Integration Planning Activity Update

- After careful consideration and a thorough analysis, the integration planning teams decided Lawson will be the finance and accounting system that will serve as the post-close common platform. An integration planning team consisting of members from Kinder Morgan's and El Paso's finance, accounting, IT and HR organizations has been meeting over the past several weeks to determine how best to leverage the functionality and capabilities of our respective systems to ensure a seamless and effective transition to Kinder Morgan's single and common system, backed by standardized business practices. The target implementation date is July 1, 2012, pending close of the transaction, which is expected in the second quarter.
- We continue to evaluate various factors related to the location of the corporate headquarters for the combined company and we intend to announce that decision soon.
- We are finalizing the details of the common benefits plans for all employees of the combined company. These new benefits plans will be communicated to Kinder Morgan and El Paso employees in late February or early March.
- On Jan. 25, Rich Kinder and other Kinder Morgan executives are scheduled to address more than 200 of El Paso's natural gas pipeline operations employees who will be in Houston for a meeting. Rich and other Kinder Morgan executives also plan to meet with El Paso employees at El Paso's Colorado Springs, Colo., and Birmingham, Ala., offices in the first quarter. The dates will be announced soon.
- Kinder Morgan teams are focused on communicating to El Paso management and employees more about Kinder Morgan who we are, what we do and why we do things the way we do. Additionally, Kinder Morgan teams are sharing with El Paso employees some of the processes that are important to the way we operate our business, such as various financial and operations reporting processes. Communicating these processes to El Paso employees will make the transition easier and allow the employees of the combined company to hit the ground

running once the transaction closes.
