CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

1.BASIS OF PRESENTATION

The accompanying consolidated financial statements should be read in conjunction with the Annual Report on Form 10-K for the fiscal year ended December 31, 2015 for SBA Communications Corporation and its subsidiaries (the "Company"). These financial statements have been prepared in accordance with the instructions to Form 10-Q and Article 10 of Regulation S-X and, therefore, omit or condense certain footnotes and other information normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States. In the opinion of the Company's management, all adjustments (consisting of normal recurring accruals) considered necessary for fair financial statement presentation have been made. The results of operations for an interim period may not give a true indication of the results for the year. Certain reclassifications have been made to prior year amounts or balances to conform to the presentation adopted in the current year.

The preparation of financial statements requires management to make estimates and assumptions that affect the amounts reported in consolidated financial statements and accompanying notes. While the Company believes that such estimates are fair when considered in conjunction with the consolidated financial statements and accompanying notes, the actual amounts, when known, may vary from these estimates.

Foreign Currency Translation

All assets and liabilities of foreign subsidiaries that do not utilize the U.S. dollar as its functional currency are translated at period-end rates of exchange, while revenues and expenses are translated at monthly average rates of exchange prevailing during the period. Unrealized remeasurement gains and losses are reported as foreign currency translation adjustments through Accumulated Other Comprehensive Loss in the accompanying Consolidated Statement of Shareholders' Deficit.

The functional currency for the Company's Central American subsidiaries is the U.S. dollar. Monetary assets and liabilities of such subsidiaries which are not denominated in U.S. dollars are remeasured at exchange rates in effect at the balance sheet date, and revenues and expenses are remeasured at monthly average rates prevailing during the year. Unrealized translation gains and losses are reported as other income (expense), net in the Consolidated Statement of Operations.

Intercompany Loans

In accordance with ASC 830, the Company remeasures foreign denominated intercompany loans with the corresponding change in the balance being recorded in other income (expense), net in the Consolidated Statement of Operations as settlement is anticipated or planned in the foreseeable future. The Company recorded a $3.2 million loss and a $112.1 million loss on the remeasurement of intercompany loans for the three months ended September 30, 2016 and 2015, respectively, and an $89.0 million gain and a $180.4 million loss on the remeasurement of intercompany loans for the nine months ended September 30, 2016 and 2015, respectively.

On July 11, 2016, a wholly owned subsidiary of the Company repaid $22.5 million of the outstanding balance on the intercompany loan with Brazil Shareholder I, LLC, leaving a current outstanding balance of $433.3 million.

Bad Debt Provision

On June 20, 2016, Oi, S.A. ("Oi"), the Company's largest customer in Brazil, filed a petition for judicial reorganization in Brazil. Prior to the filing of the reorganization petition, Oi was current in all payment obligations to the Company. These obligations related to periods ending on or before April 30, 2016. As a result of the relief provisions available in a judicial reorganization proceeding, obligations of Oi to the Company arising from the periods from May 1, 2016 to June 20, 2016 remain unpaid. Due to the uncertainty surrounding the recoverability of amounts owed by Oi relating to services provided prior to the date of Oi's petition, the Company has recorded a $16.5 million bad debt provision (the "Oi reserve") which covers amounts owed or potentially owed by Oi as of the filing date. Under Brazilian law governing judicial reorganizations, the contracts governing post-petition obligations such as tower rents remain unchanged, and debtors do not have the ability to reject or terminate the contracts other than pursuant to their original terms. Since the filing, the Company has received all payments due in connection with obligations of Oi accruing post-petition. The Oi reserve has been recorded in Selling, general, and administrative expense on the accompanying Consolidated Statement of Operations.

New Accounting Pronouncements Recently Adopted

In April 2015, the Financial Accounting Standards Board ("FASB") issued ASU 2015-03, Interest—Imputation of Interest. The standard requires debt issuance costs to be presented on the balance sheet as a direct deduction from the related debt liability rather than as an asset. The Company adopted ASU 2015-03 effective January 1, 2016 and reclassified $90.2 million from deferred financing fees, net to long-term debt in the December 31, 2015 Consolidated Balance Sheet.

In August 2015, the FASB issued ASU 2015-15, Interest - Imputation of Interest - Presentation and Subsequent Measurement of Debt Issuance Costs Associated with Line-of-Credit Arrangements. The standard indicates the Securities and Exchange Commission (the "Commission") staff would not object to presenting debt issuance costs for a line of credit arrangement as an asset in the balance sheet. The Company adopted ASU 2015-15 effective January 1, 2016 and has elected to continue to present debt issuance costs for its Revolving Credit Facility as an asset on the accompanying Consolidated Balance Sheet.

In September 2015, the FASB issued ASU 2015-16 Business Combinations. The standard requires that the acquirer (1) recognize adjustments to provisional amounts that are identified during the measurement period in the reporting period in which the adjustment amounts are determined, (2) record, in the same period's financial statements, the effect on earnings of changes in depreciation, amortization, or other income effects, if any, as a result of the change to the provisional amounts, calculated as if the accounting had been completed at the acquisition date, and (3) to present separately on the face of the income statement or disclose in the notes the portion of the amount recorded in current-period earnings by line item that would have been recorded in previous reporting periods if the adjustment to the provisional amounts had been recognized as of the acquisition date. The Company adopted ASU 2015-16 effective January 1, 2016. The financial statement impact of adopting this standard was not material for all periods presented.

In March 2016, the FASB issued ASU 2016-09, Improvements to Employee Share-Based Payment Accounting, which the Company adopted as of January 1, 2016. The standard simplifies several aspects of the accounting for shared-based payment transactions including accounting for income taxes, forfeitures, statutory tax withholding requirements, classification of awards as either equity or a liability, and classification on the Consolidated Statement of Cash Flows. The financial statement impact of adopting this standard was not material for all periods presented.

In August 2016, the FASB issued ASU 2016-15, Classification of Certain Cash Receipts and Cash Payments, which is intended to decrease the diversity in practice in how certain cash receipts and cash payments are presented in the Consolidated Statement of Cash Flows. The standard requires that (1) cash payments for debt prepayment or debt extinguishment costs be classified as cash outflows for financing activities, (2) contingent consideration payments made soon after the acquisition date of a business combination be classified as cash outflows for investing activities, (3) contingent consideration payments not made soon after the acquisition date of a business combination be separated with cash payments up to the amount of the contingent consideration at the acquisition date be classified as financing activities and any excess be classified as operating activities. The standard is required to be applied retrospectively to each prior reporting period presented. The Company adopted ASU 2016-15 effective January 1, 2016. The financial statement impact of adopting this standard was not material for all periods presented.

Recent Accounting Pronouncements Not Yet Adopted

In May 2014, the FASB released an updated standard regarding the recognition of revenue from contracts with customers, exclusive of those contracts within lease accounting. The new standard is effective for the Company in the first quarter of 2018. Early adoption is permitted but not before the first quarter of 2017. This standard is required to

be applied (1) retrospectively to each prior reporting period presented, or (2) with the cumulative effect being recognized at the date of initial application. The Company is evaluating the standard and does not expect a material financial statement impact upon adoption.

In February 2016, the FASB issued ASU 2016-02, Leases. The standard amends the existing accounting standards for lease accounting, including requiring lessees to recognize most leases on their balance sheets and making targeted changes to lessor accounting. This standard requires a modified retrospective transition approach for all leases existing at, or entered into after, the date of initial application, with an option to use certain transition relief. ASU 2016-02 is effective for the Company in the first quarter of 2019. Early adoption is permitted. The Company is evaluating the standard including the impact on its consolidated financial statements.

2.FAIR VALUE MEASUREMENTS

Items Measured at Fair Value on a Recurring Basis— The Company's earnout liabilities related to acquisitions are measured at fair value on a recurring basis using Level 3 inputs and are recorded in Accrued expenses in the accompanying Consolidated Balance Sheets. Changes in estimate are recorded in Acquisition related adjustments and expenses in the accompanying Consolidated Statement of Operations. The Company determines the fair value of acquisition-related earnouts (contingent consideration) and any subsequent changes in fair value using a discounted probability-weighted approach using Level 3 inputs. Level 3 valuations rely on unobservable inputs for the asset or liability, and include situations where there is little, if any, market activity for the asset or liability. The fair value of the earnouts is reviewed quarterly and is based on the payments the Company expects to make based on historical internal observations related to the anticipated performance of the underlying assets. The Company's estimate of the fair value of its obligation contained in various acquisitions was \$3.8 million and \$7.2 million as of September 30, 2016 and December 31, 2015, respectively. The maximum potential obligation related to the performance targets was \$5.4 million and \$10.2 million as of September 30, 2016 and December 31, 2015, respectively.

The following summarizes the activity of accrued earnouts:

	For the nine months ended September 30,	
	2016	2015
	(in thousands)	
Beginning balance	$ 7,230	$ 15,086
Additions	2,594	3,228
Payments	(3,914)	(3,608)
Change in estimate	(2,098)	(5,299)
Foreign currency translation adjustments	20	(588)
Ending balance	$ 3,832	$ 8,819

Items Measured at Fair Value on a Nonrecurring Basis— The Company's long-lived assets, intangibles, and asset retirement obligations are measured at fair value on a nonrecurring basis using Level 3 inputs. The Company considers many factors and makes certain assumptions when making this assessment, including but not limited to: general market and economic conditions, historical operating results, geographic location, lease-up potential and expected timing of lease-up. The fair value of the long-lived assets, intangibles, and asset retirement obligations is calculated using a discounted cash flow model.

The following summarizes the activity of asset impairment and decommission costs:

	For the three months ended September 30,	For the nine months ended September 30,

	2016	2015	2016	2015
	(in thousands)			
Asset impairment (1)	$ 6,673	$ —	$ 14,138	$ —

Other disposal costs	2	—	82	—
Total asset impairment and decommission costs	$ 2,305	$ 63,353	$ 23,180	$ 74,185

(1) Represents additional impairment charges resulting from the Company's analysis that the future cash flows would not recover the carrying value of the investment resulting from increased lease terminations.

(2) Related to the sale of fiber assets acquired in the 2012 Mobilitie transaction which were impaired during the third quarter of 2015.

Fair Value of Financial Instruments— The carrying values of cash and cash equivalents, accounts receivable, restricted cash, accounts payable, and short-term investments approximate their estimated fair values due to the short maturity of these instruments. Short-term investments consisted of $0.5 million in certificate of deposits as of December 31, 2015, and $0.2 million in Treasury securities as of September 30, 2016 and December 31, 2015. The Company's estimate of the fair value of its held-to-maturity

9

Table of Contents

investments in treasury and corporate bonds, including current portion, are based primarily upon Level 1 reported market values. As of September 30, 2016, the carrying value and fair value of the held-to-maturity investments, including current portion, were $0.9 million. As of December 31, 2015, the carrying value and fair value of the held-to-maturity investments, including current portion, were $0.8 million and $0.9 million, respectively. These amounts are recorded in other assets in the accompanying Consolidated Balance Sheets.

The Company determines fair value of its debt instruments utilizing various Level 2 sources including quoted prices and indicative quotes (non-binding quotes) from brokers that require judgment to interpret market information including implied credit spreads for similar borrowings on recent trades or bid/ask prices. The fair value of the Revolving Credit Facility is considered to approximate the carrying value because the interest payments are based on Eurodollar rates that reset every month. The Company does not believe its credit risk has changed materially from the date the applicable Eurodollar Rate plus 137.5 to 200.0 basis points was set for the Revolving Credit Facility. Refer to Note 10 for the fair values, principal balances, and carrying values of the Company's debt instruments.

3.RESTRICTED CASH

Restricted cash consists of the following:

	As of September 30, 2016	As of December 31, 2015	Included on Balance Sheet
	(in thousands)		
Securitization escrow accounts	$ 24,049	$ 25,135	Restricted cash - current asset
Escrow account for payment of 5.625% Senior Notes	528,128	—	Restricted cash - current asset
Payment and performance bonds	296	218	Restricted cash - current asset
Surety bonds and workers compensation	3,233	3,227	Other assets - noncurrent
Total restricted cash	$ 555,706	$ 28,580	

Pursuant to the terms of the Tower Securities (see Note 10), the Company is required to establish a securitization escrow account, held by the indenture trustee, into which all rents and other sums due on the towers that secure the Tower Securities are directly deposited by the lessees. These restricted cash amounts are used to fund reserve accounts for the payment of (1) debt service costs, (2) ground rents, real estate and personal property taxes and insurance premiums related to towers, (3) trustee and servicing expenses, and (4) management fees. The restricted cash in the securitization escrow account in excess of required reserve balances is subsequently released to the Borrowers (as defined in Note 10) monthly, provided that the Borrowers are in compliance with their debt service coverage ratio and that no event of default has occurred. All monies held by the indenture trustee are classified as restricted cash on the Company's Consolidated Balance Sheets.

On September 30, 2016, the Company paid into escrow $528.1 million consisting of $500.0 million of principal, a $14.1 million call premium, and $14.1 million in accrued interest related to the redemption of the 5.625% Senior Notes. As of September 30, 2016, these amounts were recorded as restricted cash on the Consolidated Balance

Sheet. On October 3, 2016, these funds were released from escrow and the 5.625% Senior Notes obligation was extinguished.

Payment and performance bonds relate primarily to collateral requirements for tower construction currently in process by the Company. Cash is pledged as collateral related to surety bonds issued for the benefit of the Company or its affiliates in the ordinary course of business and primarily related to the Company's tower removal obligations. As of September 30, 2016 and December 31, 2015, the Company had $39.0 million and $38.6 million in surety, payment and performance bonds, respectively, for which it was only required to post $0.5 million and $0.7 million in collateral, respectively. The Company periodically evaluates the collateral posted for its bonds to ensure that it meets the minimum requirements. As of September 30, 2016 and December 31, 2015, the Company had also pledged $2.5 million as collateral related to its workers compensation policy.

Revolving Credit Facility under the Senior Credit Agreement

The Revolving Credit Facility is governed by the Senior Credit Agreement. The Revolving Credit Facility consists of a revolving loan under which up to $1.0 billion aggregate principal amount may be borrowed, repaid and redrawn, based upon specific financial ratios and subject to the satisfaction of other customary conditions to borrowing. Amounts borrowed under the Revolving Credit Facility accrue interest, at SBA Senior Finance II's election, at either (i) the Eurodollar Rate plus a margin that ranges from 137.5 basis points to 200.0 basis points or (ii) the Base Rate plus a margin that ranges from 37.5 basis points to 100.0 basis points, in each case based on the ratio of Consolidated Total Debt to Annualized Borrower EBITDA, calculated in accordance with the Senior Credit Agreement. In addition, SBA Senior Finance II is required to pay a commitment fee of 0.25% per annum on the amount of unused

commitment. If not earlier terminated by SBA Senior Finance II, the Revolving Credit Facility will terminate on, and SBA Senior Finance II will repay all amounts outstanding on or before, February 5, 2020. The proceeds available under the Revolving Credit Facility may be used for general corporate purposes. SBA Senior Finance II may, from time to time, borrow from and repay the Revolving Credit Facility. Consequently, the amount outstanding under the Revolving Credit Facility at the end of a period may not be reflective of the total amounts outstanding during such period.

During the three and nine months ended September 30, 2016, the Company borrowed $150.0 million and $290.0 million, respectively, and repaid $30.0 million and $140.0 million, respectively, of the outstanding balance under the Revolving Credit Facility. As of September 30, 2016, $150.0 million was outstanding under the Revolving Credit Facility. As of September 30, 2016, SBA Senior Finance II was in compliance with the financial covenants contained in the Senior Credit Agreement.

Subsequent to September 30, 2016, the Company borrowed $20.0 million and repaid $50.0 million of the outstanding balance under the Revolving Credit Facility.

The Company incurred deferred financing fees of $9.4 million to date in relation to this transaction which are being amortized through the anticipated repayment date of the 2016-1C Tower Securities.

Debt Covenants

As of September 30, 2016, the Borrowers met the debt service coverage ratio required by the mortgage loan agreement and were in compliance with all other covenants as set forth in the agreement.

Senior Notes

5.75% Senior Notes

On July 13, 2012, SBA Telecommunications, LLC (“Telecommunications”) issued $800.0 million of unsecured senior notes due July 15, 2020 (the “5.75% Senior Notes”). The 5.75% Senior Notes accrued interest at a rate of 5.75% and were issued at par. The Company incurred deferred financing fees of $14.0 million in relation to this transaction which were being amortized through the maturity date.

On August 15, 2016, the Company used proceeds from the 2016 Senior Notes (defined below) to redeem the full $800.0 million in aggregate principal amount of the 5.75% Senior Notes and to pay $25.8 million for the call premium and accrued interest on the redemption of the notes. Additionally, the Company wrote off $7.7 million of deferred financing fees related to the redemption of the

notes. The call premium and the write off of deferred financing fees are reflected in loss from extinguishment of debt on the Consolidated Statement of Operations.

SBA Communications Corporation ("SBAC") is a holding company with no business operations of its own and its only significant asset is the outstanding capital stock of Telecommunications. Telecommunications is 100% owned by SBAC. SBAC had fully and unconditionally guaranteed the Senior Notes issued by Telecommunications.

5.625% Senior Notes

On September 28, 2012, the Company issued $500.0 million of unsecured senior notes due October 1, 2019 (the "5.625% Senior Notes"). The 5.625% Senior Notes accrued interest at a rate of 5.625% per annum and were issued at par. Interest on the 5.625% Senior Notes was due semi-annually on April 1 and October 1 of each year. The Company incurred deferred financing fees of $8.6 million in relation to this transaction which were being amortized through the maturity date.

On October 1, 2016, the Company redeemed the 5.625% Senior Notes in full. On October 3, 2016, the Company repaid $500.0 million in outstanding principal, $14.1 million related to the call premium on the early redemption of the notes, and $14.1 million in accrued interest. Repayment was made using (1) the proceeds from the 2016 Senior Notes (defined below), (2) borrowings under the Revolving Credit Facility, and (3) cash on hand. In addition, the Company wrote off $4.1 million of deferred financing fees in connection with the extinguishment of the debt.

2014 Senior Notes

On July 1, 2014, the Company issued $750.0 million of unsecured senior notes due July 15, 2022 (the "2014 Senior Notes"). The 2014 Senior Notes accrue interest at a rate of 4.875% per annum and were issued at 99.178% of par value. Interest on the 2014 Senior Notes is due semi-annually on January 15 and July 15 of each year. The Company incurred deferred financing fees of $11.6 million in relation to this transaction which are being amortized through the maturity date.

2016 Senior Notes

On August 15, 2016, the Company issued $1.1 billion of unsecured senior notes due September 1, 2024 (the "2016 Senior Notes"). The 2016 Senior Notes accrue interest at a rate of 4.875% per annum and were issued at 99.178% of par value. Interest on the 2016 Senior Notes is due semi-annually on March 1 and September 1 of each year, beginning on March 1, 2017. The Company incurred deferred financing fees of $12.6 million in relation to this transaction which are being amortized through the maturity date. Net proceeds from this offering and cash on hand were used to redeem $800.0 million, the aggregate principal amount outstanding, of Telecommunications' 5.75% Senior Notes and $250.0 million of the Company's 5.625% Senior Notes and pay the associated call premiums.

11.SHAREHOLDERS' EQUITY

Common Stock equivalents

The Company has potential common stock equivalents related to its outstanding stock options (see Note 12) and restricted stock units. These potential common stock equivalents were considered in the Company's diluted earnings (loss) per share calculation (see Note 15).

Stock Repurchases

On June 4, 2015, the Company announced the authorization of a new $1.0 billion stock repurchase plan. This plan authorizes the Company to purchase from time to time the Company's outstanding common stock through open market repurchases in compliance with Rule 10b-18 of the Securities Exchange Act of 1934, as amended, and/or in privately negotiated transactions at management's discretion. Shares purchased will be retired.

During the three months ended September 30, 2016, the Company repurchased 0.5 million shares of its Class A common stock for $52.3 million, at an average price per share of $108.63. During the nine months ended September 30, 2016, the Company repurchased 2.0 million shares of its Class A common stock for $202.4 million, at an average price per share of $100.61.

12.STOCK-BASED COMPENSATION

Stock Options

The Company records compensation expense for employee stock options based on the estimated fair value of the options on the date of grant using the Black-Scholes option-pricing model with the assumptions included in the table below. The Company uses a combination of historical data and historical volatility to establish the expected volatility. Historical data is used to estimate the expected option life and the expected forfeiture rate. The risk-free rate is based on the U.S. Treasury yield curve in effect at the time of grant for the estimated life of the option. The following assumptions were used to estimate the fair value of options granted using the Black-Scholes option-pricing model:

	For the nine months ended September 30,	
	2016	2015
Risk free interest rate	1.11% - 1.43%	1.21% - 1.45%
Dividend yield	0.0%	0.0%
Expected volatility	20.0%	20.0%
Expected lives	4.7 years	4.6 years

The following table summarizes the Company’s activities with respect to its stock option plans for the nine months ended September 30, 2016 as follows (dollars and number of shares in thousands, except for per share data):

	Number of Shares	Weighted-Average Exercise Price Per Share	Weighted-Average Remaining Contractual Life (in years)	Aggregate Intrinsic Value
Outstanding at December 31, 2015	3,794	$ 84.66		
Granted	1,357	$ 96.64		
Exercised	(572)	$ 44.74		
Canceled	(98)	$ 105.11		
Outstanding at September 30, 2016	4,481	$ 92.94	4.8	$ 98,486
Exercisable at September 30, 2016	1,666	$ 77.43	3.5	$ 60,961
Unvested at September 30, 2016	2,815	$ 102.11	5.6	$ 37,525

The weighted-average per share fair value of options granted during the nine months ended September 30, 2016 was $19.19. The total intrinsic value for options exercised during the nine months ended September 30, 2016 was $35.6 million.

Restricted Stock Units

The following table summarizes the Company’s restricted stock unit activity for the nine months ended September 30, 2016:

	Number of Units (in thousands)	Weighted-Average Grant Date Fair Value per Share
Outstanding at December 31, 2015	277	$ 97.14
Granted	137	$ 96.76

13.INCOME TAXES

The primary reason for the difference in the Company’s effective tax rate and the US statutory rate is a result of the Company having a full valuation allowance on its US net deferred tax assets. The Company has concluded that it is not more likely than not that its deferred tax assets will be realized and has recorded a full valuation allowance. A foreign tax provision is recognized because certain international subsidiaries of the Company have profitable operations or are in a net deferred tax liability position.

On October 3, 2016, the Board of Directors authorized the Company to take all necessary steps to qualify as a real estate investment trust ("REIT") for tax purposes. The Company intends to elect to be taxed as a REIT commencing with its taxable year ending December 31, 2016. The Company believes that it is operating in a manner that complies with the REIT rules as of January 1, 2016. As a REIT, the Company generally will be entitled to a deduction for dividends that it pays and therefore not subject to U.S. federal corporate income tax on that portion of its net income that it distributes to its shareholders. As a REIT, the Company will continue to pay U.S. federal income tax on earnings, if any, from assets and operations held through its taxable REIT subsidiaries (“TRSs”). These assets and operations currently consist primarily of the Company’s site development services and its international operations. The Company’s international operations would continue to be subject, as applicable, to foreign taxes in the jurisdictions in which those operations are located. The Company may also be subject to a variety of taxes, including payroll taxes and state, local and foreign income, property and other taxes on its assets and operations. The Company’s determination as to the timing and amount of future dividend distributions will be based on a number of factors, including REIT distribution requirements, its existing federal net operating losses (“NOLs”) of approximately $1.2 billion as of December 31, 2015, the Company’s financial condition, earnings, debt covenants, and other possible uses of such funds. The Company may use these NOLs to offset its REIT taxable income, and thus any required distributions to shareholders may be reduced or eliminated until such time as the NOLs have been fully utilized. The Company does not expect that it will be required to make any distribution of accumulated earnings and profits (commonly referred to as a “purging” dividend) in connection with its REIT conversion.

14.SEGMENT DATA

The Company operates principally in two business segments: site leasing and site development. The Company’s site leasing business includes two reportable segments, domestic site leasing and international site leasing. The Company’s business segments are strategic business units that offer different services. They are managed separately based on the fundamental differences in their operations. The site leasing segment includes results of the managed and sublease businesses. The site development segment includes the results of both consulting and construction related activities. The Company’s Chief Operating Decision Maker utilizes segment operating profit and operating income as his two measures of segment profit in assessing performance and allocating resources at the reportable segment level.

15.EARNINGS PER SHARE

Basic earnings per share was computed by dividing net income from continuing operations attributable to common shareholders by the weighted-average number of shares of Common Stock outstanding for each respective period. Diluted earnings per share was calculated by dividing net income from continuing operations attributable to common shareholders by the weighted-average number of shares of Common Stock outstanding and any dilutive Common Stock equivalents, including unvested restricted stock and shares issuable upon exercise of stock options as determined under the “If-Converted” method and also Common Stock warrants as determined under the “Treasury Stock” method.

Table of Contents

The following table sets forth basic and diluted net income per common share for the three and nine months ended September 30, 2016 and 2015 (in thousands, except per share data):

	For the three months ended September 30,		For the nine months ended September 30,	
	2016	2015	2016	2015
Numerator:				
Net (loss) income	$ (15,370)	$ (155,946)	$ 70,976	$ (206,673)
Denominator:

Dilutive impact of stock options and restricted shares	—	—	720	—
Diluted weighted-average shares outstanding	124,604	127,170	125,761	128,397

Diluted	$ (0.12)	$ (1.23)	$ 0.56	$ (1.61)

For the three months ended September 30, 2016, all potential common stock equivalents, including 4.5 million shares of stock options outstanding and 0.3 million shares of restricted stock units outstanding, were excluded as the effect would be anti-dilutive.

For the nine months ended September 30, 2016, the diluted weighted average number of common shares outstanding excluded an additional 2.2 million shares issuable upon exercise of the Company's stock options because the impact would be anti-dilutive.

For the three and nine months ended September 30, 2015, all potential common stock equivalents, including 3.9 million shares of stock options outstanding and 0.3 million shares of restricted stock units outstanding, were excluded as the effect would be anti-dilutive.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

We are a leading independent owner and operator of wireless communications tower structures, rooftops and other structures that support antennas used for wireless communications, which we collectively refer to as "towers" or "sites." Our principal operations are in the United States and its territories. In addition, we own and operate towers in Canada, Central America, and South America. Our primary business line is our site leasing business, which contributed 98.5% of our total segment operating profit for the nine months ended September 30, 2016. In our site leasing business, we (1) lease antenna space to wireless service providers on towers that we own or operate and (2) manage rooftop and tower sites for property owners under various contractual arrangements. As of September 30, 2016, we owned 25,878

towers, a substantial portion of which have been built by us or built by other tower owners or operators who, like us, have built such towers to lease space to multiple wireless service providers. We also managed or leased approximately 5,500 actual or potential towers, approximately 500 of which were revenue producing as of September 30, 2016. Our other business line is our site development business, through which we assist wireless service providers in developing and maintaining their own wireless service networks.

Site Leasing Services

Our primary focus is the leasing of antenna space on our multi-tenant towers to a variety of wireless service providers under long-term lease contracts in the United States, Canada, Central America, and South America. As of September 30, 2016, we owned 15,845 towers in the United States and its territories and 10,033 towers in our international markets. Approximately 27% of our total towers are located in Brazil and less than 3% of our total towers are located in each of our other international markets. We receive site leasing revenues primarily from wireless service provider tenants, including AT&T, Sprint, T-Mobile, Verizon Wireless, Claro, Digicel, Oi S.A., and Telefonica. Wireless service providers enter into tenant leases with us, each of which relates to the lease or use of space at an individual site. In the United States and Canada, our tenant leases are generally for an initial term of five to ten years with five 5-year renewal periods at the option of the tenant. These tenant leases typically contain specific rent escalators, which average 3-4% per year, including the renewal option periods. Tenant leases in our Central American and South American markets typically have an initial term of ten years with multiple five year renewal periods. In Central America, we have similar rent escalators to that of leases in the United States and Canada while our leases in South America escalate in accordance with a standard cost of living index.

Table of Contents

In our Central American markets and Ecuador, significantly all of our revenue, expenses, and capital expenditures arising from our new build activities are denominated in U.S. dollars. Specifically, most of our ground leases, tenant leases, and tower-related expenses are due and paid in U.S. dollars. In our Central American markets, our local currency obligations are principally limited to (1) permitting and other local fees, (2) utilities, and (3) taxes. In our Brazilian, Canadian, and Chilean operations, significantly all of our revenue, expenses, and capital expenditures, including tenant leases, ground leases, and other tower-related expenses are denominated in local currency.

Cost of site leasing revenue primarily consists of:

- Rental payments on ground leases and other underlying property interests;
- Straight-line rent adjustment for the difference between rental payments made and the expense recorded as if the payments had been made evenly throughout the lease term (which may include renewal terms) of the underlying property interests;
- Property taxes;
- Site maintenance and monitoring costs (exclusive of employee related costs);
- Utilities;
- Property insurance; and
- Deferred lease origination cost amortization.

For any given tower, each of the above costs is relatively fixed over a monthly or an annual time period. As such, cost of site leasing revenue for owned towers does not generally increase as a result of adding additional customers to the tower. The ongoing maintenance requirements are typically minimal and include replacing lighting systems, painting a tower, or upgrading or repairing an access road or fencing.

Ground leases are generally for an initial term of five years or more with multiple renewal terms of five-year periods at our option and provide for rent escalators which typically average 2-3% annually, or in our South American markets, adjust in accordance with a standard cost of living index. As of September 30, 2016, approximately 73% of our tower structures were located on parcels of land that we own, land subject to perpetual easements, or parcels of land in which we have a leasehold interest that extends beyond 20 years.

As indicated in the table below, our site leasing business generates substantially all of our total segment operating profit. For information regarding our operating segments, see Note 14 of our Condensed Notes to Consolidated Financial Statements included in this quarterly report.

	For the three months ended September 30,		For the nine months ended September 30,	
Segment operating profit as a percentage of total	2016	2015	2016	2015
Domestic site leasing	83.0%	83.5%	83.7%	82.3%
International site leasing	15.7%	13.7%	14.8%	14.6%
Total site leasing	98.7%	97.2%	98.5%	96.9%

We believe that over the long-term, site leasing revenues will continue to grow as wireless service providers increase their use of our towers due to increasing minutes of network use and data transfer, network expansion and network coverage requirements. In the current environment, we expect that this activity will primarily be in the form of amendments to current leases as wireless service providers seek to upgrade their antennas, and in the long-term, new leases as these providers continue to expand and upgrade their networks. We believe our site leasing business is characterized by stable and long-term recurring revenues, predictable operating costs and minimal non-discretionary capital expenditures. Due to the relatively young age and mix of our tower portfolio, we expect future expenditures required to maintain these towers to be minimal. Consequently, we expect to grow our cash flows on existing towers by (1) adding tenants to our towers at minimal incremental costs by using existing tower capacity or requiring wireless service providers to bear all or a portion of the cost of tower modifications and (2) executing monetary amendments as wireless service providers add or upgrade their equipment. Furthermore, because our towers are strategically positioned and our customers typically do not relocate, we have historically experienced low tenant lease terminations as a percentage of revenue other than in connection with customer consolidation or cessations of service (e.g. iDEN).

Table of Contents

Site Development Services

Our site development business, which is conducted in the United States only, is complementary to our site leasing business and provides us the ability to keep in close contact with the wireless service providers who generate substantially all of our site leasing revenue and to capture ancillary revenues that are generated by our site leasing activities, such as antenna and equipment installation at our tower locations. Site development services revenues are earned primarily from providing a full range of end to end services to wireless service providers or companies providing development or project management services to wireless service providers. Our services include: (1) network pre-design; (2) site audits; (3) identification of potential locations for towers and antennas; (4) support in buying or leasing of the location; (5) assistance in obtaining zoning approvals and permits; (6) tower and related site construction; (7) antenna installation; and (8) radio equipment installation, commissioning, and maintenance. We provide site development services at our towers and at towers owned by others on a local basis, through regional, territory, and project offices. The regional offices are responsible for all site development operations, including hiring employees and opening or closing project offices, and a substantial portion of the sales in such area.

Critical Accounting Policies and Estimates

We have identified the policies and significant estimation processes listed in the Annual Report on Form 10-K as critical to our business operations and the understanding of our results of operations. The listing is not intended to be a comprehensive list. In many cases, the accounting treatment of a particular transaction is specifically dictated by accounting principles generally accepted in the United States, with no need for management's judgment in their application. In other cases, management is required to exercise judgment in the application of accounting principles with respect to particular transactions. The impact and any associated risks related to these policies on our business operations is discussed throughout "Management's Discussion and Analysis of Financial Condition and Results of Operations" where such policies affect reported and expected financial results. For a detailed discussion on the application of these and other accounting policies, see Note 2 of our Consolidated Financial Statements contained in our Annual Report on Form 10-K for the year ended December 31, 2015. Our preparation of our financial statements requires us to make estimates and assumptions that affect the reported amount of assets and liabilities, disclosure of contingent assets and liabilities at the date of our financial statements, and the reported amounts of revenue and expenses during the reporting periods. Management bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances. There can be no assurance that actual results will not differ from those estimates and such differences could be significant.

Proposed REIT Conversion

On October 3, 2016, our Board of Directors authorized us to take all necessary steps to be subject to tax as a REIT for U.S. federal income tax purposes. We believe that our business is currently operated in a manner that complies with the REIT rules, and as a result, we intend to make the election to be subject to tax as a REIT commencing with our taxable year ending December 31, 2016. Because we believe our business is currently operated in a manner that complies with the REIT rules, no further reorganization of our operations is necessary to complete the REIT conversion.

A REIT is a corporation that qualifies for special treatment for U.S. federal income tax purposes because, among other things, it derives most of its income from real estate-based sources and makes a special election under the Code. We intend to operate as a REIT that principally invests in, and derives most of its income from the ownership, operation and leasing of, towers. As a REIT, we generally will be entitled to a deduction for dividends that we pay and therefore not subject to U.S. federal corporate income tax on that portion of our net income that we distribute to our shareholders. As a REIT, we will continue to pay U.S. federal income tax on earnings, if any, from assets and operations held through taxable REIT subsidiaries ("TRSs"). These assets and operations currently consist primarily of

our site development services and our international operations. Our international operations would continue to be subject, as applicable, to foreign taxes in the jurisdictions in which those operations are located. We may also be subject to a variety of taxes, including payroll taxes and state, local and foreign income, property and other taxes on our assets and operations. Our determination as to the timing and amount of future dividend distributions will be based on a number of factors, including REIT distribution requirements, our existing federal net operating losses ("NOLs") of approximately $1.2 billion as of December 31, 2015, our financial condition, earnings, debt covenants, and other possible uses of such funds. We may use these NOLs to offset our REIT taxable income, and thus any required distributions to shareholders may be reduced or eliminated until such time as the NOLs have been fully utilized. We do not expect that we will be required to make any distribution of accumulated earnings and profits (commonly referred to as a "purging" dividend) in connection with our REIT conversion.

In connection with this election, we propose to merge with and into SBA Communications REIT Corporation ("SBA REIT"), a Florida corporation and wholly owned subsidiary of SBA Communications Corporation ("SBAC"), which was specifically formed for the purpose of the merger. Effective at the time of the merger, SBA REIT will be renamed "SBA Communications Corporation" and will hold, directly or indirectly through its subsidiaries, the assets currently held by SBAC and will conduct the existing businesses of SBAC and its subsidiaries. Although the REIT rules do not require the completion of this merger, we intend to complete the merger

to facilitate our compliance with the REIT rules by ensuring the effective adoption of certain REIT-related ownership limitations and transfer restrictions related to our capital stock, subject to approval by our shareholders. On October 3, 2016, we filed with the Securities and Exchange Commission (the "Commission") a preliminary proxy statement which provides information regarding the REIT conversion, the proposed merger and the special meeting, at which shareholders will be given the opportunity to vote on the merger.

See Note 13 of our Condensed Notes to Consolidated Financial Statements included in this quarterly report and "Item 1A—Risk Factors" for additional information concerning the proposed REIT conversion.

RESULTS OF OPERATIONS

This report presents our financial results and other financial metrics after eliminating the impact of changes in foreign currency exchange rates. We believe that providing these financial results and metrics on a constant currency basis, which are non-GAAP measures, gives management and investors the ability to evaluate the performance of our business without the impact of foreign currency exchange rate fluctuations. We eliminate the impact of changes in foreign currency exchange rates by dividing the current period's financial results by the average monthly exchange rates of the prior year period.

Revenues

Domestic site leasing revenues increased $6.0 million for the three months ended September 30, 2016, as compared to the prior year, due to (i) revenues from 528 towers acquired and 90 towers built since July 1, 2015 and (ii) organic site leasing growth, primarily from monetary lease amendments for additional equipment added to our towers as well as new leases and contractual rent escalators, partially offset by lease non-renewals in 2015 primarily related to Sprint's iDEN network, which impacted our year-over-year growth rates during the first three quarters of 2016.

International site leasing revenues increased $10.2 million for the three months ended September 30, 2016, as compared to the prior year. On a constant currency basis, international site leasing revenues increased $6.4 million. These increases were primarily due to (i) revenues from 305 towers acquired and 391 towers built since July 1, 2015, (ii) organic site leasing growth from new leases and contractual escalators, and (iii) an increase in reimbursable pass-through expenses. Site leasing revenue in Brazil represented approximately 12% of total site leasing revenue for the period. No other individual international market represented more than 3% of our total site leasing revenue.

Site development revenues decreased $15.6 million for the three months ended September 30, 2016, as compared to the prior year, as a result of a decrease in the volume of work performed, particularly as it related to Sprint.

Table of Contents

Operating Profit

Domestic site leasing segment operating profit increased $4.2 million for the three months ended September 30, 2016, as compared to the prior year, primarily due to additional operating profit generated by (i) towers acquired and built since July 1, 2015 and organic site leasing growth as noted above, (ii) continued control of our site leasing cost of revenues, and (iii) the positive impact of our ground lease purchase program.

International site leasing segment operating profit increased $7.0 million for the three months ended September 30, 2016, as compared to the prior year. On a constant currency basis, international site leasing segment operating profit increased $4.5 million. These changes were primarily due to additional operating profit generated by towers acquired and built since July 1, 2015 and organic site leasing growth as noted above, partially offset by increases in cost of revenues.

Site development segment operating profit decreased $4.3 million for the three months ended September 30, 2016, as compared to the prior year, primarily due to a decrease in the volume of work performed, particularly as it related to Sprint.

Selling, general, and administrative expenses increased $4.4 million for the three months ended September 30, 2016, as compared to the prior year. On a constant currency basis, selling, general, and administrative expenses increased $4.1 million. These increases were primarily as a result of increases in bad debt expense, legal fees, non-cash compensation, personnel, salaries, benefits, and other support costs due in large part to our continued portfolio expansion.

Acquisition related adjustments and expenses increased $2.6 million for the three months ended September 30, 2016, as compared to the prior year. On a constant currency basis, acquisition related adjustments and expenses increased $2.5 million. These increases were primarily as a result of an increase in the number of acquisitions and integration related expenses, as well as changes in our estimated pre-acquisition contingencies as compared to the prior year period.

Asset impairment and decommission costs decreased $61.1 million, on an actual and constant currency basis, for the three months ended September 30, 2016, as compared to the prior year. This decrease was primarily as a result of a $56.7 million impairment charge recorded in the third quarter of 2015 related to fiber assets acquired in the 2012 Mobilitie transaction, a $9.0 million gain on the sale of fiber assets recorded in the current year period, and a $1.7 million decrease in the impairment charge

Depreciation, accretion, and amortization expense decreased $4.2 million for the three months ended September 30, 2016, as compared to the prior year. On a constant currency basis, depreciation, accretion, and amortization expense decreased $6.0 million. These changes were primarily due to a decrease in depreciation associated with assets that became fully depreciated since the prior year period, partially offset by additional depreciation associated with the increase in the number of towers we acquired and built since July 1, 2015.

Domestic site leasing operating income increased $71.5 million for the three months ended September 30, 2016, as compared to the prior year, primarily due to decreases in asset impairment and decommission costs and depreciation, accretion, and amortization expense and higher segment operating profit, partially offset by an increase in selling, general, and administrative expenses.

International site leasing operating income decreased $0.1 million for the three months ended September 30, 2016, as compared to the prior year. On a constant currency basis, international site leasing operating income decreased $0.5 million. These decreases were primarily due to increases in acquisition related adjustments and expenses, depreciation, accretion, and amortization, and selling, general, and administrative expenses, partially offset by higher segment operating profit.

Site development operating income decreased $4.9 million for the three months ended September 30, 2016, as compared to the prior year, primarily due to lower segment operating profit and increases in depreciation, accretion, and amortization expenses and selling, general, and administrative expenses.

Interest income increased $1.8 million for the three months ended September 30, 2016, as compared to the prior year. On a constant currency basis, interest income increased $1.7 million. These increases were primarily due to a higher amount of interest bearing deposits held as compared to the prior year period.

Interest expense increased $1.5 million, on an actual and constant currency basis, for the three months ended September 30, 2016, as compared to the prior year, due to the higher average principal amount of cash-interest bearing debt outstanding as compared to the prior year, primarily resulting from the issuance of the 2015-1C Tower Securities (defined below) in October 2015, the 2016-1C Tower Securities (defined below) in July 2016, and the 2016 Senior Notes (defined below) in August 2016, partially offset by the repayment of the 2012 Term Loan in November 2015, the 2010-2C Tower Securities (defined below) in July 2016, and the 5.75% Senior Notes (defined below) in August 2016, and a lower average balance outstanding on the Revolving Credit Facility in the current year period.

Loss from extinguishment of debt increased $34.5 million for the three months ended September 30, 2016, as compared to the prior year, due to the payment of a $25.8 million call premium and accrued interest on the redemption of the 5.75% Senior Notes, the write off of $7.7 million in deferred financing fees related to the 5.75% Senior Notes, and the write off of $1.0 million in deferred financing fees related to the redemption of the 2010-2C Tower Securities.

Other income (expense), net includes a $3.2 million loss on the remeasurement of intercompany loans for the three months ended September 30, 2016, while the prior year period included a $112.1 million loss.

Revenues

Domestic site leasing revenues increased $24.7 million for the nine months ended September 30, 2016, as compared to the prior year, due to (i) revenues from 872 towers acquired and 171 towers built since January 1, 2015 and (ii) organic site leasing growth, primarily from monetary lease amendments for additional equipment added to our towers as well as new leases and contractual rent escalators, partially offset by lease non-renewals in 2015 primarily related to Sprint's iDEN network, which impacted our year-over-year growth rates during the first three quarters of 2016.

International site leasing revenues increased $7.5 million for the nine months ended September 30, 2016, as compared to the prior year. On a constant currency basis, international site leasing revenues increased $24.7 million. These changes were primarily due to (i) revenues from 337 towers acquired and 534 towers built since January 1, 2015, (ii) organic site leasing growth from new leases and contractual escalators, and (iii) an increase in reimbursable pass-through expenses. Site leasing revenue in Brazil represented approximately 11% of total site leasing revenue for the period. No other individual international market represented more than 3% of our total site leasing revenue.

Site development revenues decreased $47.2 million for the nine months ended September 30, 2016, as compared to the prior year, as a result of a decrease in the volume of work performed, particularly as it related to Sprint.

Operating Profit

Domestic site leasing segment operating profit increased $17.6 million for the nine months ended September 30, 2016, as compared to the prior year, primarily due to additional operating profit generated by (i) towers acquired and built since January 1, 2015 and organic site leasing growth as noted above, (ii) continued control of our site leasing cost of revenues, and (iii) the positive impact of our ground lease purchase program.

International site leasing segment operating profit increased $2.4 million for the nine months ended September 30, 2016, as compared to the prior year. On a constant currency basis, international site leasing segment operating profit increased $13.6 million. These changes were primarily due to towers acquired and built since January 1, 2015 and organic site leasing growth as noted above, partially offset by increases in cost of revenues.

Site development segment operating profit decreased $14.6 million for the nine months ended September 30, 2016, as compared to the prior year, primarily due to a decrease in the volume of work performed, particularly as it related to Sprint.

Interest income increased $5.4 million for the nine months ended September 30, 2016, as compared to the prior year. On a constant currency basis, interest income increased $6.2 million. These increases were primarily due to a higher amount of interest bearing deposits held as compared to the prior year period.

Interest expense increased $12.5 million, on an actual and constant currency basis, for the nine months ended September 30, 2016, as compared to the prior year, due to the higher average principal amount of cash-interest bearing debt outstanding as compared to the prior year, primarily resulting from the issuance of the 2015 Term Loan (defined below) in June 2015, the 2015-1C Tower Securities (defined below) in October 2015, the 2016-1C Tower Securities (defined below) in July 2016, and the 2016 Senior Notes (defined below) in August 2016, partially offset by the repayment of the 2012 Term Loan in November 2015, the 2010-2C Tower Securities (defined below) in July 2016, and the 5.75% Senior Notes (defined below) in August 2016, and a lower average balance outstanding under the Revolving Credit Facility in the current year period.

Loss from extinguishment of debt increased $34.5 million for the nine months ended September 30, 2016, as compared to the prior year, due to the payment of a $25.8 million call premium and accrued interest on the redemption of the 5.75% Senior Notes, the write off of $7.7 million in deferred financing fees related to the 5.75% Senior Notes, and the write off of $1.0 million in deferred financing fees related to the redemption of the 2010-2C Tower Securities.

Other income (expense), net includes an $89.0 million gain on the remeasurement of intercompany loans for the nine months ended September 30, 2016, while the prior year period included a $180.4 million loss.

Net income (loss) increased $277.6 million, for the nine months ended September 30, 2016, as compared to the prior year. On a constant currency basis, net income (loss) increased $10.5 million. These changes were primarily due to an increase in operating income, partially offset by increases in loss from extinguishment of debt, net and interest expense.

NON-GAAP FINANCIAL MEASURES

This report contains information regarding a non-GAAP measure, Adjusted EBITDA. We have provided below a description of Adjusted EBITDA, a reconciliation of Adjusted EBITDA to its most directly comparable GAAP measure and an explanation as to why management utilizes this measure. This report also presents our financial results and other financial metrics after eliminating the impact of changes in foreign currency exchange rates and the Oi reserve recorded in the second quarter of 2016. We believe that providing these financial results and metrics on a constant currency basis, which are non-GAAP measures, gives management and investors the ability to evaluate the performance of our business without the impact of foreign currency exchange rate fluctuations. We eliminate the impact of changes in foreign currency exchange rates by dividing the current period's financial results by the average monthly exchange rates of the prior year period. We believe that excluding the Oi reserve, which represents a $16.5 million one-time bad debt provision for all amounts owed or potentially owed by Oi prior to the date of Oi's June 2016 petition for judicial

Table of Contents

reorganization, provides management and investors the ability to better analyze our core results without the impact of what we believe is a non-recurring event.

Adjusted EBITDA

We define Adjusted EBITDA as net (loss) income excluding the impact of non-cash straight-line leasing revenue, non-cash straight-line ground lease expense, non-cash compensation, net loss from extinguishment of debt, other income and expenses, acquisition related adjustments and expenses, asset impairment and decommission costs, interest income, interest expenses, depreciation, accretion, and amortization, and provision for or benefit from taxes.

We believe that Adjusted EBITDA is useful to investors or other interested parties in evaluating our financial performance. Adjusted EBITDA is the primary measure used by management (1) to evaluate the economic productivity of our operations and (2) for purposes of making decisions about allocating resources to, and assessing the performance of, our operations. Management believes that Adjusted EBITDA helps investors or other interested parties meaningfully evaluate and compare the results of our operations (1) from period to period and (2) to our competitors, by excluding the impact of our capital structure (primarily interest charges from our outstanding debt) and asset base (primarily depreciation, amortization and accretion) from our financial results. Management also believes Adjusted EBITDA is frequently used by investors or other interested parties in the evaluation of REITs. In addition, Adjusted EBITDA is a component of the calculation that has been used by our lenders to determine compliance with certain covenants under our Senior Credit Agreement and the indentures relating to the 2014 Senior Notes and 2016 Senior Notes (defined below). Adjusted EBITDA should be considered only as a supplement to net income computed in accordance with GAAP as a measure of our performance.

(2) Provision for taxes includes $549 and $443 of franchise and gross receipts taxes for the three months ended September 30, 2016 and 2015, respectively, and $1,405 and $1,303 of franchise and gross receipts taxes for the nine months ended September 30, 2016 and 2015, respectively, reflected in selling, general, and administrative expenses on the Consolidated Statement of Operations.

Adjusted EBITDA increased $8.0 million for the three months ended September 30, 2016, as compared to the prior year period. On a constant currency basis, adjusted EBITDA increased $5.4 million. The increases were primarily due to increases in domestic and international site leasing segment operating profit, partially offset by an increase in selling, general, and administrative expenses and a decrease in site development segment operating profit.

Adjusted EBITDA net of the Oi reserve increased $15.5 million for the nine months ended September 30, 2016, as compared to the prior year period. On a constant currency basis, adjusted EBITDA net of the Oi reserve increased $27.8 million. The increases were primarily due to increases in domestic and international site leasing segment operating profit, partially offset by an increase in selling, general, and administrative expenses and a decrease in site development segment operating profit.

LIQUIDITY AND CAPITAL RESOURCES

SBAC is a holding company with no business operations of its own. SBAC's only significant asset is 100% of the outstanding capital stock of SBA Telecommunications, LLC ("Telecommunications"), which is also a holding company that owns equity interests in entities that directly or indirectly own all of our domestic and international towers and assets. We conduct all of our business operations through Telecommunications' subsidiaries. Accordingly, our only source of cash to pay our obligations, other than financings, is distributions with respect to our ownership interest in our subsidiaries from the net earnings and cash flow generated by these subsidiaries.

Cash and cash equivalents, beginning of the period	118,039	39,443
Cash and cash equivalents, end of the period	$ 165,225	$ 73,271

Operating Activities

Cash provided by operating activities was $514.2 million for the nine months ended September 30, 2016 as compared to $534.7 million for the nine months ended September 30, 2015. The decrease of $20.6 million was primarily due to increases in cash outflows associated with working capital changes, decreased site development segment operating profit, increased selling, general, and administrative expenses, increased cash interest payments relating to the higher average amount of cash-interest bearing debt outstanding and the payment of accrued interest associated with the redemption of the 5.625% Senior Notes, and the negative impact of changes in foreign currency exchange rates on cash flows from operating activities, partially offset by an increase in segment operating profit from domestic site leasing and international site leasing operating segments.

Investing Activities

(1) Excludes $8.7 million and $12.7 million spent on ground lease extensions and term easements on land underlying our towers for the nine months ended September 30, 2016 and 2015, respectively.

During all of 2016, inclusive of the capital expenditures made during the nine months ended September 30, 2016, we expect to incur non-discretionary cash capital expenditures associated with tower maintenance and general corporate expenditures of $32.6 million to $33.6 million and discretionary cash capital expenditures, based on current acquisition obligations, planned new tower construction, forecasted tower augmentations, and forecasted ground lease purchases, of $346.1 million to $356.1 million as well as potential, additional tower acquisitions not yet under contract. We expect to fund these cash capital expenditures from cash on hand, cash flow from operations, and borrowings under the Revolving Credit Facility or new financings. The exact amount of our future cash capital expenditures will depend on a number of factors, including amounts necessary to support our tower portfolio, our new tower build and acquisition programs, and our ground lease purchase program.

Financing Activities

During the nine months ended September 30, 2016, we borrowed $290.0 million and repaid $140.0 million under the Revolving Credit Facility. As of September 30, 2016, we had $150.0 million outstanding under the $1.0 billion Revolving Credit Facility. Subsequent to September 30, 2016, we borrowed $20.0 million and repaid $50.0 million of the outstanding balance under the Revolving Credit Facility.

During the nine months ended September 30, 2016, we repurchased 2.0 million shares of our Class A common stock for $202.4 million at a weighted average price per share of $100.61.

On July 7, 2016, we, through our existing SBA Tower Trust, issued $700.0 million of 2.877% Secured Tower Revenue Securities Series 2016-1C which have an anticipated repayment date of July 9, 2021 and a final maturity date of July 10, 2046 (the “2016-1C Tower Securities”). Net proceeds from this offering were used to prepay the full $550.0 million outstanding on the 2010-2C Tower Securities and for general corporate purposes. Additionally, we wrote off $1.0 million of deferred financing fees related to the redemption of the 2010-2C Tower Securities.

On August 15, 2016, we issued $1.1 billion of unsecured senior notes due September 1, 2024 (the “2016 Senior Notes”). The 2016 Senior Notes accrue interest at a rate of 4.875% per annum and were issued at 99.178% of par value. Net proceeds from this offering and cash on hand were used to redeem $800.0 million, the aggregate principal amount outstanding, of Telecommunications’ 5.75% Senior Notes and $250.0 million of our 5.625% Senior Notes and pay the associated call premiums.

On August 15, 2016, we used proceeds from the 2016 Senior Notes to redeem the full $800.0 million in aggregate principal amount of the 5.75% Senior Notes and to pay $25.8 million for the call premium and accrued interest on the redemption of the notes. Additionally, we wrote off $7.7 million of deferred financing fees related to the redemption of the notes.

On October 1, 2016, we redeemed the 5.625% Senior Notes in full. On October 3, 2016, we repaid $500.0 million in outstanding principal, $14.1 million related to the call premium on the early redemption of the notes, and $14.1 million in accrued interest. Repayment was made using (1) the proceeds from the 2016 Senior Notes, (2) borrowings under the Revolving Credit Facility, and (3) cash on hand. In addition, we wrote off $4.1 million of deferred financing fees in connection with the extinguishment of the debt.

Registration Statements

We have on file with the Commission a shelf registration statement on Form S-4 registering shares of Class A common stock that we may issue in connection with the acquisition of wireless communication towers or antenna sites and related assets or companies who own wireless communication towers, antenna sites, or related assets. During the nine months ended September 30, 2016, we did not issue any shares of Class A common stock under this registration statement. As of September 30, 2016, we had approximately 1.7 million shares of Class A common stock remaining under this shelf registration statement.

On March 3, 2015, we filed with the Commission an automatic shelf registration statement for well-known seasoned issuers on Form S-3ASR. This registration statement enables us to issue shares of our Class A common stock, preferred stock or debt securities either separately or represented by warrants, or depositary shares as well as units that include any of these securities. Under the rules governing automatic shelf registration statements, we will file a prospectus supplement and advise the Commission of the amount and type of securities each time we issue securities under this registration statement. No shares were issued under this registration statement through the date of this filing.

Debt Instruments and Debt Service Requirements

Revolving Credit Facility under the Senior Credit Agreement

The Revolving Credit Facility is governed by the Senior Credit Agreement. The Revolving Credit Facility consists of a revolving loan under which up to $1.0 billion aggregate principal amount may be borrowed, repaid and redrawn, based upon specific financial ratios and subject to the satisfaction of other customary conditions to borrowing. Amounts borrowed under the Revolving Credit Facility accrue interest, at SBA Senior Finance II's election, at either (i) the Eurodollar Rate plus a margin that ranges from 137.5 basis points to 200.0 basis points or (ii) the Base Rate plus a margin that ranges from 37.5 basis points to 100.0 basis points, in each case based on the ratio of Consolidated Total Debt to Annualized Borrower EBITDA, calculated in accordance with the Senior Credit Agreement. In addition, SBA Senior Finance II is required to pay a commitment fee of 0.25% per annum on the amount of unused commitment. If not earlier terminated by SBA Senior Finance II, the Revolving Credit Facility will terminate on, and SBA

Senior Finance II will repay all amounts outstanding on or before, February 5, 2020. The proceeds available under the Revolving Credit Facility may be used for general corporate purposes. SBA Senior Finance II may, from time to time, borrow from and repay the Revolving Credit Facility. Consequently, the amount outstanding under the Revolving Credit Facility at the end of a period may not be reflective of the total amounts outstanding during such period.

During the three and nine months ended September 30, 2016, we borrowed $150.0 million and $290.0 million, respectively, and repaid $30.0 million and $140.0 million, respectively, of the outstanding balance under the Revolving Credit Facility. As of September 30, 2016, $150.0 million was outstanding under the Revolving Credit Facility. As of September 30, 2016, SBA Senior Finance II was in compliance with the financial covenants contained in the Senior Credit Agreement.

Subsequent to September 30, 2016, we borrowed $20.0 million and repaid $50.0 million of the outstanding balance under the Revolving Credit Facility.

Term Loans under the Senior Credit Agreement

2012 Term Loan

The 2012 Term Loan consisted of a senior secured term loan with an initial aggregate principal amount of $200.0 million that was to mature on May 9, 2017. The 2012 Term Loan accrued interest, at SBA Senior Finance II's election, at either the Base Rate plus a margin that ranged from 100 to 150 basis points or the Eurodollar Rate plus a margin that ranged from 200 to 250 basis points, in each case based on the ratio of Consolidated Total Debt to Annualized Borrower EBITDA (calculated in accordance with the Senior Credit Agreement). The 2012 Term Loan was issued at par. We incurred deferred financing fees of $2.7 million in relation to this transaction which were being amortized through the maturity date. On November 18, 2015, we repaid the outstanding principal balance on the 2012 Term Loan.

2014 Term Loan

The 2014 Term Loan consists of a senior secured term loan with an initial aggregate principal amount of $1.5 billion that matures on March 24, 2021. The 2014 Term Loan accrues interest, at SBA Senior Finance II's election, at either the Base Rate plus 150 basis points (with a Base Rate floor of 1.75%) or the Eurodollar Rate plus 250 basis points (with a Eurodollar Rate floor of 0.75%). The 2014 Term Loan was issued at 99.75% of par value. As of September 30, 2016, the 2014 Term Loan was accruing interest at 3.34% per annum. Principal payments on the 2014 Term Loan commenced on September 30, 2014 and are being made in quarterly installments on the last day of each March, June, September, and December in an amount equal to $3.8 million. SBA Senior Finance II has the ability to prepay any or all amounts under the 2014 Term Loan. We incurred deferred financing fees of approximately $12.9 million in relation to this transaction which are being amortized through the maturity date.

During the three and nine months ended September 30, 2016, we repaid $3.8 million and $11.3 million of principal on the 2014 Term Loan. As of September 30, 2016, the 2014 Term Loan had a principal balance of $1.47 billion.

2015 Term Loan

The 2015 Term Loan consists of a senior secured term loan with an initial aggregate principal amount of $500.0 million that matures on June 10, 2022. The 2015 Term Loan accrues interest, at SBA Senior Finance II's election, at either the Base Rate plus 150 basis points (with a Base Rate floor of 1.75%) or the Eurodollar Rate plus 250 basis points (with a Eurodollar Rate floor of 0.75%). The 2015 Term Loan was issued at 99.0% of par value. As of September 30, 2016, the 2015 Term Loan was accruing interest at 3.34% per annum. Principal payments on the 2015

Term Loan commenced on September 30, 2015 and are being made in quarterly installments on the last day of each March, June, September, and December in an amount equal to $1.3 million. SBA Senior Finance II has the ability to prepay any or all amounts under the 2015 Term Loan. We incurred deferred financing fees of approximately $5.1 million in relation to this transaction which are being amortized through the maturity date.

During the three and nine months ended September 30, 2016, we repaid $1.3 million and $3.8 million of principal on the 2015 Term Loan. As of September 30, 2016, the 2015 Term Loan had a principal balance of $493.8 million.

Debt Covenants

As of September 30, 2016, the Borrowers met the debt service coverage ratio required by the mortgage loan agreement and were in compliance with all other covenants as set forth in the agreement.

Senior Notes

5.75% Senior Notes

On July 13, 2012, Telecommunications issued $800.0 million of unsecured senior notes due July 15, 2020 (the “5.75% Senior Notes”). The 5.75% Senior Notes accrued interest at a rate of 5.75% and were issued at par. We incurred deferred financing fees of $14.0 million in relation to this transaction which were being amortized through the maturity date. SBAC had fully and unconditionally guaranteed the Senior Notes issued by Telecommunications.

On August 15, 2016, we used proceeds from the 2016 Senior Notes to redeem the full $800.0 million in aggregate principal amount of the 5.75% Senior Notes and to pay $25.8 million for the call premium and accrued interest on the redemption of the notes. Additionally, we wrote off $7.7 million of deferred financing fees related to the redemption of the notes. The call premium and the write off of deferred financing fees are reflected in loss from extinguishment of debt on the Consolidated Statement of Operations.

SBAC is a holding company with no business operations of its own and its only significant asset is the outstanding capital stock of Telecommunications. Telecommunications is 100% owned by SBAC. SBAC had fully and unconditionally guaranteed the Senior Notes issued by Telecommunications.

5.625% Senior Notes

On September 28, 2012, we issued $500.0 million of unsecured senior notes due October 1, 2019 (the “5.625% Senior Notes”). The 5.625% Senior Notes accrued interest at a rate of 5.625% per annum and were issued at par. Interest on the 5.625% Senior Notes was due semi-annually on April 1 and October 1 of each year. We incurred deferred financing fees of $8.6 million in relation to this transaction which were being amortized through the maturity date.

On October 1, 2016, we redeemed the 5.625% Senior Notes in full. On October 3, 2016, we repaid $500.0 million in outstanding principal, $14.1 million related to the call premium on the early redemption of the notes, and $14.1 million in accrued interest. Repayment was made using (1) the proceeds from the 2016 Senior Notes, (2) borrowings under the Revolving Credit Facility, and (3) cash on hand. In addition, we wrote off $4.1 million of deferred financing fees in connection with the extinguishment of the debt.

2014 Senior Notes

On July 1, 2014, we issued $750.0 million of unsecured senior notes due July 15, 2022 (the “2014 Senior Notes”). The 2014 Senior Notes accrue interest at a rate of 4.875% per annum and were issued at 99.178% of par value. Interest on the 2014 Senior Notes is due semi-annually on January 15 and July 15 of each year. We incurred deferred financing fees of $11.6 million in relation to this transaction which are being amortized through the maturity date.

2016 Senior Notes

On August 15, 2016, we issued $1.1 billion of unsecured senior notes due September 1, 2024. The 2016 Senior Notes accrue interest at a rate of 4.875% per annum and were issued at 99.178% of par value. Interest on the 2016 Senior Notes is due semi-annually on March 1 and September 1 of each year, beginning on March 1, 2017. We incurred deferred financing fees of $12.6 million in relation to this transaction which are being amortized through the maturity date. Net proceeds from this offering and cash on hand were used to redeem $800.0 million, the aggregate principal amount outstanding, of Telecommunications' 5.75% Senior Notes and $250.0 million of our 5.625% Senior Notes and pay the associated call premiums.

Debt Service

As of September 30, 2016, we believe that our cash on hand, capacity available under our Revolving Credit Facility, our cash flows from operations for the next twelve months, and future financings will be sufficient to service our outstanding debt during the next twelve months.

The following table illustrates our estimate of our debt service requirement over the next twelve months based on the amounts outstanding as of September 30, 2016 and the interest rates accruing on those amounts on such date (in thousands):

5.625% Senior Notes (1)	$ 528,126
2014 Senior Notes	36,563
2016 Senior Notes	53,625
2012-1C Tower Securities	18,085
2013-1C Tower Securities	9,655
2013-2C Tower Securities	21,584
2013-1D Tower Securities	11,978
2014-1C Tower Securities	26,954
2014-2C Tower Securities	24,185
2015-1C Tower Securities	15,939
2016-1C Tower Securities	20,361
Revolving Credit Facility	5,800
2014 Term Loan	62,800
2015 Term Loan	21,097
Total debt service for next twelve months	$ 856,752

(1) On October 1, 2016, we redeemed in full the $500.0 million outstanding on the 5.625% Senior Notes and on October 3, 2016, used proceeds from the 2016 Senior Notes, borrowings under the Revolving Credit Facility, and cash on hand to pay the principal, a $14.1 million call premium on the redemption of the notes, and $14.1 million in accrued interest.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to certain market risks that are inherent in our financial instruments. These risks arise from transactions entered into in the normal course of business.

The following table presents the future principal payment obligations and fair values associated with our long-term debt instruments assuming our actual level of long-term indebtedness as of September 30, 2016:

	2016	2017	2018	2019	2020	Thereafter	Total	Fair Value

(1) On October 1, 2016, we redeemed in full the $500.0 million outstanding on the 5.625% Senior Notes and on October 3, 2016, used proceeds from the 2016 Senior Notes, borrowings under the Revolving Credit Facility, and cash on hand to pay the principal.
(2) The anticipated repayment date and the final maturity date for the 2012-1C Tower Securities is December 11, 2017 and December 9, 2042, respectively.

The anticipated repayment date and the final maturity date for the 2013-1C Tower Securities is April 10, 2018 and April 9, 2043, respectively.

The anticipated repayment date and the final maturity date for the 2013-2C Tower Securities is April 11, 2023 and April 9, 2048, respectively.

The anticipated repayment date and the final maturity date for the 2013-1D Tower Securities are April 10, 2018 and April 9, 2043, respectively.

The anticipated repayment date and the final maturity date for the 2014-1C Tower Securities is October 8, 2019 and October 11, 2044, respectively.

The anticipated repayment date and the final maturity date for the 2014-2C Tower Securities is October 8, 2024 and October 8, 2049, respectively.

The anticipated repayment date and the final maturity date for the 2015-1C Tower Securities is October 8, 2020 and October 10, 2045, respectively.

The anticipated repayment date and the final maturity date for the 2016-1C Tower Securities is July 9, 2021 and July 10, 2046, respectively.

Our current primary market risk exposure is interest rate risk relating to (1) our ability to refinance our debt at commercially reasonable rates, if at all, and (2) the impact of interest rate movements on our 2014 Term Loan and 2015 Term Loan and any borrowings that we may incur under our Revolving Credit Facility, which are at floating rates. We manage the interest rate risk on our outstanding debt through our large percentage of fixed rate debt. While

we cannot predict our ability to refinance existing debt or the impact interest rate movements will have on our existing debt, we continue to evaluate our financial position on an ongoing basis.

We are exposed to market risk from changes in foreign currency exchange rates in connection with our operations in Brazil, Canada, and Chile, and to a lesser extent, our markets in Central America. In each of these markets, we pay most of our selling, general, and administrative expenses and a portion of our operating expenses, such as taxes and utilities incurred in the country in local currency. In addition, in Brazil, Canada, and Chile, we receive significantly all of our revenue and pay significantly all of our

Table of Contents

operating expenses in local currency. All transactions denominated in currencies other than the U.S. Dollar are reported in U.S. Dollars at the applicable exchange rate. All assets and liabilities are translated into U.S. Dollars at exchange rates in effect at the end of the applicable fiscal reporting period and all revenues and expenses are translated at average rates for the period. The cumulative translation effect is included in equity as a component of Accumulated other comprehensive income (loss). For the nine months ended September 30, 2016, approximately 11.4% of our revenues and approximately 15.0% of our total operating expenses were denominated in foreign currencies.

We have performed a sensitivity analysis assuming a hypothetical 10% adverse movement in the Brazilian Real from the quoted foreign currency exchange rates at September 30, 2016. As of September 30, 2016, the analysis indicated that such an adverse movement would have caused our revenues and operating income to fluctuate by approximately 1.0% and 2.8%, respectively, for the nine months ended September 30, 2016.

As of September 30, 2016, we had intercompany debt, which is denominated in a currency other than the functional currency of the subsidiary in which it is recorded. As this debt had not been designated as being a long-term investment in nature, any changes in the foreign currency exchange rates will result in unrealized gains or losses, which will be included in our determination of net income. A change of 10% in the underlying exchange rates of our unsettled intercompany debt at September 30, 2016 would have resulted in approximately $43.4 million of unrealized gains or losses that would have been included in other income (expense), net in our Consolidated Statement of Operations for the nine months ended September 30, 2016.

Special Note Regarding Forward-Looking Statements

This quarterly report contains “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These statements concern expectations, beliefs, projections, plans and strategies, anticipated events or trends and similar expressions concerning matters that are not historical facts. Specifically, this quarterly report contains forward-looking statements regarding:

- our expectations on the future growth and financial health of the wireless industry and the industry participants, the drivers of such growth, the demand for our towers, and the trends developing in our industry;
- our beliefs regarding our ability to capture and capitalize on industry growth and the impact of such growth on our financial and operational results;
- our belief that over the long-term, site leasing revenues will continue to grow as wireless service providers increase their use of our towers due to increasing minutes of network use and data transfer, network expansion and network coverage requirements, on an organic basis, in our domestic and international segments;
- our expectation that customer activity will primarily be in the form of, in the current environment, amendments to current leases as wireless service providers seek to upgrade their antennas and, in the long-term, new leases as these providers continue to expand and upgrade their networks;
- our belief that our site leasing business is characterized by stable and long-term recurring revenues, predictable operating costs, and minimal non-discretionary capital expenditures;
- our expectation that, due to the relatively young age and mix of our tower portfolio, future expenditures required to maintain these towers will be minimal;
- our expectation that we will grow our cash flows by adding tenants to our towers at minimal incremental costs and executing monetary amendments;
- our ability to qualify and to remain qualified as a REIT and the timing of such qualification;
- our belief that our business is currently operated in a manner that complies with the REIT rules;
- our belief that we will not be required to make an earnings and profits distribution in order to qualify as a REIT;
- our plans regarding our distribution policy, and the amount and timing of, and source of funds for, any such distributions;

- our expectations regarding the use of NOLs to reduce REIT taxable income;
- our expectations regarding foreign currency exchange rates;
- our expectations regarding the churn rate of our non-iDEN tenant leases;
- our expectations regarding the impact of the Oi reorganization;
- our expectations regarding our future cash capital expenditures, both discretionary and non-discretionary, including expenditures required to maintain, improve, and modify our towers, ground lease purchases, and general corporate expenditures, and the source of funds for these expenditures;
- our intended use of our liquidity;
- our expectations regarding our annual debt service in 2016 and thereafter, and our belief that our cash on hand, capacity under our Revolving Credit Facility, our cash flows from operations for the next twelve months, and future financings will be sufficient to service our outstanding debt during the next twelve months;
- our belief regarding our credit risk; and
- our estimates regarding certain accounting and tax matters.

Table of Contents

These forward-looking statements reflect our current views about future events and are subject to risks, uncertainties and assumptions. We wish to caution readers that certain important factors may have affected and could in the future affect our actual results and could cause actual results to differ significantly from those expressed in any forward-looking statement. The most important factors that could prevent us from achieving our goals, and cause the assumptions underlying forward-looking statements and the actual results to differ materially from those expressed in or implied by those forward-looking statements include, but are not limited to, the following:

- the impact of consolidation among wireless service providers on our leasing revenue;
- our ability to continue to comply with covenants and the terms of our credit instruments and our ability to obtain additional financing to fund our capital expenditures;
- our ability to successfully manage the risks associated with international operations, including risks relating to political or economic conditions, tax laws, currency restrictions and exchange rate fluctuations, legal or judicial systems, and land ownership;
- our ability to successfully manage the risks associated with our acquisition initiatives, including our ability to effectively integrate acquired towers into our business and to achieve the financial results projected in our valuation models for the acquired towers;
- developments in the wireless communications industry in general, and for wireless communications infrastructure providers in particular, that may slow growth or affect the willingness or ability of the wireless service providers to expend capital to fund network expansion or enhancements;
- our ability to secure as many site leasing tenants as anticipated, recognize our expected economies of scale with respect to new tenants on our towers, and retain current leases on towers;
- our ability to secure and deliver anticipated services business at contemplated margins;
- our ability to build new towers, including our ability to identify and acquire land that would be attractive for our customers and to successfully and timely address zoning, permitting, weather, availability of labor and supplies and other issues that arise in connection with the building of new towers;
- competition for the acquisition of towers and other factors that may adversely affect our ability to purchase towers that meet our investment criteria and are available at prices which we believe will be accretive to our shareholders and allow us to maintain our long-term target leverage ratios;
- our ability to protect our rights to the land under our towers, and our ability to acquire land underneath our towers on terms that are accretive;
- our ability to sufficiently increase our revenues and maintain expenses and cash capital expenditures at appropriate levels to permit us to meet our anticipated uses of liquidity for operations, debt service and estimated portfolio growth;
- our ability to successfully estimate the impact of regulatory and litigation matters;
- our ability to successfully estimate the impact of certain accounting and tax matters, including the effect on our company of adopting certain accounting pronouncements and the availability of sufficient net operating losses to offset future taxable income;
- natural disasters and other unforeseen damage for which our insurance may not provide adequate coverage;
- a decrease in demand for our towers;
- the willingness and ability of Oi to continue to make payments to us in accordance with the terms of our contracts;
- the introduction of new technologies or changes in a tenant’s business model that may make our tower leasing business less desirable to potential tenants;
- our ability to qualify for treatment as a REIT for U.S. federal income tax purposes and to comply with and conduct our business in accordance with such rules;
- our ability to utilize available NOLs to reduce REIT taxable income; and
- our ability to successfully estimate the impact of certain accounting and tax matters, including the effect on our company of adopting certain accounting pronouncements and the availability of sufficient NOLs to offset future REIT taxable income.

ITEM 4. CONTROLS AND PROCEDURES

In order to ensure that the information we must disclose in our filings with the Commission is recorded, processed, summarized and reported on a timely basis, we have formalized our disclosure controls and procedures. Our principal executive officer and principal financial officer have reviewed and evaluated the effectiveness of our disclosure controls and procedures, as defined in Securities and Exchange Act Rule 13a-15(e) as of September 30, 2016. Based on such evaluation, such officers have concluded that, as of September 30, 2016, our disclosure controls and procedures were effective.

There have been no changes in our internal control over financial reporting during the quarter ended September 30, 2016 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION

ITEM 1A. RISK FACTORS

Complying with the REIT requirements may cause us to liquidate assets or hinder our ability to pursue otherwise attractive asset acquisition opportunities.

To qualify as a REIT for federal income tax purposes, we must continually satisfy tests concerning, among other things, the nature and diversification of our assets, the sources of our income and the amounts we distribute to our shareholders. For example, to qualify as a REIT, we must ensure that, at the end of each calendar quarter, at least 75% of the value of our assets consists of cash, cash items, government securities and "real estate assets" (as defined in the Code), including towers and certain mortgage loans and securities. The remainder of our investments (other than government securities, qualified real estate assets and securities issued by a TRS) generally cannot include more than 10% of the outstanding voting securities of any one issuer or more than 10% of the total value of the outstanding securities of any one issuer. In addition, in general, no more than 5% of the value of our total assets (other than government securities, qualified real estate assets and securities issued by a TRS) can consist of the securities of any one issuer, and no more than 25% (for taxable years beginning on or before December 31, 2017) or 20% (for taxable years beginning after December 31, 2017) of the value of our total assets can be represented by securities of one or more TRSs. If we fail to comply with these requirements at the end of any calendar quarter, we must correct the failure within 30 days after the end of the calendar quarter or qualify for certain statutory relief provisions to avoid losing our REIT qualification and suffering adverse tax consequences. As a result, we may be required to liquidate assets.

In addition to the asset tests set forth above, to qualify and be subject to tax as a REIT, we will generally be required to distribute at least 90% of our REIT taxable income after the utilization of any available NOLs (determined without regard to the dividends paid deduction and excluding net capital gain) each year to our shareholders. Our determination as to the timing or amount of future dividends will be based on a number of factors, including investment opportunities around our core business and the availability of our existing NOLs. To the extent that we satisfy the 90% distribution requirement, but distribute less than 100% of our REIT taxable income (after the application of available NOLs, if any), we will be subject to U.S. federal corporate income tax on our undistributed taxable income. In addition, we will be subject to a 4% nondeductible excise tax if the actual amount that we pay out to our shareholders for a calendar year is less than a minimum amount specified under the Code. These distribution requirements could hinder our ability to pursue otherwise attractive asset acquisition opportunities. Furthermore, our ability to compete for acquisition opportunities in domestic and international markets may be adversely affected if we need, or require, the target company to comply with certain REIT requirements. These actions could have the effect of reducing our income, amounts available for distribution to our shareholders and amounts available for making payments on our indebtedness.

Qualifying as a REIT involves highly technical and complex provisions of the Code. If we fail to qualify as a REIT or fail to remain qualified as a REIT, to the extent we have REIT taxable income and have utilized our NOLs, we will be subject to U.S. federal income tax as a regular corporation and could face a substantial tax liability, which would reduce the amount of cash available for distribution to our shareholders.

Qualification as a REIT involves the application of highly technical and complex Code provisions for which only limited judicial and administrative authorities exist. Even a technical or inadvertent violation could jeopardize our REIT qualification. Our qualification as a REIT will depend on our satisfaction of certain asset, income, organizational, distribution, shareholder ownership and other requirements on a continuing basis.

Our Board of Directors has authorized us to take all necessary steps for SBAC to be subject to tax as a REIT for U.S. federal income tax purposes, commencing with our taxable year ending December 31, 2016. We received an opinion of our special REIT tax counsel with respect to our qualification as a REIT. Investors should be aware, however, that opinions of counsel are not binding on the IRS or any court. The opinion represents only the view of such counsel based on its review and analysis of existing law and on certain representations as to factual matters and covenants made by us, including representations relating to the values of our assets and the sources of our income. The opinion is expressed as of the date issued. Our qualification as a REIT will depend on our satisfaction of certain asset, income, organizational, distribution, shareholder ownership and other requirements on a continuing basis. Our ability to satisfy the asset tests depends upon our analysis of the characterization and fair market values of our assets, some of which are not susceptible to a precise determination, and for which we will not obtain independent appraisals.

If we fail to qualify as a REIT in any taxable year, to the extent we have REIT taxable income and have utilized our NOLs, we would be subject to U.S. federal income tax, including any applicable alternative minimum tax, on our taxable income at regular corporate rates, and dividends paid to our shareholders would not be deductible by us in computing our taxable income. Any resulting corporate tax liability could be substantial and would reduce the amount of cash available for distribution to our shareholders, which in turn could have an adverse impact on the value of our common stock. Unless we were entitled to relief under certain provisions of the Code, we also would be disqualified from re-electing to be taxed as a REIT for the four taxable years following the year in which

Table of Contents

we failed to qualify as a REIT. If we fail to qualify for taxation as a REIT, we may need to borrow additional funds or liquidate assets to pay any additional tax liability. Accordingly, funds available for investment and making payments on our indebtedness would be reduced.

We may be required to borrow funds, sell assets, or raise equity to satisfy our REIT distribution requirements.

From time to time, we may generate REIT taxable income greater than our cash flow as a result of differences in timing between the recognition of taxable income and the actual receipt of cash or the effect of nondeductible capital expenditures, the creation of reserves or required debt or amortization payments. If we do not have other funds available in these situations, we may need to borrow funds, sell assets or raise equity, even if the then-prevailing market conditions are not favorable for these borrowings, sales or offerings, to enable us to satisfy the REIT distribution requirement and to avoid U.S. federal corporate income tax and the 4% excise tax in a particular year. These alternatives could increase our costs and our leverage, decrease our Adjusted Funds From Operations per share or require us to distribute amounts that would otherwise be invested in future acquisitions or stock repurchases.

Thus, compliance with the REIT requirements may hinder our ability to grow, which could adversely affect the value of our common stock. Furthermore, the REIT distribution requirements may increase the financing we need to fund capital expenditures, future growth, or expansion initiatives, which would increase our total leverage. Furthermore, compliance with the REIT distribution requirements may increase the financing we need to fund capital expenditures, future growth and expansion initiatives. This would increase our total leverage.

Covenants specified in our current and future debt instruments may limit our ability to make required REIT distributions.

The Senior Credit Agreement, the mortgage loan agreement related to our securitization transactions and the indentures governing our 2014 Senior Notes and 2016 Senior Notes contain certain covenants that could limit our ability to make distributions to our shareholders. Under the Senior Credit Agreement, our subsidiaries may make distributions to us to satisfy our REIT distribution requirements and additional amounts to distribute up to 100% of our REIT taxable income, so long as SBA Senior Finance II's ratio of Consolidated Total Debt to Annualized Borrower EBITDA does not exceed 6.5 times for any fiscal quarter. In addition, under the mortgage loan agreement related to our securitization transactions, or Securitization, a failure to comply with the Debt Service Coverage Ratio in that agreement could prevent our borrower subsidiaries from distributing any excess cash from the operation of their towers to us. Finally, while the indentures governing the 2014 Senior Notes and the 2016 Senior Notes permit us to make distributions to our shareholders to the extent such distributions are necessary to maintain our status as a REIT or to avoid entity level taxation, this authority is subject to the conditions that no default or event of default exists or would result therefrom and that the obligations under the 2014 Senior Notes or the 2016 Senior Notes, as applicable, have not otherwise been accelerated.

If these limits prevent us from satisfying our REIT distribution requirements, we could fail to qualify for taxation as a REIT. If these limits do not jeopardize our qualification for taxation as a REIT but do nevertheless prevent us from distributing 100% of our REIT taxable income, we will be subject to U.S. federal corporate income tax, and potentially the nondeductible 4% excise tax, on the retained amounts.

Our payment of cash distributions in the future is not guaranteed and the amount of any future cash distributions may fluctuate, which could adversely affect the value of our Class A common stock.

REITs are required to distribute annually at least 90% of their REIT taxable income (determined before the deduction for dividends paid and excluding any net capital gain). We estimate that we had approximately $1.2 billion in NOLs as of December 31, 2015. We may, at our discretion, use these NOLs to offset our REIT taxable income, and thus the required distributions to shareholders may be reduced or eliminated until such time as our NOLs have been fully utilized. We currently expect that we will utilize available NOLs to reduce all or a portion of our REIT taxable income and therefore we may not initially make any distributions, which may adversely affect the market value of our Class A common stock.

The amount of future distributions will be determined, from time to time, by the Board of Directors to balance our goal of increasing long-term shareholder value and retaining sufficient cash to implement our current capital allocation policy, which prioritizes investment in quality assets that meet our return criteria, and then stock repurchases, when we believe our stock price is below its intrinsic value. The actual timing and amount of distributions will be as determined and declared by the Board of Directors and will depend on, among other factors, our NOLs, our financial condition, earnings, debt covenants and other possible uses of such funds. Consequently, our future distribution levels may fluctuate.

Table of Contents

Certain of our business activities may be subject to corporate level income tax and foreign taxes, which would reduce our cash flows, and would have potential deferred and contingent tax liabilities.

We may be subject to certain federal, state, local and foreign taxes on our income and assets, including alternative minimum taxes, taxes on any undistributed income and state, local or foreign income, franchise, property and transfer taxes. In addition, we could, in certain circumstances, be required to pay an excise or penalty tax, which could be significant in amount, in order to utilize one or more relief provisions under the Code to maintain qualification for taxation as a REIT. In addition, we may incur a 100% excise tax on transactions with a TRS if they are not conducted on an arm’s length basis. Any of these taxes would decrease our earnings and our available cash.

Our TRS assets and operations also will continue to be subject, as applicable, to federal and state corporate income taxes and to foreign taxes in the jurisdictions in which those assets and operations are located. Any of these taxes would decrease our earnings and our available cash. We will also be subject to a federal corporate level tax at the highest regular corporate rate (currently 35%) on the gain recognized from a sale of assets occurring during our first five years as a REIT, up to the amount of the built-in gain that existed on January 1, 2016, which is based on the fair market value of those assets in excess of our tax basis in those assets as of January 1, 2016. Gain from a sale of an asset occurring after the specified period ends will not be subject to this corporate level tax. We currently do not expect to sell any asset if the sale would result in the imposition of a material tax liability. We cannot, however, assure you that we will not change our plans in this regard.

Our use of TRSs may cause us to fail to qualify as a REIT.

The net income of our TRSs is not required to be distributed to us, and such undistributed TRS income is generally not subject to our REIT distribution requirements. However, if the accumulation of cash or reinvestment of significant earnings in our TRSs causes the fair market value of our securities in those entities, taken together with other non-qualifying assets, to represent more than 25% of the fair market value of our assets, or causes the fair market value of our TRS securities alone to represent more than 25% (for taxable years beginning on or before December 31, 2017) or 20% (for taxable years beginning after December 31, 2017) of the value of our total assets, in each case, as determined for REIT asset testing purposes, we would, absent timely responsive action, fail to qualify as a REIT.

Legislative or other actions affecting REITs could have a negative effect on us.

The rules dealing with U.S. federal income taxation are constantly under review by persons involved in the legislative process and by the IRS and the Treasury. Changes to the tax laws or interpretations thereof, with or without retroactive application, could materially and adversely affect our investors or us. We cannot predict how changes in the tax laws might affect our investors or us. New legislation, U.S. Treasury Regulations, administrative interpretations or court decisions could significantly and negatively affect our ability to qualify as a REIT or the U.S.

federal income tax consequences to our investors and us of such qualification.

We do not have any experience operating as a REIT, which may adversely affect our financial condition, results of operations, cash flow, per share trading price of our common stock and ability to satisfy debt service obligations.

While we believe that we are currently operating in a manner that complies with the REIT rules, we have not actually operated as a REIT previously. Our pre-REIT operating experience may not be sufficient to enable us to operate successfully as a REIT. In addition, we will be required to implement substantial control systems and procedures in order to maintain our status as a REIT. As a result, we may incur additional legal, accounting and other expenses that we have not previously incurred, which could be significant, and our management and other personnel may need to devote additional time to comply with these rules and regulations and controls required for continued compliance with the Code. These costs and time commitments could be substantially more than we currently expect. Therefore, our historical combined consolidated financial statements may not be indicative of our future costs and performance as a REIT. If our performance is adversely affected, it could affect our financial condition, results of operations, cash flow and ability to satisfy our debt service obligations.

The current market price of our Class A common stock may not be indicative of the market price of our Class A common stock following the REIT conversion.

The current market price of our Class A common stock may not be indicative of how the market will value our Class A common stock following the REIT conversion because of the change in our organization from a taxable C corporation to a REIT. Although we do not currently anticipate commencing distributions until a future date, the stock price of REIT securities have historically been affected by changes in market interest rates as investors evaluate the annual yield from distributions on the entity's common stock as compared to yields on other financial instruments. In addition, the market price of our Class A common stock in the future may be affected by general market conditions (as the price of the our Class A common stock currently is) and will be potentially affected by the economic and market perception of REIT securities.

As a REIT, we will no longer be eligible to be included in the NASDAQ 100 Index; therefore, those index funds that invest in the equity of NASDAQ 100 companies will be required to sell our shares and not purchase them in the future, which could have an adverse effect on the volatility and market price of our Class A common stock.

As of the date of this filing, SBAC is included in the NASDAQ 100 Index. On October 3, 2016, our Board of Directors authorized us to take all necessary steps to qualify as a REIT for U.S. federal income tax purposes. We intend to elect to be taxed as a REIT commencing with our taxable year ending on December 31, 2016. One of the eligibility criteria for the NASDAQ 100 Index is that the company is not a financial company. As a REIT, we would be considered a financial company, even though our business model will not change in connection with the REIT conversion, and therefore we will no longer be eligible to be included in the NASDAQ 100 Index. As a result, those index funds that invest in NASDAQ 100 companies will be required to sell shares of our Class A common stock and not purchase them in the future. In addition, other non-index funds that use inclusion on the NASDAQ 100 Index as a component of their investment criteria may be required to sell and no longer be able to invest in our Class A common stock. We do not know how many shares of our Class A common stock are held by these index and non-index funds. The sales of significant amounts of shares of our Class A common stock or the perception in the market that this will occur could have an adverse effect on the volatility and market price of our Class A common stock.

Dividends payable by REITs do not qualify for the reduced tax rates available for some dividends.

The maximum U.S. federal income tax rate applicable to income from “qualified dividends” payable to U.S. shareholders that are individuals, trusts and estates is currently 20%. Dividends payable by REITs, however, generally are not eligible for the reduced rates applicable to qualified dividends. Although these rules do not adversely affect the taxation of REITs, the more favorable rates applicable to regular corporate qualified dividends could cause investors who are individuals, trusts and estates to perceive investments in REITs to be relatively less attractive than investments in the stocks of non-REIT corporations that pay dividends, which could adversely affect the value of the stock of REITs, including our common stock.

Concentration of Credit Risk

We depend on a relatively small number of customers for most of our revenue, and the loss, consolidation or financial instability of any of our significant customers may materially decrease our revenue and adversely affect our financial condition.

We derive a significant portion of our revenue from a small number of customers. Consequently, a reduction in demand for site leasing, reduced future capital expenditures on the networks, or the complete loss, as a result of bankruptcy or otherwise, of any of our largest customers could materially decrease our revenue and have an adverse effect on our growth.

On June 20, 2016, Oi, S.A. (“Oi”), our largest customer in Brazil, filed a petition for judicial reorganization in Brazil. For the year ended December 31, 2015, Oi comprised approximately 8% of our total site leasing revenue and for the nine months ended September 30, 2016, Oi comprised approximately 7% of our total site leasing revenue. Due to the

uncertainty surrounding the recoverability of amounts owed by Oi prior to the date of Oi's petition, we recorded a $16.5 million bad debt provision during the second quarter of 2016 relating to amounts owed or potentially owed by Oi as of the filing date. While we continue to do business with Oi under our contracts with it in the ordinary course and Oi has stated its intentions to continue normal operations during its judicial reorganization, we cannot assure you that Oi will continue to be willing or able to continue to make payments to us in accordance with the terms of our contracts. Judicial reorganization in Brazil requires the agreement of certain creditors, for which there can be no assurance. If Oi is unable to successfully reorganize, it may be forced to liquidate. If Oi is unable or unwilling to reorganize in a manner that continues to provide us anticipated payments in accordance with our contracts, it could materially decrease our revenues and adversely affect our financial condition.

The following is a list of significant customers (representing at least 10% of revenue in any of the last three years) and the percentage of our total revenues for the specified time periods derived from these customers:

We derive revenue through numerous site leasing contracts and site development contracts. Each site leasing contract relates to the lease of space at an individual tower and is generally for an initial term of five to ten years in the U.S. and Canada, and renewable for five 5-year periods at the option of the tenant. Site leasing contracts in our Central American and South American markets typically have an initial term of ten years with multiple five year renewal periods. However, if any of our significant site leasing customers were to experience financial difficulty, substantially reduce their capital expenditures or reduce their dependence on leased tower space and fail to renew their leases with us, our revenues, future revenue growth and results of operations would be adversely affected.

Our site development customers engage us on a project-by-project basis, and a customer can generally terminate an assignment at any time without penalty. In addition, a customer's need for site development services can decrease, and we may not be successful in establishing relationships with new customers. Furthermore, our existing customers may not continue to engage us for additional projects.

(1) On June 4, 2015, we announced a new $1.0 billion stock repurchase plan. This plan authorizes us to purchase from time to time our outstanding common stock through open market repurchases in compliance with Rule 10b-18 under the Securities Exchange Act of 1934, as amended, and/or in privately negotiated transactions at management's discretion. Shares purchased will be retired. This plan has no time deadline and will continue until otherwise modified or terminated by our Board of Directors at any time in our sole discretion.
