Item 1.01. Entry into a Material Definitive Agreement.

On October 30, 2009, Anthracite Capital, Inc. (the Company) entered into an Exchange Agreement (the Agreement) with Kodiak CDO I, Ltd., Kodiak CDO II, Ltd., Attentus CDO III, Ltd. and Taberna Preferred Funding IX, Ltd. (collectively, the Holders), pursuant to which the Company agreed to issue unsecured senior notes of the Company in exchange for \$64.5 million aggregate principal amount of the Company s unsecured senior notes beneficially owned by such Holders.

Pursuant to the Agreement, on October 30, 2009, the Company issued (i) \$43.5 million aggregate principal amount of new unsecured senior notes in exchange for \$36.25 million aggregate principal amount of its 7.22% Senior Notes due 2016, (ii) \$7.5 million aggregate principal amount of new unsecured senior notes in exchange for \$6.25 million aggregate principal amount of its 7.20% Senior Notes due 2016, and (iii) \$26.4 million aggregate principal amount of new unsecured senior notes in exchange for \$22 million aggregate principal amount of its 7.772%-to-floating rate Senior Notes due 2017. The Agreement contains customary representations, warranties and covenants.

The new notes were issued under the (i) the Indenture, dated as of October 30, 2009, between the Company and Wells Fargo Bank, N.A., as trustee, relating to the issuance of \$43,500,000 aggregate principal amount of Senior Notes, (ii) the Indenture, dated as of October 30, 2009, between the Company and Wells Fargo Bank, N.A., as trustee, relating to the issuance of \$7,500,000 aggregate principal amount of Senior Notes, and (iii) the Indenture, dated as of October 30, 2009, between the Company and Wilmington Trust Company, as trustee, relating to the issuance of \$26,400,000 aggregate principal amount of Senior Notes (collectively, the Indentures).

Pursuant to the respective Indentures, the new notes bear a fixed interest rate of 1.25% per year until the earlier of (i) October 30, 2013 and (ii) the date on which the outstanding aggregate principal amount of senior secured loans under the Company s senior secured credit facilities with Bank of America, Deutsche Bank and Morgan Stanley is less than or equal to \$4,000,000 (the Modification Period). After the Modification Period, the new notes bear interest at the same rates as the securities for which they were exchanged. During the Modification Period, the Company will be subject to limitations on its ability (i) to pay cash dividends on shares of its common stock or preferred stock or redeem, purchase or acquire any equity interests and (ii) to create, incur, issue or otherwise become liable for new debt other than trade debt or similar debt incurred in the ordinary course of business and debt in exchange for or to provide the funds necessary to repurchase, redeem, refinance or satisfy the Company s existing secured and senior unsecured debt. In addition, during the Modification Period, the cure period for a default in the payment of interest when due is three days. The new notes otherwise generally have the same terms, including maturity dates and capital structure priority, as the securities for which they were exchanged.

Pursuant to the Agreement, the Company paid a transaction fee of approximately \$323,000 and third-party fees and costs incurred in connection with the exchanges of approximately \$253,000.

The foregoing summary does not describe all of the terms contained in the aforementioned agreements and is qualified in its entirety by reference to the full text of the Agreement and the Indentures, copies of which are filed as Exhibits 10.1, 4.1, 4.2 and 4.3 hereto, respectively, and are incorporated by reference herein.
