form 10-Q and Form 8-K, and other filings with the SEC.

ePlus inc. AND SUBSIDIARIES
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF PRESENTATION —The unaudited condensed consolidated financial statements include the accounts of ePlus inc. and its wholly-owned subsidiaries. All intercompany balances and transactions have been eliminated.

INTERIM FINANCIAL STATEMENTS — The condensed consolidated financial statements for the three and six months ended September 30, 2011 and 2010 are unaudited, but include all adjustments consisting of normal recurring adjustments that, in the opinion of management, are necessary for a fair presentation of our financial position, results of operations, changes in equity and cash flows for such periods. Operating results for the three and six months ended September 30, 2011 and 2010 are not necessarily indicative of results that may be expected for any other interim period or for the full fiscal year ending March 31, 2012 or any other future period. These unaudited condensed consolidated financial statements do not include all disclosures required by the accounting principles generally accepted in the United States ("U.S. GAAP") for annual financial statements. Our audited consolidated financial statements are contained in our 2011 Annual Report, which should be read in conjunction with these interim financial statements.

SUBSEQUENT EVENTS — Management has evaluated subsequent events after the balance sheet date through the date our financial statements are issued.

ESTIMATES, ERROR CORRECTIONS AND RECLASSIFICATIONS — The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting periods. Significant items subject to such estimates and assumptions include estimates related to revenue recognition, residual values, vendor consideration, lease classification, goodwill and intangibles, reserves for credit losses, and various other assumptions that we believe to be reasonable under the circumstances. Actual results may differ from these estimates.

We determined that certain transfers of minimum lease payments and residual values, which were previously presented on a gross basis, should be presented net in accordance with Accounting Standards Codification ("Codification") Topic, Transfers and Servicing, and that sales of certain equipment at the end of a lease, which were previously presented on a gross basis, should be presented on a net basis consistent with the guidance in Codification Topic, Property, Plant and Equipment. Accordingly, we corrected the prior period amounts to conform to this presentation. Total revenues and total costs and expenses for the three and six months ended September 30, 2010 decreased by \$1.5 million and \$1.4 million, respectively.

Certain other prior period balances have been reclassified to conform to the current period presentation.

CONCENTRATIONS OF RISK—Financial instruments that potentially subject us to concentrations of credit risk include cash and cash equivalents, accounts receivable, notes receivable and investments in direct financing and sales-type leases. Cash and cash equivalents are maintained principally with financial institutions in the United States, which have high credit ratings. Risk on accounts receivable, notes receivable and investments in direct financing and sales-type leases is reduced by the large number of entities comprising our customer base and through the ongoing evaluation of collectability of our portfolio. Our credit risk is further mitigated through the underlying collateral and whether the lease is funded with non-recourse notes payable.

A substantial portion of our sales of product and services are from sales of Cisco and Hewlett Packard products, which represented approximately 52% and 14%, and 47% and 14%, respectively, of sales of product and services for the three and six months ended September 30, 2011, as compared to 47% and 18%, and 44% and 17%, respectively, of sales of product and services for the three and six months ended September 30, 2010.

REVENUE RECOGNITION —On April 1, 2011, we adopted the updates to Revenue Recognition in the Codification issued by the Financial Accounting Standards Board ("FASB") and changed our revenue recognition policies related to bundled hardware and services arrangements. For additional information, refer to Note 6, "Revenue Arrangements with Multiple Deliverables."

Table Of Contents

RECENTLY ADOPTED ACCOUNTING PRONOUNCEMENTS — In October 2009, the FASB issued an update to amend Revenue Recognition in the Codification. This update removes the fair value criterion from the separation criteria for multiple deliverables arrangements. It also replaces references to “fair value” with “selling price” to distinguish from the fair value measurements required under Fair Value Measurements and Disclosures in the Codification, provides a hierarchy that entities must use to estimate the selling price, eliminates the use of the residual method for allocation, and expands the ongoing disclosure requirements. We adopted this update on April 1, 2011. Refer to Note 6, “Revenue Arrangements with Multiple Deliverables,” for additional information.

RECENT ACCOUNTING PRONOUNCEMENTS NOT YET ADOPTED— In June 2011, the FASB issued an update to amend Comprehensive Income in the Codification. This update eliminates the option to present the components of other comprehensive income within the statement of changes in stockholders’ equity. Companies are required to present components of net income, total net income, components of other comprehensive income, total other comprehensive income, and a total amount for comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. This update is effective for us beginning on April 1, 2012.

In September 2011, the FASB issued an update to amend Intangibles-Goodwill and Other in the Codification. While this amendment does not change the calculation of goodwill impairment, it simplifies how companies test goodwill for impairment. Under this amendment, a company would be permitted to first assess qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount. If the fair value of a reporting unit is more than the carrying account, it is not necessary to perform the two-step goodwill impairment test described in Intangibles-Goodwill and Other in the Codification. The more-likely-than-not threshold is defined as having a likelihood of more than 50 percent. This update is effective for us beginning on April 1, 2012. We do not expect this update to have a material impact to our financial position or results of operations.

2. INVESTMENT IN LEASES AND LEASED EQUIPMENT—NET

Investment in leases and leased equipment—net consists of the following (in thousands):

	September 30, 2011	March 31,
Investment in direct financing and sales-type leases—net	\$ 89,794	\$ 96,319
Investment in operating lease equipment—net	19,086	21,989
	\$ 108,880	\$ 118,308

INVESTMENT IN DIRECT FINANCING AND SALES-TYPE LEASES—NET

Our investment in direct financing and sales-type leases—net consists of the following (in thousands):

	September 30, 2011	March 31,
Minimum lease payments	\$ 93,838	\$ 102,449
Estimated unguaranteed residual value (1)	6,810	7,029
Initial direct costs, net of amortization (2)	681	709
Less: Unearned lease income	(9,988)	(12,135)
Less: Reserve for credit losses (3)	(1,547)	(1,733)
Investment in direct financing and sales-type leases—net	\$ 89,794	\$ 96,319

(1)

Edgar Filing: EPLUS INC - Form 10-Q

Includes estimated unguaranteed residual values of \$1,487 thousand and \$1,666 thousand as of September 30, 2011 and March 31, 2011, respectively, for direct financing leases which have been sold and accounted for as sales under Codification Topic Transfers and Servicing.

- (2) Initial direct costs are shown net of amortization of \$479 thousand and \$552 thousand as of September 30, 2011 and March 31, 2011, respectively.
- (3) For details on reserve for credit losses, refer to Note 4, "Reserves for Credit Losses."

Our net investment in direct financing and sales-type leases for certain lease agreements serves as collateral for non-recourse equipment notes. See Note 7, "Non-Recourse Notes Payable and Other Financing Arrangements."

Table Of Contents

We enter into agreements to sell financial assets, which are accounted for as sales under Codification topic, Transfers and Services. Financial assets include lease payments associated with certain investments in direct financing leases and sales-type leases as well as notes receivables. We recognized a net gain for these sales of \$0.9 million and \$0.4 million in lease revenues in the unaudited condensed consolidated statement of operations for the three months ended September 30, 2011 and 2010, respectively, and \$1.0 million and \$1.6 million for the six months ended September 30, 2011 and 2010, respectively. Total proceeds from the sale of financial assets were \$23.0 million and \$16.0 million for the three months ended September 30, 2011 and 2010, respectively. Total proceeds from the sale of financial assets were \$24.6 million and \$52.7 million for the six months ended September 30, 2011 and 2010, respectively.

INVESTMENT IN OPERATING LEASE EQUIPMENT—NET

Investment in operating lease equipment—net primarily represents leases that do not qualify as direct financing leases. The components of the investment in operating lease equipment—net are as follows (in thousands):

	September 30, 2011	March 31, 2011
Cost of equipment under operating leases	\$ 41,257	\$ 44,105
Less: Accumulated depreciation and amortization	(22,171)	(22,116)
Investment in operating lease equipment—net (1)	\$ 19,086	\$ 21,989

(1)Includes estimated unguaranteed residual values of \$7,116 thousand and \$8,346 thousand as of September 30, 2011 and March 31, 2011, respectively, for operating leases.

3. GOODWILL

Goodwill represents the premium paid over the fair value of net tangible and intangible assets we have acquired in business combinations. For additional information related to the acquisition of NCC Networks, Inc. (“NCC”) during the six months ended September 30, 2011, please refer to Note 16, “Business Combination.” The following table summarizes the amount of goodwill allocated to our reporting units (in thousands):

	Financing	Technology	Software Procurement	Software Document Management	Total
Balance April 1, 2011					
Goodwill	\$ 4,029	\$ 17,515	\$ 4,644	\$ 1,089	\$ 27,277

4. RESERVES FOR CREDIT LOSSES

Activity in our reserves for credit losses for the six months ended September 30, 2011 and 2010 was as follows (in thousands):

	Accounts Receivable	Notes Receivable	Lease-Related Assets	Total
Balance April 1, 2011	\$ 944	\$ 94	\$ 1,733	\$ 2,771
Provision for (reduction of) bad debts	129	162	(184)	107
Recoveries	-	-	-	-
Write-offs and other	(224)	-	(2)	(226)
Balance September 30, 2011	\$ 849	\$ 256	\$ 1,547	\$ 2,652

	Accounts Receivable	Notes Receivable	Lease-Related Assets	Total
Balance April 1, 2010	\$ 1,580	\$ 75	\$ 1,930	\$ 3,585
Provision for (reduction of) bad debts	(140)	(51)	93	(98)
Recoveries	(7)	-	-	(7)
Write-offs and other	(317)	-	(482)	(799)
Balance September 30, 2010	\$ 1,116	\$ 24	\$ 1,541	\$ 2,681

Our reserve for credit losses and minimum lease payments associated with our notes receivable and investment in direct financing and sales- type lease balances disaggregated on the basis of our impairment method were as follows (in thousands):

	Notes Receivable September 30, 2011	Lease-Related Assets September 30, 2011	Notes Receivable March 31, 2011	Lease-Related Assets March 31, 2011
Reserve for credit losses:				
Ending balance: collectively evaluated for impairment	\$ 256	\$ 1,547	\$ 94	\$ 1,733
Ending balance: individually evaluated for impairment	-	-	-	-
Ending balance	\$ 256	\$ 1,547	\$ 94	\$ 1,733
Total receivables:				
Ending balance: collectively evaluated for impairment	\$ 5,173	\$ 93,838	\$ 5,937	\$ 102,446
Ending balance: individually evaluated for impairment (1)	-	-	-	3
Ending balance	\$ 5,173	\$ 93,838	\$ 5,937	\$ 102,449

(1)The net credit exposure for the balance evaluated individually for impairment as of March 31, 2011 was \$3 thousand.

As of September 30, 2011, the age of the recorded minimum lease payments and net credit exposure associated with our investment in direct financing and sales-type leases that are past due, disaggregated based on our internally

Edgar Filing: EPLUS INC - Form 10-Q

assigned credit quality ratings (“CQR”), were as follows (in thousands):

	31-60 Days Past Due	61-90 Days Past Due	Greater than 90 Days Past Due	Total Past Due	Current	Unbilled Minimum Lease Payments	Total Minimum Lease Payments	Unearned Income	Non- Recourse Notes Payable	Net Credit Exposure

Table Of Contents

As of September 30, 2011, the recorded notes receivable balance disaggregated based on our internally assigned CQR were as follows (in thousands):

	31-60 Days Past Due	61-90 Days Past Due	Greater than 90 Days Past Due	Total Past Due	Current	Unbilled Notes Receivable	Total
September 30, 2011							
High CQR	\$ -	\$ -	\$ -	\$ -	\$ 200	\$ 1,678	\$ 1,878
Average CQR	-	-	145	145	164	2,986	3,295
Low CQR	-	-	-	-	-	-	-
Total	\$ -	\$ -	\$ 145	\$ 145	\$ 364	\$ 4,664	\$ 5,173
March 31, 2011							
High CQR	\$ -	\$ -	\$ -	\$ -	\$ -	\$ 4,119	\$ 4,119
Average CQR	-	145	-	145	70	1,603	1,818
Low CQR	-	-	-	-	-	-	-
Total	\$ -	\$ 145	\$ -	\$ 145	\$ 70	\$ 5,722	\$ 5,937

We estimate losses on our net credit exposure to be between 0%-5% for customers with highest CQR, as these customers are investment grade or the equivalent of investment grade. We estimate losses on our net credit exposure to be between 2%-25% for customers with average CQR, and between 50%-100% for customers with low CQR, which includes customers in bankruptcy.

5. OTHER ASSETS AND ACCRUED EXPENSES AND OTHER LIABILITIES

Our other assets and accrued expenses and other liabilities consist of the following (in thousands):

	September 30, 2011	March 31, 2011
Deferred costs related to sales of bundled hardware and services	\$ 13,608	\$ 26,584
Prepaid assets	1,847	4,170
Other	15,037	7,661
Other assets	\$ 30,492	\$ 38,415
	September 30, 2011	March 31, 2011
Deferred revenue related to sales of bundled hardware and services	\$ 17,936	\$ 30,277
Deferred revenue- other	8,060	6,250
Other	14,563	12,887
Accrued expenses and other liabilities	\$ 40,559	\$ 49,414

Deferred costs related to bundled hardware and service and deferred revenue related to bundled hardware and service are related to arrangements that were entered into prior to the adoption of the update to Revenue Recognition on April 1, 2011, and not completed as of September 30, 2011. Other assets include deferred costs and certain intangible assets.

Other liabilities include accrued expenses, accrued taxes, lease rental payments due to third parties, and contingent consideration related to the NCC acquisition.

6. REVENUE ARRANGEMENTS WITH MULTIPLE DELIVERABLES

In October 2009, the FASB issued an update to amend Revenue Recognition in the Codification. This update removed the fair value criterion from the separation criteria for multiple deliverables arrangements. It also replaces references to “fair value” with “selling price” to distinguish from the fair value measurements required under Fair Value Measurements and Disclosures in the Codification, provides a hierarchy that entities must use to estimate the selling price, eliminates the use of the residual method for allocation, and expands the ongoing disclosure requirements. This update was effective for us beginning April 1, 2011 and we adopted it on a prospective basis.

Prior to adopting this update, we generally accounted for arrangements with multiple deliverables (products and services bundled together) as one unit of accounting, as we could not establish reliable evidence of the fair value of the undelivered services when the products were delivered. Revenue from these bundled arrangements was recognized when the services were complete and we received an acceptance certificate from the customer. The update to Revenue Recognition in the Codification removed the requirement to establish reliable evidence of fair value of undelivered items for these arrangements. Therefore, multiple deliverables arrangements whereby we deliver the product to our customers and subsequently provide services meet the criteria to be accounted for as separate units of accounting, as delivered item(s) or product(s) have value to the customer on a stand-alone basis, and delivery of the services is probable and substantially under our control.

Table Of Contents

For bundled arrangements entered into after March 31, 2011, we allocated the total arrangement consideration to the deliverables based on an estimated selling price of our products and services. We determined the estimated selling price using cost plus a reasonable margin for each deliverable, which was based on our established policies for providing customers with quotes, as well as historical gross margins for our products and services. Revenue for the sales of products is generally recognized upon delivery to the customers and revenue for the services is generally recognized when the services are complete, which normally occurs within 90-120 days after the products are delivered to the customer.

Summarized below is what our reported revenues and earnings before tax for the three and six months ended September 30, 2011 would have been had we continued to account for these multiple deliverables arrangements as a single unit of accounting and deferred the product and service revenue until the services were complete (in thousands):

	Three Months Ended September 30, 2011			Six Months Ended September 30, 2011		
	Total	Total costs	Earnings	Total	Total costs	Earnings
	revenues	and	before	revenues	and	before
		expenses	provision for		expenses	provision for
			tax			tax
As reported	\$ 262,850	\$ 251,002	\$ 11,848	\$ 474,394	\$ 456,263	\$ 18,131
Pro forma	\$ 250,814	\$ 240,404	\$ 10,410	\$ 457,536	\$ 441,567	\$ 15,969

7. NON-RECOURSE NOTES PAYABLE AND OTHER FINANCING ARRANGEMENTS

Non-recourse obligations consist of the following (in thousands):

	September 30, 2011	March 31, 2011
Non-recourse equipment notes secured by related investments in leases with interest rates ranging from 3.05% to 9.50% at September 30, 2011 and March 31, 2011	\$ 22,973	\$ 29,592

Principal and interest payments on the non-recourse notes payable are generally due monthly in amounts that are approximately equal to the total payments due from the lessee under the leases that collateralize the notes payable. The weighted average interest rate for our non-recourse notes payable was 5.60% and 5.84%, as of September 30, 2011 and March 31, 2011, respectively. Under non-recourse financing, in the event of a default by a lessee, the lender generally only has recourse against the lessee, and the equipment serving as collateral, but not against us.

Our technology sales business segment, through our subsidiary ePlus Technology, inc., finances its operations with funds generated from operations, and with a credit facility from GE Commercial Distribution Finance Corporation ("GECDF"). This facility provides short-term capital for our technology sales business segment. There are two components of the GECDF credit facility: (1) a floor plan component and (2) an accounts receivable component. Under the floor plan component, we had outstanding balances of \$63.8 million as of September 30, 2011 and March 31, 2011. Under the accounts receivable component, we had no outstanding balances as of September 30, 2011 and March 31, 2011. As of September 30, 2011, the facility agreement had an aggregate limit of the two components of \$125 million, and the accounts receivable component had a sub-limit of \$30 million, which bears interest at the Wall Street Journal U.S. Prime rate less 0.5%, or 4.75%. Availability under the GECDF facility may be limited by the asset value of equipment we purchase or accounts receivable, and may be further limited by certain covenants and terms and conditions of the facility. These covenants include, but are not limited to, a minimum total tangible net worth and

subordinated debt of ePlus Technology, inc., and maximum debt to tangible net worth ratio of ePlus Technology, inc. Management believes we were in compliance with these covenants as of September 30, 2011. Either party may terminate with 90 days' advance notice. We are not, and do not believe that we are reasonably likely to be, in breach of the GECDF credit facility. In addition, we do not believe that the covenants of the GECDF credit facility materially limit our ability to undertake financing. In this regard, the covenants apply only to our subsidiary, ePlus Technology, inc. This credit facility is secured by the assets of only ePlus Technology, inc. and the guaranty as described below.

The facility provided by GECDF requires a guaranty of up to \$10.5 million by ePlus inc. The guaranty requires ePlus inc. to deliver its annual audited financial statements by certain dates. We have delivered the annual audited financial statements for the year ended March 31, 2011, as required. The loss of the GECDF credit facility could have a material adverse effect on our future results as we currently rely on this facility and its components for daily working capital and liquidity for our technology sales business and as an operational function of our accounts payable process.

On October 26, 2009, we entered into an agreement with 1st Commonwealth Bank of Virginia to provide us with a \$0.5 million credit facility, which matures on October 26, 2012. This credit facility is available for use by us and our affiliates and the lender has full recourse to us. Borrowings under this facility bear interest at the Wall Street Journal U.S. Prime rate plus 1%. The primary purpose of the facility is to provide letters of credit for landlords, taxing authorities and bids. As of September 30, 2011, we have no outstanding balance on this credit facility.

Table Of Contents

8. RELATED PARTY TRANSACTIONS

During the six months ended September 30, 2011, we leased approximately 55,880 square feet for use as our principal headquarters. Through September 21, 2010, the headquarters building was owned by Norton Building 1, LLC, a limited liability company owned in part by Mr. Norton's spouse and in part in trust for his children. Mr. Norton, our President and Chief Executive Officer, had no managerial or executive role in Norton Building 1, LLC. We entered into amendments to the office lease agreement ("the amended lease") on June 18, 2009, and June 22, 2010. The term of the amended lease began on January 1, 2010, and will continue through December 31, 2014. In addition, we have the right to terminate the lease, with no penalty fee, on December 31, 2012 in the event that the facility no longer meets our needs, by giving six months' prior written notice. To the extent required by our Related Person Transactions Policy, the amendments to the lease were approved by the Nominating and Corporate Governance Committee in accordance with such Policy, and subsequently approved by our Board of Directors, with Mr. Norton abstaining.

On September 21, 2010, Norton Building 1, LLC sold the headquarters building to an unrelated third party. Rent paid subsequent to the sale was paid to that third party. The sale does not impact any aspect of our lease. However, in connection with the sale of the headquarters building, the buyer deposited \$600,000 of the purchase price into an escrow account, which will be payable to Norton Building 1, LLC in the event we do not exercise our right to terminate the lease on December 31, 2012.

The annual base rent, which includes an expenses factor, is \$20.84 per square foot for the first year, with an annual rent escalation for operating cost increases, if any, plus 2.75% of the annual base rent, net of the expenses factor, for each year thereafter. Prior to the sale of the headquarters building, we paid Norton Building 1, LLC a monthly payment of approximately \$96 thousand, which included operating expenses. Due to the sale of the headquarters building on September 21, 2010, we made no payments to Norton Building 1, LLC during the three and six months ended September 30, 2011. We paid rent, which included operating expenses, to Norton Building 1, LLC, in the amount of \$188 thousand and \$482 thousand during the three and six months ended September 30, 2010, respectively.

9. COMMITMENTS AND CONTINGENCIES

Legal Proceedings

On May 19, 2009, we filed a complaint in the United States District Court for the Eastern District of Virginia (the "trial court") against four defendants, alleging that they used or sold products, methods, processes, services and/or systems that infringe on certain of our patents. During July and August 2009, we entered into settlement and license agreements with three of the defendants. We obtained a jury verdict against the remaining defendant, Lawson Software, Inc. ("Lawson") on January 27, 2011. The jury unanimously found that Lawson infringed certain ePlus patents relating to electronic procurement systems, and additionally found that all ePlus patent claims tried in court were not invalid. On May 23, 2011, the trial court issued a permanent injunction, ordering Lawson and its successors to: immediately stop selling and servicing products relating to its electronic procurement systems that infringe our patents; cease providing any ongoing or future maintenance, training or installation of its infringing products; and refrain from publishing any literature or information that encourages the use or sale of its infringing products. Lawson requested that the appellate court stay the injunction, and the request was denied. Lawson has filed an appeal of the trial court's ruling. We are seeking a ruling that Lawson is in contempt of the injunction order. We also intend to appeal the trial court's evidentiary ruling which precluded us from seeking monetary damages. While we believe that we have a basis for our claims, these types of cases are complex in nature, are likely to have significant expenses associated with them, and we cannot predict whether we will be successful in our claim for a contempt finding or damages, whether any award ultimately received will exceed the costs incurred to pursue this matter, or how long it will take to bring this matter to resolution.

Other Matters

We may become party to various legal proceedings arising in the normal course of business, including preference payment claims asserted in customer bankruptcy proceedings, claims of alleged infringement of patents, trademarks, copyrights and other intellectual property rights, claims of alleged non-compliance with contract provisions, claims related to alleged violations of laws and regulations, and claims by competitors, vendors, customers or employees. We accrue for costs associated with these contingencies when a loss is probable and the amount is reasonably estimable.

Table Of Contents

10. EARNINGS PER SHARE

Basic earnings per share is calculated by dividing net earnings available to common shareholders by the basic weighted average number of shares of common stock outstanding during each period. Diluted earnings per share is calculated by dividing net earnings available to common shareholders by the basic weighted average number of shares of common stock outstanding plus incremental shares issuable upon the assumed exercise of “in-the-money” stock options and other common stock equivalents during each period.

The following table provides a reconciliation of the numerators and denominators used to calculate basic and diluted net earnings per common share as disclosed on our unaudited condensed consolidated statements of operations for the three and six months ended September 30, 2011 and September 30, 2010 (in thousands, except per share data).

	Three Months Ended September 30,		Six Months Ended September 30,	
	2011	2010	2011	2010
Net earnings available to common shareholders—basic and diluted	\$ 7,064	\$ 7,909	\$ 10,767	\$ 12,622
Weighted average shares outstanding — basic	8,153	8,131	8,230	8,127
Effect of dilutive shares	174	253	192	221
Weighted average shares outstanding — diluted	8,327	8,384	8,422	8,348
Earnings per common share:				
Basic	\$ 0.87	\$ 0.97	\$ 1.31	\$ 1.55
Diluted	\$ 0.85	\$ 0.94	\$ 1.28	\$ 1.51

All unexercised stock options were included in the computations of diluted earnings per share for the three and six months ended September 30, 2011 and 2010.

11. SHARE REPURCHASE

On August 11, 2009, our Board authorized a share repurchase plan, which has been amended over time. The last amendment was on August 12, 2010 whereby our Board authorized share repurchases of up to 500,000 commencing on September 16, 2010 and was due to expire on September 15, 2011. On August 15, 2011, our Board authorized a new share repurchase plan which authorized share repurchases up to 500,000 over a 12-month period commencing on September 16, 2011. The purchases may be made from time to time in the open market, or in privately negotiated transactions, subject to availability. Any repurchased shares will have the status of treasury shares and may be used, when needed, for general corporate purposes.

During the six months ended September 30, 2011, we repurchased 387,958 shares of our outstanding common stock at an average cost of \$24.96 per share for a total purchase price of \$9.7 million. Since the inception of our initial repurchase program on September 20, 2001 to September 30, 2011, we have repurchased 4.3 million shares of our outstanding common stock at an average cost of \$12.85 per share for a total purchase price of \$55.5 million.

Table Of Contents

12. SHARE-BASED COMPENSATION

Share-Based Plans

We have issued share-based awards under the following plans: (1) the 1998 Long-Term Incentive Plan (the “1998 LTIP”), (2) Amendment and Restatement of the 1998 Stock Incentive Plan (2001) (the “Amended LTIP (2001)”), (3) Amendment and Restatement of the 1998 Stock Incentive Plan (2003) (the “Amended LTIP (2003)”), (4) the 2008 Non-Employee Director Long-Term Incentive Plan (“2008 Director LTIP”) and (5) the 2008 Employee Long-Term Incentive Plan (“2008 Employee LTIP”). Currently, awards are only issued under the 2008 Director LTIP and the 2008 Employee LTIP. Sections of these plans are summarized below.

For a summary of descriptions and vesting periods of the 1998 LTIP, the Amended LTIP (2001), the Amended LTIP (2003), the 2008 Director LTIP and the 2008 Employee LTIP discussed below, please refer to our 2011 Annual Report.

Stock Option Activity

During the three months and six months ended September 30, 2011 and 2010, there were no stock options granted to employees.

A summary of stock option activity during the six months ended September 30, 2011 is as follows:

	Number of Shares	Exercise Price Range	Weighted Average Exercise Price	Weighted Average Contractual Life Remaining (in years)	Aggregate Intrinsic Value
Outstanding, April 1, 2011	228,900	6.86 - \$15.25	\$10.26		
Options exercised (1)	(29,993)	6.86 - \$7.50	\$7.21		
Outstanding, September 30, 2011	198,907	7.14 - \$15.25	\$10.72	2.1	\$2,775,515
Vested at September 30, 2011	198,907		\$10.72	2.1	\$2,775,515
Exercisable at September 30, 2011	198,907		\$10.72	2.1	\$2,775,515

(1) The total intrinsic value of stock options exercised during the six months ended September 30, 2011 was \$553 thousand.

Additional information regarding stock options outstanding as of September 30, 2011 is as follows:

Range of Exercise Prices	Options Outstanding	Options Outstanding and Exercisable	
		Weighted Average Exercise Price per	Weighted Average Contractual Life Remaining

Edgar Filing: EPLUS INC - Form 10-Q

		Share	(in years)
\$6.86 - \$9.00	78,907	\$ 7.39	0.6
\$9.01 - \$13.50	80,000	\$ 11.74	3.5
\$13.51 - \$15.25	40,000	\$ 15.23	2.0
\$6.86 - \$15.25	198,907	\$ 10.72	2.1

We issue shares from our authorized but unissued common stock to satisfy stock option exercises. At September 30, 2011, all of our options were vested.

Table Of Contents

Restricted Stock Activity

As of September 30, 2011, we granted 85,479 restricted shares under the 2008 Director LTIP, and 357,570 restricted shares under the 2008 Employee LTIP. A summary of the nonvested restricted shares is as follows:

	Number of Shares	Weighted Average Grant- date Fair Value
Nonvested April 1, 2011	213,689	\$ 17.54
Granted	150,908	\$ 23.18
Vested	(58,587)	\$ 17.94
Nonvested September 30, 2011	306,010	\$ 20.25

Upon each vesting period of the restricted stock awards, participants may be subject to minimum tax withholding obligations. The 2008 Director LTIP and 2008 Employee LTIP allows us, at the participant's election, to withhold a sufficient number of shares due to the participant to satisfy their minimum tax withholding obligations. As of September 30, 2011, we withheld 23,663 shares of common stock at a value of \$577 thousand, which was included in treasury stock.

Compensation Expense

We recognize compensation cost for awards of restricted stock with graded vesting on a straight line basis over the requisite service period and estimate the forfeiture rate to be zero, based on historical experience. There are no additional conditions for vesting other than service conditions. During the three months ended September 30, 2011 and 2010, we recognized \$650 thousand and \$320 thousand, respectively, of total share-based compensation expense. During the six months ended September 30, 2011 and 2010, we recognized \$1.1 million and \$490 thousand, respectively, of total share-based compensation expense. At September 30, 2011, all options were vested, therefore, there is no unrecognized compensation expense. Unrecognized compensation expense related to nonvested restricted stock was \$5.3 million, which will be fully recognized over the next 33 months.

We also provide our employees with a contributory 401(k) profit sharing plan. Employer contribution percentages are discretionary, and determined and paid by us annually at calendar year end. The employer contributions vest pro-ratably over a four-year service period by the employees, after which, all employer contributions will be fully vested. For the three months ended September 30, 2011 and 2010, our expenses for the plan were \$214 thousand and \$92 thousand, respectively. For the six months ended September 30, 2011 and 2010, our expenses for the plan were \$417 thousand and \$203 thousand, respectively.

13. INCOME TAXES

As of September 30, 2011, our gross liability related to uncertain tax positions was \$719 thousand. At September 30, 2011, if the unrecognized tax benefits of \$719 thousand were to be recognized, including the effect of interest, penalties and federal tax benefit, the impact would be \$827 thousand. We recognized accrued interest and penalties related to unrecognized tax benefits as a component of tax expense. Our unaudited condensed consolidated statements of operations include interest of \$11 thousand and \$22 thousand for the three and six months ended September 30, 2011, and \$8 thousand and \$16 thousand, respectively, for the same periods last year. We did not recognize any additional penalties. We had \$167 thousand and \$144 thousand accrued for the payment of interest at September 30,

2011 and 2010, respectively.

Table Of Contents

14. FAIR VALUE OF FINANCIAL INSTRUMENTS

We account for the fair values of our assets and liabilities in accordance with Codification Topic Fair Value Measurement and Disclosure. Accordingly, we established a three-tier value hierarchy, which prioritizes the inputs used in measuring fair value. The fair value of our non-recourse notes payable is calculated using the discounted cash flow approach based on the contractual terms of the notes payable discounted at current market rates.

The following table summarizes the fair value hierarchy of our financial instruments and contingent liability (in thousands):

		Fair Value Measurement Using			
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total Gains (Losses)
	September 30, 2011				
Liabilities:					
Non-recourse notes payable	\$ 22,973	\$ -	\$ 23,407	\$ -	\$ (434)
Contingent consideration	\$ 1,683	\$ -	\$ -	1,683	\$ -

		Fair Value Measurement Using			
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total Gains (Losses)
	March 31, 2011				
Liabilities:					
Non-recourse notes payable	\$ 29,592	\$ -	\$ 29,504	\$ -	\$ 88

15. SEGMENT REPORTING

We manage our business segments on the basis of the products and services offered. Our reportable segments consist of our technology sales business segment and our financing business segment. The technology sales business segment sells information technology equipment and software and related services primarily to corporate customers on a nationwide basis. The technology sales business segment also provides Internet-based business-to-business supply chain management solutions for information technology and other operating resources. The financing business segment offers lease-financing solutions to corporations and governmental entities nationwide. We evaluate segment performance on the basis of total revenue, segment earnings and earnings before provision for income taxes.

Both segments utilize our proprietary software and services within the organization. Sales and services and related costs of our software are included in the technology sales business segment. Our reportable segment information is as follows (in thousands):

	Three Months Ended September 30, 2011			Three Months Ended September 30, 2011		
	Technology Sales Business Segment	Financing Business Segment	Total	Technology Sales Business Segment	Financing Business Segment	Total
Sales of product and services	\$252,688	\$-	\$252,688	\$221,275	\$-	\$221,275

Table Of Contents

Included in the technology sales business segment above are inter-segment accounts payable of \$40.6 million and \$39.3 million as of September 30, 2011 and 2010, respectively. Included in the financing business segment above are inter-segment accounts receivable of \$40.6 million and \$39.3 million as of September 30, 2011 and 2010, respectively.

Our technology sales business segment sells products to our financing business segment. For the three and six months ended September 30, 2011, we eliminated revenue of \$0.6 million and \$0.9 million, respectively, in our technology sales business segment as a result of these intersegment transactions. For the three and six months ended September 30, 2010, we eliminated revenue of \$1.2 million and \$2.0 million, respectively, in our technology sales business segment as a result of these intersegment transactions.

16. BUSINESS COMBINATION

On June 4, 2011, our subsidiary, ePlus Technology, inc. acquired the operating business of NCC Networks, Inc. ("NCC"), a Chicago-based company, for \$3.5 million, plus contingent consideration of up to an additional \$3.2 million. NCC was a security-focused solutions provider that operated a Security Operations Center located in metropolitan Chicago. With the acquisition, we expanded our information security capabilities, to provide a wider variety of security risk assessments including vulnerability, web application, wireless, and cloud-based security assessments. NCC, which provides 24x7 security managed services, has numerous authorizations from leading security manufacturers and engineering expertise in cutting edge security technologies. Combined with our Cisco Master Security specialization, we can provide to customers a full suite of security solutions and services including penetration testing and remediation services.

The total purchase price was \$5.0 million, which consists of the cash paid plus the fair value of contingent consideration. We estimated the fair value of contingent consideration to be \$1.5 million using a probability weighted discounted cash flow method. The contingent consideration will be paid in three annual installments based on the achievement of certain earnings goals. The aggregate purchase price of \$5.0 million has been allocated to the assets acquired and liabilities assumed based on their estimated fair values on the transaction date, including identifiable intangible assets of \$1.5 million related to customer relationships with an estimated useful life of 5 years, and other net liabilities of \$136 thousand. We recognized goodwill related to this acquisition of \$3.7 million, which was assigned to our technology reporting unit.

This acquisition was not material; accordingly, pro-forma financial information has not been presented.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This discussion is intended to further the reader's understanding of our consolidated financial condition and results of operations. It should be read in conjunction with the financial statements included in this quarterly report on Form 10-Q and our 2011 Annual Report. These historical financial statements may not be indicative of our future performance. This Management's Discussion and Analysis of Financial Condition and Results of Operations contains a number of forward-looking statements, all of which are based on our current expectations and could be affected by the uncertainties and risks described in Part I, Item 1A, "Risk Factors," in our 2011 Annual Report.

Certain prior period amounts have been corrected to conform to the current presentation. We determined that certain transfers of minimum lease payments and residual values that were previously presented on a gross basis, should be presented net in accordance with Codification Topic, Transfers and Servicing, and that sales of certain equipment at the end of a lease that were previously presented on a gross basis, should be presented on a net basis consistent with the guidance in Codification Topic, Property, Plant and Equipment. See Note 1, "Organization and Summary of Significant Accounting Policies" to our unaudited condensed consolidated financial statements included elsewhere in this report.

EXECUTIVE OVERVIEW

Business Description

ePlus and its consolidated subsidiaries provide leading IT products and services, flexible leasing solutions, and enterprise supply management to enable our customers to optimize their IT infrastructure and supply chain processes. Our revenues are composed of sales of product and services, lease revenues and fee and other income. Our operations are conducted through two business segments: our technology sales business segment and our financing business segment.

Financial Summary

In recent years, the United States experienced substantial uncertainty in the economic environment, including financial market disruption. A reoccurrence of the economic downturn could cause our current and potential customers to once again delay or reduce technology purchases and result in longer sales cycles, slower adoption of new technologies and increased price competition. Credit risk associated with our customers and vendors may also be adversely impacted. In addition, although we do not anticipate the need for additional capital in the near term due to our current financial position, a reoccurrence of the economic downturn may adversely affect our access to additional capital.

In 2011, many industry analysts are forecasting an increase in overall IT spending in the U.S. as compared to 2010. We believe that customers are continuing to focus on cost savings initiatives by utilizing technologies such as virtualization and cloud computing, and we continue to provide these and other advanced technology solutions to meet these needs.

During the three months ended September 30, 2011, total revenue increased 12.8% to \$262.9 million and total costs and expenses increased 14.1% to \$251.0 million, as compared to the same period last fiscal year. During the six months ended September 30, 2011, total revenue increased 12.4% to \$474.4 million and total costs and expenses increased 13.7% to \$456.3 million.

Gross margin for product and services was 13.9% and 14.4% during the three months ended September 30, 2011 and 2010, respectively, and 14.0% and 14.3% during the six months ended September 30, 2011 and 2010, respectively.

Our gross margin on sales of product and services was affected by our customers' investment in technology equipment, the mix and volume of products sold and changes in incentives provided to us by manufacturers. Net earnings decreased 10.7% to \$7.1 million and 14.7% to \$10.8 million as compared to the three months and the six months ended September 30, 2010, respectively. We ramped up hiring in our technology sales business segment to expand our geographical footprint and solutions offering and we experienced lower transaction volumes in our financing business segment. Over the past 12 months, we added 99 personnel in several existing and new locations, and acquired two companies.

Cash and cash equivalents decreased \$30.4 million or 40.1% to \$45.4 million at September 30, 2011, compared to March 31, 2011. In addition, we continued our share repurchase program during the six months ended September 30, 2011, and repurchased 387,958 shares of our common stock for a total purchase price of \$9.7 million.

Table Of Contents

Business Segment Overview

Technology Sales Business Segment

The technology sales business segment sells IT equipment and software and related services primarily to corporate customers, state and local governments, and higher education institutions on a nationwide basis, with geographic concentrations relating to our physical locations. The technology sales business segment also provides Internet-based business-to-business supply chain management solutions for information technology products. Our technology sales business segment derives revenue from the sales of new equipment and service engagements. These revenues are reflected on our unaudited condensed consolidated statements of operations under sales of product and services and fee and other income. Customers who purchase IT equipment and services from us may have customer master agreements, or CMAs, with us which stipulate the terms and conditions of our relationship. Some CMAs contain pricing arrangements, and most contain mutual termination for convenience clauses. Our other customers place orders using purchase orders without a CMA in place or with other documentation customary for the business. Often, our work with governments is based on public bids and our written bid responses. A substantial portion of our sales of product and services are from sales of Cisco and Hewlett Packard products, which represented approximately 52% and 14%, and 47% and 14%, respectively, of sales of product and services for the three and six months ended September 30, 2011, as compared to 47% and 18%, and 44% and 17%, respectively, of sales of product and services for the three and six months ended September 30, 2010.

Included in the sales of product and services are revenues derived from performing advanced professional services that may be bundled with sales of equipment which are integral to the successful delivery of such equipment. Our service engagements are generally governed by statements of work, and are primarily fixed price (with allowance for changes); however, some service agreements are based on time and materials.

We endeavor to minimize the cost of sales in our technology sales business segment through vendor consideration programs provided by manufacturers and other incentives provided by distributors. The programs we qualify for are generally set by our reseller authorization level with the manufacturer. The authorization level we achieve and maintain governs the types of products we can resell as well as such items as pricing received, funds provided for the marketing of these products and other special promotions. These authorization levels are achieved by us through sales volume, certifications held by sales executives or engineers and/or contractual commitments by us. The authorization levels are costly to maintain and these programs continually change and, therefore, there is no guarantee of future reductions of costs provided by these vendor consideration programs. We currently maintain the following authorization levels with our primary manufacturers:

Manufacturer	Manufacturer Authorization Level
Apple	Apple Authorized Corporate Reseller
Cisco Systems	Cisco Gold DVAR (National)
	Advanced Wireless LAN
	Advanced Unified Communications
	Advanced Data Center Storage Networking
	Advanced Routing and Switching
	Advanced Security
	ATP Video Surveillance
	ATP Cisco Telepresence Video Master Partner
	ATP Rich Media Communications
	Master Security Specialization
	Master UC Specialization

Edgar Filing: EPLUS INC - Form 10-Q

	Master Managed Services Partner
Citrix Systems, Inc.	Citrix Gold (National)
EMC	Velocity Premier Level
Hewlett Packard	HP Preferred Elite Partner (National)
IBM	Premier IBM Business Partner (National)
Lenovo	Lenovo Premium (National)
Microsoft	Microsoft Gold (National)
NetApp	NetApp STAR Partner
Oracle Gold Partner	Sun SPA Executive Partner (National)
	Sun National Strategic DataCenterAuthorized
VMware	National Premier Partner

Table Of Contents

We also generate revenue in our technology sales business segment through hosting arrangements and sales of our Internet-based business-to-business supply chain management software, agent fees received from various manufacturers, support fees, warranty reimbursements, settlement fees related to disputes or litigation and interest income. Our revenues also include earnings from certain transactions that are infrequent, and there is no guarantee that future transactions of the same nature, size or profitability will occur. Our ability to consummate such transactions, and the timing thereof, may depend largely upon factors outside the direct control of management. The earnings from these types of transactions in a particular period may not be indicative of the earnings that can be expected in future periods. These revenues are reflected on our unaudited condensed consolidated statements of operations under fee and other income.

Financing Business Segment

The financing business segment offers lease financing solutions to corporations and governmental entities nationwide. The financing business segment derives revenue from leasing primarily IT and medical equipment and the disposition of that equipment at the end of the lease. These revenues are reflected under lease revenues in our unaudited condensed consolidated statements of operations.

Lease revenues consist of amortization of unearned income on direct financing and sales-type leases, rentals due under operating leases, net gains or losses on the sales of lease payments and residual values, and sales of equipment at the end of a lease, as well as other post-term lease revenue. The types of revenue and costs recognized by us are determined by each lease's individual classification. Each lease is classified as either a direct financing lease, sales-type lease, or operating lease, as appropriate.

- For direct financing and sales-type leases, we record the net investment in leases, which consists of the sum of the minimum lease payments, initial direct costs (direct financing leases only), and unguaranteed residual value (gross investment) less the unearned income. The unearned income is amortized over the life of the lease using the interest method. Under sales-type leases, the difference between the present value of minimum lease payments and the cost of the leased property plus initial direct costs (net margins) is recorded as profit at the inception of the lease.
- For operating leases, rental amounts are accrued on a straight-line basis over the lease term and are recognized as lease revenue.

We account for the transfer of lease payments and notes receivables that meet the definition of financial assets and certain criteria outlined in Transfers and Servicing in the Codification, including surrender of control, as sales for financial reporting purposes. The net gain on the transfer of these financial assets is recognized in lease revenues in our unaudited condensed consolidated statements of operations.

Our financing business segment may sell the underlying equipment in the lease to the lessee or a third party other than the lessee. These sales occur at the end of the lease term and revenues from the sales of such equipment are recognized at the date of sale. The net gain or loss on these transactions is presented within lease revenue in our unaudited condensed consolidated statement of operations.

We also recognize revenue from events that occur after the initial sale of a financial asset and from remarketing fees from our off-lease equipment. These revenues are reflected in our unaudited condensed consolidated statements of operations under fee and other income.

Fluctuations in Revenues

Our results of operations are susceptible to fluctuations for a number of reasons, including, without limitation, customer demand for our products and services, supplier costs, interest rate fluctuations, general economic conditions,

and differences between estimated residual values and actual amounts realized related to the equipment we lease. Operating results could also fluctuate as a result of a sale prior to the expiration of the lease term to the lessee or to a third party or from other post-term events.

We expect to continue to expand or open new sales locations and hire additional staff for specific targeted market areas in the near future whenever we can find both experienced personnel and desirable geographic areas. These investments may reduce our results from operations in the short term.

Table Of Contents

RECENTLY ADOPTED ACCOUNTING PRONOUNCEMENTS

In October 2009, the FASB issued an update to amend Revenue Recognition in the Codification. This update removes the fair value criterion from the separation criteria for multiple deliverables arrangements. It also replaces references to “fair value” with “selling price” to distinguish from the fair value measurements required under Fair Value Measurements and Disclosures in the Codification, provides a hierarchy that entities must use to estimate the selling price, eliminates the use of the residual method for allocation, and expands the ongoing disclosure requirements. We adopted this update on April 1, 2011. Refer to Note 6, “Revenue Arrangements with Multiple Deliverables,” for additional information.

RECENT ACCOUNTING PRONOUNCEMENTS NOT YET ADOPTED

In June 2011, the FASB issued an update to amend Comprehensive Income in the Codification. This update eliminates the option to present the components of other comprehensive income within the statement of changes in stockholders’ equity. Companies are required to present components of net income, total net income, components of other comprehensive income, total other comprehensive income, and a total amount for comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. This update is effective for us beginning on April 1, 2012.

In September 2011, the FASB issued an update to amend Intangibles-Goodwill and Other in the Codification. While this amendment does not change the calculation of goodwill impairment, it simplifies how companies test goodwill for impairment. Under this amendment, a company would be permitted to first assess qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount. If the fair value of a reporting unit is more than the carrying account, it is not necessary to perform the two-step goodwill impairment test described in Intangibles-Goodwill and Other in the Codification. The more-likely-than-not threshold is defined as having a likelihood of more than 50 percent. This update is effective for us beginning on April 1, 2012.

CRITICAL ACCOUNTING ESTIMATES

The preparation of financial statements in conformity with U.S. GAAP requires management to use judgment in the application of accounting policies, including making estimates and assumptions. If our judgment or interpretation of the facts and circumstances relating to various transactions had been different, or different assumptions were made, it is possible that alternative accounting policies would have been applied, resulting in a change in financial results. On an ongoing basis, we reevaluate our estimates, including those related to revenue recognition, residual values, vendor consideration, lease classification, goodwill and intangibles, reserves for credit losses and income taxes specifically relating to uncertain tax positions. We base estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. For all of these estimates, we caution that future events rarely develop exactly as forecasted, and therefore, these estimates may require adjustment.

We consider the following accounting policies important in understanding the potential impact of our judgments and estimates on our operating results and financial condition. For additional information on these and other accounting policies, see Note 1, “Organization and Summary of Significant Accounting Policies” to our audited financial statements contained in our Form 10-K for the year ended March 31, 2011.

REVENUE RECOGNITION. The majority of our revenues are derived from three sources: sales of products and services, lease revenues and sales of our software. Our revenue recognition policies vary based upon these revenue sources. Generally, sales are recognized when the title and risk of loss are passed to the customer, there is persuasive

evidence of an arrangement for sale, delivery has occurred and/or services have been rendered, the sales price is fixed or determinable and collectability is reasonably assured. Using these tests, the vast majority of our product sales are recognized upon delivery due to our sales terms with our customers and with our vendors. For proper cutoff, we estimate the product delivered to our customers at the end of each quarter based upon historical delivery dates.

We also sell services that are performed in conjunction with product sales. We adopted ASU 2009-13 Revenue Recognition on a prospective basis on April 1, 2011. For bundled arrangements entered into after March 31, 2011, we allocated the total arrangement consideration to the deliverables based on an estimated selling price of our products and services. We determined the estimated selling price using cost plus a reasonable margin for each deliverable, which was based on our established policies and procedures for providing customers with quotes, as well as historical gross margins for our products and services. Revenue for the sales of products is generally recognized upon delivery to the customers and revenue for the services is generally recognized when the services are complete, which normally occurs within 90 days after the products are delivered to the customer.

Table Of Contents

We classify our investments in leases as either a direct financing lease, sales-type lease, or operating lease, as appropriate. Revenue on direct financing and sales-type leases is deferred at the inception of the leases and is recognized over the term of the lease using the interest method. Revenue on operating leases is recorded on a straight line basis over the lease term.

RESIDUAL VALUES. Residual values represent our estimated value of the equipment at the end of the initial lease term. Our estimated residual values will vary, both in amount and as a percentage of the original equipment cost, and depend upon several factors, including the equipment type, manufacturer's discount, market conditions, lease term, equipment supply and demand, and new product announcements by manufacturers.

We evaluate residual values on a quarterly basis and record any required impairments of residual value, in the period in which the impairment is determined. No upward adjustment to residual values is made subsequent to lease inception.

GOODWILL AND INTANGIBLE ASSETS. Goodwill represents the premium paid over the fair value of net tangible and intangible assets we have acquired in business combinations. We review our goodwill for impairment annually in the third quarter, or more frequently if indicators of impairment exist. A significant amount of judgment is involved in determining if an indicator of impairment has occurred. Such indicators may include a sustained, significant decline in our share price and market capitalization, a decline in our expected future cash flows, a significant adverse change in legal factors or in the business climate, unanticipated competition, and/or slower growth rates, among others.

To assess goodwill for impairment, we compare the fair value of our reporting units with its carrying value. We estimate the fair value of the reporting unit using various valuation methodologies, including discounted expected future cash flows. If the fair value of the reporting unit exceeds its carrying value, goodwill is not impaired, and no further testing is necessary. If the net book value of our reporting unit exceeds its fair value, we perform a second test to measure the amount of impairment loss, if any. To measure the amount of any impairment loss, we determine the fair value of goodwill in the same manner as if our reporting unit were being acquired in a business combination. Specifically, we allocate the fair value of the reporting unit to all of the assets and liabilities of that unit, including any unrecognized intangible assets, in a hypothetical calculation that would yield the estimated fair value of goodwill. If the estimated fair value of goodwill is less than the goodwill recorded on our balance sheet, we record an impairment charge for the difference.

We will perform our impairment test of goodwill in the third quarter of fiscal 2012.

VENDOR CONSIDERATION. We receive payments and credits from vendors, including consideration pursuant to volume sales incentive programs, volume purchase incentive programs and shared marketing expense programs. Many of these programs extend over one or more quarters' sales activities and are primarily formula-based. Different programs have different vendor/program specific goals to achieve. These programs can be very complex to calculate and, in some cases, targets are estimated based upon historical data.

Vendor consideration received pursuant to volume sales incentive programs is recognized as a reduction to cost of sales, product and services on our unaudited condensed consolidated statements of operations. Vendor consideration received pursuant to volume purchase incentive programs is allocated to inventories based on the applicable incentives from each vendor and is recorded in cost of sales, product and services, as the inventory is sold. Vendor consideration received pursuant to shared marketing expense programs is recorded as a reduction of the related selling and administrative expenses in the period the program takes place only if the consideration represents a reimbursement of specific, incremental, identifiable costs. Consideration that exceeds the specific, incremental, identifiable costs is classified as a reduction of cost of sales, product and services on our unaudited condensed consolidated statements of

operations.

RESERVES FOR CREDIT LOSSES. We maintain our reserves for credit losses at a level believed by management to be adequate to absorb potential losses inherent in the respective balances. We assign an internal credit quality rating to all new customers and update these ratings regularly, but no less than annually. Management's determination of the adequacy of the reserve for credit losses for our accounts and notes receivable is based on the age of the receivable balance, the customer's credit quality rating, an evaluation of historical credit losses, current economic conditions, and other relevant factors.

Management's determination of the adequacy of the reserve for credit losses for minimum lease payments associated with investments in direct financing and sales-type leases may be based on the following factors: an internally assigned credit quality rating, historical credit loss experience, current economic conditions, volume, growth, the composition of the lease portfolio, the fair value of the underlying collateral, and the funding status (i.e. not funded, funded on a recourse or partial recourse basis, or funded on non-recourse basis).

Table Of Contents

RESERVES FOR SALES RETURNS. Sales are reported net of returns and allowances, which are maintained at a level believed by management to be adequate to absorb potential sales returns from product and services. Management's determination of the adequacy of the reserve is based on an evaluation of historical sales returns and other relevant factors. These determinations require considerable judgment in assessing the ultimate potential for sales returns and include consideration of the volume of product sold.

INCOME TAXES. We make certain estimates and judgments in determining income tax expense for financial statement reporting purposes. These estimates and judgments occur in the calculation of certain tax assets and liabilities, which principally arise from differences in the timing of recognition of revenue and expense for tax and financial statement reporting purposes. We also must analyze income tax reserves, as well as determine the likelihood of recoverability of deferred tax assets, and adjust any valuation allowances accordingly.

Considerations with respect to the recoverability of deferred tax assets include the period of expiration of the tax asset, planned use of the tax asset, and historical and projected taxable income as well as tax liabilities for the tax jurisdiction to which the tax asset relates. Valuation allowances are evaluated periodically and will be subject to change in each future reporting period as a result of changes in one or more of these factors. The calculation of our tax liabilities also involves considering uncertainties in the application of complex tax regulations. We recognize liabilities for uncertain income tax positions based on our estimate of whether, and the extent to which, additional taxes will be required.

BUSINESS COMBINATIONS. We account for business combinations using the acquisition method, which requires that the total purchase price of each of the acquired entities be allocated to the assets acquired and liabilities assumed based on their fair values at the acquisition date. The allocation process requires an analysis of intangible assets, customer relationships, trade names, acquired contractual rights and assumed contractual commitments and legal contingencies to identify and record all assets acquired and liabilities assumed at their fair value.

Any excess of the purchase price over the fair value of assets acquired and liabilities assumed is recorded as goodwill. To the extent the purchase price is less than the fair value of assets acquired and liabilities assumed, we recognize a gain in our unaudited condensed consolidated statements of operations. The results of operations for an acquired company are included in our financial statements from the date of acquisition.

RESULTS OF OPERATIONS

Three and Six Months Ended September 30, 2011 Compared to Three and Six Months Ended September 30, 2010

Technology Sales Business Segment

The results of operations for our technology sales business segment for the three and six months ended September 30, 2011 and 2010 were as follows (in thousands):

	Three Months Ended September 30,					Six Months Ended September 30,				
	2011	2010	Change			2011	2010	Change

Total costs and expenses	245,613	214,250	31,363	14.6	%	445,455	388,311	57,144	14.7	%
Earnings before provision for income taxes	\$9,203	\$9,224	\$(21)	(0.2	%)	\$13,236	\$12,974	\$262	2.0	%

Table Of Contents

Total revenues. Total revenues during the three months ended September 30, 2011 were \$254.8 million compared to \$223.5 million during the three months ended September 30, 2010, an increase of 14.0%. Total revenues increased 14.3% to \$458.7 million during the six months ended September 30, 2011 as compared to the same period last fiscal year. The increase in revenues for the quarter and year to date periods was due to investments made over the last twelve months to improve our product and service offerings and expand our geographical footprint, the adoption of the new revenue recognition guidance, and other increases primarily driven by customer demand. On April 1, 2011, we implemented new revenue recognition guidance for multiple deliverable arrangements and recognized \$12.0 million and \$16.9 million of revenues for the three and six months ended September 30, 2011 for products that were delivered during the periods that were sold together with services. Refer to Note 6, "Revenue Arrangements with Multiple Deliverables," for additional information. Prior to the adoption of this standard, we would have deferred the product revenue and costs until the services were completed. The sequential and year over year change in sales of products and services is summarized below:

	Sequential	Year over Year
September 30, 2010	26.0%	40.9%
December 31, 2010	(1.1%)	34.4%
March 31, 2011	(8.1%)	21.3%
June 30, 2011	0.4%	15.0%
September 30, 2011	25.1%	14.2%

We rely on our vendors to fulfill shipments to our customers, which have been occurring on a regular basis. Our average open orders for the twelve months ended September 30, 2011 and 2010 were \$49.2 million and \$45.9 million, respectively. In addition, we had deferred revenue of \$17.9 million at September 30, 2011, compared to \$32.8 million at September 30, 2010, relating to bundled hardware and service arrangements that were not completed at September 30, 2011.

Total costs and expenses. Total costs and expenses for the three months ended September 30, 2011 increased \$31.4 million or 14.6%, to \$245.6 million. Total costs and expenses for the six months ended September 30, 2011 increased 14.7% to \$445.5 million compared to \$388.3 million during the same period last year. These increases corresponded to the increases in cost of sales, products and services, salaries and benefits and general and administrative expenses, partially offset by a reduction in professional and other fees. The increase in cost of sales, products and services was generally consistent with the increase in sales of products and services. Our gross margin on sales of products and services was 13.9% and 14.4% during the three months ended September 30, 2011 and 2010, respectively, and 14.0% and 14.3% during the six months ended September 30, 2011 and 2010, respectively. Our gross margin was affected by the mix between products and services, vendor incentives earned, and competitive pricing pressures. There are ongoing changes to the incentives programs offered to us by our vendors. Accordingly, if we are unable to maintain the level of manufacturer incentives we are currently receiving, gross margins may decrease.

Professional and other fees totaled \$2.0 million during the three months ended September 30, 2011, a decrease of 40.6% from \$3.3 million during the same period last year. Professional and other fees totaled \$4.1 million during the six months ended September 30, 2011, a decrease of 38.3% from \$6.6 million during the same period last year. These decreases are primarily due to legal and other fees related to the patent infringement litigation, which were \$0.7

million and \$2.3 million for the three months ended September 30, 2011 and 2010, respectively, and \$1.9 million and \$4.4 million for the six months ended September 30, 2011 and 2010, respectively. These types of patent infringement cases are complex in nature, are likely to have significant expenses associated with them. We cannot predict whether we will be successful in our claims for damages, whether any award ultimately received will exceed the costs incurred to pursue these matters, or how long it will take to bring these matters to resolution.

Salaries and benefits expense increased 19.7% to \$21.7 million and 20.1% to \$42.4 million during the three and six months ended September 30, 2011, respectively. This increase was driven by increases in the number of employees and commission expenses. Our technology sales business segment had 700 employees as of September 30, 2011, an increase of 102 from 598 at September 30, 2010. Substantially all of the increase relates to sales, marketing and engineering personnel. We continue to invest in sales and support personnel through hiring and strategic acquisitions in order to expand our geographical presence in the continental U.S. as well as extend our advanced technology solutions offerings. In addition, commission expenses increased due to the increase in the sales of products and services during the three and six months ended September 30, 2011.

General and administrative expenses increased \$947 thousand, or 28.5% and \$1.9 million, or 30.9% during the three and six months ended September 30, 2011, respectively, partially due to the acquisitions of NCC and Interchange Technologies, Inc. ("ITI Technologies") in June 2011 and November 2010, respectively, as well as higher travel and other expenses associated with the increase in sales and support personnel.

Table Of Contents

Segment earnings before provision for income taxes. As a result of the foregoing, segment earnings decreased \$21 thousand, or 0.2% to \$9.2 million for the three months ended September 30, 2011. Segment earnings increased \$262 thousand, or 2.0% to \$13.2 million for the six months ended September 30, 2011.

Financing Business Segment

The results of operations for our financing business segment for the three and six months ended September 30, 2011 and 2010 were as follows (in thousands):

	Three months ended September 30,				Six Months Ended September 30,			
	2011	2010	Change		2011	2010	Change	
Lease revenue	\$ 7,305	\$ 8,835	\$ (1,530)	(17.3 %)	\$ 14,739	\$ 19,264	\$ (4,525)	(23.5 %)
Fee and other income	729	708	21	3.0 %	\$ 964	1,485	(521)	(35.1 %)
Total revenues	8,034	9,543	(1,509)	(15.8 %)	15,703	20,749	(5,046)	(24.3 %)
Direct lease costs	2,078	1,856	222	12.0 %	4,174	4,690	(516)	(11.0 %)
Professional and other fees	369	359	10	2.8 %	720	649	71	10.9 %
Salaries and benefits	2,373	2,459	(86)	(3.5 %)	4,717	5,366	(649)	(12.1 %)
General and administrative	240	333	(93)	(27.9 %)	506	660	(154)	(23.3 %)
Segment earnings	2,974	4,536	(1,562)	(34.4 %)	5,586	9,384	(3,798)	(40.5 %)
Interest and financing costs	329	673	(344)	(51.1 %)	691	1,435	(744)	(51.8 %)
Total costs and expenses	5,389	5,680	(291)	(5.1 %)	10,808	12,800	(1,992)	(15.6 %)
Earnings before provision for income taxes	\$ 2,645	\$ 3,863	\$ (1,218)	(31.5 %)	\$ 4,895	\$ 7,949	\$ (3,054)	(38.4 %)

Total revenues. Total revenues decreased by \$1.5 million, or 15.8%, to \$8.0 million for the three months ended September 30, 2011, as compared to the prior year. Lease revenues decreased \$1.5 million, or 17.3% as compared to the prior year, due to a reduction in the net gain on sales of off lease equipment coupled with decreases in earnings from our lease portfolio. Lease revenues decreased \$4.5 million, or 23.5% to \$14.7 million for the six months ended September 30, 2011, compared to the same period last year, due to a decreases in the net gain on sales of leases and leased equipment of \$2.0 million, a decrease in our lease portfolio earnings due to a reduction in our portfolio, as well as decreases in other lease income. At September 30, 2011, we had \$108.9 million of investment in leases, compared to \$124.7 million at September 30, 2010, a decrease of \$15.8 million or 12.7%. The decrease in the lease portfolio was due to lease terminations, cash collections and transfers of leases, partially offset by the addition of new leases. Fee and other income for the three months ended September 30, 2011 was consistent with prior period, however it decreased \$521 thousand for the six months ended September 30, 2011 due to decreases in remarketing fees.

Total costs and expenses. During the three months ended September 30, 2011, total costs and expenses decreased 5.1% to \$5.4 million, compared to the same period last year, due to decreases in interest and financing costs, general and administrative expenses and salaries and benefits, offset by increases in direct lease costs. Direct lease costs increased 12.0% to \$2.1 million during the three months ended September 30, 2011. This increase was primarily due to an increase in amortization of indirect lease cost and our provision for credit losses. During the six months ended

September 30, 2011, total costs and expenses decreased 15.6% to \$10.8 million as compared to the same period last year, mostly driven by decreases in direct lease costs, salaries and benefits and interest and financing cost. Direct lease costs decreased 11.0% to \$4.2 million during the six months ended September 30, 2011. This decrease was due to a decrease in depreciation of our operating leases and a decrease in our provision for credit losses.

Salaries and benefits expense decreased 3.5% to \$2.4 million and 12.1% to \$4.7 million during the three and six months ended September 30, 2011, respectively, as compared to September 30, 2010 primarily due to decreases in accrued bonus and commission expenses.

Interest and financing costs decreased \$344 thousand, or 51.1% and \$744 thousand, or 51.8% during the three and six months ended September 30, 2011, respectively, as compared to the same period last year. These decreases were primarily the result of lower non-recourse note balances as we utilized our cash for new leases, thus funding fewer leases with non-recourse notes payable, which decreased 44.4% to \$23.0 million at September 30, 2011 as compared to \$41.3 million at September 30, 2010.

Table Of Contents

Segment earnings before provision for income taxes. As a result of the foregoing, segment earnings decreased \$1.2 million, or 31.5%, to \$2.6 million for the three months ended September 30, 2011. Segment earnings were \$4.9 million for the six months ended September 30, 2011, a decrease of 38.4%, as compared to \$7.9 million during the six months ended September 30, 2010.

Consolidated

Income taxes. Our provision for income tax expense decreased \$0.4 million to \$4.8 million for the three months ended September 30, 2011, and \$0.9 million to \$7.4 million for the six months ended September 30, 2011. Our effective income tax rate for the three and six months ended September 30, 2011 was 40.4% and 40.6%, as compared to 39.6% and 39.7% for the three and six months ended September 30, 2010. The change in our effective income tax rate was due to increases in our state apportionment factors.

Net earnings. The foregoing resulted in net earnings of \$7.1 million for the three months ended September 30, 2011, a decrease of 10.7%, as compared to \$7.9 million during the three months ended September 30, 2010. Net earnings were \$10.8 million for the six months ended September 30, 2011, a decrease of 14.7%, as compared to \$12.6 million during the six months ended September 30, 2010.

Basic and fully diluted earnings per common share were \$0.87 and \$0.85 for the three months ended September 30, 2011, respectively, as compared to \$0.97 and \$0.94, for the three months ended September 30, 2010. Basic and fully diluted earnings per common share were \$1.31 and \$1.28 for the six months ended September 30, 2011, respectively, as compared to \$1.55 and \$1.51, for the six months ended September 30, 2010.

Weighted average common shares outstanding used in the calculation of basic and diluted earnings per common share for the three months ended September 30, 2011 were 8,153,495 and 8,327,748, respectively. Weighted average common shares outstanding used in the calculation of basic and diluted earnings per common share for the three months ended September 30, 2010 were 8,131,088 and 8,384,154, respectively.

Weighted average common shares outstanding used in the calculation of basic and diluted earnings per common share for the six months ended September 30, 2011 were 8,230,022 and 8,422,099, respectively. Weighted average common shares outstanding used in the calculation of basic and diluted earnings per common share for the six months ended September 30, 2010 were 8,127,228 and 8,348,346, respectively.

LIQUIDITY AND CAPITAL RESOURCES

Liquidity Overview

Our primary sources of liquidity have historically been cash and cash equivalents, internally generated funds from operations, and borrowings, both non-recourse and recourse. We have used those funds to meet our capital requirements, which have historically consisted primarily of working capital for operational needs, capital expenditures, purchases of equipment for lease, payments of principal and interest on indebtedness outstanding, acquisitions and the repurchase of shares of our common stock.

Our subsidiary ePlus Technology, inc., part of our technology sales business segment, finances its operations with funds generated from operations, and with a credit facility from GECDF, which is described in more detail below. There are two components of this facility: (1) a floor plan component; and (2) an accounts receivable component. After a customer places a purchase order with us and we have completed our credit check, we place an order for the equipment with one of our vendors. Generally, most purchase orders from us to our vendors are first financed under the floor plan component and reflected in “accounts payable—floor plan” in our unaudited condensed consolidated balance

sheets. Payments on the floor plan component are due on three specified dates each month, generally 30-45 days from the invoice date. On the due date of the invoices financed by the floor plan component, the invoices are paid by the accounts receivable component of the credit facility. The balance of the accounts receivable component is then reduced by payments from our available cash. The outstanding balance under the accounts receivable component is recorded as recourse notes payable on our unaudited condensed consolidated balance sheets. There was no outstanding balance of recourse notes payable at September 30, 2011 or March 31, 2011, while the maximum credit limit was \$30.0 million for both periods. The borrowings and repayments under the floor plan component are reflected as “net borrowings on floor plan facility” in the cash flows from financing activities section of our unaudited condensed consolidated statements of cash flows.

Table Of Contents

Most customer payments in our technology sales business segment are remitted to our lockboxes. Once payments are cleared, the monies in the lockbox accounts are automatically transferred to our operating account on a daily basis. On the due dates of the floor plan component, we make cash payments to GECDF. These payments from the accounts receivable component to the floor plan component and repayments from our cash are reflected as “Net borrowings on floor plan facility” in the cash flows from financing activities section of our unaudited condensed consolidated statements of cash flows. We engage in this payment structure in order to minimize our interest expense and bank fees in connection with financing the operations of our technology sales business segment.

We believe that cash on hand, and funds generated from operations, together with available credit under our credit facility, will be sufficient to finance our working capital, capital expenditures and other requirements for at least the next twelve calendar months.

Our ability to continue to fund our planned growth, both internally and externally, is dependent upon our ability to generate sufficient cash flow from operations or to obtain additional funds through equity or debt financing, or from other sources of financing, as may be required. While at this time we do not anticipate requiring any additional sources of financing to fund operations, if demand for IT products declines, our cash flows from operations may be substantially affected.

Cash Flows

The following table summarizes our sources and uses of cash over the periods indicated (in thousands):

	Six Months Ended September 30,	
	2011	2010
Net cash used in operating activities	\$ (20,125)	\$ (21,824)
Net cash used in investing activities	(2,613)	(4,610)
Net cash (used in) provided by financing activities	(7,592)	9,653
Effect of exchange rate changes on cash	(20)	(9)
Net decrease in cash and cash equivalents	\$ (30,350)	\$ (16,790)

Cash flows from operating activities. Cash used in operating activities totaled \$20.1 million during the six months ended September 30, 2011, compared to \$21.8 million during the same period last year. Cash used in operations during the six months ended September 30, 2011 resulted primarily from increases in accounts receivable-net of \$30.3 million which is due to the increase in sales of products and services.

Cash flows from investing activities. Cash used in investing activities were \$2.6 million during the six months ended September 30, 2011, compared to \$4.6 million during the same period last year. Cash used in investing activities during the six months ended September 30, 2011 was primarily driven by the acquisition of NCC of \$3.5 million and purchases of property, equipment and operating lease equipment of \$3.1 million, partially offset by a net increase of cash flow from the issuance, repayments and transfer of notes receivable of \$2.9 million.

Cash flows from financing activities. Cash used in financing activities was \$7.6 million during the six months ended September 30, 2011, compared to cash provided by financing activities of \$9.6 million during the same period last year. Cash used in financing activities during the six months ended September 30, 2011 was primarily due to repurchases of our common stock of \$10.0 million, partially offset by net borrowings from non-recourse notes payable of \$2.0 million.

Table Of Contents

Non-Cash Activities

We assign lease payments to third-party financial institutions, which are accounted for as non-recourse notes payable financing activities. As a condition to the assignment agreement, certain financial institutions may request that the lessee remit their lease payments to a trustee rather than to us, and the trustee pays the financial institution. Alternatively, if the structure of the agreement does not require a trustee, the lessee will continue to make payments to us, and we will remit the payment to the financial institution. The economic impact to us under either assignment structure is similar, in that the assigned lease receivable is paid by the lessee and remitted to the lender to pay down the corresponding non-recourse notes payable. However, these assignment structures are classified differently within our unaudited condensed consolidated statement of cash flows. More specifically, we are required to exclude non-cash transactions from our unaudited condensed consolidated statement of cash flows, so lease payments made by the lessee to the trustee are excluded from our operating cash receipts and the corresponding re-payment of the non-recourse notes payable from the trustee to the third party financial institution are excluded from our cash flows from financing activities. Given the assignment of lease payment is economically the same regardless of the structure of the payments, we evaluate our cash flows from operating and financing activities as if the assignments of lease payments had been structured without an intermediary.

The non-GAAP financial measure for our cash flows from operating activities for the six months ended September 30, 2011 and 2010 is as follows (in thousands):

	Six Months Ended September 30,	
	2011	2010
GAAP: net cash used in operating activities	\$ (20,125)	\$ (21,824)
Principal payments from lessees directly to lenders	8,627	15,164
Non-GAAP: adjusted net cash used in operating activities	\$ (11,498)	\$ (6,660)

The non-GAAP financial measure for our cash flows from financing activities for the six months ended September 30, 2011 and 2010 is as follows (in thousands):

	Six Months Ended September 30,	
	2011	2010
GAAP: net cash (used in) provided by financing activities	\$ (7,592)	\$ 9,653
Principal payments from lessees directly to lenders	(8,627)	(15,164)
Non-GAAP: adjusted net cash used in financing activities	\$ (16,219)	\$ (5,511)

A “non-GAAP financial measure” is a numerical measure of a company’s historical or future financial performance, financial position or cash flows that excludes amounts, or is subject to adjustments that have the effect of excluding amounts, that are included in the most directly comparable measure calculated and presented in accordance with U.S. GAAP in the statement of income, balance sheet or statement of cash flows of the company; or includes amounts, or is subject to adjustments that have the effect of including amounts, that are excluded from the most directly comparable measure so calculated and presented. We use the financial measures in our internal evaluation and management of our business. We believe that these measures and the information they provide are useful to investors because they permit investors to view our performance using the same tools that we use and to better evaluate our ongoing business performance. These measures should not be considered an alternative to measurements required by U.S. GAAP, such

as cash (used in) provided by operating activities and cash (used in) provided by financing activities. These non-GAAP measures are unlikely to be comparable to non-GAAP information provided by other companies.

Liquidity and Capital Resources

We may utilize non-recourse notes payable to finance approximately 80% to 100% of the purchase price of the products being leased by our customers. Any balance of the purchase price remaining after non-recourse funding and any upfront payments received from the lessee (our equity investment in the equipment) must generally be financed by cash flows from our operations, the sale of the equipment leased to third parties, or other internal means. Although we expect that the credit quality of our leases and our residual return history will continue to allow us to obtain such financing, such financing may not be available on acceptable terms, or at all.

The financing necessary to support our leasing activities has been provided by our cash and non-recourse borrowings. We monitor our exposure closely. Historically, we have obtained recourse and non-recourse borrowings from banks and finance companies. We continue to be able to obtain financing through our traditional lending sources. Non-recourse financings are loans whose repayment is the responsibility of a specific customer, although we may make representations and warranties to the lender regarding the specific contract or have ongoing loan servicing obligations. Under a non-recourse loan, we borrow from a lender an amount based on the present value of the contractually committed lease payments under the lease at a fixed rate of interest, and the lender secures a lien on the financed assets. When the lender is fully repaid from the lease payments, the lien is released and all further rental or sale proceeds are ours. We are not liable for the repayment of non-recourse loans unless we breach our representations and warranties in the loan agreements. The lender assumes the credit risk of each lease, and the lender's only recourse, upon default by the lessee, is against the lessee and the specific equipment under lease. At September 30, 2011, our non-recourse notes payable portfolio decreased 22.4% to \$23.0 million, as compared to \$29.6 million at March 31, 2011.

Table Of Contents

Whenever desirable, we arrange for equity investment financing, which includes selling lease payments, including the residual portions, to third parties and financing the equity investment on a non-recourse basis. We generally retain customer control and operational services, and have minimal residual risk. We usually reserve the right to share in remarketing proceeds of the equipment on a subordinated basis after the investor has received an agreed-to return on its investment.

Credit Facility — Technology Business

Our subsidiary, ePlus Technology, inc., has a financing facility from GECDF to finance its working capital requirements for inventories and accounts receivable. There are two components of this facility: (1) a floor plan component; and (2) an accounts receivable component. This facility has full recourse to ePlus Technology, inc. and is secured by a blanket lien against all its assets, such as chattel paper, receivables and inventory. As of September 30, 2011, the facility had an aggregate limit of the two components of \$125.0 million with an accounts receivable sub-limit of \$30.0 million. Availability under the GECDF facility may be limited by the asset value of equipment we purchase and the aging of our accounts receivable and may be further limited by certain covenants and terms and conditions of the facility. These covenants include but are not limited to a minimum total tangible net worth and subordinated debt of ePlus Technology, inc., and maximum debt to tangible net worth ratio of ePlus Technology, inc. We were in compliance with these covenants as of September 30, 2011. In addition, the facility restricts the ability of ePlus Technology, inc. to transfer funds to its affiliates in the form of dividends, loans or advances; however, we do not expect these restrictions to have an impact on the ability of ePlus inc. to meet its cash obligations or materially restrict its ability to undertake additional debt or equity financing. Either party may terminate with 90 days' advance notice. We are not, and do not believe that we are reasonably likely to be, in breach of the GECDF credit facility. In addition, we do not believe that the covenants of the GECDF credit facility materially limit our ability to undertake financing. In this regard, the covenants apply only to our subsidiary, ePlus Technology, inc. This credit facility is secured by the assets of only ePlus Technology, inc. and the guaranty as described below.

The facility provided by GECDF requires a guaranty of up to \$10.5 million by ePlus inc. The loss of the GECDF credit facility could have a material adverse effect on our future results as we currently rely on this facility and its components for daily working capital and liquidity for our technology sales business and as an operational function of our accounts payable process. We believe that we can continue to rely on the availability of this credit facility; however, should the GECDF credit facility no longer be available, we believe we can increase our lines of credit with our vendors and utilize our cash for working capital.

Floor Plan Component

The traditional business of ePlus Technology, inc. as a seller of computer technology, related peripherals and software products, is in part financed through a floor plan component in which interest expense for the first 30 to 45 days, in general, is not charged. The floor plan liabilities are recorded as accounts payable—floor plan on our unaudited condensed consolidated balance sheets, as they are normally repaid within the 30 to 45-day time frame and represent an assigned accounts payable originally generated with the manufacturer/distributor. If the 30 to 45-day obligation is not paid timely, interest is then assessed at stated contractual rates.

The respective floor plan component credit limits and actual outstanding balances for the dates indicated were as follows (in thousands):

Maximum Credit Limit at September 30, 2011	Balance as of September 30, 2011	Maximum Credit Limit at March 31, 2011	Balance as of March 31, 2011
---	---	---	---------------------------------------

\$	125,000	\$	63,760	\$	125,000	\$	63,845
----	---------	----	--------	----	---------	----	--------

Table Of Contents

Accounts Receivable Component

Included within the credit facility, ePlus Technology, inc. has an accounts receivable component from GECDF, which has a revolving line of credit. On the due date of the invoices financed by the floor plan component, the invoices are paid by the accounts receivable component of the credit facility. The balance of the accounts receivable component is then reduced by payments from our available cash. The outstanding balance under the accounts receivable component is recorded as recourse notes payable on our unaudited condensed consolidated balance sheets. There was no outstanding balance at September 30, 2011 or March 31, 2011, while the maximum credit limit was \$30.0 million for both periods.

Credit Facility — General

1st Commonwealth Bank of Virginia provides us with a \$0.5 million credit facility, which will mature on October 26, 2012. This credit facility is available for use by us and our affiliates and is full recourse to us. Borrowings under this facility bear interest at Wall Street Journal U.S. Prime rate plus 1%. The primary purpose of the facility is to provide letters of credit for landlords, taxing authorities and bids. As of September 30, 2011, we have no outstanding balance on this credit facility.

Performance Guarantees

In the normal course of business, we may provide certain customers with performance guarantees, which are generally backed by surety bonds. In general, we would only be liable for the amount of these guarantees in the event of default in the performance of our obligations. We are in compliance with the performance obligations under all service contracts for which there is a performance guarantee, and we believe that any liability incurred in connection with these guarantees would not have a material adverse effect on our financial condition or results of operations.

Off-Balance Sheet Arrangements

As part of our ongoing business, we do not participate in transactions that generate relationships with unconsolidated entities or financial partnerships, such as entities often referred to as structured finance or special purpose entities, which would have been established for the purpose of facilitating off-balance sheet arrangements as defined in Item 303(a)(4)(ii) of Regulation S-K or other contractually narrow or limited purposes. As of September 30, 2011, we were not involved in any unconsolidated special purpose entity transactions.

Adequacy of Capital Resources

The continued implementation of our business strategy will require a significant investment in both resources and managerial focus. In addition, we may selectively acquire other companies that have attractive customer relationships and skilled sales forces. We may also start offices in new geographic areas, which may require a significant investment of cash. We may also acquire technology companies to expand and enhance the platform of bundled solutions to provide additional functionality and value-added services. As a result, we may require additional financing to fund our strategy, implementation and potential future acquisitions, which may include additional debt and equity financing.

Inflation

For the periods presented herein, inflation has been relatively low and we believe that inflation has not had a material effect on our results of operations.

Potential Fluctuations in Quarterly Operating Results

Our future quarterly operating results and the market price of our common stock may fluctuate. In the event our revenues or earnings for any quarter are less than the level expected by securities analysts or the market in general, such shortfall could have an immediate and significant adverse impact on the market price of our common stock. Any such adverse impact could be greater if any such shortfall occurs near the time of any material decrease in any widely followed stock index or in the market price of the stock of one or more public equipment leasing and financing companies, IT resellers, software competitors, major customers or vendors of ours.

Table Of Contents

Our quarterly results of operations are susceptible to fluctuations for a number of reasons, including, but not limited to, reduction in IT spending, our entry into the e-commerce market, any reduction of expected residual values related to the equipment under our leases, the timing and mix of specific transactions, the reduction of manufacturer incentive programs, and other factors. Quarterly operating results could also fluctuate as a result of our sale of equipment in our lease portfolio at the expiration of a lease term or prior to such expiration, to a lessee or to a third party. Such sales of equipment may have the effect of increasing revenues and net income during the quarter in which the sale occurs, and reducing revenues and net income otherwise expected in subsequent quarters. See Part I, Item 1A, “Risk Factors,” in our 2011 Annual Report.

We believe that comparisons of quarterly results of our operations are not necessarily meaningful and that results for one quarter should not be relied upon as an indication of future performance.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Although a portion of our liabilities are non-recourse, fixed-interest-rate instruments, we utilize our line of credit and other financing facilities which are subject to fluctuations in short-term interest rates. These instruments, which are denominated in U.S. dollars, were entered into for other than trading purposes and, with the exception of amounts drawn under the GECDF facility, bear interest at a fixed rate. Because the interest rate on these instruments is fixed, changes in interest rates will not directly impact our cash flows. Borrowings under the GECDF facility bear interest at a market-based variable rate. As of September 30, 2011, the aggregate fair value of our non-recourse notes payable approximated their carrying value.

We have operations in Canada and Iceland. As such, we have entered into lease contracts and non-recourse, fixed-interest-rate financing denominated in Canadian dollars and Icelandic krona. To date, our Canadian and Icelandic operations have been insignificant and we believe that potential fluctuations in currency exchange rates will not have a material effect on our financial position.

Item 4. Controls and Procedures

As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer (“CEO”) and our Chief Financial Officer (“CFO”), of the effectiveness of the design and operation of our disclosure controls and procedures, or “disclosure controls,” as defined in Securities Exchange Act of 1934 (“Exchange Act”) Rule 13a-15(e). Disclosure controls are controls and procedures designed to reasonably ensure that information required to be disclosed in our reports filed under the Exchange Act, such as this quarterly report, is recorded, processed, summarized and reported within the time periods specified in the U.S. Securities and Exchange Commission’s rules and forms. Disclosure controls include, without limitation, controls and procedures designed to ensure that information required to be disclosed in our reports filed under the Exchange Act is accumulated and communicated to our management, including our CEO and CFO, or persons performing similar functions, as appropriate, to allow timely decisions regarding required disclosure. Our disclosure controls include some, but not all, components of our internal control over financial reporting. Based upon that evaluation, our CEO and CFO concluded that our disclosure controls and procedures were effective as of September 30, 2011.

Changes in Internal Controls

Internal controls over financial reporting continue to be updated as necessary to accommodate modifications to our business processes and accounting procedures. There have not been any changes in our internal control over financial reporting during the quarter ended September 30, 2011, which have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Limitations on the Effectiveness of Controls

Our management, including our CEO and CFO, does not expect that our disclosure controls or our internal control over financial reporting will prevent or detect all errors and all fraud. A control system cannot provide absolute assurance due to its inherent limitations; it is a process that involves human diligence and compliance and is subject to lapses in judgment and breakdowns resulting from human failures. A control system also can be circumvented by collusion or improper management override. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of such limitations, disclosure controls and internal control over financial reporting cannot prevent or detect all misstatements, whether unintentional errors or fraud. However, these inherent limitations are known features of the financial reporting process; therefore, it is possible to design into the process safeguards to reduce, though not eliminate, this risk.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

Cyberco Related Matters

We have been involved in several matters relating to a former customer named Cyberco Holdings, Inc. (“Cyberco”). The Cyberco principals were perpetrating a scam, and at least five principals have pled guilty to criminal conspiracy and/or related charges, including bank fraud, mail fraud and money laundering. We have previously disclosed our losses relating to Cyberco, and are pursuing avenues to recover those losses.

The only remaining Cyberco related suit in which we are a party is a suit ePlus Group filed in June 2007 in the United States District Court for the Western District of Michigan (the “District Court”) against The Huntington National Bank (“Huntington”). The complaint alleges counts of aiding and abetting fraud, aiding and abetting conversion, and statutory conversion. On or about July 1, 2010, the District Court entered summary judgment in favor of Huntington with regard to our claims in the suit. Our request that the court reconsider its ruling was denied on July 13, 2011. We will consider whether to pursue appellate relief after a final judgment has been entered. While we believe that we have a basis for these claims to recover certain of our losses related to the Cyberco matter, we cannot predict whether we will be successful in our claims for damages, whether any award ultimately received will exceed the costs incurred to pursue these matters, or how long it will take to bring these matters to resolution.

Other Matters

We are the plaintiff in a lawsuit in the United States District Court for the Eastern District of Virginia in which a jury unanimously found that Lawson Software, Inc. (“Lawson”) infringed certain ePlus patents. The jury verdict, which was reached on January 27, 2011, also found that all of ePlus’ patent claims tried in court were not invalid. On May 23, 2011, the court issued a permanent injunction, ordering Lawson and its successors to: immediately stop selling and servicing products relating to its electronic procurement systems that infringe our patents; cease providing any ongoing or future maintenance, training or installation of its infringing products; and refrain from publishing any literature or information that encourages the use or sale of its infringing products. Lawson’s request to stay the injunction was denied, however, Lawson has appealed the trial court’s ruling. We have filed a motion seeking a finding that Lawson is in contempt of the injunction. We anticipate that a hearing on that motion will be held in December 2011, however, court calendars are inherently unpredictable and we cannot predict whether the hearing date will change or when the court will issue a ruling on that motion. We also intend to appeal the trial court’s evidentiary ruling which precluded us from seeking monetary damages.

We may become party to various legal proceedings arising in the ordinary course of business including preference payment claims asserted in customer bankruptcy proceedings, claims of alleged infringement of patents, trademarks, copyrights and other intellectual property rights, claims of alleged non-compliance with contract provisions, employment related claims, claims by competitors, vendors or customers, and claims related to alleged violations of laws and regulations. Although we do not expect that the outcome in any of these matters, individually or collectively, will have a material adverse effect on our financial condition or results of operations, litigation is inherently unpredictable. Therefore, judgments could be rendered or settlements entered that could adversely affect our results of operations or cash flows in a particular period. We provide for costs related to contingencies when a loss is probable and the amount is reasonably determinable.

Item 1A. Risk Factors

There have not been any material changes in the risk factors previously disclosed in Part I, Item 1A of our 2011 Annual Report.

Table Of Contents

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following table provides information regarding our purchases of ePlus inc. common stock during the six months ended September 30, 2011.

Period	Total number of shares purchased (1)	Average price paid per share	Total number of shares purchased as part of publicly announced plans or programs	Maximum number (or approximate dollar value) of shares that may yet be purchased under the plans or programs	
April 1, 2011 to April 30, 2011	-	-	-	488,640	(2)
May 1, 2011 to May 31, 2011	-	-	-	488,640	(3)
June 1, 2011 to June 30, 2011	68,826	\$ 24.51	66,680	421,960	(4)
July 1, 2011 to July 31, 2011	85,136	\$ 27.21	85,136	336,824	(5)
August 1, 2011 to August 31, 2011	102,413	\$ 24.76	90,017	246,807	(6)
September 1, 2011 to September 15, 2011	37,019	\$ 23.92	37,019	209,788	(7)
September 16, 2011 to September 30, 2011	109,106	\$ 23.92	109,106	390,894	(8)

- (1) All shares acquired were in open-market purchases, except for 14,542 shares, which were repurchased to satisfy tax withholding obligations that arose on the vesting of shares of restricted stock.
- (2) The share purchase authorization in place for the month ended April 30, 2011 had purchase limitations on the number of shares of up to 500,000 shares. As of April 30, 2011, the remaining authorized shares to be purchased were 488,640.
- (3) The share purchase authorization in place for the month ended May 31, 2011 had purchase limitations on the number of shares of up to 500,000 shares. As of May 31, 2011, the remaining authorized shares to be purchased were 488,640.
- (4) The share purchase authorization in place for the month ended June 30, 2011 had purchase limitations on the number of shares of up to 500,000 shares. As of June 30, 2011, the remaining authorized shares to be purchased were 421,960.
- (5) The share purchase authorization in place for the month ended July 31, 2011 had purchase limitations on the number of shares of up to 500,000 shares. As of July 31, 2011, the remaining authorized shares to be purchased were 336,824.
- (6) The share purchase authorization in place for the month ended August 31, 2011 had purchase limitations on the number of shares of up to 500,000 shares. As of August 31, 2011, the remaining authorized shares to be purchased were 246,807.
- (7) The share purchase authorization in place for the period from September 1 to September 15, 2011 had purchase limitations on the number of shares of up to 500,000 shares. As of September 15, 2011, the remaining authorized shares to be purchased were 209,788.
- (8) On August 15, 2011 our Board authorized a share repurchase plan commencing on September 16, 2011. The share purchase authorization in place for the period from September 16 to September 30, 2011 had purchase limitations

on the number of shares of up to 500,000 shares. As of September 30, 2011, the remaining authorized shares to be purchased were 390,894.

The timing and expiration date of the stock repurchase authorizations are included in Note 11, "Share Repurchase" to our unaudited condensed consolidated financial statements included elsewhere in this report.

Item 3. Defaults Upon Senior Securities

Not Applicable.

Item 4. (Removed and Reserved)

Item 5. Other Information

None.
