REGIS REPORTS SECOND QUARTER 2006 RESULTS

-Quarterly EPS of \$0.59 Impacted by Hurricanes-

MINNEAPOLIS, January 25, 2006 Regis Corporation (NYSE:RGS), the global leader in the \$150 billion hair care industry, today reported financial results for its fiscal second quarter ended December 31, 2005.

Second Quarter Results

Consolidated revenues increased 13 percent to a record \$607 million compared to \$537 million a year ago. Same-store sales increased 1.2 percent. Net income increased three percent to \$27 million, or \$0.59 per diluted share. Second quarter net income was reduced by approximately \$1.8 million, or four cents per diluted share, due to the impact of hurricanes Katrina, Rita and Wilma and lower than expected retail product margins.

Edgar Filing: ALBERTO CULVER CO - Form 425

Hurricane Wilma, which struck in October, combined with the greater than forecasted residual effects of hurricanes Katrina and Rita, resulted in Regis Corporation losing approximately 2,700 salon days and an estimated \$2.5 million in revenue during the second quarter. As of December 31, 2005, 15 company-owned salons remained closed. In addition, the Company continued to provide disaster pay to affected employees in the region. In total, the effects of the three hurricanes reduced second quarter net income by approximately \$0.9 million, or two cents per diluted share.

Second quarter results were also impacted by lower than projected retail product margins. The Company experienced a significantly higher promotional environment during the month of December than was projected. As a result, retail product margins were approximately 100 basis points below plan. This reduction in retail product margins reduced second quarter net income by approximately \$0.9 million, or two cents per diluted share.

Market conditions over the past 18 months have been challenging to us from an earnings growth perspective, commented Paul D. Finkelstein, chairman and chief executive officer. However, we continue to manage and grow the business with the focus of building long-term shareholder value, as evidenced by our pending merger with the Sally Beauty division of Alberto-Culver. The strength of our balance sheet and cash flow allows us to continue to beat our annual unit growth objective, which in turn strengthens our market position within the beauty industry. We are highly confident that we will achieve double-digit earnings growth once our same-store sales return to historical levels of two-to-four percent.

Regis Corporation ended the quarter with 11,211 worldwide locations, a net increase of 134 units during the quarter. The Company constructed 139 salons and franchisees built 76 salons. In addition, Regis acquired 14 salons (including 12 salon franchise buybacks) and also bought back

five franchised Hair Club for Men and Women facilities. The Company closed or relocated 83 corporate and franchise salons during the quarter.

Third Quarter 2006 Outlook

The following points pertain to the fiscal third quarter ending March 31, 2006:

Earnings per diluted share are forecasted to grow to a range of \$0.56 to \$0.60, compared to \$(0.37) a year ago. The year ago period included a \$38.3 million, or \$0.84 per diluted share, non-cash goodwill impairment charge, associated with the European franchise business.

EBITDA, defined as earnings before interest, taxes, depreciation and amortization, is forecasted to increase approximately 23 percent to \$79.8 million.

Consolidated revenue is forecasted to grow approximately 10 percent to a range of \$610 million to \$615 million compared to \$557 million a year ago.

Consolidated same-store sales are forecasted to be flat to 1.0 percent due to the Easter holiday falling in the fourth quarter this year.

Updated Fiscal Year 2006 Outlook

The following points pertain to the fiscal year ending June 30, 2006:

Earnings per diluted share are forecasted to grow to a range of \$2.31 to \$2.37, compared to \$1.39 a year ago.

EBITDA, defined as earnings before interest, taxes, depreciation and amortization, is forecasted to increase approximately 16 percent to \$314 million.

Consolidated revenue is forecasted to grow 10 percent to \$2.4 billion compared to \$2.2 billion a year ago.

Consolidated same-store sales are forecasted to increase to a range of 0.75 to 1.25 percent.

A conference call discussing second quarter results is scheduled for 10:00 a.m., Central Time. Interested parties are invited to listen by logging on to www.regiscorp.com.
