or a small reporting company. See definitions of “large accelerated filer,” “accelerated filer” and “smaller reporting company” in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer ☐

Accelerated filer ☐

Non-accelerated filer ☐

Smaller reporting company ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes

☐ No ☐

As of August 3, 2011 the registrant had 439,078,759 shares of common stock outstanding.

FORWARD-LOOKING STATEMENTS

Certain statements contained in this Quarterly Report constitute “forward-looking statements”. These statements, identified by words such as “plan”, “anticipate”, “believe”, “estimate”, “should”, “expect” and similar expressions include expectations and objectives regarding our future financial position, operating results and business strategy. These statements reflect the current views of management with respect to future events and are subject to risks, uncertainties and other factors that may cause our actual results, performance or achievements, or industry results, to be materially different from those described in the forward-looking statements. Such risks and uncertainties include those set forth under the caption “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and elsewhere in this Quarterly Report. We do not intend to update the forward-looking information to reflect actual results or changes in the factors affecting such forward-looking information. We advise you to carefully review the reports and documents we file from time to time with the Securities and Exchange Commission (the “SEC”).

CURRENCIES

All amounts expressed herein are in U.S. dollars unless otherwise indicated.

PETROHUNTER ENERGY CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

Note 1 — Organization and Basis of Presentation

The interim condensed consolidated financial statements of PetroHunter Energy Corporation (“we,” “us,” “our,” or the “Company”) are unaudited and contain all adjustments necessary for a fair statement of the results for the interim periods presented. Results for interim periods are not necessarily indicative of results to be expected for a full year or for previously reported periods due in part, but not limited to, interest rates, the timing of acquisitions, market competition, and our ability to obtain additional capital to sustain operations. You should read these consolidated interim financial statements in conjunction with the audited consolidated financial statements and notes thereto included in our Annual Report on Form 10-K for the year ended September 30, 2010.

Note 2 — Summary of Significant Accounting Policies

Basis of Accounting – The accompanying financial statements have been prepared on the basis of accounting principles applicable to a going concern, which contemplate the realization of assets and extinguishment of liabilities in the normal course of business. The report of our independent registered public accounting firm on our financial statements for the year ended September 30, 2010 includes an explanatory paragraph relating to substantial doubt or uncertainty of our ability to continue as a going concern. As shown in the accompanying financial statements, we have an accumulated deficit of \$290,026,140 and our current assets exceeded our current liabilities by \$12,860,599 as of June 30, 2011.

Cash and Cash Equivalents – We consider investments in highly liquid financial instruments with an original stated maturity of three months or less to be cash equivalents.

Comprehensive Income (Loss) – Financial Accounting Standards Board (“FASB”) ASC 220, “Comprehensive Income,” establishes standards for reporting and display of comprehensive income and its components in financial statements. It requires that all items that are required to be recognized under accounting standards as components of comprehensive income be reported in the financial statement that is displayed with the same prominence as other financial statements. The Company’s comprehensive income (loss) consists of both net losses on foreign currency translation adjustments and unrecognized gains in connection with mark to market adjustments on its marketable securities.

Concentration of Credit Risk – Financial instruments which potentially subject us to concentrations of credit risk consist of cash and marketable securities. We periodically evaluate the credit worthiness of financial institutions, and maintain cash accounts only with major financial institutions, thereby minimizing exposure for deposits in excess of federally insured amounts. On occasion, the Company may have cash in banks in excess of federally insured amounts. We believe that credit risk associated with cash is remote. Marketable securities credit risk is discussed later in Note 3 – Restricted Cash and Marketable Securities.

Fair Value – We apply the provisions of FASB ASC 820, “Fair Value Measurements.” The carrying amounts reported in the consolidated balance sheets for cash, marketable securities, prepaid assets, accounts payable and accrued liabilities approximate fair value because of the immediate or short-term maturity of these financial instruments. Fair values of assets and liabilities measured on a recurring basis as of June 30, 2011 and September 30, 2010 included marketable securities, recorded at fair values of \$876,060 and \$1,852,241 respectively, which had quoted prices in active markets for identical assets (level 1) of \$876,060 and \$1,852,241, respectively.

Edgar Filing: PetroHunter Energy Corp - Form 10-Q

Income Taxes – We record income taxes under the asset and liability method prescribed by FASB ASC 740, “Income Taxes.” Under this method, deferred tax assets and liabilities are recognized for temporary differences between the financial statement amounts and the tax basis of certain assets and liabilities by applying statutory rates in effect when the temporary differences are expected to reverse.

Loss Per Common Share – We do not report fully diluted loss per common share as the effect would be anti-dilutive.

Marketable Securities – We account for marketable securities with FASB ASC 320, “Accounting for Certain Investments in Debt and Equity Securities”. We account for marketable securities by marking to market with unrealized gains and losses reflected as a component of Other Comprehensive Income, until such gains or losses become realized, at which time they are then recognized in our statement of operations. In addition, in circumstances where significant price declines are experienced subsequent to the balance sheet date, we consider whether such declines are other than temporary. After considering our expected holding period, we may record a provision for impairment in the event we do not expect the value of the securities to recover from such a decline in market value. We consider our accounting for marketable securities to involve significant management judgment that is subject to estimation.

Property and Equipment – Property and equipment are stated at cost and depreciated using the straight-line method over the estimated useful lives of the related assets approximating seven years.

Reclassifications – Certain prior period amounts have been reclassified in the condensed consolidated financial statements to conform with current period presentation. Such reclassifications have had no effect on the net loss.

Restricted Cash – Restricted cash consists of certificates of deposit, underlying letters of credit for exploration permits, state and local bonds and guarantees to vendors.

Share-Based Compensation – We use the Black-Scholes option-pricing model and the straight-line attribution approach to determine the fair-value of stock-based awards in accordance with FASB ASC 718, “Stock Compensation.” The option-pricing model requires the input of highly subjective assumptions, including the option’s expected life and the price volatility of the underlying stock. The Company’s expected term represents the period that stock-based awards are expected to be outstanding and is determined based on historical experience of similar awards, giving consideration to the contractual terms of the stock-based awards, vesting schedules and expectations of future employee behavior as influenced by changes to the terms of its stock-based awards. The expected stock price volatility is based on the Company’s historical stock prices.

Use of Estimates – The preparation of our consolidated financial statements in accordance with Generally Accepted Accounting Principles (“GAAP”) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ materially from those estimates. Our significant estimates include the estimated life of long-lived assets, asset retirement obligation liabilities and the market value of securities.

Asset Retirement Obligation – Asset retirement obligations associated with tangible long-lived assets are accounted for in accordance with FASB ASC 410, “Accounting for Asset Retirement Obligations.” The estimated fair value of the future costs associated with dismantlement, abandonment and restoration of oil and gas properties is recorded generally upon acquisition or completion of a well. The net estimated costs are discounted to present values using a risk adjusted rate over the estimated economic life of the oil and gas properties. Such costs are capitalized as part of the related asset. The liability is periodically adjusted to reflect (1) new liabilities incurred, (2) liabilities settled during the period, (3) accretion expense, and (4) revisions to estimated future cash flow requirements. Accretion expense is recorded as a component of depreciation, depletion, amortization and accretion expense.

Recently Issued Accounting Pronouncements

The Company has evaluated recent accounting pronouncements issued by the FASB (including its Emerging Issues Task Force), the American Institute of Certified Public Accountants (“AICPA”) and the SEC and we have not identified any that would have a material impact on the Company’s financial position, or statements.

Note 3 — Restricted Cash and Marketable Securities

As of June 30, 2011, long term restricted cash consists of \$130,600 in certificates of deposit and letters of credit for exploration permits, state and local bonds.

As of June 30, 2011, we have recorded \$876,060 in marketable securities on our Condensed Consolidated Balance Sheet, representing the 5,421,000 shares of Falcon Oil & Gas Ltd. (“Falcon”) common stock that we held on this date. 5,000,000 shares were restricted through various agreements wherein they had been pledged as collateral. As described in Note 2, we have accounted for these securities in accordance with FASB ASC 320, “Accounting for Certain Investments in Debt and Equity Securities.”

Note 4 — Equity Investment

As of June 30, 2011 and September 30, 2010, we held approximately 50,000,000 shares in Falcon Oil & Gas Australia Limited (“Falcon Australia”), a related party. We have accounted for this investment under the equity method. As of June 30, 2011 and September 30, 2010, our basis in this investment had been reduced to \$nil as the result of historical losses of \$164,506 recorded during the fiscal year ended September 30, 2010.

Note 5 — Share-Based Compensation

Common Stock Options – As of June 30, 2011 there were no material changes to common stock options from those disclosed in the audited annual consolidated financial statements for the year ended September 30, 2010.

Subsequent to June 30, 2011 we issued 17,000,000 options to purchase our common shares at \$0.15 per share to directors and employees of the Company.

Compensation Expense - Stock-based employee and non-employee compensation expense of \$15,000 and \$45,226 was charged to operations during the three and nine months ended June 30, 2011. Stock-based compensation expense of \$164,452 and \$264,162 was charged to operations during the three and nine months ended June 30, 2010. Stock-based compensation has been included in general and administrative expense in the condensed consolidated statements of operations.

Note 6 — Common Stock Warrants

The following stock purchase warrants were outstanding at June 30, 2011 and September 30, 2010 (warrants in thousands):

	June 30, 2011	September 30, 2010
Number of warrants	72,094	106,536
Exercise price	\$0.12 - \$2.10	\$0.12 - \$2.10
Expiration date	2011 - 2014	2011 - 2014

In April and May 2011, 35,442,500 warrants to purchase our common shares expired.

Note 7 — Related Party Transactions

Edgar Filing: PetroHunter Energy Corp - Form 10-Q

Accounts Payable - As of June 30, 2011, included in accounts payable is approximately \$173,000 due to Falcon related to our share of expenses and GST taxes incurred in drilling the Shenandoah #1A well in the Beetaloo Basin, in Australia.

Marketable Securities - As of June 30, 2011, we have recorded both restricted and unrestricted marketable securities totaling \$876,060 in aggregate on our consolidated condensed balance sheet. These securities were received from a related party, Falcon.

Bruner Family Trust – As of June 30, 2011, we owed \$2,876,895 in principal and \$399,458 in accrued interest to the Bruner Family Trust related to seven outstanding notes payable. We have recognized interest expense in the amounts of \$24,553 and \$73,441 during the three and nine months ended June 30, 2011 related to these notes. We are in default on all seven notes related to failure to make principal and interest payments, as well various debt covenant violations.

Global Finance – As of June 30, 2011, we owed \$40,650,000 in principal and \$5,263,144 in accrued interest and fees payable to Global Finance AG. These amounts relate to an outstanding line of credit, notes payable, and advance fees due. During the three and nine months ended June 30, 2011, we recorded interest expense in the amounts of \$843,433 and \$2,530,299 related to these various instruments.

Note 8 — Commitments and Contingencies

There are no material changes to our commitments and contingencies from those disclosed in the audited annual consolidated financial statements as of and for the year ended September 30, 2010.

Note 9 — Subsequent Events

The Company has evaluated subsequent events through the date the financial statements were issued. There were no items which would have materially impacted the Company's condensed consolidated financial statements except those below:

Subsequent to June 30, 2011 we received waivers of default from a related party related to seven notes payable covering all periods through June 30, 2011.

In July 2011 our wholly owned subsidiary SweetPea Petroleum Pty Ltd received \$150,000 in cash deposits. Amounts were received in connection with three exploration permits SweetPea has applied for in the Beetaloo Basin in Australia. The deposits allow for potential participation in the permit areas, should we perfect our interest in these permits. We await the outcome of the application for these permits.

In July, 2011 we approved the issuance of 17,000,000 options to purchase our common shares at \$0.15. These options were issued to directors and employees of the Company.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis should be read in conjunction with the accompanying financial statements and related notes included elsewhere in this report. It contains forward-looking statements that reflect our future plans, estimates, beliefs and expected performance. The forward-looking statements are dependent upon events, risks and uncertainties that may be outside our control. Our actual results could differ materially from those discussed in these forward-looking statements.

Factors that could cause or contribute to such differences include, but are not limited to, market prices for natural gas and oil, economic and competitive conditions, capital expenditures and other uncertainties, as well as those factors discussed below, all of which are difficult to predict and which expressly qualify all subsequent oral and written forward-looking statements attributable to us or persons acting on our behalf. In light of these risks, uncertainties and assumptions, the forward-looking events discussed may not occur. We do not have any intention or obligation to update forward-looking statements included in this report after the date of this report, except as required by law.

Executive Summary

We are an oil and gas exploration company, and we currently own oil and gas leasehold interests either directly or through an equity investment in Australia (Beetaloo Basin) and in Western Colorado (Piceance Basin). We are incorporated in the State of Maryland.

Results of Operations

The financial information with respect to the three and nine months ended June 30, 2011 and 2010 that is discussed below is unaudited. In the opinion of management, such information contains all adjustments, consisting only of normal recurring accruals, necessary for a fair presentation of the results for such periods. The results of operations for interim periods are not necessarily indicative of the results of operations for the full fiscal years.

Company Overview for the three and nine months ended June 30, 2011

Our net losses for the three and nine months ended June 30, 2011, were \$1,370,351 and \$4,051,806, respectively. We had no revenues and continue to incur general and administrative and interest expense. During the three and nine months ended June 30, 2010, we incurred net losses of \$2,115,247 and \$6,151,501, respectively.

Comparison of the results of operations for the three and nine months ended June 30, 2011 and June 30, 2010

Costs and Expenses

General and Administrative. During the three and nine months ended June 30, 2011, general and administrative expenses amounted to \$330,383 and \$955,865, respectively, as compared to \$631,048 and \$1,955,390 respectively, in the corresponding 2010 periods. The decrease in general and administrative expenses in 2011 results from decreases in salaries, legal expenses, rent expense, share based compensation, travel and other miscellaneous expenses.

Depreciation, Depletion, Amortization and Accretion. Depreciation, depletion, amortization and accretion expense ("DD&A") was \$308 and \$924, respectively, for the three and nine months ended 2011, as compared to \$18,135 and \$88,325 in the corresponding 2010 periods. Decreases in DD&A result from the fact that our property plant and equipment balances have decreased significantly due to the downsizing of our corporate offices, and based on the fact that our asset retirement obligations have been fully accreted.

Interest Expense. During the three and nine months ended June 30, 2011, interest expense was \$1,040,138 and \$3,101,181, respectively, as compared to \$1,607,589 and \$4,855,201, respectively, in the corresponding 2010 periods. The decrease in interest expense relates to the fact that indices underlying interest rates attached to several of our debt instruments decreased during fiscal 2011 and continue to remain at historical lows. In addition, we restructured our debt portfolio in March and April 2010, and as a result of this restructure the interest rates on the largest components of our debt portfolio were reduced.

Going Concern

The report of our independent registered public accounting firm on the financial statements for the year ended September 30, 2010 includes an explanatory paragraph relating to the significant doubts about our ability to continue as a going concern. We have an accumulated deficit of \$290,026,140 and our current assets exceeded our current liabilities by \$12,860,599 as of June 30, 2011. We require significant additional funding to sustain our operations and satisfy our contractual obligations for our planned development operations. We are in default on certain other obligations. Our ability to establish the Company as a going concern is dependent upon our ability to obtain additional funding in order to finance our planned operations.

Plan of Operation

For the remainder of fiscal 2011, we will focus on attempting to preserve remaining capital assets, while awaiting the outcome of the well in progress being drilled and other exploratory activities in the Beetaloo Basin project in Australia. These activities are being undertaken by our investee Falcon Australia. As of June 30, 2011, our remaining acreage in the Piceance Basin in Western Colorado was greatly reduced as a letter of intent we had executed with the intent of forming an LLC to explore opportunities on the prospect expired and the underlying leases related to the acreage reverted to the counterparties in the agreement.

Liquidity and Capital Resources

During our most recent quarter ended June 30, 2011, our cash flows from operations were not sufficient for us to meet our operating commitments. Our cash flows from operations continue to be, and are expected to continue to be, insufficient to meet our operating commitments throughout the remainder of the fiscal year ending September 30, 2011.

Working Capital. As of June 30, 2011, we had a working capital deficit of \$12,860,599 and unrestricted cash of \$108,808, while at September 30, 2010 we had a working capital deficit of \$11,333,938 and cash of \$75,624. The decreases in working capital are primarily attributable to the fact that we have no revenues from operations and continue to incur expenses. We do not expect our working capital deficit to decrease or cash balance to increase in the near future.

Cash Flow. Net cash used in or provided by operating, investing and financing activities for the nine months ended June 30, 2011 and 2010 were as follows:

	Nine Months Ended June 30,	
	2011	2010
Net cash (used in) operating activities	\$ (841,192)	\$ (1,477,871)
Net cash provided by investing activities	\$ 874,376	\$ 1,126,787
Net cash provided by financing activities	\$ -	\$ 150,000

Net Cash Used in Operating Activities. The changes in net cash used in operating activities are attributable to our net income adjusted for non-cash charges as presented in the consolidated statements of cash flows and changes in working capital as discussed above.

Net Cash Provided by Investing Activities. Net cash provided by investing activities for the nine months ended June 30, 2011 and 2010 was related to net proceeds received in connection with the sale of marketable securities.

Net Cash Provided by Financing Activities. We received no cash from financing activities for the nine months ended June 30, 2011. Amounts received in 2010 related to loans made to the Company by officers and directors to fund operations.

Off-Balance Sheet Arrangements

We do not have off-balance sheet arrangements.

Critical Accounting Policies and Estimates

Our consolidated financial statements have been prepared by management in accordance with U.S. GAAP. We refer you to the corresponding section in Part II Item 7 and the notes to the consolidated financial statements of our Annual Report on Form 10K for the year ended September 30, 2010 for the description of critical accounting policies and estimates,

Recently Issued Accounting Pronouncements

The Company has evaluated recent accounting pronouncements issued by the FASB (including its Emerging Issues Task Force), the AICPA and the SEC and we have not identified any that would have a material impact on the Company's financial position, or statements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Foreign Currency Exchange Rate Risk

We hold equity investments in and conduct business in Australia and are subject to exchange rate risk on cash flows related to sales, expenses, financing and investment transactions. We do not currently utilize hedging contracts to protect against exchange rate risk. If our or our investee's oil and gas operations grow, we may utilize currency exchange contracts, commodity forwards, swaps or futures contracts to manage our exposure to foreign currency exchange rate risks.

Interest Rate Risk

Interest rates on future debt offerings could be higher than current levels, causing our financing costs to increase accordingly. This could limit our ability to raise funds in debt capital markets.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

An evaluation was performed under the supervision and with the participation of the Company's management, including Martin B. Oring, the Company's President and Chief Executive Officer ("CEO"), and Paul D. Maniscalco the Company's Principal Accounting Officer ("PAO"), of the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) and Rule 15d-15(e) promulgated under the Securities and Exchange Act of 1934, the "Exchange Act") as of June 30, 2011. Based on this evaluation, the Company's CEO and PAO concluded that the Company's disclosure controls and procedures were effective such that the material information required to be included in the Company's SEC reports is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms relating to the Company, including its consolidated subsidiaries, and the information required to be disclosed was accumulated and communicated to management as

appropriate to allow timely decisions for disclosure.

Changes in Internal Control over Financial Reporting

Other than as described above, there have been no significant changes in our internal control over financial reporting during the quarter ended June 30, 2011 that have materially affected, or is reasonably likely to materially affect our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

As of June 30, 2011, the Company is not a party to any legal or administrative actions or proceedings.

ITEM 1A. RISK FACTORS

Not required for smaller reporting companies.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

None.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. (Removed and Reserved)

ITEM 5. OTHER INFORMATION
