"I am proud to report another quarter of increased earnings and strong performance for our company. I want to recognize our customers, our associates, our shareholders and our directors for their support of our company. Without

any of these groups we would not be enjoying the success we are experiencing today. We appreciate the dedication and loyalty they continue to give to our company," commented David Zalman, Chairman and Chief Executive Officer.

"I continue to be pleased with the positive recognition we have received this year. After being named by Forbes in December as the 'Best Bank in America for 2012,' we were pleased to learn last week that we ranked 3rd in Texas for customer satisfaction by J.D. We all work very hard to give our customers a positive experience by living up to our service commitment daily which is: Greet the customer with a smile; Address the customer by name; Try to say YES instead of NO; and Thank the customer for banking with us.

We are very excited about our upcoming merger with American State Financial Corporation. Results of operations for the three months ended March 31, 2012

For the three months ended March 31, 2012, net income was \$36.487 million compared with \$33.878 million for the same period in 2011. Net income per diluted common share was \$0.77 for the three months ended March 31, 2012 and \$0.72 for the same period in 2011. Returns on average assets, average common equity and average tangible common equity, each on annualized basis, for the three months ended March 31, 2012 were 1.39%, 9.15% and 22.57%, respectively. Prosperity's efficiency ratio (excluding net gains and losses on the sale of assets) was 42.23% for the three months ended March 31, 2012.

Net interest income before provision for credit losses for the three months ended March 31, 2012 increased 1.8% to \$81.846 million compared with \$80.413 million during the same period in 2011. The increase in net interest income was primarily due to growth in average earning assets of \$929.799 million or 11.3% from \$8.208 billion at March 31, 2011 to \$9.137 billion at March 31, 2012. The net interest margin on a tax equivalent basis decreased 38 basis points to 3.64% for the three months ended March 31, 2012 compared with 4.02% for the same period in 2011 and decreased 18 basis points from 3.82% reported for the three months ended December 31, 2011. The 18 basis point linked quarter decrease was due in part to decreased asset yields combined with an 11.3% increase in average earning assets.

Non-interest income increased \$78,000 or 0.6% to \$13.945 million for the three months ended March 31, 2012 compared with \$13.867 million for the same period in 2011. The increase was mainly attributable to an increase in debit card and ATM card income and a gain on sale of ORE, partially offset by a decrease in NSF fees.

Non-interest expense decreased \$1.236 million or 3.0% to \$40.459 million for the three months ended March 31, 2012 compared with \$41.695 million for the same period in 2011. The decrease was mainly attributable to a decrease in regulatory assessments and FDIC insurance and a decrease in CDI amortization.

Loans at March 31, 2012 were \$3.875 billion, an increase of \$301.942 million or 8.5%, compared with \$3.573 billion at March 31, 2011. Loans increased 2.9% (11.6% annualized) or \$108.956 million on a linked quarter basis compared with loans of \$3.766 billion at December 31, 2011. As reflected in the table below, linked quarter loans at March 31, 2012 were impacted by the loans acquired in connection with the Texas Bankers acquisition. Excluding the loans acquired in this acquisition, linked quarter loans increased 8.7% on an annualized basis.

Deposits at March 31, 2012 were \$8.544 billion, an increase of \$728.067 million or 9.3%, compared with \$7.816 billion at March 31, 2011. Linked quarter deposits increased \$484.197 million or 6.0% (24.0% annualized) from

\$8.060 billion at December 31, 2011. As reflected in the table below, linked quarter deposits at March 31, 2012 were impacted by the deposits assumed in connection with the Texas Bankers, Inc. acquisition. Excluding the deposits assumed in this acquisition, linked quarter deposits increased 21.2% on an annualized basis.

Consolidated Financial Highlights

NOTES TO SELECTED FINANCIAL DATA

Prosperity's management uses certain non—GAAP (generally accepted accounting principles) financial measures to evaluate its performance. Specifically, Prosperity reviews tangible book value per share, return on average tangible common equity and the tangible equity to tangible assets ratio for internal planning and forecasting purposes. Prosperity has included in this Earnings Release information relating to these non-GAAP financial measures for the applicable periods presented. Prosperity believes these non-GAAP financial measures provide information useful to investors in understanding Prosperity's financial results and Prosperity believes that its presentation, together with the accompanying reconciliations, provides a better understanding of factors and trends affecting Prosperity's business and allows investors to view performance in a manner similar to management, the entire financial services sector, bank stock analysts and bank regulators. Further, Prosperity believes that these non-GAAP measures provide useful information by excluding certain items that may not be indicative of its core operating earnings and business outlook. These non-GAAP measures should not be considered a substitute for GAAP basis measures and results and Prosperity strongly encourages investors to review its consolidated financial statements in their entirety and not to rely on any single financial measure. Because non-GAAP financial measures are not standardized, it may not be possible to compare these financial measures with other companies' non-GAAP financial measures having the same or similar names.
