**DAKOTA TERRITORY RESOURCES CORP.**

**NOTES TO FINANCIAL STATEMENTS**

**DECEMBER 31, 2018**

**(UNAUDITED)**

**Note 1—Basis of Presentation**

The accompanying unaudited interim financial statements of Dakota Territory Resource Corp. (“we”, “us”, “our”, the “Company”, the “Corporation”) have been prepared in accordance with accounting principles generally accepted in the United States of America and the rules of the Securities and Exchange Commission (“SEC”), and should be read in conjunction with the audited financial statements and notes thereto contained in our annual report on Form 10-K, for the year ended March 31, 2018 as filed with the SEC. In the opinion of management, all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of financial position and the results of operations for the interim periods presented have been reflected herein. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year. Notes to the financial statements which would substantially duplicate the disclosures contained in the audited financial statements for the most recent fiscal year ended March 31, 2018 as reported in our annual report on Form 10-K, have been omitted.

The Company’s absence of revenues, recurring losses from operations, and its need for significant additional financing in order to fund its projected loss in 2019 raise substantial doubt about its ability to continue as a going concern. The accompanying financial statements do not include any adjustments that might result from the outcome of this uncertainty.

On July 6, 2018, Richard Bachman resigned his position as President and CEO of the Company. Mr. Bachman simultaneously accepted the new position of Chief Geological Officer (“CGO”) and remains a Director of the Company. Also, on July 6, 2018, Gerald Aberle assumed the position of President and CEO of the Company while still retaining the position of COO.

**Note 2—Related Party Transactions**

Effective October 1, 2005, we began paying a management consulting fee to Minera Teles Pires Inc., a company controlled by the CGO and director of the Company. The agreement provides a fixed fee of \$10,000 per month of

which \$5,000 is paid in cash and the other \$5,000 deferred until financing is obtained by us. Additionally, the agreement provides for a payment of \$1,500 per month for office rent and expenses. During the nine months ended December 31, 2018, we incurred \$103,749 in management fees and rent from Minera Teles Pires Inc. As of December 31, 2018, we owed Minera Teles Pires \$790,691 for management fees and out of pocket expenses.

Effective February 24, 2012, we began paying consulting fees to Jerikodie, Inc., a company controlled by our President and CEO and a director of the Company. The agreement provides a fixed fee of \$9,000 per month plus approved expenses. During the nine months ended December 31, 2018 we incurred \$85,860 in fees from Jerikodie, Inc. As of December 31, 2018, we owed Jerikodie, Inc. \$593,303 for consulting fees and out of pocket expenses.

On March 19, 2013, the Company entered into an agreement with Wm Chris Mathers to compensate Mr. Mathers as the Company's CFO and agreed to pay Mr. Mathers cash in the amount of \$3,000 per month. During the nine months ended December 31, 2018, we incurred \$27,000 in compensation to Mr. Mathers. As of December 31, 2018, we owed Mr. Mathers \$148,000 for consulting fees.

### **Note 3—Mineral Properties**

On September 26, 2012, the Company was re-organized with North Homestake Mining Company. With this re-organization, the Company acquired 84 unpatented lode mining claims covering approximately 1,600 acres known as the Blind Gold Property located in the Black Hills of South Dakota.

On December 28, 2012, the Company acquired 57 unpatented lode mining claims covering approximately 853 acres known as the West False Bottom Creek and Paradise Gulch Claim Group, the City Creek Claims Group, and the Homestake Paleoplacer Claims Group, all located in the Black Hills of South Dakota. The West False Bottom Creek and Paradise Gulch Claims were contiguous to the Blind Gold Property and have been incorporated into the Blind Gold Property. The purchase price was 1,000,000 restricted common shares valued at \$0.15 per share, or \$150,000.

On February 24, 2014 the Company acquired surface and mineral title to the 26.16 acres of the Squaw and Rubber Neck Lodes that comprise Mineral Survey 1706 in the Black Hills of South Dakota. Located immediately to the north and adjoining the Company's Paleoplacer Property, Mineral Survey 1706 was explored by Homestake Mining Company in the late 1980's. The Company is required to make annual lease payments of \$8,000 for a period of 5 years, of which \$8,000 was due upon execution of the agreement. The Company has an option to purchase the mineral property for \$120,000.

**Note 3—Mineral Properties (continued)**

On March 3, 2014, the Company completed the acquisition of approximately 565.24 mineral acres in the Northern Black Hills of South Dakota. The acquisition increased our mineral interests in the Homestake District by nearly 23%, to over 3,057 acres. As part of the property acquisition, the Company purchased an additional 64.39 mineral acres located immediately southwest and contiguous to our Paleoplacer Property, including mineral title to the historic Gustin, Minerva and Deadbroke Gold Mines. The three mines were the last of a string of mines that produced ores from fossil gold placers derived from the Homestake Lode and are located at the point where the channel disappears under the cover of younger sedimentary and intrusive rocks approximately one mile north of the Homestake Open Cut source. With this acquisition the Company consolidated and extended the Paleoplacer Property position to a distance extending approximately 3,100 feet along the south to north trend of the channel. The purchase price of the mineral interests was \$33,335.

On April 5, 2017 the Company acquired options to purchase a combination of surface and mineral titles to 284 acres in the Homestake District of the Northern Black Hills of South Dakota. The acquisition included 61 acres located immediately south and contiguous with our City Creek Property; 82 acres located approximately one half mile south of our Blind Gold Property at the western fringe of the historic Maitland Gold Mine; and 141 acres located immediately north and contiguous to our Homestake Paleoplacer Property. The Company is required to make annual lease payments totaling \$20,000 for a period of 5 years, of which \$20,000 was due upon execution of the agreement. The Company has an option to purchase the mineral properties for total price of \$626,392. As of December 31, 2018, the Company is not current on the lease payments.

On November 19, 2018 the Company announced the staking of 42 unpatented lode mining claims covering approximately 718 acres located immediately to the north and adjacent to the Company's City Creek Property. The acquisition was based on recently completed inversion modeling of its geophysical survey data. Through this staking, the City Creek project area was expanded from approximately 449 acres to 1,167 acres and the Company's overall land holdings in the Homestake District were increased 3,341 acres to approximately 4,059 acres in total.

As of December 31, 2018 and March 31, 2018, the total capitalized cost in mineral properties was \$216,104. The Company plans to commence an exploratory program on these mineral properties as soon as financing can be arranged.

#### Notes Payable to Related Party

The Company had 11 notes payable to its CGO pursuant to advances which had historically been made by the CGO. The notes were dated between March 2011 and August 2012, were unsecured, ranged in amount from \$10,000 to \$50,000, and bore interest at 12% per annum. The note bears annual interest of 3% and was due and payable on October 26, 2016. The Company paid \$21,855 in principal during the year ended March 31, 2018. The remainder of the loan is outstanding as of the date of this filing.

On September 15, 2016, the Company issued a note payable in the amount of \$30,000 to Minera Teles Pires Inc., a Company controlled by our CGO, for the purpose of funding ongoing operating expenses. The note bears annual interest of 4% and was due and payable on December 14, 2016. This loan remains outstanding as of the date of this filing.

On August 10, 2018, the Company issued a note payable in the amount of \$10,500 to Jerikodie, Inc., a Company controlled by our President and CEO, for the purpose of funding ongoing operating expenses. **Note 5—Convertible Notes Payable**

On August 14, 2008, the Company executed a 5% convertible note of \$100,000 that was due August 13, 2010. The note is now due and payable; however, the lender has to date made no request for payment. The note may be converted from time to time, all or any part of the principal plus any unpaid accrued interest (\$52,819 as of December 31, 2018) thereof into common stock of the Company at a conversion price per share equal to the greater of i) the

closing market price per share of the common stock on the trading day immediately preceding the date of conversion as quoted on the OTC-BB or such other exchange upon which the Company's shares are then listed or traded, or ii) \$200 per share. As of December 31, 2018, this note is outstanding. There is no derivative liability associated with this note at December 31, 2018 as the market price of the stock would have to above \$200 to trigger a derivative, which is unlikely based on the Company's stock price as of December 31, 2018.

#### **Note 6—Line of Credit**

The Company executed a Line of Credit with Wells Fargo Bank in California. The Line of Credit allows the Company to borrow up to \$47,500. The Line of Credit bears interest at 7.75% per annum, is unsecured, and due on demand. The balance on this Line of Credit at December 31, 2018 was approximately \$36,400. The line of credit is guaranteed by an officer.

On May 21, 2018, the Board approved the issuance of 1,300,000 common stock plan options with an exercise price of \$0.08 per share. The options were granted to replace Mr. Mathers 1,000,000 options which expired on March 19, 2018. The term of the new options is 7 years and vest immediately. The Black-Scholes pricing model was used to estimate the fair value of the 1,300,000 options issued during the period, using the assumptions of a risk free interest rate of 1.1%, dividend yield of 0%, volatility of 295%, and an expected life of 7 years. We have determined these options to have an approximate fair value of \$91,000. These options have been expensed in full during the quarter ended June 30, 2018.

## Overview and Organizational History

We are an exploration stage company engaged in the business of the acquisition and exploration of mineral properties. The Company maintains 100% ownership of three mineral properties located in the Black Hills of South Dakota, including the Blind Gold, City Creek and Homestake Paleoplacer Properties, all of which are located in the heart of the Homestake District and cover a total of approximately 3,341 acres. We currently have limited operations and have not established that any of our projects or properties contain any proven or probable reserves under SEC Industry Guide 7.

On March 9, 2012 the Company entered into an agreement with North Homestake Mining Company to exchange common stock to affect the acquisition of North Homestake’s gold exploration properties located in South Dakota. The Agreement was completed on September 26, 2012 and the Company concurrently effected a 10 for 1 reverse stock split. The merger was recorded as a reverse recapitalization and the issuances of common stock were recorded as a reclassification between paid-in capital and par value of Common Stock. North Homestake Mining Company was incorporated in the State of Nevada on April 12, 2011.

On December 31, 2012, the Company completed an agreement to acquire 57 unpatented lode mining claims covering approximately 853 acres in the Black Hills of South Dakota in exchange for 1,000,000 shares of the Company’s common stock, which was valued at \$0.15 per share on the transaction date.

On February 24, 2014 the Company acquired surface and mineral title to the 26.16 acres of the Squaw and Rubber Neck Lodes that comprise Mineral Survey 1706 in the Black Hills of South Dakota. The property is located immediately to the north and adjoining the Company's Paleoplacer Property.

On March 3, 2014, we completed an acquisition of approximately 565.24 mineral acres in the Northern Black Hills of South Dakota. The acquisition increased our mineral interests in the Homestake District by nearly 23%, to over 3,057 acres. As part of the property acquisition, we purchased an additional 64.39 mineral acres located immediately southwest and contiguous to our Paleoplacer Property, including mineral title to the historic Gustin, Minerva and Deadbroke Gold Mines.

On April 5, 2017, we acquired a combination of surface and mineral title to 284 acres in the Homestake District of the Northern Black Hills of South Dakota. The acquisition included 61 acres located immediately south and contiguous with our City Creek Property; 82 acres located approximately one half mile south of our Blind Gold Property at the western fringe of the historic Maitland Gold Mine; and 141 acres located immediately north and contiguous to our Homestake Paleoplacer Property.

On November 19, 2018 the Company announced the staking of 42 unpatented lode mining claims covering approximately 718 acres located immediately to the north and adjacent to the Company's City Creek Property. The acquisition was based on recently completed inversion modeling of its geophysical survey data. Through this staking, the City Creek project area was expanded from approximately 449 acres to 1,167 acres and the Company's overall land holdings in the Homestake District were increased 3,341 acres to approximately 4,059 acres in total.

We were incorporated in the State of Nevada on February 6, 2002 under the name Lakefield Ventures, Inc. In September 2012, the Company changed its name from Mustang Geothermal Corp. to Dakota Territory Resource Corp., reflecting a change in business. The Company has been in the exploration stage since its formation and has not realized any revenues from its planned operations. The Company is primarily engaged in the acquisition, exploration, and development of mineral properties.

There is substantial doubt about our ability to continue as a going concern as the continuation of our business is dependent upon obtaining further long-term financing, successful exploration and development of our property interests and, finally, achieving a profitable level of operations. The issuance of additional equity securities by us could result in a significant dilution in the equity interests of our current stockholders. Obtaining commercial loans, assuming those loans would be available, will increase our liabilities and future cash commitments.

### ***Current Plan of Operations***

During fiscal years 2019 and 2020, the Company will require additional new financing of approximately \$4.80 million to carry out our planned acquisition and exploration strategy in the Homestake District of the Black Hill of South Dakotas, including general and administrative expenses of approximately \$675,000.

Our Corporate development strategy and 2-year budget is focussed on expanding our high quality brownfields mining interests in the District, continuing to build on our extensive historic data sets, permitting the Blind Gold and City Creek Properties for drilling, completing a new airborne geophysical survey, conducting several new field programs and the commencement of our first drill programs on the Homestake Paleoplacer Property. Our current working capital will not be sufficient to cover our estimated capital requirements during the next twelve-month period; we will be required to raise additional funds through the issuance of equity securities or through debt financing. There can be no assurance that we will be successful in raising the required capital or that actual cash requirements will not exceed our estimates.

Since we are an exploration stage company and have not generated revenues to date, our cash flow projections are subject to numerous contingencies and risk factors beyond our control, including exploration and development risks, competition from well-funded competitors, and our ability to manage growth. We can offer no assurance that our expenses will not exceed our projections.

### **Liquidity and Capital Resources**

As of December 31, 2018, we had a working capital deficit of approximately \$2.8 million and our accumulated deficit as of December 31, 2018 was approximately \$4.8 million. We had a loss for the nine months ended December 31, 2018 of approximately \$461,000.

During the nine months ending December 31, 2018, we received \$75,000 from an investor in a private placement for the purchase of 750,000 shares of our common stock at \$0.10 per share.

During our fiscal year ending March 31, 2019, we plan to spend approximately \$897,000 for diamond drilling, \$23,000 for field programs and \$90,000 for assays, as well as approximately \$691,000 for expenses related to exploration programs. The timing of these expenditures is dependent upon a number of factors, including the availability of drill contractors. We estimate that general and administrative expenses during fiscal year ending March 31, 2019 will be approximately \$400,000 to include payroll, legal and accounting services and other general and other expenses necessary to conduct our operations, not including planned exploration costs of approximately \$1,600,000.

We have no employees. Our management, all of whom are consultants, conduct our operations. We do not expect any material changes in the number of employees over the next twelve-month period. Given the early stage of our exploration properties, we intend to continue to outsource our professional and personnel requirements by retaining consultants on an as needed basis. However, if we are successful in our initial and any subsequent drilling programs, we may retain employees.

We currently do not have sufficient funds to complete exploration and development work on our properties, which means that we will be required to raise additional capital, enter into joint venture relationships or find alternative means to finance placing one or more of our properties into commercial production, if warranted. Failure to obtain sufficient financing may result in the delay or indefinite postponement of exploration and development or production on one or more of our properties and any properties we may acquire in the future or even a loss of property interests. We cannot be certain that additional capital or other types of financing will be available when needed or that, if available, the terms of such financing will be favorable or acceptable to us. Our ability to arrange additional financing in the future will depend, in part, on the prevailing capital market conditions as well as our business performance.

## Going Concern

The unaudited financial statements accompanying the report have been prepared on a going concern basis, which implies that our company will continue to realize its assets and discharge its liabilities and commitments in the normal course of business. Our company has not generated revenues since inception and it's unlikely to pay cash dividends or generate earnings in the immediate or foreseeable future. The continuation of our company as a going concern is dependent upon the continued financial support from related party advances, the ability of our company to obtain necessary equity financing to achieve our operating objectives, and the attainment of profitable operations. As of December 31, 2018, we had cash of \$5,584. In addition to funding our general and administrative expenses, we are obligated to address our current obligations totaling \$2,878,602. This includes current obligation amounts for accounts payable – related party of \$1,597,713 and notes payable – related party of \$315,645.

These circumstances raise substantial doubt about our ability to continue as a going concern, as described in Note 1 of our December 31, 2018 unaudited financial statements. The financial statements do not include any adjustments that might result from the outcome of that uncertainty. The continuation of our business is dependent upon obtaining further long-term financing, successful exploration and development of our property interests and, finally, achieving a profitable level of operations. The issuance of additional equity securities by us could result in a significant dilution in the equity interests of our current stockholders. Obtaining commercial loans, assuming those loans would be available, will increase our liabilities and future cash commitments.

There are no assurances that we will be able to obtain further funds required for our continued operations. We are pursuing various financing alternatives to meet our immediate and long-term financial requirements. There can be no assurance that additional financing will be available to us when needed or, if available, that it can be obtained on commercially reasonable terms. If we are not able to obtain the additional financing on a timely basis, we will be forced to scale down or perhaps even cease the operation of our business.

### **Off-Balance Sheet Arrangements**

We do not have any off balance sheet arrangements that are reasonably likely to have a current or future effect on our financial condition, revenues, results of operations, liquidity or capital resources.

### **Critical Accounting Estimates**

Management's discussion and analysis of financial condition and results of operations is based on our financial statements, which have been prepared in accordance with GAAP. Preparation of financial statements requires management to make assumptions, estimates and judgments that affect the reported amounts of assets, liabilities, revenues, costs and expenses, and the related disclosures of contingencies. Management bases its estimates on various assumptions and historical experience, which are believed to be reasonable; however, due to the inherent nature of estimates, actual results may differ significantly due to changed conditions or assumptions. On a regular basis, management reviews the accounting policies, assumptions, estimates and judgments to ensure that our financial statements are fairly presented in accordance with GAAP. However, because future events and their effects cannot be determined with certainty, actual results could differ from our assumptions and estimates, and such differences could be material. Management believes that the following critical accounting estimates and judgments have a significant impact on our financial statements; Valuation of options granted to Directors and Officers using the Black-Scholes model, and fair value of mineral properties.
