DIGIMARC CORPORATION

PROXY STATEMENT FOR 2006 ANNUAL MEETING OF STOCKHOLDERS

General Information

This Proxy Statement is being mailed to the stockholders of Digimarc Corporation (the Company or Digimarc or we or our), a Delaware corporation, on or about April 1, 2006, in connection with the solicitation by the Company through its Board of Directors (the Board of Directors) of proxies for use in voting at the Annual Meeting of Stockholders of the Company (the Annual Meeting) to be held on Tuesday, May 2, 2006, at 11:00 a.m., local time, at the headquarters of Digimarc Corporation, 9405 S.W. Gemini Drive, Beaverton, Oregon 97008, and any adjournment or postponement thereof. The shares represented by the proxies received, properly marked, dated, executed and not revoked will be voted at the Annual Meeting by the proxy holders designated thereon.

The close of business on March 3, 2006 has been fixed as the record date (the Record Date) for determining the stockholders entitled to notice of, and to vote at, the Annual Meeting. As of the close of business on the Record Date, there were 21,018,994 shares of the Company's common stock, \$0.001 par value per share, outstanding and entitled to vote at the Annual Meeting.

Each outstanding share of common stock on the Record Date is entitled to one vote on all matters. The required quorum for the Annual Meeting is a majority of the shares outstanding, present either in person or by proxy, on the Record Date. There must be a quorum for the Annual Meeting to be held. Our Inspector of Elections will tabulate votes cast by proxy or in person at the Annual Meeting.

Revocability of Proxy

You may revoke your proxy and change your vote at any time prior to voting at the Annual Meeting by:

- delivering to the Company (to the attention of Robert P. Chamness, the Company's Secretary) a written notice of revocation or a duly executed proxy bearing a later date; or
- attending the Annual Meeting and voting in person.

Solicitation

The cost of soliciting proxies will be borne by the Company. Besides this solicitation by mail, our directors, officers and other employees may solicit proxies. Such persons will not receive any additional compensation for assisting in the solicitation. We will also request brokerage firms, nominees, custodians and fiduciaries to forward proxy materials to the beneficial owners. We will reimburse such persons and our transfer agent for their reasonable out-of-pocket expenses in forwarding such material. We may also retain the services of a proxy solicitation, information agent and/or mailing service to perform the broker nominee search and to distribute proxy materials to banks, brokers, nominees and intermediaries, for which the Company would not pay more than \$10,000.

Voting Procedures

- Directors are elected by a plurality of the votes cast, provided a majority of the shares of common stock are present or represented and entitled to vote at the Annual Meeting. The three nominees who receive the greatest number of votes will be elected directors.
- The ratification of the appointment of the independent registered public accounting firm of the Company for the fiscal year ending December 31, 2006 will require the affirmative vote of a

majority of the shares of common stock present or represented and entitled to vote at the Annual Meeting.

- Abstentions are shares that abstain from voting on a particular matter. Under the General Corporation Law of the State of Delaware, abstentions effectively count as being present for purposes of determining whether a quorum of shares is present at a meeting.
- Abstentions have no effect on Proposal No. 1. Because abstentions will be included in tabulations of the shares entitled to vote for purposes of determining whether a proposal has been approved, abstentions have the same effect as negative votes on Proposal No. 2.
- Broker non-votes occur when shares are held in street name by brokers or nominees who indicate on their proxies that they did not receive voting instructions from the beneficial owner of the shares and do not have discretionary authority to vote such shares as to a particular matter. Under the General Corporation Law of the State of Delaware, broker non-votes effectively count as being present for purposes of determining whether a quorum of shares is present at a meeting. Broker non-votes have no effect on Proposal No. 1 or Proposal No. 2.

ELECTION OF DIRECTORS (Proposal No. 1)

Our Board of Directors is divided into three classes: Class I, Class II and Class III. At the Annual Meeting, three directors are to be elected, each to serve for a term of three years and until his successor is elected and qualified, or until the death, resignation or removal of such director. Mr. Roth, Mr. Miller and Mr. Waterhouse, as Class I directors, are up for election at this Annual Meeting. Proxies will be voted for the election of each of the nominees named below as director unless the authority to vote for the nominee is withheld. Mr. Roth, Mr. Miller and Mr. Waterhouse have indicated that each of them is able and willing to serve if elected. In the event, however, that any nominee is unable or declines to serve as director at the time of the Annual Meeting, the proxies will be voted for any nominee who is designated by the current Board of Directors to fill the vacancy. If Mr. Roth, Mr. Miller or Mr. Waterhouse should become unable or unavailable to serve prior to the election, the Board of Directors may recommend another person, and Bruce Davis and Michael McConnell, in their capacity as proxy holders, will vote the proxies for such person.

There are also six continuing directors. Mr. Monego, Mr. Smith and Mr. Whitney, as Class II directors, will serve until the Company's 2007 annual meeting of stockholders. Mr. Davis, Mr. Grossi and Mr. Richardson, as Class III directors, will serve until the Company's 2008 annual meeting of stockholders.

The Company's Amended and Restated Bylaws, as amended, authorize the number of directors to be not less than five and not more than eleven. The number of directors is currently fixed by the Bylaws at ten. During 2005, the Nominating Committee of the Board of Directors recruited and the Board elected three new members, two of whom, Mr. Miller and Mr. Waterhouse, are standing for reelection, and the third, Mr. Whitney, is serving as a Class II director. In October, 2005, Mr. van Luijt resigned as a director in order to dedicate more time to his responsibilities and increasing demands with Koninklijke Philips Electronics N. V. (Philips). As a result, there is presently one vacancy on the Board of Directors. The Board of Directors has determined that the current size and configuration of the Board is sufficient, and has determined to discontinue further searches for director candidates to fill the vacancy at this time.

Edgar Filing: DIGIMARC CORP - Form DEF 14A

No director of the Company has resigned or declined to stand for re-election to the Board of Directors because of disagreements with the Company on any matters relating to the Company's operations, policies or practices since the date of the last meeting of the stockholders. There are no arrangements or understandings between any director or executive officer and any other person pursuant to which he is or was to be selected as a director or officer of the Company. There is no family relationship between any director and executive officer of the Company.

The Board of Directors Recommends a Vote FOR the Election of each of the Nominees Named Above.

RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM (Proposal No. 2)

The Audit Committee of the Board of Directors has appointed Grant Thornton LLP as the Company's independent registered public accounting firm to audit the Company's consolidated financial statements for the year ending December 31, 2006. Although ratification by shareholders is not required by law, the Board of Directors has determined that it is desirable to request approval of this selection by the stockholders. Notwithstanding its selection, the Audit Committee, in its discretion, may appoint a new independent registered public accounting firm at any time during the year if the Audit Committee believes that such a change would be in the best interests of the Company and its stockholders.

If the stockholders do not ratify the selection of Grant Thornton LLP as the Company's independent registered public accounting firm, the Audit Committee will reconsider the appointment. A representative of Grant Thornton LLP, which served as the Company's independent registered public accounting firm starting in the third quarter of 2005, is expected to be present at the Annual Meeting and will be available to respond to appropriate questions from stockholders and to make a statement if he or she desires to do so.

Resignation of Former Independent Registered Public Accounting Firm

KPMG LLP (KPMG) advised the Company on June 14, 2005 that KPMG would resign as the Company's independent registered public accounting firm, effective upon the filing of the Company's Form 10-Q for the quarter ended June 30, 2005. On August 9, 2005, the Company filed its Form 10-Q for the quarter ended June 30, 2005, and KPMG's resignation as the Company's independent registered public accounting firm became effective upon such filing.

During the years ended December 31, 2003 and December 31, 2004 and the subsequent interim period through June 14, 2005, there were no disagreements with KPMG on any matter of accounting principle or practice, financial statement disclosure, or auditing scope or procedure, which disagreements if not resolved to KPMG's satisfaction would have caused it to make reference to the subject matter of the disagreement in connection with its reports. KPMG's reports on the Company's consolidated financial statements for the years ended December 31, 2003 and December 31, 2004 and the subsequent interim period through June 14, 2005 did not contain an adverse opinion or disclaimer of opinion, nor were they qualified or modified as to uncertainty, audit scope or accounting principles, except that KPMG's report on the Company's consolidated financial statements for the year ended December 31, 2004 included a separate paragraph which stated the following: As indicated in Note 2 to the consolidated financial statements, the Company has restated its consolidated financial statements as of and for the year ended December 31, 2003.

During the years ended December 31, 2003 and December 31, 2004 and the subsequent interim period through June 14, 2005, there were no reportable events, except that KPMG's report indicates that the Company did not maintain effective internal control over financial reporting as of December 31, 2004 because of the effect of material weaknesses in internal controls and contains an explanatory paragraph which identified the following material weaknesses: inadequate supervision and technical accounting expertise within the accounting and finance department; inadequate design and implementation of new accounting system; inadequate quarterly and year-end financial statement close and review process; insufficient controls both for determining the nature and types of costs that should be capitalized and for ensuring allocation of costs to particular projects are appropriate; insufficient controls to ensure that various international, state and local tax exposures were quantified and properly accrued on a timely basis; insufficient training and inadequate reconciliation processes for complex revenue recognition requirements primarily related to international transactions; insufficient controls related to system access and segregation of duties; and inadequacies related to entity-level controls. The material weakness are described in more detail in the Company's Form 8-K filed with the Securities and Exchange Commission on June 20, 2005, as amended on August 15, 2005. The Company has since remediated these material weaknesses.

During the years ended December 31, 2003 and December 31, 2004 and the subsequent interim period through August 9, 2005, there were no disagreements with KPMG on any matter of accounting principle or practice, financial statement disclosure, or auditing scope or procedure, which disagreements if not resolved to KPMG's satisfaction would have caused it to make reference to the subject matter of the disagreements in connection with its reports.

The Company authorized KPMG to respond fully to the inquiries of the successor independent registered public accounting firm concerning these issues, once such firm had been selected.

The Company provided KPMG with a copy of the disclosure contained in the Form 8-K, filed with the Securities and Exchange Commission on June 20, 2005, as amended on August 15, 2005, and requested that KPMG furnish it with a letter addressed to the Securities and Exchange Commission stating whether it agreed with the above statements. KPMG's letters, dated June 20, 2005 and August 12, 2005, are filed as exhibits to the Form 8-K and its amendment, respectively.

Selection of Grant Thornton LLP

On September 12, 2005, the Audit Committee of the Board of Directors of the Company engaged Grant Thornton LLP as the Company's independent registered public accounting firm for the fiscal year ended December 31, 2005. From January 1, 2003 through September 12, 2005, the Company did not consult with Grant Thornton regarding any of the matters or events set forth in Item 304(a)(2) of Regulation S-K.

Vote Required

If a quorum is present, the affirmative vote of a majority of the shares present and entitled to vote at the Annual Meeting will be required to ratify the appointment of Grant Thornton LLP as the Company's independent registered public accounting firm. Abstentions will have the effect of a vote against the ratification of Grant Thornton LLP as the Company's independent registered public accounting firm. Broker non-votes will have no effect on the outcome of the vote.

The Audit Committee and the Board of Directors Recommends a vote FOR the Ratification of Grant Thornton LLP as the Company's Independent Registered Public Accounting Firm for the year ending December 31, 2006

Director Compensation

Directors who are also employees of the Company receive no additional compensation for their services as directors. During 2005, Mr. Davis was the only Director who was an employee of the Company. Directors who are not employees of the Company receive cash compensation and equity compensation as described below. All Directors are also reimbursed for reasonable and necessary travel, communications, and other out-of-pocket business expenses incurred in connection with their attendance at meetings, while on corporate business or for continuing education related to their board service.

Cash Compensation. Effective April 1, 2005, the Board of Directors increased the cash compensation paid to the non-employee members of the Board of Directors. Each non-employee director will receive an annual cash retainer of \$25,000, an increase of \$10,000. The Lead Director received an additional annual cash retainer of \$30,000. Members of the Audit Committee received an annual cash retainer of \$10,000, an increase of \$2,500, with the chair of the Audit Committee receiving an annual cash retainer of \$20,000, an increase of \$5,000. Members of other standing committees of the Board of Directors received an additional annual cash retainer of \$3,750 for each such committee on which he or she serves, with the chair of each such committee continuing to receive an annual cash retainer of \$7,500. The members of the Special Litigation Committee of the Board of Directors received annual cash retainers of \$7,500 for their service on that committee. After the Special Litigation Committee finishes its work and is eliminated, currently anticipated during the summer of 2006, no further compensation will be paid to members of Special Litigation Committee.

In addition, if a committee holds more than eight meetings per year, each committee member will receive a fee of \$1,000 for each in-person committee meeting and a fee of \$500 for each teleconference committee meeting in excess of eight meetings per year. No such fees were paid during 2005.

Equity Compensation. The 1999 Non-Employee Director Option Program, as amended, establishes an automatic option grant program for the grant of awards to our non-employee directors. Under this program, each non-employee director who first is elected to our Board of Directors on or after March 29, 2002 is automatically granted an option to acquire 20,000 shares of common stock at an exercise price per share equal to fair market value of the common stock at the date of grant. These options vest and become exercisable in 36 equal installments on each monthly anniversary of the grant date, such that the stock option will be fully exercisable three years after the grant date. The three new members of the Board of Directors, Messrs. Whitney, Miller and Waterhouse, all received such grants during 2005. Upon the date of

each annual stockholders meeting, each non-employee director who has been a member of our Board of Directors for at least six months prior to the date of the stockholders meeting will receive an automatic grant of options to acquire 12,000 shares of our common stock at an exercise price per share equal to fair market value of the common stock at the date of grant. These options vest and become exercisable in twelve equal installments on each monthly anniversary of the grant date, such that the stock option will be fully exercisable one year after the grant date. Messrs. Monego, Grossi, Smith, van Luijt, Roth and Richardson all received such grants during 2005.

The 1999 Non-Employee Director Option Program was amended on March 29, 2002 to provide for the automatic grant of an option to acquire 3,000 shares of common stock at an exercise price per share equal to the fair market value of the common stock at the date of grant to each non-employee director who serves as a member of a committee of the Board of Directors immediately following each annual meeting of our stockholders, provided such non-employee director has been a member of the Company's Board of Directors for at least six months prior to the date of the stockholders meeting. These options vest and become exercisable in twelve equal installments on each monthly anniversary of the grant date, such that the stock option will be fully exercisable one year after the grant date. The Board of Directors determined not to grant 3,000 shares of common stock to the directors in 2005 for service on each standing committee of the board.

Compensation Committee Interlocks and Insider Participation

None of Messrs. 	Fiscal 2005 GT Fees	Fiscal 2005 KPMG Fees	Total Fiscal 2005	Total Fiscal 2004
Audit Fees(1)	\$ 1,200,000	\$ 159,000	\$ 1,359,000	\$ 1,280,000

Total Fees	\$ 1,202,000	\$ 228,000	\$ 1,430,000	\$ 1,355,000

(1) Audit Fees consist of fees for professional services rendered for the audit of the Company's fiscal 2005 and fiscal 2004 consolidated annual financial statements and review of the interim consolidated financial statements included in quarterly reports and services that are normally provided by Grant Thornton LLP and KPMG LLP in connection with regulatory filings. The KPMG audit fees principally include two quarterly reviews and its consent to G&A reclassification work. The GT audit fees include the estimated audit fees for the year-end 2005 audit and the Q3 2005 review. For 2005, Audit Fees also included work on the restatement of prior financial statements and compliance with Section 404 of the Sarbanes-Oxley Act of 2002.

- (2) Audit-Related Fees consist of fees billed for assurance and related services that are reasonably related to the performance of the audit or review of the Company's consolidated financial statements and are not reported under Audit Fees, such as audits of employee benefit plans. The Audit Committee pre-approves the Audit, Audit-Related, Tax and All Other services performed by the independent registered public accounting firm. In October 2003, the Audit Committee adopted a policy for the pre-approval of services provided by the independent registered public accounting firm. Under the policy, the term of such pre-approval is generally twelve months from the date of pre-approval. Pre-approval fee levels or budgeted amounts for all services to be provided by the independent registered public accounting firm and the specific services included within such pre-approvals are established annually by the Audit Committee and are reviewed as the Audit Committee deems appropriate. Any proposed services exceeding these levels or amounts or of a different type will require specific pre-approval. No services provided by the independent auditors under the categories of Audit Fees, Audit-Related Fees, and Tax Fees were approved pursuant to the *de minimus* exception provided in Rule 2-01(c)(7)(i)(C) of Regulation S-X.

As set forth in the Report of the Audit Committee of the Board of Directors, the Audit Committee has considered and determined that the provision of audit-related services and tax services described above was compatible with maintaining Grant Thornton LLP's independence.

In addition, as part of that relocation package, the Company purchased Mr. Carr's Oregon residence for its fair market value, determined as the average valuation established by three independent appraisals. The Company has since sold the residence in an open market transaction, with closing scheduled on or about March 30, 2006.

(4) Mr. Gifford resigned as an executive officer of the Company on April 11, 2005. He continued as a non-executive officer of the Company through December 31, 2005, with compensation continuing at the rate of his prior base salary. Under the terms of the Company's 1999 Stock Incentive Plan, as amended and restated, he will have 90 days from his separation date in which to exercise vested options, after which any unvested and unexercised options will be automatically cancelled.

(5) This column represents the dollar value of the grants of restricted stock as of the date granted to the following Named Executive Officers: Mr. Davis 116,000 shares; Mr. McConnell 47,000 shares; Mr. Chamness 47,000 shares; Mr. Carr 30,000 shares; and Mr. Stager 30,000 shares. One-quarter of the restricted shares granted to these executive officers vest each December 31 beginning on December 31, 2005. The fair market value on the date of the grant was based on a price of \$7.50 at market close on March 1, 2005. At the end of fiscal 2005, the aggregate share amount and dollar value based on the closing price of \$5.90 on December 31, 2005 of the restricted stock held by the named executive officers was:

Name	Number of Shares of Common Stock Granted	Held	Value
Bruce Davis	116,000	87,000	\$ 513,300
Michael McConnell	47,000	35,250	\$ 207,975
Robert Chamness	47,000	35,250	\$ 207,975
Reed Stager	30,000	22,500	\$ 132,750
Scott Carr	30,000	22,500	\$ 132,750

There are no current plans to pay dividends on this stock.

(6) In accordance with the rules of the Securities and Exchange Commission, the compensation described in this table does not include certain perquisites and other personal benefits, securities or properties received by the Named Executive Officers that do not exceed the lesser of \$50,000 or 10% of any such officer's total salary and bonus disclosed in this table. Officers are eligible to participate in benefit and other programs offered to employees (such as 401(k) matches, the ability to participate in the employee stock purchase plan, and the receipt of reimbursement for relocation expenses) and receive reimbursement for certain home office expenses.

Employment Arrangements

In July 1999, we adopted a policy regarding the vesting of stock options, including prior grants, for all existing officers at such date. This policy was amended in January 2000 to include all our then current and future officers. In accordance with this policy, all shares subject to their options that have not vested will immediately vest if the following two conditions are met:

- we merge with another company and there is a change of control of the Company or we sell substantially all of our assets to another company; and
- any officer's employment is terminated, or constructively terminated, within twelve months thereafter.

On February 23, 2005, the Compensation Committee of the Board of Directors approved the form of the restricted stock agreement to be used in connection with restricted stock awards to be granted to officers of the Company under the terms of the Company's 1999 Stock Incentive Plan, as amended and restated on April 17, 2003 (the "1999 Stock Incentive Plan"). The restricted stock agreement provides, among other things, that the shares will vest in full upon the termination of the officer's employment without cause or the officer's resignation for good reason following a change in control of the Company. Notwithstanding the foregoing, the plan administrator has discretionary authority, among other things, to determine the terms and conditions of any award granted under the 1999 Stock Incentive Plan.

To create alignment with shareholders, effective for 2006, the Compensation Committee of the Board of Directors implemented a performance vesting share program and, on January 3, 2006, approved the form of a performance vesting share agreement to be used in connection with performance share vesting awards to be granted to officers of the Company under the terms of the Company's 1999 Stock Incentive Plan. The performance share vesting agreement provides, among other things, that the shares will fully vest, subject to the terms of the agreement, if the closing price of the Company's common stock is at least \$15 for more than 30 consecutive calendar days during the period that begins on the grant date and ends on the third anniversary of the grant date. Assuming that all conditions are satisfied, the shares shall vest and no longer be subject to forfeiture as of the date on which the performance condition is satisfied. Subject to certain exceptions, all rights to performance vesting shares are contingent on the executive remaining continuously employed by the Company, or any parent or subsidiary of the Company, from the grant date through the release date.

Other than the agreement with Bruce Davis referenced below, there are no employment contracts between Named Executive Officers and the Company.

Pursuant to an employment agreement, effective as of July 16, 2001, the Board of Directors and Bruce Davis memorialized Mr. Davis's employment with the Company as its full-time Chief Executive Officer. Under the initial compensation terms of that agreement, Mr. Davis was to be paid a salary of not less than \$300,000 per year and an annual performance bonus of up to 50% of Mr. Davis's salary per year. Consistent with its charter, the Compensation Committee annually reviews and determines the compensation of the Chief Executive Officer and other executive officers. The Compensation Committee is not restricted from setting his base and bonus amounts at a higher level than as provided in his employment agreement. Since the date of the employment agreement, the Company's compensation arrangement with Mr. Davis has evolved and, over time, the Compensation Committee has determined to increase the amount of base compensation and the percentage amount of Mr. Davis's target bonus. The Compensation Committee determined in 2005 to set the base and annual performance bonus for Mr. Davis in amounts higher than those set forth in his employment agreement, as noted above in the Summary Compensation Table. See the report of the Compensation Committee for additional detail.

Mr. Davis also will receive vacation and other benefits as are generally provided to other executives of the Company. Digimarc will grant additional stock options to Mr. Davis consistent with general market practices for similarly situated executives. The employment agreement provides that as long as Mr. Davis serves as our Chief Executive Officer, it is the intention of the Company that he will be nominated to serve as a director and as chairman of the Board of Directors of the Company. The employment agreement provides for an initial term from July 16, 2001 to December 31, 2002, automatically renewing for successive two-year periods unless terminated by written notice received at least one year prior to any scheduled termination. If Digimarc terminates Mr. Davis's employment without cause or if Mr. Davis terminates his employment due to an adverse change in conditions of his employment, Mr. Davis's stock options will immediately and fully vest and Digimarc will be obligated to continue to pay Mr. Davis his salary and bonus and to provide continued benefits for Mr. Davis and his dependents for two years from the date of termination. In addition, in consideration for the provisions in the employment agreement providing for

the post-termination payments described above, Mr. Davis has agreed to certain non-competition and non-solicitation obligations to the Company.

We also have confidentiality, non-competition, non-disclosure and inventions agreements with employees and members of senior management, including the Named Executive Officers. These agreements provide: (i) that the employee will not reveal any of our confidential information to any person, business entity or other organization without authorization from us; (ii) that the employee may not compete with us during the term of his or her employment and for a period of up to one year following termination of employment for cause, the employee's resignation or voluntary termination of employment by the employee; and (iii) that all ideas, designs, works and inventions made by the employee in the course of his or her employment with us are our exclusive property.

Stock Option Grants in the Last Fiscal Year

The following table sets forth certain information with respect to stock options granted during the year ended December 31, 2005 to each of the Named Executive Officers. In accordance with the rules of the Securities and Exchange Commission, also shown below is the potential realizable value over the term of the options (the period from the grant date to the expiration date) based on assumed rates of stock appreciation of 5% and 10%, compounded annually.

Stock Option Grants In Last Fiscal Year

Name	Individual Grants Number of Shares of Common stock Underlying Options Granted(1)	Percent of Total Options Granted to Employees in 2005 (%) (2)	Exercise Price (\$/Share)(3)	Expiration Date(4)	Potential Realizable Value at Assumed Annual Rates of Stock Price Appreciation for Option Term(5)

Paul Gifford(6)	8,000	.64	9.07	1/5/15	45,633	115,642

(1) The annual refresh grant of options for each of the Named Executive Officers vests on a daily basis of 1/1460 per day over a four year period. The new hire grant to Mr. Eckel vests 25% on the first anniversary of the grant and then at a rate of 1/1460 per day over the remainder of the four year period. The Company provided the 2006 refresh grant of options to purchase common stock to Mr. Davis, Mr. Eckel, Mr. McConnell, Mr. Chamness, Mr. Carr and Mr. Stager on January 3, 2006, which is not reflected in this table.

(2) Based upon an aggregate of 1,257,850 options granted to employees and consultants, including the Named Executive Officers, in fiscal 2005.

(3) Options were granted at an exercise price equal to the fair market value of the Company's Common Stock, as determined by reference to the closing price reported on the Nasdaq National Market on the date of grant.

(4) Options may terminate before their expiration dates if the option holder's status as an employee is terminated or upon the option holder's death or disability.

(5) The potential realizable value is net of exercise price before taxes and calculated assuming that the fair market value of the Company's common stock on the date of grant appreciates at the indicated annual rate compounded annually for the entire term of the option (10 years) and that the option is exercised and sold on the last day of its term for the appreciated stock price.

(6) Mr. Gifford separated from Digimarc as of December 31, 2005. Under the terms of the Company's 1999 Stock Incentive Plan, he will have 90 days from that date in which to exercise vested options, after which any unvested and unexercised options will be automatically cancelled.

Aggregated Option Exercises in Last Fiscal Year and Fiscal Year-End Values

The following table provides summary information, as to the Named Executive Officers, concerning stock options exercised during 2005 and the number of shares subject to both exercisable and unexercisable stock options as of December 31, 2005.

Name	Shares Acquired on Exercise (#)	Value Realized (\$)(1)	Number of Securities Underlying Unexercised Options at Fiscal Year-End (#)		Value of Unexercised In-the-Money Options at Fiscal Year-End \$(2)	
			Exercisable	Unexercisable	Exercisable	Unexercisable
Bruce Davis.	0	0	1,078,550	6,294	0	0
Robert Eckel	0	0	0	250,000	0	0
Michael McConnell	0	0	210,000	0	0	0
Robert Chamness.	0	0	168,000	0	0	0
Reed Stager	0	0	307,603	2,397	0	0
Scott Carr.	0	0	318,042	23,958	\$ 350,000	0
Paul Gifford(3)	0	0	570,003	2,997	0	0

(1) The value realized upon the exercise of the stock options is equal to the fair market value of the purchased shares on the option exercise date less the exercise price paid.

(2) The value of unexercised in-the-money options is calculated based on the closing price of our common stock on The Nasdaq National Market on December 31, 2005, which was \$5.90 per share. Amounts reflected are based on the aggregate assumed value minus the aggregate exercise price for each optionee's options and do not necessarily indicate that the optionee sold such shares.

(3) Mr. Gifford separated from Digimarc as of December 31, 2005. Under the terms of the Company's 1999 Stock Incentive Plan, he will have 90 days from that date in which to exercise vested options, after which any unvested and unexercised options will be automatically cancelled.

Acceleration of Certain Options

Effective January 1, 2006, the Company adopted Financial Accounting Standards Board issued Statement No. 123R Share Based Payment (FAS 123R), which requires all share-based payments to employees, including grants of employee stock options, to be valued at fair value on the date of grant, and to be expensed over the applicable vesting period. Pro forma disclosure of the income statement effects of share-based payments is no longer an alternative. FAS 123(R) is effective for all of the Company's stock-based awards vesting on or after January 1, 2006.

On December 15, 2005, the Board of Directors of the Company, with the advice and consent of the Audit, Compensation and Corporate Governance Committees, approved the acceleration of vesting of the Company's outstanding stock options with option exercise prices equal to or greater than \$9.00 that would not have otherwise vested in full by December 31, 2005, in accordance with their terms. Accelerating the vesting of the Company's options prior to the time at which the Company adopted FAS 123R accelerated

the recognition of any remaining expense associated with these options, but the Company is only required to report the recognition of the remaining expenses associated with these options in the footnotes to the Company's financial statements. The \$9.00 price was selected because it was materially higher than the price at which the Company's common stock had traded during the period prior to the acceleration. The price of the Company's common stock at the close of the market on December 15, 2005, was \$6.03, and thus the \$9.00 floor for the options to be accelerated constituted approximately a 50% premium over the then market price.

The acceleration applied to all options outstanding under the Company's 1999 Stock Incentive Plan and 2000 Non-Officer Employee Stock Incentive Plan that would not have otherwise vested in full by December 31, 2005 in accordance with their terms. The effective date of the vesting acceleration was December 31, 2005. Options to purchase 422,248 shares of the Company's common stock, or 5.76% of the total number of options of the Company outstanding as of December 31, 2005 with remaining vesting schedules, were subject to the acceleration. The calculated value of these options for purposes of the required disclosure in the footnotes to the Company's financial statements was approximately \$1,370,000. The Company reported this value in its financial statement footnotes for the period ended December 31, 2005. Of these 422,248 options, approximately 121,000 options are held by the Company's Named Executive Officers. No options held by any directors of the Company, including its chairman and chief executive officer, were accelerated. The Named Executive Officers hold the following number of options subject to such acceleration: Mr. McConnell 120,726 options; Mr. Chamness 82 options; Mr. Stager 82 options; and Mr. Carr 82 options.

REPORT OF THE COMPENSATION COMMITTEE OF THE BOARD OF DIRECTORS ON EXECUTIVE COMPENSATION

We have a Compensation Committee of the Board of Directors (the "Compensation Committee") which has the authority and responsibility to approve the overall compensation strategy, review, establish and approve executive compensation, administer the annual and long-term compensation plans, and review and make recommendations to the Board of Directors with respect to Board compensation. The Compensation Committee is comprised of outside, independent, non-employee members of the Board of Directors.

More specifically, the Compensation Committee is authorized to establish and maintain compensation guidelines for salaries and merit pay increases throughout the Company, and to review and determine at least annually the compensation for the Chief Executive Officer and other executive officers of the Company. The Compensation Committee also makes specific recommendations to the Board of Directors concerning the compensation of the members of the Board and its committees. The Compensation Committee also administers our 1995 Stock Incentive Plan, as amended (the "1995 Stock Incentive Plan"), our Restated 1999 Stock Incentive Plan, as amended and restated, and our 1999 Employee Stock Purchase Plan, as amended and restated (the "1999 Employee Stock Purchase Plan"). Under these plans, the Compensation Committee awards option to directors, executive officers, managers, and employees on an annual basis and restricted stock to executive officers.

General Compensation Policy

The Compensation Committee's overall policy is to offer our executive officers competitive compensation opportunities. The Compensation Committee utilizes competitive data and summaries provided by an outside consultant that works directly with the Compensation Committee to develop compensation recommendations competitive with other companies in the software and broad high technology industry. The Compensation Committee's objectives are to:

- provide competitive compensation opportunities that attract and retain top executives;

- inspire the executive team to achieve superior performance, in order to deliver results above the Company's plan and those of its peers;
- create a performance-oriented environment with variable compensation based upon the achievement of annual and longer-term business results;
- create a direct, meaningful link between the financial performance and strategic objectives and the Company's performance relative to peer companies on one hand, and individual executive performance and rewards on the other; and
- continue to align the interests of executives and stockholders through the use of long-term incentives, while effectively managing dilution.

Factors

The primary factors considered in establishing the components of each executive officer's compensation package for the year ended December 31, 2005 are summarized below. The Compensation Committee may in its discretion apply entirely different factors, such as different measures of financial performance, for future fiscal years.

Base Salary. The base salary for each officer is set on the basis of personal performance, the salary levels in effect for comparable positions with other companies in the industry, and internal comparability considerations. Base salary ranges are generally set at a nominal 50th percentile; with the opportunity for high-performers and incumbents occupying critical positions to have their actual base salary between the 50th and 75th percentile based on management justification and Board approval. The market is defined as business and labor market competitors of similar size and complexity in the software and broad high technology industry. On average, executive officer base salaries are slightly above the 50th percentile of Digimarc's peer companies.

Annual Incentive Compensation. For the year ended December 31, 2005, specific financial and organizational objectives and individual and collective objectives were established as the basis for the incentive bonuses to be paid to the executive officers of the Company. Under the supervision of the Compensation Committee, the Company has established an incentive program for executive and corporate officers pursuant to which cash bonuses are payable to such executives. These executives are responsible for establishing strategic direction or are responsible for major functional or operating units and have an impact on bottom-line results. The Company has tied executive compensation to the achievement of a combination of individual and Company goals, putting a substantial portion of executive compensation at risk. For 2005, the performance measures were based on the achievement of the Company's revenue growth and other specific financial and operational objectives for executive participants. Each element of the performance expectations, and the target incentive amounts, are established at the start of the year for each executive, stated as a dollar amount, and adjusted from time to time if warranted by changes in external circumstances. Final payout is calculated based upon the results attained relative to the preset performance targets and individual performance relative to predetermined objectives. If performance is below the threshold amount established, the payout is reduced accordingly. If the targeted results and Company goals are attained, the target incentive amounts are payable.

During 2005, the executives received reductions in the targeted amounts of their bonus based on the Company's overall revenue growth and other specific financial and objectives. The Compensation Committee authorized the Company to disburse during 2006 approximately \$451,000 of an amount that was accrued during 2005 for payment of 2005 incentive compensation to six executive officers, based on their achievement of individual and business unit objectives and completion and filing of applicable securities filings for 2005. The amounts shown on the Summary Compensation Table in this Proxy Statement reflect the amounts that were accrued in 2005 but paid in 2006.

Long-Term Stock-Based Incentive Compensation. Generally, the Compensation Committee awards stock options, restricted stock and performance vesting shares to each of our executive officers following their initial hiring and from time to time thereafter. The option, restricted stock and performance vesting share grants are designed to align the interests of the executive officer with those of the stockholders and to provide each individual with a significant incentive to manage the Company from the perspective of an owner with an equity stake in the business.

Generally, the size of the option, restricted stock and performance vesting share grant made to each executive officer is set at a level which the Compensation Committee deems appropriate to create a meaningful opportunity for stock ownership based upon the individual's current position with the Company, but the Compensation Committee also takes into account comparable awards to individuals in similar positions in the industry, as reflected in external surveys, the individual's potential for future responsibility and promotion, the individual's performance in recent periods and the number of unvested options held by the individual at the time of the grant. The relative weight given to each of these factors will vary from individual to individual in the Compensation Committee's discretion.

Stock Options. Mr. Davis, Mr. McConnell, Mr. Chamness, Mr. Carr, and Mr. Stager received stock option grants that were effective January 6, 2005. Each grant allows the executive officer to acquire shares of the Company's common stock at a fixed price per share (the market price on the grant date) over a specified period of time (up to 10 years). Such options generally become exercisable in installments over a four-year period, contingent upon the executive officer's continued employment with the Company, although these options vested over a six-month period. Accordingly, the option will provide a return to the executive officer only if he remains in the Company's employ, and then only if the market price of the Company's common stock appreciates over the option term. Mr. Gifford's departed from the Company effective December 31, 2005, and all of his options that remained unexercised 90 days thereafter were terminated and returned pursuant to the terms of the 1999 Stock Incentive Plan.

Mr. Eckel received an initial hire grant of options for 250,000 shares, one-quarter of which will have vested on April 15, 2006, and the remainder vesting on a daily basis over the balance of the four-year period, contingent upon the Mr. Eckel's continued employment with the Company. Accordingly, the options will provide a return to Mr. Eckel only if he remains in the Company's employ, and then only if the market price of the Company's common stock appreciates over the option term.

Restricted Stock. On February 23, 2005, the Compensation Committee approved the form of the restricted stock agreement to be used in connection with restricted stock awards to be granted to officers of the Company under the terms of the Company's 1999 Stock Incentive Plan. The agreement provides, among other things, that the shares will vest in full upon the termination of the officer's employment without cause or the officer's resignation for good reason following a change in control as defined in the agreement. Notwithstanding the foregoing, the plan administrator has discretionary authority, among other things, to determine the terms and conditions of any award granted under the Plan. A copy of the agreement was previously filed by the Company with the Securities and Exchange Commission (SEC) as an exhibit to the Company's Form 8-K filed on March 1, 2005.

Mr. Davis, Mr. McConnell, Mr. Chamness, Mr. Carr, and Mr. Stager also received restricted stock grants in 2005. Each grant allows the executive officer to acquire shares of the Company's common stock at a no cost immediately at the time of the grant, subject to divestiture over a specified period of time (in this instance, 4 years). One-quarter of the restricted shares granted to these executive officers will vest each December 31 beginning on December 31, 2005, at which time such shares are no longer subject to divestiture. Except for certain circumstance in which the vesting accelerates, because the shares are subject to divestiture, the shares will provide a return to the executive officer only if he remains in the Company's employ for the shares to fully vest. Moreover, the return to the executive officer increases if the market price of the Company's common stock appreciates over time.

Performance Vesting Shares. No performance vesting shares were granted in 2005, but performance vesting shares were granted to executives in 2006 and will continue to be part of the Company's long-term incentive strategy going forward.

Stock Option Burn Rate. The Company, with the oversight and approval of the Compensation Committee, provides stock option grants: (1) initially to all new employees of the Company, consistent with typical grants provided to similarly situated employees by similarly situated companies, (2) annually to members of the Board of Directors, (3) annually to executive and non-executive officers of the Company and its wholly-owned subsidiary, and (4) annually to employees who have met or exceeded certain performance and contribution criteria. The Compensation Committee periodically reviews both the gross and the net burn rate, compared to both our peer group and broader industry practices as published by certain of the shareholder advisory organizations. The committee endeavors to assure that the net burn rate approximates the budgeted issuances authorized for the year in conformity with our peer group and broader industry averages, and to assure that the annual and the three-year average gross burn rate are within the recommended range of selected outside shareholder advisory groups.

Starting in 2004, the Compensation Committee determined to reduce the Company's net stock option burn rate in a manner consistent with the burn rate of other companies in the software and broad high technology industry, establishing a burn rate target not to exceed 5% in 2004 and 4% thereafter.

For purposes of determining the net stock option burn rate, the Company determines the sum of all options plus shares granted during the course of the year, subtracts the options and shares that are cancelled and returned to the plan, and divides the balance (the net options issued) by the shares outstanding at the end of the year. The gross burn rate is determined by taking the sum of all options plus shares granted during the course of the year and dividing that amount by the shares outstanding at the end of the year. During 2005, the net options issued totaled 826,483, and the gross options issued totaled 1,527,850. There were approximately 20,820,000 shares outstanding at December 31, 2005, resulting in a net burn rate of 3.97%, compared to a targeted cap of 4%, and a gross burn rate of 7.34%. Our gross burn rate approximates the market average of comparable companies as published by some of the outside shareholder organizations.

In April of 2005, there was one extraordinary grant of options for 250,000 shares in connection with the hiring of Robert Eckel as President of Government Programs. If that extraordinary grant were removed from the equation, the 2005 gross burn rate would have been 6.14% and the net burn rate for 2005 would have been 2.77%.

Peer Companies. For purposes of determining the performance, stock option burn rate, and compensation of peer companies during 2005, the Compensation Committee considered information from the Company and the following 21 companies: Activcard, NIC, Viisage, Fargo, Identix, LaserCard, Macrovision, Dolby, DTS, Entrust, LookSmart, Micromuse, Net2phone, NetiQ, Openwave, RSA Security, Safenet, SCM Microsystems, Watchguard, Websense and Vasco in 2005.

For purposes of determining the performance, stock option burn rate, and compensation of peer companies in 2006, the Compensation Committee will consider information from the Company and the following nine companies: Activcard, NIC, Viisage, Fargo, Identix, LaserCard, Macrovision, Dolby and DTS. For purposes of an ROE calculation only, we will assume a 25% weighting for Macrovision, Dolby and DTS, and all others are weighted 75%.

Employee Stock Purchase Plan. The Compensation Committee delayed purchases under the 1999 Employee Stock Purchase Plan that would have occurred on November 30, 2004 until May 31, 2005 because the Company's untimely filing of its third quarter Form 10-Q and 2004 Form 10-K caused the registration statements on Form S-8 on file with the Securities and Exchange Commission for the 1999 Employee Stock Purchase Plan to not reflect current information. As a result of the delay, participants were provided with the opportunity to withdraw all of the accumulated payroll deductions credited to their account under the Employee Stock Purchase Plan and/or terminate future payroll deductions.

CEO Compensation

Effective July 16, 2001, the Company and Bruce Davis entered into an employment agreement. Consistent with its charter, the Compensation Committee annually reviews and determines the compensation of the Chief Executive Officer (and other executive officers). The Compensation Committee is not restricted from setting the base and bonus amounts for the Chief Executive Officer at levels higher than those set forth in Mr. Davis's employment agreement. Since the date of the employment agreement, the Company's compensation arrangement with Mr. Davis has evolved and, over time, the Compensation Committee has determined to increase the amount of base compensation and the percentage amount of Mr. Davis's target bonus. The Compensation Committee determined in 2005 to set the base and annual performance bonus targets for Mr. Davis in amounts higher than the amounts set forth in his employment agreement.

The Compensation Committee utilized the services of an outside consulting firm that reported directly to the committee to assist them in determining Mr. Davis's compensation for 2005. The consulting firm performed an analysis and made recommendations with respect to Mr. Davis's base salary and bonus target amount for 2005, as well as the appropriate number of stock options and other equity awards to be considered for granting to Mr. Davis. After analysis of these recommendations and other information, the Compensation Committee set Mr. Davis's base salary, bonus targets and stock option grants and other equity awards above the median range for the industry when compared with those of executives holding similar positions with other companies in the software and broad high technology industries that are similar to Digimarc.

The Compensation Committee established the Chief Executive Officer's 2005 salary and target bonus levels in December 2004 and reviewed and reevaluated his compensation quarterly. Consistent with the annual compensation analysis described above, the Compensation Committee increased the 2005 base salary of Mr. Davis by \$8,000 to \$410,000, effective January 1, 2005, and set his target bonus percentage at 75% of his base salary, or \$308,000. The portion of the target bonus earned was to be based primarily on the achievement of corporate revenue and the accomplishment of documented objectives.

For 2005, the Compensation Committee authorized a bonus payment of \$120,000 to Mr. Davis based on its assessment of corporate results and the achievement of designated objectives. This bonus was provided, in principal part, to recognize Mr. Davis's contributions in improving internal controls and achieving compliance with Sarbanes-Oxley, eliminating the role of the President and Chief Operating Officer and assuming direct operating control over the Company, terminating a number of executives and senior managers, rebuilding a strong management team, materially improving cash flow, and implementing a strategic management process. The bonus paid was less than 50% of the target, tempered by the committee's assessment of overall corporate financial performance.

Edgar Filing: DIGIMARC CORP - Form DEF 14A

As part of Mr. Davis's compensation package for 2005, the Compensation Committee granted Mr. Davis (1) options to purchase up to 25,000 shares of common stock, and (2) an award of 116,000 shares of time restricted stock. The Compensation Committee based its determination on the report and recommendations of its outside compensation consulting firm regarding the comparable dollar value of option grants for chief executive officers in peer companies with similar economic performance to that of the Company.

The Compensation Committee awarded 2005 compensation to Mr. Davis based on its review and analysis of Mr. Davis's position, responsibilities and performance as well as his anticipated responsibilities and potential contributions to growth in stockholder value. The Compensation Committee analyzed his leadership, as reflected in the Company's performance relative to its peers, and the compensation comparables of peer companies, in reaching its conclusions.

Compliance with Internal Revenue Code Section 162(m)

Section 162(m) of the Internal Revenue Code, enacted in 1993, generally disallows a tax deduction to public companies for compensation exceeding \$1 million paid to certain executive officers. The limitation applies only to compensation that is not considered to be performance-based. The non-performance-based compensation paid to our executive officers in 2005 did not exceed the \$1 million limit per executive officer.

The Compensation Committee is aware of the limitations imposed by Section 162(m), and its exemptions, and will address the issue of deductibility when and if circumstances warrant.

The following graph compares the performance of our common stock with the performance of the Nasdaq US Index and the companies included in Standard Industrial Classification (SIC) Code 7373 Computer Integrated Systems Design (our peer group) for the 5-year period ended December 31, 2005. The companies included in our peer group have changed from those companies included in the stock performance graph included in our definitive proxy statement in connection with our annual meeting of the stockholders held in 2005. The change resulted from a change in companies included within such SIC Code as provided by Standard & Poor's. The comparison assumes \$100 was invested on December 31, 2000 in our common stock at the closing price of our common stock on such date and in each of the other two indices at the closing price on such date and assumes reinvestment of any dividends. EQUITY COMPENSATION PLAN INFORMATION

The following table sets forth information regarding the Company's compensation plans under which equity securities of the Company are authorized for issuance to employees or non-employees of the Company, including directors of the Company, as of December 31, 2005:

Plan category	Number of securities to be issued upon exercise of outstanding options, warrants and rights (a)	Weighted-average exercise price of outstanding options, warrants and rights (b)	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a)) (c)
Equity compensation plans approved by security holders	7,262,039	\$ 14.524	5,081,171 (1)(2)(3)
Equity compensation plans not approved by security holders(4)	106,573	\$ 15.9498	136,756
Total	7,368,612	\$ 14.7421	5,217,927 (1)(2)(3)

- (1) The amount includes 1,384,549 shares of common stock available for future issuance under the Company's 1999 Employee Stock Purchase Plan and 3,696,622 shares of common stock available for future issuance under the Company's 1999 Stock Incentive Plan.
- (2) Under the Company's 1999 Stock Incentive Plan, the maximum aggregate number of shares of common stock which may be issued pursuant to all awards under the plan is increased by (i) any shares of common stock that are represented by awards under the Company's 1995 Stock Incentive Plan which are forfeited, expire or are cancelled without delivery of shares of common stock or which result in the forfeiture of shares of common stock to the Company, and (ii) an annual increase to be added on the first day of the Company's fiscal year equal to seven percent (7%) of the fully-diluted number of shares of common stock outstanding as of such date or a lesser number of shares of common stock determined by the plan administrator. Starting in 2004, the Compensation Committee of the Company's Board of Directors determined to reduce the Company's net stock option burn rate in a manner consistent with the burn rate of other companies in the software and broad high technology industry. Under the Company's 1999 Employee Stock Purchase Plan, subject to adjustment upon changes in capitalization of the Company, the maximum number of shares of common stock which shall be made available for sale under the plan shall be annually increased on the first day of the Company's fiscal year by an amount equal to the lesser of (i) 250,000 shares, (ii) one percent (1%) of the fully-diluted number of outstanding shares on such date, or (iii) a lesser number of shares determined by the plan administrator.
- (3) Shares available for issuance under the Company's 1999 Stock Incentive Plan can be granted pursuant to stock options, stock appreciation rights, dividend equivalent rights, restricted stock, performance units and performance vesting shares. The Company's non-employee directors received options grants under a Non-Employee Director Option Program adopted by the Board of Directors and administered under the Company's 1999 Stock Incentive Plan. Each non-employee director received an option for 20,000 shares in initial election as director and an annual option grant for 12,000 shares, and committee members receive an additional annual option grant for 3,000 shares. All options are granted with an exercise price equal to the fair market value of our stock on the grant date. Initial option grants vest and become exercisable in 36 equal installments on each monthly anniversary of the grant date, such that the stock option will be fully exercisable three years after the grant date. Annual option grants, including annual option grants to standing committee members, are made immediately following each annual shareholder meeting and vest and become exercisable in twelve equal

installments on each monthly anniversary of the grant date, such that the stock option will be fully exercisable one year after the grant date. The Board has discretion to elect not to make the automatic annual option grants.

(4) The following is a description of the material features of the Company's equity compensation plan that was not approved by the Company's stockholders:

2000 Non-Officer Employee Stock Incentive Plan

The Company's Board of Directors adopted the 2000 Non-Officer Employee Stock Incentive Plan (the "Non-Officer Plan") in June 2000. A maximum of 275,000 shares of common stock is available for issuance under the Non-Officer Plan. The Board of Directors, or a committee designated by the Board of Directors, shall act as the plan administrator for the Non-Officer Plan. The Board of Directors may also authorize one or more officers to grant awards of non-qualified stock options under the Non-Officer Plan and may limit such authority as the Board of Directors determines from time to time. The plan administrator shall determine the provisions, terms and conditions of each award of non-qualified stock options under the Non-Officer Plan, including without limitation vesting of such options. The plan administrator also has the authority, among other things, to select employees to whom awards of non-qualified stock options under the Non-Officer Plan may be granted from time to time, to determine whether and to what extent such awards are granted, and to construe and interpret the terms of the Non-Officer Plan and awards of non-qualified stock options granted pursuant to the Non-Officer Plan. Options currently may be granted under the Non-Officer Plan to employees of the Company and any parent or subsidiary of the Company. Officers and directors may not be granted options under the Non-Officer Plan. The term of each option shall be stated in the applicable option agreement. The exercise price per share of common stock for an option shall be not less than fifty percent (50%) of the fair market value per share on the date of grant unless otherwise determined by the plan administrator. An option may include a provision whereby the participant may elect to exercise any part or all of the option prior to vesting of the option. Any unvested shares received pursuant to such exercise may be subject to a repurchase right in favor of the Company or any other restriction the plan administrator determines to be appropriate. Options are transferable in the manner and to the extent determined by the plan administrator. A participant may not exercise an option after the termination of the participant's employment, director or consulting relationship with the Company or any parent or subsidiary of the Company, except to the extent specified in the applicable option agreement. Where the option agreement permits the exercise of the option following termination of the participant's employment or other service relationship with the Company or any parent or subsidiary of the Company, the option shall terminate to the extent not exercised on the last day of the specified period or the last day of the term of the option, whichever occurs first. The Non-Officer Plan will continue for a term of ten years from the date of adoption unless sooner terminated. The Board of Directors may amend, suspend or terminate the Non-Officer Plan at any time without approval of the stockholders, except as required by law. However, amendment, suspension or termination of the Non-Officer Plan may not alter or impair any option previously granted under the Non-Officer Plan, unless otherwise mutually agreed in writing between an affected participant and the Company. No option may be granted during any suspension of or after termination of the Non-Officer Plan.

**SECURITY OWNERSHIP OF CERTAIN
BENEFICIAL OWNERS AND MANAGEMENT**

The following table sets forth the beneficial ownership of our common stock as of March 1, 2006 by:

- each person or entity known by us to own beneficially more than five percent of our common stock;
- our chief executive officer, each of the other Named Executive Officers and each of our directors; and
- all of our executive officers and directors as a group.

The beneficial ownership is calculated based on 21,018,994 shares of our common stock outstanding as of March 1, 2006. Unless otherwise indicated, each person or entity named in the table has sole voting power and investment power, or shares voting and investment power with his or her spouse under applicable community property laws, with respect to all shares of capital stock listed as owned by that person. Shares issuable upon the exercise of options that are currently exercisable or become exercisable within sixty days after March 1, 2006 are considered outstanding for the purpose of calculating the percentage of outstanding shares of our common stock held by the individual, but not for the purpose of calculating the percentage of outstanding shares of our common stock held by any other individual. The address of each of the executive officers and directors is care of Digimarc Corporation, 9405 S.W. Gemini Drive, Beaverton, Oregon 97008.

REPORT OF THE NOMINATING COMMITTEE OF THE BOARD OF DIRECTORS

Throughout 2005, we had a Nominating Committee of the Board of Directors (the Nominating Committee) which had responsibility for optimizing the composition, competence and integrity of the Board of Directors and its committees by searching for and recommending individuals for election to the Board of Directors, and such other duties and functions as directed by the Board of Directors from time to time or as are consistent with its charter, the Company's Amended and Restated Bylaws, as amended, and governing law, rules and regulations. The Nominating Committee's role includes responsibility for development of the Board of Directors, including the need to attract and elect independent members of the Board of Directors with expertise in areas supportive of and consistent with the strategic initiatives of the Company. The Nominating Committee is directly responsible for identifying, screening and recruiting individuals qualified to become members of the Board of Directors. The Nominating Committee is comprised of outside, independent, non-employee members of the Board of Directors.

In February 2004, the Nominating Committee proposed and the Board of Directors adopted the Policy on Director Nominations, Communications with Shareholders, Attendance at the Annual Meeting, and Provision of Certain Company Information. In summary, this policy provides as follows:

- The Nominating Committee welcomes and encourages recommendations of director candidates from Digimarc's stockholders, and will consider any director candidates recommended by stockholders of the Company, provided the information regarding director candidates who are recommended by stockholders is submitted to the Nominating Committee in compliance with the terms of its policy.
- Director candidate nominations from stockholders may be submitted at any time, but they must be provided in writing, include prescribed information, and be sent to the Secretary of the Company, at the address of the Company's principal executive offices.
- The Nominating Committee will respond promptly, and in any event, within 60 days of the submission to the Nominating Committee. Interim inquiries with respect to status and timing can be submitted to the Secretary of the Company by phone or electronically.
- The Nominating Committee shall consider a potential candidate's experience, areas of expertise, and other factors relative to the overall composition of the Board of Directors. In evaluating nominees, the Nominating Committee will consider a candidate's independence, character, and acumen and may, if appropriate, establish areas of core competency of the Board of Directors. High personal and professional ethics, integrity and values are important attributes, as are good judgment, sound business experience, and a demonstrated commitment to representing the long-term interests of stockholders. An inquisitive and objective perspective, the ability to make independent analytical inquiries, practical wisdom, and mature judgment are also valued.
- The Nominating Committee will also review from time to time the skills and characteristics necessary and appropriate for directors in the context of the current composition of the Board of Directors, including such factors as business experience, domestic or international background and experience, diversity and diverse perspective, knowledge or experience in areas such as technology, systems integration, operations, finance or marketing, and other skills that would enhance the effectiveness of the Board of Directors. The Nominating Committee will also consider that a majority of Board of Directors must be independent pursuant to Marketplace Rule 4200 of the National Association of Securities Dealers, Inc., and as such, the overall composition of the Board of Directors is also a consideration.
- Directors are expected to devote sufficient time to carry out their duties and responsibilities effectively, ensure that other existing and planned future commitments do not materially interfere

with his/her service as a director, and attend at least 75% of all Board of Directors and applicable committee meetings.

- The Nominating Committee's process for identifying and evaluating nominees for director, including nominees recommended by stockholders, involves compiling names of potentially eligible candidates, vetting those candidates against the factors described above, conducting background and reference checks, conducting interviews with candidates, meeting to consider and approve final candidates and, as appropriate, preparing and presenting to the Board of Directors an analysis with regard to a candidate. There are no differences in the manner in which the Nominating Committee evaluates nominees for director based on whether the nominee is recommended by a stockholder.

Recruitment of New Directors

The Nominating Committee recruited three new directors to the Board during 2005. These new directors were Mr. Whitney, Mr. Miller and Mr. Waterhouse.

Process for Stockholders to Send Information to the Board of Directors

The Board of Directors solicits and encourages all forms of information to be provided to the Board of Directors and/or its members. All such communications shall be in written form, addressed to the Board of Directors or to one or more individual members of the Board of Directors, and sent care of the Secretary of the Company, at the address of the Company's principal executive offices or via fax to (503) 469-4771. The Secretary of the Company shall promptly provide all such communication to the applicable member(s) of the Board of Directors or the entire Board of Directors.

Policy Regarding Board Member Attendance At Annual Meetings

The policy of the Board of Directors with regard to attendance by members of the Board of Directors at annual meetings is to encourage attendance at such annual meetings. Candidates for election to the Board of Directors should exercise their best efforts to attend the annual meeting. Messrs. Davis and Richardson attended the 2005 annual meeting of stockholders.

Merger of Nominating Committee

Upon the recommendation of the Committee, the Board of Directors has merged the Nominating Committee and the Corporate Governance Committee into a new Governance and Nominating Committee, effective January 1, 2006. The charter for the merged committee can be found on the Digimarc website at www.digimarc.com on the Corporate Governance page.

**REPORT OF THE CORPORATE GOVERNANCE COMMITTEE
OF THE BOARD OF DIRECTORS**

Throughout 2005, we had a Corporate Governance Committee of the Board of Directors (the Corporate Governance Committee) which had responsibility for overseeing the quality and integrity of the corporate governance practices of the Company, and such other duties and functions as directed by the Board of Directors from time to time or as are consistent with its charter, the Company's Amended and Restated Bylaws, as amended, and governing law, rules and regulations. The Corporate Governance Committee's role includes the review, monitoring, and general oversight regarding corporate policies and procedures involving corporate governance and compliance with significant legal, ethical, and regulatory requirements. The Corporate Governance Committee is directly responsible for oversight of the Company's corporate and other compliance programs. This oversight responsibility includes monitoring compliance with the Sarbanes-Oxley Act of 2002. The Corporate Governance Committee also oversees the structure and evaluation of the Board of Directors and its committees, and the development, monitoring, and enforcement of the corporate governance principles applicable to the Company. The Corporate Governance Committee also served as our Qualified Legal Compliance Committee throughout this period. The Corporate Governance Committee is comprised of independent, non-employee members of the Board of Directors.

The Corporate Governance Committee and the Board of Directors adopted a set of Corporate Governance Guidelines, attached to the 2004 Proxy Statement as Exhibit E, which can be found on the Digimarc website at www.digimarc.com on the Corporate Governance page. These Corporate Governance Guidelines are intended to provide a framework for the Board of Directors to assist in the governance and oversight of the affairs of the Company. Among other things, the Corporate Governance Guidelines provide that directors are expected, through participation as a member of the Board of Directors and its assigned committees, to:

- Exercise their business judgment in what they reasonably believe to be in the best interests of the Company and its stockholders.
- Prepare for, attend and participate in Board of Directors and applicable committee meetings to the maximum extent possible, and perform as appropriate general oversight responsibilities in a number of specific areas, including evaluating management performance, operating results, strategic direction, and risks and their mitigation.
- Oversee the performance, qualifications and selection of members of the Board of Directors and its committees.
- Assure the independence of the members of the Audit, Compensation, Corporate Governance, and Nominating Committees of the Board of Directors.
- Meet in executive session at regular intervals without the attendance or participation of management.
- Schedule meetings on a regular basis, participate in the setting of the agenda, and receive and evaluate appropriate information in advance of the meeting.
- Have full and free access to senior management and any other employees of the Company, with or without senior management present.
- Oversee the Company's ethics programs, ethics hotline, and programs to prevent violations of policies involving conflicts of interest, loans to officers and employees, insider trading, blackout periods, and other compliance policies.

- Establish procedures for confidential or anonymous reporting by anyone who has a concern about the Company's financial conduct or about its accounting, internal accounting controls or auditing matters, or about its policies and procedures involving corporate reporting and compliance directly to the independent directors or applicable committees.
- Enforce the prohibition against the Company or any employee from retaliating or taking any adverse action against anyone for raising or helping to resolve an integrity concern.

In furtherance of the Company's commitment to upholding the highest legal and ethical conduct in fulfilling its responsibilities, the Board of Directors adopted three codes of ethics and business conduct. In particular, Digimarc adopted:

- A Code of Business Conduct, attached to the 2004 Proxy Statement as Exhibit F, which can be found on the Digimarc website at www.digimarc.com on the Corporate Governance page. The Code of Business Conduct applies to all employees of Digimarc and its subsidiaries, as well as to directors, temporary contractors, and other independent contractors or consultants when engaged by or otherwise representing Digimarc or its interests, and sets forth internal policies and guidelines designed to support and encourage ethical conduct and compliance with the laws, rules and regulations that govern the Company's business operations.
- A Code of Ethics for Financial Personnel, attached to the 2004 Proxy Statement as Exhibit G, which can be found on the Digimarc website at www.digimarc.com on the Corporate Governance page. The Code of Ethics applies to the principal executive officer and principal financial officer of Digimarc and its subsidiaries and all professionals worldwide serving in finance, accounting, treasury, tax or investor relations roles.
- Standards of Professional Conduct for Legal Personnel, attached to the 2004 Proxy Statement as Exhibit H, which can be found on the Digimarc website at www.digimarc.com on the Corporate Governance page. These Standards of Professional Conduct apply to all lawyers who perform services for the Company, and require lawyers to report evidence of any material violation of law either to the Company's Qualified Legal Compliance Committee or up the corporate ladder until the attorney receives an appropriate response.

The Corporate Governance Committee and the Audit Committee monitor compliance with the Code of Business Conduct, the Code of Ethics for Financial Personnel, the Standards of Professional Conduct for Legal Personnel, and other internal policies and guidelines. This includes overseeing the Company's Ethics Program, which includes a comprehensive and anonymous Internet and telephone-based reporting tool that assists management and employees to work together to address complaints regarding accounting, internal audit controls and fraud, and investigating complaints, when appropriate information is brought to the attention of the particular committee.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Investors' Rights Agreements

On October 20, 2000, the Company entered into a Strategic Investment Agreement with Macrovision Corporation. Under the terms of this agreement, if we propose to register any of our securities under the Securities Act of 1933, as amended, for the purpose of a public offering of securities of the Company (including, but not limited to, registration statements relating to secondary offerings of securities of the Company, but excluding registration statements relating to acquisitions by the Company, employee benefit plans and corporate reorganizations), we must give Macrovision 30 days' prior notice of registration and include a portion of its shares of common stock in the registration. Additionally, upon written demand of Macrovision, we will be required to file a registration statement on Form S-3 or any similar short-form registration statement if requested to do so by Macrovision, provided that the aggregate offering price for

the securities to be sold is more than \$1,000,000. Furthermore, we are only required to effect two demand registrations on Form S-3 within any 12-month period. Macrovision cannot demand that we file a registration statement prior to the date 180 days following the effective date of any registration statement filed by us.

On October 20, 2000, the Company entered into a Strategic Investment Agreement with Koninklijke Philips Electronics N.V. Under the terms of this agreement, if we propose to register any of our securities under the Securities Act of 1933, as amended, for the purpose of a public offering of securities of the Company (including, but not limited to, registration statements relating to secondary offerings of securities of the Company, but excluding registration statements relating to acquisitions by the Company, employee benefit plans and corporate reorganizations), we must give Philips 30 days prior notice of registration and include a portion of its shares of common stock in the registration. Additionally, upon written demand of Philips, we will be required to file a registration statement on Form S-3 or any similar short-form registration statement if requested to do so by Philips, provided that the aggregate offering price for the securities to be sold is more than \$1,000,000. Furthermore, we are only required to effect two demand registrations on Form S-3 within any 12-month period. Philips cannot demand that we file a registration statement prior to the date 180 days following the effective date of any registration statement filed by us.

All expenses in effecting these registrations will be borne by the Company, excluding underwriting discounts, selling commissions and stock transfer taxes, which shall be borne proportionately by the holders of the securities that have been registered. These registration rights are subject to conditions and limitations, among them the right of the underwriters of an offering to limit the number of shares included in the registration. The Company has agreed to indemnify each of Macrovision and Philips with respect to these registration rights, and each of Macrovision and Philips has agreed to indemnify the Company, against liabilities under the Securities Act of 1933, as amended, the Securities Exchange Act of 1934, as amended, or other applicable federal or state law.

Transactions with Directors and Executive Officers

Under Section 145 of the General Corporation Law of the State of Delaware, the Company has broad powers to indemnify its directors and officers against liabilities they may incur in such capacities, including liabilities under the Securities Act of 1933, as amended. Section 7 of the Company's Second Amended and Restated Certificate of Incorporation, as amended, provides that, to the fullest extent permitted by Delaware statutory or decisional law, as amended or interpreted, no directors of the Company shall be personally liable to the Company or its stockholders for monetary damages for breach of fiduciary duty as a director. Article IX of the Company's Amended and Restated Bylaws, as amended, also provides for mandatory indemnification of its directors, officers, employees and agents to the fullest extent permissible under General Corporation Law of the State of Delaware. Delaware law provides that directors of a company will not be personally liable to the company or its stockholders for monetary damages for breach of their fiduciary duties as directors, except liability for (a) any breach of their duty of loyalty to the company or its stockholders, (b) acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law, (c) unlawful payments of dividends or unlawful stock repurchases or redemptions or (d) any transaction from which the directors derived an improper personal benefit. The Amended and Restated Bylaws, as amended, further provide that such right of indemnification shall continue as to a person who has ceased to be a director, officer, employee or agent of the Company. Responsibility for determinations with respect to such indemnification will be made by the Company's Board of Directors.

The Company has entered into an agreement with each of its directors and executive officers that requires the Company to indemnify such persons against any expense, liability or loss, including attorneys' fees, judgments, fines, ERISA excise taxes and penalties, amounts paid or to be paid in settlement, any interest, assessments or other charges imposed thereon, and any federal state, local or foreign taxes

imposed as a result of the actual or deemed receipt of any payment under such agreement, paid or incurred in connection with investigating, defending, being a witness in, or participating in, or preparing for any of the foregoing in, any proceeding relating to any event or occurrence by reason of the fact that such person is or was a director or officer of the Company, or is or was serving at the request of the Company in certain capacities. The indemnification agreements also set forth certain procedures that will apply in the event of a claim for indemnification thereunder. The Company also has obtained a policy of directors' and officers' liability insurance that insures the Company's directors and officers against the cost of defense, settlement or payment of a judgment under certain circumstances.

All related party transactions between the Company and its officers, directors, principal stockholders and affiliates will be reviewed, considered, and approved, rejected or qualified by the Corporate Governance Committee, a committee of the Board of Directors, the membership of which is a majority of the disinterested, non-employee directors on the Board of Directors. The Corporate Governance Committee has determined, as a general rule, that transactions between the Company and its officers, directors, principal stockholders and affiliates should be on terms no less favorable to the Company than could be obtained from unaffiliated third parties.

Legal Proceedings

On or about October 19, 2004, two purported shareholder derivative lawsuits were filed against certain of the Company's officers and directors, naming the Company as a nominal defendant, in the Superior Court of the State of California for the County of San Luis Obispo. These lawsuits were consolidated into one action for all purposes on March 14, 2005. On July 19, 2005, the court granted the Company's motion to stay these consolidated actions in favor of a shareholder derivative action to be filed by plaintiffs in the Circuit Court of the State of Oregon for the County of Washington. On August 25, 2005, the California plaintiffs filed two new derivative lawsuits in the United States District Court for the District of Oregon. On October 17, 2005, defendants filed a motion to dismiss these complaints for lack of subject matter jurisdiction and failure to state a claim. This motion currently is pending. Separately, on November 8, 2004, a letter was mailed to the chairman of the Company's Board of Directors by a law firm purporting to represent a shareholder of the Company, demanding that the board commence a civil action against each of the directors and officers on behalf of the Company to recover for damages alleged to have been incurred as a result of alleged breaches of fiduciary duties. On or about April 6, 2005, this shareholder filed a purported shareholder derivative suit against certain of the Company's officers and directors, naming the Company as a nominal defendant, in the Circuit Court of the State of Oregon for the County of Washington. On August 25, 2005, the individual defendants filed a motion to stay this state court derivative lawsuit, and on September 26, 2005, the court entered a stipulated order granting the motion and staying the case pending the outcome of an investigation by a committee appointed by the Company's Board of Directors of the claims asserted in the demand letter and in the derivative lawsuits. That stay expired on February 28, 2006, and defendants have until March 31, 2006 to respond to the complaints in this lawsuit. These suits claim that certain of these officers and directors breached their fiduciary duties to the Company's shareholders and to the Company. The complaints are derivative in nature and do not seek relief from the Company. The Company's Board of Directors has appointed a committee to investigate the claims asserted in the demand letter and in the derivative lawsuits.
