Press release

MTS Refinances Sberbank Loans

December 13, 2010

Moscow, Russian Federation Mobile TeleSystems OJSC (MTS NYSE: MBT), the leading telecommunications provider in Russia and the CIS, announces that it has signed an agreement with Sberbank to open two non-revolving lines of credit for a total amount of RUB 100 billion.

The two lines of credit are in the amount of RUB 60 billion and RUB 40 billion each. The RUB 60 billion line will be used to pay down the outstanding RUB 53 billion in loans to Sberbank. The RUB 40 billion line will be used as a cash cushion given the potential creditor puts arising from the merger with Comstar-UTS as well as for 3G investments in 2011. Both lines carry an annual interest rate of 8.95% with quarterly payments and a 7-year tenor. It is expected that the RUB 60 billion credit line will be opened immediately.

Alexey Kornya, Vice President and Chief Financial Officer of MTS, commented, "In line with MTS' strategy of optimizing its debt profile, we are refinancing the existing debt with longer term and lower cost capital. The size and terms of this latest agreement are indicative of the strength of MTS' financial standing and the Company's ability to attract resources on favorable terms."

Some of the information in this press release may contain projections or other forward-looking statements regarding future events or the future financial performance of MTS, as defined in the safe harbor provisions of the U.S. Private Securities Litigation Reform Act of 1995. You can identify forward looking statements by terms such as expect, believe, anticipate, estimate, intend, will, could, may or might, and the negative of such terms or other similar expressions. We wish to caution you that these statements are only predictions and that actual events or results may differ materially. We do not undertake or intend to update these statements to reflect events and circumstances occurring after the date hereof or to reflect the occurrence of unanticipated events. We refer you to the documents MTS files from time to time with the U.S. Securities and Exchange Commission, specifically the Company's most recent Form 20-F. These documents contain and identify important factors, including those contained in the section captioned Risk Factors that could cause the actual results to differ materially from those contained in our projections or forward-looking statements, including, among others, the severity and duration of current economic and financial conditions, including volatility in interest and exchange rates, commodity and equity prices and the value of financial assets; the impact of Russian, U.S. and other foreign government programs to restore liquidity and stimulate national and global economies, our ability to maintain our current credit rating and the impact on our funding costs and competitive position if we do not do so, strategic actions, including acquisitions and dispositions and our success in integrating acquired businesses, including Comstar-UTS, potential fluctuations in quarterly results, our competitive environment, dependence on new service development and tariff structures, rapid technological and market change, acquisition strategy, risks associated with telecommunications infrastructure, governmental regulation of the telecommunications industries and other risks associated with operating in Russia and the CIS, volatility of stock price, financial risk management and future growth subject to risks.
