Table of Contents

Notes to Consolidated Schedule of Investments

a)Equity

The percentages in the “Equity” column express equity interests held in each issuer collectively by each of Capital Southwest Corporation and its wholly-owned subsidiary, Capital Southwest Venture Corporation (together with Capital Southwest Corporation, the “Company”). Each percentage represents the amount of the issuer’s common stock owned by the Company or which the Company has the right to acquire as a percentage of the issuer’s total outstanding common stock, on a fully diluted basis.

(b)Investments

Unrestricted securities (indicated by ‡) are freely marketable securities having readily available market quotations. All other securities are restricted securities, which are subject to one or more restrictions on resale and are not freely marketable. At September 30, 2014 and March 31, 2014, restricted securities represented approximately 81.1% and 67.5%, respectively, of the value of the consolidated investment portfolio.

Our investments are carried at fair value in accordance with the Investment Company Act of 1940 (the “1940 Act”) and FASB Accounting Standards Codification (“ASC”) 820, Fair Value Measurements and Disclosures. In accordance with the 1940 Act, unrestricted minority-owned publicly traded securities, for which the market quotations are readily available, are valued at the closing sale price for the NYSE listed securities and the lower of the closing bid price or the last sale price for NASDAQ securities on the valuation date. Privately held securities are valued as determined in good faith by our Board of Directors.

ASC 820 defines fair value in terms of the price that would be received upon the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date and excludes transaction costs. Under ASC 820, the fair value measurement also assumes that the transaction to sell an asset occurs in the principal market for the asset or, in the absence of a principal market, the most advantageous market for the asset. The principal market is the market in which the reporting entity would sell or transfer the asset with the greatest volume and level of activity for the asset. In determining the principal market for an asset or liability under ASC 820, it is assumed that the reporting entity has access to the market as of the measurement date.

(c)Value

Debt Securities are generally valued on the basis of the price the security would command in order to provide a yield-to-maturity equivalent to the present yield of comparable debt instruments of similar quality. Issuers whose debt securities are judged to be of poor quality and doubtful collectability may instead be valued by assigning percentage discounts commensurate with the quality of such debt securities. Debt securities may also be valued based on the resulting value from the sale of the business at the estimated fair market value.

Partnership interests, preferred equity and common equity, including unrestricted marketable securities, are valued at the closing sale price for the NYSE listed securities and the lower of the closing bid price or the last sale price for NASDAQ securities on the valuation date. For those without a principal market, our Board of Directors considers the financial condition and operating results of the issuer; the long-term potential of the business of the issuer; the market for and recent sales prices of the issuer’s securities; the values of similar securities issued by companies in similar businesses; and the proportion of the issuer’s securities owned by the Company. Investments in certain entities that calculate net asset value per share (or its equivalent) and for which fair market value is not readily determinable are valued using the net asset value per share (or its equivalent, such as member units or ownership interest in partners’ capital to which a proportionate share of net assets is attributed) of the investment.

Table of Contents

Equity warrants are valued on the basis of the Black-Scholes model which defines the market value of a warrant in relation to the market price of the underlying common stock, share price volatility, and time to maturity.

(d) Agreements between Certain Issuers and the Company

Agreements between certain issuers and the Company provide that the issuer will bear substantially all costs in connection with the Company disposing of such common stock, including those costs involved in registration under the Securities Act of 1933, but excluding underwriting discounts and commissions. These agreements cover common stock owned at September 30, 2014 and common stock which may be acquired thereafter through the exercise of warrants and conversion of debentures and preferred stock. They apply to restricted securities of all issuers in the investment portfolio of the Company, except for securities of the Whitmore Manufacturing Company.

(e) Descriptions and Ownership Percentages

The descriptions of the companies and ownership percentages shown in the Consolidated Schedule of Investments were obtained from published reports and other sources believed to be reliable. Acquisition dates indicated are the dates specific securities were acquired, which may differ from the original investment dates. Certain securities were received in exchange for or upon conversion or exercise of other securities previously acquired.

Notes to Consolidated Financial Statements

1. ORGANIZATION AND BASIS OF PRESENTATION

Organization

Capital Southwest Corporation (“CSWC”) is a publicly traded investment company whose objective is to achieve capital appreciation through long-term investments in privately held businesses. Our investment interests are focused on acquisitions and investments in a broad range of industry segments. We were organized as a Texas corporation on April 19, 1961. Until September 1969, CSWC operated as a licensee under the Small Business Investment Act of 1958. At that time, we transferred to our wholly-owned subsidiary, Capital Southwest Venture Corporation (“CSVC”), certain assets and our license as a small business investment company (“SBIC”). CSVC is a closed-end, non-diversified investment company registered under the Investment Company Act of 1940, as amended (the “1940 Act”). Prior to March 30, 1988, CSWC was registered as a closed-end, non-diversified investment company under the 1940 Act. On that date, CSWC elected to become a Business Development Company (“BDC”) subject to the provisions of the 1940 Act, as amended by the Small Business Incentive Act of 1980. Because CSWC wholly owns CSVC, the portfolios of both CSWC and CSVC are referred to collectively as “our,” “we” and “us.” Capital Southwest Management Company (“CSMC”), a wholly-owned subsidiary of CSWC, is the management company for CSWC and CSVC. CSMC generally incurs all normal operating and administrative expenses, including, but not limited to, salaries and related benefits, rent, equipment and other administrative costs required for its day-to-day operations.

Our portfolio consists of private companies in which we have controlling interests, private companies in which we have minority interests and marketable securities of publicly traded companies. We make available significant managerial assistance to the companies in which we invest and believe that providing managerial assistance to such investee companies is critical to their business development activities. CSMC receives a monthly fixed fee for management services provided to certain of its controlled portfolio companies.

Basis of Presentation

The consolidated financial statements have been prepared in accordance with generally accepted accounting principles in the United States of America (GAAP). Under rules and regulations applicable to investment companies, we are precluded from consolidating any entity other than another investment company. An exception to this general principle occurs if the investment company has an investment in an operating company that provides services to the investment company. Accordingly, consolidated financial statements include CSMC, our management company.

Portfolio Investment Classification

We classify our investments in accordance with the requirements of the 1940 Act. Under the 1940 Act, “Control Investments” are defined as investments in which we own more than 25% of the voting securities or have rights to maintain greater than 50% of the board representation; “Affiliated Investments” are defined as investments in which we own between 5% and 25% of the voting securities; and “Non-Control/Non-Affiliated Investments” are defined as investments that are neither “Control Investments” nor “Affiliated Investments.”

Table of Contents

2.SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies followed in the preparation of the consolidated financial statements of CSWC.

Fair Value Measurements. ASC Topic 820 (1) creates a single definition of fair value, (2) establishes a framework for measuring fair value, and (3) expands disclosure requirements about items measured at fair value. This statement applies to both items recognized and reported at fair value in the financial statements and items disclosed at fair value in the notes to the financial statements. The Statement does not change existing accounting rules governing what can or what must be recognized and reported at fair value in our financial statements, or disclosed at fair value in our notes to financial statements. Additionally, ASC Topic 820 does not eliminate practicability exceptions that exist in accounting pronouncements amended by this Statement when measuring fair value.

Fair value is generally determined based on quoted market prices in the active markets for identical assets or liabilities. If quoted market prices are not available, we use valuation techniques that place greater reliance on observable inputs and less reliance on unobservable inputs. Due to the inherent uncertainty in the valuation process, our estimate of fair value may differ materially from the values that would have been used had a ready market for the securities existed. In addition, changes in the market environment, portfolio company performance and other events may occur over the lives of the investments that may cause the gains or losses ultimately realized on these investments to be materially different than the valuations currently assigned. We determine the fair value of each individual investment and record changes in fair value as unrealized appreciation or depreciation.

Pursuant to our internal valuation process, each portfolio company is valued once a quarter. In addition to our internal valuation process, our Board of Directors retains a nationally recognized firm to provide limited scope third party valuation services on certain portfolio investments. Our Board of Directors retained Duff & Phelps to provide limited scope third party valuation services on three investments comprising 57.3% of our net asset value at March 31, 2014.

We believe our investments at September 30, 2014 and March 31, 2014 approximate fair value as of those dates based on the markets in which we operate and other conditions in existence at those reporting periods.

Investments. Investments are stated at fair value determined by our Board of Directors as described in Notes to the Consolidated Schedule of Investments and Note 3 below. The average cost method is used in determining cost of investments sold. Investments are recorded on a trade date basis.

Cash and Cash Equivalents. Cash and cash equivalents consist of highly liquid investments with an original maturity of three months or less at the date of purchase. Cash and cash equivalents are carried at cost, which approximates fair value.

Segment Information. We operate and manage our business in a single segment. As an investment company, we invest in portfolio companies in various industries and geographic areas as presented in the Consolidated Schedule of Investments.

Use of Estimates. The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Table of Contents

Interest and Dividend Income. Interest and dividend income is recorded on an accrual basis to the extent amounts are expected to be collected. Dividend income is recorded at the ex-dividend date for marketable securities and restricted securities. In accordance with our valuation policy, accrued interest and dividend income is evaluated periodically for collectability. When we do not expect the debtor to be able to service all of its debt or other obligations, we will generally establish a reserve against interest income, thereby placing the loan or debt security's status on a non-accrual basis, and cease to recognize interest income on that loan or debt security until the borrower has demonstrated the ability and intent to pay contractual amounts due. If a loan or debt security's status significantly improves regarding ability to service debt or other obligations, it will be restored to accrual basis.

Federal Income Taxes. CSWC and CSVC have elected and intend to comply with the requirements of the Internal Revenue Code ("IRC") necessary to qualify as regulated investment companies ("RICs"). By meeting these requirements, they will not be subject to corporate federal income taxes on ordinary income distributed to shareholders. In order to comply as a RIC, each company is required to timely distribute to its shareholders at least 90% of investment company taxable income, as defined by the IRC, each year. Investment company taxable income generally differs from net income for financial reporting purposes due to temporary and permanent differences in the recognition of income and expenses. Investment company taxable income generally excludes net unrealized appreciation or depreciation, as investment gains and losses are not included in investment company taxable income until they are realized.

In addition to the requirement that we must annually distribute at least 90% of our investment company taxable income, we may either distribute or retain our realized net capital gains from investments, but any net capital gains not distributed may be subject to corporate level tax. During the six months ended September 30, 2014, we did not distribute any capital gain dividends to our shareholders. When we retain the capital gains, they are classified as a "deemed distribution" to our shareholders and are subject to our corporate tax rate of 35%. As an investment company that qualifies as a RIC under the IRC, federal income taxes payable on security gains that we elect to retain are accrued only on the last day of our tax year, December 31. Any capital gains actually distributed to shareholders are generally taxable to the shareholders as long-term capital gains. See Note 4 for further discussion.

CSMC, a wholly-owned subsidiary of CSWC, is not a RIC and is required to pay taxes at the current corporate rate of 35%.

We account for interest and penalties as part of operating expenses. There were no interest or penalties incurred during six months ended September 30, 2014 and 2013.

Deferred Taxes. CSMC sponsors a qualified defined benefit pension plan which covers its employees and employees of certain wholly-owned portfolio companies. In addition, CSMC records phantom stock options and bonus accruals on a quarterly basis. Deferred taxes related to the qualified defined pension plan, phantom stock options and bonus accruals are recorded as incurred.

Stock-Based Compensation. We account for our stock-based compensation using the fair value method, as prescribed by ASC 718, Compensation – Stock Compensation. Accordingly, we recognize stock-based compensation cost over the straight-line method for all share-based payment awards granted to employees. The fair value of stock options are determined on the date of grant using the Black-Scholes pricing model and are expensed over the vesting period of the related stock options. For restricted stock awards, we measured the grant date fair value based upon the market price of our common stock on the date of the grant and will amortize this fair value to share based compensation expense over the vesting term. For phantom stock options, the option value of phantom stock awards is calculated based on our net asset value. We value the plan each quarter and either increase or decrease the liability based on the phantom option value. See Note 6 for further discussion.

Table of Contents

Retirement Plans. We record annual amounts relating to the pension plans based on calculations and various actuarial assumptions. Material changes in pension costs could occur due to changes in the discount rate, the expected long-term rate of return, mortality tables, and in the level of contributions to the plans and other factors. The funded status of the qualified plan is the difference between the fair value of plan assets and the benefit obligation. We recognize changes in the funded status of the qualified plan in the Statement of Assets and Liabilities in the year in which the changes occur and measure its assets and obligations as of the date of the employer's fiscal year-end. In addition, CSWC also sponsors an unfunded Retirement Restoration Plan, which is a nonqualified plan that provides for the payment, upon retirement, of the difference between the maximum annual payment permissible under the qualified retirement plan pursuant to Federal limitations and the amount which would otherwise have been payable under the qualified plan. We presently use March 31 as the measurement date for retirement plans.

Concentration of Risk. We place our uninvested cash in financial institutions, and such balances may be in excess of the federally insured limits.

3. INVESTMENTS

We record our investments at fair value as determined in good faith by our Board of Directors in accordance with GAAP. When available, we base the fair value of our investments on directly observable market prices or on market data derived for comparable assets. For all other investments, inputs used to measure fair value reflect management's best estimate of assumptions that would be used by market participants in pricing the investments in a hypothetical transaction.

The levels of fair value inputs used to measure our investments are characterized in accordance with the fair value hierarchy established by ASC. We use judgment and consider factors specific to the investment in determining the significance of an input to a fair value measurement. While management believes our valuation methodologies are appropriate and consistent with market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date. The three levels of the fair value hierarchy and investments that fall into each of the levels are described below:

Level 1: Investments whose values are based on unadjusted quoted prices in active markets for identical assets or liabilities that we have the ability to access. We use Level 1 inputs for publicly traded unrestricted securities. Such investments are valued at the closing price for NYSE listed securities and at the lower of the closing bid price or the closing sale price for NASDAQ securities on the valuation date.

Level 2: Investments whose values are based on observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument in non-active markets, quoted prices for similar instruments in active markets and similar data. We did not value any of our investments using Level 2 inputs as of September 30, 2014.

Level 3: Investments whose values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. These inputs reflect management's own assumptions about the assumptions a market participant would use in pricing the investment. We used Level 3 inputs for measuring the fair value of approximately 81.1% of our investments as of September 30, 2014. See "Notes to Consolidated Schedule of Investments" (c) on page 16 for the investment policy used to determine the fair value of these investments.

Table of Contents

As required by ASC 820, when the inputs used to measure fair value fall within different levels of the hierarchy, the level within the fair value measurement is categorized based on the lowest level input that is significant to the fair value measurement which may include inputs that are observable (Levels 1 and 2) and unobservable (Level 3). Therefore, gains and losses for such investments categorized within the Level 3 table below may include changes in fair value that are attributable to both observable inputs (Levels 1 and 2) and unobservable (Level 3). We conduct reviews of fair value hierarchy classifications on a quarterly basis. Changes in the observability of valuation inputs may result in a reclassification of certain investments.

Unobservable inputs are those inputs for which little or no market data exists and, therefore, require an entity to develop its own assumptions. The fair value determination of each portfolio company requires one or more of the following unobservable inputs:

· Financial information obtained from each portfolio company, including audited and unaudited statements of operations and balance sheets for the most recent period available as compared to budgeted numbers;

· Current and projected financial condition of the portfolio company;

· Current and projected ability of the portfolio company to service its debt obligations;

· Projected operating results of the portfolio company;

· Current information regarding any offers to purchase the investment or recent private sales transactions;

· Current ability of the portfolio company to raise any additional financing as needed;

· Change in the economic environment which may have a material impact on the operating results of the portfolio company;

· Qualitative assessment of key management;

· Contractual rights, obligations or restrictions associated with the investment; and

· Other factors deemed relevant.

Preferred Stock and Common Stock

The significant unobservable inputs used in the fair value measurement of our equity securities are EBITDA multiples, revenue multiples, net book values, tangible book value multiples, and the weighted average costs of capital ("WACC"). Generally, increases or decreases in EBITDA or revenue multiple inputs result in a higher or lower fair value measurement, respectively. Generally, increases or decreases in WACC result in a lower or higher fair value measurement, respectively. However, due to the nature of certain investments, fair value measurements may be based on other criteria, such as third party-appraisals. For recent investments, we generally rely on our cost basis to determine the fair value unless fair value is deemed to have departed from this level.

Table of Contents
Debt Securities

The significant unobservable inputs used in the fair value measurement of our debt securities are risk adjusted discount factors used in the yield valuation technique and probability of principal recovery. A significant increase or decrease in any of these valuation inputs in isolation would result in a significantly lower or higher fair value measurement. However, due to the nature of certain investments, fair value measurements may be based on other criteria, such as third party inputs.

Limited Partnership or Limited Liability Company Interests

For recent investments, we generally evaluate limited partnership or limited liability company interests at cost, which is deemed to represent market value, unless or until there is substantive evidence that cost does not correspond to fair value. Thereafter, these securities are generally valued at our percentage interest of the fund or company's calculated net asset value, unless there is substantive evidence that the net asset value does not correspond to fair value. All investments of each fund are valued by each fund in accordance with ASC 820.

The table below presents the valuation technique and quantitative information about the significant unobservable inputs utilized by the Company to value our Level 3 investments as of September 30, 2014 and March 31, 2014. Unobservable inputs are those inputs for which little or no market data exists and therefore require an entity to develop its own assumptions. The table is not intended to be all inclusive, but instead captures the significant unobservable inputs relevant to our determination of fair value

Type	Valuation Technique	Fair Value at 9/30/2014 (in millions)	Unobservable Input	Range	Weighted Average

4. INCOME TAXES

We operate to qualify as a RIC under Subchapter M of the IRC and have a calendar tax year end of December 31. In order to qualify as a RIC, we must annually distribute at least 90% of our investment company taxable income, as defined by the IRC, to our shareholders in a timely manner. Investment company income generally includes net short-term capital gains but excludes net long-term capital gains. A RIC is not subject to federal income tax on the portion of its ordinary income and long-term capital gains that are distributed to its shareholders, including “deemed distributions” discussed below. As permitted by the Code, a RIC can designate dividends paid in the subsequent tax year as dividends of current year ordinary income and net long-term gains if those dividends are both declared by the extended due date of the RIC’s federal income tax return and paid to shareholders by the last day of the subsequent tax year.

We have distributed or intend to distribute sufficient dividends to eliminate taxable income for our completed tax years. If we fail to satisfy the 90% distribution requirement or otherwise fail to qualify as a RIC in any tax year, we would be subject to tax in such year on all of our taxable income, regardless of whether we made any distributions to our shareholders. For the tax years ended December 31, 2013 and 2012, we declared and paid ordinary dividends in the amounts of \$3,049,614 and \$3,025,032, respectively.

Additionally, we are subject to a nondeductible federal excise tax of 4% if we do not distribute at least 98% of our investment company ordinary taxable income before the end of our tax year. For the tax years ended December 31, 2013 and 2012, we distributed 100% of our investment company ordinary taxable income. As a result, we have made no tax provisions for income taxes on ordinary taxable income for the tax years ended December 31, 2013 and 2012.

A RIC may elect to retain its long-term capital gains by designating them as “deemed distribution” to its shareholders and paying a federal tax rate of 35% on the long-term capital gains for the benefit of its shareholders. Shareholders then report their share of the retained capital gains on their income tax returns as if it had been received and report a tax credit for tax paid on their behalf by the RIC. Shareholders then add the amount of the “deemed distribution” net of such tax, to the basis of their shares.

During our tax year ended December 31, 2013, we sold 9,317,310 shares of common stock of Heelys, Inc. to Sequential Brands Group, Inc. and generated cash proceeds of \$20,963,948 and a capital gain of \$20,861,458. Subsequently, we distributed and paid \$0.69 per share or \$10,474,932 of Heely’s gain to our shareholders on March 28, 2013. For the tax year ended December 31, 2013, we had net long-term capital gains of \$10,819,079 for tax purposes and \$10,491,526 for book purposes, which we elected to retain and treat as deemed distributions to our

shareholders.

25

Table of Contents

In order to make the election to retain capital gains, we incurred federal taxes on behalf of our shareholders in the amount of \$3,786,678 for the tax year ended December 31, 2013. For the tax year ended December 31, 2012, we incurred federal taxes on behalf of our shareholders in the amount of \$1,125,092.

For the quarter ended September 30, 2014 and 2013, CSWC and CSVC qualified to be taxed as RICs. We intend to meet the applicable qualifications to be taxed as a RIC in future years. Management feels it is probable that we will maintain our RIC status for a period longer than one year. However, either company's ability to meet certain portfolio diversification requirements of RICs in future years may not be controllable by such company.

CSMC, a wholly-owned subsidiary of CSWC, is not a RIC and is required to pay taxes at the current corporate rate. CSMC sponsors a qualified defined benefit pension plan which covers its employees and employees of certain wholly-owned portfolio companies. In addition, CSMC records phantom stock option and bonus accruals on a quarterly basis. Deferred taxes related to the qualified defined benefit pension plan and phantom stock option and bonus accruals are recorded as incurred. As of September 30, 2014, CSMC has a deferred tax liability of \$2,189,383.

5. ACCUMULATED NET REALIZED GAINS (LOSSES) ON INVESTMENTS

Distributions made by RICs often differ from aggregate GAAP-basis undistributed net investment income and accumulated net realized gains (total GAAP-basis net realized gains). The principal cause is that required minimum fund distributions are based on income and gain amounts determined in accordance with federal income tax regulations, rather than GAAP. The differences created can be temporary, meaning that they will reverse in the future, or they can be permanent. In subsequent periods, when all or a portion of a temporary difference becomes a permanent difference, the amount of the permanent difference will be reclassified to "additional capital."

We incur federal taxes on behalf of our shareholders as a result of our election to retain long-term capital gains. We had \$44,708,977 of accumulated long term capital gains at September 30, 2014 and \$14,029,087 of accumulated long term capital gains at March 31, 2014.

6. EXECUTIVE COMPENSATION PLAN

On August 28, 2014, our Board of Directors adopted an executive compensation consisting of grants of nonqualified stock options, restricted stock and cash incentive awards to executive officers of the Company that is intended to align the compensation of the Company's executive officers with the Company's key strategic objective of increasing the market value of the Company's shares through a transformative transaction for the benefit of the Company's shareholders. Under the plan, Joseph B. Armes, Chief Executive Officer, Kelly Tacke, Chief Financial Officer, and Bowen S. Diehl, Chief Investment Officer, will receive an amount equal to six percent of the aggregate appreciation in the Company's share price from August 28, 2014 (using a base price of \$36.16 per share) to the date of the transformative transaction (such transaction, the "Trigger Event," the transaction date, the "Trigger Event Date" and such payment amount, the "Total Payout Amount"). The value accretion will include the value of any distributions to the Company shareholders, including any capital stock spun-off to the Company shareholders. As to any payout up to \$22.5 million, one-third of the payout will be allocated to each such officer, with any payout in excess of \$22.5 million to be allocated as follows: Mr. Armes-- 50%, Ms. Tacke--25% and Mr. Diehl--25%. The initial plan component consists of nonqualified options awarded to purchase 259,000 shares of common stock at an exercise price of \$36.60 per share. The second plan component consists of awards of 127,000 shares of restricted stock, which have voting rights but do not have cash dividend rights. The final plan component consists of cash incentive payments awarded to each of Mr. Armes, Ms. Tacke and Mr. Diehl in an amount equal to the excess of each awardee's allocable portion of the Total Payment Amount over the aggregate value as of the Trigger Event Date of the awardee's restricted common stock and nonqualified option awards under the plan. The awards shall vest and be exercisable as follows: (i) 1/3 on the Trigger Event Date; (ii) 1/3 on the first anniversary of the Trigger Event Date; and (iii) 1/3 on the second anniversary of the Trigger Event Date. Entitlement to such awards is conditioned on the awardee remaining in the

employment of the Company or its subsidiaries on the vesting date, or in the event the employment of the awardee is transferred to a Company subsidiary spun-off to the Company's shareholders, continuing employment by such spun-off subsidiary. The Company, however, reserves the right, in its sole discretion, to terminate the cash incentive award or to reduce the amount payable thereunder at any time prior to the Trigger Event Date.

Table of Contents

7. STOCK BASED COMPENSATION PLANS

Stock Options

On July 20, 2009, shareholders approved our 2009 Stock Incentive Plan (the “2009 Plan”), which provides for the granting of stock options to employees and officers and authorizes the issuance of common stock upon exercise of such options for up to 560,000 shares. All options are granted at or above market price, generally expire up to 10 years from the date of grant and are generally exercisable on or after the first anniversary of the date of grant in five annual installments. Options to purchase 155,000 shares at \$19.19 per share (market price at the time of grant) were granted on October 19, 2009. Additionally, options to purchase 80,000 shares at \$23.95 per share (market price at time of grant) were granted on March 22, 2010, options to purchase 60,000 shares at \$22.05 per share were granted on July 19, 2010 and options to purchase 40,000 shares at \$24.23 per share were granted on July 18, 2011. Options to purchase 30,000 shares at \$37.02 per share, 25,000 shares at \$33.52 and 30,000 shares at \$34.91 were granted on July 15, 2013, January 20, 2014 and March 17, 2014, respectively. On August 28, 2014, options to purchase 259,000 shares at \$36.60 per share were granted under the previously mentioned executive compensation plan. These options will not begin to be exercisable or vest until the occurrence of previously mentioned transformative transaction under Note 6. In addition, our Board of Directors amended the 2009 Plan, as permitted pursuant to Section 18 of the 2009 Plan (the “First Amendment to the 2009 Plan”). The First Amendment to the 2009 Plan provides that an award agreement may allow an award to remain outstanding after a spin-off or change in control of one or more wholly-owned subsidiaries of the Company. At September 30, 2014, there are options to acquire 374,600 shares of common stock outstanding and options to acquire 4,000 shares of common stock available for grant under the 2009 Plan.

We previously granted stock options under our 1999 Stock Option Plan (the “1999 Plan”), as approved by shareholders on July 19, 1999. The 1999 Plan expired on April 19, 2009. Options previously granted under our 1999 Stock Option Plan and outstanding on July 20, 2009 continue in effect and are governed by the provisions of the 1999 Plan. All options granted under the 1999 Plan were granted at or above market price on the date of grant, generally expire up to 10 years from the date of grant and are generally exercisable on or after the first anniversary of the date of grant in five to ten annual installments. At September 30, 2014, there are options to acquire 38,000 shares of common stock outstanding under the 1999 Plan.

Table of Contents

We recognize compensation cost over the straight-line method for all share-based payments granted on or after that date and for all awards granted to employees prior to April 1, 2006 that remain unvested on that date. The fair value of stock options are determined on the date of grant using the Black-Scholes pricing model and are expensed over the vesting period of the related stock options. Share-based compensation cost for stock options is measured based on the closing fair market value of our Company's common stock on the date of the grant. Accordingly, for the quarters ended September 30, 2014 and 2013, we recognized stock option compensation expense of \$54,107 and \$132,136, respectively. For the six months ended September 30, 2014 and 2013, we recognized stock option compensation expense of \$127,210 and \$275,297, respectively. We have not recognized any compensation expense related to the 259,000 options granted on August 28, 2014 as these options are subject to a contingent vesting mechanism.

As of September 30, 2014, the total remaining unrecognized compensation cost related to non-vested stock options was \$720,192, which will be amortized over the weighted-average vesting period of approximately 2.6 years.

The following table summarizes the 2009 Plan and the 1999 Plan intrinsic price per option at grant date using the Black-Scholes pricing model:

Date of Issuance	Weighted Average Fair Value	Black-Scholes Pricing Model Assumptions					Expected Life (in years)
		Expected Dividend Yield	Risk- Free Interest		Expected Volatility	Expected	
			Rate				
<u>2009 Plan*</u>							
July 18, 2011	\$ 8.27	0.83 %	1.45 %	40.0 %		5	
July 19, 2010	\$ 7.15	0.91 %	1.73 %	37.5 %		5	
March 22, 2010	\$ 8.14	0.84 %	2.43 %	37.8 %		5	
October 19, 2009	\$ 6.34	1.04 %	2.36 %	37.6 %		5	
July 15, 2013	\$ 11.82	0.54 %	1.40 %	36.1 %		5	
January 20, 2014	\$ 8.37	0.60 %	1.64 %	27.0 %		5	
March 17, 2014	\$ 7.04	0.57 %	1.58 %	21.1 %		5	
<u>1999 Plan</u>							
July 30, 2008	\$ 7.48	0.62 %	3.36 %	20.2 %		5	
July 21, 2008	\$ 6.84	0.67 %	3.41 %	20.2 %		5	
July 16, 2007	\$ 10.44	0.39 %	4.95 %	19.9 %		5	
July 17, 2006	\$ 8.26	0.61 %	5.04 %	21.2 %		7	
May 15, 2006	\$ 7.82	0.64 %	5.08 %	21.1 %		7	

* Excludes August 28, 2014 grant of options to purchase 259,000 shares of common stock at an exercise price of \$36.60 as these options will not begin to be exercisable until the occurrence of a transformative transaction intended to increase the market value of the Company's equity for the benefit of shareholders and cannot be modeled under the Black-Scholes pricing model at this time.

Table of Contents

The following table summarizes activity in the 2009 Plan and the 1999 Plan as of September 30, 2014:

	Number of Shares	Weighted Average Exercise Price

Canceled/Forfeited	—	—
Balance at September 30, 2014	38,000	26.68
Combined Balance at September 30, 2014	412,600	\$ 34.61

¹See Note 6.

	Weighted Average Aggregate Intrinsic	
September 30, 2014	Remaining Contractual Term	Value*
Outstanding	2.6 years	\$1,240,573
Exercisable	0.8 years	\$415,790

* Excludes August 28, 2014 grant of options to purchase 259,000 shares of common stock at an exercise price of \$36.60 as these options will not begin to be exercisable until the occurrence of a transformative transaction intended to increase the market value of the Company's equity for the benefit of shareholders and cannot be modeled under the Black-Scholes pricing model at this time.

At September 30, 2014, the range of exercise prices was \$19.19 to \$37.02 and the weighted-average remaining contractual life of outstanding options was 2.6 years, excluding the 259,000 shares of non-vested stock options which

do not have a set vesting period. The total number of shares of common stock exercisable under both the 2009 Plan and the 1999 Plan at September 30, 2014, was 54,600 shares with a weighted-average exercise price of \$27.07. During the quarter ended September 30, 2014, 4,200 options were exercised. During the quarter ended September 30, 2013, no options were exercised.

Table of Contents

Stock Awards

Pursuant to the Capital Southwest Corporation 2010 Restricted Stock Award Plan, our Board of Directors reserved for issuance to certain key employees 188,000 shares of restricted stock. A restricted stock award is an award of shares of our common stock, which generally have full voting and dividend rights but are restricted with regard to sale or transfer. Unless otherwise specified in the award agreement, the restrictions lapse ratably over a specified period of time (generally five years). Restricted stock awards are independent of stock grants and are subject to forfeiture if employment terminates prior to these restrictions lapsing. Unless otherwise specified in the award agreement, these shares vest in equal annual installments over a five-year period from the grant date and are expensed over the five-year vesting period starting on the grant date. On January 16, 2012, the Board of Directors granted 38,600 shares of restricted stock to key employees of the Company. On January 22, 2013, the Board of Directors granted 8,000 shares of restricted stock to officers of the Company. On July 15, 2013, The Board of Directors granted 5,000 shares of restricted stock to a key officer of the Company. On January 20, 2014, the Board of Directors granted 4,800 shares of restricted stock to key employees of the Company. On March 17, 2014, the Board of Directors granted 5,000 shares of restricted stock to a key employee of the Company. On August 28, 2014, the Board of Directors granted 127,000 shares of restricted stock under the previously mentioned executive compensation plan. In addition, our Board of Directors amended the 2010 Plan, as permitted pursuant to Section 14 of the 2010 Plan (the “First Amendment to the 2010 Plan”). The First Amendment to the 2010 Plan provides that an award agreement may allow an award to remain outstanding after a spin-off or change in control of one or more wholly-owned subsidiaries of the Company.

The following table summarizes the restricted stock available for issuance as of September 30, 2014:

Restricted stock available for issuance as of March 31, 2014	154,240
Restricted stock granted during the six months ended September 30, 2014	127,000 ¹
Restricted stock forfeited during the six months ended September 30, 2014	4,000
Restricted stock available for issuance as of September 30, 2014	31,240

¹See Note 6.

We expense the cost of the restricted stock awards, which is determined to equal the fair value of the restricted stock award at the date of grant on a straight-line basis over the vesting period. For these purposes, the fair value of the restricted stock award is determined based upon the closing price of our common stock on the date of the grant. For the quarters ended September 30, 2014 and 2013, we recognized total share based compensation expense of \$22,421 and \$43,574, respectively, related to the restricted stock issued to our employees and officers. For the six months ended September 30, 2014 and 2013, we recognized restricted stock compensation expense of \$65,211 and \$73,980, respectively. We have not recognized any compensation expense related to the 127,000 restricted stock awards granted on August 28, 2014 as these awards are subject to a contingent vesting mechanism.

As of September 30, 2014, the total remaining unrecognized compensation expense related to non-vested restricted stock awards was \$535,185, which will be amortized over the weighted-average vesting period of approximately 3.8 years, excluding the 127,000 shares of non-vested restricted stock which do not have a set vesting period.

Table of Contents

The following table summarizes the restricted stock outstanding as of September 30, 2014:

	Number of Shares	Weighted Average Fair Value Per Share	Weighted Average Remaining Vesting Term (in Years)
Restricted Stock Awards			
Unvested at March 31, 2014	24,680	\$ 30.30	4.1
Granted	127,000 ¹	36.60	NA ²
Vested	—	—	—
Forfeited	(4,000)	22.98	—
Unvested at September 30, 2014	147,680	\$ 30.30	3.8

¹See Note 6.

² The 127,000 shares of restricted stock granted on August 28, 2014 will not begin to vest until the occurrence of a transformative transaction intended to increase the market value of the Company's equity for the benefit of shareholders.

Phantom Stock Plan

On January 16, 2012, our Board of Directors approved the issuance of 104,000 phantom stock options at an exercise price of \$36.74 (Net Asset Value at December 31, 2011) pursuant to the Capital Southwest Corporation Phantom Stock Option Plan to provide deferred compensation to certain key employees. On January 22, 2013, the Board of Directors granted 16,200 shares of phantom stock options at an exercise price of \$41.34 per share (Net Asset Value at December 31, 2012) to officers of the Company. On July 15, 2013, the Board of Directors granted 24,000 shares of phantom stock options at an exercise price of \$43.80 per share (Net Asset Value at June 30, 2013) to a key officer of the Company. Additionally, the Board of Directors granted 38,000 shares of phantom stock options at an exercise price of \$50.25 per share (Net Asset Value at December 31, 2013) to several key employees of the Company in January 2014 and March 2014. Under the plan, awards vest on the fifth anniversary of the award date. Upon exercise of the phantom option, a cash payment in an amount for each phantom share equal to estimated fair market value minus the phantom option exercise price, adjusted for capital gain dividends declared, will be distributed to plan participants. The estimated liability for phantom stock awards was \$591,225 as of September 30, 2014.

There were no phantom stock options granted during the six months ended September 30, 2014.

	Number of Shares	Weighted Average Grant Price Per Share	Weighted Average Remaining Vesting Term (in Years)
Phantom Stock Awards

Vested	—	—	—
Forfeited or expired	3,000	41.34	—
Unvested at September 30, 2014	92,000	\$ 43.66	3.6

8.COMMITMENTS

From time to time the Company may be liable for claims against its portfolio companies. We do not believe such claims would have a material impact on our results of operations and financial condition.

CSWC has agreed, subject to certain conditions, to invest up to \$570,000 in two portfolio companies as of September 30, 2014

Item 2. – Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with our financial statements and the notes thereto included elsewhere in our Annual Report on Form 10-K for the fiscal year ended March 31, 2014 (the “Form 10-K”).

The information contained herein may contain “forward-looking statements” based on our current expectations, assumptions and estimates about us and our industry. These forward-looking statements involve risks and uncertainties. Words such as “believe,” “anticipate,” “estimate,” “expect,” “intend,” “plan,” “will,” “may,” “might,” “could,” “other similar expressions identify forward-looking statements. In addition, any statements that refer to expectations, projections or other characterizations of future events or circumstances are forward-looking statements. Our actual results could differ materially from those anticipated in the forward-looking statements as a result of several factors more fully described in “Risk Factors” and elsewhere in this Form 10-Q, and in our Form 10-K for the year ended March 31, 2014. The forward-looking statements made in this Form 10-Q related only to events as of the date on which the statements are made. You should read the following discussion in conjunction with the consolidated financial statements and related footnotes and other financial information included in our Form 10-K for the year ended March 31, 2014. We undertake no obligation to update publicly any forward-looking statements for any reason, even if new information becomes available or other events occur in the future.

Table of Contents

Results of Operations

The composite measure of our financial performance in the Consolidated Statements of Operations is captioned “Increase in net assets from operations” and consists of three elements. The first is “Net investment income/loss,” which is the difference between income from interest, dividends and fees and our combined operating and interest expense, net of applicable income taxes. The second element is “Net realized gain/loss on investments,” which is the difference between the proceeds received from the disposition of portfolio securities and their stated cost, net of applicable income tax expense based on our tax year. The third element is the “Net increase in unrealized appreciation of investments,” which is the net change in the market or fair value of our investment portfolio, compared with stated cost. It should be noted that the “Net realized gain on investments” and “Net increase in unrealized appreciation of investments” are directly related in that when an appreciated portfolio security is sold to realize a gain, a corresponding decrease in net unrealized appreciation occurs by transferring the gain associated with the transaction from being “unrealized” to being “realized.” Conversely, when a loss is realized on a depreciated portfolio security, an increase in net unrealized appreciation occurs.

Net Investment Income

For the six months ended September 30, 2014, total investment income was \$1,575,419, a \$456,238, or 22.5%, decrease from total investment income of \$2,031,657 for the six months ended September 30, 2013. This decrease was primarily attributable to a decrease in interest income from PalletOne and i-Memories. PalletOne was sold in FY 2014 and we ceased accruing interest from i-Memories in the first quarter of the current year.

Our principal objective is to achieve capital appreciation. Therefore, a significant portion of our investment portfolio is structured to maximize the potential return from equity participation which typically provides minimal current yield in the form of interest or dividends. We also earn interest income from the short-term investment of cash funds, and the annual amount of such income varies based upon the average level of funds invested during the year and fluctuations in short-term interest rates. During the six months ended September 30, 2014 and 2013, the Company had interest income from temporary cash investments of \$37,119 and \$35,130, respectively.

The Company’s management fees, received primarily from its controlled affiliates, totaled \$279,900 for both the six months ended September 30, 2014 and 2013.

During the three and six months ended September 30, 2014 and 2013, the Company recorded dividend income from the following sources:

	Three Months Ended September 30,		Six Months Ended September 30,	
	2014	2013	2014	2013
Alamo Group, Inc.	\$198,310	\$198,310	\$396,620	\$396,571
Capitala Finance Corporation	50,810	—	50,810	—
Encore Wire Corporation	26,250	26,250	26,250	52,500
North American Energy Partners	—	—	1,190	—
The RectorSeal Corporation	240,000	240,000	480,000	480,000
TCI Holdings, Inc.	—	20,317	—	40,635
The Whitmore Manufacturing Company	60,000	60,000	120,000	120,000
	\$575,370	\$544,877	\$1,074,870	\$1,089,706

Table of Contents

Due to the nature of our business, the majority of our operating expenses are related to employees' and directors' compensation, office expenses, legal, professional and accounting fees and pension benefit. Total operating expenses decreased by \$431,497, or 9.6%, for the six months ended September 30, 2014 as compared to the six months ended September 30, 2013. This decrease is primarily due to a decrease of \$469,784 in compensation due principally to a decrease in phantom stock option accruals as well as forfeitures, a decrease of \$156,853 in stock option expense, offset by an increase in net pension benefit of \$227,747 due to an increase in the expected return on assets and in the discount rate and an increase of \$228,566 in other professional fees.

Net Realized Gain (Loss) on Investments

During the six months ended September 30, 2014, we recognized a net realized gain of \$30,679,890 from the following sources:

	Proceeds	Cost	Realized gain (loss)
Alamo Group, Inc.	\$33,854,271	\$183,674	\$33,670,597
Capitala Finance Corporation	2,019,661	1,363,799	655,862
Cinatra Clean Technologies, Inc.	2,458,706	17,288,383	(14,829,677)
Discovery Alliance, LLC	139,713	1,315,000	(1,175,287)
Encore Wire Corporation	13,637,413	1,409,051	12,228,362
North American Energy Partners	588,577	236,986	351,591
StarTech Seed Fund II	75,706	75,706	-
Tristate Capital Holdings, Inc.	706,928	928,486	(221,558)
Total realized gain			\$30,679,890

During the six months ended September 30, 2013, we received a capital gain dividend of \$55,000 from Diamond State Venture, L.P.

Management does not attempt to maintain a consistent level of realized gains from year to year, but instead attempts to maximize total investment portfolio appreciation. This strategy often dictates the long-term holding of portfolio securities in pursuit of increased values and increased unrealized appreciation, but may at opportune times dictate realizing gains or losses through the disposition of certain portfolio investments.

Net Increase (Decrease) in Unrealized Appreciation of Investments

For the six months ended September 30, 2014, we recognized a decrease of \$38,826,965 in net change in unrealized appreciation of investments. This decrease in unrealized appreciation is primarily attributable to Alamo Group, Inc. and Encore Wire Corporation; Alamo Group, Inc. decreased by \$72,367,129 due to a decline in its stock price at September 30, 2014, as well as our recent disposition of 849,690 shares, which generated a net realized gain of \$33,670,597; Encore Wire Corporation decreased by \$26,692,007, due to a decrease in its stock price at September 30, 2014 and our recent sale of 355,650 shares, which generated a net realized gain of \$12,228,362. These decreases are offset by The Rectorseal Corporation, Titanliner, Inc., and Media Recovery, Inc., which increased by \$35,600,000, \$5,636,999, and \$2,000,000, respectively, due to increases in each entity's earnings; In addition, Wellogix, Inc. increased by \$1,875,000 due to the utilization of a market valuation approach this quarter.

Table of Contents

For the six months ended September 30, 2013, we recognized a \$56,007,066 increase in net change in unrealized appreciation of investments. The increases in unrealized appreciation are attributable to Alamo Group, Inc. and Encore Wire Corporation, which increased by \$30,200,783 and \$5,801,250, respectively, due to increases in their stock price at September 30, 2013, while The Rectorseal Corporation increased by \$18,100,000; The Whitmore Manufacturing Company increased by \$2,500,000; and Media Recovery, Inc. increased by \$4,800,000 due to increases in the entities' respective earnings. Offsetting these increases were Hologic, Inc., which decreased by \$1,136,499 due to a decrease in its stock price at September 30, 2013. Additionally, Cinatra Clean Technologies, Inc. and TitanLiner Inc. decreased by \$1,711,324 and \$1,239,000, respectively, due to each entity's under performance in their respective markets. In addition, CapitalSouth Partners Fund III, L.P. decreased by \$2,833,201; during the quarter ended September 30, 2013, we received a distribution of 108,106 shares of Capitala Finance Corporation (CPTA), which represented 71% of our interest in Capital South Partners Fund III, L.P.

Set forth in the following table are the significant increases and decreases in unrealized appreciation by our current portfolio companies:

	Six Months Ended September 30,	
	2014	2013
Alamo Group, Inc.	\$(72,367,129)	\$30,200,783
Encore Wire Corporation	(26,692,007)	5,801,250
iMemories, Inc.	(1,660,002)	—
Instawares Holding Company	(2,879,000)	307,000
KBI Biopharma, Inc.	1,300,000	(100,000)
Media Recovery, Inc.	2,000,000	4,800,000
The RectorSeal Corporation	35,600,000	18,100,000
TitanLiner, Inc.	5,636,999	(1,239,000)
Wellogix, Inc.	1,875,000	—
The Whitmore Manufacturing Company.	900,000	2,500,000

A description of the investments listed above and other material components of the investment portfolio are included elsewhere in this report under the caption "Consolidated Schedule of Investments – September 30, 2014 and March 31, 2014."

Financial Liquidity and Capital Resources

At September 30, 2014, the Company had cash and cash equivalents of approximately \$123 million. Funds may be transferred to the Company in the form of dividends from our controlled affiliates to the extent available. Additionally, approximately \$116.8 million of our September 30, 2014 investment portfolio is represented by unrestricted publicly traded securities and represents a potential source of liquidity.

Management believes that the Company's cash and cash equivalents and cash available from other sources described above are adequate to meet its expected requirements. Consistent with the long-term strategy of the Company, the disposition of investments from time to time may also be an important source of funds for future investment activities.

Application of Critical Accounting Policies and Accounting Estimates

There have been no changes during the six months ended September 30, 2014 to the critical accounting policies or areas that involve the use of significant judgments or estimates we described in our Annual Report on Form 10-K for the fiscal year ended March 31, 2014.

Table of Contents

Item 3. Quantitative and Qualitative Disclosures about Market Risk

We are subject to financial market risks, including changes in marketable equity security prices. We do not use derivative financial instruments to mitigate any of these risks.

Our investment performance is a function of our portfolio companies' profitability, which may be affected by economic cycles, competitive forces, foreign currency fluctuations and production costs including labor rates, raw material prices and certain basic commodity prices. Most of the companies in our investment portfolio do not hedge their exposure to raw material and commodity price fluctuations. All of these factors may have an adverse effect on the value of our investments and on our net asset value.

Our investment in portfolio securities includes fixed-rate debt securities which totaled \$3,269,000 at September 30, 2014, equivalent to 0.53% of the value of our total investments. Generally, these debt securities are below investment grade and have relatively high fixed rates of interest; therefore, minor changes in market yields of publicly traded debt securities have little or no effect on the values of debt securities in our portfolio and no effect on interest income. Our investments in debt securities are generally held to maturity and their fair values are determined on the basis of the terms of the debt security and the financial condition of the issuer.

A portion of our investment portfolio consists of debt and equity securities of private companies. We anticipate little or no effect on the values of these investments from modest changes in public market equity valuations. Should significant changes in market valuations of comparable publicly traded companies occur, there may be a corresponding effect on valuations of private companies, which would affect the value and the amount and timing of proceeds eventually realized from these investments. A portion of our investment portfolio also consists of unrestricted, freely marketable common stock of publicly traded companies. These freely marketable investments, which are valued at the public market price, are directly exposed to equity price risks. A change in an issuer's public market equity price would result in an identical change in the value of our investment in such security.

Item 4. Controls and Procedures

As of the end of the period covered by this report, an evaluation was performed under the supervision and with the participation of our management, including the President and Chief Executive Officer and the Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15 of the Securities Exchange Act of 1934). Based upon this evaluation, management, including our President and Chief Executive Officer and our Chief Financial Officer, have concluded that our current disclosure controls and procedures are effective as of September 30, 2014.

During the six months ended September 30, 2014, there have been no changes in our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect our internal control over financial reporting.

PART II. – OTHER INFORMATION

Item 1. Legal Proceedings

We may, from time to time, be involved in material litigation arising out of our operations in the normal course of business or otherwise. Furthermore, third parties may try to seek to impose liability on us in connection with the activities of our portfolio companies. We have no current or pending material legal proceedings to which we are party or to which any of our assets is subject.

Table of Contents

Item 1A. Risk Factors

There have been no material changes to our risk factors disclosed in Item 1A. “Risk Factors” in our Annual Report on Form 10-K for the fiscal year ended March 31, 2014.
