BANCFIRST CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

(1) GENERAL

The accompanying consolidated financial statements include the accounts of BancFirst Corporation, Century Life Assurance Company, Council Oak Partners, LLC, Wilcox Jones & McGrath, Inc., and BancFirst and its subsidiaries (the Company). The operating subsidiaries of BancFirst are Council Oak Investment Corporation, BancFirst Agency, Inc., Lenders Collection Corporation, BancFirst Community Development Corporation, Council Oak Real Estate, Inc. and PremierSource LLC. PremierSource LLC was sold in August 2006 and Century Life Assurance Company was sold effective October 2006. All significant intercompany accounts and transactions have been eliminated. Assets held in a fiduciary or agency capacity are not assets of the Company and, accordingly, are not included in the consolidated financial statements.

The unaudited interim financial statements contained herein reflect all adjustments which are, in the opinion of management, necessary to provide a fair statement of the financial position and results of operations of the Company for the interim periods presented. All such adjustments are of a normal and recurring nature. There have been no significant changes in the accounting policies of the Company since December 31, 2006, the date of the most recent annual report.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States inherently involves the use of estimates and assumptions that affect the amounts reported in the financial statements and the related disclosures. These estimates relate principally to the determination of the allowance for loan losses, income taxes and the fair values of financial instruments. Such estimates and assumptions may change over time and actual amounts realized may differ from those reported.

(2) RECENT ACCOUNTING PRONOUNCEMENTS

In June 2006, the FASB issued Interpretation No. 48, Accounting for Uncertainty in Income Taxes an Interpretation of FASB Statement No. 109. This interpretation prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. This interpretation also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. This interpretation is expected to increase the relevance and comparability in financial reporting of income taxes because all tax positions accounted for in accordance with Statement 109 will be evaluated for recognition, derecognition, and measurement using consistent criteria. Finally, the disclosure provisions of this interpretation will provide more information about the uncertainty in income tax assets and liabilities. This interpretation is effective for fiscal years beginning after December 15, 2006 and earlier adoption is encouraged. The Company adopted this new standard effective January 1, 2007. The Company has evaluated the effect of this pronouncement and determined that the adoption of this interpretation did not have a material effect on the Company's consolidated financial statements.

On September 13, 2006, the Securities and Exchange Commission (SEC) issued Staff Accounting Bulletin No. 108 (SAB 108). SAB 108 provides interpretive guidance on how the effects of the carryover or reversal of prior year misstatements should be considered in quantifying a potential current year misstatement. Prior to SAB 108, companies might evaluate the materiality of financial-statement misstatements using either the income statement or balance sheet approach, with the income statement approach focusing on misstatements added in the current year, and the balance sheet approach focusing on the cumulative amount of misstatements present in the Company's balance sheet. Misstatements that would be material under one approach could be viewed as immaterial under another approach, and not be corrected. SAB 108 now requires that companies view financial statement misstatements as material if they are material according to either the income statement or balance sheet approach. The Company has considered SAB 108 and determined that the adoption of SAB 108 did not have a material effect on the Company's consolidated financial statements.

In September 2006, the FASB issued FAS No. 157 (FAS 157), Fair Value Measurements. FAS 157 is effective for all financial statements issued for fiscal years beginning after November 15, 2007. FAS 157 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. Adoption of FAS 157 is not expected to have a material impact on the Company's results of operations or financial condition.

In February 2007, the FASB issued FAS No. 159 (FAS 159), The Fair Value Option for Financial Assets and Financial Liabilities, including an amendment of FASB Statement No. 115. FAS 159 allows entities to irrevocably elect fair value as the initial and subsequent measurement attribute for certain financial assets and financial liabilities that are not otherwise required to be measured at fair value, with changes in fair value recognized in earnings as they occur. FAS 159 also requires entities to report those financial assets and financial liabilities measured at fair value in a manner that separates those reported fair values from the carrying amounts of similar assets and liabilities measured using another measurement attribute on the face of the statement of financial position. Lastly, FAS 159 establishes presentation and disclosure requirements designed to improve comparability between entities that elect different measurement attributes for similar assets and liabilities. FAS 159 is effective for fiscal years beginning after November 15, 2007, with early adoption permitted if an entity also early adopts the provisions of FAS 157. The Company has determined that it does not intend to elect to use the fair value option to value financial assets and liabilities in accordance with FAS 159.

In December 2007, the FASB issues FAS No. 141R, Business Combinations (FAS 141R), which establishes principles and requirements for the reporting entity in a business combination, including recognition and measurement in the financial statements of the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree. This statement also establishes disclosure requirements to enable financial statement users to evaluate the nature and financial effects of the business combination. FAS 141R applies prospectively to business combinations for which the acquisition date is on or after fiscal years beginning after December 15, 2008. FAS 141R will become effective for our fiscal year beginning January 1, 2009. We are currently evaluating the effect that the adoption of FAS 141R will have on our consolidated financial statements.

(3) RECENT DEVELOPMENTS; MERGERS, ACQUISITIONS AND DISPOSALS

In August 2006, the Company completed the acquisition of First Bartlesville Bank (First Bartlesville), Bartlesville, Oklahoma for cash of approximately \$5.6 million. First Bartlesville had total assets of approximately \$46.6 million. As a result of the acquisition, First Bartlesville became a wholly-owned subsidiary of BancFirst Corporation and was merged into BancFirst in December 2006. The acquisition was accounted for as a purchase. Accordingly, the effects of the acquisition are included in the Company's consolidated financial statements from the date of the acquisition forward. The acquisition did not have a material effect on the results of operations of the Company for 2006 or 2007.

On September 6, 2006, the Company entered into an agreement to sell its 75% ownership in Century Life Assurance Company (Century Life) to American Underwriters Life Insurance Company. The Company decided to sell this subsidiary as the product line was not strategic for the Company. The effective date of the sale was October 1, 2006. Century Life reported approximately \$945,000 of revenues and \$111,000 of net income for the third quarter of 2006, and the Company reported a pre-tax gain on the sale approximating \$640,000 during the fourth quarter of 2006. The resulting gain on the sale and the loss of future earnings from operating Century Life did not have a significant impact on the results of the Company's operations for 2006 or 2007.

In November 2006, the Company announced its intent to exercise the optional prepayment terms of its 9.65% Junior Subordinated Debentures. The securities were redeemed effective January 15, 2007 for a redemption price equal to 104.825% of the aggregate \$25 million liquidation amount of the trust securities plus all accrued and unpaid interest to the redemption date. As a result of the prepayment, the Company incurred a loss of approximately \$1.2 million after taxes at the time of the redemption. The loss reflects the premium paid and the acceleration of the unamortized issuance costs.

During the first quarter of 2007 the Company entered into an agreement to acquire Armor Assurance Company (Armor), an insurance agency in Muskogee, Oklahoma for cash of approximately \$3.3 million and a \$372,000 note payable in three equal annual installments. The transaction was consummated in April 2007. Armor had total assets of approximately \$364,000. As a result of the acquisition, Armor was merged with the Company's existing property casualty agency, Wilcox & Jones, to form Wilcox, Jones & McGrath, Inc. The acquisition was accounted for as a purchase. Accordingly, the effects of the acquisition are included in the Company's consolidated financial statements from the date of the acquisition forward. The acquisition did not have a material effect on the results of operations of the Company for 2007.

In June 2007, the Company entered into an agreement to sell one of its investments held by Council Oak Investment Corporation, a wholly-owned subsidiary of BancFirst, that resulted in a one-time gain of approximately \$7.8 million. The transaction was consummated on August 1, 2007 and included in noninterest income securities transactions in the third quarter of 2007. The Company made a \$1 million contribution to its charitable foundation with the funds from the gain. This one-time gain, net of related expenses, income taxes and the contribution had a net income effect of approximately \$3.9 million.

In July 2007, the Company was awarded and received the \$3.1 million bond claim by their fidelity bond carrier for the \$3.3 million cash shortfall that was reported in the second quarter of 2005.

The Company's loans are mostly to customers within Oklahoma and over half of the loans are secured by real estate. Credit risk on loans is managed through limits on amounts loaned to individual borrowers, underwriting standards and loan monitoring procedures. The amounts and types of collateral obtained to secure loans are based upon the Company's underwriting standards and management's credit evaluation. Collateral varies, but may include real estate, equipment, accounts receivable, inventory, livestock and securities. The Company's interest in collateral is secured through filing mortgages and liens, and in some cases, by possession of the collateral. The amount of estimated loss due to credit risk in the Company's loan portfolio is provided for in the allowance for loan losses. The amount of the allowance required to provide for all existing losses in the loan portfolio is an estimate based upon evaluations of loans, appraisals of collateral and other estimates which are subject to rapid change due to changing economic conditions and the economic prospects of borrowers. It is reasonably possible that a material change could occur in the estimated allowance for loan losses in the near term.

Changes in the allowance for loan losses are summarized as follows:

(7) CAPITAL

The Company is subject to risk-based capital guidelines issued by the Board of Governors of the Federal Reserve System. These guidelines are used to evaluate capital adequacy and involve both quantitative and qualitative evaluations of the Company's assets, liabilities, and certain off-balance-sheet items calculated under regulatory practices. Failure to meet the minimum capital requirements can initiate certain mandatory or discretionary actions by the regulatory agencies that could have a direct material effect on the Company's financial statements. The required minimums and the Company's respective ratios are shown below.

	Minimum Required	December 31,	
		2007	2006
		(dollars in thousands)	
Tier 1 capital		\$ 348,564	\$ 359,430

Edgar Filing: BANCFIRST CORP /OK/ - Form 8-K

Total capital ratio	8.00%	13.40%	14.83%
To be well capitalized under federal bank regulatory agency definitions, a depository institution must have a Tier 1 Ratio of at least 6%, a combined Tier 1 and Tier 2 Ratio of at least 10%, and a Leverage Ratio of at least 5%. As of December 31, 2006 and 2007, the Company was considered to be well capitalized. There are no conditions or events since the most recent notification of the Company's capital category that management believes would change its category.			

(8) STOCK REPURCHASE PLAN

In November 1999, the Company adopted a new Stock Repurchase Program (the SRP) authorizing management to repurchase up to 600,000 shares of the Company's common stock. The SRP was amended in May 2001, August of 2002, and September of 2007 to increase the shares authorized to be purchased by 555,832 shares, 364,530 shares and 366,948 shares, respectively. The SRP may be used as a means to increase earnings per share and return on equity, to purchase treasury stock for the exercise of stock options or for distributions under the Deferred Stock Compensation Plan, to provide liquidity for optionees to dispose of stock from exercises of their stock options, and to provide liquidity for shareholders wishing to sell their stock. The timing, price and amount of stock repurchases under the SRP may be determined by management and must be approved by the Company's Executive Committee. At December 31, 2007 there were 600,000 shares remaining that could be repurchased under the SRP. Below is a summary of the shares repurchased under the program.
