Item 8.01 Other Events.

As previously announced, the Company is in the process of preparing restated consolidated financial statements for the years ended December 31, 2002 through 2004. The Company continues to work diligently to complete the restatement process, and after re-assessing the process, the Company is updating its guidance as to when it anticipates finishing its work on its restated financial statements and its amended Annual Report on Form 10-K/A for the year ended December 31, 2004 (the 2004 10-K/A). The Company believes that its work on its restated financial statements, the results of which will be subject to audit, together with its 2004 10-K/A will be completed by the end of the fourth quarter of 2006. The Company is expressing no view as to when audited financial statements and its 2004 10-K/A will be publicly available, but continues to believe it more likely than not that it will be in the first quarter of 2007.

The Company has also previously announced that it is concurrently working on its Annual Report on Form 10-K for the year ended December 31, 2005 (the 2005 10-K). If the Company fails to file its 2005 10-K in satisfaction of the filing requirements of the New York Stock Exchange (the Exchange), the Company has previously advised that it expects that its Common Stock will be de-listed by the Exchange. Under the rules of the Exchange, a listed company is required to file its Annual Report on Form 10-K not later than six months after the filing was originally due, but the Company can request an extension of the time by which the 2005 10-K must be filed. The Company previously disclosed that the Exchange on September 29, 2006 had granted the Company s request for up to a six month extension, to April 3, 2007, of the time to file its 2005 10-K. The Exchange indicated that the extension granted to the Company was subject to ongoing reassessment, which will take into consideration the Company s successful achievement of interim milestones, including the filing of its 2004 10-K/A. The Company expects to complete its work on its 2005 consolidated financial statements, which will be subject to audit, together with its 2005 10-K, early in the first quarter of 2007. The Company is expressing no view as to when audited financial statements and its 2005 10-K will be publicly available.

The updated guidance provided herein with respect to the Company s expected completion of the 2004 10-K/A and the 2005 10-K does not change the Company s prior guidance on the amount of the expected reduction in stockholder s equity expected to be incurred in connection with the restatement process. On August 28, 2006, the Company confirmed its prior disclosure that it expected the restatement process to result in a reduction of stockholders equity by an aggregate of between \$168 million and \$183 million after taxes (\$275 million to \$300 million before taxes, of which \$190 million related to the adjustments for retained residual interests). While the restatement process is ongoing, the Company continues to believe that the aggregate reductions required to its stockholders equity are within the previously disclosed range of reductions.
