PROXY STATEMENT

We are furnishing this Proxy Statement and related materials to MEDNAX's shareholders as part of the solicitation of proxies by MEDNAX's Board of Directors for use at MEDNAX's 2009 Annual Shareholders' Meeting and at any postponement or adjournment of the meeting. As used in this Proxy Statement, unless the context otherwise requires, the terms MEDNAX, we, us, our and the Company refer to the parent company MEDNAX, Inc., a Florida corporation, and the consolidated subsidiaries through which its businesses are actually conducted (collectively MEDNAX Subsidiaries).

On December 31, 2008, Pediatrix Medical Group, Inc., a Florida corporation (Pediatrix) and MEDNAX completed a holding company formation transaction that established MEDNAX as the parent company of Pediatrix, now known as MEDNAX Services, Inc. Throughout this Proxy Statement, when we refer to MEDNAX or to the Company in reference to activities that occurred prior to the reorganization on December 31, 2008, we are referring to Pediatrix, and when we refer to the Company in reference to activities occurring after the reorganization, we are referring to MEDNAX, except to the extent the context otherwise indicates. As a result of the reorganization, the common stock of MEDNAX replaced the common stock of Pediatrix. Additionally, the Board of Directors and Executive Officers for Pediatrix became the Board of Directors and Executive Officers for MEDNAX, and the compensation policies of Pediatrix became the compensation policies of MEDNAX.

Under the rules and regulations of the Securities and Exchange Commission, we are furnishing our proxy materials to our shareholders over the Internet and providing a Notice of Internet Availability of Proxy Materials (the E-Proxy Notice) by mail instead of mailing a printed copy of our proxy materials, which include our Proxy Statement and Annual Report, to all MEDNAX shareholders. The E-Proxy Notice will instruct you on how you may access and review all of the important information contained in the proxy materials. The E-Proxy Notice also instructs you how you may submit your proxy via the Internet. You will not receive a printed copy of the proxy materials unless you request to receive these materials in hard copy by following the instructions provided in the E-Proxy Notice.

We are mailing the E-Proxy Notice on or about March 24, 2009 to MEDNAX's shareholders of record on March 10, 2009.

QUESTIONS AND ANSWERS ABOUT OUR ANNUAL MEETING

What Is the Date, Time and Place of the Annual Meeting?

MEDNAX's 2009 Annual Shareholders' Meeting will be held on Wednesday, May 6, 2009, beginning at 10:00 a.m., local time, at the Hyatt Regency Bonaventure, 250 Racquet Club Road, Weston, Florida 33326.

What Is the Purpose of the Annual Meeting?

At the annual meeting, MEDNAX's shareholders will be asked to:

elect 10 Directors, each for a term expiring at the next annual meeting or until his or her successor has been duly elected and qualified;

ratify the appointment of PricewaterhouseCoopers LLP as our independent registered certified public accounting firm for the 2009 fiscal year; and

consider and act upon such other business as may properly come before the meeting.

Table of Contents

Who Is Entitled to Vote at the Annual Meeting?

Only holders of record of our common stock at the close of business on March 10, 2009, the record date for the meeting, are entitled to notice of, to attend and to vote at the annual meeting, or any postponements or adjournments of the meeting. At the close of business on the record date, 45,684,993 shares of our common stock were issued and outstanding and were held by approximately 237 holders of record.

What Are the Voting Rights of MEDNAX's Shareholders?

MEDNAX's shareholders have one vote per share of our common stock owned on the record date for each matter properly presented at the annual meeting. For example, if you owned 100 shares of our common stock on the close of business on March 10, 2009, you can cast 100 votes for each matter properly presented at the annual meeting.

What Constitutes a Quorum?

A quorum will be present at the meeting if holders of a majority of the issued and outstanding shares of our common stock on the record date are represented at the meeting in person or by proxy. If a quorum is not present at the meeting, MEDNAX expects to postpone or adjourn the meeting to solicit additional proxies. Abstentions, including broker non-votes (as described below), will be counted as shares present and entitled to vote for the purposes of determining the presence or absence of a quorum.

What Are Broker Non-Votes ?

Broker non-votes occur when shares held by a brokerage firm are not voted with respect to a proposal because the firm has not received voting instructions from the shareholder and the firm does not have the authority to vote the shares at its discretion. Under the rules of the New York Stock Exchange, brokerage firms may have the authority to vote their customers' shares on certain routine matters for which they do not receive voting instructions, including the uncontested election of Directors and ratification of the appointment of independent auditors. In addition, if other matters are properly brought before the meeting and are not considered routine under the applicable New York Stock Exchange rules, shares held by brokerage firms will not be voted on such non-routine matters by the brokerage firms unless they have received voting instructions and, accordingly, any such shares will be broker non-votes.

How Are Abstentions and Broker Non-Votes Treated?

Abstentions and broker non-votes are counted as present for purposes of determining the presence of a quorum. Abstentions and broker non-votes will not be counted as votes cast either in favor of or against the election of the nominees for Director or the ratification of the appointment of our independent registered certified public accounting firm.

Will My Shares Be Voted if I Do Not Provide My Proxy?

If your shares are held in the name of a brokerage firm, they may be voted by the brokerage firm to the extent described above even if you do not give the brokerage firm specific voting instructions. If you are a registered shareholder and hold your shares directly in your own name, your shares will not be voted unless you provide a proxy or fill out a written ballot in person at the meeting.

How Do I Vote?

You can vote in any of the following ways:

To vote via the Internet:

Follow the instructions on your proxy card and the E-Proxy Notice; and

Vote your shares as instructed on your proxy card and E-Proxy Notice.

Table of Contents

To vote by telephone:

To vote by mail if you are a registered shareholder who received a paper proxy card:

Mark, sign and date your proxy card; and

Return it in the envelope provided.

To vote if you hold in street name, follow the instructions of your bank or broker or vote in person as described below.

To vote in person if you hold in street name :

Attend our annual meeting;

Bring valid photo identification; and

Obtain a legal proxy from your bank or broker to vote the shares that are held for your benefit, attach it to your completed proxy card and deliver it in person.

To vote in person if you are a registered shareholder:

Attend our annual meeting;

Bring valid photo identification; and

Deliver your completed proxy card or ballot in person.

What Vote Is Required for the Proposals?

Assuming that a quorum is present at the annual meeting, Director nominees receiving the greatest number of affirmative votes from holders of our common stock will be elected as Directors of MEDNAX.

Assuming that a quorum is present, ratification of the appointment of our independent registered certified public accounting firm requires a majority of the votes cast on the proposal at the annual meeting.

How Does the Board of Directors Recommend I Vote on the Proposals?

The Board of Directors recommends that you vote:

FOR the election of each of the 10 nominees for Director named in this Proxy Statement; and

FOR the ratification of the appointment of PricewaterhouseCoopers LLP as our independent registered certified public accounting firm for the 2009 fiscal year.

How Will My Proxy Holders Vote?

The enclosed proxy designates Roger J. Medel, M.D., our Chief Executive Officer, Thomas W. Hawkins, our Senior Vice President, General Counsel and Secretary, and Karl B. Wagner, our Chief Financial Officer, each with full power of substitution, to hold your proxy and vote your shares. Dr. Medel and Messrs. Hawkins and Wagner will vote all shares of our common stock represented by proxies properly submitted via telephone or the Internet or properly executed proxies received in time for the annual meeting in the manner specified by the holders of those shares. Dr. Medel and Messrs. Hawkins and Wagner intend to vote all shares of our common

Table of Contents

stock represented by proxies properly submitted via telephone, or the Internet, or that are properly executed by the record holder but otherwise do not contain voting instructions, as follows:

FOR the election of each of the 10 nominees for Director named in this Proxy Statement;

FOR the ratification of the appointment of PricewaterhouseCoopers LLP as our independent registered certified public accounting firm for the 2009 fiscal year; and

in accordance with the recommendation of MEDNAX's Board of Directors, FOR or AGAINST all other matters as may properly come before the annual meeting.

Can I Change My Vote After I Have Voted?

Voting by telephone, over the Internet or by mailing a proxy card does not preclude a shareholder from voting in person at the meeting. A shareholder may revoke a proxy, whether submitted via telephone, the Internet or mailed, at any time prior to its exercise by filing with MEDNAX's corporate secretary a duly executed revocation of proxy, by properly submitting, either by telephone, mail or Internet, a proxy to MEDNAX's corporate secretary bearing a later date or by appearing at the meeting and voting in person. Attendance at the meeting will not itself constitute revocation of a proxy.

Who Pays for the Preparation of the Proxy Statement?

MEDNAX will bear the cost of the solicitation of proxies from its shareholders, including preparing, printing and mailing this Proxy Statement, should you request a printed copy of the proxy materials, and the E-Proxy Notice. In addition to solicitations by mail, MEDNAX's Directors, officers and employees, and those of its subsidiaries and affiliates, may solicit proxies from shareholders by telephone or other electronic means or in person but will receive no additional compensation for soliciting such proxies. MEDNAX will cause banks and brokerage firms and other custodians, nominees and fiduciaries to forward solicitation materials to the beneficial owners of our common stock held of record by such banks, brokerage firms, custodians, nominees and fiduciaries. MEDNAX will reimburse such banks, brokerage firms, custodians, nominees and fiduciaries for their reasonable out-of-pocket expenses in doing so.

PROPOSAL 1: ELECTION OF MEDNAX'S DIRECTORS

MEDNAX's Articles of Incorporation and Bylaws, each as amended and restated, provide that the number of Directors constituting MEDNAX's Board of Directors will be determined from time to time by resolution adopted by MEDNAX's Board of Directors. MEDNAX's Board of Directors currently consists of 10 members.

All of MEDNAX's incumbent Directors have been nominated by MEDNAX's Board of Directors as Directors to be elected at the annual meeting in 2009 by the holders of our common stock.

The nominees for Director are as follows:

Roger J. Medel, M.D., who has served as a Director since 1979;

Cesar L. Alvarez, who has served as Chairman of the Board of Directors since May 2004 and as a Director since March 1997;

Waldemar A. Carlo, M.D., who has served as a Director since June 1999;

Edgar Filing: MEDNAX, INC. - Form DEF 14A

Michael B. Fernandez, who has served as a Director since October 1995;

Roger K. Freeman, M.D., who has served as a Director since May 2002;

Paul G. Gabos, who has served as a Director since November 2002;

Dany Garcia, who has served as a Director since November 2008;

Pascal J. Goldschmidt, M.D., who has served as a Director since March 2006;

Manuel Kadre, who has served as a Director since May 2007; and

Enrique J. Sosa, who has served as a Director since May 2004.

Table of Contents

Please see below under Directors, Executive Officers and Key Employees for the biographies of these nominees for Director.

Each Director elected will serve for a term expiring at MEDNAX's 2010 Annual Meeting of Shareholders, which is expected to be held in May 2010, or until his or her successor has been duly elected and qualified.

MEDNAX's Board of Directors has no reason to believe that any nominee will refuse to act or be unable to accept election; however, in the event that a nominee for a directorship is unable to accept election or if any other unforeseen contingencies should arise, proxies will be voted for the remaining nominees and for such other person as may be designated by MEDNAX's Board of Directors, unless the proxies provide otherwise.

If a quorum is present at the annual meeting, the 10 nominees receiving the highest number of votes FOR election will be elected to the Board of Directors of MEDNAX. Proxies will be voted FOR all such nominees absent contrary instructions.

MEDNAX's Board of Directors recommends a vote FOR the election of each of the 10 nominees for Director.

GOVERNANCE AND RELATED MATTERS

Our business, property and affairs are managed under the direction of our Board of Directors, except with respect to those matters reserved for our shareholders. Our Board of Directors establishes our overall corporate policies, reviews the performance of our senior management in executing our business strategy and managing our day-to-day operations and acts as an advisor to our senior management. Our Board of Directors' mission is to further the long-term interests of our shareholders. Members of the Board of Directors are kept informed of MEDNAX's business through discussions with MEDNAX's management, primarily at meetings of the Board of Directors and its committees, and through reports and analyses presented to them. Significant communications between our Directors and senior management occur apart from such meetings.

Questions and Answers About Our Corporate Governance Practices

What Committees Have Our Board of Directors Established?

The standing committees of MEDNAX's Board of Directors are the Executive Committee, the Medical Science and Technology Committee, the Audit Committee, the Compensation Committee and the Nominating and Corporate Governance Committee. Copies of the charters for these committees, as well as our corporate governance principles, are available on our website at www.mednax.com. Our Internet website and the information contained therein, other than material expressly referred to in this Proxy Statement, or connected thereto are not incorporated into this Proxy Statement. A copy of our committee charters and corporate governance principles are also available upon request from MEDNAX's Secretary at 1301 Concord Terrace, Sunrise, FL 33323.

How Many Times Did Our Board of Directors Meet During 2008?

During 2008, MEDNAX's Board of Directors held nine meetings and took various actions by unanimous written consent. Committees of the Board of Directors held a combined total of 25 meetings and also took actions by unanimous written consent. Each incumbent Director attended at least 75% of the total number of meetings of MEDNAX's Board of Directors and its committees held during 2008 during the period he or she was

Table of Contents

a member thereof. Although MEDNAX has no formal policy with respect to its Directors' attendance at MEDNAX's annual shareholders meetings, in 2008 all of our incumbent Directors attended the annual shareholders' meeting except Dr. Goldschmidt, who was unable to attend.

Are a Majority of Our Directors Independent?

Our Board of Directors has reviewed information about each of our non-employee Directors and made the determination that we have a majority of independent Directors on our Board of Directors. In arriving at this conclusion, our Board of Directors made the affirmative determination that each of Drs. Carlo and Freeman, Ms. Garcia and Messrs. Alvarez, Fernandez, Gabos, Sosa and Kadre meet the Board of Directors previously adopted categorical standards for determining independence in accordance with the New York Stock Exchange's corporate governance rules. Our adopted categorical standards for determining independence in accordance with the New York Stock Exchange's corporate governance rules are contained in our corporate governance principles, a copy of which is available on our website at www.mednax.com.

Who Is the Chairman of the Board or Presiding Director ?

Following each annual meeting of the shareholders, MEDNAX's Board of Directors designates a non-management Director as Chairman of the Board or, alternatively, as Presiding Director. In addition to other responsibilities, the Chairman of the Board or Presiding Director presides over meetings of our non-management Directors. At least once a year, the Chairman of the Board or Presiding Director also presides over meetings of our independent Directors. Following our 2008 annual meeting of shareholders, our Board of Directors appointed Mr. Alvarez to serve as Chairman of the Board.

How Can Shareholders Communicate with the Board of Directors?

Anyone who has a concern about MEDNAX's conduct, including accounting, internal accounting controls or audit matters, may communicate directly with our Chairman of the Board of Directors (or Presiding Director), our non-management Directors, the Chairman of the Audit Committee or the Audit Committee. Such communications may be confidential or anonymous, and may be submitted in writing to the Chief Compliance Officer, MEDNAX, Inc., 1301 Concord Terrace, Sunrise, Florida 33323, or reported by phone at 877-835-5764. All such concerns will be forwarded to the appropriate Directors for their review, and will be simultaneously reviewed and addressed by the Company's General Counsel or Chief Compliance Officer in the same way that other concerns are addressed by us. MEDNAX's Code of Conduct, which is discussed below, prohibits any employee from retaliating or taking any adverse action against anyone for raising or helping to resolve an integrity concern.

Has MEDNAX Adopted a Code of Conduct?

MEDNAX has adopted a Code of Conduct that applies to all Directors, officers, employees and independent contractors of MEDNAX and its affiliated medical practices. MEDNAX intends to disclose any amendments to, or waivers from, any provision of the Code that applies to any of MEDNAX's executive officers or Directors by posting such information on our website at www.mednax.com.

Report of the Audit Committee

The following report of the Audit Committee does not constitute soliciting material and should not be deemed filed or incorporated by reference into any of MEDNAX's filings under the Securities Act of 1933, as amended (the "Securities Act"), or the Securities Exchange Act of 1934, as amended (the "Exchange Act"), except to the extent that we specifically incorporate such report by reference.

We act under a written charter that has been adopted by MEDNAX's Board of Directors. While we have the responsibilities set forth in this charter, it is not our duty to plan or conduct audits or to determine that MEDNAX's financial statements are complete, accurate or in compliance with generally accepted accounting principles. This is the responsibility of MEDNAX's management and independent auditors.

Our primary function is to assist the Board of Directors in their evaluation and oversight of the integrity of MEDNAX's financial statements, the qualifications and independence of MEDNAX's independent auditors and the performance of MEDNAX's audit functions. In addition, while we are also responsible for assisting the Board of Directors in their evaluation and oversight of MEDNAX's compliance with applicable laws and regulations, it is not our duty to assure compliance with such laws and regulations or MEDNAX's Compliance Plan and related policies.

We also oversee MEDNAX's auditing, accounting and financial reporting processes generally. Management is responsible for MEDNAX's financial statements and the financial reporting process, including the system of internal controls. We also review the preparation by management of MEDNAX's quarterly and annual financial statements. MEDNAX's independent auditors, who are accountable to us, are responsible for expressing an opinion as to whether the consolidated financial statements present fairly, in all material respects, the financial position, results of operations and cash flows of MEDNAX in conformity with generally accepted accounting principles in the United States. MEDNAX's independent auditors are also responsible for auditing and reporting on the effective operation of MEDNAX's internal control over financial reporting. We are responsible for retaining MEDNAX's independent auditors, and maintain sole responsibility for their compensation, oversight and termination. We are also responsible for pre-approving all non-audit services to be provided by the independent auditors, and on an annual basis discussing with the independent auditors all significant relationships they have with MEDNAX to determine their independence.

In fulfilling our oversight role, we met and held discussions with MEDNAX's management and independent auditors. Management advised us that MEDNAX's consolidated financial statements were prepared in accordance with generally accepted accounting principles, and we reviewed and discussed the consolidated financial statements for the fiscal year ended December 31, 2008. In addition, we reviewed and discussed the Management's Discussion and Analysis of Financial Condition and Results of Operations sections of MEDNAX's periodic reports, key accounting and reporting issues and the scope, adequacy and assessments of MEDNAX's internal controls and disclosure controls and procedures with management and MEDNAX's independent auditors. We discussed privately with the independent auditors matters deemed significant by the independent auditors, including those matters required to be discussed pursuant to U.S. Auditing Standards No. 380 (Communication with Audit Committees), as adopted by the Public Company Accounting Oversight Board.

The independent auditors also provided us with the written disclosures and the letter required by applicable requirements of the Public Company Accounting Oversight Board, regarding the independent accountant's communications with the Audit Committee concerning independence, and we discussed with the independent auditors matters relating to their independence. We also reviewed a report by the independent auditors describing the firm's internal quality-control procedures and any material issues raised in the most recent internal-quality control review or external peer review or inspection performed by the Public Company Accounting Oversight Board.

The Nominating and Corporate Governance Committee assists the Board of Directors with respect to nominating new Directors and committee members and taking a leadership role in shaping the corporate governance of MEDNAX. To fulfill its responsibilities and duties, the committee, among other things, reviews the qualifications and independence of existing Directors and new candidates; assesses the contributions of current Directors; identifies and recommends individuals qualified to be appointed to committees of the Board of Directors; considers rotation of committee members; reviews the charters of the committees and makes recommendations to the full Board of Directors with respect thereto; develops and recommends to the Board of Directors corporate governance principles, including a code of business conduct; and evaluates and recommends succession plans for MEDNAX's chief executive officer and other senior executives.

In evaluating nominees for Director, the committee does not differentiate between nominees recommended by shareholders and others. In identifying and evaluating candidates to be nominated for Director, the committee reviews the desired experience, mix of skills and other qualities required for appropriate Board composition, taking into account the current Board members and the specific needs of MEDNAX and its Board of Directors. This process is designed so that the Board of Directors includes members with diverse backgrounds, skills and experience, and represents appropriate financial, clinical and other expertise relevant to the business of MEDNAX. At a minimum, Director candidates must meet the following qualifications: high personal and professional ethics, integrity and values and a commitment to the representation of the long-term interests of our

Review and Approval of Related Person Transactions

MEDNAX has a written policy for the review and approval or ratification of transactions (i) between MEDNAX (or any of its consolidated subsidiaries or affiliated professional associations, corporations and partnerships) and any MEDNAX Director or any other entity in which any MEDNAX Director is a Director, officer or is financially interested; and (ii) in which MEDNAX (or any of its consolidated subsidiaries or affiliated professional associations, corporations and partnerships) is or will be a participant and any related person has or will have a direct or indirect material interest. For purposes of the policy, a related person includes any MEDNAX Director or Director nominee, executive officer or holder of more than 5% of the outstanding voting stock of MEDNAX or any of their respective immediate family members. The policy does not apply to transactions pertaining to (i) director or officer compensation that is approved or recommended to MEDNAX's Board of Directors for approval by MEDNAX's Compensation Committee or (ii) the employment by MEDNAX (or any of its consolidated subsidiaries or affiliated professional associations, corporations and partnerships) of any immediate family member of a related person in a non-officer position and at compensation levels commensurate with that paid to other similarly situated employees.

Pursuant to the terms of the policy, all covered transactions, if determined to be material by MEDNAX's General Counsel or if the transaction involves the participation of a member of the MEDNAX Board of Directors, are required to be promptly referred to the disinterested members of the MEDNAX Audit Committee for their review or, if less than a majority of the members of MEDNAX Audit Committee are disinterested, to all the disinterested members of the MEDNAX Board of Directors. Pursuant to the terms of the policy, materiality determinations must be based on the significance of the information to investors in light of all circumstances, including, but not limited to, the (i) relationship of the related persons to the covered transaction, and with each other, (ii) importance to the person having the interest, and (iii) amount involved in the transaction. All transactions involving in excess of \$120,000 are automatically deemed to be material pursuant to the terms of the policy.

The disinterested Directors of MEDNAX's Audit Committee or Board of Directors, as applicable, are required to review such material covered transactions at their next regularly-scheduled meeting, or earlier if a special meeting is called by the Chairman of the Audit Committee and may only approve such a material covered transaction if it has been entered into in good faith and on fair and reasonable terms that are no less favorable to MEDNAX than those that would be available to MEDNAX in a comparable transaction in arm's length dealings with an unrelated third party at the time it is considered by the disinterested Directors of MEDNAX's Audit Committee or Board of Directors, as applicable.

All of the transactions described in "Transactions with Related Persons" below were covered transactions under our policy and the policies and procedures required by the policy were followed in connection with the review and approval or ratification of all of such transactions.

In 2008, MEDNAX reimbursed Dr. Medel, our Chief Executive Officer, approximately \$70,501 for MEDNAX's business use of an aircraft that Dr. Medel owns pursuant to a fractional ownership program. MEDNAX used the aircraft in connection with business trips taken by Dr. Medel and other officers, Directors and employees. The amounts reimbursed by MEDNAX for the use of Dr. Medel's aircraft did not exceed the hourly rate that Dr. Medel paid for such use under the aircraft's fractional ownership program.

Deborah Medel-Guerrero, the daughter of Dr. Medel, is employed by MEDNAX as its Director of Practice Integration and is responsible for matters relating to the integration of newly acquired physician practice groups. In 2008, MEDNAX paid Ms. Medel-Guerrero \$96,454 in salary and bonus and provided her certain health and other benefits customarily provided to similarly situated employees. In addition, in 2008, MEDNAX granted Ms. Medel-Guerrero a restricted stock award of 833 shares of our common stock and options to purchase 2,500 shares of our common stock, each with a three-year vesting period. The options granted to Ms. Medel-Guerrero were at an exercise price equal to the greater of the closing price of a share of our common stock on the New York Stock Exchange on May 23, 2008 (the date the Compensation Committee awarded the options) or June 2, 2008, the effective date of the grant, which was the same exercise price for all options granted to employees on that date. Ms. Medel-Guerrero is also the holder of certain previously granted options that are subject to our program adopted by our Board of Directors for all similarly situated employees providing for the increase in the exercise price of these options and a compensating payment for the difference in 2008. Pursuant to such program, Ms. Medel-Guerrero received a compensating payment of \$20,350 in 2008.

In April 2008, the United States District Court for the Southern District of Florida entered a final judgment to resolve a shareholder derivative action filed by Jacob Schwartz in August 2007, naming the Company as a nominal defendant and also naming as defendants certain of our current and former officers and Directors. The lawsuit alleged that all or some of the defendant officers and Directors, among other things, breached their fiduciary duties to the Company, violated the federal securities laws, and engaged in corporate waste, gross mismanagement, unjust enrichment and constructive fraud in connection with the Company's historical stock option practices. In consideration for the full settlement and release of claims against all defendants, the Company paid \$1.5 million in attorneys fees and costs to the plaintiff's counsel and recognized that the plaintiff's demand letter, which was received prior to the commencement of the lawsuit, was a significant contributing factor to the implementation of various measures to enhance our stock option practices. The payment to the plaintiff's counsel was covered by insurance.

In connection with the foregoing lawsuit and with investigations by the Securities and Exchange Commission (now completed) and the U.S. Attorney's Office for the Southern District of Florida related to our stock option granting practices, we have advanced expenses from November 2007 through January 31, 2009 on behalf of the following individuals in the following approximate amounts: Dr. Medel \$331,626.89, Mr. Calabro \$275,305.63, Mr. Wagner \$428,985.26, Mr. Hawkins \$69,343.68 and Charlene D. Warren, a Vice President of the Company, \$33,701.64.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

The Compensation Committee of our Board of Directors determines the compensation for our executive officers and oversees the administration of our executive compensation programs. The Compensation Committee is composed entirely of independent Directors and is advised as necessary by an independent consultant retained by the Compensation Committee.

Executive Compensation Philosophy

The Compensation Committee has designed our executive compensation programs with the following guiding principles in mind:

Quality of Personnel We are committed to employing the highest quality executive team in the health care services industry. In a challenging business environment, we believe that having highly qualified executive officers is critical for all our constituencies our patients, hospitals, affiliated clinicians, third party payors, employees, and shareholders. We expect our executives to be of the highest caliber in terms of business acumen and integrity.

Competitiveness Our objective is to analyze and understand market forces and practices regarding compensation for executives at similarly situated companies. Our strategy is to establish compensation programs and levels in relation to the external market that best support our corporate strategy.

Alignment of Interests Our compensation plans for top executives are designed to have strong links to performance achievements, both in terms of operational and financial results as well as in optimizing shareholder value. We evaluate the relationship between compensation cost, shareholder value and company performance on a regular basis. At-risk elements such as cash incentives and stock-based compensation comprise a significant portion of our overall executive remuneration. For incentive plans, we establish performance goals along a wide range of potential performance results so that the level of compensation received appropriately corresponds to the level of performance achieved.

Simplicity and Ease of Administration Our plans are intended to be simple to understand, document, track and administer. As part of this objective, we attempt to limit the number of separate elements of compensation so that we can easily understand the relationships between programs.

Understanding Objectives and Value We seek to understand the needs and objectives of our executive officers and, to the degree feasible, reflect those needs and objectives in the programs developed. Additionally, we strive to ensure that executives understand each element and the overall compensation program so that they fully appreciate the value being delivered.

Compliance with Regulatory Guidelines and Sensible Standards of Corporate Governance We develop our plans in recognition of, and in compliance with, all applicable rules, statutes, regulations and guidelines. Additionally, we monitor our programs on an ongoing basis to ensure they remain in compliance. Program designs reflect relevant considerations in the areas of accounting cost, tax impact, cash flow constraints and other relevant matters. Lastly, we strive to ensure that all programs are appropriate in light of reasonable and sensible standards of good corporate governance.

Executive Compensation Administration

On August 19, 2008, the Company entered into new Employment Agreements with each of Dr. Medel and Messrs Calabro, Wagner and Hawkins. The Employment Agreements replaced those certain employment agreements entered into by and between our Company and each named executive officer in 2004. Various aspects of these new employment agreements are described in more detail below.

Table of Contents

The Compensation Committee continually reviews executive compensation to ensure that it reflects our compensation philosophy. As it has in the past, in 2008, the Compensation Committee commissioned Watson Wyatt Worldwide, LLP (Watson Wyatt), an independent compensation consultant, to assist it in a thorough review of our compensation practices. The 2008 report contained Watson Wyatt's market assessment and recommendations with respect to annual cash compensation and total compensation for our named executive officers.

The 2008 Watson Wyatt report indicated that in 2007, the total direct compensation opportunity for our Chief Executive Officer was substantially below the peer group median, and was close to the peer group median for the Company's other executive officers. The Compensation Committee determined, based upon its compensation philosophy and Company performance, that it was more appropriate for the total direct compensation opportunities, including salary, targeted annual bonus and the estimated fair value of equity-based grants for each of the named executive officers, to be positioned at approximately the 75th percentile of the market references developed for each of our named executive officers in the 2008 market assessment. The Compensation Committee used the information contained in the 2008 Watson Wyatt report and its assessment of the performance of our named executive officers, in determining the base salaries and bonus opportunities of each of the named executive officers for 2008 and the grants of stock options and restricted stock made to each of those named executives for both of those years as well (as described in more detail below).

Our Compensation Committee makes compensation decisions around program design and pay adjustments in the context of our compensation philosophy, market practices and total compensation objectives. The Compensation Committee ordinarily positions compensation opportunities at a strategically determined percentile of the market as a means to attract and retain the level of executive talent necessary to deliver sustained performance. Market positioning for individual elements of compensation and benefits, as well as the relationships among elements, are discussed below. Our compensation programs include significant variable components. For example, our annual bonus program for named executive officers is based on the achievement of predetermined target levels of our Company's income from operations and our equity compensation program is based upon the value and increases in the value of our common stock. Actual compensation realized therefore may be more or less than the targeted compensation opportunity in any given year.

Although it has no formal policy for a specific allocation between current and long-term compensation, or cash and non-cash compensation, the Compensation Committee reviews the pay mix for executive officers as compared to typical market practice. Our annual bonus program serves as a method for properly incentivizing and rewarding our named executive officers for the achievement of desired performance levels. Our long-term compensation program, implemented through a mix of time and performance vesting equity awards, serves as both a retention tool as well as a financial incentive, helping to increase the likelihood that top performers will remain with us long-term and be appropriately rewarded for enhancing long-term shareholder value. The long-term compensation program also serves to align the interests of executive officers with our shareholders. We have no formal policy to either retroactively increase or claw back previously awarded bonuses or vested equity compensation in the event of a restatement of our financial results.

The Compensation Committee has considered a number of factors in making decisions on the structure of the programs and individual compensation awards and payments. The primary factors include the analysis and market data provided by Watson Wyatt as discussed below and the Compensation Committee's guiding principles for program design and operation.

The Compensation Committee establishes and approves all elements of compensation for the Chief Executive Officer after careful consideration of all factors it deems appropriate. The Chief Executive Officer makes recommendations on compensation actions for the other executive officers based on market data from Watson Wyatt and according to the same philosophy and objectives the Compensation Committee has adopted (and after the other named executive officers have had an opportunity to review the data provided by Watson Wyatt and to provide the Chief Executive Officer with their input). The Chief Executive Officer's

Table of Contents

recommendations are then considered for approval by the Compensation Committee, and in some cases are modified by the Compensation Committee during the course of its deliberations.

The Compensation Committee has engaged Watson Wyatt as its independent consultant and advisor. Watson Wyatt also has provided services to management, including technical advice relating to equity compensation to employees generally, and assistance in developing compensation packages for our Regional Presidents and Regional Vice Presidents. In 2008, Watson Wyatt conducted an independent and comprehensive review of our executive compensation program, which included an evaluation of the market positioning for cash compensation and total compensation and individual pay elements and which were relied upon for 2008 compensation. Specifically, the review covered the following compensation areas:

Cash Compensation: direct cash compensation in the form of base salary and annual bonus.

Total Compensation: direct cash compensation elements including base salary, annual bonus and long-term incentives (both cash and stock).

Peer Group Performance Analysis: historical peer group analysis of key financial metrics relevant to base salary levels, our bonus plan and stock-based compensation.

In conducting the 2008 market assessment, a peer group of 12 publicly traded healthcare companies with equity market values between \$791 million and \$5.37 billion was used to benchmark compensation for the named executive officers. All of the peer group companies were members of the Dow Jones Health Care Providers, and the group constituted a blend of both small cap and large cap companies. The companies included in the peer group were Davita, Inc., Health Management Associates, Inc., Lincare Holdings, Inc., Community Health Systems, Inc., Universal Health Services, Inc., Lifepoint Hospitals, Inc., Psychiatric Solutions, Inc., Healthways, Inc., Magellan Health Services, Inc., HealthSouth Corporation, Kindred Healthcare, Inc. and Apria Healthcare Group, Inc.

The following sections describe the various elements of our executive compensation program, including its objectives, market positioning, structure and operation, and other information specific to 2008 payments, awards, and pay actions.

Base Salary

Each executive officer is paid a base salary that is reviewed periodically by the Compensation Committee. The base salaries for our Chief Executive Officer and of our three other named executive officers are now generally targeted at the 75th percentile of the peer group, although individual officer salaries may be above or below those targets. Adjustments to salaries consider the base salary and total compensation market data compiled by Watson Wyatt in the context of the executive's role and responsibilities, experience and tenure, individual performance and contribution to the Company's results as recommended to the Compensation Committee by the Chief Executive Officer (or the Compensation Committee in the case of the Chief Executive Officer).

The base salaries of the named executive officers remained at the same levels for 2007 as were payable for 2006. Based on updated compensation market data provided by Watson Wyatt, as well as the Compensation Committee's assessment of our and the executive officers performance, the new Employment Agreements increased the annual base salaries beginning June 1, 2008 to \$950,000 for Dr. Medel, \$600,000 for Mr. Calabro, \$500,000 for Mr. Wagner and \$425,000 for Mr. Hawkins. These increases average approximately 15% above the levels established in 2006.

Table of Contents

The schedule below indicates the annual base salaries of our named executive officers for the periods from January 1, 2006 to May 31, 2008 and from June 1, 2008 through December 31, 2008:

	Annual Base Salary	
	(1/1/2006 to 5/31/2008)	(6/1/2008 to 12/31/2008)
Roger J. Medel, M.D.	\$ 800,000	\$ 950,000
Joseph M. Calabro	\$ 515,000	\$ 600,000
Karl B. Wagner	\$ 430,000	\$ 500,000
Thomas W. Hawkins	\$ 400,000	\$ 425,000

The actual base salaries paid to our named executive officers in 2008, 2007, and 2006 are included in the Salary column of the Summary Compensation Table.

Annual Bonuses

In May 2008, our shareholders approved, at the recommendation of our Board of Directors, the 2008 Incentive Compensation Plan. Prior to the approval of the 2008 Incentive Compensation Plan, the 2004 Incentive Compensation Plan was in effect. The purpose of both the 2004 Incentive Compensation Plan and the 2008 Incentive Compensation Plan is to assist us in attracting, motivating, retaining and rewarding high quality executives and other employees, by enabling them to acquire a proprietary interest in our Company and providing them with annual and long-term incentives to expend their maximum efforts in the creation of shareholder value. The Compensation Committee designed both plans to satisfy the requirements for performance-based compensation within the meaning of Section 162(m) of the Internal Revenue Code of 1986, as amended (the Code).

Our philosophy is to reward our executive officers for growth in our Company's results of operations. As such, we target steady increases in income from operations. In March of 2008, the Compensation Committee established a target bonus opportunity equal to 150% of base salary for our Chief Executive Officer, and 100% of base salary for each of our other named executive officers, based upon achievement of increases in 2008 in the level of income from operations over 2007. This target was approximately 23.5% greater than our 2007 income from operations. Minimum and maximum bonus opportunities were established using quartile extrapolations of the implied growth over our 2007 results, provided that the bonus for our Chief Executive Officer could not exceed 300% of base salary, and the bonuses for Messrs. Calabro, Wagner and Hawkins could not exceed 200% of their respective base salaries. The measures were designed to encourage executive officers to focus on continuing to grow our business while managing associated general and administrative expenses.

The following table is illustrative of potential awards to our Chief Executive Officer of between 37.5% and 225%, and to our other executive officers of between 25% and 150% of their target bonuses for 2008:

Executive Officer	2008 Base Salary	Bonus Opportunity as % of Base Salary					
		Based on Achievement of 2008 Income from Operations					
		(all target amounts are in thousands)					
		\$242,582	\$252,679	\$262,775	\$272,871	\$282,967	\$293,064 or More
Roger J. Medel, M.D.	\$ 950,000	37.50%	75.00%	112.50%	150.00%	187.50%	225.00%
Joseph M. Calabro	\$ 600,000	25.00%	50.00%	75.00%	100.00%	125.00%	150.00%
Karl B. Wagner	\$ 500,000	25.00%	50.00%	75.00%	100.00%	125.00%	150.00%
Thomas W. Hawkins	\$ 425,000	25.00%	50.00%	75.00%	100.00%	125.00%	150.00%

The Compensation Committee establishes key business performance objectives for each of the named executive officers, and may reduce bonuses if and to the extent those objectives are not met (the Compensation Committee retains the right to reduce bonuses under all circumstances). The Compensation Committee

Table of Contents

determined that each of the named executive officers had substantially achieved his key business objectives for 2008, and accordingly that no reductions were appropriate for the 2008 bonuses.

Following the end of the fiscal year, the Compensation Committee determined that our Company's 2008 income from operations was \$242,029,000, that the performance bonus of our chief executive officer was approximately 35.4% of base salary and the performance bonuses of our other named executive officers were approximately 23.6% of their respective base salaries. The Compensation Committee also determined to pay discretionary bonuses to the named executive officers to recognize their efforts during 2008, and, in particular, as a result of our significant revenue and operating income growth in unusually adverse general economic conditions, our completion of a \$350 million unsecured revolving credit facility on favorable terms in 2008, and a record \$261 million invested to acquire 13 physician practices in 2008. Inclusive of the discretionary bonuses, our executive officers received total cash bonuses equal to 50% of base salary, in the case of our Chief Executive Officer, and 35% of base salary, in the case of our other named executive officers. The amounts of the bonuses are included in the Summary Compensation Table under the columns labeled "Non-equity Incentive Plan Compensation," in the case of the performance-based bonuses, and "Bonuses," in the case of the discretionary bonuses.

In March 2009, the Compensation Committee established the 2009 bonus opportunities for our named executive officers based upon targeted levels in our anticipated income from operations for 2009. This bonus opportunity was established so that such bonuses, if any, would qualify as performance-based compensation under Section 162(m). The maximum bonus opportunity as a percentage of base salary is the same as what was used for 2008. The target level of income from operations in 2009 reflects lower growth rates in light of current economic conditions.

Equity-Based Awards

The Compensation Committee's philosophy is to make equity awards (other than awards to new hires) annually close to mid-year. At its meeting held on May 23, 2008, the Compensation Committee made the annual awards for 2008 to the named executive officers in the form of stock options and restricted stock, all of which were effective on June 2, 2008. The exercise price for the stock options was equal to the greater of the closing sales price on May 23, 2008 or on June 2, 2008.

Stock Options

An important objective of our long-term incentive program is to provide a strong relationship between the long-term value of our stock and the potential financial gain for employees. Stock options provide our named executive officers with the opportunity to purchase our common stock at a fixed price regardless of future market price. Stock options granted by our Company in 2008 generally vest and become exercisable over a three-year vesting period.

A stock option becomes valuable only if our common stock price increases above the option exercise price and the holder of the option remains employed during the period required for the option to vest, thus providing an incentive for an option holder to remain employed by our Company. In addition, stock options link a portion of an employee's compensation to shareholders' interests by providing an incentive to build long-term value, which in turn should result in increases in the market price of our stock.

The exercise prices of the stock options granted to our named executive officers on June 2, 2008, as approved by our Compensation Committee on May 23, 2008, were equal to the greater of the closing price of a share of the Company's common stock on the New York Stock Exchange on May 23, 2008 or June 2, 2008, the effective date of the grant. Those exercise prices are shown in the Grants of Plan-Based Awards Table. Additional information on these grants, including the number of shares subject to each grant, is also shown in the

Table of Contents

Grants of Plan-Based Awards Table. All of the stock options granted to the named executive officers in 2008 were non-qualified stock options.

There is a limited term in which our named executive officers can exercise stock options, known as the option term. The option term is generally 10 years from the date of grant. At the end of the option term, the right to purchase any unexercised options expires. Option holders generally forfeit any unvested options if their employment with us terminates.

The terms of the Employment Agreement of each named executive officer provides that the executive will have the greater of (i) 24 months after termination of employment or (ii) 12 months from the applicable vesting date to exercise any vested non-qualified stock options or vested stock appreciation rights and realize any other vested incentive compensation awards that may be granted under any of the Company's stock option plans or incentive compensation plans and/or any other similar plan adopted by the Company; provided, however, that in no event may the date be later than the earlier of (i) the latest date upon which the stock right would have expired by its original terms under any circumstances or (ii) the tenth anniversary of the original date of grant of the stock right.

In the event that a named executive's employment is terminated due to death, by the Company without Cause (as defined in his Employment Agreement) or due to the executive's Disability (as defined in his Employment Agreement) or by the executive for Good Reason (as defined in his Employment Agreement) or due to the executive's becoming impaired to any extent that makes the continued performance of his duties hazardous to the executive's physical or mental health of life (Poor Health), all stock options, and stock appreciation rights granted prior to termination will continue to vest until fully vested. In the event of a Change in Control (as defined in his Employment Agreement) of the Company, all unvested stock options and stock appreciation rights will automatically vest and become immediately exercisable.

Restricted Stock Awards

Restricted stock awards are intended to retain key employees, including the named executive officers, through vesting periods. Restricted stock awards provide the opportunity for capital accumulation and more predictable long-term incentive value.

Restricted stock awards are shares of our common stock that are awarded with the restriction that the recipient remain with us throughout the award's vesting period. Restricted stock awards by our Company generally vest at the rate of one-third per year beginning on the first anniversary of the date on which the award is granted and may also be subject to performance-based vesting. The purpose of granting restricted stock awards is to encourage ownership that results in business decisions that build long-term shareholder value and thus stock price appreciation, and encourage retention of our named executive officers. Named executive officers are allowed to vote restricted stock awards as a shareholder based on the number of shares held under restriction. Any dividends declared with respect to any restricted stock awards are held until the awards vest, at which time the dividends are paid to the named executive officers. If restricted stock is forfeited, the named executive officer's rights to receive the dividends declared with respect to that stock is forfeited as well. At present, the Company does not pay dividends and it has no current intention to do so in the future.

Any unvested restricted stock generally is forfeited upon termination of the employment of the named executive officers. Their Employment Agreements, however, provide that their restricted stock will vest after termination of employment in certain circumstances. In the event of termination due to death, by the Company without Cause or due to executive's Disability or by the executive for Good Reason or due to Poor Health, all restricted stock granted prior to termination of employment will continue to vest until fully vested. Furthermore, in the event of a Change in Control, all unvested restricted stock will automatically vest.

The number of shares of restricted stock and stock options granted to each executive officer in 2008 was based on several factors including our overall 2008 performance, the Compensation Committee's evaluation of

Table of Contents

the senior management team in executing the business plan and strategic objectives for 2008, the individual executive's performance assessment in light of his performance objectives, and the peer group market data supplied by the Compensation Committee's consultant in 2008. In general, long-term compensation is allocated on the basis of the Compensation Committee's judgment concerning the cash and equity incentives and time frames that are optimal to maintain our ability to compete for and retain talented leaders. Information regarding the grants of restricted stock made by our Company to our named executive officers during fiscal year 2008 is included in the Grant of Plan-Based Awards Table.

In 2008, the Compensation Committee continued the approach it began in 2006 of granting a mix of stock options and restricted stock with approximately equal values. This balanced approach was considered to be more effective in achieving program objectives than either granting stock options or restricted stock alone.

Stock options provide strong motivation for achieving sustained levels of share price appreciation. Gains realized by officers upon exercise of stock options are expected to qualify as performance-based compensation as defined by Section 162(m) and be fully tax deductible.

Because they have intrinsic value when granted, restricted stock with vesting conditions provide a stronger retention incentive and result in executives sharing immediate downside risk with shareholders. Using restricted stock also results in our using fewer shares to deliver the same value and reduces potential future dilution. After considering all of these factors, management recommended and the Compensation Committee approved the balanced approach used for 2008 grants.

The restricted stock awards granted by the Compensation Committee for 2008 were subject to performance-based vesting as follows: if the Company's net patient service revenue, as determined in accordance with generally accepted accounting principles, for the twelve months ended March 31, 2009, equals or exceeds \$953,000,000, then each of the executive officers' restricted shares will vest in three equal increments on June 1, 2009 (Increment 1), June 1, 2010 (Increment 2) and June 1, 2011 (Increment 3). If, however, net patient service revenue does not equal or exceed \$953,000,000 for that period, then Increment 1 will vest on the later of June 1, 2009 or the date that is two weeks after the date on which the Company's net patient service revenue, as determined in accordance with GAAP, for any 12 consecutive month period commencing on or after July 1, 2009, has been certified by the Compensation Committee to have equaled or exceeded \$953,000,000 (the Revenue Date), Increment 2 will vest on the later of June 1, 2010 or the Revenue Date, and Increment 3 will vest on the later of June 1, 2011 or the Revenue Date; provided, however, that if the Revenue Date has not occurred by April 14, 2013, then the restricted shares shall lapse and become null and void. The Compensation Committee intends that these restricted stock awards qualify as performance-based compensation that is not subject to the deduction limitations imposed by Section 162(m).

In connection with the execution of his Employment Agreement on August 20, 2008, Dr. Medel also received two special deferred equity grants (the Deferred Grants), one consisting of 75,000 shares of restricted share units (Deferred Stock) vesting on the fifth anniversary of the date of grant, and the other consisting of 25,000 shares of Deferred Stock, also vesting on such fifth anniversary but only if, prior to the fourth anniversary of the date of grant, Dr. Medel shall have submitted to the Board of Directors a CEO succession plan that is approved by the Board. The Deferred Grants were intended to recognize the sustained strong performance of the Company under Dr. Medel's leadership, to ensure Dr. Medel's retention during the next five years, particularly in light of our expansion into new practice areas, and to ensure a smooth transition to a new CEO at the termination of Dr. Medel's employment. The Deferred Grants are subject to performance based vesting requirements that will cause their forfeiture unless the Company's net patient service revenues for any four consecutive quarters that elapse during the period commencing on October 1, 2008 and ending on the fifth anniversary of the date of grant equal or exceed \$1,050,000,000 (the Performance Vesting Threshold). The Deferred Grants will continue to vest in accordance with their terms if Dr. Medel's employment is terminated by him for Good Reason. If Dr. Medel incurs a Disability or if his employment is terminated due to death, then the Deferred Grants will vest immediately. In addition, if Dr. Medel's employment is terminated by the Company without Cause they will

Table of Contents

continue to vest in accordance with their terms, provided, that if such termination occurs after the Performance Vesting Threshold has been met, then the Deferred Grants will vest on the date of such termination. The Deferred Grants will also continue to vest in accordance with their terms if Dr. Medel's employment is terminated due to a Change in Control, provided, that if he terminates his employment within one year after such Change of Control, then the Deferred Grants will vest on such termination.

Equity Grant Practices

The Compensation Committee generally makes annual equity awards close to mid-year.

The Compensation Committee determines the effective date of such awards without regard to current or anticipated stock price levels. The Compensation Committee may also make, and in the past has made, special grants during the course of the year, primarily for new hires, promotions, to retain valued employees or to reward exceptional performance. These special grants may be subject to performance or time vesting, and are issued on the date of grant approval or upon a date certain following the grant approval date, such as the date on which a new hire commences his or her employment with the Company.

In discharging its responsibility for administering the Company's stock-based compensation programs, the Compensation Committee regularly monitors and evaluates the total cost of such programs. In prior years, and most recently in 2006, Watson Wyatt prepared an analysis of the Company's programs in the areas of total share utilization, annual grant rates, and operating expense as compared to peer companies. In 2008, Watson Wyatt prepared an analysis of equity grants to our named executive officers as compared to peer companies as more fully described above. The analysis results are used by the Compensation Committee in evaluating management's annual equity grant recommendations for all program participants, including the named executive officers. In evaluating the Company's total cost from stock compensation programs, the Compensation Committee takes into consideration the fact that compared to peer company practices, the Company's retirement benefit programs are relatively conservative, particularly for the named executive officers.

We follow equity grant procedures designed to promote the proper authorization, documentation and accounting for all equity grants. Pursuant to these procedures the Compensation Committee or the Board of Directors must formally approve all equity awards during an in person or telephonic meeting or by the unanimous written consent executed by all members of the Compensation Committee or the Board of Directors, as the case may be, it being understood that no equity award granted pursuant to any such written consent may have an effective date earlier than the date that all executed counterparts of such unanimous written consent are delivered to the General Counsel of the Company.

Generally, the exercise price for any equity award, the value of which is based upon a grant date value of our common stock, will be the closing sales price for a share of our common stock as reported on the New York Stock Exchange on the effective date of the grant as approved by the Compensation Committee or the Board of Directors, which date may not be prior to either the date such grant was approved or the commencement date of employment of the employee to whom the equity award is being made.

Subject to these policies and procedures, the Compensation Committee or the Board of Directors may approve grants of equity awards at any time. However, grants to employees other than newly hired employees or prospective employees not yet hired may be effective only on a date within a trading window as defined by the Company's Policy Statement on Inside Information and Insider Trading, as amended from time to time (the Insider Trading Policy). For example, a grant approved by the Compensation Committee or the Board of Directors during a black-out period (as defined in such policy) will be effective on a date during the next trading window as determined by the Compensation Committee or the Board of Directors on the date such grant is approved.

Table of Contents

The Company has not adopted any stock ownership guidelines for its executives or Directors. The Compensation Committee does, however, periodically review the levels of equity ownership by its executives. The May 2006 report from Watson Wyatt contained information reviewed by the Compensation Committee with respect to values of the Company stock owned by each of the named executive officers, the percentages of total stock ownership of the Company owned by each, and the multiples of salary owned by each, and compared that information to stock ownership by executives within the Company's peer group. The Compensation Committee did take that information into account in determining whether ownership guidelines were appropriate.

Our insiders can only buy or sell Company stock in accordance with our Insider Trading Policy and our employees generally can only buy or sell Company stock in accordance with our Statement of Policy Prohibiting Insider Trading To All Employees.

Retirement and Deferred Compensation Plans

We maintain a Thrift and Profit Sharing Plan (the 401(k) Plan), which is a 401(k) plan, to enable eligible employees to save for retirement through a tax-advantaged combination of elective employee contributions and our matching contributions, and provide employees the opportunity to directly manage their retirement plan assets through a variety of investment options. The 401(k) Plan allows eligible employees to elect to contribute from 1% to 60% of their eligible compensation to an investment trust on a pre-tax basis, up to the maximum dollar amounts permitted by law. In 2008, the maximum employee elective contribution to the 401(k) Plan was \$15,500, plus an additional \$5,000 for employees who were at least 50 years old in 2008. Eligible compensation generally means all wages, salaries and fees for services from the Company. Matching contributions under the 401(k) Plan are discretionary. For 2008, the Company matched 100% of the first 4% of eligible compensation that each eligible participant elected to be contributed to the 401(k) Plan on his or her behalf. The portion of an employee's account under the 401(k) Plan that is attributable to matching contributions vests as follows: 30% after one year of service, 60% after two years of service, and 100% after three years of service. However, regardless of the number of years of service, an employee is fully vested in our matching contributions (and the earnings thereon) if the employee retires at age 65 or later, or terminates employment by reason of death or total and permanent disability. The 401(k) Plan provides for a variety of different investment options, in which the employee's and the Company's contributions are invested. During 2008, we made a number of changes with respect to investment options, including termination of an option to invest contributions in our common stock.

Although the Company maintains a non-qualified deferred compensation plan, none of the named executive officers participates in that Plan.

The amounts of the Company's matching contributions under the 401(k) Plan for 2008 for each of the named executive officers is included in the All Other Compensation column of the Summary Compensation Table.

Other Benefits and Perquisites

We provide officers with certain benefits designed to protect them and their immediate families in the event of illness, disability, or death. We believe it is necessary to provide these benefits in order for us to be successful in attracting and retaining executives in a competitive marketplace, and to provide financial security in these circumstances. Named executive officers are eligible for health and welfare benefits available to all eligible Company employees during active employment under the same terms and conditions. These benefits include medical, dental, vision, short-term and long-term disability and group-term life insurance coverage.

Pursuant to the terms of their Employment Agreements, Dr. Medel and Messrs. Calabro, Wagner and Hawkins each are entitled to 38 days paid time off each year for vacation, illness, injury, personal days and other similar purposes in accordance with our policies in effect from time to time. Any paid time off not used during a calendar year may be carried over to the next year to the extent permitted under those policies. Dr. Medel and

Table of Contents

Mr. Calabro each are entitled under their Employment Agreements to utilize the aircraft in which the Company owns a fractional interest for personal travel. Dr. Medel's personal use of the aircraft may not exceed 75 hours of flight in any calendar year, and Mr. Calabro's personal use of the aircraft may not exceed 40 hours of flight in any calendar year, without the consent of the Compensation Committee. The incremental cost to the Company of these benefits for Dr. Medel and Mr. Calabro is included in the All Other Compensation column of the Summary Compensation Table.

The Compensation Committee has reviewed our perquisites expenditures, and believes they continue to be an important element of the overall compensation package to retain current officers, and in fact command a higher perceived value than the actual cost.

Termination of Employment and Change in Control Agreements

As described in greater detail below, the Employment Agreements between the Company and each of the named executive officers provide for the payment of certain compensation and benefits in the event of the termination of an executive's employment, the amount of which varies depending upon the reason for such termination. The Compensation Committee has reviewed the essential terms of these termination provisions, and believes they are reasonable, appropriate, and generally consistent with market practice. Those provisions include a reimbursement by the Company to the executive of any excise tax imposed upon the executive pursuant to Section 4999 of the Code with respect to any excess parachute payments, as that term is defined in Section 280G of the Code, that the executive receives as a result of a Change in Control. The effects of Section 4999 are unpredictable and can have widely divergent and unexpected effects based on an executive's personal compensation history. Therefore, to provide an equal level of benefit across individuals without regard to the effect of the excise tax, the Company has determined that the Section 4999 gross up payments are appropriate for the Company's most senior level executives.

Potential Payments Upon Termination or Change in Control

On August 19, 2008, the Company entered into Employment Agreements with each of Dr. Medel and Messrs. Calabro, Wagner and Hawkins. The Employment Agreements replaced those certain employment agreements entered into by and between the Company and each named executive officer in 2004. Each of these Employment Agreements provides for the Company to make certain payments and provide certain benefits to the executive upon termination of employment with the Company. Those provisions are summarized below.

Termination by Company for Cause. In the event that an executive's employment with the Company is terminated by the Company for Cause, then the Company will pay the executive his base salary through the termination date at the rate in effect at the termination date and reimburse the executive for any reasonable business expenses incurred through the date of termination.

The term Cause is defined in each executive's Employment Agreement to mean the executive's (i) engagement in (A) willful misconduct resulting in material harm to the Company, or (B) gross negligence; (ii) conviction of, or pleading *nolo contendere* to, a felony or any other crime involving fraud, financial

Table of Contents

misconduct, or misappropriation of the Company's assets; (iii) willful and continual failure, after written notice, to (A) perform substantially his employment duties consistent with his position and authority, or (B) follow, consistent with his position, duties, and authorities, the reasonable lawful mandates of his supervisor; or (iv) breach of the requirements of his employment agreement with respect to the Company's confidential information. For purposes of this definition, acts or omissions taken by the executive in a good faith belief that they were in the best interests of the Company or if done at the express direction of the Company's Board of Directors will not be deemed willful or grossly negligent.

Termination by Executive due to Poor Health or due to Executive's Death. In the event that an executive terminates his employment because of Poor Health or the executive's employment terminates because of his death, then the Company will pay to the executive (or his estate) his base salary to the termination date, pay the executive a pro rata portion of the bonus that the executive would have received had his employment not terminated (as determined in accordance with the Employment Agreement) and reimburse the executive for any reasonable business expenses incurred through the date of termination. In addition, if the executive terminates his employment due to Poor Health, the executive will receive any disability payments otherwise payable under any plans provided by the Company.

Termination due to Disability. If the Company terminates the executive's employment by reason of his Disability, then the Company will continue to pay to the executive his base salary for a period of 12 months after the termination date and the actual performance bonus, on a pro rata basis, that would have been payable to executive for the fiscal year if the executive had not been terminated.

Termination by Company without Cause or by Executive for Good Reason or Due to Change in Control. If the Company terminates an executive's employment without Cause (which requires not less than 90 days' notice), an executive terminates his employment for any reason within one year after a Change in Control, the Company terminates his employment within 24 months following a Change in Control, or an executive terminates his employment for Good Reason, then the Company will (a) pay executive's base salary through the termination date plus any reimbursement owed to the executive for any reasonable business expenses incurred through the date of termination, (b) (except in the case of Dr. Medel), continue to pay the executive's base salary for a period of 24 months after the termination date, (c) (except in the case of Dr. Medel) on the first and second anniversaries of the termination date, pay the executive an amount equal to the greater of his average annual performance bonus or his bonus for the year immediately preceding his termination, and (d) pay the executive a pro rata portion of the bonus he would have received for the year in which his employment terminates. For this purpose, average annual performance bonus means the executive's base salary multiplied by a percentage equal to the average of the percentages that the performance bonuses paid to the executive for the three full calendar years prior to the termination bear to the executive's base salary for the calendar year for which the performance bonus relates. If the termination is due to a Change in Control, then the performance bonuses referred to in (c) above would be paid to the executive in a lump sum within 90 days of the termination date. For purposes of this definition, Good Reason will not be deemed to exist unless the executive provides the Company with written notice of the existence of such condition within 90 days after the initial existence of the condition and the Company fails to remedy the condition within 30 days after its receipt of such notice. Dr. Medel's Employment Agreement does not provide for cash payments beyond the termination date in the circumstances described above. Instead, Dr. Medel's Deferred Grants vest or continue to vest under those circumstances provided that, in certain instances, the Performance Vesting Threshold has been met. For a more detailed discussion, see the section entitled Restricted Stock in the Compensation Discussion and Analysis and Vesting of Equity Awards below.

The Employment Agreement for each named executive officer defines Good Reason to mean (i) a material diminution in the executive's base salary or performance bonus eligibility; (ii) a material diminution in the executive's authority, duties, or responsibilities; (iii) a material diminution in the authority, duties or responsibilities of the supervisor to whom the executive is required to report, including, in the case of the Chief Executive Officer, a requirement that Dr. Medel report to a corporate officer or employee instead of reporting

Table of Contents

directly to the Board of Directors of the Company; (iv) a material diminution in the budget over which the executive retains authority; (v) a material change in the geographic location at which the executive must perform the services under his Employment Agreement; or (vi) any other action or inaction that constitutes a material breach by the Company under his Employment Agreement.

The term "Change in Control" is defined in each executive's Employment Agreement to mean (i) the acquisition by a person or an entity or a group of persons and entities, directly or indirectly, of more than 50% of the Company's common stock in a single transaction or a series of transactions (hereinafter referred to as a "50% Change in Control"); (ii) a merger or other form of corporate reorganization resulting in an actual or *de facto* 50% Change in Control; or (iii) the failure of Applicable Directors to constitute a majority of the Company's Board of Directors during any two (2) consecutive year period after the date of each of the executive's Employment Agreement (the "Two-Year Period"). "Applicable Directors" means those individuals who are members of the Company's Board of Directors at the inception of the Two-Year Period and any new Director whose election to the Board of Directors or nomination for election to the Board of Directors was approved (prior to any vote thereon by the shareholders) by a vote of at least two-thirds of the Directors then still in office who either were Directors at the beginning of the Two-Year Period at issue or whose election or nomination for election during such Two-Year Period was previously approved as provided in this sentence.

Termination by Executive. An executive may terminate his employment, other than for Good Reason or due to a Change in Control, upon 90 days' notice to the Company. In such event, the Company will continue to pay the executive his base salary through the termination date, and if in connection with such termination the executive gives sufficient notice and executes a general release of the Company, then the Company will pay the executive a pro rata portion of the bonus that the executive would have received had his employment not terminated (as determined in accordance with his Employment Agreement). In addition, the Company will reimburse the executive for any reasonable business expenses incurred through the date of termination. If the Company specifies a termination date that is less than 90 days after the Company's receipt of written notice of such termination from the executive, then the Company will continue to pay to the executive his base salary for a period ending on such 90th day.

Employment Transition and Severance Agreement. If the Company so requests within five business days following a termination of the executive's employment by reason of the executive's Disability, termination by the Company without Cause, termination by the executive due to Poor Health, or termination by the executive for Good Reason, then the executive will continue to be employed by the Company on a part time basis for a period (the "transition period") to be determined by the Company of up to 90 days, unless extended by mutual agreement. During this transition period, the executive is required to perform such services as may reasonably be required for the transition to others of matters previously within the executive's responsibilities. Unless otherwise mutually agreed, the executive will not be required to serve more than five days per month during the transition period. For services during the transition period, the executive will be compensated at a daily rate equal to his base salary immediately prior to the termination of his employment divided by 365.

Continuation of Group Health Coverage. The Employment Agreement for each of the named executive officers also provides for the continuation in any self-insured, group health plan sponsored by the Company as if the executive were still an employee of the Company during any severance period or transition period. For this purpose, "severance period" means the period after the termination date during which the executive continues to receive base salary payments following the termination of employment as described above. In addition, upon termination of the executive's employment for any reason (in the case of Dr. Medel or, in the case of the other executives for any reason other than Cause) and only if the executive and his eligible dependants first irrevocably decline any continuation coverage provided pursuant to the applicable provisions in the Employee Retirement Income Security Act of 1974, the executive and his eligible dependants will be entitled to elect to continue in any self-insured, group health plan sponsored by the Company as if the executive were still an employee of the Company (the "Enhanced Coverage"), during a period of five years following the later of the termination date, the end of the severance period or the end of the transition period. In its sole discretion, the Company may

Table of Contents

provide health care insurance to the executive and his eligible dependants through one or several insurance carriers selected by the Company in lieu of the Enhanced Coverage (the Alternate Enhanced Coverage), provided the coverage is substantially comparable. The executive will pay the full cost of the Enhanced Coverage or the cost of the Alternate Enhanced Coverage, up to the cost of the plan for such period of coverage for similarly situated employees and covered beneficiaries.

Payments in the Event of a Change in Control. Each Employment Agreement for the named executive officers requires the Company to increase or gross-up any amounts payable to an executive that are contingent upon a Change in Control by an amount that will reimburse the executive, on an after-tax basis, for any excise tax imposed under Section 4999 of the Code, on any amounts that are deemed to be excess parachute payments, and for any interest or penalties incurred by an executive with respect to any such excise tax.

Vesting of Equity Awards. Each Employment Agreement provides that all unvested stock options, stock appreciation rights, restricted stock and other stock based awards granted to an executive by the Company (other than Dr. Medel's Deferred Grants) will continue to vest until fully vested following the termination of an executive's employment due to Disability, death, termination without Cause, Poor Health or Good Reason. In addition, in the event of a Change in Control, such awards will automatically vest and, in the cases of stock options and stock appreciation rights, become immediately exercisable. In the case of Dr. Medel's Deferred Grants, however, they will continue to vest in accordance with their terms if Dr. Medel's employment is terminated by him for Good Reason. If Dr. Medel incurs a Disability or if his employment is terminated due to death, then the Deferred Grants will vest immediately. In addition, if Dr. Medel's employment is terminated by the Company without Cause they will continue to vest in accordance with their terms, provided, that if such termination occurs after the Performance Vesting Threshold has been met, then the Deferred Grants will vest on the date of such termination. The Deferred Grants will also continue to vest in accordance with their terms if Dr. Medel's employment is terminated due to a Change in Control, provided, that if he terminates his employment within one year after such Change in Control, then the Deferred Grants will vest on such termination.

Payments of Unused Leave Time. In accordance with the Company's Paid Time Off policies, an executive will be paid any earned but unused paid time off upon termination. This payment will occur in all termination events. In addition to the leave time that the executive accrues in any year, such executive may carry forward fifteen days of leave time from the prior year; therefore, the maximum payout upon termination for each executive would be the value of such executive's contracted annual leave time plus fifteen carry-over days.

Restrictive Covenants. Pursuant to his Employment Agreement, each executive officer is subject to certain restrictive covenants that survive termination of employment. If the executive fails to comply with any of those restrictive covenants, he will not be entitled to receive any further payments or benefits as a result of the termination of his employment (other than his base salary through the date of termination and reimbursement of any reasonable business expenses incurred through the date of termination.) In addition, the Company then will have the right to terminate without advance notice any future payments and benefits of every kind that otherwise would be due to the executive on account of his termination of employment.

Table of Contents

The following tables illustrate the payments and benefits that each of Dr. Medel and Messrs. Calabro, Wagner and Hawkins would have received under his Employment Agreement if his employment with the Company had terminated for any of the reasons described above on December 31, 2008. The amounts presented in the tables, reflect compensation (including equity ownership) at such year end, are estimates only and do not necessarily reflect the actual value of the payments and other benefits that would be received by the named executive officers, which would only be known at the time that employment actually terminates.

(1) Cash severance includes: (i) in the case of a termination by the executive without Good Reason, base salary through the date of termination, the actual performance bonus, on a pro rata basis, that would have been payable to executive for the fiscal year, as set forth in the Summary Compensation Table, if executive had not been terminated so long as executive gives sufficient notice and executes a general release of Company and a reimbursement for any reasonable business expenses incurred through the date of termination, (ii) in the case of termination by the Company without Cause or by the executive for Good Reason or due to Change in Control, (a) continuation of base salary through the termination date, plus any reimbursement owed to the executive for any reasonable business expenses incurred through the date of termination, (b) (except in the case of Dr. Medel) continuation of base salary for 24 months after the termination date, (c) (except in the case of Dr. Medel) on the first and second anniversaries of the termination date, the greater of the executive's average annual performance bonus (as defined in the executive's Employment Agreement) or his prior year's bonus (this amount is paid as a lump sum within 90 days of the termination date if the termination is in connection with a Change in Control) and (d) the actual performance bonus, on a pro rata basis, that would have been payable to executive for the fiscal year if executive had not been terminated, (iii) in the case of termination by the Company on account of the executive's Disability, continuation of base salary for a period of 12 months after the termination date and the actual performance bonus, on a pro rata basis, that would have been payable to executive for the fiscal year if executive had not been terminated, and (iv) in the case of termination by the executive due to executive's Poor Health or death, the executive's base salary through the termination date, the actual performance bonus, on a pro rata basis, that would have been payable to executive for the fiscal year if executive had not been terminated and a reimbursement for any reasonable business expenses incurred through the date of termination.

(2) This amount reflects the value of each of the executive's unvested restricted and deferred shares as of December 31, 2008 that would become vested if a specified termination event had occurred on December 31, 2008. There is no intrinsic value for unvested options that would become vested as a result of a specified termination event because the exercise prices of such options exceed the closing price of a share of the Company's common stock on December 31, 2008. In the case of a Change in Control, this accelerated vesting will occur whether or not the executive's employment is terminated; however, see footnote 5 below.

Edgar Filing: MEDNAX, INC. - Form DEF 14A

(3) If both a Change in Control occurred and the executive's employment terminated on December 31, 2008, and the executive received the estimated payments shown in the Change in Control column of this table on that date, those payments would not have resulted in any excess parachute payment under Section 280G of the Code and thus no gross-up payments would have been required with respect

Table of Contents

to those payments. Whether or not a payment will constitute an excess parachute payment, however, depends not only upon the value of the payments that are contingent upon a Change in Control but also upon the average of an executive's W-2 compensation for the five years immediately prior to the year in which the Change in Control occurs. Thus, facts and circumstances at the time of any Change in Control and termination thereafter, as well as changes in the executive's compensation history preceding the Change in Control, could materially impact whether and to what extent any excise tax would be imposed and therefore the amount of any gross-up payment.

(4) If the executive is terminated for Cause then the Company will continue to pay the executive his base salary through the termination date plus reimbursement for any reasonable business expenses incurred through the date of termination.

(5) For specified termination events, this amount includes the 100,000 shares of Deferred Stock under the Deferred Grants in connection with the execution of Dr. Medel's Employment Agreement dated August 20, 2008. The Deferred Grants are subject to performance based vesting requirements that will cause their forfeiture unless the Company's net patient service revenues for any four consecutive quarters that elapse during the period commencing on October 1, 2008 and ending on the fifth anniversary of the date of grant equal or exceed \$1,050,000,000 (the Performance Vesting Threshold). The Deferred Grants will continue to vest in accordance with their terms if Dr. Medel's employment is terminated by him for Good Reason. If Dr. Medel incurs a Disability or if his employment is terminated due to death, then the Deferred Grants will vest immediately. In addition, if Dr. Medel's employment is terminated by the Company without Cause they will continue to vest in accordance with their terms, provided that if such termination occurs after the Performance Vesting Threshold has been met, then the Deferred Grants will vest on the date of such termination. The Deferred Grants will also continue to vest in accordance with their terms if Dr. Medel's employment is terminated due to a Change in Control, provided, that if he terminates his employment within one year after such Change in Control, then the Deferred Grants will vest on such termination. Deferred Stock has been excluded from each triggering event that does not cause vesting notwithstanding that the Performance Vesting Threshold has not yet been achieved.

(6) If Dr. Medel's employment is terminated for any reason, the Company will reimburse Dr. Medel for mutually agreed upon lease space and reasonable wages to an administrative assistant for two years from his date of termination. This amount represents the approximate cost of lease space and reasonable wages to an administrative assistant for two years.

Table of Contents**DIRECTOR COMPENSATION**

In 2008, each non-employee Director received the following: (i) an annual retainer fee of \$50,000, payable quarterly, (ii) an annual fee of \$7,500 for attendance at meetings, payable quarterly, (iii) an additional retainer fee of \$50,000, payable quarterly, for the Chairman of the Board of Directors, (iv) an additional retainer fee of \$20,000, payable quarterly, for the chair of the Audit Committee, and (v) an additional retainer fee of \$10,000 per committee, payable quarterly, for the chair of any committee of the Board of Directors other than the Audit Committee. In addition, it is MEDNAX's policy to award annually (on the date of each annual shareholders' meeting) to each non-employee Director options vesting in three equal annual installments over a three-year period commencing on the anniversary of the date of grant to purchase 5,334 shares of our common stock at an exercise price equal to the closing price of a share of our common stock on the New York Stock Exchange on the date of grant.

It is MEDNAX's policy to award each non-employee Director upon his or her initial appointment to the Board of Directors an option to purchase 13,334 shares of our common stock effective on the date of such non-employee Director's appointment, at an exercise price equal to the closing price of a share of our common stock on the New York Stock Exchange on the date of grant with a three-year vesting period. We grant stock options to purchase our common stock to our Directors because we believe that it helps foster a long-term perspective and aligns our Directors' interests with that of our shareholders. MEDNAX also reimburses all of its Directors for out-of-pocket expenses incurred in connection with the rendering of services as a Director.

(1) This table includes all non-employee Directors who served as directors in 2008. Compensation for Dr. Medel is disclosed in the Summary Compensation Table. Dr. Medel does not earn additional income for his service as a Director.

(2) This column reports the amount of cash compensation earned in 2008 for Board and committee service.

(3) This column represents the dollar amount of compensation expense, excluding the impact of estimated forfeitures, recognized in our financial statements for the 2008 fiscal year in accordance with SFAS 123(R). Under SFAS 123(R), the compensation expense related to stock option grants is based on grant date fair value and allocated over the corresponding vesting periods. The amounts reflected include compensation expense related to grants with vesting in 2008, including grants awarded prior to 2008. The options awarded to Ms. Garcia upon her appointment in November 2008 had a fair value of \$10.35 per share, based on assumptions of 4.5 years expected life, 29% expected volatility and a risk free interest rate of 2.6%. The following Directors had outstanding option awards at the 2008 fiscal year end for the following number of shares of our common stock: Mr. Alvarez (76,022), Dr. Carlo (56,002), Mr. Fernandez (14,224), Dr. Freeman (40,002), Mr. Gabos (60,002), Ms. Garcia (13,334), Dr. Goldschmidt (30,668), Mr. Kadre (21,255) and Mr. Sosa (44,002).

Table of Contents**SHARE OWNERSHIP INFORMATION****Section 16(a) Beneficial Ownership Reporting Compliance**

Section 16(a) of the Exchange Act requires MEDNAX's executive officers and Directors, and persons who own more than 10% of our common stock, to file with the Securities and Exchange Commission reports of ownership and changes in ownership of our common stock. Our executive officers, Directors and greater than 10% shareholders are also required by rules promulgated by the Securities and Exchange Commission to furnish MEDNAX with copies of all Section 16(a) forms they file.

Based solely on a review of the copies of such reports furnished to MEDNAX, the absence of a Form 3, 4 or 5, or representations from certain reporting persons that no Forms 5 were required, MEDNAX believes that all Section 16(a) filing requirements applicable to its officers, Directors and greater than 10% beneficial owners were complied with during the fiscal year ended December 31, 2008.
