NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

[Dollars In Thousands Except Per Share Data, Or Unless Otherwise Noted]

(UNAUDITED)

[1] In the opinion of management, the accompanying unaudited consolidated financial statements reflect all adjustments [consisting only of normal adjustments and recurring accruals] which are necessary to present a fair statement of the results for the interim periods presented but do not include all of the information and footnotes required by generally accepted accounting principles in the United States of America for complete financial statements.

[2] The results of operations for the nine months ended July 31, 2005 are not necessarily indicative of the results to be expected for the entire year.

[3] The consolidated financial statements and notes thereto should be read in conjunction with the consolidated financial statements and notes for the year ended October 31, 2004 as filed with the Securities and Exchange Commission in the Company's Annual Report on Form 10-K.

[4] The significant accounting policies followed by the Company are set forth in Note 2 to the Company's consolidated financial statements in the October 31, 2004 Form 10-K.

[5] Revenues are recognized at the time the services are performed. Revenues on the Statements of Operations are net of the following amounts for allowances and discounts.

	Three Months Ended July 31 [Unaudited]		Nine Months ended July 31 [Unaudited]	
	2005	2004	2005	2004

	\$ 69,375	\$ 53,183	\$ 193,436	\$ 148,471

A number of proposals for legislation or regulation continue to be under discussion which could have the effect of substantially reducing Medicare reimbursements for clinical laboratories or introducing cost sharing to beneficiaries. Depending upon the nature of regulatory action, if any, which is taken and the content of legislation, if any, which is adopted, the Company could experience a significant decrease in revenues from Medicare and Medicaid, which could have a material adverse effect on the Company. The Company is unable to predict, however, the extent to which such actions will be taken.

[6] An allowance on the Balance Sheet for contractual credits and uncollectible accounts is determined based upon a review of the reimbursement policies and subsequent collections for the different types of payors. The aggregate allowance, which is net against accounts receivable was \$51,719 at July 31, 2005 and \$38,102 at October 31, 2004 and is comprised of the following items:

[7] In December 2004, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 123R, Share-Based Payment . SFAS No. 123R is a revision of SFAS No. 123, Accounting for Stock Based Compensation , and supersedes APB 25. Among other items, SFAS 123R eliminates the use of APB 25 and the intrinsic value method of accounting, and requires companies to recognize the cost of employee services received in exchange for awards of equity instruments, based on the grant date fair value of those awards, in the financial statements. SFAS 123R is effective for the fiscal year beginning November 1, 2005, although early adoption is allowed. SFAS 123R requires companies to adopt its requirements using a modified prospective method. Under the modified prospective method, compensation cost is recognized in the financial statements beginning with the effective date, based on the requirements of SFAS 123R for all share-based payments granted after that date, and based on the requirements of SFAS 123 for all unvested awards granted prior to the effective date of SFAS 123R. The modified retrospective method also permits entities to restate financial statements of previous periods based on proforma disclosures made in accordance with SFAS 123. The Company does not expect the adoption of SFAS 123R to have a significant effect on its financial position or results of operations.

FASB Interpretation No. 47, Accounting for Conditional Asset Retirement Obligations (FIN 47) In March 2005, the FASB issued FIN 47, which is effective for the company on October 31, 2006. FIN 47 clarifies that the phrase conditional asset retirement obligation, as used in FASB Statement No. 143, Accounting for Asset Retirement Obligations (FAS 143), refers to a legal obligation to perform an asset retirement activity for which the timing and/or method of settlement are conditional on a future event that may or may not be within the control of the company. The obligation to perform the asset retirement activity is unconditional even though uncertainty exists about the timing and/or method of settlement. Uncertainty about the timing and/or method of settlement of a conditional asset retirement obligation should be factored into the measurement of the liability when sufficient information exists. FAS 143 acknowledges that in some cases, sufficient information may not be available to reasonably estimate the fair value of an asset retirement obligation. FIN 47 also clarifies when an entity would have sufficient information to reasonably estimate the fair value of an asset retirement obligation. The company does not expect that adoption of FIN 47 will have a significant effect on its financial position or results of operations.

In May 2005, FASB issued SFAS No. 154, Accounting Changes and Error Corrections (SFAS 154). SFAS 154 requires retrospective application to prior periods financial statements of changes in accounting principle. It also requires that the new accounting principle be applied to the balances of assets and liabilities as of the beginning of the earliest period for which retrospective application is practicable and that a corresponding adjustment be made to the opening balance of retained earnings for that period rather than being reported in an income statement. The statement will be effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2005. We do not expect the adoption of SFAS 154 to have a material effect on our consolidated financial position of results of operations.

In June 2005, the EITF reached consensus on Issue No. 05-6, Determining the Amortization Period for Leasehold Improvements (EITF 05-6). EITF 05-6 provides guidance on determining the amortization period for leasehold improvements acquired in a business combination or acquired subsequent to lease inception. The guidance in EITF 05-6 will be applied prospectively and is effective for periods beginning after June 29, 2005. EITF 05-6 is not expected to have a material impact on the Company's unaudited interim consolidated financial statements.

[8] At July 31, 2005, the Company had three stock-based employee compensation plans. The Company accounts for those plans under the measurement principles of APB Opinion No. 25, Accounting for Stock Issued to Employees, and related interpretations. No stock-based employee compensation cost is reflected as an expense in computing net income, as all options granted under those plans had an exercise price equal to the market value of the underlying common stock on the date of grant. The following table illustrates the effect on net income and earnings per share if the Company had applied the fair value recognition provision of FASB Statement No. 123 to stock-based employee compensation.

[10] In October 2004, the Company entered into an amended revolving note payable loan agreement with a bank. The maximum amount of the credit line available to the Company pursuant to the loan agreement is the lesser of (i) \$30,000 or (ii) 50% of the Company's qualified accounts receivable [as defined in the agreement]. The amended loan agreement provides for an acquisition subline of up to \$10,000 which can be repaid in 36 equal monthly installments. The amendment to the Loan and Security Agreement provides for interest on advances to be subject to the bank's prime rate or Eurodollar rate of interest plus, in certain instances, an additional interest percentage. The additional interest percentage charges on Eurodollar borrowings range from 1% to 4% and are determined based upon certain financial ratios achieved by the Company. At July 31, 2005, the Company had elected to have \$10,000 of the total advances outstanding converted into a Eurodollar rate loan with a variable interest rate of 5.02% at July 31, 2005. The remaining outstanding advances were subject to the bank's prime rate of interest. At July 31, 2005, advances outstanding of \$7,007 were subject to interest at the bank's prime rate (6.25%). The credit line is collateralized by substantially all of the Company's assets. The line of credit is available through October 2007 and may be extended for annual periods by mutual consent, thereafter. The terms of this agreement contain, among other provisions, requirements for maintaining defined levels of capital expenditures, fixed charge coverage, and the prohibition of the payment by the Company of cash dividends. As of July 31, 2005, the Company utilized \$19,553 (including \$2,546 utilized under the acquisition subline) and had \$10,447 of available unused credit under this revolving note payable loan agreement.

[11] During the third quarter ended July 31, 2005, options to purchase 235,100 shares of common stock were exercised for total proceeds of \$544. The exercises and the related tax benefit resulted in an increase in common stock and additional Paid-In Capital of \$2 and \$1,828, respectively.

[12] The provision for income taxes for the nine and three months ended July 31, 2005, consists of a current tax provision of \$4,126 and \$2,263, respectively, and a deferred tax benefit of \$1,641 and \$1,041, respectively. At July 31, 2005, the Company had a current deferred tax asset of \$2,263 included in other current assets and a long-term deferred tax liability of \$295 incurred in other long-term liabilities.

[13] On June 1, 2005, the Board of Directors authorized the repurchase of up to 500,000 shares of the Company's common stock over the period ending October 31, 2007. As of July 31, 2005, no shares were repurchased under this plan.

Note Regarding Forward-Looking Statements

This Quarterly Report on Form 10-Q contains historical information as well as forward-looking statements. Statements looking forward in time are included in this Quarterly Report pursuant to the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995. Such statements involve known and unknown risks and uncertainties that may cause the Company's actual results in future periods to be materially different from any future performance suggested herein. For a further discussion concerning risks to the Company's business, the results of its operations and its financial condition, reference is made to the Company's Annual Report on Form 10-K for the year ended October 31, 2004.

OVERVIEW:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires us to make estimates and assumptions that affect the reported amounts of revenues and expenses during the reporting period. While many aspects of our business are subject to complex federal, state and local regulations, the accounting for our business is generally straightforward. Our revenues are primarily comprised of a high volume of relatively low dollar transactions, and about 49% of all our costs consist of employee compensation and benefits. Revenues are recognized at the time the services are performed and are reported at the estimated net realizable amounts from patients, third-party payors and others for services rendered including prospectively determined adjustments under reimbursement agreements with third-party payors. These adjustments are accrued on an estimated basis in the period the services are rendered and adjusted in future periods as final settlements are determined. These estimates are reviewed and adjusted, if warranted, by senior management on a monthly basis. We believe that our estimates and assumptions are correct; however, several factors could cause actual results to differ materially from those currently anticipated due to a number of factors:

our failure to obtain and retain new customers and alliance partners, or a reduction in tests ordered or specimens submitted by existing customers.

changes in payor mix.

adverse results from investigations of clinical laboratories by the government, which may include significant monetary damages and/or exclusion from the Medicare and Medicaid programs.

loss or suspension of a license or imposition of a fine or penalties under, or future changes in, the law or regulations of CLIA-88, or those of Medicare, Medicaid or other federal, state or local agencies.

future changes in federal, state, local and third party payor regulations or policies (or in the interpretation of current regulations) affecting governmental and third-party reimbursement for clinical laboratory testing.

failure to comply with the Federal Occupational Safety and Health Administration and the failure to comply with HIPAA, which could result in significant fines as well as substantial criminal penalties.

failure to maintain our days sales outstanding levels.

our ability to attract and retain experienced and qualified personnel.

our failure to integrate newly acquired businesses (if any) and the cost related to such integration.

COMPARISON OF THIRD QUARTER 2005 VS THIRD QUARTER 2004

NET REVENUES:

Net revenues for the three month period ended July 31, 2005 were \$42,723 as compared to \$35,843 for the three month period ended July 31, 2004; which represents a 19% increase in net revenues. This increase is due to a 15% increase in patient counts and a 4% increase in net revenues per patient. Our wholly owned subsidiary, CareEvolve, had net revenues of \$343 for the three month period ended July 31, 2005.

Edgar Filing: BIO REFERENCE LABORATORIES INC - Form 10-Q

The number of patients serviced during the three month period ended July 31, 2005 was approximately 737 thousand which was 15% greater when compared to the prior fiscal year's three month period. Net revenue per patient for the three month period ended July 31, 2005 was \$57.17 compared to net revenue per patient of \$55.13 for the three month period ended July 31, 2004, an increase of \$2.04 or 4%. This increase in net revenues per patient is directly related to the increase in more expensive and esoteric testing.

COST OF SALES:

Cost of Sales increased from \$17,571 for the three month period ended July 31, 2004 to \$21,553 for the three month period ended July 31, 2005, an increase of \$3,982 or 23% as compared to a 19% increase in net revenues. Employee related expenses increased by \$1,664 (21%) and is attributable to the hiring of additional technical and professional personnel dedicated to the expansion of the Company's cancer and esoteric testing business. Depreciation increased from \$439 for the period ended July 31, 2004 to \$805 for the period ended July 31, 2005, an increase of \$366 or 83%, and is consistent with our investment in infrastructure and capacity. Total depreciation and amortization increased from \$652 for the three month period ended July 31, 2004 to \$1,124 for the three month period ended July 31, 2005 or 72%.

GROSS PROFITS:

Gross profits, increased from \$18,272 for the three month period ended July 31, 2004 to \$21,170 for the three month period ended July 31, 2005; an increase of \$2,898 or 16%. This is primarily attributable to the increase in net revenues. Profit margins decreased from 51% to 50%, reflecting a cost structure rising in relation to net revenues due to the company's cancer and esoteric business.

GENERAL AND ADMINISTRATIVE EXPENSES:

General and administrative expenses for the three month period ended July 31, 2004 was \$14,431 as compared to \$17,159 for the three month period ended July 31, 2005, an increase of \$2,728 or 19%. This is in line with the increase in net revenues in the period of 20%.

INTEREST EXPENSE:

Interest expense increased to \$329 during the three month period ended July 31, 2005 from \$157 during the three month period ended July 31, 2004. This increase is due to an increase in the interest rates on the PNC Bank line of credit utilized by the Company and the increase in capital expenditures financed through capital leases. Management believes that this trend will continue in the future due to the continued use of our revolving line of credit to fund our expansion and growth and the expectation that interest rates will continue to increase.

INCOME:

Edgar Filing: BIO REFERENCE LABORATORIES INC - Form 10-Q

We realized net income of \$2,493 for the three month period ended July 31, 2005, as compared to \$2,325 for the three month period ended July 31, 2004 an increase of 7%. Pre-tax income for the period ended July 31, 2005 was \$3,715 compared to \$3,694 for the period ended July 31, 2004, an increase of \$21 (1%). The provision for income taxes decreased from \$1,369 for the period ended July 31, 2004 to \$1,222 for the period ended July 31, 2005. CareEvolve had a net loss of \$39 on a consolidated basis for the three month period ended July 31, 2005.

NINE MONTHS 2005 COMPARED TO NINE MONTHS 2004

NET REVENUES:

Net Revenues for the nine month period ended July 31, 2005 were \$119,607 as compared to \$98,440 for the nine month period ended July 31, 2004; this represents a 22% increase in net revenues. This increase is due to a 13% increase in patient counts and a 6% increase in revenue per patient. Our wholly owned subsidiary, CareEvolve had net revenues of \$917 for the nine month period ended July 31, 2005 or 4% of the increase in net revenues on a consolidated basis.

The number of patients serviced during the nine month period ended July 31, 2005 was approximately 2.104 million which was 13% greater when compared to the prior fiscal year's nine month period. Net revenue per patient for the nine month period ended July 31, 2005 was \$56.16, compared to net revenue per patient for the nine month period ended July 31, 2004 of \$52.82, an increase of \$3.34 or 6%. This increase is directly related to our increase in more expensive and esoteric testing.

COST OF SALES:

Cost of Sales increased to \$61,304 for the nine month period ended July 31, 2005 from \$49,716 for the nine month period ended July 31, 2004. This amounts to a \$11,588 or a 23% increase in direct operating costs. Employee related expenses increased by \$5,389 (24%) and is attributable to the hiring of additional technical and professional personnel dedicated to the expansion of the Company's cancer and esoteric testing business. Depreciation increased from \$1,193 for the period ended July 31, 2004 to \$2,255 for the period ended July 31, 2005, an increase of \$1,062 or 89%, and is consistent with our investment in infrastructure and capacity. Total Depreciation and Amortization increased from \$1,789 for the period ended July 31, 2004 to \$3,159 for the period ended July 31, 2005, an increase of \$1,370 or 77%.

GROSS PROFITS:

Gross profits on net revenues, increased to \$58,303 for the nine month period ended July 31, 2005 from \$48,724 for the nine month period ended July 31, 2004; an increase of \$9,579 (20%) primarily attributable to the increase in net revenues. Gross profit margins decreased to 49% during the nine month period ended July 31, 2005, as compared to 50% for the nine month period ended July 31, 2004. Gross Profit margin decreased 1% in the current period reflecting an increase in direct costs in relation to net revenues and the result of increased expenses for technical and professional personnel in the Company's cancer and esoteric testing business.

GENERAL AND ADMINISTRATIVE EXPENSES:

General and administrative expenses for the nine month period ended July 31, 2004 was \$39,743 as compared to \$50,145 for the nine month period ended July 31, 2005, an increase of \$10,402 or 26%. This increase was caused by a \$2,247 (23%) increase in marketing expenses driven by the expansion of the Company's cancer and esoteric testing business. In addition, there was a \$849 (43%) increase in data processing and

Edgar Filing: BIO REFERENCE LABORATORIES INC - Form 10-Q

computer related expense, caused by the development of interfaces with EMR Systems, physician management systems and data importation of major payor data in our data analytics division, a \$407 (67%) increase in expenses related to outside professional fees of which a majority of the increase related to implementing Sarbanes-Oxley Section 404, a \$3,478 (28%) increase in bad debt expense attributable in part to the implementation of HIPAA regulations causing some commercial insurance claims to go past the required cycle and therefore being required contractually to be rebilled as self-pay claims, and a \$308 (52%) increase in depreciation and amortization expense caused by an increase in infrastructure and capacity. Total Depreciation and Amortization increased from \$1,789 for the period ended July 31, 2004 to \$3,159 for the period ended July 31, 2005, an increase of \$1,370 or 77%. Other cost increases were primarily due to the increase in revenue for the nine month period ended July 31, 2005.

INTEREST EXPENSE:

Interest expense increased to \$903 during the nine month period ended July 31, 2005 as compared to \$466 during the nine month period ended July 31, 2004, an increase of \$437. Management believes that this trend will continue in the future due to the continued use of our revolving line of credit to fund our expansion and growth and the expectation that interest rates will continue to increase.

INCOME:

We realized net income of \$4,845 for the nine months ended July 31, 2005 as compared to \$5,203 for the nine month period ended July 31, 2004, a decrease of \$358 or (7%). Pre-tax income for the period ended July 31, 2005 was \$7,330, as compared to \$8,538 for the period ended July 31, 2004, a decrease of \$1,208 (14%). The provision for income taxes decreased from \$3,335 for the period ended July 31, 2004, to \$2,485 for the current nine month period. CareEvolve had a net loss of \$239 on a consolidated basis for the period ended July 31, 2005.

LIQUIDITY AND CAPITAL RESOURCES:

Our working capital at July 31, 2005 was \$28,012 as compared to \$23,815 at October 31, 2004, an increase of \$4,197. Our cash position increased by \$2,364 during the current period. We increased our short term debt by \$6,674 and repaid \$2,283 in existing long-term debt and capital lease obligations. We had current liabilities of \$36,941 at July 31, 2005. We generated \$11 in cash from operations during the current nine month period, compared to cash generated from operations for the nine month period ended July 31, 2004 of \$3,363.

Accounts receivable, net of allowance for doubtful accounts, totaled \$50,683 at July 31, 2005, an increase of \$9,731 from October 31, 2004, or 24%. This increase was primarily attributable to increased net revenue. Cash collected during the nine month period ended July 31, 2005 increased 15% over the comparable nine month period.

Credit risk with respect to accounts receivable is generally diversified due to the large number of patients comprising our client base. We have significant receivable balances with government payors and various insurance carriers. Generally, we do not require collateral or other security to support customer receivables, however, we continually monitor and evaluate our client acceptance and collection procedures to minimize potential credit risks associated with our accounts receivable. While we maintain what we believe to be an adequate allowance for doubtful accounts, there can be no assurance that our ongoing review of accounts receivable will not result in the need for additional reserves. Such additional reserves could have a material impact on our financial position and results of operations.

In October 2004, the Company entered into an amended revolving note payable loan agreement with a bank. The maximum amount of the credit line available to the Company pursuant to the loan at the lesser of (i) \$30,000 or (ii) 50% of the Company's qualified accounts receivable [as defined in the agreement]. The amended loan agreement provides for an acquisition subline of up to \$10,000 which can be repaid in 36 equal monthly installments. The amendment to the Loan and Security Agreement provides for interest on advances to be subject to the bank's prime rate or Eurodollar rate of interest plus, in certain instances, an additional interest percentage. The additional interest percentage charges on Eurodollar borrowings range from 1% to 4% and are determined based upon certain financial ratios achieved by the Company. At July 31, 2005, the Company had elected to have \$10,000 of the total advances outstanding converted into a Eurodollar rate loan with a variable interest

Edgar Filing: BIO REFERENCE LABORATORIES INC - Form 10-Q

rate of 5.02% at July 31, 2005. The remaining outstanding advances were subject to the bank's prime rate of interest. At July 31, 2005, advances outstanding of \$7,007 were subject to interest at the bank's prime rate (6.25%). The credit line is collateralized by substantially all of the Company's assets. The line of credit is available through October 2007 and may be extended for annual periods by mutual consent, thereafter. The terms of this agreement contain, among other provisions, requirements for maintaining defined levels of capital expenditures, fixed charge coverage, and the prohibition of the payment by the Company of cash dividends. As of July 31, 2005, the Company utilized \$19,553 (including \$2,546 utilized under the acquisition subline) and had \$10,447 of available unused credit under this revolving note payable loan agreement.

Edgar Filing: BIO REFERENCE LABORATORIES INC - Form 10-Q

We intend to expand our laboratory operations through aggressive marketing while also diversifying into related medical fields through acquisitions. These acquisitions may involve cash, notes, common stock, and/or combinations thereof.

On June 2, 2005, the Company announced that the Board of Directors had authorized the repurchase of up to 500,000 shares of the Company's common stock over the period ending October 31, 2007. While there are no current plans for any stock repurchases, the Company expects to make any such repurchases from time to time in the over-the-counter market at prevailing market prices during the period. As of July 31, 2005, no shares were repurchased under this plan.

In the table below, we set forth our enforceable and legally binding obligations as of October 31, 2004. Some of the figures we include in this table are based on management's estimates and assumptions about these obligations, including their duration, the possibility of renewal, anticipated actions by third parties, and other factors. Because these estimates and assumptions are necessarily subjective, the enforceable and legally binding obligations we will actually pay in the future periods may vary from those reflected in the table.

	Five Years		FY2005	
Long Term Debt	\$	2,334	\$	1,273
Capital Leases		5,521		1,525
Operating Leases		4,835		1,422
Purchase Obligations		6,104		2,714
Employment/Consultant Contracts		6,462		2,338
Total	\$	25,256	\$	9,272

Our cash balance at July 31, 2005 totaled \$9,045 as compared to \$6,681 at October 31, 2004. We believe that our cash position, the anticipated cash generated from future operations, and the availability of our credit line with PNC Bank, will meet our anticipated cash needs in fiscal 2005.

Impact of Inflation - To date, inflation has not had a material effect on our operations.

New Authoritative Pronouncements

In December 2004, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 123R, Share-Based Payment. SFAS No. 123R is a revision of SFAS No. 123, Accounting for Stock Based Compensation, and supersedes APB 25. Among other items, SFAS 123R eliminates the use of APF 25 and the intrinsic value method of accounting, and requires companies to recognize the cost of employee services received in exchange for awards of equity instruments, based on the grant date fair value of those awards, in the financial statements. SFAS 123R is effective for the fiscal year beginning November 1, 2005, although early adoption is allowed. SFAS 123R requires companies to adopt its requirements using a modified prospective method. Under the modified prospective method, compensation cost is recognized in the financial statements beginning with the effective date, based on the requirements of SFAS 123R for all share-based payments granted after that date, and based on the requirements of SFAS 123 for all unvested awards granted prior to the effective date of SFAS 123R. The modified retrospective method also permits entities to restate financial statements of previous periods based on proforma disclosures made in accordance with SFAS 123. The Company does not expect the adoption of SFAS 123R to have a significant effect on its financial position or results of operations.

FASB Interpretation No. 47, *Accounting for Conditional Asset Retirement Obligations* (FIN 47) In March 2005, the FASB issued FIN 47, which is effective for the company on October 31, 2006. FIN 47 clarifies that the phrase *conditional asset retirement obligation*, as used in FASB Statement No. 143, *Accounting for Asset Retirement Obligations* (FAS 143), refers to a legal obligation to perform an asset retirement activity for which the timing and/or method of settlement are conditional on a future event that may or may not be within the control of the company. The obligation to perform the asset retirement activity is unconditional even though uncertainty exists about the timing and/or method of settlement. Uncertainty about the timing and/or method of settlement of a conditional asset retirement obligation should be factored into the measurement of the liability when sufficient information exists. FAS 143 acknowledges that in some cases, sufficient information may not be available to reasonably estimate the fair value of an asset retirement obligation. FIN 47 also clarifies when an entity would have sufficient information to reasonably estimate the fair value of an asset retirement obligation. The company does not expect that adoption of FIN 47 will have a significant effect on its financial position or results of operations.

In May 2005, FASB issued SFAS No. 154, Accounting Changes and Error Corrections (SFAS 154). SFAS 154 requires retrospective application to prior periods financial statements of changes in accounting principle. It also requires that the new accounting principle be applied to the balances of assets and liabilities as of the beginning of the earliest period for which retrospective application is practicable and that a corresponding adjustment be made to the opening balance of retained earnings for that period rather than being reported in an income statement. The statement will be effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2005. We do not expect the adoption of SFAS 154 to have a material effect on our consolidated financial position or results of operations.

In June 2005, the EITF reached consensus on Issue No. 05-6, Determining the Amortization Period for Leasehold Improvements (EITF 05-6). EITF 05-6 provides guidance on determining the amortization period for leasehold improvements acquired in a business combination or acquired subsequent to lease inception. The guidance in EITF 05-6 will be applied prospectively and is effective for periods beginning after June 29, 2005. EITF 05-6 is not expected to have a material impact on the Company's unaudited interim consolidated financial statements.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We do not invest in or trade market risk sensitive instruments. We also do not have any foreign operations or significant foreign sales so that our exposure to foreign currency exchange rate risk is minimal.

We do have exposure to both rising and falling interest rates. At July 31, 2005, advances outstanding of approximately \$7,007 under our Loan Agreement with PNC Bank were subject to interest charges at the Bank's then prime rate of 6.25%. In addition, we elected to have the remaining \$10,000 of advances outstanding at said date converted into a Eurodollar rate loan with a variable interest rate of 5.02%.

We estimate that our monthly cash interest expense at July 31, 2005 was approximately \$100 and that a one percentage point increase or decrease in short-term rates would increase or decrease our monthly interest expense by approximately \$14.

Item 4 CONTROLS AND PROCEDURES

(a) Explanation of disclosure controls and procedures. The Company's chief executive officer and its chief financial officer after evaluating the effectiveness of the Company's disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15-d-15(e)) have concluded that as of July 31, 2005, the Company's disclosure controls and procedures were adequate and effective to ensure that material information relating to the Company and its consolidated subsidiaries would be made known to them by others within those entities, particularly during the period in which this quarterly report was being prepared.

(b) Changes in internal controls. There was no change in the Company's internal control over financial reporting identified in connection with the evaluation required by paragraph (d) of Exchange Act Rules 13a-15 or 15-d-15 that occurred during the Company's last fiscal quarter ended July 31, 2005 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.
