News release
Converium Holding Ltd, Zurich

Zurich, Switzerland - August 28, 2007 - Converium with strong 2007 second quarter results reporting net income of USD 46 million, first six months net income of USD 197 million up 58%

- o Net income from continuing operations of USD 46 million in the second quarter 2007 as a result of solid technical results with a non-life combined ratio of 96.6%;
- o First six months net income of USD 197 million, up 58% on the 2006 figure for the same period, positively impacted by the release of the tax valuation allowance of USD 75 million;
- o Good total investment result of USD 178 million with an average total investment income yield of 5.5% in the first half of 2007. No direct or structured indirect fixed maturity securities exposure to the US subprime mortgage credit market confirms prudent asset management approach;

Edgar Filing: CONVERIUM HOLDING AG - Form 6-K

- o Shareholders' equity of USD 2,017 million as of June 30, 2007, up USD 14 million compared with March 31, 2007, demonstrates Converium's capital strength;
- o Normalized return on equity (excluding release of tax valuation allowance) of 13.2% for the half year 2007, up 1.5 percentage points against the same period of 2006;
- o Successful July non-life treaty renewals with 34% more renewable open market business written.

Inga Beale, Chief Executive Officer comments: "In the first half year 2007 Converium has continued to perform strongly. Adjusting for the one-off release of the tax valuation allowance, we have achieved a return on equity of over 13%. The extremely satisfying July renewals results and the most recent set of figures testify to the strength and solidity of the company that is now part of the SCOR Group."

Solid second quarter 2007 results

For the second quarter of 2007, Converium reported a net income of USD 46 million. The results were driven by a robust underlying underwriting performance which helped to absorb the expenses relating to the SCOR transaction of USD 24 million.

Converium reported an increase in net income of USD 72 million to USD 197 million for the six months ended June 30, 2007 as compared with the same period in 2006. These 2007 figures reflect a net tax benefit of USD 67 million mainly due to the release of the tax valuation allowance in Switzerland amounting to USD 75 million.

Solid technical underwriting performance and overall reserve position

Gross premiums written in the second quarter of 2007 came in at USD 490 million, an increase of 5% compared with the second quarter of 2006, as Converium started to benefit from strong growth in markets such as Latin America and the Middle East. For the six months' period, there was an 8% increase in premium volume from USD 1,115 million to USD 1,202 million.

The second quarter's non-life combined ratio was 96.6% compared with 98.8% for the same period of 2006. For the six months ending June 30, 2007 the non-life combined ratio came in at 100.5%, compared with 97.8% for the same period of 2006.

The combined ratio for the first half of 2007, on a normalized basis - excluding prior year development impact of USD 16 million or 2.1% as well as impact from natural cat losses above plan by USD 31 million or 4.3% - comes in at 98.3%, which is below the full year target of 98.5%.

Converium continued to profit from favorable prior accident year developments. The positive impact of prior accident years on the technical result was USD 11 million for the second quarter 2007, compared with USD 29 million for the same period in 2006. For the first six months the respective figures are USD 16 million and USD 43 million. In the first half of 2007, unfavorable adjustments in the motor line of business were more than offset by positive developments in property, aviation and space, engineering and credit and surety. Overall the total level of reserves remains supported by the independent actuarial report conducted during the first quarter.

Increase in business volume in all lines of business

Edgar Filing: CONVERIUM HOLDING AG - Form 6-K

In the largest business segment, Standard Property & Casualty Reinsurance reported gross premiums written of USD 648 million during the first six months of 2007, up 16% compared with the same period of the prior year. Its segment income of USD 37 million for the first half of 2007, down from USD 90 million in 2006, was adversely affected by losses from natural catastrophes Storm Kyrill in Europe of USD 50 million and New South Wales Australian flood related losses of USD 11 million. In addition, in 2007 the segment saw a unfavorable net impact of prior accident years' development on technical result of USD 35 million, mainly driven by the negative impact in prior year loss reserves in the motor line of business of USD 41 million, partially offset by a positive development in prior year loss reserves in the property line of business of USD 21 million. These developments are reflected in the segment's combined ratio in the first half year of 107.7%, up 18.6% against the last year period.

In Specialty Lines, for the second quarter 2007, gross premiums written slightly increased by 3% despite a drop of 33% in aviation & space where business did not meet Converium profitability targets. The segment reported positive prior accident years' developments on the technical result of USD 51 million for the first half 2007, mainly in the aviation & space, engineering and credit & surety lines of business. In the first six months of 2007, a combined ratio of 93.0% was recorded, compared with 106.1% in the same period of the prior year.

The Life & Health Reinsurance segment posted a technical result of USD 20 million in the first half of 2007, as compared with USD 14 million a year earlier (USD 11 million vs. USD 8 million on quarterly comparison). All major markets contributed to the positive development. Gross premiums written grew to USD 79 million in the quarter or USD 211 million in the first six months of 2007, an increase of 22% compared with the first half of 2006, largely driven by increasing business within the European Markets.

Solid total investment result

In the second quarter of 2007, Converium reported a total investment result of USD 86 million, compared with USD 63 million for the same period of 2006. For the six months ending June 30, 2007 the respective figures are USD 178 million and USD 123 million. In the second quarter of 2007 total investment income yield was 5.3%, compared with 4.3% in the same period of 2006. For the six months ended June 30, 2007 the respective yields are 5.5% and 4.1%.

As of June 30, 2007, Converium had no direct or structured indirect fixed maturity securities exposure to the US subprime mortgage credit market.

Further improvement of capital strength

As of June 30, 2007, Converium had total shareholders' equity of USD 2,017.2 million (USD 13.78 per share) compared with USD 1,846.0 million (USD 12.63 per share) as of December 31, 2006, an increase of USD 171.2 million (USD 1.15 per share).

Extraordinary transaction costs

In the wake of Converium's acquisition by SCOR, the Company recorded non-recurring transaction costs in the second quarter of 2007 of USD 24 million, or USD 31 million for the first six months respectively, primarily related to legal, consulting and investment banking fees.

Successful July non-life renewals

In the latest July 1 renewals Converium achieved an excellent growth of 34% or USD 21 million, bringing total renewed open market business to USD 85 million. This increase in premium was mainly recorded in the property line of business where Converium managed to regain previously lost business and to generate new

Edgar Filing: CONVERIUM HOLDING AG - Form 6-K

business, particularly in Australia, the Middle East and Latin America. Overall, the Company was successful in capturing the momentum following the restoration of its A- financial strength rating by Standard & Poor's on February 28, 2007.

As of August 8, 2007, SCOR, as a shareholder, formally controls the company.

About Converium

Converium is an international multi-line reinsurer known for its innovation, professionalism and service. Today Converium employs about 500 people in 15 offices around the globe and is organized into three business segments: Standard Property & Casualty Reinsurance, Specialty Lines and Life & Health Reinsurance. Converium has an "A-" ("strong") financial strength rating (outlook stable) from Standard & Poor's and a "A-" ("excellent") financial strength rating (outlook stable) from A.M. Best Company.

Important Disclaimers

This document contains forward-looking statements as defined in the U.S. Private Securities Litigation Reform Act of 1995. It contains forward-looking statements and information relating to the Company's financial condition, results of operations, business, strategy and plans, based on currently available information. These statements are often, but not always, made through the use of words or phrases such as 'seek to', 'expects', 'aims', 'should continue', 'believes', 'anticipates', 'estimates' and 'intends'. The specific forward-looking statements cover, among other matters, the Company's strategy and management objectives, our growth prospects and our ability to ensure a smooth transition of our business with that of SCOR. Such statements are inherently subject to certain risks and uncertainties. Actual future results and trends could differ materially from those set forth in such statements due to various factors. Such factors include whether we are able to secure an upgrade of our financial strength ratings; our ability to refinance our outstanding indebtedness and increase our use of hybrid capital; uncertainties of assumptions used in our reserving process; risk associated with implementing our business strategies and our capital improvement measures; cyclicity of the reinsurance industry; the occurrence of natural and man-made catastrophic events

Edgar Filing: CONVERIUM HOLDING AG - Form 6-K

with a frequency or severity exceeding our estimates; acts of terrorism and acts of war; changes in economic conditions, including interest and currency rate conditions that could affect our investment portfolio; actions of competitors, including industry consolidation and development of competing financial products; a decrease in the level of demand for our reinsurance or increased competition in our industries or markets; our ability to expand into emerging markets; our ability to enter into strategic investment partnerships; a loss of our key employees or executive officers without suitable replacements being recruited within a suitable period of time; our ability to address material weaknesses we have identified in our internal control environment; political risks in the countries in which we operate or in which we reinsure risks; the passage of additional legislation or the promulgation of new regulation in a jurisdiction in which we or our clients operate or where our subsidiaries are organized; the effect on us and the insurance industry as a result of the investigations being carried out by the US Securities and Exchange Commission, New York's Attorney General and other governmental authorities; our ability to regain past customers following any rating upgrades and the resolution of the investigations being carried out by the US Securities and Exchange Commission, New York's Attorney General and other governmental authorities; changes in our investment results due to the changed composition of our invested assets or changes in our investment policy; failure of our retrocessional reinsurers to honor their obligations or changes in the credit worthiness of our reinsurers; our failure to prevail in any current or future arbitration or litigation; and extraordinary events affecting our clients, such as bankruptcies and liquidations, and other risks and uncertainties, including those detailed in the Company's filings with the U.S. Securities and Exchange Commission (including, but not limited to, our Annual Report on Form 20-F filed with the U.S. Securities and Exchange Commission) and the SWX Swiss Exchange. The Company does not assume any obligation to update any forward-looking statements, whether as a result of new information, future events or otherwise.
