**NOTICE TO SHAREHOLDERS OF ACTION
APPROVED BY CONSENTING SHAREHOLDERS**

The following action has been approved by the written consent of holders of Common Stock collectively entitled to vote at least a majority of the outstanding shares of voting stock of the Company.

**AMENDMENT TO ARTICLES OF INCORPORATION INCREASING
THE NUMBER OF AUTHORIZED SHARES
OF THE COMPANY'S COMMON STOCK**

General

In connection with the Company's \$30,000,000 private placement of its 6% Convertible Notes and Warrants to purchase an aggregate of 75,000,000 shares of Common Stock on May 30, 2008, the Company agreed to increase the number of its authorized shares of Common Stock to 900,000,000. At a telephonic meeting held June 3, 2008, the Board of Directors adopted a resolution to amend the Company's articles of incorporation to increase the authorized shares of Common Stock to 900,000,000. The holders of a majority of the outstanding shares of the Company's voting stock approved the Capital Increase Amendment by written consent dated June 13, 2008.

Capital Increase Amendment

The Company is currently authorized to issue 600,000,000 shares of Common Stock and 20,000,000 shares of preferred stock, par value \$.001 per share (the "Preferred Stock"). The Capital Increase Amendment to the Company's articles of incorporation, in the form attached hereto as Appendix C, increases the authorized shares of the Company's Common Stock from 600,000,000 shares to 900,000,000 shares and makes no change to the authorized number of shares of the Preferred Stock.

Of the 600,000,000 shares of Common Stock currently authorized, 413,113,760 shares are issued and outstanding. Of the 20,000,000 shares of Preferred Stock currently authorized, no shares are issued and outstanding.

The Company's articles of incorporation will be amended by striking out Article IV and replacing it with the following new Article IV:

"The maximum number of shares of stock that this Corporation shall be authorized to issue and have outstanding at any one time shall be: 900,000,000 shares of Common Stock, \$.001 par value per share and 20,000,000 shares of Preferred Stock, par value \$.001 per share. Series of the Preferred Stock may be created and issued from time to time, with such designations, preferences, conversion rights, cumulative, relative, participating, optional or other rights, including voting rights, qualifications, limitations, restrictions thereof and shall be stated and expressed in the resolution or resolutions providing for the creation and issuance of such series of Preferred Stock as adopted by the Board of Directors pursuant to the authority in this paragraph given."

Purpose of Capital Increase Amendment

The purpose of increasing our authorized capital is to provide the Company with additional shares of Common Stock to be held in reserve pending the future conversion of the Notes and exercise of the Warrants. The Company currently does not have enough authorized but unissued shares of Common Stock available to accommodate the conversion in full of the Notes and the Warrants. In addition, we believe that increasing our authorized capital will provide the Company with the necessary flexibility to implement potential corporate plans, including the issuance of shares in connection with any future financings, the issuance of shares in connection with stock splits or dividends, or the issuance or reservation of capital stock for equity awards to employees, officers and directors of the Company. Such an increase will allow such shares to be issued without the expense and delay of a special shareholders' meeting, unless such action is required by applicable law or the rules of any stock exchange on which the Company is or may be listed.

Except as disclosed above, the Company has no current specific plans, arrangements or understandings, either written or oral, to issue any of the additional authorized shares of Common Stock. However, the increase in the Company's authorized Common Stock may give the Company the flexibility, in the future, to pursue acquisitions or enter into transactions which the Board believes provide the potential for growth and profit. The additional authorized shares could also be used by the Company, in the future, to raise cash through sales of stock to public and private investors. The Company could also use the additional authorized shares for general corporate purposes such as stock dividends as well as for the possible issuance of shares pursuant to employee benefit or compensation programs or plans. To the extent that additional shares are available, transactions dependent upon the issuance of additional shares would be less likely to be undermined by delays and uncertainties occasioned by the need to obtain shareholder authorization prior to the consummation of such transactions.

Effect of the Capital Increase Amendment

The increase in authorized capital stock will not have any immediate effect on the rights of existing shareholders, other than the potential decrease in the existing shareholders' current percentage equity that may result to the extent that the holders of the Company's outstanding Debentures and Notes choose to convert such Debentures and/or Notes into Common Stock and to the extent that holders of the November Warrants and/or the Warrants choose to exercise such November Warrants and/or Warrants for Common Stock.. The Board of Directors will, however, have the authority to issue authorized Common Stock without requiring future shareholder approval of such issuances, except as may be required by the Company's articles of incorporation or applicable law. To the extent that additional authorized shares are issued in the future, they may also decrease the existing shareholders' percentage equity ownership and, depending on the price at which they are issued, could be dilutive to the existing shareholders.

The increase in the authorized number of shares of Common Stock and the subsequent issuance of such shares could have the effect of delaying or preventing a change in control of the Company without further action by its shareholders. Shares of authorized and unissued Common Stock could, within the limits imposed by applicable law, be issued in one or more transactions which would make a change in control of the Company more difficult, and therefore less likely. Any such issuance of additional stock could have the effect of diluting the earnings per share and book value per share of outstanding shares of Common Stock and such additional shares could be used to dilute the stock ownership or voting rights of a person seeking to obtain control of the Company.

The Board of Directors is not currently aware of any attempt to take over or acquire the Company. While it may be deemed to have potential anti-takeover effects, the Capital Increase Amendment is not prompted by any specific effort or takeover threat currently perceived by management.

Effective Date

Under applicable federal securities laws, the Capital Increase Amendment cannot be effective until at least 20 calendar days after this Information Statement is distributed to the Company's shareholders. The Capital Increase amendment will become effective upon filing with the Secretary of State of Florida. It is anticipated that the foregoing will take place 20 calendar days after distribution of this Information Statement to the Company's shareholders.

Dissenters' Rights of Appraisal

The FBCA does not provide for dissenters' or appraisal rights in connection with the increase of authorized shares of the Company's capital stock.
