PROPOSAL 1 - ELECTION OF DIRECTORS

The Company's Restated Articles of Incorporation provide that the Board of Directors be comprised of not less than nine nor more than 13 directors, with the exact number of directors to be determined by the Board. The Board has fixed the number of directors at 11. At the opening of this year's Annual Meeting, Mr. Robert L. Ridgley will retire as he has reached the mandatory retirement age for Board service. Mr. Ridgley has been a director since 1984 and served as President and Chief Executive Officer of the Company from 1985 until 1996 when he retired. Mr. Ridgley served as Chairman of the Board from March 1997 through February 1999. The Board of Directors thanks Mr. Ridgley for his extensive and valued service to the Company for over 20 years.

The Restated Articles provide that the Board of Directors be divided into three classes and that the number of directors in each class be as nearly equal in number as possible. Members of each class are elected to serve a three-year term with the terms of office of each class ending in successive years. The term of Class II directors expires with this year's Annual Meeting. Messrs. Hamachek and Tromley and Ms. Teppola are nominees for election to the Board as Class II directors to serve until the 2007 Annual Meeting or until their successors have been duly elected and qualified. Each of Messrs. Hamachek and Tromley and Ms. Teppola was elected by the shareholders at the 2001 Annual Meeting. In case any of the nominees should become unavailable for election for any reason, the persons named in the proxy will have discretionary authority to vote for a substitute. Management knows of no reason why any of the nominees would be unable to serve if elected.

Vote Required

Under Oregon law, if a quorum of shareholders is present at the Annual Meeting, the three nominees who receive the greatest number of votes cast at the meeting shall be elected directors. Abstentions and broker non-votes are counted for purposes of determining whether a quorum exists at the Annual Meeting but are not counted and have no effect on the results of the vote for directors.

The Board of Directors recommends the election of the nominees listed below.

**INFORMATION CONCERNING THE
BOARD OF DIRECTORS AND ITS COMMITTEES**

Annual Meeting Attendance

The Board of Directors conducts its annual organization meeting immediately following the Annual Meeting of Shareholders, which all of the directors are encouraged to attend. In 2003, all of the Company's directors attended the Annual Meeting of Shareholders.

Independence

On July 24, 2003, the Board of Directors adopted Director Independence Standards and amended the Standards on February 26, 2004 to comply with final New York Stock Exchange rules. The Director Independence Standards are set forth in Appendix A to this proxy statement and also are available on the Company's website at www.nwnatural.com. No director is deemed independent unless the Board affirmatively determines that the director has no material relationship with the Company either directly or as a partner, shareholder or officer of an organization that has a relationship with the Company. The Board applies its adopted standards as well as additional qualifications prescribed under the listing standards of the New York Stock Exchange and applicable state and federal statutes. Annually the Board determines whether each director meets the criteria of independence. In 2004, the Board determined that eight of the ten continuing directors met the independence criteria. They are directors Boyle, Carter, Gibson, Hamachek, Papé, Teppola, Tromley and Woolworth.

Committees

There are six standing committees of the Board: the Audit, Governance, Organization and Executive Compensation, Finance, Public Affairs and Environmental Policy and Strategic Planning Committees. Each of the committees operates according to a formal written charter, all of which are reviewed annually and are available on the Company's website at www.nwnatural.com. The performance of each committee is reviewed annually. Each committee may obtain advice and assistance from internal or external legal, accounting or other advisors, when appropriate.

Audit Committee

The Audit Committee is comprised of directors Carter, Hamachek, Teppola, Tromley and Woolworth, each of whom is an independent director as defined under current New York Stock Exchange listing standards and the Company's Director Independence Standards. Based on its review of relevant information, the Board has determined that Mr. Woolworth, the chair of the committee, is an audit committee financial expert as that term is defined under applicable Securities and Exchange Commission rules.

The Audit Committee is responsible for overseeing matters relating to accounting, financial reporting, internal control and auditing. The Committee is also responsible for the appointment, compensation, oversight and review of the independent auditor, and reviews the corporate audit and other internal accounting control matters with the independent auditor. A more detailed description of the Audit Committee's responsibilities is included in the Report of the Audit Committee, below. During 2003, the Board amended the Committee's charter to be consistent with final New York Stock Exchange listing standards. See Appendix B. The Committee reports regularly to the Board. The

Committee held eight meetings during 2003. The Chair of the Committee, Mr. Woolworth, presides at all executive sessions of the Committee.

Governance Committee

The Governance Committee is empowered, during intervals between Board meetings, to exercise all of the authority of the Board in the management of the Company, except as otherwise may be provided by law. The Committee, which serves as the nominating committee, makes recommendations to the Board regarding nominees for election to the Board, criteria for Board and committee membership and

policies that govern the Board's activities including the Corporate Governance Standards discussed below, and evaluates Board and individual director performance. It also considers any questions of possible conflicts of interest of Board members and senior executives and jointly reviews annually the performance of the CEO with the Organization and Executive Compensation Committee. This Committee is comprised of directors Carter, Hamachek, Papé, Teppola, Tromley and Woolworth, each of whom is an independent director as defined under current New York Stock Exchange listing standards and the Company's Director Independence Standards. The Committee held five meetings in 2003. The Chair of the Committee, Mr. Carter, presides at all executive sessions of the Committee and executive sessions of the non-management directors of the Board.

Organization and Executive Compensation Committee

The Organization and Executive Compensation Committee is comprised of directors Boyle, Gibson, Tromley and Woolworth, each of whom is an independent director as defined under current New York Stock Exchange listing standards and the Company's Director Independence Standards. Each member of this Committee also meets the criteria as a non-employee director under applicable rules of the Securities and Exchange Commission and the criteria for outside directors under Section 162(m) of the Internal Revenue Code of 1986, as amended. Mr. Tromley chairs the Committee. The Committee reviews the performance of the CEO and other executive officers, considers executive compensation survey data in making recommendations to the Board relating to the Company's executive compensation program and benefit plans and administers the Restated Stock Option Plan, the Long-Term Incentive Plan, the Executive Deferred Compensation Plan and the Executive Annual Incentive Plan. This Committee also makes recommendations to the Board regarding board compensation and organization and executive succession matters. Four meetings of this Committee were held during 2003.

Public Affairs and Environmental Policy Committee

The Public Affairs Committee and the Environmental Policy Committee were combined in 2003 to form the Public Affairs and Environmental Policy Committee. The Committee reviews the Company's policies and practices relating to significant public and political issues that may have an impact on the Company's business operations, financial performance or public image. It oversees the Company's programs and policies relating to civic, charitable and community affairs, safety and equal employment opportunity. The Committee also develops and recommends to the Board appropriate environmental policies and advises the Board concerning the status of the Company's compliance with environmental regulations. The Committee makes recommendations to the Board to ensure that the Company fulfills its objectives in a manner consistent with the responsibilities of good corporate citizenship. The Committee is comprised of directors Gibson, Papé, Reiten, Ridgley and Teppola. Ms. Teppola chairs the Committee. The newly combined Committee held two meetings in 2003 and one joint meeting of the Environmental Policy and Public Affairs Committees was held prior to combining the Committees.

The Committee consists of directors Boyle, Carter, Papé, Reiten and Ridgley. Mr. Papé chairs the Committee. The Committee held three meetings in 2003.

Strategic Planning Committee

The Strategic Planning Committee, a Committee formed in 2003, is responsible for reviewing and making recommendations to management and the Board of Directors with respect to the long-term strategic goals, objectives and plans of the Company for the purpose of creating and

Edgar Filing: NORTHWEST NATURAL GAS CO - Form DEF 14A

maintaining long-term shareholder value. The Committee is comprised of directors Boyle, Gibson, Hamachek, Reiten and Ridgley. Mr. Hamachek chairs the Committee, which met three times in 2003.

Board Nominations

The Board is responsible for selecting candidates for Board membership and the Governance Committee has been assigned the responsibility of recommending to the Board of Directors nominees for election as directors. The Governance Committee has not used a third party to assist in finding candidates. The Governance Committee, with recommendations and input from the Chairman of the Board, the Chief Executive Officer and other directors, evaluates the qualifications of each director candidate in accordance with the Director Selection Criteria established by the Board. The Director Selection Criteria includes three guiding principles: independence, absence of conflicts and diversity. Specific mandatory criteria include, among other things:

Reputation of high integrity and character and demonstrated record of ethical conduct;

General knowledge of and interest in the Company and its business;

Demonstrated record of prudence and good business judgment;

Ability to think strategically and communicate effectively;

Willingness to challenge and think independently;

Commitment to the Company's core values and purpose;

Ability to foster a positive and focused atmosphere in the board room; and

Not over committed by service on multiple other boards.

In addition, preferred criteria include, among other things, prior experience as a director of a public company, substantive knowledge of the utility industry and the ability to understand, analyze and apply financial information and accounting rules.

Shareholders' recommendations for director-nominees may be submitted to the Secretary of the Company for consideration by the Governance Committee. The Company's Restated Articles of Incorporation provide that no person, except those nominated by the Board, shall be eligible for election as a director at any annual or special meeting of shareholders unless a written request that his or her name be placed in nomination, together with the written consent of the nominee, shall be received from a shareholder of record entitled to vote at such election by the Secretary of the Company on or before the later of (a) the thirtieth day prior to the date fixed for the meeting, or (b) the tenth day after the mailing of the notice of that meeting.

In addition, he is entitled to standard Board-approved cash and stock retainers and meeting fees, as well as office space, secretarial support, annual club dues and a Company vehicle or vehicle allowance.

Non-Employee Directors Stock Compensation Plan

Non-employee directors of the Company are awarded approximately \$100,000 worth of the Company's Common Stock upon joining the Board pursuant to the Company's Non-Employee Directors Stock Compensation Plan. These initial awards vest in monthly installments over the five calendar years following the award. On January 1 of each year thereafter, non-employee directors are awarded an additional \$20,000 of Common Stock which vests in monthly installments in the fifth year following the award (after the previous award has fully vested).

Non-employee directors may elect to receive awards in the form of deferred cash credits into the directors' cash accounts under the Directors Deferred Compensation Plan, rather than in the form of Common Stock. All awards vest immediately upon a change in control of the Company. Unvested shares and unvested cash credits are forfeited if the recipient ceases to be a director. The shares awarded are purchased in the open market by the Company at the time of award. Directors may elect to defer unvested shares into their stock accounts under the Directors Deferred Compensation Plan. Certificates representing a director's vested shares are not delivered to the director until after the director leaves the Board.

Directors Deferred Compensation Plan

Directors may elect to defer the receipt of all or a part of their directors' fees under the Company's Directors Deferred Compensation Plan. At the director's election, deferred amounts may be credited to either a cash account or a Company stock account. If deferred amounts are credited to stock accounts, such accounts are credited with a number of shares based on the purchase price of the Common Stock on the next purchase date under the Company's Dividend Reinvestment and Stock Purchase Plan, and such accounts are credited with additional shares based on the deemed reinvestment of dividends. Cash accounts are credited quarterly with interest at a rate equal to Moody's Average Corporate Bond Yield plus two percentage points. The crediting rate is subject to a six percent minimum rate. The rate is adjusted quarterly. At the election of the participant, deferred balances in the stock and/or cash accounts are payable after termination of Board service in a lump sum, in installments over a period not to exceed 10 years, or in a combination of lump sum and installments.

The Company's obligations under the Plan are unfunded and benefits will be paid either from the general funds of the Company or from the Umbrella Trust for Directors which has been established for this Plan. With respect to the cash accounts, the Company has purchased life insurance policies on the lives of the participants, the proceeds from which will be used to reimburse the Company for the payment of cash benefits from the Plan. The cost of any one individual participant cannot be properly allocated or determined because of overall Plan assumptions. In addition, the Company has contributed cash and Common Stock to the trustee of the Umbrella Trust such that the Umbrella Trust holds the number of shares of Common Stock equal to the number of shares credited to all directors' stock accounts. Shares so held will be used to fund the Company's obligation to pay out the stock accounts.

The Company may from time to time transfer other assets to the trustee of the Umbrella Trust to hold in trust for the benefit of Plan participants. The Company's obligations under the Plan are not limited to trust assets, and Plan participants will have a claim against the Company for any payments not made by the trustee. The Company instructs the trustee as to the investment of the trust's assets and the trustee's fees and expenses are paid by the Company.

Upon the occurrence of certain events, such as a change in control of the Company, termination of the Plan or the failure by the Company to provide the trust with adequate funds to pay current benefits, the Company may be required under the terms of the trust to contribute to the trust annually the amount by which the present value of all benefits payable under the Plan exceeds the value of the trust's assets.

Directors Retirement Benefit

On January 1, 1998, in connection with the termination of a prior retirement benefit for directors and in lieu of that benefit, the Company credited a number of shares of Company Common Stock to a stock account under the Directors Deferred Compensation Plan for each then current director. If such a director retires from the Board at age 70 or older with 10 or more years of service as a director or if the director earlier dies or becomes disabled or if there is an earlier change in control of the Company, the Company is obligated to deliver to the director (or to his or her beneficiary) the number of shares credited to the account, plus an additional number of shares based on reinvested dividends credited to the account over time. Concurrently with the creation of the stock accounts, the Company contributed to the Umbrella Trust for Directors a number of shares of the Company's Common Stock equal to the number of shares credited to directors' accounts. Such stock is held in the Umbrella Trust and will be used to fund the Company's obligation to pay out the stock accounts. The number of shares of Common Stock in the retirement benefit stock account of each such director at December 31, 2003 was: Tod R. Hamachek, 793; Randall C. Papé, 598; Richard G. Reiten, 1,313; Robert L. Ridgley, 1,913; Melody C. Teppola, 982; and Russell F. Tromley, 1,221.

CORPORATE GOVERNANCE STANDARDS

The Board of Directors adopted Corporate Governance Standards that are intended to provide the Company and its Board of Directors with policies and procedures designed to ensure that business is conducted to serve stakeholders with the highest level of integrity. These Corporate Governance Standards are reviewed annually by the Governance Committee to determine if changes should be recommended to the Board of Directors. Among other matters, the Corporate Governance Standards include the following:

A substantial majority of the Board should be independent and the Board annually assesses the independence of each Board member in accordance with its Director Independence Standards.

The Governance Committee, the Audit Committee and the Organization and Executive Compensation Committee consist entirely of independent directors, as that term is defined by New York Stock Exchange listing standards and the Company's Director Independence Standards.

Director nominees are recommended by the Governance Committee to the full Board in accordance with the Director Selection Criteria established by the Board.

Directors must retire from the Board at the first annual meeting of shareholders after reaching age 70. In addition, a director is expected to volunteer to resign from the Board if he or she retires or changes the principal position they held when they were initially elected to the Board.

Board and Committee structure and function, including expected Board meeting attendance and review of materials.

Board members have complete access to the Company's senior management and all Committees have access to independent counsel, accountants or other advisors, as appropriate.

The Governance Committee oversees the annual assessment of the performance and effectiveness of the Board, including Board committees, and provides the results to the full Board for discussion. In addition, the Governance Committee annually conducts peer reviews of directors prior to the end of their term of office.

Annually the Board reviews and approves the strategic plan and one-year operating and capital expenditure plans for the Company.

Committee members are recommended by the Governance Committee for appointment by the Board and committee membership is rotated from time to time.

The Board provides for an executive session of non-management directors at the end of each Board meeting. The chair of the Governance Committee presides at these executive sessions.

Succession planning and management development are reported at least annually by the Chief Executive Officer to the Board. The Organization and Executive Compensation Committee, in consultation with the Governance Committee, is responsible for planning for succession and submitting its recommendations to the Board of Directors with respect to Chief Executive Officer selection.

The Organization and Executive Compensation Committee, in consultation with the Governance Committee, recommends to the Board reasonable director compensation. Directors' compensation should include stock-based components to align the interests of directors with those of the shareholders of the Company. Directors who are also employees of the Company receive no additional compensation for service as directors.

Within four years after joining the Board, each Board member shall own Company shares (including vested and unvested shares awarded under the Non-Employee Directors Stock Compensation Plan) valued at five times the Board member's annual retainer fee.

Director orientation and continuing education programs are provided which are designed to familiarize new directors with the full scope of the Company's business and key challenges and to develop and maintain skills necessary or appropriate for the performance of their duties.

Incentive compensation plans link pay directly and objectively to measured financial and other goals set in advance by the Board.

Code of Ethics and Financial Code of Ethics policies, both of which are available on the Company's website at www.nwnatural.com.

In addition, the Board of Directors has adopted procedures for the receipt, retention and treatment of concerns from Company employees and others regarding accounting, internal controls, auditing or other matters. Employees may submit concerns anonymously pursuant to the Code of Ethics hotline, located on the Company's internal Web site. Shareholders may submit concerns in writing to the non-management directors of the Company, c/o the Corporate Secretary, 220 NW Second Avenue, Portland OR 97209, or by calling 1-800-541-9967 or sending an e-mail to directors@nwnatural.com. Concerns relating to accounting, internal accounting controls or auditing matters will be referred to the chair of the Audit Committee and the chair of the Governance Committee. Other concerns will be referred to the chair of the Governance Committee.

¹ Each Named Executive Officer received an award based on a three-year performance period (2003-2005). The Organization and Executive Compensation Committee established a series of performance targets based on the Company's average annual return on equity (ROE) for the performance period corresponding to award opportunities ranging from 0% to 200% of the target awards. No awards are payable unless the threshold annual average ROE level of 10 1/4 % is achieved during the award period. The maximum awards are payable only upon the achievement of an average annual ROE of 12 1/4%. A participant generally must be employed by the Company at the end of the performance period to receive an award payout, although pro-rated awards will be paid if employment terminates earlier on account of death, disability or retirement, or for other reasons within six months of the end of the performance period. Awards will be paid in Common Stock as soon as practicable after the end of the performance period. Participants will also receive dividend equivalent cash payments equal to the number of shares of Common Stock received on the award payout multiplied by the aggregate cash dividends paid per share by the Company during the performance period. Upon a change in control of the Company (as defined in the plan), all outstanding awards will be paid at the target award level.

For purposes of the ESRIP, compensation consists of the average of the annual salary and Executive Annual Incentive Plan bonus awarded to a plan participant by the Company for the highest three compensation years in the last 10 years prior to retirement.

The credited years of service under the ESRIP for Messrs. Dodson, McCoy and DeBolt, Ms. Ugoretz and Mr. Kantor are 6 years, 34 years, 24 years, 1 year and 7 years, respectively. A participant who becomes entitled to severance benefits under his or her executive severance agreement in connection with a change in control of the Company will receive three additional years of service credit for ESRIP purposes. See Executive Severance Agreements, below. Mr. Weber is not a participant in the ESRIP, but is a participant in the Retirement Plan for Non-Bargaining Unit Employees with four years of service. As such, he will be entitled to the same benefits upon retirement as other non-bargaining unit employees based on his age, years of service and final average compensation at retirement.

ESRIP benefits are 50% vested after five years of service and become vested for an additional 10% for each additional year of service until fully vested after 10 years of service. A participant who becomes entitled to severance benefits under his or her executive severance agreement in connection with a change in control of the Company will be fully vested regardless of years of service.

Executive Severance Agreements

Edgar Filing: NORTHWEST NATURAL GAS CO - Form DEF 14A

The Board of Directors has approved the Company's entry into severance agreements with each executive officer of the Company, including all of the Named Executive Officers. These agreements generally provide for the payment, upon the termination of the employee's employment by the Company without cause or by the employee for good reason (as defined in the severance agreement) within two years following a change in control of the Company, of an amount equal to

one, two or three times the sum of the employee's annual salary and average bonus for the last three years, and also provide up to three-years continuation of life and health insurance benefits. In addition, if any payments to the Named Executive Officers other than Mr. Weber are subject to the excise tax on parachute payments, the Company will make an additional payment to the employee such that the employee will receive net benefits as if no excise tax were payable. If such additional payments are required, the Company will not be able to deduct such additional payments for federal income tax purposes and also will be denied such a deduction for some or all of the other payments made pursuant to the agreement and its other plans and policies. Each employee is obligated under the severance agreement to remain in the employ of the Company for a period of 270 days following a potential change in control (as defined in the severance agreements).

Employment Agreements

On July 2, 1997, the Company entered into an employment agreement with Mr. Dodson for a term extending until December 31, 2002, with an option for Mr. Dodson to renew for an additional term through December 31, 2007. Effective January 1, 2003, the agreement was extended to December 31, 2007 and modified to reflect his appointment as President and Chief Executive Officer. Under this agreement, the Company modified the service requirements applicable to Mr. Dodson for purposes of the ESRIP. Accordingly, Mr. Dodson became vested and eligible under the ESRIP for supplemental retirement benefits at 32.5% of final annual compensation upon retirement on or after December 31, 2002, and will be vested and eligible under the ESRIP for supplemental benefits at 65% of final annual compensation upon retirement on or after December 31, 2007. The agreement also provides that Mr. Dodson will be vested and eligible under the ESRIP for supplemental retirement benefits at 65% of final annual compensation with no reduction in benefits based on early retirement if he (a) becomes disabled, (b) dies after December 31, 2002, (c) is terminated other than for cause, or (d) becomes entitled to severance benefits under his executive severance agreement in connection with a change in control of the Company.

REPORT OF THE ORGANIZATION AND EXECUTIVE COMPENSATION

COMMITTEE ON EXECUTIVE MANAGEMENT COMPENSATION

Executive Compensation Principles

The Company's executive compensation program is administered by the Organization and Executive Compensation Committee of the Board of Directors (the Committee) which is comprised of directors Boyle, Gibson, Tromley and Woolworth, each of whom is an independent director under applicable New York Stock Exchange listing standards. The program is designed to attract, motivate and retain talented executives critical to the achievement of the Company's long-term business strategy, its annual goals and objectives, the enhancement of shareholder value, and the implementation of corporate values. The program seeks to do this by:

Tying a portion of each executive's total compensation opportunity to the achievement of previously-established annual and long-term performance goals.

Aligning executives' long-term interests with those of the Company's shareholders by encouraging ownership of the Company's Common Stock.

Providing total compensation, including base salary and incentive compensation, which is competitive with that of other energy service and industrial companies of comparable size and circumstances.

The Board took action in 2002 and 2003 to revise the Committee charter and self-assessment form to ensure compliance with the Sarbanes-Oxley Act of 2002 and New York Stock Exchange requirements.

Executive Compensation Components

The Company's executive compensation program consists of three primary components: annual base salary, annual incentive cash bonuses and long-term stock incentives.

Base Salaries

Base salaries paid to executives are established by the Board of Directors upon the recommendation of the Committee based, in part, on market salary analyses prepared by the Company's independent compensation consultant. These analyses include salary data for comparable executive positions of energy service and industrial companies of approximately the same size in terms of total revenues located throughout the United States. The energy services portion of the analysis includes data from the American Gas Association executive compensation survey, which includes gas distribution companies comparable to the Company.

Edgar Filing: NORTHWEST NATURAL GAS CO - Form DEF 14A

The Committee uses this information as a guide to establish base salaries that are competitive with those paid to executives in similar positions in comparable companies. Generally, it is the Committee's policy to target executives' base salaries at a level equivalent to the 50th percentile for base salaries for comparable positions included in the consultant's analyses. Each executive's targeted salary level may be adjusted, at the discretion of the Committee, on the basis of such executive's performance and potential, as well as changes in duties and responsibilities. The Committee reviews executives' salaries annually.

During 2003, the independent compensation consultant conducted a complete review of the total remuneration paid or provided to Company executives. This review included salary, annual incentives, the expected value of long-term incentives and health, welfare and other benefits, paid or provided to Company executives in comparison to the total remuneration paid or provided to executives in similar positions with a group of comparable energy and gas utility companies and general industry companies. Based on this review, the consultant concluded that generally the total remuneration paid to Company executives was in line with the median total remuneration

for similar executive positions within the energy and gas utility group and was somewhat below median when compared to the general industry group.

Executive Annual Incentive Plan

The Company's Executive Annual Incentive Plan is intended to advance the interests of the Company and its shareholders by means of an incentive cash bonus program which will motivate key executives to achieve previously-established annual performance goals. The amounts to be paid if these goals should be achieved, when added to base salaries, are intended to place the Company's executives' compensation at the 50th percentile of total cash compensation for comparable positions included in the consultant's analyses. Should the Company exceed these incentive goals, total cash compensation may be between the 50th and 75th percentiles.

Participation in the Executive Annual Incentive Plan currently is limited to 13 participants selected by the Committee, including eight executive officers. The payment of awards under this Plan is contingent upon meeting predetermined individual and Company performance goals. At the beginning of each year, weighted performance goals are established. At year-end, performance is measured against these goals. The results are considered by the Committee in determining the amounts to be awarded, if any.

The amounts of the awards are based on a formula which reflects an allocation between Company and individual performance criteria. The allocation depends upon each executive's ability to influence corporate performance. Depending upon position, performance and the other factors considered by the Committee, an executive can earn from 20% to 50% of base salary if the prescribed Company and individual performance goals are met, or up to 30% to 75% of base salary if these goals are exceeded.

Performance goals established for 2003 focused on strengthening the Company's financial position. These goals included the achievement of: (1) net income in an amount which the Committee determined would demonstrate above average performance; and (2) several operating goals related to return on new residential customers, customer satisfaction improvement, market share, capital cost management and productivity in serving customers. In combination, these goals measured the Company's performance in terms of its overall profitability, return on new residential customers, customer satisfaction, market share, the reduction of costs and the achievement of greater efficiency. In determining the awards, the Committee accorded 50% of the weight to net income and 50% to the combined group of operating goals. The grant of any award for 2003 was conditioned upon the Company's 2003 net income exceeding a percentage of the target designated in advance by the Committee and being sufficient to cover the payment of all dividends.

Long-Term Incentives

The long-term portion of the Company's executive compensation program consists of two components: stock options and performance shares. Stock options provide incentives to executives to increase the Company's Common Stock price performance, thereby aligning their interests with those of the other common shareholders.

The Company typically makes stock option grants under the Restated Stock Option Plan every two years, rather than annually. No options were granted to the Named Executive Officers shown in the Summary Compensation Table (page 17) in 2003. When grants are made, the number of options granted is based upon a combination of several factors, including the independent compensation consultant's competitive market analysis of long-term incentives, including the stock option component, and the Committee's judgment as to how many options will provide meaningful incentives to executives. In determining the number of options to be granted, the Committee takes into consideration the number of shares available for grant under the Plan, the number of options previously granted and the number of shares then owned by each Named

Executive Officer in relation to targeted objectives for stock ownership by executives. Those objectives, contained in the Company's Corporate Governance Standards, provide the following ownership guidelines for executive officers, expressed as a multiple of each officer's base salary: (i) two times salary for the Chief Executive Officer, (ii) one and one-half times salary for the Executive Vice President and Senior Vice Presidents, and (iii) one times salary for all other executive officers. These ownership objectives generally are to be attained within five years of being appointed an officer.

The second component of long-term compensation is provided through a performance share program pursuant to the Company's Long-Term Incentive Plan. This program consists of annual awards payable in Company stock, based on the Company's financial performance over three-year performance cycles. Awards granted by the Committee in 2001 were based on a three-year performance cycle covering the period 2001-2003. The performance measure used to determine incentive awards for this cycle was the Company's average return on equity during the period covered by the award in relation to pre-established targeted objectives. The return on equity targets in the plan were well above the approved regulated return on equity during this performance award cycle, which concluded on December 31, 2003, and no awards were paid.

CEO Compensation

Compensation paid to Mark S. Dodson for the year 2003, as President and Chief Executive Officer, consisted of his base salary and an annual incentive bonus. Mr. Dodson's 2003 compensation reflects his base salary of \$390,000, effective as of January 1, 2003, concurrent with his appointment as Chief Executive Officer. This base salary was deemed by the Committee and the Board to be appropriate to reflect the additional responsibilities assumed by Mr. Dodson upon his appointment as CEO and to maintain the competitiveness of his base salary. His compensation also reflects a cash bonus of \$250,000 under the Executive Annual Incentive Plan. The 2003 incentive award, which is equal to 56% of Mr. Dodson's 2003 base salary, was based, in part, upon the achievement of the corporate performance goals as described above under the Executive Annual Incentive Plan and upon the Committee's evaluation of Mr. Dodson's performance in relation to the achievement of pre-established individual performance goals. For 2003, the Company reported earnings of \$1.76 a diluted share and net income applicable to common stock of \$45.7 million. These 2003 results met or exceeded performance goals, including the targeted net income goal. The Committee determined that the achievements made with respect to these corporate performance goals, together with Mr. Dodson's overall accomplishments for the year, warranted the bonus awarded to Mr. Dodson for 2003. Considering the competitive market analysis of long-term incentive opportunities, in early 2002, prior to Mr. Dodson's appointment as CEO, the Committee granted Mr. Dodson 12,500 non-statutory stock options and, in early 2003, awarded him 8,000 performance shares for the three-year cycle beginning January 1, 2003. See Long-Term Incentive Plan Awards In 2003, on page 18.

Deductibility of Compensation

Section 162(m) of the Internal Revenue Code of 1986, as amended (the Code), generally limits to \$1 million per person the amount that the Company may deduct for compensation paid in any year to any individual who, on the last day of the taxable year, is its chief executive officer or is among its four highest compensated officers (other than the chief executive officer). Certain exceptions to this limitation apply to so-called performance-based compensation. The Company does not expect the sum of the base salary, annual cash incentive bonus and other relevant compensation paid to any executive officer to exceed \$1 million in any year. In the event that in the future the Company determines that an executive's annual compensation may approach or exceed this limitation, it will consider the use of this exception to the limitation under Code Section 162(m) as it has in the case of stock options and long-term incentive awards as described below.

It is the Company's policy generally to grant options that meet the requirements of the Code and the regulations thereunder so that any such compensation recognized by an optionee will be fully deductible performance-based compensation. The shareholders have previously approved the Restated Stock Option Plan to comply with the performance-based compensation requirements of Code Section 162(m) so that compensation received on the exercise of options granted under this Plan would not be subject to the \$1 million limitation. In 1996, the Committee determined that option grants would henceforth generally be Non-Statutory Stock Options for which the Company will receive a tax deduction upon exercise.

The performance share long-term incentive awards granted by the Company are also generally intended to meet the performance-based compensation requirements of the Code and regulations so that any compensation paid under those awards will be fully deductible. However, the long-term incentive awards granted in 2002 for the 2002-2004 performance cycle did not meet the performance-based compensation requirements because those awards were approved by the Committee more than 90 days after the commencement of the cycle. The awards in 2002 were delayed pending resolution of matters related to the attempted acquisition of Portland General Electric Company.

REPORT OF AUDIT COMMITTEE

The Audit Committee of the Board of Directors (the Committee) is responsible for providing independent, objective oversight of the Company's accounting functions, financial reporting and internal controls. The Committee acts under a written charter first adopted and approved by the Board on May 25, 2000, and amended as of September 25, 2003, to ensure compliance with applicable laws and regulations. The charter is reviewed annually by the Committee and is available on the Company's website at www.nwnatural.com. See Appendix B. Each of the members of the Committee is independent as defined by current New York Stock Exchange listing standards.

The Committee, in accordance with its written charter, oversees the quality and integrity of the Company's accounting, auditing and financial reporting practices. During fiscal 2003, the Committee discussed the interim financial information in each of the Company's quarterly reports to the Securities and Exchange Commission (SEC) in special meetings with the Chief Executive Officer, the Chief Financial Officer, the Controller and PricewaterhouseCoopers LLP, the Company's independent auditor, prior to filing them with the SEC. In addition, the Chair of the Committee and available Committee members review the Company's quarterly earnings press release before its dissemination.

During 2003, the Committee reviewed disclosure controls and procedures designed to ensure the continuing integrity of the Company's financial reports and the Company's compliance with new corporate governance mandates, including oversight of the Company's assessment of its internal controls over financial reporting.

In fulfilling its responsibilities, the Committee has reviewed and discussed the audited financial statements contained in the Company's Annual Report on Form 10-K for the year ended December 31, 2003 with the Company's management and the independent auditor. As part of its review, the Committee discussed the Company's critical accounting policies and matters of judgment and estimates used in the preparation of the financial statements included in the Company's 2003 Annual Report on Form 10-K. In addition, the Committee discussed with the independent auditor those matters required to be discussed by Statement on Auditing Standards No. 61, *Communications with Audit Committees*. Management is responsible for the financial statements and the reporting process, including the system of internal controls. The independent auditor is responsible for expressing an opinion as to whether the financial statements are presented fairly, in all material respects, in conformity with accounting principles generally accepted in the United States.

In discharging its oversight responsibility as to the audit process, the Committee obtained from the independent auditor a formal written statement describing all relationships and non-audit services between the independent auditor and the Company that might bear on the auditor's independence consistent with Independence Standards Board Standard No. 1, *Independence Discussions with Audit Committees*. In this regard, the Committee considered whether or not the provision of non-audit services by the independent auditor for the year 2003 is compatible with maintaining the independence of the firm.

In February 2003, the Committee pre-approved certain non-audit services performed by the Company's independent auditor and affirmed its procedure for the pre-approval of any future non-audit services performed by its independent auditor during the 2003 audit. On February 26, 2004, the Committee pre-approved specific services to be performed by the independent auditor in 2004, including audit, audit-related and tax services, and established its procedure for pre-approval of all other services to be performed by the independent auditor in 2004. The Committee determined that:

For proposed non-audit services, Company management will submit to the Committee the list of non-audit services that it recommends the Committee engage the independent auditor to provide;

The Committee will review and consider for approval the list of permissible non-audit services and the budget for such services;

The Committee will be informed routinely by management as to the non-audit services actually provided by the independent auditor pursuant to this pre-approval process; and

The Director of Internal Auditing will be responsible for reporting at least annually to the Committee all independent auditor fees against the pre-approved budget for such services.

The chair of the Committee is authorized to pre-approve non-audit services between meetings of the Committee and must report such approvals at the next Committee meeting.

The Committee also discussed with the independent auditors any relationships that may impact their objectivity and independence and satisfied itself as to the auditor's independence. The Committee also completed its annual assessment of the independent auditor's and internal auditor's performance. The Committee discussed with management, the internal auditors and the independent auditor the quality and adequacy of the Company's internal controls, and the organization, responsibilities, budget and staffing of the internal audit function. The Committee reviewed with both the independent auditor and the internal auditors their respective audit plans, audit scopes and identification of audit risks.

The Committee, in reliance on the reviews and discussions referred to above, recommended to the Board of Directors (and the Board has approved and directed) that the audited financial statements be included in Northwest Natural Gas Company's Annual Report on Form 10-K for the year ended December 31, 2003, for filing with the Securities and Exchange Commission.

Statement of Policy

Director Independence Standards

I.

Policy

It is the sense of this Board that the expertise and perspective of independent directors is of great value and benefit to the Corporation and its stockholders. Accordingly, and in keeping with the other high standards of corporate governance which this Board has established for itself, the listing standards of the New York Stock Exchange, and laws and regulations applicable to the Corporation, this Board establishes the following guidelines on director independence and for determining whether its members are independent.

II.

Director Independence General

The Board believes that a substantial majority of its members should satisfy these standards for independence.

No director may be deemed independent unless the Board affirmatively determines, after due deliberation, that the director has no material relationship with the Corporation either directly or as a partner, shareholder or officer of an organization that has a relationship with the Corporation. In each case, the Board shall broadly consider all the relevant facts and circumstances and shall apply these standards. Trivial or *de minimis* affiliations or connections to the Corporation by a director or his or her immediate family will not generally be cause for the Board to determine that the director is not independent. In addition:

- 1) A director who is an employee or whose immediate family member is an executive officer of the Corporation is not independent until three years after the termination of such employment relationship. Employment as an interim Chairman of the Board or Chief Executive Officer shall not disqualify a director from being considered independent following that employment.
- 2) A director who receives, or whose immediate family member receives, more than \$100,000 per year in direct compensation from the Corporation, other than director and committee fees and pension or other forms of deferred compensation for prior service (provided such compensation is not contingent in any way on continued service), is not independent until three years after he or she ceases to receive more than \$100,000 per year in such compensation. Compensation received by a director for former service as an interim Chairman or Chief Executive Officer shall not be considered in determining independence under this test. Compensation received by

an immediate family member for service as a non-executive employee of the Corporation need not be considered.

A-1

- 3) A director who is affiliated with or employed by, or whose immediate family member is affiliated with or employed in a professional capacity by, a present or former internal or external auditor of the Corporation is not independent until three years after the termination of the affiliation or the employment or auditing relationship.
- 4) A director who is employed, or whose immediate family member is employed, as an executive officer of another company where any of the Corporation's present executives serve on that company's compensation committee is not independent until three years after the termination of such service or employment relationship.
- 5) A director who is an executive officer or an employee, or whose immediate family member is an executive officer, of a company that makes payments to or receives payments from, the Corporation for property or services in an amount which, in any single fiscal year, exceeds the greater of \$1,000,000 or 2% of such other company's consolidated gross revenues, is not independent until three years after the contribution to consolidated gross revenues falls below that threshold. Relationships involving a director's affiliation with another company that account for lesser amounts than those specified will not be considered to be material relationships that would impair the director's independence, provided that the related payments for goods or services or in connection with other contractual arrangements are made in the ordinary course of business and on substantially the same terms as those prevailing at the time for comparable transactions with non-affiliated parties.
- 6) The following not-for-profit relationships will not be considered to be material relationships that would impair a director's independence: if a director (or an immediate family member of the director) serves as an officer, director or trustee of a not-for-profit organization, and (i) the Corporation's discretionary charitable contributions to the organization are less than 1% of that organization's consolidated gross revenues during its preceding fiscal year or \$25,000, whichever is greater, and (ii) the Corporation's discretionary charitable contributions to the organization are less than 5% of the Corporation's annual budget for such contributions for the year in question. The Corporation's automatic matching of employee charitable contributions will not be included in the amount of the Corporation's charitable contributions for this purpose. In addition, the Corporation's contributions to nonprofit umbrella organizations that themselves support or administer funds for a number of separate, unrelated charities shall be considered outside the scope of this paragraph.
- 7) A director who receives compensation for services as (or who is affiliated with an organization that is) a significant advisor, counsel or consultant to the Corporation is not independent.
- 8) The ownership of stock of the Corporation by directors is encouraged and substantial stock ownership will not affect the status of a director as either independent or non-independent.

The Board will annually review the commercial, industrial, banking, consulting, legal, accounting and charitable relationships between the Corporation's directors and the organizations with which they and the members of their immediate families have material interests. For relationships that are either not covered by or do not satisfy these guidelines, the determination of whether the relationship is material or not, and therefore whether the director would be independent or not, shall be made by the directors satisfying the independence guidelines.

III.

Director Independence Audit Committee Members

No director who is a member of the Audit Committee of the Board may accept any consulting, advisory or compensatory fee from the Corporation, or from any of its subsidiary companies, other than in that director's capacity as a member of the Board or any of the Board's several committees.

In addition, no director who is a member of the Audit Committee may be an affiliated person of the Corporation or any of its subsidiary companies apart from affiliation occasioned by the director's service as a member of the Board or any of the Board's several committees. A director would be deemed an affiliated person of the Corporation if that director directly or indirectly, through one or more intermediaries, controls, or is controlled by, or is under common control with the Corporation.

IV.

Independence of Certain Committee Members

No director may serve on the Governance Committee, Audit Committee or Organization and Executive Compensation Committee of the Board unless such director is independent in accordance with these Standards.

V.
