November 05, 2008

UNITED STATES SECURITIES AND EXCHANGE COMMISSION
Washington, D. C. 20549

FORM 10-KSB

(Mark One)

ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d)
OF THE SECURITIES EXCHANGE ACT OF 1934

For the fiscal years ended June 30, 2006, June 30, 2007, June 30, 2008

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d)
OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from ____ to ____

Commission File Number 1-16165

GreenCore Technology, Inc.
(Formerly Aquacell Technologies, Inc.)

(Name of small business issuer in its charter)

Delaware

33-0750453

(State or other jurisdiction of
incorporation or organization)

(I.R.S. Employer
Identification No.)

10410 Trademark Street, Rancho Cucamonga, CA

91730

(Address of principal executive offices)

(Zip Code)

Issuer's telephone number: (909) 987-0456

Securities registered pursuant to Section 12(b) of the Act: None

Securities registered pursuant to Section 12(g) of the Act: Common Stock, par
value \$.001 per share

Check whether the issuer (1) filed all reports required to be filed by
Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding
12 months (or for such shorter period that the issuer was required to file such
reports), and (2) has been subject to such filing requirements for the past
90 days. Yes ___ No X

Check if there is no disclosure of delinquent filers pursuant to Item 405
of Regulation S-B contained herein, and will not be contained, to the best of
issuer's knowledge, in definitive proxy or information statements incorporated
by reference in Part III of this Form 10-KSB or any amendment to this Form
10-KSB. [X]

State issuer's revenues for its most recent fiscal year: \$171,000.00

Edgar Filing: GREENCORE TECHNOLOGY INC - Form 10KSB

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of September 30, 2008, the aggregate market value of the issuer's Common Stock (based on its reported last sale price on the OTC Pink Sheets) held by non-affiliates of the issuer was \$4,475,000.

At September 30, 2008 34,632,888 shares of issuer's Common Stock were outstanding.

EXPLANATORY NOTE

The accompanying Form 10-KSB reports the annual consolidated financial statements for the years ended June 30, 2006, 2007 and 2008, in addition to summary unaudited quarterly financial information for the quarterly periods of 2006, 2007 and 2008.

Edgar Filing: GREENCORE TECHNOLOGY INC - Form 10KSB

PART I

ITEM 1. BUSINESS

Background

GreenCore Technology, Inc. formerly AquaCell Technologies, Inc. (the "Company") was incorporated in Delaware on March 19, 1997, and historically conducted business in the water industry.

In the calendar year ended June 2005, the Company's operations consisted of two operating subsidiaries, Aquacell Media, Inc. and Aquacell Water, Inc. AquaCell Media, operated in the out-of-home advertising segment of the advertising industry. The Company had placed approximately 1400 of its patented self-filling water coolers into retail locations and sold advertising on the bottle label. Aquacell Water, Inc. (formerly Water Science Technologies, Inc.) engaged in the manufacture and sale of products for water filtration and purification, addressing various water treatment applications for municipal, industrial, commercial, and institutional purposes.

On March 9, 2006, the Company separated it's wholly owned subsidiary Aquacell Water, Inc. through a spinoff distribution to its shareholders, registering the spinoff shares on a Form 10 registration statement. Holders of record of the Company's common shares as of the close of business on March 9, 2006, which was the record date, received one share of Aquacell Water common stock for every one share of AquaCell Technologies common stock held, provided they had not sold the shares between the record date and distribution date of April 3, 2006. On May 23, 2006 Aquacell Water began trading on the OTC Bulletin Board as an independent public company.

The year ended June 2007 was a transition year for the Company. The Company exited the out-of-home advertising business and in January 2007, embarked upon a redirection of its business. In May 2007, the Company acquired GPM, Inc. a patent holder and manufacturer of a solar powered air conditioner. Since acquiring GPM, the Company has further developed the product to meet the needs of specific niche market segments that the Company has selected to target.

For the year ended June 2008, the Company's focus has been solely on environmentally friendly or "green" technologies, including the GreenCore solar powered air conditioner and the repositioning of its self-filling water cooler as an eco-friendly product.

Our Products

We manufacture and sell environmentally friendly or "green" products. Unlike many products that are eco-friendly, our products have been designed to save money in comparison to costs for similar traditional products.

Solar Air Conditioning

Following the acquisition of GPM we redesigned and updated the solar powered air conditioner through an aggressive development program, utilizing the services of engineers that specialize in direct current electricity and in refrigeration. We have designed two solar air conditioner models marketed under the GreenCore Air name: GC10200-1, which is a free-standing unit with options to allow for ducted installation or direct discharge; and GC10200-2 which is a mobile system. Our solar powered DC air conditioner provides air conditioning without the high operating cost associated with even the most efficient traditional AC powered air conditioners. These two systems are the flagship products of our business.

Edgar Filing: GREENCORE TECHNOLOGY INC - Form 10KSB

Our GreenCore solar powered air conditioner is a 24-volt, all DC (direct current) air conditioner, designed to be primarily powered by energy generated by photovoltaic (solar) panels and stored in batteries. When power from the sun is not available, the technology developed by the Company allows the systems to automatically switch to utilize the energy stored within the batteries. For complete grid-free applications, the solar array and battery storage is sized to ensure the system will continue to run in the event the sun does not shine for an extended period of time.

3

We have designed our solar powered air conditioner to be either grid-free, or to operate as a hybrid system with AC (alternating current) battery charging capability, allowing the solar array to be smaller. Our system can also be interfaced with existing photovoltaic systems, or with other alternative energy generators such as wind power.

The GreenCore 10200 solar air conditioner, which utilizes R134A refrigerant, produces 10,200 BTUs and is capable of cooling areas up to 600 square feet. The SEER and EER standards for ratings associated with the energy efficiency of air conditioners are not applicable to our DC air conditioner, as these ratings are based upon the amount of electricity used from the electrical grid for BTU exchange. Additionally, as an option, the GreenCore 10200 may be configured to provide both air conditioning and heat, making it a complete climate control system.

Environmentally Friendly "Bottled" Water

We have repositioned our self-filling Aquacell bottled water cooler system as a "green" product, given that it replaces bottled water which is known to have a negative environmental impact. Our self-filling cooler is connected to a tap water source and filtered through an extensive filtration system which includes ultra-violet light for disinfections. The water flows into the permanently attached five-gallon bottle, which refills itself each time water is dispensed, eliminating the need to replace the bottle.

Replacing bottled water with an Aquacell Bottled Water Cooler System can provide significant savings to corporations and other users, in addition to eliminating problems related to storing and handling heavy bottled water.

Environmental Sustainability and Responsibility - Trends in society

Pollution, climate change and depletion of natural energy resources are the most significant environmental problems facing the world today.

According to the EPA, America is shifting to a "green culture" with more and more businesses recognizing that environmental responsibility is everyone's responsibility. While early eco-sensitive companies were often ridiculed, now even the world's largest chemical companies are making bold transformations to improve the environment.

Corporations are faced with developing corporate responsibility and sustainability strategies while maximizing shareholder value, often a difficult task. Their goal is to meet the needs of the present without compromising the needs for future generations. Nearly every major corporation has a "green" initiative, from facility departments, to manufacturing, transportation and marketing.

Environmental Impacts

Edgar Filing: GREENCORE TECHNOLOGY INC - Form 10KSB

Environmental Impact of Air Conditioning

It has been estimated that approximately 16% of all electricity used in the United States is for air conditioning. Despite new environmental standards for efficiency ratings for air conditioning equipment, the demand for air conditioning continues to increase. This increase is primarily due to the increase in the need for cooling IT and data centers. Even as computing equipment becomes smaller, it uses the same or even more electricity than the equipment it replaced, generating as much or more heat in data centers that must be removed in order for the equipment to operate.

According to an EPA report, it is estimated that in 2006, data centers consumed 1.5 percent of the total U.S. electricity consumption, which is expected to double by the year 2011. Fifty percent of the electricity used in data centers is for cooling equipment.

4

Environmental Impact of Bottled Water

Recent reports show that the staggering increase in the sales of bottled water have resulted in nearly 40 billion water bottles being deposited in landfills every year. Cities such as San Francisco, New York and Salt Lake City are restricting or eliminating the sales of bottled water by city offices, and discouraging its use. In addition to the environmental impact of water bottles filling landfills, the manufacturing of plastic water bottles has its own environmental impact. In fact, nearly every step in the bottling process has an environmental impact. The water treatment process often requires bottlers to waste up to six gallons of water for each gallon it produces. A bottler in California received significant fines for the amount of sewer water it generated from its purification process, and acknowledged that their waste water was perfectly suited for consumption. Other bottlers have been cited for the disruption of natural pristine water sources to meet growing demands for bottled water in urban regions. Many locales are refusing to allow water bottling plants to operate in their towns or counties.

Further enhancing the negative environmental impact is the transportation and unnecessary use of fossil fuels. Water is generally transported from the source in tanker trucks to the bottling plant, and then the bottles are re-transported via truck, rail, ship or sometimes even air. At more than eight pounds per gallon, trucks that transport water generally are not able to carry a full load of bottles.

According to the Pacific Institute, it is estimated that producing the bottles for American consumption of bottled water in 2006 required the equivalent of more than 17 million barrels of oil. Overall, the average energy cost to make the plastic, fill the bottle, transport it to market and then deal with the waste would be like filling up a quarter of every bottle with oil.

Marketing

For the initial introduction of our revolutionary solar powered air conditioner, we participated in various solar related trade shows, and have taken our off-grid mobile showroom to a number of locations. The mobile showroom, which utilizes a 48 foot semi trailer, is outfitted with the GreenCore solar powered air conditioner model 10200-1, as well as with the earth-friendly Aquacell 1000 self-filling water cooler. All electricity for

Edgar Filing: GREENCORE TECHNOLOGY INC - Form 10KSB

the showroom is generated by solar panels mounted on the roof, powering the air conditioner, water cooler, lights, computers and other items.

We were invited to participate in several Earth Day related events for Universal Studios, 20th Century Fox, LA Community College and the Los Angeles Metro Water District. Additionally, we provided off-grid air conditioning to the American Idol Season Finale VIP Party.

Our target markets for the solar powered air conditioner include commercial locations with a small footprint that requires cooling and may have limited access to reliable electricity. The applications include modular classroom and offices, construction trailers and telecommunication data centers.

We have placed our marketing emphasis on applications that traditionally utilize Single Package Vertical Unit (SPVU) air conditioners. SPVUs are a product classification of ASHRAE (American Society of Heating, Refrigeration and Air Conditioning Engineers) which have been exempted from the Department of Energy's efficiency requirements, allowing for an energy efficiency rating of 8.6. Replacing air conditioners of this low rating allows the Company to provide significant reduction in operating costs. These air conditioners are typically used in modular classrooms, construction trailers and telecommunication data centers.

We have also set up distributors in the Baja region of Mexico and the State of Texas. We have appointed agents to establish distribution networks in key marketing areas, including the Middle East and Europe. Additionally, we are in the process of reviewing applications and interviewing for distributors both domestic and international.

Target markets for our Aquacell Bottled Water Cooler System include commercial entities desiring to promote an eco-friendly workplace, while saving money in comparison to delivered bottled water costs. The Company is looking to establish a marketing partner for this product.

5

Aquacell Water, Inc.

In March 2002 the Company acquired Water Science Technologies (WST) and in August 2005 changed its name to Aquacell Water, Inc. Aquacell Water manufactures custom designed turnkey water purification and treatment systems for municipal, industrial and commercial applications, with concentration and expertise in arsenic removal systems for public drinking water providers.

Depending upon the source of the water - ground water, surface water or seawater - its content and the required quality of the treated water, Aquacell Water builds a custom system designed to meet the specifications of the end user. We engineer and design the systems we produce to ensure that we meet the needs of our customers, and provide installation, maintenance and training, with an emphasis on arsenic removal for public drinking water systems.

In March 2006, Aquacell Water, Inc. was separated from the Company in a distribution to the Company's shareholders.

Customers

Our GreenCore Air customers include various distributors established by the Company, who have distributed our solar air conditioners to companies including McDonald's and MetroPCS. We also have sold systems directly to the US government's Naval Research Laboratories.

Edgar Filing: GREENCORE TECHNOLOGY INC - Form 10KSB

Our Aquacell Water Cooler customers include a broad range of corporations and government entities,,

Production, Raw Materials and Supplies

Our products are manufactured in our 10,000 square foot manufacturing facility located in Rancho Cucamonga, California,

Upon completion of manufacture, each product undergoes quality assurance testing prior to shipping and installation. Many of the raw materials and components used in our products are commonly available commodities such as fittings, and tubing, while others are specifically manufactured to our specifications in accordance with our proprietary technology. Our products are fabricated from these materials and assembled together to form an integrated product. Multiple vendors have been identified as sources for most parts and supplies for our products and we do not anticipate any shortages of such materials. We have dependence on certain single source suppliers for some of our parts. If any supplier were to become unable to perform, we believe we could readily find a substitute source for most products, while others may take longer to find a suitable substitute source. We are not a party to any material long-term fixed price supply contracts.

Government Regulation

The market for alternative energy products is strongly influenced by federal, state and local government regulations and policies. In the United States these regulations and policies are modified from time to time. Customer purchases of alternative energy products could be deterred by these regulations and policies and their modifications, which could affect the potential demand for our products.

Any changes in applicable regulations or their enforcement may affect our operations by imposing additional regulatory compliance costs on our customers, requiring modification of our products or affecting the market for our products. To the extent that demand for our products are created by the need to comply with such enhanced standards or their enforcement, any modification of the standards or their enforcement may reduce demand, thereby adversely affecting our business, financial condition or results of operations. The relaxation or repeal of any such laws or regulations or the strict enforcement thereof could also adversely affect our business and prospects. Conversely, changes in applicable environmental requirements imposing additional regulatory compliance requirements or causing stricter enforcement of these laws or regulations could increase the demand for our products.

6

Competition

While we believe that we can deliver our products on an economically competitive basis, there can be no assurance in that regard. Consequently, we may encounter significant competition in our efforts to achieve our strategic goals. There can be no assurance that our competitors will not develop products that are superior to ours or achieve greater market acceptance than our products. Competition could have a material adverse effect on our ability to consummate arrangements with customers or enter into strategic business alliances. Moreover, in response to changes in the competitive environment, we may make certain pricing, service or marketing decisions or enter into acquisitions or new ventures that could have a material adverse effect on our business, financial condition and results of operations.

Edgar Filing: GREENCORE TECHNOLOGY INC - Form 10KSB

Intellectual Property

We own a United States patent on solar powered air conditioning. We intend to seek appropriate additional trademark or service mark registrations in connection with our product and service offerings.

Employees

As of June 30, 2008 we had 12 employees. None of our employees are covered under collective bargaining agreements although we do have employment agreements with certain executives. Management believes we maintain a good relationship with our employees.

ITEM 2. PROPERTIES

Our principal executive office and our 10,000 square foot manufacturing facility are located in Rancho Cucamonga, California under a five-year lease that commenced on January 1, 1999 and expires on December 31, 2009. That lease has an annual base rent of \$86,000. We believe that, if necessary, alternative space is readily available at comparable rates and on comparable terms with respect to all of our leased properties. We also believe that we can obtain additional space necessary to support increases in our future operation. We believe that the properties described above are currently protected by adequate insurance.

ITEM 3. LEGAL PROCEEDINGS

The Company is a defendant, along with other parties, in an action in the Superior Court of the State of California, San Bernardino County, commenced in April 2008 by SolCool, LLC, a former distributor for the Company. The plaintiff is claiming approximately \$235,000 in damages arising from an alleged breach of contract of a distribution agreement between the parties. The Company has interposed a counterclaim in excess of the amount sought by the plaintiff for breach of the aforesaid distribution agreement and trade name infringement. The Company is vigorously defending the lawsuit, which is in its initial stages, and accordingly, no firm prediction as to the outcome of the lawsuit can be made at this time.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

In June 2008 the Company solicited the written consent of a majority of its stockholders pursuant to the provisions of Delaware General Corporation Law Section 228 to amend its Certificate of Incorporation changing the company name to GreenCore Technology, Inc. and increasing the number of authorized common shares from 75,000,000 to 200,000,000. A majority of stockholders consented to amend the proposed amendment, which was filed with the Delaware Secretary of State on June 30, 2008.

7

PART II

ITEM 5. MARKET FOR COMMON EQUITY AND RELATED STOCKHOLDER MATTERS

The Company's Common Stock commenced quotation on the American Stock Exchange on February 12, 2001 following its initial public offering. The

Edgar Filing: GREENCORE TECHNOLOGY INC - Form 10KSB

following table sets forth, for the periods indicated, the last sale prices for the Common Stock as reported by American Stock Exchange:

Period -----	High (\$) -----	Low (\$) -----
Fiscal 2009		
October 1 - October 15.....	\$ 0.13	\$ 0.06
First Quarter.....	0.22	0.13
Fiscal 2008		
Fourth Quarter.....	\$ 0.35	\$ 0.16
Third Quarter.....	0.32	0.17
Second Quarter.....	0.57	0.18
First Quarter.....	0.49	0.23
Fiscal 2007		
Fourth Quarter.....	\$ 0.63	\$ 0.35
Third Quarter.....	0.23	0.09
Second Quarter.....	0.30	0.01
First Quarter.....	0.08	0.05
Fiscal 2006		
Fourth Quarter.....	\$ 0.28	\$ 0.07
Third Quarter.....	0.33	0.16
Second Quarter.....	0.55	0.15
First Quarter.....	0.68	0.36

In March 2006, the Company separated it's wholly owned subsidiary Aquacell Water, Inc. from itself through a distribution to its shareholders. In May 2006 Aquacell Water began trading as an independent public company.

On September 30, 2008 the last sale price of the Common Stock as reported by Pink Sheets was \$0.17. On September 30, 2008, there were approximately 135 holders of record of the Company's Common Stock and, the Company believes, approximately 1300 beneficial owners of the Company's Common Stock.

Depending upon the Company's capital resources and needs, the Company has no present plans to pay cash dividends in the future. The payment of dividends on common stock, if any, in the future is within the discretion of the Board of Directors and will depend upon the Company's earnings, its capital requirements and financial condition, and other relevant factors, although this may change based upon the foregoing factors.

8

Recent Sales of Unregistered Securities

During the year ended June 30, 2007 the Company made the following sales of unregistered securities:

Date of Sale -----	Title of Security -----	Number Sold -----	Consideration Received and Description of Underwriting or Other Discounts to Market Price Afforded to Purchasers -----	Exemption From Registration Claimed -----

ITEM 6. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

When used in this Form 10-KSB and in future filings by the company with the Commission, statements identified by the words "believe", "positioned", "estimate", "project", "target", "continue", "will", "intend", "expect", "future", "anticipates", and similar expressions express management's present belief, expectations or intentions regarding the company's future performance within the meaning of the Private Securities Litigation Reform Act of 1995. The safe harbor in the Private Securities Litigation Act of 1995 does not apply to statements made in this document. Readers are cautioned not to place undue reliance on any such forward-looking statements, each of which speaks only as of the date made. Such statements are subject to certain risks and uncertainties that could cause actual results to differ materially from historical earnings and those presently anticipated or projected. The company has no obligations to publicly release the result of any revisions which may be made to any forward-looking statements to reflect anticipated or unanticipated events or circumstances occurring after the date of such statements.

Overview

The following discussions and analysis should be read in conjunction with the Company's consolidated financial statements and the notes presented following the financial statements. The discussion of results, causes and trends should not be construed to imply any conclusion that such results or trends will necessarily continue in the future.

In the calendar year ended December 2005, the Company's operations consisted of two operating subsidiaries, Aquacell Media, Inc. and Aquacell Water, Inc. AquaCell Media, operated in the out-of-home advertising segment of the advertising industry. The Company had placed approximately 1,400 of its patented self-filling water coolers into retail locations and sold advertising

Edgar Filing: GREENCORE TECHNOLOGY INC - Form 10KSB

on the bottle label. Aquacell Water, Inc. (formerly Water Science Technologies, Inc.) engaged in the manufacture and sale of products for water filtration and purification, addressing various water treatment applications for municipal, industrial, commercial, and institutional purposes.

On March 9, 2006, the Company separated its wholly owned subsidiary Aquacell Water, Inc. from itself through a distribution to its shareholders.

10

The year ended June 2007 was a transition year for the Company. The Company exited the out-of-home advertising business and in January 2007, embarked upon a redirection of its business. In May 2007, the Company acquired GPM, Inc. a patent holder and manufacturer of a solar powered air conditioner. Since acquiring GPM, the Company has further developed the product to meet the needs of specific niche market segments that the Company has selected to target.

For the year ended June 2008, the Company's focus has been solely on environmentally friendly or "green" technologies, including the GreenCore solar powered air conditioner and the repositioning of its self-filling water cooler as an eco-friendly product.

Following the Company's acquisition of GPM in May 2007 the DC solar powered air conditioner has been in the engineering and development stage just recently being marketed by the Company and installed in limited locations. As such, the Company's revenue has been minimal during the years ended June 30, 2007 and 2008 with sales and marketing efforts commencing in July 2008.

The Registrant, a small business issuer with limited resources, has been behind in filing its periodic reports since March 2006. In an effort to become current the company has focused its attention and resources on completing its past due financial audits by filing a comprehensive Form 10-KSB covering the fiscal years ended 2006, 2007 and 2008.

Critical Accounting Policies

The accompanying discussion and analysis of our financial condition and results of operations are based upon our financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America ("US GAAP"). The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues, and expenses, and related disclosure of contingent assets and liabilities. These estimates form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. We base our estimates and judgments on historical experience and all available information. However, future events are subject to change, and the best estimates and judgments routinely require adjustment. US GAAP requires us to make estimates and judgments in several areas, including those related to recording various accruals, income taxes, the useful lives of long-lived assets, such as property and equipment and intangible assets, and potential losses from contingencies and litigation. We believe the policies discussed below are the most critical to our financial statements because they are affected significantly by management's judgments, assumptions and estimates.

Goodwill

Goodwill represents the excess of the purchase price over the fair value of net assets of a business acquired. The Company has adopted Statements of Financial Accounting Standards No. 142 (SFAS 142), "Goodwill and Other

Edgar Filing: GREENCORE TECHNOLOGY INC - Form 10KSB

Intangible Assets". Fair value of the reporting unit is determined by comparing the fair value of the unit with its carrying value, including goodwill. Impairment tests are performed using discounted cash flow analysis and estimates of sales proceeds. The annual evaluation of goodwill is performed at June 30th, the end of the Company's fiscal year.

Based on impairment testing performed, the Company determined that there was no impairment of the recorded amount of goodwill of \$750,000 related to the GPM acquisition at June 30, 2007 and 2008.

Income Taxes

The Company accounts for income taxes using the asset and liability method described on SFAS No. 109, "Accounting For Income Taxes", the objective of which is to establish deferred tax assets and liabilities for the temporary differences between the financial reporting and the tax bases of Water's assets and liabilities at enacted tax rates expected to be in effect when such amounts are realized or settled. A valuation allowance related to deferred tax assets is recorded when it is more likely than no that some portion or all of the deferred tax assets will not be realized.

11

New Accounting Pronouncements

In June 2006, the FASB issued FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes" (FIN 48), an interpretation of SFAS 109, "Accounting for Income Taxes." FIN 48 clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with SFAS 109. FIN 48 prescribes a two-step process to determine the amount of tax benefit to be recognized. First, the tax position must be evaluated to determine the likelihood that it will be sustained upon examination. If the tax position is deemed "more-likely-than-not" to be sustained, the tax position is measured at the largest amount of benefit that is greater than 50 percent likely of being realized upon ultimate settlement. FIN 48 was adopted by the Company in fiscal 2008 and did not have any impact on its consolidated results of operations and financial position.

In September 2006, the FASB issued SFAS 157, "Fair Market Measurements." SFAS 157 clarifies the definition of fair value, establishes a framework for measuring fair value and expands disclosure on fair value measurement. SFAS 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007, and will be applied on a prospective basis. The Company does not expect the adoption of SFAS 157 to have a material impact on its consolidated results of operations, financial position or cash flows.

In February 2007, the FASB issued SFAS 159, "The Fair Value Option for Financial Assets and Financial Liabilities." SFAS 159 permits entities to measure many financial instruments and certain other items at fair value at specified election dates. Under SFAS 159, any unrealized holding gains and losses on items for which the fair value option has been elected are reported in earnings at each subsequent reporting date. If elected, the fair value option (1) may be applied instrument by instrument, with a few exceptions, such as investments otherwise accounted for by the equity method; (2) is irrevocable (unless a new election date occurs); and (3) is applied only to entire instruments and not to portions of instruments. SFAS 159 is effective as of an entity's first fiscal year that begins after November 15, 2007. The Company is currently evaluating the potential impact of SFAS 159 on its consolidated results of operations and financial position.

Edgar Filing: GREENCORE TECHNOLOGY INC - Form 10KSB

In December 2007, the FASB issued SFAS 141 (revised 2007), "Business Combinations". SFAS 141R is a revision to SFAS 141 and includes substantial changes to the acquisition method used to account for business combinations (formerly the "purchase accounting" method), including broadening the definition of a business, as well as revisions to accounting methods for contingent consideration and other contingencies related to the acquired business, accounting for transaction costs, and accounting for adjustments to provisional amounts recorded in connection with acquisitions. SFAS 141R retains the fundamental requirement of SFAS 141 that the acquisition method of accounting be used for all business combinations and for an acquirer to be identified for each business combination. SFAS 141R is effective for periods beginning on or after December 15, 2008, and will apply to all business combinations occurring after the effective date. The Company is currently evaluating the potential impact of SFAS 141R on its consolidated financial statements.

In December 2007, the FASB issued SFAS 160, "Non-controlling Interests in Consolidated Financial Statements - an amendment of Accounting Research Bulletin No. 51, Consolidated Financial Statements" ("ARB 51"). This Statement amends ARB 51 to establish new standards that will govern the (1) accounting for and reporting of non-controlling interests in partially owned consolidated subsidiaries and (2) the loss of control of subsidiaries. Non-controlling interest will be reported as part of equity in the consolidated financial statements. Losses will be allocated to the non-controlling interest, and, if control is maintained, changes in ownership interests will be treated as equity transactions. Upon a loss of control, any gain or loss on the interest sold will be recognized in earnings. SFAS 160 is effective for periods beginning after December 15, 2008. The Company is currently evaluating the potential impacts of SFAS 160 on its consolidated results of operations and financial position.

In March 2008, the FASB issued ASAS No. 161, "Disclosure about Derivative Instruments and Hedging Activities, an amendment of FASB Statement No. 133" (SFAS 161), which establishes, among other things, the disclosure requirements for derivative instruments and hedging activities. SFAS 161 requires qualitative disclosures about objectives and strategies for using derivatives, quantitative disclosures about fair value amounts of and gains and losses on derivative instruments, and disclosures about credit-risk-related contingent features in derivative agreements. SFAS 161 is effective for fiscal periods and interim period beginning after November 15, 2008. The Company does not expect the adoption of SFAS 161 to have a material impact on its consolidated results of operations, financial position or cash flows.

12

Results of Operations

For the year ended June 30, 2008 revenues were \$171,000 representing an increase of \$24,000, or 16%, over the preceding year. This increase was minimal and related primarily to the continued sale of water coolers and peripheral water cooler filters as the Company works down product in its inventory. Sales and marketing efforts related to the DC solar powered air conditioner began in late fiscal 2008 at the completion of the engineering and development effort on the product, which effort did not result in any material product sales during fiscal 2008.

Operating expenses for the year ended June 30, 2008 totaled \$2,483,000 as compared to the \$2,107,000 for the preceding year. This increase is primarily due to stock based compensation.

Net loss for the year ended June 30, 2008 was \$4,284,000, an increase of \$1,985,000 from the net loss incurred for the year ended June 30, 2007 of

Edgar Filing: GREENCORE TECHNOLOGY INC - Form 10KSB

\$2,299,000. This increase in net loss of \$1,795,000 was due almost entirely to the increase in interest expense of \$1,601,000 related to the Company's financing which began in late fiscal 2007 of its 9% Convertible Promissory Notes.

For the year ended June 30, 2007 revenues were \$147,000, approximately the same as the \$203,000 in revenue for the preceding fiscal year. The minimal amount in revenue during fiscal 2007 was the result of the Company's decision to transition from the out-of-home advertising business and in January 2007 and concentrate on the engineering and development of its DC solar powered air conditioner related to the May 2007 acquisition of GPM, the patent holder and manufacturer of a solar powered air conditioner.

Operating expenses totaled \$2,107,000 representing a decrease of \$1,391,000, or 40%, from the preceding year. This decrease was due primarily to the full amortization in fiscal 2006 of the fair value of certain Warrants to purchase common stock issued in fiscal 2003 and 2004 in connection with marketing and consulting agreements related to the Company's out-of-home advertising and water cooler sale business. Due to the Company's decision to transition from this business the fair value of these Warrants were deemed fully impaired and the resulting charge of approximately \$1,300,000 is included in stock based compensation expense in the June 30, 2006 consolidated statement of operations.

Net loss for the year ended June 30, 2007 was \$2,299,000 representing a decrease of \$3,373,000 from the preceding year. This decrease was due almost entirely to the Company's March 9, 2006 separation from its wholly owned subsidiary Aquacell Water, Inc. and the resulting loss on disposal of assets, loss from discontinued operations and loss from Form 10 spin-off recorded during the year ended June 30, 2006 of \$684,000, \$650,000 and \$750,000, respectively.

QUARTERLY FINANCIAL INFORMATION (Unaudited)

The following tables contain the 2008 and 2007 unaudited consolidated balance sheets as of September 30, December 31 and March 31 and the consolidated statements of operations for the three month periods ended September 30, December 31, March 31 and June 30 of 2008 and 2007. Management believes that the following information reflects all normal recurring adjustments necessary for a fair presentation of the information for the periods presented.

Unaudited quarterly results are as follows:

Liquidity and Capital Resources

Year Ended June 30, 2008

GreenCore has developed a plan to address liquidity, in connection with its ability to continue as a going concern in several ways. It intends to raise capital through the sale or exercise of equity securities as needed for working capital. GreenCore presently has no agreement or understanding with any party to market, sell or purchase its equity securities. Any future equity offering undertaken will be predicated upon the price of the stock and cash flows generated from operations. GreenCore will strive to pursue the increase of its revenues through the sale of its DC solar powered air conditioner through its sales and marketing effort. It is our policy to require a 50% deposit on all custom product sales providing a significant cash flow as our revenues increase. It is not possible to quantify such amounts at this time.

Cash used by operations during the year ended June 30, 2008 amounted to \$2,076,000. Net loss of \$4,284,000 was reduced by non-cash deferred compensation interest amortization of \$454,000, interest payments settled with stock issuances of \$1,167,000, compensation expense of \$383,000, expenses settled with common stock issuances of \$100,000, and depreciation and amortization of \$73,000.

Cash provided by financial activities was approximately \$370,000, primarily from the sale convertible notes payable.

Edgar Filing: GREENCORE TECHNOLOGY INC - Form 10KSB

Management believes that its anticipated borrowings, equity raise and cash flows expected to be generated from future operations will be sufficient to meet presently anticipated needs for working capital and capital expenditures through at least the next 12 months; however, there can be no assurance in that regard. Water presently has no material commitments for future capital expenditures and internally generated cash flows expected from future operations.

Year Ended June 30, 2007

Cash used by operations during the year ended June 30, 2007 amounted to \$1,983,000. Cash provided by financing activities was approximately \$4,287,000, primarily from the sale of convertible promissory notes.

Management believes that its anticipated borrowings, equity raise and cash flows expected to be generated from future operations will be sufficient to meet presently anticipated needs for working capital and capital expenditures through at least the next 12 months; however, there can be no assurance in that regard. Water presently has no material commitments for future capital expenditures and internally generated cash flows expected from future operations.

Year Ended June 30, 2006

Cash used by operations during the year ended June 30, 2006 amounted to \$1,893,000. Net loss of \$5,672,000 was reduced by non cash loss on disposal of assets, depreciation and amortization, compensation expense, loss from spin-off of Aquacell Water totaling approximately \$3,000,000.

Cash provided by financing activities was approximately \$1,801,000, primarily from the sale of equity common stock.

Management believes that its anticipated borrowings, equity raise and cash flows expected to be generated from future operations will be sufficient to meet presently anticipated needs for working capital and capital expenditures through at least the next 12 months; however, there can be no assurance in that regard. Water presently has no material commitments for future capital expenditures and internally generated cash flows expected from future operations.

18

ITEM 7. FINANCIAL STATEMENTS

See Financial Statements beginning on page F-1.

ITEM 8. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

On May 2, 2007 the Company received notification that the Company's former accountant Wolinetz, Lafazan & Company, P.C. resigned as of April 30, 2007. The audit report of the former accountant on the financial statements of the Registrant for the last fiscal year reported, June 30, 2005, did not contain an adverse opinion or disclaimer of opinion and was not qualified or modified as to uncertainty, audit scope or accounting principles, except that the former accountant's report on the registrant's financial statements expressed substantial doubt with respect to the Registrant's ability to continue as a going concern for the fiscal year ended June 30, 2005. The decision to resign was solely that of the former accountant into which the Board of Directors had no input.

Edgar Filing: GREENCORE TECHNOLOGY INC - Form 10KSB

There were no disagreements, whether or not resolved, with the former accountant on any matter of accounting principles or practices, financial statement disclosure or auditing scope or procedure, which, if not resolved to the former accountant's satisfaction, would have caused it to make reference to the subject matter of the disagreement(s).

On May 8, 2007, KMJ Corbin & Company LLP ("KMJ") was engaged as the independent registered public accounting firm to audit the registrant's financial statements. During the Registrant's two most recent fiscal years and through May 8, 2007, neither the Registrant nor anyone on its behalf has consulted with KMJ regarding either (i) the application of accounting principles to a specified transaction, either completed or proposed; or the type of audit opinion that might be rendered on the Registrant's financial statements, and neither a written report was provided to the Registrant nor oral advice was provided by KMJ that was an important factor considered by the Registrant in reaching a decision as to any accounting, auditing or financial reporting issue; or (ii) any matter that was the subject of a disagreement, as that term is defined in Item 304 (a) (1) (iv) of Regulation S-K and the related instructions to Item 304 of Regulation S-K, or a reportable event, as that term is defined in Item 304 (a) (1) (v) of Regulation S-K.

On February 25, 2008, the audit committee of the Company's Board of Directors dismissed its former independent registered public accounting firm KMJ Corbin & Company LLP ("KMJ"). KMJ was retained by the Company in May 2007 and never issued any report on the Company's financial statements. There were no disagreements, whether or not resolved, with the former accountant on any matter of accounting principles or practices, financial statement disclosure or auditing scope or procedure, which, if not resolved to KMJ's satisfaction, would have caused it to make reference to the subject matter of the disagreement(s).

As of February 25, 2008, PS Stephenson & Co. PC has been engaged as the principal accountant to audit the Company's financial statements. During the Registrant's two most recent fiscal years and through February 25, 2008, neither the Registrant nor anyone on its behalf has consulted with PS Stephenson & Co., PC regarding either (i) the application of accounting principles to a specified transaction, either completed or proposed; or the type of audit opinion that might be rendered on the Registrant's financial statements, and neither a written report was provided to the Registrant nor oral advice was provided by PS Stephenson & Co., PC that was an important factor considered by the Registrant in reaching a decision as to any accounting, auditing or financial reporting issue; or (ii) any matter that was the subject of a disagreement, as that term is defined in Item 304 (a) (1) (iv) of Regulation S-K and the related instructions to Item 304 of Regulation S-K, or a reportable event, as that term is defined in Item 304 (a) (1) (v) of Regulation S-K.

19

ITEM 8A. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

Our management, with the participation of our Principal Executive Officer and our Principal Financial Officer, conducted an evaluation of the effectiveness of our disclosure controls and procedures as of the end of the periods covered by this Annual Report (June 30, 2008, June 30, 2007 and June 30, 2006), as is defined in Rule 13a-15(e) promulgated under the Securities Exchange Act of 1934, as amended. Our disclosure controls and procedures are intended to ensure that the information we are required to disclose in the reports that we file or submit under the Securities Exchange Act of 1934 is (i) recorded, processed, summarized and reported within the time periods specified in the

Edgar Filing: GREENCORE TECHNOLOGY INC - Form 10KSB

Securities and Exchange Commission's rules and forms and (ii) accumulated and communicated to our management, including the Principal Executive Officer and Principal Financial Officer to allow timely decisions regarding required disclosures.

Based on that evaluation, our Principal Executive Officer and Principal Financial Officer concluded that, as of the end of the period covered by this Annual Report, our disclosure controls and procedures were ineffective. The failure to file annual reports for 2006 and 2007 and the failure to timely file this annual report for 2008 leads to the conclusion that the disclosure controls and procedures were not effective. As of the date of this report, the Company has added the further step of fully discussing with its outside advisors whether they are aware of any new SEC rules and regulations affecting our disclosure requirements and whether each report being filed is compliant with current rules and regulations. Our management has concluded that the financial statements included in this Form 10-KSB present fairly, in all material respects our financial position, results of operations and cash flows for the periods presented in conformity with generally accepted accounting principles.

It should be noted that any system of controls, however well designed and operated, can provide only reasonable, and not absolute, assurance that the objectives of the system will be met. In addition, the design of any control system is based in part upon certain assumptions about the likelihood of future events.

Management's Report on Internal Control Over Financial Reporting

Management is responsible for establishing and maintaining adequate internal control over our financial reporting (as defined in Rule 13a-15(f) and 15d-15(f) of the Exchange Act). Internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with accounting principles generally accepted in the United States of America.

Our internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of our assets, (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with accounting principles generally accepted in the United States of America, and that our receipts and expenditures are being made only in accordance with authorizations of our management and directors, and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate. Our management, with the participation of our Principal Executive Officer and Principal Financial Officer, conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this evaluation, our Principal Executive Officer and Principal Financial Officer concluded that, as of the end of the period covered by this Annual Report, our internal control over financial reporting was effective.

Edgar Filing: GREENCORE TECHNOLOGY INC - Form 10KSB

This Annual Report does not include an attestation report of our independent registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by our independent registered public accounting firm pursuant to temporary rules of the Securities and Exchange Commission that permit us to provide only management's report in this Annual Report.

Changes in Internal Control Over Financial Reporting

During our most recent fiscal quarter, there have been no changes in our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect our internal control over financial reporting.

ITEM 8B. OTHER INFORMATION

None.

21

PART III

ITEM 9. DIRECTORS AND EXECUTIVE OFFICERS, PROMOTERS AND CONTROL PERSONS; COMPLIANCE WITH SECTION 16(a) OF THE EXCHANGE ACT.

Name -----	Age ---	Position -----	Director Since -----	Term Expires -----
James C. Witham	67	Chairman of the Board and Chief Executive Officer	1998	December 2009
Kevin Spence	52	President and Chief Financial Officer	N/A	N/A

(1) Member of Audit Committee and Compensation Committee

Edgar Filing: GREENCORE TECHNOLOGY INC - Form 10KSB

James C. Witham founded AquaCell Technologies/GreenCore Technology and has served as its Chairman and Chief Executive Officer since the Company's inception. Mr. Witham also serves as Chairman of the Board and Chief Executive Officer of Aquacell Water, Inc. From April, 1987 through May, 1996, Mr. Witham founded and served as Chairman, Chief Executive Officer and President of U.S. Alcohol Testing. Mr. Witham also served as Chairman and Chief Executive Officer of U.S. Alcohol's two publicly held subsidiaries, U.S. Drug Testing, Inc. and Good Ideas Enterprises, Inc. Mr. Witham is the husband of Karen B. Laustsen, Chief Operating Officer of GreenCore.

Kevin L. Spence was appointed President and Chief Financial Officer of AquaCell Technologies/GreenCore Technology effective January 2007. Mr. Spence also serves as President and Chief Financial Officer of Aquacell Water, Inc. From January, 2004 through January 2007 he served as President of Citation Publishing, Inc. a privately held company. From June, 2001 through June, 2003 Mr. Spence served as Chief Financial Officer of Swiftcomm, Inc. a privately held company. From 1992 to 2000 Mr. Spence was Executive Vice President and Chief Financial Officer of US Filter Corporation, a Fortune 500 global provider of water and wastewater treatment systems and services. Prior to his employment at US Filter, Mr. Spence was an audit partner at KPMG Peat Marwick.

Karen B. Laustsen was a founder of AquaCell Technologies/GreenCore Technology. She served as its President, Chief Operating Officer, Secretary, and as a Director until January 2007, and currently serves as its Chief Operating Officer, Secretary, and as a Director. Ms. Laustsen also served as President, Chief Operating Officer, Secretary and as a Director of Aquacell Water, Inc. until January 2007, and currently serves as Chief Operating Officer, Secretary, and as a Director. From April, 1987 through May, 1996, Ms. Laustsen served as Executive Vice President and a Director of U.S. Alcohol Testing of America, Inc. Ms. Laustsen also served on the Board of Directors of U.S. Drug Testing, Inc. and Good Ideas Enterprises, Inc. Ms. Laustsen is the wife of James C. Witham, Chairman of GreenCore.

William DiTuro has been a Director of AquaCell Technologies/GreenCore Technology since 1998. Dr. DiTuro was self-employed as a sole practitioner of general pediatrics from 1986 through 2005 and has served as a clinical instructor of pediatrics at the Robert Wood Johnson Medical School. Dr. DiTuro currently serves as a Director of Aquacell Water, Inc. Dr. DiTuro previously served as a Director of U.S. Alcohol, U.S. Drug Testing, Inc. and Good Ideas Enterprises, Inc.

22

Glenn A. Bergenfield has been a Director of AquaCell Technologies/GreenCore Technology since 1998. Since 1983, Mr. Bergenfield has been self-employed as a sole practitioner of law in the State of New Jersey. Mr. Bergenfield currently serves as a Director of Aquacell Water, Inc. Mr. Bergenfield previously served as a Director of U.S. Alcohol, and as a Director of U.S. Drug Testing, Inc. and Good Ideas Enterprises, Inc.

James Barton was appointed as a Director of AquaCell Technologies/GreenCore Technology in 2005. He is presently a Manager of Michigan Ornamental Metals, a privately held company. Mr. Barton currently serves as a Director of Aquacell Water, Inc.

Independence of Directors

The Board of Directors consults with counsel to ensure that the Board's determinations are consistent with those rules and relevant securities and other laws regarding director independence. Consistent with these

Edgar Filing: GREENCORE TECHNOLOGY INC - Form 10KSB

considerations, the Board of Directors has affirmatively determined that Glenn Bergenfield, William DiTuro and James Barton will be independent directors for the ensuing year. The remaining directors are not independent because they are employed by the company. The independent directors constitute the audit, nominating and compensation committees.

Compensation Committee Interlocks and Insider Participation

The Company's independent directors act as the compensation committee of the Company.

Audit Committee and Audit Committee Financial Expert

The Company's audit committee was established in July 2005 and is currently comprised of Glenn Bergenfield, William DiTuro and James Barton.

Our Board has determined that it does not have a member of its Audit Committee that qualifies as an "audit committee financial expert" as defined in Item 401(e) of Regulation S-B, and is "independent" as the term is used in Item 7(d) (3) (iv) of Schedule 14A under the Exchange Act.

We believe that retaining an independent director who would qualify as an "audit committee financial expert" would be overly costly and burdensome and is not warranted in our current circumstances.

Code of Ethics

The Board adopted a Code of Ethics in 2004 that applies to, among other persons, Board members, officers including our Chief Executive Officer and Chief Financial Officer, contractors, consultants and advisors. Our Code of Ethics sets forth written standards designed to deter wrongdoing and to promote:

1) honest and ethical conduct, including the ethical handling of actual or apparent conflicts of interest between personal and professional relationships;

2) full, fair, accurate, timely and understandable disclosure in reports and documents that we file with or submit to the SEC and in other public communications made by us;

3) compliance with applicable governmental laws, rules and regulations;

4) the prompt internal reporting of violations of the Code of Ethics to an appropriate person or persons identified in the Code of Ethics; and

5) accountability for adherence to the Code of Ethics.

A copy of the Code of Ethics is filed as an exhibit to this report. A copy of this report may be obtained upon written request.

Compliance with Section 16(a) of the Exchange Act

Section 16(a) of the Exchange Act requires our executive officers, directors and persons who beneficially own more than ten percent of the common stock to file reports of ownership and changes in ownership with the SEC, as well as providing us with copies of those reports. For the years ended June 30, 2006 and June 30, 2007 all such reports were timely filed. For the year ended June 30, 2008, each of the persons set forth in the table above failed to file one report on Form 4 related to an option grant in February, 2008. Each of those

Edgar Filing: GREENCORE TECHNOLOGY INC - Form 10KSB

persons subsequently filed a corrective report on Form 5. As of the date of this filing, we believe that our executive officers and directors are current in their Section 16 filings.

ITEM 10. EXECUTIVE COMPENSATION

Mr. Witham and Ms. Laustsen entered into five year employments which expire in November, 2010. Mr. Spence entered into an employment agreement which expires in December 2011.

Name and Principal Position	Year	Annual Compensation		Long-Term Compensation		
		Salary (\$) (1) (2) (3)	Bonus (\$) (4)	Options Granted (5) (6) (7)	All Other Compensation

Notes to Consolidated Financial Statements.....F-8

Report of Independent Registered Public Accounting Firm

To The Board of Directors of
GreenCore Technology, Inc. and Subsidiaries

We have audited the accompanying consolidated balance sheets of GreenCore Technology, Inc. (formerly known as Aquacell Technologies, Inc.) and Subsidiaries as of June 30, 2008, 2007 and 2006, and the related consolidated statements of operations, stockholders' deficit, and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with generally accepted auditing standards as established by the U.S. Auditing Standards Board and in accordance with the auditing standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the 2008, 2007 and 2006 consolidated financial statements referred to above present fairly, in all material respects, the financial position of GreenCore Technology, Inc. and Subsidiaries as of June 30, 2008, 2007 and 2006, and the results of its operations and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 1 to the consolidated financial statements, the Company has suffered recurring losses from operations that raise substantial doubt about its ability to continue as a going concern. Management's plans regarding these matters are described in Note 1. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

/s/ PS Stephenson & Co. PC

GREENCORE TECHNOLOGY, INC. AND SUBSIDIARIES Notes to Consolidated Financial Statements

1. Organization

Description of Business:

GreenCore Technology, Inc. ("GreenCore") (formerly known as AquaCell Technologies, Inc.) was incorporated in Delaware on March 19, 1997. The Company's principal business activity is the manufacture and sale of DC solar power air conditioning systems utilizing patented technologies. The Company markets its product primarily to distributors in the alternative energy marketplace.

Through June 2006, its Aquacell Media, Inc. subsidiary placed coolers into various locations and sold targeted advertising on the bottle band of the permanently attached five-gallon bottle. During fiscal 2007 the Company transitioned away from placing the coolers in retail locations and selling advertising space on the water cooler and concentrated on selling the patented self-filling water coolers.

In May 2007, GreenCore formed a wholly-owned subsidiary GreenCore Air, Inc. ("GreenCore Air") for the purpose of acquiring GPM, Inc. ("GPM"), the patent holder and manufacturer of a direct current solar powered air conditioner. On May 24, 2007, GreenCore acquired 100% of the outstanding equity interests of GPM, and GPM was effectively merged into GreenCore Air (Note 4). The

Edgar Filing: GREENCORE TECHNOLOGY INC - Form 10KSB

accompanying financial statements of GreenCore Technology, Inc. and subsidiaries include the operations of GPM since May 24, 2007.

GreenCore and its wholly owned subsidiaries (the "Company") conduct substantially all of its business in the United States.

Going Concern:

The Company has incurred net losses aggregating \$12,255,000 during the three years ended June 30, 2008. In addition, the Company has a working capital deficiency of \$7,934,000 and a stockholder's deficiency of \$6,119,000 at June 30, 2008. These factors, amongst others, raise substantial doubt about the Company's ability to continue as a going concern.

There can be no assurance that sufficient funds required during the next year or thereafter will be generated from operations or that funds will be available from external sources such as debt or equity financings or other potential sources. The lack of additional capital resulting from the inability to generate cash flow from operations or to raise capital from external sources would force the Company to substantially curtail or cease operations and would, therefore, have a material adverse effect on its business. Further, there can be no assurance that any such required funds, if available, will be available on attractive terms or that they will not have a significant dilutive effect on the Company's existing stockholders.

The accompanying financial statements do not include any adjustments related to the recoverability or classification of asset carrying amounts or the amounts and classification of liabilities that may result should the Company be unable to continue as a going concern.

During the years ended June 30, 2008, 2007 and 2006, and in addition to internally generated funds, the Company had obtained financing through the sale of equity securities, issuance of notes payable, and advances from related parties.

The Company has developed a plan to address liquidity in the following ways:

- * To raise capital through the sale or exercise of equity securities
- * Increase revenue through the sale of DC solar powered air conditioners and related products.

F-8

GREENCORE TECHNOLOGY, INC. AND SUBSIDIARIES Notes to Consolidated Financial Statements

2. Summary of Significant Accounting Policies

Principles of consolidation:

The accompanying consolidated financial statements include the accounts of GreenCore and its wholly owned subsidiaries. Such subsidiaries are Global Water Aquacell, Inc., currently an inactive company, incorporated December 21, 1998, Aquacell Media, Inc., formed on September 10, 2001 and GPM, Inc., acquired on May 24, 2007 (See Note 4). All significant intercompany accounts and transactions have been eliminated in consolidation.

Use of Estimates

The preparation of consolidated financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates

Edgar Filing: GREENCORE TECHNOLOGY INC - Form 10KSB

and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, cash in banks and all highly liquid investments with a purchased maturity of less than three months. The Company maintains cash balances at financial institutions insured up to \$100,000 by the Federal Deposit Insurance Corporation. Balances may exceed these insured amounts throughout a fiscal year.

Fair Value of Financial Instruments

The Company's financial instruments consist primarily of cash and cash equivalents, accounts receivable, accounts payable and convertible debts. Management believes that the carrying values of these assets and liabilities are representative of their respective fair values based on their short-term nature.

Inventories

Inventories are stated at the lower of cost or net realizable value. Cost is determined on a first-in, first-out basis. At each balance sheet date, the Company evaluates its ending inventories for excess quantities and obsolescence. This evaluation includes an analysis of sales levels by product type. Among other factors, the Company considers historical and forecasted demand in relation to the inventory on hand, competitiveness of product offerings, market conditions and product life cycles when determining the net realizable value of the inventory. Provisions are made to reduce excess or obsolete inventories to their estimated net realizable values. Once established, write-downs are considered permanent adjustments to the cost basis of the excess or obsolete inventories.

Property and Equipment

Property and equipment are recorded at cost. Depreciation is recognized using the straight-line method over the estimated useful lives of the related assets, generally five years for equipment, seven years for office furniture and equipment and the lesser of the term of the lease or the useful life for leasehold improvements. Maintenance and repairs are expensed as incurred while expenditures that extend the useful life of an asset are capitalized.

Goodwill

Goodwill represents cost in excess of fair value on the net assets acquired. Under SFAS No. 142, goodwill and intangible assets with indefinite lives are no longer amortized but are reviewed annually (or more frequently if impairment indicators arise) for impairment. Separable intangible assets that are not deemed to have indefinite lives will continue to be amortized over their useful lives (but with no maximum life).

F-9

GREENCORE TECHNOLOGY, INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements

Impairment of Long-Lived Assets

The Company reviews its long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of the assets may not

Edgar Filing: GREENCORE TECHNOLOGY INC - Form 10KSB

be fully recoverable. To determine recoverability of a long-lived asset, management evaluates whether the estimated future undiscounted net cash flows from the asset are less than its carrying amount. If impairment is indicated, the long-lived asset would be written down to its fair value. Fair value is determined by an evaluation of available price information at which assets could be bought or sold, including quoted market prices, if available, or the present value of the estimated future cash flows based on reasonable and supportable assumptions.

Customer Deposits

The Company requires a cash deposit of 50% when customers order the product. This deposit is recorded as a customer deposit until the product is delivered to the customer, at which time, the Company recognizes the deposit as revenue.

Revenue Recognition

The Company's revenues primarily consist of the sale of DC solar power air conditioning systems utilizing patented technologies. The Company recognizes revenues when there is persuasive evidence of an arrangement, product delivery and acceptance have occurred, the sales price is fixed and determinable, and collectability of the resulting receivable is reasonably assured. Such conditions are typically met upon delivery of the product to the customers.

The Company classifies amounts billed for shipping and handling as revenue in accordance with Emerging Issues Task Force ("EITF") Issue No. 00-10, Accounting for Shipping and Handling Fees and Costs. Costs incurred for shipping and handling are included in cost of sales.

Stock based compensation

Prior to the adoption of SFAS 123R on July 1, 2006, the Company accounted for stock-based compensation using the intrinsic value method prescribed in APB Opinion No. 25, "Accounting for Stock Issued to Employees," and related interpretations. Because the stock option grant price equaled the market price on the date of grant, no compensation expense was recognized by the Company for stock-based compensation. As permitted by SFAS No. 123, stock-based compensation was included as a pro forma disclosure in the notes to the consolidated financial statements.

Effective July 1, 2006, the Company adopted the fair value recognition provisions of SFAS 123R, using the modified prospective transition method. Under this transition method, stock-based compensation expense is recognized in the consolidated financial statements for granted, modified or settled stock options. Results for prior periods have not been restated, as provided for under the modified prospective method.

Before the adoption of SFAS 123R, the Company presented all tax benefits resulting from the exercise of stock options as operating cash inflows in the consolidated statements of cash flows, in accordance with the provisions of the Emerging Issues Task Force ("EITF") Issue No. 00-15, "Classification in the Statement of Cash Flows of the Income Tax Benefit Received by a Company upon Exercise of a Nonqualified Employee Stock Option." SFAS 123R requires the benefits of tax deductions in excess of the compensation cost recognized for those options to be classified as financing cash inflows rather than operating cash inflows, on a prospective basis. The impact of this change was not material to the Company.

Edgar Filing: GREENCORE TECHNOLOGY INC - Form 10KSB

Notes to Consolidated Financial Statements

The following table shows the effect on net income and earnings per share had compensation cost been recognized based upon the estimated fair value on the grant date of stock options in accordance with SFAS 123, as amended by SFAS No. 148 "Accounting for Stock Based Compensation - Transition and Disclosure":

	Year Ended June 30, 2006
Net loss, as reported	\$ (5,672)
Add: Stock based employee compensation included in net loss, net of tax effects	-
Deduct: Stock based employee compensation expense determined under fair value method, net of tax effects	(125)

Net loss, pro forma	(5,797)
	=====
Net loss per share, actual:	\$ (0.23)
Net loss per share, pro forma:	\$ (0.24)

Disclosures for the period ended June 30, 2007 are not present because the amounts are recognized in the financial statements.

The fair value of stock options is estimated for using the Black-Scholes option valuation model. Assumptions relative to volatility and anticipated forfeitures are determined at the time of grant with the following weighted average assumptions:

	Years Ended June 30,		
	2008	2007	2006
Expected life in years	3-5	5-6	6-7
Stock price volatility	158%	208%	114%
Risk free interest rate	1.65% - 3.20%	4.68% - 4.76%	3.93% - 4.60%
Dividends during term	None	None	None
Forfeiture rate	10%	10%	N/A

The expected life of the options represents the estimated period of time until exercise and is based on historical experience, giving consideration to the contractual terms, vesting schedules and expectations of future employee behavior. The expected stock price volatility is based on historical volatility of the Company's stock for the related vesting periods. The risk-free interest rate is based on the implied yield available on U.S. Treasury zero-coupon issues with an equivalent remaining term. The Company has not paid dividends in the past and does not plan to pay any dividends in the near future. The forfeiture rate is estimated at the date of grant based on the longevity of current employees and their expected future tenure. At the end of each year, the estimated forfeitures are agreed to the actual forfeitures for that year.

F-11

GREENCORE TECHNOLOGY, INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements

Net Loss per Common Share

Edgar Filing: GREENCORE TECHNOLOGY INC - Form 10KSB

Basic earnings per share ("EPS") is computed by dividing net loss by the weighted average number of common shares outstanding for the period. Diluted EPS reflects the potential dilution from the exercise or conversion of securities into common stock, including stock options and warrants. In accordance with SFAS 128, "Earnings Per Share", included in the basic weighted average number of common shares are 6,875,000 shares issuable as consideration for the GPM acquisition (Note 4). For the years ended June 30, 2008, 2007 and 2006, there were no dilutive effects of such securities as the Company incurred a net loss in each period. Common shares issuable upon the exercise of outstanding options, warrants and convertible notes aggregated 41,884,929, 34,400,596 and 11,770,595 as of June 30, 2008, 2007 and 2006 respectively.

Concentration of Credit Risk

Financial instruments that potentially subject the Company to concentrations of credit risk consists principally of cash in banks and trade receivables. The Company manages this risk by maintaining all deposits in high quality financial institutions and periodically performing evaluations of the relative credit standing of the financial institutions that are considered in the Company's investment strategy. The Company grants unsecured credit to its customers during the normal course of business and performs ongoing credit evaluations of its customers to minimize any potential loss.

Income Taxes

The Company and its subsidiaries file consolidated federal income tax returns. Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of assets and liabilities and their respective tax basis and operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences or operating loss and tax credit carryforwards are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the period that includes the enactment date.

In accordance with SFAS 109, "Accounting for Income Taxes," the Company has recorded a valuation allowance against its deferred tax assets. The valuation allowance is based on management's estimates and analysis, which includes provisions of tax laws that may limit the Company's ability to utilize its net operating loss carryforwards.

Recently Issued Accounting Pronouncements

In June 2006, the FASB issued FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes" (FIN 48), an interpretation of SFAS 109, "Accounting for Income Taxes." FIN 48 clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with SFAS 109. FIN 48 prescribes a two-step process to determine the amount of tax benefit to be recognized. First, the tax position must be evaluated to determine the likelihood that it will be sustained upon examination. If the tax position is deemed "more-likely-than-not" to be sustained, the tax position is measured at the largest amount of benefit that is greater than 50 percent likely of being realized upon ultimate settlement. FIN 48 was adopted by the Company in fiscal 2008 and did not have any impact on its consolidated results of operations and financial position.

In September 2006, the FASB issued SFAS 157, "Fair Market Measurements." SFAS 157 clarifies the definition of fair value, establishes a framework for measuring fair value and expands disclosure on fair value measurement. SFAS 157 is effective for financial statements issued for fiscal years beginning after

Edgar Filing: GREENCORE TECHNOLOGY INC - Form 10KSB

November 15, 2007, and will be applied on a prospective basis. The Company does not expect the adoption of SFAS 157 to have a material impact on its consolidated results of operations, financial position or cash flows.

F-12

GREENCORE TECHNOLOGY, INC. AND SUBSIDIARIES Notes to Consolidated Financial Statements

In February 2007, the FASB issued SFAS 159, "The Fair Value Option for Financial Assets and Financial Liabilities." SFAS 159 permits entities to measure many financial instruments and certain other items at fair value at specified election dates. Under SFAS 159, any unrealized holding gains and losses on items for which the fair value option has been elected are reported in earnings at each subsequent reporting date. If elected, the fair value option (1) may be applied instrument by instrument, with a few exceptions, such as investments otherwise accounted for by the equity method; (2) is irrevocable (unless a new election date occurs); and (3) is applied only to entire instruments and not to portions of instruments. SFAS 159 is effective as of an entity's first fiscal year that begins after November 15, 2007. The Company is currently evaluating the potential impact of SFAS 159 on its consolidated results of operations and financial position.

In December 2007, the FASB issued SFAS 141 (revised 2007), "Business Combinations". SFAS 141R is a revision to SFAS 141 and includes substantial changes to the acquisition method used to account for business combinations (formerly the "purchase accounting" method), including broadening the definition of a business, as well as revisions to accounting methods for contingent consideration and other contingencies related to the acquired business, accounting for transaction costs, and accounting for adjustments to provisional amounts recorded in connection with acquisitions. SFAS 141R retains the fundamental requirement of SFAS 141 that the acquisition method of accounting be used for all business combinations and for an acquirer to be identified for each business combination. SFAS 141R is effective for periods beginning on or after December 15, 2008, and will apply to all business combinations occurring after the effective date. The Company is currently evaluating the potential impact of SFAS 141R on its consolidated financial statements.

In December 2007, the FASB issued SFAS 160, "Non-controlling Interests in Consolidated Financial Statements - an amendment of Accounting Research Bulletin No. 51, Consolidated Financial Statements" ("ARB 51"). This Statement amends ARB 51 to establish new standards that will govern the (1) accounting for and reporting of non-controlling interests in partially owned consolidated subsidiaries and (2) the loss of control of subsidiaries. Non-controlling interest will be reported as part of equity in the consolidated financial statements. Losses will be allocated to the non-controlling interest, and, if control is maintained, changes in ownership interests will be treated as equity transactions. Upon a loss of control, any gain or loss on the interest sold will be recognized in earnings. SFAS 160 is effective for periods beginning after December 15, 2008. The Company is currently evaluating the potential impacts of SFAS 160 on its consolidated results of operations and financial position.

In March 2008, the FASB issued ASAS No. 161, "Disclosure about Derivative Instruments and Hedging Activities, an amendment of FASB Statement No. 133" (SFAS 161), which establishes, among other things, the disclosure requirements for derivative instruments and hedging activities. SFAS 161 requires qualitative disclosures about objectives and strategies for using derivatives, quantitative disclosures about fair value amounts of and gains and losses on derivative instruments, and disclosures about credit-risk-related contingent features in derivative agreements. SFAS 161 is effective for fiscal periods and interim period beginning after November 15, 2008. The Company does not expect the

Edgar Filing: GREENCORE TECHNOLOGY INC - Form 10KSB

adoption of SFAS 161 to have a material impact on its consolidated results of operations, financial position or cash flows.

Inventories

Inventories consist of raw materials and service parts aggregating \$24,000, \$39,000, and \$59,000 at June 30, 2008, 2007 and 2006, respectively.

F-13

3. Accounts payable and accrued liabilities:

Accounts payable and accrued liabilities consist of the following (in thousands):

	2008	2007	2006
	-----	-----	-----
Trade accounts payable	\$ 619	\$ 596	\$ 523
Accrued payroll and payroll taxes	289	305	595
Sales tax payable	-	1	2
Credit cards payable	1	62	29
Other accrued liabilities	175	159	238
	-----	-----	-----
	\$ 1,084	\$ 1,123	\$ 1,387
	=====	=====	=====

4. Acquisition of GPM, Inc.

On May 24, 2007, the Company acquired all of the outstanding equity interests in GPM, Inc. ("GPM") for approximately \$1,288,000, consisting of 6,250,000 shares of Company common stock, the payment of \$538,000 in cash, and the payment of \$125,000 of GPM's shareholder debt by issuance of common shares of the Company at \$0.20 per share, or 625,000 shares. The fair value of the 6,250,000 shares of common stock was determined to be \$625,000, or \$0.10/share. The fair value per share was based on the average quoted closing market prices of the Company's common stock for a reasonable time before and after the date the Letter of Intent was consummated and the public announcement of the acquisition was released. Due to an ongoing dispute between the Company and a former GPM distributor the 6,875,000 common shares have not been issued to the GPM equity shareholders but have been reserved for issuance until the conclusion of the dispute. As such, the purchase price and liability payable in common stock of \$750,000 has been classified as a current liability in the accompanying consolidated balance sheet.

In accordance with SFAS No. 141, the Company allocated the total purchase price to the tangible and identifiable intangible assets acquired and liabilities assumed based on their estimated fair values as of the date of acquisition, using the purchase method of accounting. The components of the purchase price allocation are as follows (in thousands):

Allocation:		
Net tangible assets acquired		
Accounts receivable	\$	12
Property and equipment		20
Identifiable intangible assets acquired		
Patents		1,099
Goodwill		750

Edgar Filing: GREENCORE TECHNOLOGY INC - Form 10KSB

Total assets acquired	1,881

Less liabilities assumed:	
Accounts payable and accrued expenses	175
Customer deposits	261
Warranty reserve	157

Total liabilities assumed	593

Total purchase price	\$ 1,288

GREENCORE TECHNOLOGY, INC. AND SUBSIDIARIES Notes to Consolidated Financial Statements

The results of operations for the Company's financial statements included the results of GPM's operations since May 2007. The following table represents the unaudited pro-forma combined results of operations of the Company as if GPM had been acquired on July 1, 2007, with comparable results for the prior year (in thousands):

	2007	2006
	-----	-----
Revenues	\$ 229	\$ 786
Gross profit (loss)	\$ (156)	\$ 67
Operating loss	\$ (2,602)	\$ (3,762)
Net loss	\$ (2,733)	\$ (5,898)
Net loss per share	\$ (0.09)	\$ (0.24)

5. Loan Receivable - Related Party

Related party balances consist of the following at June 30, 2008, 2007 and 2006 (in thousands):

	2008	2007	2006
	-----	-----	-----
Receivable from (payable to)			
Aquacell Water, Inc., net	\$ (56)	\$ (60)	259
Advances from officers	(18)	-	(12)
	-----	-----	-----
Net related party receivable (payable)	\$ (74)	\$ (60)	\$ 247
	=====	=====	=====

The Company was the former parent of Aquacell Water, Inc ("Water"). The Company completed the spin-off of Water on March 13, 2006. The Company shares its corporate offices with Water and both Water and the Company operate under the same executive management team, although each member of management has a separate and distinct employment agreement with the Company and Water. The Company also has an informal agreement with Water for the utilization of personnel, whereby various employees' salary expenses are shared by both companies.

6. Property and Equipment and Billboard Coolers

Property and equipment is summarized as follows at June 30:

	2008	2007	2006
	-----	-----	-----

Edgar Filing: GREENCORE TECHNOLOGY INC - Form 10KSB

Furniture, fixtures and office equipment	\$ 78	\$ 78	\$ 78
Machinery and equipment	97	97	80
Leasehold improvements	12	12	12
Vehicles	15	15	12
	-----	-----	-----

	-----	-----	-----
Property and equipment, net	\$ 19	\$ 27	\$ 13
	=====	=====	=====

Depreciation expense for the years ended June 30, 2008, 2007 and 2006, was approximately \$8,000, \$6,000 and \$173,000, respectively.

F-15

GREENCORE TECHNOLOGY, INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements

Concurrent with the Company's transition away from placing billboard coolers in retail locations and selling advertising space on the water cooler, and while focusing on selling the patented self-filling water coolers and developing the newly acquired DC air conditioner patents and technology, the Company elected to dispose of all billboard coolers at retail locations and retract from actively promoting its media advertising on the coolers. Concurrent with this transition, the Company, thru its subsidiary Global Water Aquacell, was relieved of a deferred payable to a private company for the return and cancellation of all exclusive distribution and marketing rights previously held under a distribution agreement. The unpaid balance of \$473,000 was payable solely from 5% of the future revenues generated by our Global Water-Aquacell subsidiary, which became an inactive company during fiscal 2005. At the date of determination of the disposal in fiscal 2006, the Company had a recorded value in its billboard coolers of \$1,040,000, inventories of raw material of \$85,000 and impaired patents of \$32,000. Accordingly, the Company recorded a loss on the disposal of assets of \$684,000, net of the gain on relief of the deferred payable.

7. Convertible Promissory Notes

Convertible debt outstanding as of June 30, 2008 and 2007 is (in thousands):

	2008	2007
	-----	-----
Convertible debt, bearing interest at 9%, convertible into common stock at \$0.20 per share (4,500,000 shares at full conversion), interest due quarterly by cash or stock payment, due on or before February 2012	\$ 900	\$ 900
Convertible debt, bearing interest at 9%, convertible into common stock at \$0.20 per share (500,000 shares at full conversion), interest due quarterly by cash or stock payment, due on or before April 2012	100	100
Convertible debt, bearing interest at 9%, convertible into common stock at \$0.20 per share (10,000,000 shares at full conversion), interest due quarterly by cash or stock payment, due on or before May 2012	2,245	2,000
Convertible debt, bearing interest at 9%, convertible into common stock at \$0.20 per share (5,500,000 shares at full conversion), interest due quarterly by cash or

stock payment, due on or before June 2012	1,653	1,100
Convertible debt, bearing interest at 9%, convertible into common stock at \$0.20 per share (1,810,000 shares at full conversion), interest due quarterly by cash or stock payment, due on or before June 2013	362	-
	\$ 5,260	\$ 4,100

F-16

GREENCORE TECHNOLOGY, INC. AND SUBSIDIARIES Notes to Consolidated Financial Statements

During the period February through June 2007 the Company completed a private placement of Convertible Promissory Notes consisting of a promissory note bearing interest at 9%, due within 2 years, with interest payable quarterly in cash or stock, convertible at any time at the option of the holder to convert all or any portion of the promissory notes into shares of the Company's common stock at a conversion price of \$0.20 per share (20,500,000 shares assuming full conversion). The Company realized gross proceeds of \$4,100,000 and expenses were \$295,000 in connection with the private placement.

Additionally, the 2007 private placement consisted of 2,050,000 warrants to purchase common stock at \$0.50 per share with a term of five years. The Company estimated the fair market value of these warrants to be \$900,000 utilizing the Black-Scholes valuation method using the following assumptions: a risk free interest rate of 4.77% to 4.98%, volatility of 213%, dividend rate of zero and a term of three years. The company recorded the warrant issuance as unamortized deferred compensation and the warrants are being amortized to interest expense over the term of the convertible note agreements. In addition, the Company issued 500,000 common stock purchase warrants exercisable at \$0.50 per share to the placement agent over a five year period. The Company estimated the fair market value of these warrants to be \$8,000 utilizing the Black-Scholes valuation method using the following assumptions: a risk free interest rate of 4.52%, volatility of 213%, dividend rate of zero and a term of three years.

During fiscal 2008, the Company recorded an additional \$798,000 in principal due under the Convertible Note agreements issued in May and June 2007, as stipulated in the agreements, as the Company did not complete the registration of its common shares on or before November 15, 2007. The penalty was charged to interest expense in the period the penalty was incurred (Note 10).

During the period April through June 2008 the Company completed a private placement of Convertible Promissory Notes consisting of a promissory note bearing interest at 9%, due within 2 years, with interest payable quarterly in cash or stock, convertible at any time at the option of the holder to convert all or any portion of the promissory notes into shares of the Company's common stock at a conversion price of \$0.20 per share (1,810,000 shares assuming full conversion). The Company realized gross proceeds of \$362,000 and expenses were \$12,000 in connection with the private placement.

Additionally, the 2008 private placement consisted of 181,000 warrants to purchase common stock at \$0.50 per share with a term of five years. The Company estimated the fair market value of these warrants to be \$31,000 utilizing the Black-Scholes valuation method using the following assumptions: a risk free interest rate of 2.31% to 2.92%, volatility of 158%, dividend rate of zero and a term of three years. The company recorded the warrant issuance as unamortized deferred compensation and the warrants are being amortized to interest expense

Edgar Filing: GREENCORE TECHNOLOGY INC - Form 10KSB

over the term of the convertible note agreements.

8. Equity Transactions

Series B Convertible Preferred Stock

During August 2005 the Company completed a private placement of 200,000 shares of its newly designated Series B Convertible Preferred Stock. The offering consisted of 200,000 shares of Class B Convertible Preferred Stock at a price of \$0.34 per share and 50,000 Class B common stock purchase warrants exercisable at \$0.50 per share. The Series B Convertible Preferred Stock carries a \$.08 per share annual dividend and is convertible into the Company's common stock on a one for one basis. In connection with this offering the Company received net proceeds of \$52,000 after dividends paid of \$16,000. During the year ended June 30, 2006 all of the 918,000 shares of Series B Convertible Preferred Stock were converted into 918,000 shares of the Company's common stock.

F-17

GREENCORE TECHNOLOGY, INC. AND SUBSIDIARIES Notes to Consolidated Financial Statements

Increase in Authorized Capitalization

On July 19, 2005 the Board of Directors approved an amendment to the Company's Certificate of Incorporation to permit the Company to issue up to 75,000,000 shares of common stock. This amendment was approved by the stockholders at the December 7, 2005 annual meeting.

On June 30, 2008 the Board of Directors approved an amendment to the Company's Certificate of Incorporation to permit the Company to issue up to 200,000,000 shares of common stock. This amendment was approved by the stockholders consent.

Issuances of common stock

In connection with a three-year service agreement the Company issued 100,000 shares of its common stock valued at \$82,000. Amortization amounted to \$66,000 for the year ended June 30, 2006.

During August 2004 the Company amended a February 2004 consulting agreement to provide for additional compensation of 100,000 common shares. These shares were valued at \$66,000 based upon closing market price at the date of issuance. Amortization amounted to \$49,000 for the year ended June 30, 2006.

During November 2004 the Company amended an August 2003 consulting agreement to provide for additional compensation of 300,000 common shares. These shares were valued at \$177,000 based upon closing market price at the date of issuance. Amortization amounted to \$107,000 for the year ended June 30, 2006.

During July 2005 the Company issued 533,333 shares of its common stock in connection with the exercise of 533,333 common stock warrants. Warrants with exercise prices ranging from \$0.75 to \$1.00 were repriced to \$.30. The Company realized gross proceeds of \$160,000 and expenses were \$16,000 in connection with the exercise. New common stock purchase warrants were issued for 583,333 shares of common stock at exercise prices ranging from \$0.50 to \$0.55 per share.

During August 2005 the Company completed a private placement of 900,000 shares of its common stock. The offering consisted of one share of common stock at a price of \$.30 per share and one-half common stock purchase warrant exercisable at \$.60 per share. The Company received proceeds of \$270,000 and there were no

Edgar Filing: GREENCORE TECHNOLOGY INC - Form 10KSB

expenses incurred. The offering also consisted of one half common stock purchase warrant in the Company's Aquacell Water subsidiary exercisable at \$5.00 per share.

During August 2005 the Company completed a private placement of 200,000 shares of Series B Convertible Preferred Stock. The offering consisted of 200,000 shares of Class B convertible preferred stock exercisable at \$.34 and 50,000 Class B common stock purchase warrants exercisable at \$.50 per share. The first year annual dividend of \$.08 per share was prepaid in full at the time of the placement. The Series B convertible preferred stock is convertible into the Company's common stock on a share for share basis. In connection with this offering the Company received net proceeds of \$52,000 after dividends paid of \$16,000. There were no expenses in connection with this offering.

During September 2005 the Company issued an aggregate of 1,841,512 shares of common stock in connection with the exercise of 1,841,512 common stock warrants. Warrants with exercise prices ranging from \$.50 to \$2.00 were repriced to prices ranging from \$.30 to \$.45. The Company realized gross proceeds of \$673,000 and expenses were \$75,000 in connection with the exercises. New common stock purchase warrants were issued for 524,512 shares of common stock exercisable at \$.70 per share, 868,333 exercisable at \$.50 per share, 365,000 exercisable at \$.55 per share and 83,667 exercisable at \$.65 per share.

F-18

GREENCORE TECHNOLOGY, INC. AND SUBSIDIARIES Notes to Consolidated Financial Statements

During September 2005 the Company completed a private placement for 333,333 shares of its common stock. The offering consisted of one share of common stock at a price of \$.30 per share and one common stock purchase warrants exercisable at \$.50 per share. The Company realized gross proceeds of \$100,000 and expenses of the offering amounted to \$10,000. In addition the Company issued 13,333 common stock purchase warrants, exercisable at \$.50 per share, to the placement agent.

During September 2005 the Company completed a private placement for 150,000 shares of its common stock. The offering consisted of one share of common stock at a price of \$.38 per share and one common stock purchase warrant exercisable at \$.75. The Company realized gross proceeds of \$57,000 and there were no offering expenses.

During November 2005 the Company issued an aggregate of 277,845 shares of common stock in connection with the exercise of 277,845 common stock warrants. Warrants with an exercise price of \$.70 were repriced to \$.40. The Company realized gross proceeds of \$111,000 and expenses were \$11,000 in connection with the exercises. New common stock purchase warrants were issued for 277,845 shares of common stock exercisable at \$.60 per share. In addition 277,845 common stock purchase warrants were issued in the Company's Aquacell Water subsidiary exercisable at \$5.00 per share.

During December 2005 the Company issued an aggregate of 400,000 shares of common stock in connection with the exercise of 400,000 common stock warrants. Warrants with exercise prices of \$.55 and \$.50 were repriced to \$.12. The Company realized gross proceeds of \$48,000 and there were no expenses in connection with the exercise. New common stock purchase warrants were issued for 400,000 shares of common stock exercisable at \$.20 per share.

During January 2006 the Company issued an aggregate of 11,828 common shares in payment of accrued dividends on the Class A Preferred Stock.

Edgar Filing: GREENCORE TECHNOLOGY INC - Form 10KSB

During January 2006 the Company issued an aggregate of 1,250,453 shares of common stock in connection with the exercise of 1,250,453 common stock warrants. Warrants with exercise prices ranging from \$.50 to \$4.00 were repriced to prices ranging between \$.10 and \$.125. The Company realized gross proceeds of \$148,000 and expenses were \$11,000 in connection with the exercises. New common stock purchase warrants were issued for 1,500,453 shares of common stock exercisable at \$.35 per share.

During January 2006 the Company completed a private placement for 500,000 shares of its common stock. The offering consisted of 500,000 shares of common stock at a price of \$.20 per share and 250,000 common stock purchase warrants exercisable at \$.35 per share. The Company realized gross proceeds of \$100,000 and there were no offering expenses.

During February 2006 the Company issued an aggregate of 223,473 shares of common stock in connection with the exercise of 223,473 common stock warrants. Warrants with exercise prices ranging from \$.35 to \$1.75 were repriced to \$.20. The Company realized gross proceeds of \$45,000 and expenses were \$5,000 in connection with the exercises. New common stock purchase warrants were issued for 223,473 shares of common stock exercisable at \$.40 per share.

During March 2006 the Company completed a private placement for 937,500 shares of its common stock. The offering consisted of 937,500 shares of common stock at a price of \$.16 per share and 468,750 common stock purchase warrants exercisable at \$.40 per share. The Company realized gross proceeds of \$150,000 and expenses were \$15,000 in connection with the placement. In addition, the Company issued 20,000 common stock purchase warrants exercisable at \$.40 per share to the placement agent.

F-19

GREENCORE TECHNOLOGY, INC. AND SUBSIDIARIES Notes to Consolidated Financial Statements

During March 2006 the Company issued an aggregate of 751,666 shares of common stock in connection with the exercise of 751,666 common stock warrants. Warrants with exercise prices ranging from \$.55 to \$1.75 were repriced to \$.20. The Company realized gross proceeds of \$150,000 and expenses were \$15,000 in connection with the exercises. New common stock purchase warrants were issued for 751,666 shares of common stock exercisable at \$.40 per share.

During November 2006 the Company issued 500,000 shares of common stock and issued warrants to purchase 500,000 shares of common stock to be exercisable at a price of \$0.20 per share in connection with a consulting agreement. These shares were valued at \$15,000 based upon the closing market price at the date of issuance. Such amount was amortized to expense in 2007.

During December 2006 the Company issued an aggregate of 137,500 shares of common stock in connection with the exercise of 137,500 common stock warrants. Warrants with exercise prices ranging from \$0.85 to \$1.30 were repriced to \$0.15 to \$0.20. The Company realized gross proceeds of \$26,000 and expenses were \$3,000 in connection with the exercises. New common stock purchase warrants were issued for 137,500 shares of common stock exercisable at prices ranging from \$0.50 to \$0.70 per share.

During January 2007 the Company issued an aggregate of 1,354,887 shares of common stock in connection with the exercise of 1,354,887 common stock warrants. Warrants with exercise prices ranging from \$0.50 to \$1.90 were repriced to \$0.08 to \$0.10. The Company realized gross proceeds of \$127,000 and expenses were \$9,000 in connection with the exercises. New common stock purchase warrants were issued for 1,354,887 shares of common stock exercisable at prices ranging from

Edgar Filing: GREENCORE TECHNOLOGY INC - Form 10KSB

\$0.25 to \$0.30 per share.

In January 2007, the Company issued an aggregate 1,000,000 shares of common stock in connection with the hiring of the Company President/Chief Financial Officer. These shares were valued at \$0.09 per share or \$90,000, based upon the closing market price at the date of issuance. The issuance was expensed at the date of issuance.

During February 2007 the Company issued an aggregate of 813,333 shares of common stock in connection with the exercise of 813,333 common stock warrants. Warrants with exercise prices ranging from \$0.40 to \$1.60 were repriced to \$0.08 to \$0.10. The Company realized gross proceeds of \$32,000 and reduced amounts accrued liabilities \$17,000 and expenses were \$3,000 in connection with the exercises. New common stock purchase warrants were issued for 813,333 shares of common stock exercisable at \$0.40 per share.

In connection with a placement agency agreement, the Company issued 500,000 shares of its common stock valued at \$90,000. This amount was expensed in the year ended June 30, 2007.

In June 2008 the Company issued 25,000 shares of its common stock in connection with a convertible debt agreement valued at \$8,000. The amount was expensed in the year ended June 30, 2008.

During the year ended June 30, 2008, the Company issued an aggregate of 1,765,040 shares of its common stock for payment of interest on the convertible notes payable agreements. The amount of interest paid was \$369,000.

F-20

GREENCORE TECHNOLOGY, INC. AND SUBSIDIARIES Notes to Consolidated Financial Statements

Issuances of common stock purchase warrants

In connection with marketing and consulting agreements with five separate entities, entered into in August 2003, the Company issued warrants to purchase 1,250,000 shares of common stock to be exercisable at \$.01 per share. The Company estimated the fair value of these warrants to be \$2,564,000 utilizing the Black-Scholes valuation method using the following assumptions: a risk-free interest rate of 3.1%, volatility of 33.33% and a term of five years. During 2006 the Company determined, based on its decision to transition from the water cooler advertising and sales market, that the remaining fair value of these warrants was fully impaired. Accordingly, the Company amortized the remaining \$977,000 to expense in the year ended June 30, 2006.

In connection with a three year consulting agreement, entered into in February 2004, the Company issued a warrant to purchase 150,000 shares of common stock to be exercisable for a five-year period at \$1.22 per share. The Company estimated the fair value of this warrant to be \$143,000 utilizing the Black-Scholes valuation method using the following assumptions: a risk free interest rate of 3.1%, volatility of 106.9 % and a term of five years. Amortization amounted to \$78,000 for the year ended June 30, 2006.

Edgar Filing: GREENCORE TECHNOLOGY INC - Form 10KSB

During August 2004 the Company issued 50,000 common stock purchase warrants at a price of \$.66 per share in connection with performance under an existing consulting agreement. The Company estimated the fair value of these warrants to be \$25,000 utilizing the Black-Scholes valuation method using the following assumptions; a risk-free interest rate of 3.1%, volatility of 98.71% and a term of five years. Amortization amounted to \$16,000 for the year ended June 30, 2006.

During December 2004 the Company issued 100,000 common stock purchase warrants at a price of \$.40 per share in connection with two consulting agreements. The Company estimated the fair value of these warrants to be \$30,000 utilizing the Black Scholes valuation method using the following assumptions; a risk-free interest rate of 3.1%, volatility of 98.71% and a term of 5 years. Amortization amounted to \$28,000 for the year ended June 30, 2006.

During June 2005 the Company issued 100,000 common stock purchase warrants at a price of \$.37 per share in connection with an investor relations agreement. The Company estimated the fair value of these warrants to be \$19,000 utilizing the Black-Scholes valuation method using the following assumptions; a risk-free interest rate of 3.1%, volatility of 50.06% and a term of 5 years. Amortization amounted to \$19,000 during the year ended June 30, 2006.

In connection with a private placement of Class B preferred stock, completed in August 2005, the Company issued Class B common stock purchase warrants for 329,500 shares of its common stock exercisable at \$.50 per share and an additional 24,891 shares of its common stock exercisable at \$.50 per share to the placement agent.

In connection with a warrant repricing, completed in July 2005, the Company issued common stock purchase warrants for 533,333 shares of its common stock exercisable at \$.50 per share.

In connection with a private placement of common stock, completed in August 2005, the Company issued common stock purchase warrants for 450,000 shares of its common stock exercisable at \$.60 per share. The Company also issued common stock purchase warrants for 450,000 shares of the common stock of its Aquacell Water subsidiary exercisable at \$5.00 per share.

In connection with a warrant repricing, completed in September 2005, the Company issued common stock purchase warrants for 524,512 shares of its common stock exercisable at \$.70 per share, for 868,333 shares exercisable at \$.50 per share, for 365,000 shares exercisable at \$.55 per share and for 83,667 shares exercisable at \$.65 per share.

F-21

In connection with a private placement of common stock, completed in September 2005, the Company issued common stock purchase warrants for 333,333 shares of its common stock exercisable at \$.50 per share and an additional 13,333 shares of its common stock exercisable at \$.50 per share to the placement agent.

In connection with a private placement of common stock, completed in September 2005, the Company issued common stock purchase warrants for 150,000 shares of its common stock exercisable at \$.75 per share.

In connection with a warrant repricing, completed in November 2005, the Company issued common stock purchase warrants for 277,845 shares of its common stock

Edgar Filing: GREENCORE TECHNOLOGY INC - Form 10KSB

exercisable at \$.60 per share. The Company also issued common stock purchase warrants for 277,845 shares of the common stock of its Aquacell Water subsidiary exercisable at \$5.00 per share.

In connection with a warrant repricing, completed in December 2005, the Company issued common stock purchase warrants for 400,000 shares of its common stock exercisable at \$.20 per share.

In connection with a warrant repricing, completed in January 2006, the Company issued common stock purchase warrants for 1,500,453 shares of its common stock exercisable at \$.35 per share.

In connection with a warrant repricing, completed in February 2006, the Company issued common stock purchase warrants for 223,473 shares of its common stock exercisable at \$.40 per share.

In connection with a warrant repricing, completed in March 2006, the Company issued common stock purchase warrants for 751,666 shares of its common stock exercisable at \$.40 per share.

In connection with a private placement, completed in March 2006, the Company issued common stock purchase warrants for 468,750 shares of its common stock exercisable at \$.40 per share.

In connection with a private placement, completed in November 2006, the Company issued common stock purchase warrants for 500,000 shares of its common stock exercisable at \$.20 per share.

In connection with a warrant repricing, completed in December 2006, the Company issued common stock purchase warrants for 137,500 shares of its common stock exercisable at \$.50-\$.70 per share.

In connection with a warrant repricing, completed in January 2007, the Company issued common stock purchase warrants for 1,354,887 shares of its common stock exercisable at \$.25-\$.30 per share.

In connection with a consulting agreement in January 2007, the Company issued common stock purchase warrants for 20,000 shares of its common stock exercisable at \$.40 per share.

In connection with a warrant repricing, completed in February 2007, the Company issued common stock purchase warrants for 813,333 shares of its common stock exercisable at \$.40 per share.

Between February and June 2007, the Company issued an aggregate 2,050,000 warrants to purchase common stock at \$0.50 per share with a term of five years in connection with the Convertible Notes payable issuances. The Company estimated the fair market value of these warrants to be \$900,000 utilizing the Black-Scholes valuation method using the following assumptions: a risk free interest rate of 4.77% to 4.98%, volatility of 213%, dividend rate of zero and a term of three years. Amortization to interest for the years ended June 30, 2008 and 2007 amounted to \$453,000 and \$47,000, respectively (Note 10).

F-22

GREENCORE TECHNOLOGY, INC. AND SUBSIDIARIES Notes to Consolidated Financial Statements

During April and June 2008, the Company issued an aggregate 181,000 warrants to purchase common stock at \$0.50 per share with a term of five years in connection with the Convertible Notes payable issuances. The Company estimated the fair

Edgar Filing: GREENCORE TECHNOLOGY INC - Form 10KSB

value of these warrants to be \$31,000 utilizing the Black-Scholes valuation method using the following assumptions: a risk-free interest rate of 2.31%-2.92%, volatility of 158%, dividend rate of zero and a term of three years. Amortization for the year ended June 30, 2008 amounted to \$1,000 (Note 10).

At June 30, 2008, the Company had warrants outstanding as follows:

Exercise Price -----	Shares -----	Expiration Date (Mo/Yr) -----
0.01	150,000	Aug 2008
0.20	900,000	Dec 2010 - Nov 2011
0.25	942,028	Jan 2012
0.30	412,859	Jan 2012
0.35	1,500,453	Jan 2013
0.37	100,000	June 2010
0.40	2,402,222	June 2010 - Feb 2012
0.50	3,096,417	July 2010 - June 2013
0.60	584,033	Aug 2010 - Nov. 2010
0.66	50,000	Aug 2009
0.70	68,750	Dec 2011
0.75	1,066,667	Dec 2009 - Mar 2013
0.90	147,000	Sept 2009
1.16	685,000	Mar 2013
1.22	150,000	Feb 2009
4.00	130,000	Sept 2008 - June 2009

	12,385,429	

At June 30, 2008, the weighted average exercise price of the outstanding warrants was \$0.52 and the weighted average remaining contractual life of the warrants was 3.03 years.

Stock Based Compensation

The Company adopted SFAS No. 123 (revised 2004), Share-Based Payment ("SFAS 123(R)") in fiscal year 2006. The Company adopted SFAS 123(R) using the modified prospective method, and, accordingly, consolidated financial statements for prior periods have not been restated to reflect the effect of SFAS 123(R). In March 2005, the SEC issued SEC SAB No. 107 ("SAB 107") relating to SFAS 123(R). The Company has applied SAB 107 in its adoption of SFAS 123(R). The Company previously applied APB Opinion No. 25, Accounting for Stock Issued to Employees ("APB 25"), and related interpretations and had adopted the disclosure-only provisions of SFAS No. 123, Accounting for Stock-Based Compensation ("SFAS 123") and SFAS No. 148, Accounting for Stock-Based Compensation - Transition and Disclosure - an Amendment of FASB Statement No. 123.

F-23

GREENCORE TECHNOLOGY, INC. AND SUBSIDIARIES Notes to Consolidated Financial Statements

During August 1998, the Company adopted the 1998 Incentive Stock Plan (the "Plan") under which options (either incentive or nonqualified), stock appreciation rights, stock and other awards, covering an aggregate amount of 1,000,000 shares of common stock, may be granted to officers, directors, employees and consultants of the Company. The exercise price established for any awards granted under the Plan, shall be determined by a Compensation Committee appointed by the Company's Board of Directors. The exercise price of incentive stock options cannot be less than 100% (110% for 10% or greater shareholder employees) of the fair market value ("FMV") at the date of grant and the exercise price of nonqualified options cannot be less than 85% of the FMV at

Edgar Filing: GREENCORE TECHNOLOGY INC - Form 10KSB

the date of grant. The exercise period of incentive options cannot extend beyond 10 years from the date of grant and nonqualified options cannot extend beyond 15 years from the date of grant. At the December 2, 2003 annual meeting the stockholders approved the increase in issuable shares to 2,000,000 and at the December 7, 2005 annual meeting the stockholders approved the increase in issuable shares to 3,000,000 in the plan.

During January 2002, the Board of Directors adopted a Director's Option Plan covering an aggregate amount of 500,000 shares of common stock. At the December 7, 2005 annual meeting the stockholders approved the increase in issuable shares to 1,000,000 in the plan. As of June 30, 2008, 2007 and 2006, 495,000, 495,000 and 435,000 options have been granted under this plan.

A summary of stock option activity under both plans is as follows:

	Options	Weighted- Average Exercise Price	Weighted- Average Remaining Contractual Life (Years)	Aggregate Intrinsic Value (000)
Outstanding at July 1, 2005	1,935,500	\$ 0.80	6.30	\$ 0
Granted	660,000	0.26		
Forfeited	(191,000)	0.69		
Outstanding at June 30, 2006	2,404,500	0.66	5.74	0
Granted	935,000	0.09		
Forfeited	(630,000)	0.58		
Outstanding at June 30, 2007	2,709,500	0.49	5.60	466
Granted	550,000	0.18		
Forfeited	(60,000)	0.55		
Outstanding at June 30, 2008	3,199,500	0.45	4.96	203
Vested and expected to vest at June 30, 2008	3,037,733	0.40	5.00	172
Exercisable at June 30, 2008	1,581,833	0.61	4.49	80

The aggregate intrinsic value in the table above is before applicable income taxes and is calculated based on the difference between the exercise price of the options and the quoted price of the common stock as of the reporting date.

F-24

GREENCORE TECHNOLOGY, INC. AND SUBSIDIARIES Notes to Consolidated Financial Statements

A summary of the status of the Company's nonvested options as of June 30, 2008 and 2007 and changes during the fiscal years then ended is presented below.

	Shares	Weighted Average Grant Date Fair Value
Unvested at July 1, 2006	1,438,400	\$0.33
Granted	935,000	\$0.09
Vested	(315,000)	\$0.31
Forfeited	(461,400)	\$0.34

Edgar Filing: GREENCORE TECHNOLOGY INC - Form 10KSB

Unvested at June 30, 2007	1,597,000	\$0.21
Granted	550,000	\$0.18
Vested	(529,333)	\$0.36
Unvested at June 30, 2008	1,617,667	\$0.25

As of June 30, 2008, total unrecognized stock-based compensation expense related to nonvested stock options was approximately \$381,000, which is expected to be recognized over a weighted average period of approximately 2.73 years. There was no intrinsic value of stock options exercised as there were no exercises in 2008, 2007 or 2006.

The weighted average grant date fair value of options granted during the years ended June 30, 2008, 2007 and 2006 was \$0.18, \$0.09 and \$0.26, respectively.

The following table summarizes information about stock options and warrants outstanding and exercisable at June 30, 2008:

Exercise Price	Number of Shares	Weighted Average Remaining Life (Years)	Weighted Average Exercise Price	Exercisable Number of Shares	Weighted Average Exercise Price
\$0.09 - 0.10	935,000	5.53	\$ 0.09	348,333	\$ 0.10
0.18	550,000	6.40	0.18	-	0.18
0.21	445,000	5.07	0.21	223,000	0.21
0.37 - 0.49	50,000	6.40	0.39	46,000	0.40
0.55 - 0.65	624,500	3.57	0.56	424,500	0.56
0.86 - 1.16	190,000	4.21	1.11	190,000	1.11
1.24 - 1.45	405,000	3.36	1.26	350,000	1.27
	3,199,500			1,581,833	

F-25

GREENCORE TECHNOLOGY, INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements

9. Spin-off of Subsidiary and Discontinued Operations

On July 19, 2005 the Board of Directors approved that management reincorporate its Water Science Technologies subsidiary in Delaware and change its name to Aquacell Water, Inc.

On November 8, 2005 the Company filed a Form 10 on behalf of its Aquacell Water subsidiary in connection with the spin-off. On March 13, 2006 the Form 10 of Aquacell Water that registered all 27,809,408 issued and outstanding shares of its common stock to be distributed to the Aquacell Technologies, Inc. common stockholders on a share for share basis was declared effective. This report has reclassified the assets, liabilities and operations of the Aquacell Water subsidiary to reflect discontinued operations based on the March 9, 2006 record date.

Edgar Filing: GREENCORE TECHNOLOGY INC - Form 10KSB

The Financial Accounting Standards Board's SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets," addresses financial accounting and reporting for the disposal of a component of an entity that has been disposed of in a distribution to owners.

The Company has disposed of its Aquacell Water, Inc. subsidiary through a distribution of common shares to its stockholders. Consequently, the accompanying condensed consolidated financial statements reflect operations of Aquacell Water, Inc. as discontinued operations in accordance with SFAS No. 144. Results of operations and cash flows of Aquacell Water have been classified as "Loss from discontinued operations".

Summarized below are the results of discontinued operations:

	Year Ended June 30,	
	2006*	2005
Net sales	\$ 555,000	\$ 619,000
Discontinued operations:		
Loss from discontinued operations of subsidiary	(\$650,000)	(\$471,000)
Write-off goodwill attributable to Company's investment in Aquacell Water, Inc.	(750,000)	-
Loss from discontinued operations	(\$1,400,000)	(\$471,000)
	=====	=====

*Includes operations to March 9, 2006

10. Interest Expense

Included in interest expense in fiscal 2008 is a charge of \$798,000 related to the Convertible Promissory Notes payable share registration penalty and \$367,000 of interest paid on the Convertible Notes payable. Also included in interest expense is interest amortization charges related to warrants issued in connection with the Convertible Promissory Notes payable of \$454,000 and \$47,000 for the years ended June 30, 2008 and 2007, respectively. The balance of interest expense, in the amounts of \$97,000, \$70,000 and \$41,000 for the years ended June 30, 2008, 2007 and 2006, respectively, represents penalties and interest on accrued payroll taxes.

F-26

GREENCORE TECHNOLOGY, INC. AND SUBSIDIARIES Notes to Consolidated Financial Statements

11. Income Taxes

The provision for income taxes consists of the following:

	June 30,		
	2008	2007	2006
Current:			
Federal	\$ -	\$ -	\$ -
	-	-	-
	-----	-----	-----

Edgar Filing: GREENCORE TECHNOLOGY INC - Form 10KSB

Deferred:			
Federal	1,184	719	1,696
	-----	-----	-----
	1,184	719	1,696
	-----	-----	-----
Less change in valuation allowance	(1,184)	(719)	(1,696)
	-----	-----	-----
Net deferred tax asset (liability)	\$ -	\$ -	\$ -
	=====	=====	=====

Deferred income taxes are provided for the tax effects of temporary differences in the reporting of income for financial statement and income tax reporting purposes and arise principally from net operating loss carry-forwards, accrued expenses and basis differences in fixed assets.

The Company's effective tax rate differs from the Federal statutory rates due to the valuation allowance recorded for the unused net operating loss carry-forwards deferred tax asset. An allowance has been provided for by the Company which reduced the tax benefits accrued by the Company for its net operating losses to zero, as it cannot be determined when, or if, the tax benefits derived from these operating losses will materialize.

At June 30, 2008, the Company had available federal net operating loss carry forwards to reduce future taxable income, if any, of approximately \$24,000,000. The net operating loss carry forwards expire at various dates through 2028. Under Section 382 of the Internal Revenue Code certain significant changes in ownership of the Company may restrict the future utilization of these tax loss carry forwards.

12. Subsequent Events

Subsequent to June 30, 2008 the Company received additional proceeds from the sale of its 9% Convertible Promissory Notes of approximately \$700,000 (which brought the total proceeds of the 9% Convertible Promissory Note subsequent to the year ended June 30, 2007 to approximately \$1,062,000). The conversion rate of these Notes was \$0.15 per common share which will result in amending the conversion rates on certain of the outstanding Convertible Promissory Notes from \$.20 to the revised \$0.15 during fiscal 2009.

F-27

GREENCORE TECHNOLOGY, INC. AND SUBSIDIARIES Notes to Consolidated Financial Statements

13. Commitments and Contingencies

Lease Commitments

As of June 30, 2008, future minimum commitments under office and equipment operating leases are \$139,000 through December 31, 2010, of which \$93,000 is committed in fiscal 2009. Rent expense under office leases amounted to approximately \$83,000, \$122,000 and \$111,000 for the years ended June 30, 2008, 2007 and 2006, respectively.

Contingency Related to Convertible Notes

Subsequent to June 30, 2008, the Company was advised by certain holders of Convertible Notes issued in fiscal 2007 that the holders consider the Company in default of certain terms and conditions of the Convertible Note Agreements and the Registration Rights Agreement and intend to demand repayment in full of all outstanding principal, accrued interest, and registration penalties. The

Edgar Filing: GREENCORE TECHNOLOGY INC - Form 10KSB

Company believes any defaults that may have occurred have been cured, and does not consider the Convertible Notes in default at June 30, 2008. As of June 30, 2008, the Company has accrued all unpaid interest and registration penalties (Note 7). The Convertible Notes are reflected as currently due on the accompanying consolidated balance sheets.

Legal Proceedings

From time to time, the Company is named in legal actions in the normal course of business. In the opinion of management, the outcome of these matters, if any, will not have a material impact on the financial condition or results of operations of the Company.

14. Statement of Cash Flows Supplemental Disclosure of Non-Cash Transactions

The following schedule summarizes the Company's supplemental disclosure of non-cash transactions for the Consolidated Statements of Cash Flows for the years ended June 30, 2008, 2007, and 2006 (in thousands):

GREENCORE TECHNOLOGY, INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements

15. Consulting and Employment Agreements

Consulting agreements

During August 2003 the Company entered into marketing and consulting agreements with five separate entities. Consideration for one of these agreements included

Edgar Filing: GREENCORE TECHNOLOGY INC - Form 10KSB

cash fees of \$45,000 paid over a three-month period. In addition, 1,250,000 warrants to purchase common stock of the Company exercisable for five years at a price of \$.01 per share, were issued for all these agreements (See Note 8).

During February 2004 the Company entered into a three year consulting agreement. Consideration for this agreement was 150,000 warrants to purchase shares of common stock of the Company exercisable for five years at a price of \$1.22 per share (See Note 8).

During June 2004 the Company entered into a three-year service agreement. The agreement calls for a cash payment of \$6,000 per month over the term of the agreement, and the issuance of 100,000 shares of the Company's common stock (See Note 8).

During December 2004 the Company entered into five year consulting agreements with two separate entities. Consideration for these agreements was 100,000 warrants to purchase shares of common stock of the Company exercisable for five years at a price of \$.40 per share (See Note 8).

During June 2005 the Company entered into a month-to-month investor relations agreement, effective July 1, 2005. Consideration for the agreement was \$5,500 per month and 100,000 warrants to purchase shares of common stock of the Company exercisable for five years at a price of \$.37 per share (See Note 8). The agreement will automatically renew on a monthly basis, unless terminated by either party in writing upon 30 days notice. The agreement was canceled during the year ended June 30, 2006.

During February 2007 the Company entered into a placement agency agreement. Consideration for this agreement was 500,000 shares of the Company common stock (see Note 8).

Employment agreements

The Company has employment agreements with various executives and employees of the Company which expire at various dates through January, 2012. These agreements provide for aggregate minimum salaries of \$550,000 for the year ending June 30, 2009. The agreements also provide for incentive bonuses based upon achievement of certain milestones.
