For action to be taken at the Annual Meeting, a minimum of ten percent (10%) of the shares entitled to vote must be represented at the Annual Meeting in person or by proxy. Shares of stock may not be voted cumulatively. Abstentions and broker non-votes each will be included in determining the number of shares present and voting at the Annual Meeting. Abstentions will be counted in tabulations of the votes cast on proposals, whereas broker non-votes will not be counted for purposes of determining whether a proposal has been approved.

Indemnification of Directors and Officers

As permitted by the Florida Business Corporation Act, the Company's Certificate of Incorporation includes a provision that eliminates the personal liability of its directors for monetary damages for breach or alleged breach of their duty of care. The Company has entered into indemnification agreements with each of its directors and executive officers that provide the maximum indemnity allowed

-11-

to directors and executive officers by the Florida Business Corporation Act and the Bylaws, as well as certain additional procedural protections. In addition, the indemnification agreements provide generally that the Company will advance expenses incurred by directors and executive officers in any action or proceeding as to which they may be indemnified.

The indemnification provision in the Bylaws, and the indemnification agreements entered into between the Company and its directors and executive officers, may be sufficiently broad to permit indemnification of the officers and directors for liabilities arising under the Securities Act of 1933, as amended (the "Securities Act").

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the Company pursuant to the foregoing provisions, or otherwise, the Company has been advised that in the opinion of the Securities and Exchange Commission such

Edgar Filing: XIN NET CORP - Form PRER14C

indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable.

Proposal #2

EMPLOYEE STOCK AWARD PLAN

On October 3, 2000 the Board unanimously approved an Employee Stock Award Plan, subject to stockholder approval, for 15% of shares outstanding, all of which shares will be available for grant to directors and selected employees, advisors and consultants of the Company. The Board believes that the Plan is necessary for the Company to compete effectively in its market by attracting and retaining key talent with stock options.

The following summary does not purport to be a complete statement of the Plan's terms and is subject to and qualified in its entirety by reference to Exhibit A.

Under the Plan, only employees, directors, advisors and consultants of the Company or any subsidiary (including, without limitation, independent contractors who are not members of the Board) are eligible to receive grants of Options by the Compensation Committee. The Plan is administered by the Compensation Committee of the Board, which selects the employees to whom options will be granted, determines the number of shares to be made subject to each grant, and prescribes other terms and conditions, including the type of consideration to be paid to the Company for the grant of each option and vesting schedules in connection with each grant.

Edgar Filing: XIN NET CORP - Form PRER14C

Set forth below is an explanation of the Plan and a summary of its principal terms. The text of the Plan is set forth in Exhibit A to this Proxy Statement.

Shares Subject to the Employee Stock Award Plan

The maximum number of option grants is set at 15% of shares outstanding. The authorized shares issuable in connection with the Plan are subject to adjustment in the event of stock dividends, mergers or other reorganizations and other situations.

If any option granted under the Plan expires or is canceled or otherwise terminated, the shares allocable to the unexercised portion of such option shall again be available for additional option grants.

Participants

All directors, employees, advisors and consultants of the Company are eligible to receive options under the Plan either by automatic grant for the Board made pursuant to the Plan or if selected by the Compensation Committee.

Terms of Stock Options

The exercise price of NSOs under the Plan shall not be less than 100% of the fair market value of a share of the Company's Common Stock on the date of grant. The exercise price of all NSOs granted to a nonemployee director shall be equal to 100% of the fair market value of a share of the Company's Common Stock on the date of grant.

-16-

The exercise price of ISOs granted to the Company's employees shall not be less than 100% of the fair market value of a share of the Company's Common Stock on the date of grant.

The term of any Option granted under the Plan shall not exceed ten (10) years from the date of grant.

The Compensation Committee shall have sole discretion in determining the award amounts.

The Compensation Committee: (1) administers the Plan, and except for automatic grants for the Board made pursuant to the Plan (2) determines the number of shares and options to be granted under the Plan, and the timing, vesting, and other terms of such grants, including, without limitation, the purchase price for each award or sale of shares and the exercise price of each option.

Federal Income Tax Consequences

The following discussion of the federal income tax consequences of the Plan is intended to be a summary of applicable federal law. State and local tax consequences may differ. Because the federal income tax rules governing options and related payments are complex and subject to frequent change, optionees are advised to consult their tax advisors prior to exercise of options or dispositions of stock acquired pursuant to option exercise.

ISOs and NSOs are treated differently for federal income tax purposes.

Edgar Filing: XIN NET CORP - Form PRER14C

ISOs are intended to comply with the requirements of Section 422 of the Internal Revenue Code. NSOs need not comply with such requirements.

An employee is not taxed on the grant or exercise of an ISO. The difference between the exercise price and the fair market value on the exercise date of the shares acquired under an ISO will, however, be a preference item for purposes of the alternative minimum tax. If an optionee holds the shares acquired upon exercise of an ISO for at least two (2) years following grant and at least one (1) year following exercise, the optionee's gain, if any, upon a subsequent disposition of such shares is long-term capital gain. If such shares are held longer than 18 months, the long-term capital gains rate is generally 20%. The measure of the gain is the difference between the proceeds received on disposition and the optionee's basis in the shares (which generally equals the exercise price). If an optionee disposes of stock acquired pursuant to exercise of an ISO before satisfying the one (1)- and two (2)-year holding periods described above, the optionee may recognize both ordinary income and capital gain in the year of disposition. The amount of the ordinary income will be limited to the difference between the fair market value of the stock on the

-17-

exercise date and the option exercise price. Any remaining gain on the disposition will be capital gain and will be long-term capital gain if the stock had been held for at least one (1) year following the date of exercise. The Company is not entitled to an income tax deduction on the grant or exercise of an ISO if there is no disposition of the shares prior to the satisfaction of the holding period requirements described above. If the holding periods are not satisfied, the Company will be entitled to a deduction in the year the optionee disposes of the shares, in an amount equal to the ordinary income recognized by the optionee.

An employee is not taxed on the grant of an NSO. On exercise, however, the optionee recognizes ordinary income equal to the difference between the option price and the fair market value of the shares on the date of exercise. The Company is entitled to an income tax deduction in the year of exercise in the amount recognized by the optionee as ordinary income. Any gain on subsequent disposition of the shares is long-term capital gain if the shares are held for at least one (1) year following exercise. The Company does not receive a deduction for this gain.

New Plan Benefits

The Compensation Committee has full discretion to determine the number and amount of options to be granted to employees under the Plan. Therefore, the benefits and amounts that will be received by each of the officers named in the Summary Compensation Table above, the executive officers as a group, the directors who are not executive officers as a group, and all other employees under the Plan are not presently determinable.

The number of options to be received by each nonemployee director pursuant to the terms of the Plan, subject to stockholder approval, are determined by the Compensation Committee.

Required Approval

For action to be taken at the Annual Meeting, a quorum must be present. To be considered approved, the Plan must receive the affirmative vote of the holders of a majority of the shares represented and voting at the Annual Meeting.

Edgar Filing: XIN NET CORP - Form PRER14C

Unless marked to the contrary, proxies received will be voted "FOR" the approval of the company's Employee Stock Award Plan.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE "FOR" THE COMPANY'S EMPLOYEE STOCK AWARD PLAN.

Proposal #3

INDEPENDENT PUBLIC ACCOUNTANTS

Clancy and Co., PLLC, Independent Public Accountants, of Phoenix, Arizona, have been engaged as the Certifying accountants for the period through fiscal year 2001 and shareholders are asked to ratify such engagement. Ratification of the appointment of Clancy and Co, PLLC, as the Company's independent public accountants for the fiscal year ending December 31, 2001 will require the affirmative vote of a majority of the shares of Common Stock represented in person or by proxy and entitled to vote at the Annual Meeting. In the event the stockholders do not ratify the appointment of Clancy and Co., PLLC, for the fiscal year 2001, such appointment will be reconsidered by the Board.

-18-

Unless marked to the contrary, proxies received will be voted "FOR" ratification of the designation of Clancy and Co., PLLC, as independent accountants for the Company's fiscal year ending December 31, 2001.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE "FOR" RATIFICATION OF THE COMPANY'S INDEPENDENT ACCOUNTANTS.

Proposal #4

On May 18, 2001 the Board of Directors decided that the Company's business in China will focus on domain name registration and web-hosting services, and will discontinue Internet access provision (ISP) services as soon as practicable. The ISP business in China faced stiff competition, mainly from government-owned telephone companies, and accounted for a very large share of Company operating losses in the fiscal year ended December 31, 2000 and in the fiscal quarters ended March 31, 2001 and June 30, 2001. The Company filed a Form 8-K "Current Report" with the Securities and Exchange Commission (SEC) regarding this decision on May 23, 2001. On June 22, 2001 the Board of Directors authorized the Company's joint venture partner, Xin Hai Technology Development Ltd., to sign an agreement to sell Company ISP assets to Beijing Sino Soft for USD 700,000 in cash plus other considerations. The agreement was signed on June 22, 2001. An English summary and an English translation of the agreement were filed with the SEC on July 12, 2001. The summary is reproduced here and the agreement is included as Exhibit B of the Proxy Statement. A pro forma Balance Sheet to June 30, 2001 after disposal of ISP assets is also included as Exhibit B1. The statutes of the State of Florida, the jurisdiction of incorporation of the Company, require that the agreement be approved by Company shareholders.

Summary of Asset Transfer Agreement dated June 22, 2001. The Company has entered into an Assets Transfer Agreement under which it has agreed to transfer all the assets of the ISP operations in China to Beijing Sino Soft Intel Information Technology, Ltd. of Beijing. The transfer includes all transferable permits, equipment, agency contracts, customers, accounts, employees and operations.

Edgar Filing: XIN NET CORP - Form PRER14C

The price for the transfer of assets by the Company is \$700,000 (USD) payable to the Company in Renminbi at the official exchange rate, as follows: \$350,000 payable as a deposit upon signing with \$350,000 to be paid upon receipt of shareholder approval of the asset transfer by Company shareholders. (Xin Hai has subsequently agreed to different terms regarding payment terms. A sum of \$500,000 has been received to date and the balance of \$200,000 is to be received after Xin Net Corp. shareholders' approval of the Agreement).

The Company has agreed to assign Logo, lines, numbers, locations and all accounts and assets and has agreed not to compete in China in the ISP business. No fixed debt is assumed by purchaser, but ongoing contracts for Internet access provision, etc. will be assumed by buyer.

Business Conducted

Xin Net's business is as described in its 10KSB/A filed May 2, 2001, SEC file number 000-26559, which is incorporated herein by this reference. Xin Net Corp. is selling its Internet Service Provider business segment to Sino soft, if approved by shareholders, and its remaining business as described in the 10KSB/A above-referenced will be its domain name registration and web design & hosting business, through its wholly owned subsidiary, Xin Net International,

-19-

and its recently acquired PSP division in Hong Kong which provides web-based surveillance and monitoring & control systems.

In the event that shareholders approve the spin out by dividend pro rata of the shares of Xin Net International, Inc., the wholly owned subsidiary, the remaining business of Xin Net Corp. will be its security systems business, PSP.

The audited financials of the operations of the security systems business, PSP, are attached hereto as Exhibit C2 and such would represent the financials of the remaining on-going operations of the company.

Beijing Sino Soft Intel Information Technology LTD. is an ISP provider in China which operates ISP centers in Chinese large population cities. Shareholders of Xin Net Corp will not own any interest in Beijing Sino Soft.

Terms of the Transaction

There is no tender offer involved in the proposed transactions. The proposed transaction is not interdependent upon any other transaction.

- I. Sale of Xin Net Corp's Internet Service Provider Assets in China to Sino Soft, Inc., a Chinese Internet Service Provider.

The assets consist of the ISP telephone numbers, subscribers, equipment, domains, personnel as may be rehired by Sino Soft, hosting agreements, licenses, software, and goodwill. The purchase price is \$700,000, \$500,000 of which has been paid, and \$200,000 of which shall be paid upon shareholder approval of the transaction.

- II. No consideration is being offered to security holders of Xin Net Corp.

Edgar Filing: XIN NET CORP - Form PRER14C

- III. Xin Net Corp. Is engaging in the transaction for several reasons:
- A. The ISP operations have lost money on operations since inception.
 - B. Substantial additional capital which is unavailable to the company would be necessary to continue operations, with no assurance of reaching profitability.
 - C. The sale allows the company to recoup \$700,000 of its investment.
 - D. The paying subscriber base for profitability for ISPs has proven extremely costly to obtain and retain in China.
- IV. The vote required by Xin Net corp. shareholders to approve the transaction is the affirmative vote of the holders of a majority of the shares represented and voting at the Annual Meeting at which a quorum must be present.
- V. No material differences in rights of security holders will result from the proposed sale transaction.
- VI. The transaction will be treated as a disposal of assets of discontinued operations and will result in a gain of \$405,840.
- VII. There will be no Federal income tax consequences of the transaction due to the overall operational net loss of the company.

No securities are being purchased from any officer, director, or affiliate of the company.

No security holders are being treated differently in any way.

Dissenting shareholders are not entitled to any appraisal rights for the transaction under Florida law or any other law.

-20-

There are no provisions for unaffiliated shareholders to grant them access to corporate files or obtain counsel or appraisal services at the expense of the company.

The transaction has no effect on the trading or listing eligibility of the company's securities at this time.

-21-

For action to be taken at the Annual Meeting, a quorum must be present. To be considered approved, the agreement to sell Company ISP assets to Beijing Sino Soft must receive the affirmative vote of the holders of a majority of the shares represented and voting at the Annual Meeting.

Edgar Filing: XIN NET CORP - Form PRER14C

Unless marked to the contrary, proxies received will be voted "FOR" approval of the agreement to sell the Company's ISP assets to Beijing Sino Soft.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE "FOR" APPROVAL OF THE AGREEMENT SIGNED ON JUNE 22, 2001 TO SELL THE COMPANY'S ISP ASSETS TO BEIJING SINO SOFT.

Proposal #5

On July 31, 2001 the Company has signed a letter of intent to acquire 100% ownership of ProtectServe Pacific Ltd. (PSP), an innovative developer and provider of state-of-the-art web-based surveillance, monitoring & control systems.

Subsequently on August 3, 2001 the Company filed a Form 8-K "Current Report" with the Securities and Exchange Commission disclosing this letter of intent and also announcing the Company's intent to transfer its current business assets and liabilities, except for cash US \$800,000, to a new US-incorporated company. The Company has incorporated Xin Net International Corp. in the State of Nevada for this purpose. The Company now seeks shareholders' approval to distribute by way of a dividend this new company's shares, on a pro-rata basis, to the Company shareholders as of the record date for the annual general meeting. The business reasons for this restructuring are: a) to allow the acquisition of a new business venture; b) to allow retention by existing shareholders of the full value of the existing business of the company by spinning off the subsidiary as a dividend to these shareholders (and not to holders of shares to be issued in the PSP acquisition transaction) and c) to raise new funds for the ongoing operations. A consolidated pro forma balance sheet of Xin Net International Corp. is shown as Exhibit C.

Summary of Acquisition Agreement for PSP

The Company has executed a formal agreement on October 1, 2001 to acquire 100% of PSP. It plans to transfer the current business to Xin Net International Corp. before the date of the Annual Shareholder Meeting. The closing of the PSP acquisition agreement is however conditional to shareholders approving the spin-off. If shareholders do not approve of the spin-off, the acquisition agreement, as executed, cannot be closed, and may have to be voided or modified. The PSP agreement is included as Exhibit C1. PSP audited financial report from inception to June 30, 2001 (Exhibit C2), PSP business plan (Exhibit C3) and a pro forma consolidated financial statement after disposal of ISP assets, spin-off of remaining business to Xin Net International Corp. and acquisition of PSP (Exhibit C4), are also included as Exhibits.

Terms of the Transaction

There is no tender offer involved in the proposed transaction. The proposed transaction is dependent upon the approval of Proposal #4.

- I. Spin off by Pro Rata Distribution by way of a dividend of the shares of the Wholly Owned Subsidiary, Xin Net International, Inc.

Edgar Filing: XIN NET CORP - Form PRER14C

Net International, Inc., pro rata, to the shareholders of the company as a dividend to shareholders, if the transaction is approved by shareholders. The business which has been transferred by the company to its wholly owned subsidiary, is its domain name registration and web design & hosting business in China. The pro forma financial statements of the domain name registration and web design & hosting segment of business is contained on Exhibit C. The company believes that with reduced operations costs, the domain name registration business has an opportunity to continue to generate revenues on a break even or profitable basis in the future.

- II. Consideration is being offered to Xin Net Corp. (the company's shareholders) in the form of a distribution by way of a dividend of one share of Xin Net International, Inc. For each share of Xin Net Corp. owned.
- III. Xin Net Corp is engaging in the transaction for several reasons:
 - A. The domain name registration and web design & hosting business of the company has grown as the Internet business has grown in China and has the chance to continue to grow.
 - B. The operations of the domain name registration and web design & hosting business has the potential of operating at a profit, without large additional capital infusions.
 - C. The shareholders have the opportunity to receive pro rata ownership as a distribution by way of a dividend in the subsidiary, of a stand alone business: domain name registration, web design & hosting.
- IV. The vote required to approve the transaction is the affirmative vote of the holders of a majority of the shares represented and voting at the Annual Meeting at which a quorum must be present.
- V. No material differences in rights of security holders will result from the proposed sale transaction.
- VI. The transaction will be treated as a distribution to shareholders, pro rata.
- VII. The tax treatment of the dividend cannot be determined on an individual basis, because it is dependent upon the tax laws recognizing income in the shareholders country of residence and the laws determining basis for the shareholder in the country of residence. Under US Internal Revenue Code, Section 355, the transaction would not be treated as taxable so long as the criteria of Section 355 IRC are met, which the proposed transaction is designed to meet.

No securities are being purchased from any officer, director, or affiliate of the company.

No security holders are being treated differently in any way.

Dissenting shareholders are not entitled to any appraisal rights for the transaction under Florida law or any other law.

There are no provisions for unaffiliated shareholders to grant them access to corporate files or obtain counsel or appraisal services at the expense

Edgar Filing: XIN NET CORP - Form PRER14C

of the company.

The transaction has no effect on the trading or listing eligibility of the company's securities at this time.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE "FOR" APPROVAL OF THE PROPOSAL TO AUTHORIZE THE SPIN OUT OF SHARES OF XIN NET INTERNATIONAL CORP., AS A DISTRIBUTION BY WAY OF A DIVIDEND, PRO-RATA TO THE SHAREHOLDERS OF THE COMPANY ON THE BASIS OF ONE SHARE OF XIN NET INTERNATIONAL CORP. FOR EACH ONE SHARE OF THE COMPANY OWNED AS OF THE RECORD DATE FOR THIS MEETING.

Proposal #6

The "Xin Net" name and the "Xinnet" brand name are closely associated with the Company's current Internet-related services business. This association is safeguarded by the transfer of the current business to a subsidiary, Xin Net International Corp., which has "Xin Net" as part of its name. To maintain "Xin Net Corp." as the name of the Company after the transfer will not only be a source of confusion, but will impede the Company name from reflecting its new surveillance and monitoring & control systems business. For this reason, the Board of Directors wishes to change the Company name to a new name, to be determined by the Board of Directors, and at a time the Board deems appropriate.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR "APPROVAL" TO CHANGE THE COMPANY NAME AT THE BOARD'S DISCRETION.

SHAREHOLDER PROPOSALS

Shareholders are entitled to submit proposals on matter appropriate for shareholder action consistent with regulations of the Securities and Exchange Commission. Should a shareholder intend to present a proposal at next year's annual meeting, it must be received by the secretary of the Company at #830-789 W. Pender St., Vancouver, BC Canada V6C 1H2, not later than 60 days after fiscal year end, in order to be included in the Company's proxy statement and form of proxy relating to that meeting. It is anticipated that the next annual meeting will be held in June, 2002.

Other Matters. Management knows of no business that will be presented for consideration at the Annual Meeting other than as stated in the Notice of Annual Meeting. If, however, other matters are properly brought before the Annual Meeting, it is the intention of the persons named in the accompanying form of proxy to vote the shares represented thereby on such matters in

SECTION 4. ELIGIBILITY.

(a) General Rules. Only Employees (including, without limitation, advisors, consultants and independent contractors who are not members of the Board of Directors) shall be eligible for designation as Optionees or Offerees by the Committee. In addition, only Employees who are common-law employees of the Company or a Subsidiary shall be eligible for the grant of ISOs. Employees who are Outside Directors shall only be eligible for the grant of the Nonstatutory Options described in Subsection (b) below.

(i) Outside Directors shall receive no grants other than the Nonstatutory Options described in this Subsection (b).

(ii) All Nonstatutory Options granted to an Outside Director under this Subsection (b) shall also become exercisable in full in the event of the termination of such Outside Director's service because of death, Total and Permanent Disability or voluntary retirement at or after age 65.

(iii) The Exercise Price under all Nonstatutory Options granted to an Outside Director under this Subsection (b) shall be equal to 100 percent of the Fair Market Value of a Share on the date of grant, payable in one of the forms described in Subsection (a), (b), (c) or (d) of Section 8.

(iv) Nonstatutory Options granted to an Outside Director under this Subsection (b) shall terminate on the earliest of (A) the 10th anniversary of the date of grant, (B) the date 120 days after the termination of such Outside Director's service for any reason other than death or Total and Permanent Disability or (C) the date 6 months after the termination of such Outside Director's service because of death or Total and Permanent Disability.

The Committee may provide that the Nonstatutory Options that otherwise would be granted to an Outside Director under this Subsection (b) shall instead be granted to an affiliate of such Outside Director. Such affiliate shall then be deemed to be an Outside Director for purposes of the Plan, provided that the service-related vesting and termination provisions pertaining to the Nonstatutory Options shall be applied with regard to the service of the Outside Director.

-4-

SECTION 5. STOCK SUBJECT TO PLAN.

(a) Basic Limitation. Shares offered under the Plan shall be authorized but unissued Shares or treasury Shares. The aggregate number of Shares which may be issued under the Plan (upon exercise of Options or other rights to acquire Shares) shall not exceed 15% of Shares outstanding, subject to adjustment pursuant to Section 9. The number of Shares which are subject to Options or other rights outstanding at any time under the Plan shall not exceed the number of Shares which then remain available for issuance under the Plan. The Company, during the term of the Plan, shall at all times reserve and keep available sufficient Shares to satisfy the requirements of the Plan.

(b) Additional Shares. In the event that any outstanding Option or other right for any reason expires or is canceled or otherwise terminated, the Shares allocable to the unexercised portion of such Option or other right shall again be available for the purposes of the Plan. In the event that Shares issued under the Plan are reacquired by the Company pursuant to a forfeiture provision, a right of repurchase or a right of first refusal, such Shares shall again be available for the purposes of the Plan.

SECTION 6. TERMS AND CONDITIONS OF AWARDS OR SALES.

(a) Stock Purchase Agreement. Each award or sale of Shares under the Plan (other than upon exercise of an Option) shall be evidenced by a Stock Purchase Agreement between the Offeree and the Company. Such award or sale shall be subject to all applicable terms and conditions of the Plan and may be subject to any other terms and conditions which are not inconsistent with the Plan and which the Committee deems appropriate for inclusion in a Stock Purchase Agreement. The provisions of the various Stock Purchase Agreements entered into under the Plan need not be identical.

(b) Duration of Offers and Nontransferability of Rights. Any right to acquire Shares under the Plan (other than an Option) shall automatically expire if not exercised by the Offeree within 60 days after the grant of such right was communicated to the Offeree by the Committee. Such right shall not be transferable and shall be exercisable only by the Offeree to whom such right was granted.

(c) Purchase Price. The Purchase Price of Shares to be offered under the Plan shall not be less than 100 percent of the Fair Market Value of such Shares. Subject to the preceding sentence, the Purchase Price shall be determined by the Committee at its sole discretion. The Purchase Price shall be payable in a form described in Section 8.

(d) Withholding Taxes. As a condition to the award, sale or vesting of Shares, the Offeree shall make such arrangements as the Committee may require for the satisfaction of any federal, state, local or foreign withholding tax obligations that arise in connection with such Shares. The Committee may permit the Offeree to satisfy all or part of his or her tax obligations related to such Shares by having the Company withhold a portion of any Shares that otherwise would be issued to him or her or by surrendering any Shares that previously were acquired by him or her. The Shares withheld or surrendered shall be valued at their Fair Market Value on the date when taxes otherwise would be withheld in

Edgar Filing: XIN NET CORP - Form PRER14C

cash. The payment of taxes by assigning Shares to the Company, if permitted by the Committee, shall be subject to such restrictions as the Committee may impose, including any restrictions required by rules of the Securities and Exchange Commission.

(e) Restrictions on Transfer of Shares. Any Shares awarded or sold under the Plan shall be subject to such special forfeiture conditions, rights of repurchase, rights of first refusal and other transfer restrictions as the Committee may determine. Such restrictions shall be set forth in the applicable Stock Purchase Agreement and shall apply in addition to any general restrictions that may apply to all holders of Shares.

SECTION 7. TERMS AND CONDITIONS OF OPTIONS.

(a) Stock Option Agreement. Each grant of an Option under the Plan shall be evidenced by a Stock Option Agreement between the Optionee and the Company. Such Option shall be subject to all applicable terms and conditions of the Plan and may be subject to any other terms and conditions which are not inconsistent with the Plan and which the Committee deems appropriate for inclusion in a Stock Option Agreement. The provisions of the various Stock Option Agreements entered into under the Plan need not be identical.

(b) Number of Shares. Each Stock Option Agreement shall specify the number of Shares that are subject to the Option and shall provide for the adjustment of such number in accordance with Section 9. The Stock Option Agreement shall also specify whether the Option is an ISO or a Nonstatutory Option.

(c) Exercise Price. Each Stock Option Agreement shall specify the Exercise Price. The Exercise Price of an ISO shall not be less than 100 percent of the Fair Market Value of a Share on the date of grant. The Exercise Price of a Nonstatutory Option shall not be less than 100 percent of the Fair Market Value of a Share on the date of grant. Subject to the preceding two sentences, the Exercise Price under any Option shall be determined by the Committee at its sole discretion. The Exercise Price shall be payable in a form described in Section 8.

(d) Withholding Taxes. As a condition to the exercise of an Option, the Optionee shall make such arrangements as the Committee may require for the satisfaction of any federal, state, local or foreign withholding tax obligations that arise in connection with such exercise. The Optionee shall also make such arrangements as the Committee may require for the satisfaction of any federal, state, local or foreign withholding tax obligations that may arise in connection with the disposition of Shares acquired by exercising an Option. The Committee may permit the Optionee to satisfy all or part of his or her tax obligations related to the Option by having the Company withhold a portion of any Shares that otherwise would be issued to him or her or by surrendering any Shares that previously were acquired by him or her. Such Shares shall be valued at their Fair Market Value on the date when taxes otherwise would be withheld in cash. The payment of taxes by assigning Shares to the Company, if permitted by the Committee, shall be subject to such restrictions as the Committee may impose, including any restrictions required by rules of the Securities and Exchange Commission.

(e) Exercisability and Term. Each Stock Option Agreement shall specify the date when all or any installment of the Option is to become exercisable. The vesting of any Option shall be determined by the Committee at its sole discretion. A Stock Option Agreement may provide for accelerated exercisability

Edgar Filing: XIN NET CORP - Form PRER14C

in the event of the Optionee's death, Total and Permanent Disability or retirement or other events. The Stock Option Agreement shall also specify the term of the Option. The term shall not exceed 10 years from the date of grant. Subject to the preceding sentence, the Committee at its sole discretion shall determine when an Option is to expire.

(f) Nontransferability. During an Optionee's lifetime, such Optionee's Option(s) shall be exercisable only by him or her and shall not be transferable, unless permitted by the Stock Option Agreement. In the event of an Optionee's death, such Optionee's Option(s) shall not be transferable other than by will, by a beneficiary designation executed by the Optionee and delivered to the Company, or by the laws of descent and distribution.

(g) Termination of Service (Except by Death). If an Optionee's Service terminates for any reason other than the Optionee's death, then such Optionee's Option(s) shall expire on the earliest of the following occasions:

- (i) The expiration date determined pursuant to Subsection (e) above;
- (ii) The date 120 days after the termination of the Optionee's Service for any reason other than Total and Permanent Disability; or
- (iii) The date six months after the termination of the Optionee's Service by reason of Total and Permanent Disability.

The Optionee may exercise all or part of his or her Option(s) at any time before the expiration of such Option(s) under the preceding sentence, but only to the extent that such Option(s) had become exercisable before the Optionee's Service terminated or became exercisable as a result of the termination. The balance of such Option(s) shall lapse when the Optionee's Service terminates. In the event that the Optionee dies after the termination of the Optionee's Service but before the expiration of the Optionee's Option(s), all or part of such Option(s) may be exercised (prior to expiration) by his or her designated beneficiary (if applicable), by the executors or administrators of the Optionee's estate or by any person who has acquired such Option(s) directly from the Optionee by bequest or inheritance, but only to the extent that such Option(s) had become exercisable before the Optionee's Service terminated or became exercisable as a result of the termination.

(h) Leaves of Absence. For purposes of Subsection (g) above, Service shall be deemed to continue while the Optionee is on military leave, sick leave or other bona fide leave of absence (as determined by the Committee). The foregoing notwithstanding, in the case of an ISO granted under the Plan, Service shall not be deemed to continue beyond the first 90 days of such leave, unless the Optionee's reemployment rights are guaranteed by statute or by contract.

(i) Death of Optionee. If an Optionee dies while he or she is in Service, then such Optionee's Option(s) shall expire on the earlier of the following dates:

- (i) The expiration date determined pursuant to Subsection (e) above;
- or
- (ii) The date six months after the Optionee's death.

Edgar Filing: XIN NET CORP - Form PRER14C

All or part of the Optionee's Option(s) may be exercised at any time before the expiration of such Option(s) under the preceding sentence by his or her designated beneficiary (if applicable), by the executors or administrators of the Optionee's estate or by any person who has acquired such Option(s) directly from the Optionee by bequest or inheritance, but only to the extent that such Option(s) had become exercisable before the Optionee's death or became exercisable as a result of the Optionee's death. The balance of such Option(s) shall lapse when the Optionee dies.

(j) No Rights as a Stockholder. An Optionee, or a transferee of an Optionee, shall have no rights as a stockholder with respect to any Shares covered by his or her Option until the date of the issuance of a stock certificate for such Shares. No adjustments shall be made, except as provided in Section 9.

(k) Modification, Extension and Renewal of Options. Within the limitations of the Plan, the Committee may modify, extend or renew outstanding Options or may accept the cancellation of outstanding Options (to the extent not previously exercised) in return for the grant of new Options at the same or a different price. The foregoing notwithstanding, no modification of an Option shall, without the consent of the Optionee, impair such Optionee's rights or increase his or her obligations under such Option.

(l) Restrictions on Transfer of Shares. Any Shares issued upon exercise of an Option shall be subject to such special forfeiture conditions, rights of repurchase, rights of first refusal and other transfer restrictions as the Committee may determine. Such restrictions shall be set forth in the applicable Stock Option Agreement and shall apply in addition to any general restrictions that may apply to all holders of Shares.

SECTION 8. PAYMENT FOR SHARES.

(a) General Rule. The entire Purchase Price or Exercise Price of Shares issued under the Plan shall be payable in lawful money of the United States of America at the time when such Shares are purchased, except as follows:

(i) In the case of Shares sold under the terms of a Stock Purchase Agreement subject to the Plan, payment shall be made only pursuant to the express provisions of such Stock Purchase Agreement. However, the Committee (at its sole discretion) may specify in the Stock Purchase Agreement that payment may be made in one or all of the forms described in Subsections (e), (f) and (g) below.

(ii) In the case of an ISO granted under the Plan, payment shall be made only pursuant to the express provisions of the applicable Stock Option Agreement. However, the Committee (at its sole discretion) may specify in the Stock Option Agreement that payment may be made pursuant to Subsections (b), (c), (d), (f) or (g) below.

-8-

(iii) In the case of a Nonstatutory Option granted under the Plan, the Committee (at its sole discretion) may accept payment pursuant to Subsections (b), (c), (d), (f) or (g) below.

Edgar Filing: XIN NET CORP - Form PRER14C

(b) Surrender of Stock. To the extent that this Subsection (b) is applicable, payment may be made all or in part with Shares which have already been owned by the Optionee or his or her representative for more than 12 months and which are surrendered to the Company in good form for transfer. Such Shares shall be valued at their Fair Market Value on the date when the new Shares are purchased under the Plan.

(c) Exercise/Sale. To the extent that this Subsection (c) is applicable, payment may be made by the delivery (on a form prescribed by the Company) of an irrevocable direction to a securities broker approved by the Company to sell Shares and to deliver all or part of the sales proceeds to the Company in payment of all or part of the Exercise Price and any withholding taxes.

(d) Exercise/Pledge. To the extent that this Subsection (d) is applicable, payment may be made by the delivery (on a form prescribed by the Company) of an irrevocable direction to pledge Shares to a securities broker or lender approved by the Company, as security for a loan, and to deliver all or part of the loan proceeds to the Company in payment of all or part of the Exercise Price and any withholding taxes.

(e) Services Rendered. To the extent that this Subsection (e) is applicable, Shares may be awarded under the Plan in consideration of services rendered to the Company or a Subsidiary prior to the award. If Shares are awarded without the payment of a Purchase Price in cash, the Committee shall make a determination (at the time of the award) of the value of the services rendered by the Offeree and the sufficiency of the consideration to meet the requirements of Section 6(c).

(f) Promissory Note. To the extent that this Subsection (f) is applicable, a portion of the Purchase Price or Exercise Price, as the case may be, of Shares issued under the Plan may be payable by a full-recourse promissory note, provided that (i) the par value of such Shares must be paid in lawful money of the United States of America at the time when such Shares are purchased, (ii) the Shares are security for payment of the principal amount of the promissory note and interest thereon and (iii) the interest rate payable under the terms of the promissory note shall be no less than the minimum rate (if any) required to avoid the imputation of additional interest under the Code. Subject to the foregoing, the Committee (at its sole discretion) shall specify the term, interest rate, amortization requirements (if any) and other provisions of such note.

(g) Other Forms of Payment. To the extent that this Subsection (g) is applicable, payment may be made in any other form approved by the Committee, consistent with applicable laws, regulations and rules.

SECTION 9. ADJUSTMENT OF SHARES.

(a) General. In the event of a subdivision of the outstanding Stock, a declaration of a dividend payable in Shares, a declaration of a dividend payable in a form other than Shares in an amount that has a material effect on the value

of Shares, a combination or consolidation of the outstanding Stock (by reclassification or otherwise) into a lesser number of Shares, a recapitalization, a spin-off or a similar occurrence, the Committee shall make appropriate adjustments in one or more of (i) the number of Shares available for

Edgar Filing: XIN NET CORP - Form PRER14C

future grants under Section 5, (ii) the number of Nonstatutory Options to be granted to Outside Directors under Section 4(b), (iii) the number of Shares covered by each outstanding Option or (iv) the Exercise Price under each outstanding Option.

(b) Reorganizations. In the event that the Company is a party to a merger or other reorganization, outstanding Options shall be subject to the agreement of merger or reorganization. Such agreement may provide, without limitation, for the assumption of outstanding Options by the surviving corporation or its parent, for their continuation by the Company (if the Company is a surviving corporation), for payment of a cash settlement equal to the difference between the amount to be paid for one Share under such agreement and the Exercise Price, or for the acceleration of their exercisability followed by the cancellation of Options not exercised, in all cases without the Optionees' consent. Any cancellation shall not occur until after such acceleration is effective and Optionees have been notified of such acceleration. In the case of Options that have been outstanding for less than 12 months, a cancellation need not be preceded by an acceleration.

(c) Reservation of Rights. Except as provided in this Section 9, an Optionee or Offeree shall have no rights by reason of any subdivision or consolidation of shares of stock of any class, the payment of any dividend or any other increase or decrease in the number of shares of stock of any class. Any issue by the Company of shares of stock of any class, or securities convertible into shares of stock of any class, shall not affect, and no adjustment by reason thereof shall be made with respect to, the number or Exercise Price of Shares subject to an Option. The grant of an Option pursuant to the Plan shall not affect in any way the right or power of the Company to make adjustments, reclassifications, reorganizations or changes of its capital or business structure, to merge or consolidate or to dissolve, liquidate, sell or transfer all or any part of its business or assets.

SECTION 10. SECURITIES LAWS.

Shares shall not be issued under the Plan unless the issuance and delivery of such Shares complies with (or is exempt from) all applicable requirements of law, including (without limitation) the Securities Act of 1933, as amended, the rules and regulations promulgated thereunder, state securities laws and regulations, and the regulations of any stock exchange on which the Company's securities may then be listed.

SECTION 11. NO RETENTION RIGHTS.

Neither the Plan nor any Option shall be deemed to give any individual a right to remain an employee, consultant or director of the Company or a Subsidiary. The Company and its Subsidiaries reserve the right to terminate the service of any employee, consultant or director at any time, with or without cause, subject to applicable laws, the Company's certificate of incorporation and by-laws and a written employment agreement (if any).

-10-

SECTION 12. DURATION AND AMENDMENTS.

(a) Term of the Plan. The Plan, as set forth herein, shall become effective upon approval by shareholders. The Plan shall terminate automatically 15 years after its initial adoption by the Board of Directors on October 3, 2000, and may be terminated on any earlier date pursuant to Subsection (b) below.

Edgar Filing: XIN NET CORP - Form PRER14C

(b) Right to Amend or Terminate the Plan. The Board of Directors may, subject to applicable law, amend, suspend or terminate the Plan at any time and for any reason. An amendment to the Plan shall require stockholder approval only to the extent required by applicable law.

(c) Effect of Amendment or Termination. No Shares shall be issued or sold under the Plan after the termination thereof, except upon exercise of an Option granted prior to such termination. The termination of the Plan, or any amendment thereof, shall not affect any Share previously issued or any Option previously granted under the Plan.

SECTION 13. EXECUTION.

PROTECTSERVE PACIFIC LIMITED
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2001

NOTE 1 - ORGANIZATION AND DESCRIPTION OF BUSINESS

Protectserve Pacific Limited (the Company) was incorporated in Hong Kong under the Companies Ordinance on September 25, 2000. The Company changed its name from Global Surveillance Communications Limited to Protectserve Pacific Limited on January 15, 2001. The Company commenced business on February 1, 2001. The Company's year end is December 31.

The Company is in the business of developing and marketing computer hardware and web-based surveillance monitoring and control systems. The Company markets its products primarily to distributors and agents, which serve practically all industries with a need for security and protection.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements are presented in US Dollars and have been prepared in accordance with generally accepted accounting principles in the United States of America.

Cash and Cash Equivalents - Cash and cash equivalents include all highly liquid investments with an original maturity of three months or less when acquired.

Foreign Currency Translation - The functional currency of the Company is the Hong Kong Dollars and the financial records are maintained and the financial statements are prepared in Hong Kong Dollars. Foreign currency transactions during the period are translated into U.S. Dollars at the exchange rate ruling at the translation dates. Gains and losses resulting from foreign currency transactions are included in the statement of income. Assets and liabilities denominated in foreign currencies at the balance sheet date are translated into U.S. Dollars at period-end exchange rates. Exchange rates between U.S. Dollars and Hong Kong Dollars were fairly stable during the period presented, and thus, there was no net adjustment to stockholders equity. The rate ruling at June 30, 2001 was each U.S. Dollar to 7.80 Hong Kong Dollars, the official rate of exchange.

Use of Estimates - The financial statements were prepared in conformity with accounting principles generally accepted in the United States that require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Concentration of Credit Risk - The Company has three customers that each account for more than 10% of sales. As of August 10, 2001, the entire outstanding amounts were received from the customers.

F-6

Revenue Recognition - The Company recognizes revenue upon shipment of computer hardware and web-based surveillance monitoring and control systems to the customer. Accounts receivable is shown net of allowance for doubtful accounts and is estimated as a percentage of accounts receivable based on prior experience. Credit risk is minimal as evaluation of customers' financial position is performed regularly. Collateral is not required as a condition of

Edgar Filing: XIN NET CORP - Form PRER14C

credit. Due to the short period of operations, no allowance for doubtful accounts has been recorded in these financial statements.

Property and Equipment - Property and Equipment is recorded at cost. Amortization is provided over the following estimated useful lives, ranging from five to seven years, using the straight-line method.

Computer Software Costs - In accordance with AICPA Statement of Position 98-1, "Accounting for the Costs of Computer Software Developed or Obtained for Internal Use," the Company capitalizes certain costs incurred for the development of internal use software. These costs include the costs incurred to obtain computer software from third parties and the costs associated with coding, software configuration, upgrades and enhancements. These costs are amortized on a straight-line basis over the remaining estimated economic lives of the assets.

Advertising costs - Advertising costs are expensed when incurred.

Long-Lived Assets - The Company periodically reviews its long-lived assets for impairment based upon the estimated undiscounted cash flows expected to result from the use of the assets and their eventual disposition. When events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable, the asset is written down to its net realizable value.

Earnings Per Share - Basic and diluted earnings per share were computed in accordance with following Statement of Financial Accounting Standards ("SFAS") No. 128, "Earnings Per Share." Basic net earnings per share is computed by dividing net earnings available to common shareholders (numerator) by the weighted average number of common shares outstanding (denominator) during the period. Diluted net earnings per share gives effect to all dilutive potential common shares outstanding during the period. Basic and diluted earnings per share are the same for the period presented in these financial statements.

F-7

Income Taxes - The Company accounts for income taxes using the liability method, which requires an entity to recognize deferred tax liabilities and assets. Deferred income taxes are recognized based on the reported differences between the tax bases of assets and liabilities and their reported amounts in the financial statements that will result in taxable or deductible amounts in future years. Further, the effects of enacted tax laws or rate changes are included as part of deferred tax expenses or benefits in the year that covers the enactment in the near-future date. A valuation allowance is provided when there is an uncertainty that a deferred tax benefit will be realized.

Fair Values of Financial Instruments - The carrying amounts of certain financial instruments, including cash, accounts receivable, and accrued liabilities approximate their fair values as of June 30, 2001, because of the relatively short-term maturity of these instruments. The fair value of the Company's related party payables cannot be determined due to the nature of the transaction.

Recent Accounting Pronouncements - In June 2001, the Financial Accounting Standards Board issued the following SFAS's:

SFAS No. 141, "Business Combinations," which requires all business combinations initiated after June 30, 2001, to be accounted for under the purchase method of accounting for which the date of acquisition is July 1, 2001 or later. This statement does not affect the financial statements.

Edgar Filing: XIN NET CORP - Form PRER14C

SFAS No. 142, "Goodwill and Other Intangible Assets," which addresses how intangible assets that are acquired individually or with a group of other assets (but not those acquired in a business combination) should be accounted for in financial statements upon their acquisition. This statement also addresses how goodwill and other intangible assets should be accounted for after they have been initially recognized in the financial statements. This statement is required to be applied starting with fiscal years beginning after December 15, 2001. This statement will require the Company to reassess the useful lives of its previously recognized intangible assets and adjust the amortization period. Additionally, any previously recognized intangible asset that is deemed to have an indefinite useful life would cease being amortized. Impairment losses for goodwill and indefinite-lived intangible assets that arise due to the initial application of this Statement are reported as resulting from a change in accounting principle.

F-8

SFAS No. 143, "Accounting for Asset Retirement Obligations," which discusses the financial accounting and reporting for obligations associated with the retirement of tangible long-lived assets and the associated asset retirement costs, which is effective for financial statements issued for fiscal years beginning after June 15, 2002. This statement does not affect the financial statements.

One of the common applications of the GeniusEye Systems is for management of retail operations. With the GeniusEye Systems, image from surveillance cameras, which are installed at the retail stores at different locations, are transmitted to the personal computer in a remote administration office. The manager of the retail stores can therefore monitor and control the activities and operations in different retail stores without making on-site visit physically. A remote audio and video monitoring system is particularly cost-effective for large retail chains which generally take up a great deal of management time for commuting from one store to another. As regards small retail chains or single store businesses which are very often owner-operated or have limited workforce, a remote audio and video monitoring system enables a single human operator to effectively monitor a significant area of interests, keep track of happenings, people and their interactions at multiple stores.

According to statistics published by the Census and Statistics Department of Hong Kong, there were over 60,000 retail establishments in Hong Kong as at the end of 2000. PSP believes that the penetration rate of remote audio and video monitoring systems amongst retail establishments is very low and there remains significant business potential for the Geniuseye Systems.

Manufacturing/Warehousing operation management

Edgar Filing: XIN NET CORP - Form PRER14C

PSP believes that it is common for cooperation with manufacturing operations to locate their trading or administrative offices in central or commercial business districts whilst establishing their manufacturing and warehousing operations in different areas where operating cost, particularly rent and wages, are lower. This phenomenon is particularly common in Hong Kong where a lot of companies have relocated their production facilities and/or warehouse across the border to the PRC where wages and rent are relatively lower. PSP considers that such strategy has provided significant business potential for the remote audio and video monitoring system which enables the management to monitor the office and manufacturing operation via personal computers without regard to where they are physically located. The remote monitoring system also enables the management to monitor and control the inventory flow through the warehouses, as well as serves as a security alarm system.

According to statistics published by Census and Statistics Department of Hong Kong, there were 22,581 establishments in Hong Kong as at the end of June 2000 which had manufacturing operations. Due to the relatively high cost of operating operations of most Hong Kong-based companies are located elsewhere outside Hong Kong. PSP also believes that the penetration rate of remote audio and video monitoring systems amongst these establishments is very low and there remains significant business potential for the GeniusEye Systems.

Property/ Building management

Using the conventional CCTV security alarm systems, video images are usually transmitted to a designated guard center which is located at the property being monitored and where the security guards are stationed. By way of GeniusEye Systems, video data captured are transmitted to the monitor at a central control console which can be located anywhere within or far away from the property being monitored. The remote video monitoring system is particularly an effective means for central building management where multi-block housing estates are the targets for monitoring. It can also be used by property management companies which are contracted to manage more than one compound at different locations. Such a system also enable certain property management functions to be performed from a remote control center, such as opening or closing a gate, turning on or off a fountain, or controlling the lighting or air-conditioning of residents' clubhouse. GeniusEye Systems may even be used to monitor and measure the performance and productivity of on-site staff.

According to the list of licensed security companies in Hong Kong published by the Security and Guarding Services Industry Authority, there were approximately 500 property management companies in Hong Kong as at January 2001 which, PSP believes, are all potential users of the GeniusEye Systems.

Monitoring unmanned premises and equipment

Remote audio and video monitoring systems have been used by utility companies in monitoring unmanned premises and equipment, such as water supply systems, power plants located at remote areas, unmanned sites or restricted zones.

PSP considers that the applications of GeniusEye Systems can further be extended for use by educational institutes and government agencies respectively in monitoring and controlling activities such as unmanned equipment in laboratories, progress of construction works in remote sites, and traffic conditions etc.

The Internet Industry

Edgar Filing: XIN NET CORP - Form PRER14C

Internet technology enables commercial entities, educational institution, government agencies as well as individuals in different geographic locations to communicate, access and share information; and provides global e-commerce to communicate, access and share information; and provides global e-commerce platforms to the community for conducting and exploring new business opportunities. Meanwhile, Internet applications are widely used in e-mail, data transfer, online information retrieval, advertising and e-commerce.

Internet has demonstrated a rapid growth in popularity towards the end of last decade, and the trend is expected to continue in the new millennium. According to Computer Industry Almanac ("CIA"), there were about 320 million Internet users worldwide at year end 2000 and estimates over 720 million users by year end 2005.

The rapid development of the Internet has altered the fundamental economic structure under which consumers and businesses conduct transactions. PSP believes that e-commerce is going to have a profound effect on the way how people live and work. The Internet offers a convenient means for e-commerce activities as transaction can be conducted almost anywhere and at anytime. E-commerce can occur at any stage of the supply chain, whether within an organization, between businesses, and between businesses to consumers. PSP expects that as the Internet becomes more popular, consumers and businesses will increasingly engage in online offering, evaluating, selecting and purchasing of goods and services, and hence increasing the demand for the GeniusEye Systems which enable real-time video image to be broadcast via the Internet.

Intranet

An Intranet is basically a private network environment that uses the Internet as the backbone for their communications. Usually Intranets are used for communication within a specific company or between a company and its key suppliers or customers. Intranet networks are isolated from the external Internet by security firewalls. Intranet users communicate with servers using user-friendly web browsers from any networked platform or location. Connectivity is simple, inexpensive and seamless. The most common reason for having Intranet is to provide basic applications and file sharing in a simple and cost effective fashion.

PSP believes that the growth in the popularity of the Intranet will provide increasing opportunities for web-based GeniusEye Systems.

The Wireless Generation

Industry analysts are predicting a surge in the number of wireless data subscribers over the next several years as the Internet industry enters into the 3G. The 3G wireless networks are characterized by high data transmission rates: a minimum of 144kbps in all radio environments and up to 2Mbps in low-mobility and indoor environments. The 3G standards will be deployed in carrier networks in a phased approach over the next several years. Wireless network service providers around the world can migrate their existing digital cellular networks to 3G network infrastructures over time.

It is anticipated that within the next few years, wireless handsets and appliances will become pervasive platforms for accessing the Internet. PSP believes that the technology of the GeniusEye Systems can be adapted for use in these wireless and handheld devices, and hence providing good opportunities for the Company.

General Statistics

Edgar Filing: XIN NET CORP - Form PRER14C

In addition to expanding the Hong Kong market, PSP are also planning to explore PRC market in the next six months by setting up offices in Guangzhou, Shanghai and Beijing.

As the GeniusEye Systems enable users to observe and monitor through personal computers what is happening in remote sites via phone lines, GSM and the Internet, PSP believes that the growing trend of telephone lines, Internet subscribers and mobile phone subscribers is an indication of the market potential of the GeniusEye Systems.

PSP believes that such information will help to create more interest in and awareness of the Company's products

5. COMPETITION

PSP believes that the image compression and video transmission technologies, being the underlying technologies of the GeniusEye Systems or similar remote monitoring systems is at the leading edge of the market which forms a high barrier to entry by companies without strong research and development capability and that the market of such products is still relatively undeveloped. The only direct competition among other market participants is " TeleEye" which has similar operational history and competes in similar market segments. They are publicly listed company on GEM board with trading Symbol 8051.

The following comparison chart illustrates the features and specification of both products.
