Luby's, Inc.

Notes to Consolidated Financial Statements (unaudited)

November 21, 2007

Note 1. Basis of Presentation

The accompanying unaudited consolidated financial statements of Luby's, Inc. (the Company or Luby's) have been prepared in accordance with U.S. Generally Accepted Accounting Principles (GAAP) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements as they are prepared for the Company's Annual Report on Form 10-K. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the period ended November 21, 2007, are not necessarily indicative of the results that may be expected for the fiscal year ending August 27, 2008.

The balance sheet dated August 29, 2007, included in this Form 10-Q, has been derived from the audited financial statements at that date. However, this Form 10-Q does not include all of the information and footnotes required by GAAP for an annual filing of complete financial statements. Therefore, these financial statements should be read in conjunction with the consolidated financial statements and footnotes included in Luby's Annual Report on Form 10-K for the fiscal year ended August 29, 2007.

Certain accounts and prior period results have been reclassified to provide more meaningful comparability to the Company's current presentation. Culinary contract service revenue and operating expenses have been reclassified on a gross basis for fiscal year 2007.

Note 2. Accounting Periods

The Company's fiscal year ends on the last Wednesday in August. As such, each fiscal year normally consists of 13 four-week periods, accounting for 364 days. Each of the first three quarters of each fiscal year consists of three four-week periods, while the fourth quarter normally consists of four four-week periods. Comparability between accounting periods may be affected by varying lengths of the periods, as well as the seasonality associated with the restaurant business.

Note 3. Short-Term Investments

Short-term investments include securities of two types. Securities held-to-maturity are reported at amortized cost. Available-for-sale securities are reported at fair value with unrealized gains and losses excluded from earnings and reported in shareholders' equity. The fair value of the available-for-sale securities equaled their acquisition cost. As of November 21, 2007, all short-term investments were held in auction rate municipal bonds where the underlying maturity dates of these investments held by the Company ranged from October 1, 2018 through June 1, 2040, with all having rates reset between 7 and 35 days depending on the issue through a Dutch Auction. No unrealized gains or losses were recognized on these investments during either of the quarters ended November 21, 2007 or November 22, 2006.

Note 4. Income Taxes

For the quarter ended November 21, 2007, including both continuing and discontinued operations, the Company generated gross taxable income of approximately \$3.1 million. Cash payments of estimated income taxes of \$172,000 were made during the first quarter of 2008.

The net income tax benefit for the first quarter of fiscal year 2008 includes a reversal of tax accruals for contingencies that did not materialize following the completion of tax audits. Also included is an income tax refund that is expected to be received. Additionally, the net benefit reflects the reversal of unrealized deferred tax assets related to stock options. The total nonrecurring benefit credited to income tax expense for the first quarter of fiscal year 2008 is approximately \$2.8 million.

Table of Contents

Effective August 30, 2007, the Company adopted the provisions of FASB Interpretation No. 48 (FIN 48), Accounting for Uncertainty in Income Taxes. In connection with the adoption of FIN 48, the Company recognized an increase of approximately \$494,000 to the Company's tax reserves for uncertain positions, which was accounted for as a reduction to retained earnings on August 30, 2007. With the exception of the decrease for the uncertain tax position recorded prior to the adoption of FIN 48 that was related to the IRS audit that was resolved in the first quarter, there have been no significant changes in the accrual for uncertain positions from the date of adoption to quarter end.

The Company's federal income tax returns have been periodically reviewed by the Internal Revenue Service. In August 2006, the Company settled an IRS audit of the 2003 fiscal year and agreed to a partial reduction of the loss claimed on the federal income tax return for the year. The result of the audit was a reduction of the cumulative net operating losses carried forward that were fully utilized in fiscal 2007.

The IRS has also reviewed the Company's federal income tax returns for fiscal years 2002, 2001, and 2000. The IRS originally proposed adjustments to deductions claimed on the returns, but an appeal of the IRS adjustments was resolved in the Company's favor in the first quarter of fiscal 2008. The Company received written notice from the Congressional Joint Committee on Taxation (JCT) during our first quarter indicating that they completed their review of our case in our favor. As a result of the JCT's review taking no exception to the conclusions presented in our appeal, the Company has derecognized or reversed the contingent tax liability previously reported in current accrued expenses and other liabilities. The accrued interest portion of this liability is recorded as interest related to income taxes, with the non-interest portion of the liability recorded as an income tax benefit in the accompanying statement of operations. In addition, the Company's appeal provided for an income tax refund, which the Company has recorded as an income tax benefit, with the interest receivable portion recorded as interest related to income taxes in the accompanying statement of operations.

The Company operates in five states and is subject to state and local income taxes in addition to federal income taxes. The Company is not currently under review by any state agency for any open period. The results of the conclusion of the most recent IRS audit must be communicated to the states in which the Company operates, but we do not expect it to have a negative impact on any tax position we have filed in those states.

Management believes that adequate provisions for income taxes have been reflected in the financial statements and is not aware of any significant exposure items that have not been reflected in the financial statements. Amounts considered probable of settlement within one year have been included in the accrued expenses and other liabilities in the accompanying consolidated balance sheet.

Note 5. Property and Equipment

The cost and accumulated depreciation of property and equipment at November 21, 2007 and August 29, 2007, together with the related estimated useful lives used in computing depreciation and amortization, were as follows:

	November 21, 2007	August 29, 2007	Estimated Useful Lives
	<i>(In thousands)</i>		
Land	\$ 54,329	\$ 52,829	
Restaurant equipment and furnishings	110,798	109,674	3 to 15 years
Buildings	182,339	180,990	20 to 33 years
			Lesser of lease term or estimated useful life
Leasehold and leasehold improvements	18,147	17,730	
Office furniture and equipment, computer hardware and software	5,943	4,956	3 to 10 years
Construction in progress	1,085	752	
	372,641	366,931	
Less accumulated depreciation and amortization	(183,762)	(180,948)	
Property and equipment, net	\$ 188,879	\$ 185,983	

Table of Contents

Note 6. Impairment of Long-Lived Assets and Property Held for Sale

Impairment of Long-Lived Assets and Store Closings

The Company periodically evaluates long-lived assets whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The Company estimates future cash flows expected to result from the use and possible disposition of the asset and will recognize an impairment loss when the sum of the undiscounted estimated future cash flows is less than the carrying amounts of such assets. The estimates of future cash flows, based on reasonable and supportable assumptions and projections, require management's subjective judgments. The span of time for which future cash flows are estimated is often lengthy, which increases the sensitivity to assumptions made. Depending on the assumptions and estimates used, the estimated future cash flows projected in the evaluation of long-lived assets can vary within a wide range of outcomes. The Company considers the likelihood of possible outcomes in determining the best estimate of future cash flows. The measurement for such an impairment loss is then based on the fair value of the asset as determined by either discounted cash flows or appraisals. In the first quarter fiscal 2008, the Company recognized a \$1.2 million impairment related to selected under performing operating restaurants based on an estimate of net sales proceeds, partially offset by a \$0.5 million reversal of a previously recognized impairment related to one ground lease unit which will be reopened in fiscal 2008. With respect to continuing operations, writedowns associated with these impairment analyses, as well as actual exit costs incurred for store closings are reflected in the Provision for (reversal of) Asset Impairments.

Property Held for Sale

At November 21, 2007, the Company had one owned property and two ground leases recorded at \$736,000 in property held for sale. The properties are related to prior disposal plans. The Company is actively marketing the locations currently classified as property held for sale. At August 29, 2007, the Company had one owned property and three ground leases recorded at \$736,000 in property held for sale.

In the first quarter of fiscal year 2008, one of the ground lease properties was reclassified from property held for sale to property and equipment. Management has plans to reopen the location as an operating restaurant in the future.

Property held for sale consists of already-closed restaurant properties. Properties held for sale are valued at the lower of net depreciable value or net realizable value.

The Company's results of discontinued operations will be affected to the extent proceeds from property sales exceed or are less than net book value.

Note 7. Commitments and Contingencies

Off-Balance Sheet Arrangements

The Company has no off-balance sheet structured financing arrangements.

Pending Claims

We are subject to private lawsuits, administrative proceedings and claims that arise in the ordinary course of our business. A number of these lawsuits, proceedings and claims may exist at any given time. These matters typically involve claims from guests, employees and others related to issues common to the restaurant industry.

Construction Activity

From time to time, the Company enters into non-cancelable contracts for the construction of its new restaurants. This construction activity exposes the Company to the risks inherent in new construction including but not limited to rising material prices, labor shortages, delays in getting required permits and inspections, adverse weather conditions and injuries sustained by workers.

Table of Contents

Note 8. Related Parties

Affiliate Services

The Company's Chief Executive Officer, Christopher J. Pappas, and Chief Operating Officer, Harris J. Pappas, own two restaurant entities (the Pappas entities) that may provide services to the Company and its subsidiaries, as detailed in the Master Sales Agreement dated December 9, 2005 among the Company and the Pappas entities.

Under the terms of the Master Sales Agreement, the Pappas entities may provide specialized (customized) equipment fabrication and basic equipment maintenance, including stainless steel stoves, shelving, rolling carts, and chef tables. The total costs under the Master Sales Agreement of custom-fabricated and refurbished equipment in the first quarter of each of fiscal year 2008 and 2007 were \$15,200 and zero, respectively. Services provided under this agreement are subject to review and approval by the Finance and Audit Committee.

Operating Leases

The Company leases property from the Pappas entities, currently on a month-to-month basis. The leased property, referred to as the Houston Service Center, is used to accommodate the Company's in-house repair and fabrication center. The Company paid \$13,600 and \$13,600, in the first quarter of each fiscal year 2008 and 2007, respectively, pursuant to the terms of this lease.

The Company also leases approximately 27,000 square feet of warehouse space from the Pappas entities to complement the Houston Service Center, at a monthly rate of approximately \$0.21 per square foot. The Company paid \$11,118 and \$11,800 in the first quarter of each of fiscal years 2008 and 2007, respectively, pursuant to the terms of this lease.

In the third quarter of fiscal 2004, Messrs. Pappas became partners in a limited partnership which purchased a retail strip center in Houston, Texas. Messrs. Pappas collectively own a 50% limited partnership interest and a 50% general partnership interest in the limited partnership. A third party company manages the center. One of the Company's restaurants has rented approximately 7% of the space in that center since July 1969. No changes were made to the Company's lease terms as a result of the transfer of ownership of the center to the new partnership. The Company made payments of \$43,896 and \$44,438 in the first quarter of each of fiscal years 2008 and 2007, respectively, under the lease agreement which currently includes an annual base rate of \$14.64 per square foot.

On November 22, 2006, the Company executed a new lease agreement with respect to this shopping center. Effective upon the Company's relocation and occupancy into the new space, which is expected to occur in calendar year 2008, the new lease agreement provides for a primary term of approximately 12 years with two subsequent five-year options and gives the landlord an option to buy out the tenant on or after the calendar year 2015 by paying the then unamortized cost of improvements to the tenant. The Company will owe, under the lease, \$16.65 per square foot plus maintenance, taxes, and insurance for the calendar year 2008. Thereafter, the lease provides for reasonable increases in rent at set intervals. The new lease agreement was approved by the Finance and Audit Committee.

Table of Contents

Affiliated rents paid for the Houston Service Center, the separate storage facility and the Houston property leases combined represented 7.5% and 7.9% of total rents for continuing operations for the first quarter of each of fiscal years 2008 and 2007, respectively.

Board of Directors

Pursuant to the terms of a separate Purchase Agreement dated March 9, 2001, entered into by and among the Company, Christopher J. Pappas and Harris J. Pappas, the Company agreed to submit three persons designated by Christopher J. Pappas and Harris J. Pappas as nominees for election at the 2002 Annual Meeting of Shareholders. Messrs. Pappas designated themselves and Frank Markantonis as their nominees for directors, all of whom were subsequently elected. Christopher J. Pappas and Harris J. Pappas are brothers, Frank Markantonis is an attorney whose principal client is Pappas Restaurants, Inc., an entity owned by Harris J. Pappas and Christopher J. Pappas.

As amended in June 2004, the Purchase Agreement allows Messrs. Pappas to continue to nominate persons for election to the board, which, if such nominees are elected, would result in Messrs. Pappas having nominated three of the then-serving directors of the Company. Messrs. Pappas retain their right for so long as they both are executive officers of the Company.

Christopher J. Pappas, is an advisory member of the Board of Directors of Amegy Bank, National Association, which is a lender and syndication agent under the Company's 2007 Revolving Credit Facility. In addition, the Company had short term investments of \$0.5 million with Amegy Bank at November 21, 2007.

Table of Contents

Key Management Personnel

In November 2005, Christopher and Harris Pappas entered into new employment agreements that were amended in October 2007 to extend the termination date thereof to August 2009. Both continue to devote their primary time and business efforts to Luby's while maintaining their roles at Pappas Restaurants, Inc.

Ernest Pekmezaris, the former Chief Financial Officer of the Company, became a consultant to the Company on April 20, 2007. Mr. Pekmezaris is also the Treasurer of Pappas Restaurants, Inc. Compensation for the services provided by Mr. Pekmezaris to Pappas Restaurants, Inc. is paid entirely by that entity.

Peter Tropoli, Senior Vice President, Administration, General Counsel and Secretary of the Company, is an attorney who, in the past, provided litigation services to entities controlled by Christopher J. Pappas and Harris J. Pappas. Mr. Tropoli is the stepson of Frank Markantonis, who is a director of the Company.

Paulette Gerukos, Vice President of Human Resources of the Company, is the sister-in-law of Harris J. Pappas, the Chief Operating Officer.

Note 9. Share-Based Compensation

Stock Options

The Company has an Executive Stock Option Plan as well as Incentive Stock Plans for officers and employees together (Employee Stock Plans) and a Non-employee Director Stock Option Plan for non-employee directors. These plans authorize the granting of stock options, restricted stock and other types of awards consistent with the purpose of the plans. The number of shares authorized for issuance under the Company's plans as of November 21, 2007 totals approximately 2.9 million, of which approximately 1.7 million shares are available for future issuance. Stock options granted under the Incentive Stock Plans and the Non-employee Director Stock Option Plan have an exercise price equal to the market price of the Company's common stock at the date of grant.

Option awards under the Executive Stock Option Plan vest 50% on the first anniversary of the grant date, 25% on the second anniversary of the grant date, and the remaining 25% on the third anniversary of the grant date and expire ten years from the grant date. Option awards under the Employee Stock Plans generally vest 25% each year on the anniversary of the grant date and expire six to ten years from the grant date. Option awards under the Non-employee Director Stock Option Plan generally vest 100% on the first anniversary of the grant date and expire ten years from the grant date.

In connection with their entry into employment agreements effective March 9, 2001, Messrs. Pappas together were granted an aggregate of approximately 2.2 million stock options at an exercise price of \$5.00 per share, which was below the quoted market price on the date of grant. The Company's Board of Directors unanimously approved the employment agreements and related stock option grants. Messrs. Pappas exercised these options on October 26, 2007.

Table of Contents

Outstanding at November 21, 2007	757,572	\$ 10.48	4.54	\$ 583

Restricted Stock

Restricted stock grants consist of the Company's common stock and generally vest after three years, with the exception of grants under the Nonemployee Director Stock Option Plan, which vest when granted due to the fact that they are granted in lieu of a cash payment. All restricted stock grants are cliff-vested. Restricted stock awards are valued at the average market price of the Company's common stock at the date of grant.

A summary of the Company's restricted stock activity during the first quarter of fiscal year 2008 is presented in the following table:

	Restricted Stock Units	Fair Value (Per share)	Weighted-Average Remaining Contractual Term (Years)	Weighted-Average Grant Date
Unvested at August 29, 2007	40,468	\$ 11.05	1.64	6/14/06
Granted	44,417	11.12	2.65	11/9/07
Vested	(4,999)	11.25		10/1/07
Unvested at November 21, 2007	79,886	\$ 11.06	2.27	2/24/07

Table of Contents**Note 10. Earnings Per Share**

Basic net income per share is computed by dividing net income available to common shareholders by the weighted average number of common shares outstanding for the reporting period. Diluted net income per share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock. For the calculation of diluted net income per share, the basic weighted average number of shares is increased by the dilutive effect of restricted stock, phantom stock, and stock options determined using the treasury stock method. Stock options with exercise prices exceeding current market prices that were excluded from the computation of net income per share amounted to approximately 249,000 shares and 246,000 shares for the quarters ended November 21, 2007 and November 22, 2006, respectively.

The components of basic and diluted net income per share are as follows:

	Quarter Ended	
	November 21, 2007 (84 days)	November 22, 2006 (84 days)
	<i>(In thousands, except per share data)</i>	
Numerator:		
Income from continuing operations	\$ 4,845	\$ 2,007
Net income	\$ 4,771	\$ 1,915
Denominator:		
Denominator for basic earnings per share weighted-average shares	26,883	26,080
Effect of potentially dilutive securities:		
Employee and non-employee stock options	640	966
Phantom stock	30	30
Restricted stock	44	26
Denominator for earnings per share assuming dilution	27,597	27,102
Income from continuing operations:		
Basic	\$ 0.18	\$ 0.08
Assuming dilution	\$ 0.18	\$ 0.07
Net income per share:		
Basic	\$ 0.18	\$ 0.07
Assuming dilution	\$ 0.17	\$ 0.07

Note 11. New Accounting Pronouncements

In July 2006, FASB Interpretation (FIN) No. 48, Accounting for Uncertainty in Income Taxes An Interpretation of Financial Accounting Standards Board Statement No. 109 (FAS 109) was issued. FIN 48 clarifies the accounting for income taxes by prescribing the minimum recognition threshold a tax position is required to meet before being recognized in the financial statements. FIN 48 also provides guidance on derecognition, measurement, classification, interest and penalties, accounting in interim periods, disclosure and transition. FIN 48 applies to all tax positions related to income taxes subject to FAS 109. FIN 48 is effective for fiscal years beginning after December 15, 2006 and was adopted by the Company as of August 30, 2007.

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements (SFAS 157) effective for fiscal years beginning after November 15, 2007. SFAS 157 enhances the guidance for using fair value to measure assets and liabilities. In addition, SFAS 157 is expanding information about the extent to which companies measure assets and liabilities at fair value, the information used to measure fair value and the effect of fair value measurements on earnings. The Company is currently evaluating the potential impact, if any, this standard would have on the Company's financial results for fiscal 2009.

In February 2007, the FASB issued SFAS No. 159, Fair Value Option for Financial Assets and Financial Liabilities including an Amendment to FASB Statement No. 115, Accounting for Certain Investments in Debt and Equity Securities, which permits entities to choose to measure many financial instruments and certain other items at fair value. The Company will be required to adopt the provisions of this standard for fiscal 2009, and the Company is currently evaluating the impact, if any, that it will have on its financial statements.

In December 2007, the FASB issued SFAS No. 141(R), Business Combinations (SFAS 141(R)), which replaces SFAS 141. SFAS 141(R) requires assets and liabilities acquired in a business combination, contingent consideration, and certain acquired contingencies to be measured at their fair values as of the date of acquisition. SFAS 141(R) also requires that acquisition-related costs and restructuring costs be recognized separately from the business combination. SFAS 141(R) is effective for fiscal years beginning after December 15, 2008 and will be effective for business combinations entered into after January 1, 2009.

In December 2007, the FASB issued SFAS No. 160, Noncontrolling Interests in Consolidated Financial Statements, an Amendment of ARB No. 51 (SFAS 160). SFAS 160 clarifies the accounting for noncontrolling interests and establishes accounting and reporting standards for the noncontrolling interest in a subsidiary, including classification as a component of equity. SFAS 160 is effective for fiscal years beginning after December 15, 2008. The Company does not currently have any minority interests.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Management's discussion and analysis of financial condition and results of operations should be read in conjunction with the consolidated financial statements and footnotes for the period ended November 21, 2007 included in Item 1 of Part I of this Quarterly Report on Form 10-Q, and the audited financial statements included in our Annual Report on Form 10-K for the fiscal year ended August 29, 2007.

Overview

As of November 21, 2007, we operated 128 restaurants, of which 126 are traditional cafeterias and two primarily serve seafood. These establishments are located in close proximity to retail centers, business developments and residential areas in five states. Of the 128 restaurants, 94 are locations owned by us and 34 are on leased premises.

Accounting Periods

Our fiscal year ends on the last Wednesday in August. As such, each fiscal year normally consists of 13 four-week periods, or accounting periods, accounting for 364 days in the aggregate. Each of the first three quarters of each fiscal year consists of three four-week periods, while the fourth quarter normally consists of four four-week periods. Comparability between quarters may be affected by varying lengths of the quarters, as well as the seasonality associated with the restaurant business.

Same-Store Sales

The restaurant business is highly competitive with respect to food quality, concept, location, price, and service, all of which may have an effect on same-store sales. Our same-store sales calculation measures the relative performance of a certain group of restaurants. To qualify for inclusion in this group, a store must have been in operation for 18 consecutive accounting periods. Although management believes this approach leads to more effective year-over-year comparisons, neither the time frame nor the exact practice may be similar to those used by other restaurant companies.

RESULTS OF OPERATIONS

Quarter ended November 21, 2007 compared to the quarter ended November 22, 2006

Total sales decreased approximately \$0.3 million, or 0.4%, in the first quarter of fiscal year 2008 compared to the first quarter of fiscal year 2007. Restaurant sales declined approximately \$2.0 million, due primarily to declines in guest traffic partially offset by higher menu prices and more favorable menu mix. This decline in restaurant sales was offset by an increase of \$1.7 million relating to the execution of several new culinary service contracts. On a same-store basis, sales decreased by approximately \$2.5 million, or 3.4%.

Food costs decreased approximately \$0.1 million, or 0.7%, in the first quarter of fiscal year 2008 compared with the same quarter of fiscal year 2007. Food costs as a percentage of restaurant sales increased 0.5%, to 27.4% in the first quarter of fiscal year 2008 from 26.9% in the first quarter of fiscal year 2007. We continue to manage food costs by offering menu items and combination meals with favorable cost structures and by employing a variety of other cost control measures.

Payroll and related costs decreased approximately \$0.9 million, or 3.4%, in the first quarter of fiscal year 2008 compared with the same quarter of fiscal year 2007, due to lower workers' compensation expense, including the effects of reduced actuarial estimates of potential losses resulting from favorable claims experience. Payroll and related costs as a percentage of restaurant sales decreased 0.3%, to 34.1% in the first quarter of fiscal year 2008 from 34.4% in the first quarter of fiscal year 2007.

Other operating expenses decreased by approximately \$1.1 million, or 6.6%, in the first quarter of fiscal year 2008 compared with the same quarter of fiscal year 2007. As a percentage of restaurant sales, other operating expenses decreased 0.9% due primarily to a reduction in utilities and marketing expense.

Table of Contents

Cost of culinary contract services increased by approximately \$1.5 million when compared to the same quarter of the prior year. This increase is related to the food, labor, and other operating expenses associated with this line of business.

Depreciation and amortization expense increased approximately \$0.4 million, or 10.3% in first quarter of fiscal year 2008 compared with the first quarter of fiscal year 2007. The increase was due primarily to capital additions related to construction of a new unit and remodel activity. Depreciation expense also increased due to the acceleration of depreciation for a store to be relocated.

General and administrative expenses increased by approximately \$0.9 million, or 18.4%, in the first quarter of fiscal year 2008 when compared to the same quarter of the prior year. As a percentage of total sales, general and administrative expenses increased to 8.1% in the first quarter of fiscal year 2008, from 6.8% in the first quarter of fiscal year 2007, primarily due to increased corporate salaries and professional fees. The increase in corporate salaries includes staffing costs related to our culinary services initiative to provide services at healthcare facilities as well as new store development and construction staff.

The provision for asset impairments, net increased by approximately \$0.7 million in the first quarter of fiscal year 2008 compared with fiscal year 2007. This increase is due to the write-down of selected underperforming units to net realizable value based on an estimate of net sales proceeds, partially offset by a reversal of a previously recognized impairment related to one ground lease unit which will be reopened in fiscal 2008. This unit was also reclassified in the first quarter of fiscal year 2008 from property held for sale to property and equipment, net.

The net loss (gain) on disposition of property and equipment increased by approximately \$0.1 million in the first quarter of fiscal year 2008 compared with the first quarter of fiscal year 2007 due to increased remodel activity leading to disposition of retired property and equipment.

Interest income increased by approximately \$0.1 million primarily related to higher cash and short term investment balances.

Interest expense decreased approximately \$0.1 million as a result of the term and pricing of the new 2007 Revolving Facility.

The interest related to income taxes includes the reversal of previously recognized interest expense associated with the settled tax audit contingencies and interest receivable on the income tax refund included in the income tax benefit.

Other income decreased slightly in the first quarter of fiscal year 2008.

The income tax benefit for the first quarter of fiscal year 2008 included \$2.8 million in nonrecurring tax benefit partially offset by \$1.3 million in income tax expense at an effective tax rate of 38.5%. The income tax benefit of \$2.8 million included a reversal of tax accruals for contingencies that did not materialize following the completion of tax audits and an income tax refund receivable, partially offset by the reversal of unrealized deferred tax assets related to stock options.

The loss from discontinued operations decreased slightly in the first quarter of fiscal year 2008 compared with the same quarter of fiscal year 2007.

LIQUIDITY AND CAPITAL RESOURCES

Cash and Cash Equivalents and Short-Term Investments

Our primary source of liquidity is cash flows generated from our restaurant operations. Cash and cash equivalents and short-term investments increased by \$10.2 million from the end of fiscal 2007 to November 21, 2007, primarily due to cash flows from operations, and proceeds from the exercise of stock options, partially offset by capital expenditures.

Table of Contents

Working Capital

We had a working capital surplus of \$12.7 million as of November 21, 2007, which represented a \$14.6 million improvement compared to a working capital deficit of \$1.9 million as of August 29, 2007. We expect to meet our working capital requirements through cash flows from operations and availability under the 2007 Revolving Credit Facility described below.

Capital Expenditures

Capital expenditures consist of purchases of real estate for future restaurant sites, new units under construction, purchases of new and replacement restaurant furniture and equipment, and ongoing remodeling programs. Capital expenditures for the first quarter of fiscal year 2008 were approximately \$7.9 million, primarily related to maintaining our investment in existing operating units. We expect to be able to fund all capital expenditures in fiscal 2008 using cash flows from operations and our available credit. We expect to spend approximately \$35.0 million to \$40.0 million on capital expenditures in fiscal 2008.

DEBT

2007 Revolving Credit Facility

On July 13, 2007, we entered into a \$50.0 million unsecured Revolving Credit Facility (the "2007 Revolving Credit Facility") with Wells Fargo Bank, National Association, as Administrative Agent, and Amegy Bank, National Association, as Syndication Agent. The 2007 Revolving Credit Facility may, subject to certain terms and conditions, be increased by an additional \$50.0 million for a total facility size of \$100.0 million. The 2007 Revolving Credit Facility allows for up to \$15.0 million of the available credit to be extended in the form of letters of credit. All amounts owed by us under the 2007 Revolving Credit Facility are guaranteed by our subsidiaries and must be repaid in full upon the maturity date on June 30, 2012.

At any time throughout the term of the facility, we have the option to elect one of two bases of interest rates. One interest rate option is the greater of (a) the Federal Funds Effective Rate plus 0.50%, or (b) prime, plus, in either case, an applicable spread that ranges from zero to 0.50% per annum. The other interest rate option is the London InterBank Offered Rate plus a spread that ranges from 0.75% to 2.00% per annum. The applicable spread under each option is dependent upon certain measures of our financial performance at the time of each election.

We pay a quarterly commitment fee based on the unused available balance of the 2007 Revolving Credit Facility, which is also dependent upon our financial performance, ranging from 0.20% to 0.30% per annum. We also pay quarterly fees with respect to any letters of credit issued and outstanding. In addition, we were obligated to pay the lenders a one-time fee in connection with the closing of the 2007 Revolving Credit Facility.

The 2007 Revolving Credit Facility contains customary covenants and restrictions on our ability to engage in certain activities, including financial performance covenants and limitations on capital expenditures, asset sales and acquisitions and contains customary events of default. As of November 21, 2007, we were in compliance with all covenants.

At November 21, 2007, we had a total of approximately \$2.9 million committed under letters of credit, issued under the 2007 Revolving Credit Facility, which have been issued as security for the payment of insurance obligations classified as accrued expenses on the balance sheet. An additional \$12.1 million may be issued under letters of credit.

Table of Contents

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The Consolidated Financial Statements included in Item 1 of Part 1 of this report are prepared in conformity with U.S. generally accepted accounting principles. Preparation of the financial statements requires us to make judgments, estimates and assumptions that affect the amounts of assets and liabilities in the financial statements and revenues and expenses during the reporting periods. Management believes the following are critical accounting policies due to the significant, subjective and complex judgments and estimates used when preparing our consolidated financial statements. Management regularly reviews these assumptions and estimates with the Finance and Audit Committee of our Board of Directors.

Income Taxes

We account for income taxes in accordance with SFAS No. 109, *Accounting for Income Taxes*, as interpreted by FIN 48. We record the estimated future tax effects of temporary differences between the tax bases of assets and liabilities and amounts reported in the accompanying consolidated balance sheets, as well as operating loss and tax credit carrybacks and carryforwards. We periodically review the recoverability of tax assets recorded on the balance sheet and provide valuation allowances as management deems necessary.

Management makes judgments regarding the interpretation of tax laws that might be challenged upon an audit and cause changes to previous estimates of tax liability. In addition, we operate within multiple taxing jurisdictions and are subject to audit in these jurisdictions as well as by the Internal Revenue Service. In management's opinion, adequate provisions for income taxes have been made for all years. We regularly assess the potential outcomes of examinations in determining the adequacy of our provision for income taxes and our income tax liabilities. We believe that we have adequately provided for any reasonable and foreseeable outcome related to uncertain tax matters.

Impairment of Long-Lived Assets

We periodically evaluate long-lived assets whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. We estimate future cash flows expected to result from the use and possible disposition of the asset and will recognize an impairment loss when the sum of the undiscounted estimated future cash flows is less than the carrying amounts of such assets. The estimates of future cash flows, based on reasonable and supportable assumptions and projections, require management's subjective judgments. The span of time for which future cash flows are estimated is often lengthy, which increases the sensitivity to assumptions made. Depending on the assumptions and estimates used, the estimated future cash flows projected in the evaluation of long-lived assets can vary within a wide range of outcomes. We consider the likelihood of possible outcomes in determining the best estimate of future cash flows. The measurement for such an impairment loss is then based on the fair value of the asset as determined by either discounted cash flows or appraisals.

Table of Contents

Property Held for Sale

We also periodically review long-lived assets against our plans to retain or ultimately dispose of properties. Property is moved into property held for sale when the restaurant is closed. Property held for sale is actively marketed. Property held for sale is recorded at amounts not in excess of what management currently expects to receive upon sale, less costs of disposal. We routinely monitor the estimated value of property held for sale and record adjustments to these values as required. We periodically measure and analyze our estimates against third-party appraisals.

Insurance and Claims

We self-insure a significant portion of risks and associated liabilities under our employee injury, workers' compensation and general liability programs. We maintain insurance coverage with third party carriers to limit our per-occurrence claim exposure. We have recorded accrued liabilities for self-insurance based upon analysis of historical data and actuarial estimates, and we review these amounts on a quarterly basis to ensure that the liability is appropriate.

The significant assumptions made by the actuary to estimate self-insurance reserves, including incurred but not reported claims, are as follows: (1) historical patterns of loss development will continue in the future as they have in the past (Loss Development Method), (2) historical trend patterns and loss cost levels will continue in the future as they have in the past (Bornhuetter-Ferguson Method), and (3) historical claim counts and exposures are used to calculate historical frequency rates and average claim costs are analyzed to get a projected severity (Frequency and Severity Method). The results of these methods are blended by the actuary to provide the reserves estimates. The third party actuary utilizes methods and assumptions that are in accordance with generally accepted actuarial practices and we believe the conclusions reached are reasonable.

Actual workers' compensation and employee injury claims expense may differ from estimated loss provisions. The ultimate level of claims under the in-house safety program are not known, and declines in incidence of claims as well as claims costs experiences or reductions in reserve requirements under the program may not continue in future periods.

Share-Based Compensation

We adopted the provisions of SFAS No. 123, Share-Based Payments (Revised 2004) (SFAS 123R), effective September 1, 2005. Among other things, SFAS 123R eliminates the ability to account for stock-based compensation using APB 25 and requires that such transactions be recognized as compensation cost in the income statement utilizing the fair values on the date of the grant.

INFLATION

Our policy is to maintain stable menu prices without regard to seasonal variations in food costs. General increases in cost of food, wages, supplies, transportation and services may require us to increase our menu prices from time to time. To the extent prevailing market conditions allow, we intend to adjust menu prices to maintain profit margins.

Table of Contents

FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q contains statements that are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. All statements contained in this Form 10-Q, other than statements of historical facts, are forward-looking statements for purposes of these provisions, including any statements regarding:

future operating results;

future capital expenditures;

future debt, including liquidity and the sources and availability of funds related to debt;

projections regarding the financial performance of our new prototype restaurant;

plans for expansion of our business;

scheduled openings of new units;

future sales of assets and the gains or losses that may be recognized as a result of any such sale; and

continued compliance with the terms of our 2007 Revolving Credit Facility.

In some cases, investors can identify these statements by forward-looking words such as anticipate, believe, could, estimate, expect, intend, outlook, may, should, will, and would or similar words. Forward-looking statements are based on certain assumptions and analyses made by management in light of their experience and perception of historical trends, current conditions, expected future developments and other factors we believe are relevant. Although management believes that their assumptions are reasonable based on information currently available, those assumptions are subject to significant risks and uncertainties, many of which are outside of our control. The following factors, as well as the factors set forth in Item 1A of our Annual Report on Form 10-K for the fiscal year ended August 29, 2007 and any other cautionary language in this Quarterly Report on Form 10-Q, provide examples of risks, uncertainties, and events that may cause our financial and operational results to differ materially from the expectations described in our forward-looking statements:

general business and economic conditions;

the impact of competition;

our operating initiatives;

fluctuations in the costs of commodities, including beef, poultry, seafood, dairy, cheese, oils and produce;

increases in utility costs, including the costs of natural gas and other energy supplies;

changes in the availability and cost of labor;

the seasonality of the business;

changes in governmental regulations, including changes in minimum wages;

the effects of inflation;

the availability of credit;

unfavorable publicity relating to operations, including publicity concerning food quality, illness or other health concerns or labor relations;
and

the continued service of key management personnel.

Each forward-looking statement speaks only as of the date of this Form 10-Q, and we undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. Investors should be aware that the occurrence of the events described above and elsewhere in this Form 10-Q could have material adverse effect on our business, results of operations, cash flows and financial condition.

Table of Contents

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We are exposed to market risk from changes in interest rates affecting our variable-rate debt. As of November 21, 2007, the total amount of debt subject to interest rate fluctuations outstanding under our 2007 Revolving Credit Facility was zero.

Although we are not currently using interest rate swaps, we have previously used and may in the future use these instruments to manage cash flow risk on a portion of our variable-rate debt.

Many ingredients in the products sold in our restaurants are commodities, subject to unpredictable price fluctuations. We attempt to minimize price volatility by negotiating fixed price contracts for the supply of key ingredients and in some cases by passing increased commodity costs through to the customer by adjusting menu prices or menu offerings. Our ingredients are available from multiple suppliers so we are not dependant on a single vendor for our ingredients.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Our management, under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of our disclosure controls and procedures (as such term is defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)), as of November 21, 2007. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of November 21, 2007, our disclosure controls and procedures were effective in providing reasonable assurance that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting during the quarter ended November 21, 2007 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
