The Company is filing to this Form 8-K its Quarter Ended December 31, 2002 Earnings Announcement, Unaudited Consolidated Statement of Earnings, Unaudited Consolidated Balance Sheets; Unaudited Consolidated Statement of Cash Flows; Comparative Operating Statistics and Other Select Financial Information.

Edgar Filing: PNM RESOURCES - Form 8-K

PNM Resources Reports 2002 Earnings

Highlights:

- o GAAP 2002 net earnings of \$1.61 per diluted share, compared to \$3.77 per share in 2001.
- o 2002 results included net one-time charges against earnings of \$0.20 per share; ongoing earnings for the year totaled \$1.81 per share.
- o Fourth Quarter 2002 GAAP net earnings of \$0.26 per diluted share, compared to \$0.11 per share in the final quarter of 2001.
- o Total operating revenues for 2002 of \$1.17 billion, compared to \$2.35 billion in the previous year.
- o Retail electric revenues increased 2.7 percent in 2002, to \$546.9 million, on retail sales of 7.4 million megawatt-hours (MWh).
- o Wholesale electric revenues for 2002 dropped 76.9 percent, to \$325.4 million, on a 24.9 percent decrease in MWh sales.

ALBUQUERQUE, N.M., February 11, 2003 - PNM Resources (NYSE: PNM) today reported consolidated net earnings available for common stock for the year ended December 31, 2002, of \$63.7 million, or \$1.61 per diluted share. In 2001, the company reported consolidated net earnings available for common stock of \$149.8 million, or \$3.77 per diluted share. For the quarter ended Dec. 31, 2002, the company reported earnings of \$0.26 per diluted share, compared to \$0.11 per diluted share in the final three months of 2001. A one-time gain and various one-time charges reduced 2002 earnings by a net of \$0.20 per share, including net charges of \$0.06 per share in the fourth quarter. Ongoing earnings were \$1.81 per share for the year and \$0.32 per share for the final quarter, compared to ongoing earnings of \$4.52 per share for all of 2001 and \$0.20 per share in the final quarter of 2001.

"In 2002, the upheaval in the wholesale power market caused a general decline in prices and sales activity," said PNM Resources Chairman, President and Chief Executive Officer Jeff Sterba.

2

"Fortunately, PNM was not overextended, and our strategic plan has never depended on the short-term ups and downs in the power market," Sterba continued. "As a result, we finished the year with a healthy, investment-grade balance sheet, supported by the continuing steady cash flow and earnings from our electric and gas utility. We remain committed to participating in the wholesale power business as an asset-backed marketer, and we are well-positioned to benefit when that market regains equilibrium."

PERFORMANCE SUMMARY

PNM electric gross margin (Electric Operating Revenues less Fuel and Purchased Power Expense) for the fourth quarter 2002 was \$122.9 million, an increase of approximately \$7.1 million from the \$115.8 million reported in the comparable period last year. Electric gross margin was \$485.3 million for all of 2002, compared to \$679.9 million in 2001.

Gas gross margin (Gas Operating Revenues less Gas Purchased for Resale) was \$39.1 million in the final quarter of 2002, compared to \$36.0 million in the fourth quarter of 2001. Gas gross margin was \$133.1 million for the full year 2002, compared to \$134.1 million in 2001.

Non-fuel operations and maintenance (O&M) expense fell slightly for the latest quarter and decreased 4.6 percent for the full year compared to the same periods in 2001. In the latest quarter, the company recorded a one-time charge against earnings of \$1.6 million, or \$0.03 a share, due to severance costs related to a reduction in work force at Palo Verde Nuclear Generating Station and the Four Corners Power Plant in 2002. The company also recorded a charge of \$4.8 million, or \$0.07 a share, related to the cancellation of a planned transmission line project in northern New Mexico. Finally, in the fourth quarter the company also recorded a one-time gain of \$2.4 million, or \$0.04 cents a share to reflect the successful outcome of litigation stemming from the terminated transaction with Western Resources. In the final quarter of 2001, the company reported a one-time charge of \$10.0 million, or \$0.09 per share, in connection with that same transaction.

Other Recent Significant Developments

PNM Resources has recently announced several significant developments designed to lay the groundwork for future growth in revenues and earnings:

- o On January 28, New Mexico regulators approved an agreement lowering PNM electric rates by \$21 million in September 2003 and by another \$14 million in 2005. Rates will then be frozen at that level until at least 2008.

3

- o Also in January, PNM began providing 80 Megawatts of power to the U.S. Navy facilities in San Diego. The contract, which runs through March 2005, is expected to gross \$42 million annually in revenues.
- o At the end of 2002, PNM negotiated an expanded, \$195 million revolving credit agreement with a group of 11 lenders.
- o In December 2002, the company also acquired one of two leases of a transmission line connecting the PNM system with the Texas electrical grid to the east. Purchasing the lease will allow PNM to retire approximately \$26 million in long-term lease bonds paying an interest rate of 10.25 percent.

Details of these announcements and other PNM Resources news are available at the company's website, pnm.com.

Earnings Guidance for 2003

Edgar Filing: PNM RESOURCES - Form 8-K

Based on its financial and operating forecasts, the company expects 2003 ongoing earnings will be in the range of between \$1.80 and \$2.05 per diluted share, not including a one-time charge of \$16.7 million, or \$0.26 per share the company plans to take in the first quarter 2003 as a result of the electric rate agreement approved by the New Mexico Public Regulation Commission (PRC) in January 2003. The company expects that 2003 earnings will benefit from lower fuel costs stemming from reduced coal costs for San Juan Generating Station, increased revenues from the company's wholesale power marketing business and from continued load growth in the PNM New Mexico service territory. In the final quarter of 2003, earnings will be reduced \$5 million with implementation of the decrease in retail electric rates approved by the PRC in January.

Earnings Teleconference Scheduled

PNM Resources has scheduled a teleconference for 9:00 a.m. Eastern Time on Wednesday, February 12, to discuss 2002 earnings and other issues of interest to shareholders and investors. The public is invited to listen to the teleconference by calling 1-973-317-5319. A webcast of the PNM Resources quarterly earnings presentation can be accessed through the company's website at pnm.com. A replay of the conference call will be available beginning at 11:00 a.m. (ET) on February 12 through 11:00 p.m. (ET) February 19, 2003, at 1-973-709-2089 (passcode 274494).

PNM Resources is an energy holding company based in Albuquerque, New Mexico. PNM, the principal subsidiary of PNM Resources, provides natural gas service to 441,000 gas customers and electric utility service to 378,000 customers in New Mexico. The company also sells power on the wholesale market in the Western U.S. PNM Resources stock is traded primarily on the NYSE under the symbol PNM.

Safe Harbor Statement under the Private Securities Litigation Reform Act of 1995

Statements made in this filing that relate to future events are made pursuant to the Private Securities Litigation Reform Act of 1995. These forward-looking statements are based upon current expectations and the company assumes no obligation to update this information. Because actual results may differ materially from expectations, the company cautions readers not to place undue reliance on these statements. Future financial results will be affected by a number of factors, including interest rates, weather, fuel costs, changes in supply and demand in the market for electric power, wholesale power prices, market liquidity, the competitive environment in the electric and natural gas industries, the performance of generating units and transmission system, state

4

and federal regulatory and legislative decisions and actions, and the performance of state, regional and national economies. For a detailed discussion of the important factors affecting PNM Resources, please see "Management's Discussion and Analysis of Financial Condition and Results of Operations" in the Company's Form 10-K for the year ended December 31, 2001, Form 10-Q for the quarter ended September 30, 2002 and Form 8-K filings with the Securities and Exchange Commission.

Table 7. Pension & Health Care Costs

	2002	2003
Pension	\$ (1,392,382)	\$ 3,800,000
Health Care	\$11,350,240	\$12,993,212

The increase in pension expense is due to the dramatic decline in the capital markets during the last two years. Pension expense is expected to decline in future years. The Company is considering additional funding in
