PROXY STATEMENT

April 19, 2010

The Board of Directors (the **Board** or **Board of Directors**) of Global Defense Technology & Systems, Inc. (the **Company**) is soliciting your proxy to vote on matters that will be presented at our 2010 Annual Meeting of Stockholders (the **Annual Meeting**). The Annual Meeting will be held at 10:00 am on Thursday, June 10, 2010 at the Courtyard by Marriott Tysons Corner Hotel located at 1960-A Chain Bridge Road, McLean, VA 22102. This proxy statement, the accompanying proxy card and our 2009 Annual Report to Stockholders, which includes our Annual Report on Form 10-K for the year ended December 31, 2009, are being mailed to our registered stockholders on or about April 29, 2010. These materials will assist you in voting your shares by providing information on matters that will be presented at the Annual Meeting.

ABOUT THE ANNUAL MEETING

Why am I receiving these materials?

You are receiving these materials because you owned our common shares of beneficial interest (**Shares**) as a registered stockholder or you held Shares in street name at the close of business on the record date for the Annual Meeting.

What is the difference between a registered stockholder and holding Shares in street name?

If your Shares are registered directly in your name with American Stock Transfer and Trust Company, our transfer agent, you are a registered stockholder. If you own Shares through a broker, bank, trust or other nominee rather than in your own name, you are the beneficial owner of the Shares, but considered to be holding the Shares in street name. If you are not a registered stockholder, please understand that the Company does not know that you are a stockholder, or how many shares you own.

What is the record date for the Annual Meeting?

The Board established April 19, 2010 as the record date for the Annual Meeting. Registered stockholders who owned our Shares and each stockholder who holds stock in street name at the close of business on that date are entitled to receive notice of and to vote at the Annual Meeting or any postponements or adjournments of the meeting. We had 9,071,812 Shares outstanding and entitled to vote on April 19, 2010.

What is a quorum?

A quorum is required for our stockholders to conduct business at the Annual Meeting. A quorum occurs when a majority of the Shares entitled to vote at the Annual Meeting are present in person or by proxy. Properly executed proxy cards marked **for**, **against** or **abstain** and broker **non-votes** will be counted as present at the Annual Meeting for purposes of determining a quorum.

What is a proxy?

A proxy is your legal designation of another person (the **proxy**) to vote your Shares on your behalf. By completing and returning the enclosed proxy card, you are giving John Hillen, our Chief Executive Officer, the authority to vote your Shares in the manner you indicate on your proxy card.

Table of Contents

Why did I receive more than one proxy card?

You will receive multiple proxy cards if you hold your Shares in different ways (e.g., joint tenancy, trusts, custodial accounts) or in multiple accounts. You should vote and sign each proxy card you receive.

How do I vote my Shares?

If you are a registered stockholder, you may vote your Shares in person at the Annual Meeting or you may vote:

by mailing the enclosed proxy card in the envelope provided;

over the telephone (1-800-690-6903); or

electronically through the Internet at www.proxyvote.com.

Please refer to the specific instructions on the enclosed proxy card. For security reasons, our electronic voting system has been designed to authenticate your identity as a stockholder. Telephone and internet services for all stockholders will be available 24 hours a day and will close at 11:59 pm ET on June 9, 2010.

If you hold your Shares in street name and wish to vote the Shares in person at the Annual Meeting, you must obtain a proxy form from the broker, bank, trust or nominee that is the record holder of your Shares and bring it with you to the Annual Meeting. Alternatively, you may vote your Shares held in street name without attending the Annual Meeting by following the voting instructions provided to you by your broker, bank, trust or nominee.

What are broker non-votes?

A broker non-vote occurs when a broker or other intermediary submits a proxy card indicating that instructions have not been received from the beneficial owners or the persons entitled to vote and that such broker or other intermediary does not have discretionary authority to vote such shares. Broker non-votes will not be treated as present and entitled to vote for purposes of determining the approval of the related proposal.

What vote is required to approve the matters to be presented at the Annual Meeting?

For the election of directors, a nominee receiving a plurality of the votes of the shares entitled to vote on the election of a director and voted in favor thereof will be elected. As a result, the seven director nominees that receive the most votes will be elected. Broker non-votes will not be counted as votes for or against any director nominee.

For the ratification of the appointment of the independent registered public accounting firm, the affirmative vote of the stockholders present, in person or by proxy, entitled to cast at least a majority of the votes which all stockholders present are entitled to vote on the matter shall be required. As a result, abstentions will be treated as votes against the proposal and broker non-votes will have no effect on the voting results.

How will my Shares be voted if I do not specify how they should be voted?

If you are a registered stockholder and you sign and return your proxy card without indicating how you want your Shares to be voted, John Hillen, our Chief Executive Officer, will vote your Shares as follows:

- | | |
|---------|---|
| Item 1: | FOR the election of each of the Directors to serve until our 2011 Annual Meeting |
| Item 2: | FOR the ratification of the appointment of PricewaterhouseCoopers LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2010 |

Table of Contents

If you own Shares in street name, you must give your broker, bank, trust or nominee specific instructions on how to vote your Shares with respect to the election of directors, but not the ratification of the independent registered public accounting firm. If you fail to give your broker, bank, trust or nominee specific instructions on how to vote your Shares on the election of directors, your vote will NOT be counted for this proposal. It is important for every stockholder's vote to be counted on these matters, so we encourage you to be sure to provide your broker, bank, trust or nominee with voting instructions. Although certain rules permitted brokers, banks, trusts and nominees to cast votes for the election of directors even without specific instructions, beginning in 2010 this is no longer the case.

How many votes do I have?

As to each item, you are entitled to cast one vote per Share. The proxy card indicates the number of Shares you owned on the record date.

May I change my vote after I return my proxy card?

Yes. A proxy may be revoked by a registered stockholder any time before it is exercised at the Annual Meeting by submitting a proxy bearing a later date or by voting in person at the Annual Meeting. If you hold your Shares in street name, you must contact your broker or other nominee to determine how to revoke your original proxy. In general, submitting a subsequent proxy executed by the party that executed the original proxy will revoke the earlier proxy.

How may I elect to receive future stockholder materials electronically instead of by mail?

We are permitted to deliver stockholder materials, including proxy statements and annual reports, to you by Internet access or electronic delivery rather than by mail if you so choose. Electronic delivery of materials can help us achieve a substantial reduction in our printing and mailing costs, and it is environmentally friendly. Stockholders who would like to receive proxy materials by electronic delivery will receive an email containing the proxy materials and the annual report to stockholders. Registered stockholders may register to do so on American Stock Transfer & Trust Company's website at www.amstock.com. If you own Shares in street name, you must contact your broker, bank trust or nominee for instructions on how to receive future proxy materials electronically. Stockholders who hold Shares in different ways (e.g., joint tenancy, trusts, custodial accounts) or in multiple accounts will need to complete this process for each account. Your election to receive your proxy materials electronically will remain in effect for all future annual meetings until you revoke it.

Table of Contents**SHARE OWNERSHIP****Who are the largest owners of Shares?**

Based upon our records and the information reported in filings with the Securities and Exchange Commission (SEC), the following were beneficial owners of more than 5% of our Shares as of April 19, 2010:

Neuberger Berman Group LLC or its affiliated persons do not, however, have any economic interest in the securities of those clients. The clients are the actual owners of the securities and have the sole right to receive and the power to direct the receipt of dividends from or proceeds from the sale of such securities. No one client has an interest of more than 5% of the Company.

How many Shares do our Directors and executive officers own?

As of April 19, 2010, our Directors and executive officers, both individually and collectively, beneficially owned the Shares reflected in the table below. The number of Shares shown in this table reflects beneficial ownership determined in accordance with Rule 13d-3 of the Securities Exchange Act of 1934, as amended (the Exchange Act) and, therefore, includes Shares that have not been issued but as to which options are outstanding and may be exercised within 60 days of the date of this proxy statement. CORPORATE GOVERNANCE

Independence of Directors

In April 2010, our Board of Directors undertook a review of the independence of each Director and considered whether any Director had a material relationship with us that could compromise his ability to exercise independent judgment in carrying out his responsibilities. Upon the unanimous recommendation of the Nominating and Corporate Governance Committee, the Board determined, with respect to Messrs. Wilson and Devine, who serve on the Board of Directors of one of the Company's affiliates, Global Strategies Group (Integrated Security) Inc. (GIS), that service on the Board of GIS does not interfere with their ability to exercise independent judgment with respect to carrying out their duties as a member of our Board of Directors and that any amounts received in connection with service on the GIS board do not represent a material portion of their annual income. As a result of this review, upon the unanimous recommendation of the Nominating and Corporate Governance Committee, our Board of Directors has determined that all of our Directors, other than Dr. Hillen and Messrs. Jones and Perl, are independent directors and meet the independence requirements under SEC rules and the listing standards of The Nasdaq Global Market.

Board of Directors and Board Committees

Board of Directors:

During 2009, the Board of Directors held six meetings. Our corporate governance guidelines, which are available at investor.gtec-inc.com, provide that it is the responsibility of each member of the Board of Directors to make himself or herself available to attend, on a consistent basis, scheduled and special meetings of the Board of Directors and of the committee(s) of which he or she is a member, as well as the annual meeting of stockholders. The Board of Directors believes that individual Board members should attend, at a minimum and absent a valid basis for unavailability, 75% or more of the aggregate of the meetings of the Board and of the committees on which he or she serves. All Directors attended at least 89% of the meetings, except for Mr. Perl. Mr. Perl was unable to attend two of the five board meetings held since his appointment to the Board on April 30, 2009 due to scheduling conflicts.

Our Board of Directors has established an Audit Committee, a Compensation Committee and a Nominating and Corporate Governance Committee. Our Board of Directors has determined that each of the members of these committees shall be independent under the applicable SEC rules and the listing standards of The Nasdaq Global Market. In addition, each member of the Compensation Committee shall be a non-employee director as defined in Rule 16b-3 under the Exchange Act and an outside director as that term is defined in Section 162(m) of the Internal Revenue Code of 1986 (the "Code"). We also have established a Government Security Committee.

Nominating and Corporate Governance Committee

The Nominating and Corporate Governance Committee consists of Messrs. Devine and Wilson and Dr. Gansler, all of whom were appointed in 2009, with Dr. Gansler serving as Chairman. The committee operates under a charter, which is available at *investor.gtec-inc.com*. The Nominating and Corporate Governance Committee assists our Board of Directors in promoting our best interests and the best interests of our stockholders through the implementation of sound corporate governance principles and practices. The specific responsibilities of our Nominating and Corporate Governance Committee include:

identifying, reviewing, evaluating and recommending for selection candidates for membership to our Board of Directors;

reviewing, evaluating and considering the recommendation for nomination of incumbent members of our board of directors for reelection to our Board of Directors and monitoring the size of our Board of Directors;

evaluating nominations by stockholders of candidates for election to our Board of Directors;

determining adherence to our corporate governance documents.

Audit Committee

The Audit Committee consists of Messrs. Devine, Rangen and Wilson, all of whom were appointed in 2009. Because the Audit Committee was established as of the date of our initial public offering, which closed on November 25, 2009, the committee did not meet during 2009. The first Audit Committee meeting was held in January 2010. Mr. Rangen acts as Chairman of the Committee and, in the judgment of the Board, qualifies as an audit committee financial expert as defined in the Exchange Act. The committee operates under a charter, which is available at *investor.gtec-inc.com*.

The Audit Committee discharges the responsibilities of our Board of Directors in monitoring our accounting, financial and other reporting and internal control practices and oversees our independent registered public accounting firm. Specific responsibilities of our Audit Committee include:

reviewing and discussing with management and our independent registered public accounting firm the results of the annual audit and the independent registered public accounting firm's review of our quarterly financial statements and annual and quarterly reports;

establishing procedures for the receipt, retention and treatment of any complaints we receive regarding accounting, internal control or auditing matters.

Compensation Committee

From January 1 through November 24, 2009, the date preceding the closing of our initial public offering, the Compensation Committee consisted of Messrs. Hillen, Jones and Wilson, with Mr. Wilson serving as Chairperson. The committee met three times during that period. As of November 25, 2009, the closing date of our initial public offering, the Compensation Committee consists of Messrs. Wilson and Rangen and Dr. Gansler, with Mr. Wilson serving as Chairperson. The Compensation Committee met two times between November 25, 2009 and December 31, 2009 and operates under a charter, which is available at investor.gtec-inc.com. The Compensation Committee discharges the responsibilities of our Board of Directors in overseeing our compensation policies, plans and programs and reviews and determines the compensation to be paid to our executive officers and other senior management. Specific responsibilities of our Compensation Committee include:

determining the compensation and other terms of employment of our executive officers and reviewing and approving corporate performance goals and objectives relevant to such compensation;

evaluating and recommending to our board of directors the compensation plans and programs advisable for us, and evaluating and recommending the modification or termination of existing plans and programs; and

reviewing and approving the terms of any employment agreements, severance arrangements, change in control protections and any other compensatory arrangements for our executive officers.

Government Security Committee

Pursuant to our Special Security Agreement (the "SSA") with the Department of Defense, the Government Security Committee, which consists of Messrs. Wilson, Devine, Jones and Rangen and Drs. Hillen and Gansler, ensures that, throughout the duration of the SSA, we implement and maintain policies and procedures to safeguard classified information and controlled unclassified information in our possession and that we comply with the SSA, appropriate customer contract provisions regarding security, U.S. government export control laws and regulations and the National Industrial Security Program. The Chairman of the Government Security Committee is Mr. Devine, and he has designated Dr. Gansler to be Secretary of the committee. The committee meets, at a minimum, quarterly.

Identifying Individuals to Stand for Election as Directors

In selecting the candidates to nominate for election as directors, the Board's principal qualification is whether an individual has the ability to act in the best interests of the Company and its stockholders. Our corporate governance guidelines provide that the Nominating and Corporate Governance Committee shall endeavor to identify and will nominate individuals to serve on the Board of Directors who have expertise that is useful to the Company and complementary to the background, skills and experience of the other members of the Board of Directors. The Nominating and Corporate Governance Committee's assessment of the composition of

Table of Contents

the Board of Directors shall include the following considerations: (a) the skills of each member of the Board of Directors, which shall include an analysis of each director's business and management experience, information technology and government contractor industry experience, professional services experience, accounting experience, finance and capital markets experience, and level of understanding of corporate governance regulations and public policy matters, (b) the characteristics of each member of the Board of Directors, which shall include an analysis of each director's ethical and moral standards, leadership abilities, sound business judgment, independence and innovative thought, and (c) the general composition of the Board of Directors, which shall include an analysis of the diversity, age and public company experience of the directors.

See the section of this proxy statement entitled "2011 ANNUAL MEETING OF STOCKHOLDERS" for a description of how stockholders desiring to make nominations for directors and/or to bring a proper subject before a meeting should do so. The Nominating and Corporate Governance Committee evaluates director candidates recommended by stockholders in the same manner as it evaluates director candidates recommended by our directors, management or employees.

The Company does not pay any third parties to assist in the solicitation, selection or evaluation of director candidates.

Board Leadership Structure

Our Board of Directors operates under a governance structure where the Chairman of the Board and Chief Executive Officer are separate positions held by different individuals. Having the Board operate under the leadership and direction of someone independent from management provides the Board with the most appropriate mechanism to fulfill its oversight responsibilities and hold management accountable for the performance of the company. The Board believes that one of the most important attributes for the Board is independence from management and that belief has been reflected in the separation of the chairman and CEO roles.

Risk Management Oversight

Much attention has recently been given to the subject of risk and how companies assess and manage risks. Senior management is responsible for assessing and managing the Company's various exposures to risk on a day-to-day basis, including the creation of appropriate risk management programs and policies. The Board is responsible for overseeing management in the execution of its responsibilities and for assessing the Company's approach to risk management. Although our Board has delegated to our Audit Committee responsibility for overseeing our risks and exposures on an ongoing basis, the entire Board receives regular updates from management on the continued viability of our business plan, market conditions, capital position, and our business results. The Board reviews that information together with our quarterly and annual financial statements and short and long-term business prospects to assess the risks that we may encounter and to establish appropriate direction to avoid or minimize the potential impact of the identified risks. Some of the details that are discussed as part of the Board's review of potential risks facing us include, without limitation: (a) the impact of market conditions on our business; (b) liquidity and credit risks, including our ability to access capital to run and grow our business and our overall cost of capital and the impact on our profitability; (c) investment risks related to possible acquisitions; (d) regulatory risks that may impact our profitability; and (e) general risks inherent in our industry. As a result, the Board's role in risk oversight of the Company is consistent with the Company's leadership structure, with the CEO's and other members of senior management's having responsibility for assessing and managing the Company's risk exposure and the Board and its committees providing oversight in connection with those efforts.

Table of Contents**ITEM 1****ELECTION OF DIRECTORS****Composition of the Board**

Our Board of Directors has seven Directors. We operate under a Special Security Agreement (SSA) with the Department of Defense that imposes limits on the structure of our Board. The SSA is required for us to perform certain work we do with the U.S. government because a substantial amount of our voting equity is beneficially owned by a non-U.S. entity. The purposes of the SSA are to insulate the Company from undue Foreign Ownership Control and Influence (FOCI) and to permit us, despite our foreign ownership, to maintain security clearances that are required to perform work on classified contracts. The key elements of the SSA are that it:

imposes substantial industrial security and export control measures within an institutionalized set of corporate practices and procedures;

requires active involvement of senior management (referred to as Officer/Directors) and certain board members (referred to as Outside Directors) in security matters (all of whom must be U.S. citizens and must eligible to have personal security clearances at the level of the Company's facility security clearance);

provides for the establishment of a government security committee (consisting of cleared Officer/Directors and Outside Directors) to oversee classified and export controlled matters; and

preserves the foreign indirect stockholder's right to be represented on our Board of Directors, as an Inside Director, with a direct voice in the business management of the Company while denying unauthorized (i) access to classified or export controlled information, and (ii) influence over the Company's business or management in a manner which could result in the compromise of classified information or could adversely affect the performance of classified contracts.

Under the SSA and our Bylaws, our Board must be composed of a minimum of three Outside Directors, one or more representatives of our former indirect parent company and our largest beneficial stockholder, GLOBAL, and one or more Officer/Directors. The slate of the nominees for Director this year complies with these restrictions.

The Board, on recommendation of the Nominating and Corporate Governance Committee, approved the nomination of the following seven individuals, all of whom are currently serving on the Board, for election as Directors to hold office until the 2011 Annual Meeting of Stockholders and until their successors have been duly elected and qualified:

Name	Age	Position	Position (for SSA purposes)	Director Since

Ronald C. Jones	51	Executive Vice President, Corporate Development and Director	Officer/Director	March 2007
Damian Perl	41	Director	Inside Director	April 2009
Eric S. Rangen	53	Independent Director	Outside Director	November 2009

COMPENSATION DISCUSSION AND ANALYSIS

Overview of Our Executive Compensation Philosophy

Our compensation program and policies are designed to attract, motivate and retain executives of outstanding ability in order to achieve our full growth potential and maximize the return to our stockholders.

The primary objectives of our executive compensation program are to:

attract and retain talent;

provide total direct compensation opportunities that are competitive with opportunities provided to executives of comparable companies at comparable levels of performance;

ensure that our executives' total compensation levels are correlated to both our short-term and long-term financial performance in areas such as revenue, net income and operating efficiency, which we believe are then reflected in increased stockholder value over time;

focus and motivate executives on the achievement of objectives at the individual, business-unit and company-wide levels; and

reward executives in accordance with their relative contributions to achieving strategic milestones and advancing key mission-related objectives.

To achieve these objectives, the Compensation Committee has implemented compensation policies that tie a substantial portion of the executives' overall compensation to financial and operational goals such as growth in revenue and profit from year-to-year. These compensation policies may be summarized as follows:

Total compensation for executive officers is measured at the 50th-75th percentile of the median of local and nationally recognized survey data. Our survey information is discussed in more detail below. We believe this is necessary to attract outstanding executives.

The mix of total compensation elements reflects an appropriate balance between competitive market requirements and strategic business needs. We believe the opportunity for executives to receive additional compensation based upon achieving or exceeding established performance objectives properly aligns our equity programs and management's focus with the interests of our stockholders.

The short-term non-equity incentive compensation portion of total compensation, which we refer to as the Management Performance Incentive Plan, provides the opportunity to earn total cash compensation at the upper quartile of competitive pay based on outstanding corporate performance. Each executive is eligible to receive cash incentive payments based on achievement of specific performance measures. The amount awarded annually is determined by the Compensation Committee's review of the executive's achievement of such performance measures. As an executive's responsibility increases, the portion of his or her total compensation represented by incentive compensation payments increases.

Table of Contents

The long-term equity incentive compensation portion of each executive's annual compensation is linked to our overall performance with a goal of maximizing stockholder return.

Benefits are designed to be market competitive.

Compensation Committee Process

Our Compensation Committee meets at least twice a year to evaluate the performance of our executive officers and holds additional meetings as the Compensation Committee members deem appropriate. The Compensation Committee is responsible for adopting, administering and maintaining programs and plans involving stock incentives and executive bonuses and other similar compensation programs and any other compensation matters requested by the Board. In addition, the Compensation Committee is responsible for reviewing and approving the compensation of the Chief Executive Officer and the other executive officers. The Compensation Committee determines the amount of each element of our compensation program by taking into consideration the competitive landscape, executive's experience, results of operations, short and long term corporate goals and economic conditions.

In order to set compensation levels competitively, Management obtains market analysis information and executive compensation survey data obtained from nationally recognized survey providers, including Watson Wyatt Worldwide and Washington Technical Personnel Forum Market Pay Survey. Management and the Compensation Committee utilize the information obtained through this analysis, together with all other relevant materials, to make informed recommendations and decisions concerning both the composition of and the level of our executive compensation, and to assist in designing executive compensation plans and programs that are aligned with our corporate compensation philosophy. Executives are provided total compensation packages in the 50-75th percentile of the median of the compiled survey data.

At the request of our Chairperson, our Chief Executive Officer is invited to the Compensation Committee meetings as a guest of the committee to make recommendations to the Compensation Committee with respect to base salary increases, the setting of performance targets and the amounts of any short-term and long-term incentive compensation, and equity awards for our executive officers (other than himself). He provides the committee with feedback regarding the performance of our executive officers, including their contributions toward achieving our corporate performance goals. Our Chief Executive Officer and Vice President, Human Resources have worked, and are expected to continue to work, with the Compensation Committee to establish the agenda and prepare the materials for Compensation Committee meetings. Our Chief Executive Officer is not present for portions of Compensation Committee meetings that involve deliberations with respect to his own compensation. Our other officers may attend these meetings at the invitation of the Compensation Committee. The Compensation Committee believes input from management and outside advisors, as noted below, is valuable; however, the Compensation Committee makes all final compensation decisions based on independent analysis and assessment.

Elements of Executive Compensation

Our executive compensation program consists of the following components:

base salary, which is designed to allow us to attract and retain the most qualified candidates,

short-term non-equity incentive compensation (consisting of cash performance bonuses), which is designed to provide performance-based incentives to our executives for the achievement of important financial objectives, and

long-term equity incentive compensation (consisting of stock options and restricted stock awards), which are granted to incentivize executive performance that increases stockholder value.

Table of Contents

A detailed description of these components is provided below.

As a result, a majority of each executive officer's total annual compensation opportunity is at-risk and tied to our annual and long-term financial performance, as well as to the enhancement of stockholder value. We have measured the total direct compensation opportunities for executives with the goal of linking such opportunities to performance. Our executive compensation programs are intended to reward achievement of target financial performance with total direct compensation in the range of the 50th-75th percentile of the median of local and nationally recognized survey data. Most of our executives are provided compensation at the 50% median level. In the past, while not reducing salaries, we have reduced annual increases and bonuses for executive salaries in excess of the 50% median. Base salary is generally kept consistent with the market and reflects the complexity and scope of responsibilities for the executive.

Executive officers also receive competitive benefits.

Base Salary

We provide a fixed base salary to our executives to compensate them for services provided to us during the year. We utilize base salary as the primary means of providing compensation for performing the essential elements of an executive's job. We believe our base salaries are set at levels that allow us to attract and retain executives in competitive markets. Base salaries are reviewed annually with this objective in mind. For 2009, the Compensation Committee approved the following increases in base salary of our executives over 2008 base salaries:

Name	% Increase in Base Salary	2009 Base Salary
John Hillen President and Chief Executive Officer	0%	\$ 380,000
James P. Allen Executive Vice President and Chief Financial Officer	0%	\$ 300,000
Kevin Kissner Former Chief Financial Officer	4%	\$ 177,362
Ronald C. Jones Executive Vice President, Corporate Strategy and Development	0%	\$ 300,000
Alexander Drew President, Intelligence Solutions	15%	\$ 224,250(1)
Timothy Jones Senior Vice President and General Manager, Defense Engineering	19%	\$ 180,000(2)

- (1) Mr. Drew was promoted from Vice President, Intelligence and Analysis to President, Intelligence Solutions; therefore, 10% of the 15% increase reflects his promotion and related increase in responsibility.
- (2) In February 2009, Mr. T. Jones was promoted from Deputy General Manager, Defense Engineering to Vice President and General Manager, Defense Engineering; therefore, 14% of the 19% increase reflects his promotion and related increase in responsibility.

In general, base salaries for our named executive officers are initially established through arm's-length negotiation at the time the executive is hired, taking into account such executive's qualifications, experience and prior salary. Base salaries of our named executive officers are approved and reviewed annually by our Chief Executive Officer, and in the case of our Chief Executive Officer's base salary, by our Compensation Committee. Annual merit adjustments to base salaries are made to align base salary with an executive officer's responsibilities, individual contribution, prior experience and sustained performance. Performance evaluations are conducted annually to determine merit increases for all employees including executives. The performance evaluation includes the following 16 performance factors:

Attendance/Punctuality	Ability to Direct Activities of Others
Knowledge	Acceptance of Supervision/Criticism
Problem Solving and Creativity	Productivity/Efficiency
Judgment/Decision Making	Quality of Output
Planning and Organization	Effectiveness of Customer Relations
Flexibility and Adaptability	Company Identification
Ability to Work Independently	Written Expression
Ability to Work With Others	Oral Expression

The performance factors are graded from 1 to 5, with 5 being the highest or exceptional performance. The grading results determine an executive officer's eligibility for a merit increase. To be eligible for a merit increase, the executive officer must receive an acceptable rating, and the compensation survey data that we use must support that an increase in base salary is warranted. We consider the year-to-year merit increases that we have implemented to be in line with industry standards.

Other factors that we may take into account in deciding upon base salary increases include the executive officer's current salary, equity ownership, if any, and pay equity relative to an executive officer's peers within our company, which we analyze by comparing the pay of each executive officer to other members of the management team. In making decisions regarding salary increases, we may also draw upon the experience of members of our board of directors with other companies. We have historically reviewed anonymous private company compensation surveys when setting and adjusting base salaries. Base salaries are also reviewed in the case of promotions or other significant changes in responsibility.

In 2009, several of our executives did not receive a salary increase because they were newly hired. Generally, merit salary increases range from 4% to 5%. Two of our named executive officers were promoted; therefore, their salary increases reflect a merit increase and a promotion increase due to the changes in their roles and responsibilities.

Short-Term Non-Equity Incentive Compensation

We provide annual cash incentive awards to our executives through our Management Performance Incentive Plan. Pursuant to the Management Performance Incentive Plan, our executives are eligible to receive cash incentive awards upon the achievement of certain key Company-level performance measures and business unit goals for certain business units. Such Company-level performance measures, business unit goals and the eligibility under the Management Performance Incentive Plan are established by the Compensation Committee at the beginning of each fiscal year. The Compensation Committee establishes threshold, target and stretch level goals for each Company-level performance measure and business unit goal. Each performance measure is considered independently from the other measures. In addition, the Compensation Committee, within its discretion, can make modifications to the Management Performance Incentive Plan, or may elect not to make any awards under the Management Performance Incentive Plan, dependent upon Company and individual performance. We believe that having a significant portion of compensation linked to key Company performance

Table of Contents

measures and business unit goals directly aligns individual executive performance with our business objectives. The Chief Executive Officer can make recommendations to the Compensation Committee for discretionary bonuses for certain individuals who exhibit exemplary performance.

Short-term non-equity incentive compensation payments for 2009 performance were determined on February 2, 2010. Since our audited financial information was not approved by our Audit Committee until March 3, 2010, the Compensation Committee established the threshold, target and stretch goals and distributed short-term non-equity incentive compensation payments based on unaudited calculations of the performance measures. There were no material changes between the unaudited financial information used to determine satisfaction of performance measures and our actual audited financial information for 2009. If, however, there were a material change between the audited and unaudited financial information that affected the payment to an executive officer, corresponding adjustments would be made to such executive officer's short-term non-equity incentive compensation payment.

The EBITDA, as Adjusted, performance measure for 2009 represents EBITDA adjusted for (1) expenses related to our initial public offering and (2) stock compensation expense.

Our 2008 funded backlog as reported in our Annual Report on Form 10-K for the fiscal year ended December 31, 2009 reflected adjustments for unrealized funded backlog. These adjustments were not reflected in the 2008 funded backlog estimates that were used in January 2009 to establish the Funded Backlog performance measure for 2009.

2009 Potential Payments under Management Incentive Performance Plan

The table below illustrates the potential cash incentive award payable, which we refer to as the management performance incentive potential, at each performance level (i.e., threshold, target or stretch) as a percentage of 2009 base salary for each named executive officer:

Management Performance Incentive Potential (as a percentage of 2009 base salary)

Name	Management Performance Incentive Potential at Threshold	Management Performance Incentive Potential at Target(1)	Management Performance Incentive Potential at Stretch(2)
John Hillen	0%	80%	100%
James P. Allen	0%	50%	62.5%
Kevin Kissner	0%	30%	37.5%
Ronald C. Jones	0%	50%	62.5%
Alexander Drew	0%	50%	62.5%
Timothy Jones	0%	50%	62.5%

- (1) When a performance measure was achieved above the threshold level, but below the target level, the executive earned management performance incentive compensation on a linear basis between the management performance incentive potential at threshold and at target for such performance measure. An executive did not earn incentive compensation on a performance measure unless 2009 results exceeded 2008 performance.
- (2) When a performance measure was achieved above the target level, the executive earned management performance incentive compensation on a linear basis between the management performance incentive potential at target and at stretch for such performance measure.

Table of Contents**2009 Performance Measures Under Management Performance Incentive Plan***Hillen, Allen & Kissner:*

For 2009, the Compensation Committee established the following performance measures for Dr. Hillen and Messrs. Allen and Kissner:

Performance Measure	Allocation(1)	Threshold (\$MM)	Target (\$MM)	Stretch (\$MM)
Revenue	24.5%	189.4(2)	217.8(3)	>Target
EBITDA, as Adjusted	24.5%	20.6(4)	22.0(5)	>Target
Funded Backlog	21%	119.2(6)	148.9(7)	>Target
Consolidated Business Unit EBIT	15%	n/a	(8)	n/a
Other Management by Objectives	15%	n/a	(9)	n/a

- (1) Amounts above threshold are calculated on a linear basis. For this reason, the percentage allocation for the Revenue, EBITDA, as Adjusted, and Funded Backlog performance measures is subject to change based on the Company's achievement in each category.
- (2) The threshold goal for the Revenue performance measure represents 2008 revenue.
- (3) The target goal for the Revenue performance measure was an approximately 15% increase in revenue from 2008 revenue.
- (4) The threshold goal for the EBITDA, as Adjusted, performance measure represents 2008 EBITDA.
- (5) The target goal for the EBITDA, as Adjusted performance measure was 10% of the target Revenue performance measure.
- (6) The threshold goal for the Funded Backlog performance measure represents the Funded Backlog at December 31, 2008.
- (7) The target goal for the Funded Backlog performance measure represents a 25% increase over Funded Backlog at December 31, 2008.
- (8) Each of the earnings before interest and taxes (EBIT) performance measures for the Defense Engineering (DE), Intelligence Solutions (IS) and Mission Systems (MS) business units set forth in the tables for Mr. Drew and Mission Systems, respectively, must be met at the target level. Therefore, if one business unit did not meet its EBIT goal at target, the other two business units exceeded their target goals, and all three business units on a combined basis still exceeded 100% of the Business Unit EBIT goal, then Dr. Hillen and Messrs. Allen and Kissner would receive only two-thirds of the 15% allocation for this performance measure. The Compensation Committee did not establish threshold or stretch level goals for the Business Unit EBIT performance measure.
- (9) The Management by Objectives (MBO) performance measure was focused on consolidation of operating procedures across business units, except for Mr. Allen, whose MBO was to close our initial public offering prior to December 31, 2009.

Timothy Jones:

In 2009, Mr. T. Jones was Vice President, General Manager of Defense Engineering (DE). For 2009, the Compensation Committee established the following performance measures for Mr. T. Jones:

Performance Measure	Allocation(1)	Threshold (\$MM)	Target (\$MM)	Stretch (\$MM)
DE Revenue	22.75%	109(2)	125(3)	>Target
DE EBIT	22.75%	13.4(4)	14.7(5)	>Target
DE Funded Backlog	19.5%	72.7	90.9	>Target

Other MBO	10%	n/a	(7)	n/a

- (5) The target goal for the DE EBIT performance measure was achieving DE EBIT equal to 12% of the target goal for the DE Revenue performance measure.
- (6) The target goal for the Revenue, EBITDA, as Adjusted, and Funded Backlog performance measures equaled the target performance measures set forth in the table for Dr. Hillen and Messrs. Allen and Kissner.
- (7) The MBO established for Mr. T. Jones was to increase new bids for new business and to increase the win rate of those bids.

Long-Term Incentive Compensation

In connection with our initial public offering, we adopted the 2009 Performance Incentive Plan, which we refer to as the Plan. Concurrent with the closing of the initial public offering, we assumed all obligations relating to outstanding awards made under the prior SFA Inc. 2007 Stock Option Plan, which we refer to as the SFA Plan. As of April 19, 2010, 853,692 of the Plan's 1,125,000 shares have been granted.

The Plan is designed to reward executives and other employees for long-term growth consistent with Company performance and stockholder return through the award of stock options and restricted stock. The Compensation Committee reviews and approves all award grants to the executive officers. Our Compensation Committee makes annual grants of equity awards, if any, to our executives in connection with its annual review of our executives' compensation and performance. Throughout the year, our Compensation Committee evaluated grants for new hires, promotions or other changes that may warrant additional grants.

The Compensation Committee did not apply a rigid formula in allocating stock options to executives as a group or to any particular executive. Instead, the Compensation Committee exercised its judgment and discretion and considered, among other things, the role and responsibility of the executive, competitive factors, the amount of stock-based equity compensation already held by the executive, the non-equity compensation received by the executive and the total number of options to be granted to all participants during the year. Outstanding stock options and restricted stock awards made under the SFA Plan and the newly granted stock options vest ratably over a four year period from the date of grant for all employees, except for options granted to James Allen, our Executive Vice President and Chief Financial Officer, in May 2009, which have a three year vesting period. The exercise price of any option is equal to the fair market value of the Shares on the date of grant, which, prior to our initial public offering, was determined by the Board of Directors.

The ultimate value of the long-term incentive compensation awards will be dependent upon the actual performance of our stock over time. After the effective date of this offering, the exercise price of any option will be the closing price of our common stock on The Nasdaq Global Market on the date of grant.

Annually, the Compensation Committee is expected to approve grants of stock options based on recommendations from the Chief Executive Officer and management. The Compensation Committee will also evaluate grants for new hires, promotions, performance or other changes that may warrant additional grants. In late 2009, the Compensation Committee approved the grant of 50,000 stock options and 20,000 shares of restricted stock for the Chief Executive Officer with a grant date of January 4, 2010. The stock vests ratably over a four year period from the date of grant, and the restricted stock vests ratably over a three year period. The grant will be reflected in the Grants of Plan-Based Awards table in the Company's proxy statement for the 2011 Annual Meeting of Stockholders.

Indirect Compensation: Benefits and Perquisites

Executive officers participate in the employee benefit plans and programs that are generally available to all of our employees, including health and welfare benefits and 401(k) matching, profit sharing and other standard benefits. We do not consider perquisites to be a principal component of our executive officers' compensation. We believe that our executive officer benefits and perquisite programs are reasonable and competitive with benefits and perquisites provided to executive officers of similarly situated companies, and are necessary to sustain a fully competitive executive compensation program.

Other Bonus Compensation

In February 2010, the Compensation Committee granted discretionary bonuses to each of the named executive officers, noting their efforts with respect to the initial public offering. Discretionary bonuses granted were in the amounts of \$75,000 for Dr. Hillen, \$40,000 for Messrs. Allen and R. Jones, \$45,000 for Mr. Kissner, \$30,000 for Mr. Drew and \$35,000 for Mr. T. Jones.

Table of Contents

Upon Mr. R. Jones joining the Company in connection with our initial public offering, he elected to forego the bonus compensation due him under his prior employment agreement, which provided for a bonus of up to 30% of his base salary. As a result, pursuant to Mr. R. Jones employment agreement with the Company, for 2009 he was to be considered for an annual bonus with a performance-based target of 50% of his base salary. In determining Mr. R. Jones bonus for 2009 performance, the Compensation Committee elected to apply the same performance measures under the Management Performance Incentive Plan applicable to Dr. Hillen and Messrs. Allen and Kissner. As a result, Mr. R. Jones received a bonus of \$109,108.

Other Compensation

Upon the acquisition of SFA, Inc., which we refer to as SFA, Messrs. Kissner and Drew executed retention agreements granting them a right to payment on the one year anniversary of the acquisition if such executives continued employment with us through such date. Retention payments of \$25,500 and \$65,000 were made to Messrs. Kissner and Drew, respectively, on February 9, 2009.

Executive Equity Ownership

Pursuant to our corporate governance guidelines, we encourage our executives to hold an equity position in our Company. However, we do not have specific share retention and ownership guidelines for our executives.

In addition see Executive Employment Contracts and Potential Payments upon Termination or Change in Control and Severance and Change in Control Payments below for a description of the severance and change in control arrangements we have with our named executive officers. The Compensation Committee believes that these arrangements are necessary to attract and retain our named executive officers. The terms of each arrangement were determined through negotiations with the applicable named executive officer in connection with his hiring and were not based on any set formula.

Government Limitations on Compensation

As a government contractor, we are subject to the Federal Acquisition Regulations, or FAR, which govern the reimbursement of costs by our government customers. FAR 31.205-6(p) limits the allowability of senior executive compensation to a benchmark compensation cap established each year by the Administrator of the Office of Federal Procurement Policy, or OFPP, under Section 39 of the OFPP Act (41 U.S.C. 435). The benchmark cap applies to the five most highly compensated employees in management positions in each home office and each of our business segments. When comparing senior executive compensation to the benchmark cap, all wages, salary, bonuses and deferred compensation, if any, for the year, as recorded in our books and records, must be included. The benchmark compensation cap for contract costs incurred after January 1, 2010, as published in the Federal Register, is \$693,951. Any amounts over the cap are considered unallowable and are therefore not recoverable under our government contracts.

Deductibility of Executive Compensation

Section 162(m) of the Internal Revenue Code generally limits the deductibility of certain compensation in excess of \$1,000,000 paid in any one year to the principal executive officer and the other three highest paid executive officers (other than the principal financial officer). Qualified performance-based compensation will not be subject to this deduction limit if certain requirements are met. As described above, all of our short-term non-equity incentive compensation is determined based upon the achievement of certain pre-determined financial performance goals, which permits us to deduct such amounts pursuant to Section 162(m). In addition, stock options are inherently performance-based and qualify for the deduction under Section 162(m). Pursuant to applicable regulations, Section 162(m) will not apply to compensation paid or stock options, stock appreciation rights or restricted stock granted under the compensation agreements and plans described in this prospectus during the reliance transition period ending on the earlier of the date the agreements or plan is materially modified or the first meeting at which directors are elected during 2013. While we will continue to monitor our

Table of Contents

compensation programs in light of Section 162(m), the Compensation Committee considers it important to retain the flexibility to design compensation programs that are in the best long-term interests of our company and our stockholders. As a result, we have not adopted a policy requiring that all compensation be deductible and the Compensation Committee may conclude that paying compensation at levels that are not deductible under Section 162(m) is nevertheless in the best interests of the Company and our stockholders.

Summary Executive Compensation

Below is a summary compensation table for 2009 including our Chief Executive Officer, our Chief Financial Officer, our former Chief Financial Officer and the three most highly compensated executive officers who were serving as executive officers at the end of 2009.

- (1) Except for Mr. R. Jones, in February 2010 executives received discretionary bonuses in the amounts reflected in this column for their efforts related to the initial public offering in 2009.
- (2) Amounts in these columns reflect the aggregate grant date fair value of the awards calculated in accordance with generally accepted accounting principles. For assumptions used in determining the fair value of stock awards, see Note 11 to the Company's consolidated financial statements included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2009.
- (3) Executive officers are eligible for non-equity incentive compensation in the form of cash awards that are based upon achievement of Company and/or business unit performance goals in accordance with our Management Performance Incentive Plan. Cash bonuses under the Management Performance Incentive Plan are accrued in the year earned and paid in the following year. The amounts identified in this column were paid in February 2010 for 2009 performance. For a detailed description of our short-term non-equity incentive compensation, see Compensation Discussion and Analysis Short Term Non-Equity Incentive Compensation.
- (4) The other compensation that Mr. Hillen received in 2009 consisted of a gross up payment in the amount of \$60 for excess life insurance above \$50,000.

Table of Contents

- (5) The other compensation that Mr. Allen received in 2009 included \$98,838 for consulting fees that he earned prior to becoming an employee of the Company in May, 2009. Also included is a make-whole payment because of the failure to re-price Mr. Allen's stock bonus award in connection with a dividend and debt repayment that occurred in connection with restructuring transactions that occurred prior to our initial public offering. As a result, of the dividend and debt repayment, the value of Mr. Allen's stock grant was reduced by \$104,438. In February 2010, the Compensation Committee approved the make-whole payment in cash versus providing additional shares. In addition, Mr. Allen received a gross up payment in the amount of \$231 for excess life insurance above \$50,000.
- (6) The other compensation that Mr. Kissner received in 2009 consisted of the following: (i) a retention payment in the amount of \$25,500 made on February 9, 2009 and (ii) a gross up payment in the amount of \$60 for excess life insurance above \$50,000.
- (7) Mr. R. Jones did not become an employee of the Company until our initial public offering. As a result, Mr. R. Jones' salary reflects compensation he received from November 25, 2009 through December 31, 2009. Mr. Jones' salary is \$300,000 per annum.
- (8) Mr. R. Jones received a discretionary bonus in the amount of \$40,000 for his efforts related to our initial public offering and a bonus of \$109,108 approved by the Compensation Committee in lieu of a bonus under his prior employment agreement. See Compensation Discussion and Analysis Other Bonus Compensation.
- (9) In 2006, Mr. R. Jones was granted a 12% membership interest in Contego Systems LLC, our former parent. In 2009, immediately prior to our initial public offering, Mr. R. Jones' restricted membership interest was redeemed by Contego Systems LLC in exchange for unrestricted Shares of the Company owned by Contego Systems LLC of equal value. The redemption and completion of the initial public offering triggered recognition of the compensation expense reflected in the table above.
- (10) The other compensation that Mr. Drew received in 2009 consisted of the following: (i) a retention payment in the amount of \$65,000 made on February 9, 2009, (ii) a payment for unused accrued paid time off in the amount of \$19,406 and (iii) a gross up payment in the amount of \$90 for excess life insurance above \$50,000.
- (11) The other compensation that Mr. T. Jones received in 2009 consisted of a gross up payment in the amount of \$90 for excess life insurance above \$50,000.

Option Exercises and Stock Vested

The named executive officers did not exercise any stock options in 2009.

In 2006, Mr. R. Jones was granted a 12% membership interest in Contego Systems LLC, our former parent. In 2009, immediately prior to our initial public offering, Mr. R. Jones' restricted membership interest was redeemed by Contego Systems LLC in exchange for unrestricted Shares of the Company owned by Contego Systems LLC of equal value. The redemption and completion of the initial public offering triggered a recognition by the Company of stock compensation expense. No other restricted stock awarded to any named executive officer vested in 2009.

Pension Benefits and Non-Qualified Deferred Compensation

We do not have, and the named executive officers do not participate in, any pension or non-qualified deferred compensation plans. We do, however, maintain the GNA 401(k) Plan, as defined below, and our named executive officers are eligible to participate on the same terms as other eligible employees.

Executive Employment Contracts and Potential Payments upon Termination or Change in Control**Employment Agreements**

The Compensation Committee considers executive employment agreements as important tools to align executive and stockholder interests and attract and retain senior executive talent. The executive employment agreements for Dr. Hillen and Messrs. Allen and Jones include change in control and termination provisions that are designed to become effective only in the event of a change in control or other termination event. Under change in control circumstances it can be extremely important to secure the dedicated attention of our principal executive and financial officers whose personal positions are at risk and who may have other opportunities readily available to them.

Table of Contents

By establishing compensation payable under various merger and acquisition scenarios, change in control provisions enable the executive to set aside personal financial and career objectives and focus on maximizing stockholder value. Moreover, these provisions help to minimize distractions such as the executive's concern about what may happen to his or her position, and assist in maintaining the executive's objective focus in analyzing opportunities that may arise for the benefit of the stockholders. Furthermore, change in control provisions are intended to ensure the continuity of a leadership team at a time when business continuity is of paramount concern. Without change in control provisions enabling executives to focus on important Company objectives within important time constraints, the Company may have a greater risk of losing key executives in times of uncertainty. The Compensation Committee approved the payment and benefit levels in the executive employment agreements described below and determined such provisions to be generally consistent with those entered into by comparable companies, to be market competitive and to reflect the consolidating nature of the government services industry. The material terms of the current executive employment agreements are described in more detail below.

Employment Agreements for Dr. Hillen and Messrs. Allen and R. Jones

On August 18, 2008, we entered into an executive employment agreement with Dr. Hillen, our President and Chief Executive Officer, as amended as of March 26, 2010. On May 18, 2009, we entered into an executive employment agreement with Mr. Allen, our Executive Vice President and Chief Financial Officer, as amended as of March 26, 2010. Each agreement provides for a one-year term and is automatically extended for additional one-year terms unless we provide written notice no later than six months prior to the end of the current term that we do not wish to extend the term of the agreement. Each executive, other than Dr. Hillen, may, at his discretion with or without good reason, terminate his employment with us by giving us at least 30 days written notice of his decision to terminate his employment. Dr. Hillen must give us at least 90 days (or 30 days if he is terminating his employment in order to accept a position with the U.S. Government) written notice of his decision to terminate.

Under each agreement, we may terminate the executive's employment prior to expiration of the term for any of the following reasons: (i) as a result of his death or disability, (ii) for cause or (iii) without cause.

These agreements contain severance provisions that provide for payment of the following amounts to the executive upon the occurrence of termination by the Company without cause or termination by the executive for good reason :

accrued and unpaid salary through the date of termination;

for Dr. Hillen, cash payments equal to 100% of his annual salary in effect immediately prior to termination, as well as 100% of his target bonus, for termination by the Company without cause or by Dr. Hillen for good reason, but if the termination occurs within six months after the date of a definitive agreement for a change in control that is subsequently consummated, Dr. Hillen will receive 200% of his annual salary and 200% of his target bonus.

for Messrs. Allen and R. Jones, cash payments equal to 50% of his annual salary in effect immediately prior to termination, as well as 50% of his target bonus, for termination by the Company without cause or by Messrs. Allen or R. Jones for good reason, but if the termination occurs within six months after the date of a definitive agreement for a change in control that is subsequently consummated, Messrs. Allen or R. Jones or will receive 100% of his annual salary and 100% of his target bonus.

for Dr. Hillen and Messrs. Allen and R. Jones, in the event of a termination within six months after the date of a definitive agreement for a change in control that is subsequently consummated, full vesting of the executive's stock and stock option awards that have not yet become vested.

Table of Contents

The cash severance shall be payable as and when the executive's base salary or bonus would otherwise have been paid, except that the bonus amount must be paid no later than March 15 of the year following the year during which notice of the termination is given.

Cause is defined in each executive's employment agreement as:

willfully failing to perform his duties in a material manner if such failure is not discontinued promptly after written notice to the executive;

being charged with or indicted for a felony or other crime casting doubt on the executive's trustworthiness or integrity;

knowingly and/or materially breaching certain covenants of the agreement;

committing any act of dishonesty that is intended to result in personal enrichment of the executive at our expense; or

in bad faith, committing any act or omitting to take any action, to our material detriment.

Change in Control is defined in each executive's employment agreement as having been deemed to occur if:

the acquisition of more than 50% of the combined voting power of the Company's then-total outstanding voting securities by any person or related group of persons (as such terms are used in Sections 13(d) and 14(d)(2) of the Exchange Act, as amended) other than (x) the Company or any of its affiliate, (y) any employee benefit plan of the Company or any trustee or other fiduciary holding securities under an employee benefit plan of the Company (or its subsidiaries), or (z) Contego Systems LLC, Kende Holding kft, Global Strategies Group Holding S.A. or any of their affiliates or successor entities; or

the consummation of a merger or consolidation of the Company with any other corporation or other entity, following which the voting securities of the Company outstanding immediately prior to such merger or consolidation no longer represent (either by remaining outstanding or by being converted into voting securities of the surviving entity or any parent thereof) at least 50% of the combined voting power of the securities of the Company or such surviving entity or any direct or indirect parent thereof outstanding immediately after such merger or consolidation; or

the stockholders of the Company approve a plan of complete liquidation or dissolution.

Good Reason is defined in each executive's employment agreement as the occurrence, without the executive's written consent, of any of the following circumstances unless such circumstances are fully corrected prior to the date of termination specified in the notice of termination given by the executive:

the assignment to the executive of any duties materially and adversely inconsistent with his position as set forth in the agreement including, but not limited to status, office or responsibilities;

a change in the executive's reporting relationship such that he no longer reports directly to the Board;

Edgar Filing: GLOBAL DEFENSE TECHNOLOGY & SYSTEMS, INC. - Form DEF 14A

a material breach by us of any provision of the agreement after receipt of written notice from the executive and failure by us to cure the breach within 30 days; or

the relocation of the executive's office as assigned to him by us to a location more than 50 miles from his office prior to the date of such relocation, except for travel reasonably required in the performance of the executive's responsibilities.

Other Executive Employment Agreements

We also have entered into employment agreements with other executives, including Messrs. Drew, T. Jones and Kissner. Each of these agreements provides for at will employment and does not have a term. Pursuant to these employment agreements, the executive can terminate his employment at any time by providing us four

weeks notice. These employment agreements provide for six to nine months salary continuation as severance protection in the event the executive is terminated without cause. Each of Messrs. Kissner and Timothy Jones' agreements provides for six months' salary continuation for termination without cause, while Mr. Drew's agreement provides for nine months' salary continuation.

Cause is defined in each executive's employment agreement as:

a good faith finding by the President and Chief Executive Officer that the executive: (i) has been convicted of a felony; (ii) has been convicted of a misdemeanor (excluding traffic violations) to the extent such conviction could reasonably be considered to compromise our best interests or any of our subsidiaries or render the executive unfit or unable to perform his/her services and duties; (iii) has committed any other act or omission involving dishonesty, disloyalty or fraud with respect to us or any of our subsidiaries or any of our customers or suppliers, (iv) has engaged in illegal use of drugs or unauthorized use of alcohol in the workplace; or (v) has committed an act involving unlawful or disreputable conduct in the context of executive's employment which is likely to be harmful to us or our reputation;

the continued failure by the executive to perform his duties in all material respects for us or any of our subsidiaries continuing for a period of 10 days following a written demand for such performance by the Chief Executive Officer or a designated official or a material breach by the executive of his obligations under his employment agreement continuing uncured (if curable) for a period of 10 days following written notice from the Chief Executive Officer or a designated official (other than any such failure or breach resulting from the executive's incapacity due to physical or mental illness), which demand shall identify in reasonable detail the manner that the executive has not performed his duties or has breached his obligations (as applicable) and give the executive an opportunity to respond; provided, that, the foregoing shall not be construed to include the executive's failure to achieve financial or operating objectives and goals established by the Board, President and Chief Executive Officer or a designated official; or

a good faith finding by the Board or the President and Chief Executive Officer or a designated official that the executive engaged in (i) misconduct materially injurious to us or any of our subsidiaries or our or any of our subsidiaries' reputation or (ii) gross negligence or willful misconduct by the executive which has a material adverse effect on us or any of our subsidiaries.

Severance and Change in Control Payments

General

As described above, we currently have employment agreements with the following named executive officers: Dr. Hillen and Messrs. Allen, Kissner, R. Jones, T. Jones and Drew. The employment agreements, along with the individual equity compensation award agreements entered into pursuant to our Plan, contain provisions that, in some cases, provide for severance payments or accelerated vesting of unvested equity awards, as applicable. The amount of compensation payable to each named executive officer upon any termination is shown below. Stock Option estimates are based on an assumed termination date of December 31, 2009 and governed by the salaries and employment agreements currently in place with the listed individuals. The actual payments due on terminations occurring on different dates could materially differ from the estimates in the tables.

Employee Benefit Plans**401(k) Plan**

Effective January 1, 2010, we merged the GNA and TAC 401(k) Plans and the Profit Sharing Plan into one plan the GNA 401(k) Plan. We maintain a 401(k) savings plan that covers all eligible Company employees, which we refer to as the GNA 401(k) Plan. The GNA 401(k) Plan allows eligible participants to reduce their current compensation by up to the statutorily prescribed limit and to have the amount of this reduction contributed to the GNA 401(k) Plan. We provide 100% matching funds for eligible participating employees, limited to the employee's participation of up to 5% of earnings. Participants' interests in Company matching contributions vest ratably over three years. Participants also become fully vested upon reaching age 65, permanent disability, or death.

We provide discretionary contributions annually, allocated on the basis of the ratio of each participant's annual earnings to the aggregate of all participants' total earnings, to eligible employees who meet the service

requirement of 1,000 hours for the allocation year. Participants' interests in Company contributions vest ratably over five years. Participants also become fully vested in their interests upon reaching age 65, permanent disability or death. In the past, we have contributed a minimum 3% of earnings assuming profit goals are achieved.

2009 Performance Incentive Plan

We recently adopted the 2009 Performance Incentive Plan, which we refer to as the Plan. The Plan authorizes the issuance of options to purchase shares of common stock and the grant of bonus stock awards, restricted common stock awards, stock appreciation rights, deferred shares, performance shares and performance units.

Administration. Sole authority for administration of the Plan is conferred upon the of the Board of Directors, and any Committee to which the Board of Directors, in its sole discretion, delegates all or any portion of its authority to administer the Plan (hereinafter, the Administrator). With respect to grants to officers and directors, any such Committee shall be constituted in such a manner as to satisfy applicable laws, including Rule 16b-3 promulgated under the Exchange Act.

Eligibility. All of our officers and employees, and those of our affiliates, are eligible to participate in the Plan. Our directors and other persons that provide consulting services to us and our affiliates are also eligible to participate in the Plan.

Maximum Shares and Award Limits. Under the Plan, the maximum number of shares of common stock that were initially subject to awards was 1,000,000, including the 492,127 shares of common stock issuable upon exercise of options granted under the SFA Inc. 2007 Stock Option Plan, which we refer to as the SFA Plan, which were, in connection with our initial public offering, assumed under the Plan. The number of shares of common stock allocated to the Plan automatically increases at the beginning of each fiscal year by a number equal to the lesser of 1.5% of the Company's shares of outstanding common stock, 125,000 shares of common stock and an amount determined by the Administrator. As of April 19, 2010, 853,692 of the Plan's 1,125,000 Shares have been granted. No one participant may receive awards for more than 200,000 shares of common stock in any one calendar year. The maximum number of performance units that may be granted to a participant in any one calendar year is \$1,500,000 for each full or fractional year included in the performance period for the award granted during the calendar year. These limitations, and the terms of outstanding awards, will be adjusted without the approval of our stockholders as the Administrator determines is appropriate in the event of a stock dividend, stock split, reclassification of stock or similar event. If an option terminates, expires or becomes un-exercisable, or shares of common stock subject to a stock award, grant of performance shares, grant of deferred shares or stock appreciation right are forfeited, the shares subject to such option, stock award, grant of performance shares, grant of deferred shares or stock appreciation right are available under the first sentence of this paragraph for future awards under the Plan. In addition, shares that are issued under any type of award under the Plan and that are repurchased or reacquired by us at the lesser of fair market value and the original purchase price for such shares are also available under the first sentence of this paragraph for future awards under the Plan.

Stock Options. The Plan provides for the grant of both options intended to qualify as incentive stock options under Section 422 of the Code and options not intended to so qualify. The Plan prohibits repricing of an outstanding option, and therefore, the Administrator may not, without the consent of the stockholders, lower the exercise price of an outstanding option. This limitation does not, however, prevent adjustments resulting from stock dividends, stock splits, reclassifications of stock or similar events. Options generally will be nontransferable except in the event of the participant's death, but the Administrator may allow the transfer of non-qualified stock options.

Unless provided otherwise in a participant's stock option agreement and subject to the maximum exercise period for the option, an option generally will cease to be exercisable upon the earlier of three months following the participant's termination of service with us or our affiliate or the expiration date under the terms of the

Table of Contents

participant's stock option agreement. The right to exercise an option will expire immediately upon the participant's termination of service with us if the termination is for cause or is a voluntary termination any time after an event that would be grounds for termination for cause. Upon death or disability, the option exercise period is extended to the earlier of one year from the participant's termination of service or the expiration date under the terms of the participant's stock option agreement.

Stock Awards and Performance Based Compensation. The Administrator also will select the participants who are granted bonus or restricted common stock awards and, consistent with the terms of the Plan, will establish the terms of each bonus or restricted common stock award. A bonus or restricted common stock award may be subject to payment by the participant of a purchase price for the shares of common stock subject to the award, and may be subject to vesting requirements or transfer restrictions or both, if so provided by the Administrator. Those requirements may include, for example, a requirement that the participant complete a specified period of employment with the Company or its affiliate or the achievement of certain performance objectives. Any such performance objectives may be based on the individual performance of the participant, our performance or the performance of our affiliates, subsidiaries, divisions, departments or functions in which the participant is employed or has responsibility. In the case of a performance objective for an award intended to qualify as performance based compensation under Section 162(m), the performance objectives are limited to specified levels of and increases in our or a business unit's revenue; return on equity; total earnings; earnings per share; earnings growth; return on capital; return on assets; economic value added; earnings before interest and taxes; earnings before interest, taxes, depreciation and amortization; revenue; funded backlog; gross margin return on investment; increase in the fair market value of the shares (including but not limited to growth measures and total stockholder return); net operating profit; cash flow (including, but not limited to, operating cash flow and free cash flow); cash flow return on investments (which equals net cash flow divided by total capital); internal rate of return; increase in net present value or expense targets, with each such performance objective determined in accordance with and subject to such requirements set forth in the terms of award. A transfer of the shares of common stock subject to a restricted common stock award normally will be restricted prior to vesting.

Stock Appreciation Rights. The Administrator also will select the participants who receive stock appreciation rights under the Plan. A stock appreciation right entitles the participant to receive a payment of up to the amount by which the fair market value of a share of common stock on the date of exercise exceeds the base value for a share of common stock as established by the Administrator at the time of grant of the award. A stock appreciation right will be exercisable at such times and subject to such conditions as may be established by the Administrator. The amount payable upon the exercise of a stock appreciation right may be settled in cash or by the issuance of shares of common stock.

Deferred Shares. The Plan also authorizes the grant of deferred shares, i.e., the right to receive a future delivery of shares of common stock, if certain conditions are met. The conditions established for earning the grant of deferred shares may include, for example, a requirement that certain performance objectives, such as those described above, be achieved.

Performance Shares and Performance Units. The Plan also permits the grant of performance shares and performance units to participants selected by the Administrator. A performance share is an award designated in a specified number of shares of common stock that is payable in whole or in part, if and to the extent certain performance objectives are achieved. A performance unit is a cash bonus equal to \$1.00 per unit awarded that is payable in whole or in part, if and to the extent certain performance objectives are achieved. The performance objectives will be prescribed by the Administrator for grants intended to qualify as performance based compensation under Section 162(m) and will be stated with reference to the performance objectives described above. A grant of performance units may be settled by payment of cash, shares of common stock or a combination of cash and shares and may grant to the participant or reserve to the administrator the right to elect among these alternatives.

Amendment and Termination. No awards may be granted under the Plan after October 26, 2019, which is the tenth anniversary of the date on which the Plan was initially adopted. The Board of Directors may amend or

Table of Contents

terminate the Plan at any time, but an amendment will not become effective without the approval of our stockholders if it increases the aggregate number of shares of common stock that may be issued under the Plan, changes the class of employees eligible to receive incentive stock options or stockholder approval is required by any applicable law, regulation or rule, including any rule of The Nasdaq Global Market. No amendment or termination shall, without a participant's consent, adversely affect any rights of such participant under any award outstanding at the time such amendment is made; provided, however, that an amendment that may cause an incentive stock option to become a nonqualified stock option shall not be treated as adversely affecting the rights of the participant.
