NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of presentation

The condensed interim financial statements included herein, presented in accordance with United States generally accepted accounting principles and stated in US dollars, have been prepared by the Company, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to such rules and regulations, although the Company believes that the disclosures are adequate to make the information presented not misleading.

These statements reflect all adjustments, consisting of normal recurring adjustments, which in the opinion of management, are necessary for fair presentation of the information contained therein. It is suggested that these condensed interim financial statements be read in conjunction with the financial statements of the Company for the year ended December 31, 2011 and notes thereto included in the Company's 10-K annual report and all amendments. The Company follows the same accounting policies in the preparation of interim reports.

Results of operations for the interim period are not indicative of annual results.

Principles of Consolidation

For the three and nine months ended September 30, 2012 and 2011, the consolidated financial statements include the accounts of Citadel Exploration, Inc. and Citadel Exploration, LLC. All significant intercompany balances and transactions have been eliminated. Citadel Exploration, Inc. and Citadel Exploration, LLC will be collectively referred herein to as the "Company".

Nature of operations

Currently, the Company is focused on the acquisition and development of oil and gas resources in California. The Company has not yet found oil and gas resources in commercially exploitable quantities and is engaged in exploring land in an effort to discover them. The Company has been in the exploration stage since its formation and has not realized significant revenues from its planned principal operations.

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ significantly from those estimates.

Stock-based compensation

The Company records stock based compensation in accordance with the guidance in ASC Topic 718 which requires the Company to recognize expense related to the fair value of its employee stock option awards. This eliminates accounting for share-based compensation transactions using the intrinsic value and requires instead that such transactions be accounted for using a fair-value-based method. The Company recognizes the cost of all share-based awards on a graded vesting basis over the vesting period of the award.

(An Exploration Stage Company)
Notes to Consolidated Financial Statements

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Earnings per share

The Company follows ASC Topic 260 to account for the earnings per share. Basic earnings per common share (“EPS”) calculations are determined by dividing net income by the weighted average number of shares of common stock outstanding during the period. Diluted earnings per common share calculations are determined by dividing net income by the weighted average number of common shares and dilutive common share equivalents outstanding. During periods when common stock equivalents, if any, are anti-dilutive they are not considered in the computation.

Oil and gas properties

The Company uses the full cost method of accounting for its oil and natural gas properties. Under this method, all acquisition, exploration, development and estimated abandonment costs incurred for the purpose of acquiring and finding oil and natural gas are capitalized within cost centers. At September 30, 2012 and December 31, 2011, the Company had one cost center – California. Unevaluated property costs are excluded from the amortization base until determination of the existence of proved reserves on the respective property or until the requirement for impairment. Unevaluated properties are reviewed at the end of each quarter to determine whether portions of the costs should be reclassified to the full cost pool and thereby subject to amortization. Sales of oil and natural gas properties are accounted for as adjustments to the net full cost pool with no gain or loss recognized, unless the adjustment would significantly alter the relationship between capitalized costs and proved reserves.

Capitalized costs of oil and natural gas properties evaluated as having, or not having, proved reserves are amortized in the aggregate by country using the unit-of-production method based upon estimated proved oil and natural gas reserves. For amortization purposes, relative volumes of oil and natural gas production and reserves are converted at the energy equivalent conversion rate of six thousand cubic feet of natural gas to one barrel of crude oil. Amortizable costs include estimates of future development costs of proved undeveloped reserves. The costs of properties not yet evaluated are not amortized until evaluation of the property. Such evaluations for a well and associated lease rights are made when it is determined whether or not the well has proved oil and natural gas reserves. Other unevaluated properties are evaluated for impairment as of the end of each calendar quarter based upon various factors at the time, including drilling plans, drilling activity, management’s estimated fair values of lease rights by project, and remaining lives of leases.

Capitalized costs of oil and natural gas properties (net of related deferred income taxes) may not exceed a ceiling amount equal to the present value, discounted at 10% per annum, of the estimated future net cash flows from proved oil and natural gas reserves plus the cost of unevaluated properties (adjusted for related income tax effects). Should capitalized costs exceed this ceiling amount, the excess is charged to earnings as an impairment expense, net of its related reduction of the deferred income tax provision. The present value of estimated future net cash flows is computed by applying the twelve-month historical averages of prices of oil and natural gas to estimated future production of proved oil and natural gas reserves as of period-end, less estimated future expenditures (at period-end rates) to be incurred in developing and producing the proved reserves and assuming continuation of economic conditions existing at period-end. The present value of future net cash flows of proved reserves excludes future cash outflows associated with settling asset retirement obligations that have been accrued on the balance sheet.

Revenue recognition

The Company recognizes oil and natural gas revenues from our interests in producing wells when production is delivered to, and title has transferred to, the purchaser and to the extent the selling price is reasonably determinable.

Gas-balancing arrangements are accounted for using the sales method.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Recent pronouncements

The Company has evaluated the recent accounting pronouncements through October 2012 and believes that none of them will have a material effect on the company's financial statements.

NOTE 2 – GOING CONCERN

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern, which contemplates the recoverability of assets and the satisfaction of liabilities in the normal course of business. As noted above, the Company is in the development stage and, accordingly, has not yet generated revenues from operations. Since its inception, the Company has been engaged substantially in financing activities and developing its business plan and incurring startup costs and expenses. As a result, the Company incurred accumulated net losses from Inception (November 6, 2006) through the period ended September 30, 2012 of (\$544,042). In addition, the Company's development activities since inception have been financially sustained through debt and equity financing.

The ability of the Company to continue as a going concern is dependent upon its ability to raise additional capital from the sale of common stock and, ultimately, the achievement of significant operating revenues. These financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts, or amounts and classification of liabilities that might result from this uncertainty.

NOTE 3 – PREPAID EXPENSES

As of December 31, 2011, the Company had prepaid insurance totaling \$16,664. The prepaid insurance will be expensed on a straight line basis over the remaining life of the insurance policy. During the nine months ended September 30, 2012, the Company expensed the entire prepaid insurance totaling \$16,664 as insurance expenses.

As of September 30, 2012, the Company had prepaid insurance totaling \$14,722. The prepaid insurance will be expensed on a straight line basis over the remaining life of the insurance policy. During the three and nine months ended September 30, 2012, the Company recorded \$5,889 and \$8,833, respectively, of insurance expenses.

NOTE 4 – OIL AND GAS PROPERTIES

The costs capitalized in oil and gas properties as of September 30, 2012 and December 31, 2011 are as follows:

	2012	2011
Oil and gas property lease	\$57,830	\$61,984
Exploration	88,337	143,376
	\$146,167	\$205,360

NOTE 4 – OIL AND GAS PROPERTIES (continued)

On January 31, 2009, the Company entered into an oil, gas and mineral lease with an unrelated third party. The Company has the right to develop and operate the leased premises for an initial term of three years and the lease will continue as long as the Company continues actual drilling operations and continued development. The initial minimum lease payment of \$20,661 was made upon execution of the lease and the two remaining minimum lease payments of \$20,661 were due on January 31, 2010 and 2011. Additionally, the Company is obligated to pay royalties to the unrelated third party. On oil and gas from all wells on the leased premises, the royalty is a total of 20% of the market value. The royalty payments are due on or before the last day of each month for the preceding month's activity. If the royalty payment is not made timely, the Company will owe a 10% per annum interest on the royalties due.

On February 1, 2012, the Company renegotiated its oil, gas and mineral lease with an unrelated third party for an additional minimum term of two years. The minimum lease payment is \$20,640 per year. The terms of the renegotiated lease are substantially the same as the original lease disclosed above.

On February 22, 2012, the Company sold 40% of its interest in the property disclosed above in exchange for \$350,000. The Company recorded a gain on the sale of the partial interest totaling \$267,856.

During the nine months ended September 30, 2012, the Company has requested payment from Sojitz for a total of \$2,047 of exploration costs for Sojitz's portion of the costs which was received during the nine months ended September 30, 2012.

NOTE 5 – NOTES PAYABLE

	\$55,690	\$131,450

Interest expense for the three months ended September 30, 2012 and 2011 was \$534 and \$965, respectively. Interest expense for the nine months ended September 30, 2012 and 2011 was \$2,260 and \$1,316, respectively.

NOTE 7 – STOCKHOLDERS' EQUITY (DEFICIT)

The Company is authorized to issue 100,000,000 shares of its \$0.001 par value common stock.

On March 2, 2011, the Company effected a 12-to-1 forward stock split of its \$0.001 par value common stock with a record date of March 22, 2011.

All shares and per share amounts have been retroactively restated to reflect the split discussed above.

During January 2012, the Company received donated capital of \$980 from an officer of the Company.

During May 2012, the Company issued 42,500 shares of common stock to an investor for \$34,000 in cash received during the year ended December 31, 2011. Upon issuance of the common stock, the Company reduced the entire balance of stock payable to \$0.

During the three months ended September 30, 2012, the Company agreed to issue a total 250,500 shares for consulting services rendered totaling \$48,430. The shares have not been issued as of September 30, 2012 and are recorded to stock payable. In November 2012, the shares of common stock were issued.

During September 2012, the Company issued 2,000,000 shares of common stock to an investor for \$80,000 in cash.

Citadel Exploration, Inc.
(An Exploration Stage Company)
Notes to Consolidated Financial Statements

NOTE 8 – STOCK OPTION PLAN

On September 1, 2012, the Board of Directors of the Company ratified, approved, and adopted a Stock Option Plan for the Company allowing for the grant of up to 10,000,000 shares of common stock or stock options to acquire common shares. In the event an optionee ceases to be employed by or to provide services to the Company for reasons other than cause, any Stock Option that is vested and held by such optionee may be exercisable within up to thirty days after the effective date that his position ceases. No Stock Option granted under the Stock Option Plan is transferable. Any Stock Option held by an optionee at the time of his death may be exercised by his estate within six months of his death or such longer period as the Board of Directors may determine.

As approved by the Board of Directors, on September 4, 2012, the Company granted 4,000,000 stock options to two officers of the Company at \$0.20 per share for terms of seven years. Of the total stock options, 1,000,000 vested immediately and the remaining vest equally over the next 3 years at the anniversary date of the employment agreements. The total fair value of these options at the date of grant was estimated to be \$599,974 and was determined using the Black-Scholes option pricing model with an expected life of 7 years, a risk free interest rate of 1.01%, a dividend yield of 0% and expected volatility of 254%. During nine months ended September 30, 2012, and \$149,994 was recorded as a stock based compensation expense.

The following is a summary of the status of all of the Company's stock options as of September 30, 2012 and changes during the period ended on that date:

In November 2012, the Company issued 250,500 shares of common stock to a consultant and reduced the entire balance of the stock payable.

In November 2012, the Company received a loan of \$250,000 from a third party. The loan bears interest at 12% per annum with interest due upon maturity. It is due on the earlier 90 days or upon the consummation by the Company of any financing with aggregate proceeds equal to or in excess of \$1,000,000. The Company can extend the loan for a period of 90 days by paying an extension fee of 25,000 shares of the Company's common stock and increasing the interest rate to 14% per annum. The lender also received 500,000 warrants with an exercise price of \$0.55. The loan is secured by shares of the Company's common stock that is held by the CEO of the Company.

FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q contains forward-looking statements and involves risks and uncertainties that could materially affect expected results of operations, liquidity, cash flows, and business prospects. These statements include, among other things, statements regarding:

- o exploration risks such as drilling unsuccessful wells;
 - o our ability to operate profitably;
 - o our ability to efficiently and effectively finance our operations;
 - o inability to achieve future sales levels or other operating results;
 - o inability to raise additional financing for working capital;
 - o inability to efficiently manage our operations;
 - o inability to hire or retain sufficient qualified operating field personnel;
 - o the inability of management to effectively implement our strategies and business plans;
 - o the unavailability of funds for capital expenditures and/or general working capital;
 - o deterioration in general or regional economic conditions;
- o the fact that our accounting policies and methods are fundamental to how we report our financial condition and results of operations, and they may require management to make estimates about matters that are inherently uncertain;
- o changes in U.S. GAAP or in the legal, regulatory and legislative environments in the markets in which we operate;
- o adverse state or federal legislation or regulation that increases the costs of compliance, or adverse findings by a regulator with respect to existing operations;

As well as other statements regarding our future operations, financial condition and prospects, and business strategies. These forward-looking statements are subject to certain risks and uncertainties that could cause our actual results to differ materially from those reflected in the forward-looking statements. Factors that could cause or contribute to such differences include, but are not limited to, those discussed in this Quarterly Report on Form 10-Q, and in particular, the risks discussed under the heading “Risk Factors” in Part II, Item 1A and those discussed in other documents we file with the Securities and Exchange Commission. We undertake no obligation to revise or publicly release the results of any revision to these forward-looking statements. Given these risks and uncertainties, readers are cautioned not to place undue reliance on such forward-looking statements.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

Overview

Citadel is an energy company engaged in the exploration and development of oil and natural gas properties. Our property is located in the County of San Benito, California. Subject to availability of capital, we strive to implement an accelerated development program utilizing capital resources, a regional operating focus, an experienced management and technical team, and enhanced recovery technologies to attempt to increase production and increase returns for our stockholders. Our corporate strategy is to continue building value in the Company through successful exploration and development of gas and oil assets.

Our revenues, profitability and future growth depend substantially on prevailing prices for oil and natural gas and our ability to find, develop and acquire oil and gas reserves that are economically recoverable.

Our Projects

Citadel has accepted a written invitation to participate with Black Hawk Oil Co. LLC (Blackhawk) and Sojitz Energy Ventures (Sojitz) in the South San Joaquin Valley. Sojitz and Blackhawk have collectively leased over 52,000 acres in the area under the guidance of The Nahabedian Exploration Group LLC. Subject to adequate financing and on a prospect by prospect basis Citadel will be able to farm-in on that lease block under favorable terms. Citadel has already identified more than 20 prospects on the lease block for drilling.

On January 31, 2009, our wholly-owned subsidiary, Citadel Exploration, LLC ("CEL"), entered into an Oil and Gas Lease ("Lease") for 688.71 acres of property with Vintage Petroleum, LLC ("Vintage"), a company owned by Occidental Petroleum (NYSE:OXY), for an initial term of three years. During February 2012, we entered into a new lease with Vintage for a period of two years.

Other Events

On February 22, 2012, we executed a "Letter Agreement Sale of Partial Interest in Vintage Lease, Project Indian" ("Vintage Lease Agreement") with Sojitz Energy Venture, Inc. ("Sojitz"), whereby we sold to Sojitz an undivided Forty percent (40%) interest ("Assigned Interest") relating to the Oil, Gas, and Mineral Lease dated February 1, 2012 from Vintage Petroleum California, LLC (the "Lessor"), a Delaware Limited Liability Company and wholly owned subsidiary of Occidental Petroleum, to Citadel, as Lessee. The Vintage Lease Agreement relates to a property known as "Project Indian," which is located in San Benito County, California, covering approximately 688.71 acres of land, for a term of Five (5) years. As consideration for the Assigned Interest, Sojitz paid Citadel the sum of Three Hundred and Fifty Thousand Dollars (\$350,000). Additionally, as part of the Vintage Lease Agreement, the parties entered into a Joint Operating Agreement ("JOA"), which includes all area under the Lease, as well as an area designated as Area of Mutual Interest or "AMI". The Company recorded a gain of the sale of the partial interest totaling \$267,856.

Going Concern

The financial statements included in this filing have been prepared in conformity with generally accepted accounting principles that contemplate the continuance of the Company as a going concern, which contemplates the realization of assets and liquidation of liabilities in the normal course of business. However, the Company is in the development stage and, accordingly, has not generated revenues from operations. As shown on the accompanying financial statements, the Company has incurred a net loss of \$544,042 for the period from inception (November 6, 2006) to September 30, 2012. These conditions raise substantial doubt about the Company's ability to continue as a going concern.

The future of the Company is dependent upon its ability to obtain financing and upon future profitable operations from the development of its oil and gas business opportunities.

RESULTS OF OPERATIONS

Results of Operations for the Three Months Ended September 30, 2012 and September 30, 2011

During the three month period ended September 30, 2012 we did not generate revenue. In the prior three month period ended September 30, 2011 we earned \$675 in revenue.

Operating expenses totaled \$299,497 during the three month period ended September 30, 2012 as compared to total operating expense of \$61,795 in the prior three month period ended September 30, 2011. Operating expenses primarily consisted of general and administrative fees, general and administrative – related party, amortization, professional fees, and executive compensation in the three month period ended September 30, 2012.

General and administrative fees decreased \$13,726 to \$26,631 from the three month period ended September 30, 2011 to the three month period ended September 30, 2012. This decrease was primarily due to reduction in conferences and seminars by \$9,000.

General and administrative –related party fees increased \$1,875 to \$1,875 from the three month period ended September 30, 2011 to the three month period ended September 30, 2012. This increase was primarily as a result of the placement of the Company in a corporate office.

Professional fees increased \$79,559 to \$100,882 from the three month period ended September 30, 2011 to the three month period ended September 30, 2012. The increase was primarily due to the increase in consulting fees.

Executive compensation increased \$169,994 to \$169,994 from the three month period ended September 30, 2011 to the three month period ended September 30, 2012. The increase was primarily due to the fair value of the vested stock options that were granted as part of the employment agreements with two officers.

Results of Operations for the Nine Months Ended September 30, 2012 and September 30, 2011

During the nine month period ended September 30, 2012, we did not generate revenue. In the prior nine month period ended September 30, 2011 we earned \$675 in revenue.

Operating expenses, net of gains on the sale of interest in oil & gas properties and the gain on the settlement of accounts payable, totaled \$306,304 during the nine month period ended September 30, 2012 as compared to total operating expense of \$181,147 in the prior nine month period ended September 30, 2011. Operating expenses primarily consisted of general and administrative fees, general and administrative – related party, professional fees, professional fees- related party, and amortization in the nine month period ended September 30, 2012.

General and administrative expenses increased by \$34,988 to \$83,062 from the nine month period ended September 30, 2011 to the nine month period ended September 30, 2012. This increase was primarily as a result of the insurance policy for the Company and increases for automobile expenses, phone expenses and travel expenses.

General and administrative –related party expenses increased by \$64,805 to \$64,805 from the nine month period ended September 30, 2011 to the nine month period ended September 30, 2012. This increase was primarily as a result of the placement of the Company in a corporate office.

Amortization expenses increased by \$191 to \$344 from the nine month period ended September 30, 2011 to the nine month period ended September 30, 2012. The increase was primarily due to amortization on the website.

Professional fees increased by \$63,696 to \$196,616 from the nine month period ended September 30, 2011 to the nine month period ended September 30, 2012. The increase was primarily due to increase in consulting fees.

Professional fees – related party increased \$60,000 to \$60,000 from the nine month period ended September 30, 2011 to the nine month period ended September 30, 2012. The increase was due to the monthly consulting fees at \$10,000 per month which was effective on January 1, 2012. Both parties mutually agreed to terminate the agreement as of July 1, 2012. The consultants were engaged due to increased activity by the Company and the initiation of a prospect generation and evaluation program.

Executive compensation increased by \$169,994 to \$169,994 from the nine month period ended September 30, 2011 to the nine month period ended September 30, 2012. The increase was primarily due to the fair value of the vested stock options that were granted as part of the employment agreements with two officers.

Gain on the sale of interest in oil & gas properties increased \$267,856 during the nine months ended September 30, 2012 as compared to the nine month period ended September 30, 2011. The increase was due to the sale of 40% of the interest in the Indian project.

Gain on the settlement of accounts payable increased \$661 during the nine months ended September 30, 2012 as compared to the nine month period ended September 30, 2011. The increase was due to the settlement of accounts payable to one vendor.

Liquidity and Capital Resources

As of September 30, 2012, we had \$13,458 in cash and \$14,722 in prepaid expenses. The following table provides detailed information about our net cash flow for all financial statement periods presented in this Quarterly Report. To date, we have financed our operations through the issuance of stock and borrowings from related parties and an unrelated third party.

The following table sets forth a summary of our cash flows for the nine months ended September 30, 2012 and 2011:

	Nine Months Ended September 30,	
	2012	2011
Net cash used in operating activities	\$(326,426)	\$(114,116)
Net cash provided by (used in) investing activities	327,049	(96,555)
Net cash provided by financing activities	11,591	210,971
Net increase in Cash	12,213	-
Cash, beginning of year	1,245	-
Cash, end of year	\$13,458	\$-

Operating activities

Net cash used in operating activities was \$327,049 for the nine month period ended September 30, 2012, as compared to \$114,116 used in operating activities for the same period in 2011. The net cash used in operating activities consisted primarily of professional fees. Additionally, the most significant change was due to the gain on sale of interest in oil & gas properties.

Investing activities

Net cash provided by investing activities was \$314,779 for the nine month period ended September 30, 2012, as compared to \$96,555 used in investing activities for the same period in 2011. The net cash provided by investing activities consisted of payments for the lease payment on oil and gas property of \$22,951. Additionally, the most significant change was due to the proceeds received totaling \$350,000 on sale of interest in oil & gas properties.

Financing activities

Net cash used in financing activities for the nine month period ended September 30, 2012 was \$11,591, as compared to \$210,971 provided by financing activities for the same period of 2011.

As of September 30, 2012, we continue to use traditional and/or debt financing as well as through the issuance of stock to provide the capital we need to run our business.

Without cash flow from operations we will require additional cash resources, including the sale of equity or debt securities, to meet our planned capital expenditures and working capital requirements for the next 12 months. We will require additional cash resources due to changed business conditions, implementation of our strategy to successfully develop our Shallow Indian Oil Development Project, or acquisitions we may decide to pursue. If our own financial resources and then current cash-flows from operations are insufficient to satisfy our capital requirements, we may seek to sell additional equity or debt securities or obtain additional credit facilities. The sale of additional equity securities will result in dilution to our stockholders. The incurrence of indebtedness will result in increased debt service obligations and could require us to agree to operating and financial covenants that could restrict our operations or modify our plans to grow the business. Financing may not be available in amounts or on terms acceptable to us, if at all. Any failure by us to raise additional funds on terms favorable to us, or at all, will limit our ability to expand our business operations and could harm our overall business prospects.

Our ability to obtain additional capital through additional equity and/or debt financing, and Joint Venture or Working Interest partnerships will also be important to our expansion plans. In the event we experience any significant problems assimilating acquired assets into our operations or cannot obtain the necessary capital to pursue our strategic plan, we may have to reduce the growth of our operations. This may materially impact our ability to increase revenue and continue our growth.

Off-Balance Sheet Arrangements

As of the date of this Report, we did not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to investors.

Operation Plan

Our plan is to focus on the acquisition and drilling of prospective oil and natural gas mineral leases. Once we have tested a prospect as productive, subject to availability of capital, we will implement a development program with a regional operating focus in order to increase production and increase returns for our stockholders. Exploration, acquisition and development activities are currently focused in California. Depending on availability of capital, and other constraints, our goal is to increase stockholder value by finding and developing oil and natural gas reserves at costs that provide an attractive rate of return on our investments.

We expect to achieve these results by:

- Investing capital in exploration and development drilling and in secondary and tertiary recovery of oil as well as natural gas;
- Using the latest technologies available to the oil and natural gas industry in our operations;
- Finding additional oil and natural gas reserves on the properties we acquire.

In addition to raising additional capital we plan to take on Joint Venture (JV) or Working Interest (WI) partners who may contribute to the capital costs of drilling and completion and then share in revenues derived from production. This economic strategy may allow us to utilize our own financial assets toward the growth of our leased acreage holdings, pursue the acquisition of strategic oil and gas producing properties or companies and generally expand our existing operations.

Because of our limited operating history we have yet to generate any revenues from the sale of oil or natural gas. Our activities have been limited to raising capital, negotiating WI agreements, becoming a publicly traded company and preliminary analysis of reserves and production capabilities from our exploratory test wells.

Our future financial results will depend primarily on: (i) the ability to continue to source and screen potential projects; (ii) the ability to discover commercial quantities of natural gas and oil; (iii) the market price for oil and natural gas; and (iv) the ability to fully implement our exploration and development program, which is dependent on the availability of capital resources. There can be no assurance that we will be successful in any of these respects, that the prices of oil and gas prevailing at the time of production will be at a level allowing for profitable production, or that we will be able to obtain additional funding to increase our currently limited capital resources.

Item 3. Quantitative and Qualitative Disclosure About Market Risk

This item is not applicable as we are currently considered a smaller reporting company.

Item 4T. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Our Chief Executive Officer, Armen Nahabedian, and our Chief Financial Officer, Philip McPherson evaluated the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act) as of the end of the period covered by this Report. Based on that evaluation and assessment, Mr. Armen Nahabedian and Mr. Philip McPherson concluded that our disclosure controls and procedures are not designed at a reasonable assurance level and are not effective to provide reasonable assurance that information we are required to disclose in the reports that we file or submit under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our principal executive and principal financial officer, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting that occurred during our most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Limitations on Effectiveness of Controls and Procedures

In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. In addition, the design of disclosure controls and procedures must reflect the fact that there are resource constraints and that management is required to apply its judgment in evaluating the benefits of possible controls and procedures relative to their costs.

PART II—OTHER INFORMATION

Item 1. Legal Proceedings.

From time to time, we may become involved in various lawsuits and legal proceedings which arise in the ordinary course of business. However, litigation is subject to inherent uncertainties, and an adverse result in these or other matters may arise from time to time that may harm our business. We are not presently a party to any material litigation, nor to the knowledge of management is any litigation threatened against us, which may materially affect us.

Item 1A. Risk Factors

Our significant business risks are described in Item 1A. to Part I of Form 10-K for the year ended December 31, 2011 (filed April 16, 2012) to which reference is made herein.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

Stock Issuances pursuant to Subscription Agreements

On July 17, 2012, we sold 2,000,000 shares of our restricted common stock to 1 accredited investor for a total purchase price of \$80,000 all of which was paid in cash.

We believe that the issuance and sale of the above securities were exempt from the registration and prospectus delivery requirements of the Securities Act of 1933 by virtue of Section 4(2), Regulation D and/or Regulation S. The securities were issued directly by us and did not involve a public offering or general solicitation. The recipient of the securities was afforded an opportunity for effective access to files and records of our company that contained the relevant information needed to make her investment decision, including our financial statements and 34 Act reports. We reasonably believed that the recipient, immediately prior to issuing the securities, had such knowledge and experience in our financial and business matters that she was capable of evaluating the merits and risks of its investment. The recipient had the opportunity to speak with our management on several occasions prior to her investment decision. There were no commissions paid on the issuance and sale of the shares.

Option Grants

On September 4, 2012, we granted options to purchase 2,000,000 shares of our common stock (exercisable at \$0.20 per share for a term of seven (7) years) to our Chief Executive Officer pursuant to his employment agreement. Of the 2,000,000 options, 500,000 vested on September 4, 2012, 500,000 will vest on the first anniversary of the grant date (September 4, 2013), 500,000 will vest on the second anniversary of the grant date (September 4, 2014) 500,000 will vest on the third anniversary of the grant date (September 4, 2014).

On September 4, 2012, we granted options to purchase 2,000,000 shares of our common stock (exercisable at \$0.20 per share for a term of seven (7) years) to our Chief Financial Officer pursuant to his employment agreement. Of the 2,000,000 options, 500,000 vested on September 4, 2012, 500,000 will vest on the first anniversary of the grant date (September 4, 2013), 500,000 will vest on the second anniversary of the grant date (September 4, 2014) 500,000 will vest on the third anniversary of the grant date (September 4, 2014).

We made the aforementioned stock option grants in reliance upon the exemption from registration under Section 4(2) of the Securities Act for private offerings not involving a public distribution.

Subsequent Stock Issuances

On November 14, 2012, we issued 250,500 shares of restricted common stock to a consultant pursuant to his advisory agreement dated July 12, 2012.

Issuer Purchases of Equity Securities

We did not repurchase any of our equity securities from the time of our inception on November 6, 2006 through the period ended September 30, 2012.

Item 3. Defaults Upon Senior Securities.
