PrimeEnergy Corporation

Notes to Consolidated Financial Statements

June 30, 2011

(Unaudited)

(1) Interim Financial Statements:

The accompanying consolidated financial statements of PrimeEnergy Corporation (*PEC* or the *Company*) have not been audited by independent public accountants. During the interim periods, the Company follows the same accounting policies as used and described in its Annual Report on Form 10-K for the year ended December 31, 2010. In accordance with applicable Securities and Exchange Commission (*SEC*) rules and regulations, the accompanying interim financial statements do not include all disclosures presented in annual financial statements and the reader should refer to the Company's Form 10-K for the year ended December 31, 2010 filed with the SEC on April 7, 2011. In the opinion of management, the accompanying interim consolidated financial statements contain all material adjustments, consisting only of normal recurring adjustments, necessary for a fair presentation of the Company's Consolidated Balance Sheets as of June 30, 2011 and December 31, 2010, the Consolidated Statements of Operations for the three and six months ended June 30, 2011 and 2010, the Consolidated Statement of Stockholders Equity for the six months ended June 30, 2011, and the Consolidated Statements of Comprehensive Income and Cash Flows for the six months ended June 30, 2011 and 2010. Certain amounts presented in prior period financial statements have been reclassified for consistency with current period presentation. The results for interim periods are not necessarily indicative of annual results. For purposes of disclosure in the consolidated financial statements, subsequent events have been evaluated through the date the statements were issued.

Recently Issued Accounting Pronouncements

In May 2011, the Financial Accounting Standards Board (*FASB*) issued Accounting Standards Update (*ASU*) No. 2011-04 *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in US GAAP and IFRSs* . This ASU amends previously issued authoritative guidance and requires new disclosures, clarifies existing disclosures and is effective for interim and annual periods beginning after December 15, 2011. Early application by public entities is not permitted. The amendments change requirements for measuring fair value and disclosing information about those measurements. Additionally, this ASU clarifies the *FASB*'s intent regarding the application of existing fair value measurement requirements and changes certain principles or requirements for measuring fair value or disclosing information about its measurements. For many of the requirements, the *FASB* does not intend the amendments to change the application of the existing Fair Value Measurements guidance. The Company does not expect this guidance to have a significant impact on its financial position, results of operations or cash flows.

In June 2011, the *FASB* issued ASU No. 2011-05, *Presentation of Comprehensive Income* , which amends current comprehensive income guidance. This accounting update eliminates the option to present the components of other comprehensive income as part of the statement of shareholders' equity. Instead, the Company must report comprehensive income in either a single continuous statement of comprehensive income which contains two sections, net income and other comprehensive income, or in two separate but consecutive statements. The new requirements are effective for public entities for interim and annual periods beginning after December 15, 2011 with early adoption permitted. The adoption of this ASU will not have an impact on the Company's consolidated financial position, results of operations or cash flows as it only requires a change in the format of the current presentation.

(2) Acquisitions and Dispositions:

Historically the Company has repurchased the interests of the partners and trust unit holders in the eighteen oil and gas limited partnerships (the *Partnerships*) and the two asset and business income trusts (the *Trusts*) managed by the Company as general partner and as managing trustee, respectively. The Company purchased such interests in an amount totaling \$169,000 and \$1,000 for the six months ended June 30, 2011 and 2010, respectively.

(3) Restricted Cash and Cash Equivalents:

Restricted cash and cash equivalents include \$7,267,000 and \$6,131,000 at June 30, 2011 and December 31, 2010, respectively, of cash primarily pertaining to oil and gas revenue payments. There were corresponding accounts payable recorded at June 30, 2011 and December 31, 2010 for these liabilities. Both the restricted cash and the accounts payable are classified as current on the Consolidated Balance Sheet.

Table of Contents**(4) Additional Balance Sheet Information:**

Certain balance sheet amounts are comprised of the following:

	June 30, 2011	December 31, 2010
Accounts Receivable:		
Joint interest billing	\$ 2,575,000	\$ 2,538,000
Trade receivables	1,658,000	1,688,000
Oil and gas sales	9,020,000	8,139,000
Other	134,000	724,000
	13,387,000	13,089,000
Less: Allowance for doubtful accounts	404,000	341,000
Total	\$ 12,983,000	\$ 12,748,000
Accounts Payable:		
Trade	\$ 4,740,000	\$ 3,421,000
Royalty and other owners	12,677,000	10,395,000
Prepaid drilling deposits	8,148,000	12,871,000
Other	6,886,000	7,689,000
Total	\$ 32,451,000	\$ 34,376,000
Accrued Liabilities:		
Compensation and related expenses	\$ 3,153,000	\$ 2,010,000
Property costs	780,000	3,282,000
Income tax	129,000	930,000
Other	1,448,000	1,454,000
Total	\$ 5,510,000	\$ 7,676,000

(5) Property and Equipment:

Property and equipment at June 30, 2011 and December 31, 2010 consisted of the following:

	June 30, 2011	December 31, 2010
Proved oil and gas properties, at cost	\$ 466,899,000	\$ 453,145,000
Unproved oil and gas properties, at cost	103,000	698,000
Less: Accumulated depletion and depreciation	327,206,000	310,809,000
	\$ 139,796,000	\$ 143,034,000
Field service equipment and other	\$ 19,540,000	\$ 19,499,000
Less: Accumulated depreciation	12,925,000	12,705,000
	\$ 6,615,000	\$ 6,794,000

Total net property and equipment	\$ 146,411,000	\$ 149,828,000
----------------------------------	----------------	----------------

(6) Long-Term Bank Debt:

Bank Debt:

Effective June 22, 2011, the Company entered into a Second Amendment to the Second Amended and Restated Credit Agreement (*Second Amendment*). The Second Amendment to this \$250 million credit facility increased the Company's borrowing base to \$125 million; removed the floor rate component of LIBO rate loans; modified financial reporting requirements to the agent; increased hedging allowances; and allowed for a one-time advance to be made to the Company's offshore subsidiary. Subject to facility borrowing base availability amounts, the banks approved a one-time advance of up to \$16 million to be made from PEC to its offshore subsidiary specifically to be used to pay in full the offshore subsidiary's indebtedness to a related party. The banks required this advance to be made within 30 days after the effective date of the Second Amendment and the Company completed the advance to its offshore subsidiary on June 24, 2011. Under the Second Amendment, the maximum percentage of production available to enter into commodity hedge agreements was revised to 90% from 85% of proved developed producing reserves for each of the next succeeding four calendar years for crude oil and natural gas computed separately. In addition, following the Second Amendment the Company's restriction on payments for dividends, distributions or repurchase of PEC's stock was increased to \$2.5 million in each calendar year. Borrowing base monthly reduction amounts remain at \$2 million with the first reduction to now begin on December 15, 2011.

Table of Contents

The Company's borrowing rates in the credit facility include for a base rate loan at the prime rate (3.25% at June 30, 2011) plus applicable margin utilization rates that range from 1.75% to 2.0%, and for a LIBO rate loan at LIBO published rates plus applicable utilization rates (2.75% to 3.00% at June 30, 2011). As of June 30, 2011, the Company had in place one base rate loan and one LIBO rate loan with effective rates of 5.00% and 3.04%, respectively.

At June 30, 2011, the Company had \$71.9 million of borrowings outstanding under its revolving credit facility at a weighted-average interest rate of 5.58% and \$53.1 million available for future borrowings. The combined weighted average interest rates paid on outstanding bank borrowings subject to base rate and LIBO interest were 5.67% during the first six months of 2011 as compared to 6.09% during the same period in 2010.

Indebtedness to related parties:

Effective January 3, 2011, the Company's loan with a private lender that is controlled by a Director of PEC was modified and included a payment from the Company's offshore subsidiary to the private lender of \$4 million which was made on January 18, 2011. Further, on June 27, 2011, this loan along with all accrued interest was paid in full from the Company's offshore subsidiary and the note was cancelled.

(7) Other Long-Term Obligations and Commitments:**Operating Leases:**

The Company has several non-cancelable operating leases, primarily for rental of office space, that have a term of more than one year. The future minimum lease payments for the rest of the fiscal 2011 and thereafter for the operating leases are as follows:

	<i>Operating Leases</i>
2011	\$ 403,000
2012	555,000
2013	434,000
2014	16,000
Total minimum payments	\$ 1,408,000

Rent expense for office space for the six months ended June 30, 2011 and 2010 was \$378,000 and \$391,000, respectively.

Asset Retirement Obligation:

A reconciliation of the liability for plugging and abandonment costs for the six months ended June 30, 2011 is as follows:

Asset retirement obligation	December 31, 2010	\$ 17,147,000
Liabilities incurred		140,000
Liabilities settled		(213,000)
Accretion expense		681,000
Asset retirement obligation	June 30, 2011	\$ 17,755,000

The Company's liability is determined using significant assumptions, including current estimates of plugging and abandonment costs, annual inflation of these costs, the productive life of wells and a risk-adjusted interest rate. Changes in any of these assumptions can result in significant revisions to the estimated asset retirement obligation. Revisions to the asset retirement obligation are recorded with an offsetting change to producing properties, resulting in prospective changes to depreciation, depletion and amortization expense and accretion of discount. Because of the subjectivity of assumptions and the relatively long life of most of the Company's wells, the costs to ultimately retire the wells may vary significantly from previous estimates.

(8) Contingent Liabilities:

The Company, as managing general partner of the affiliated Partnerships, is responsible for all Partnership activities, including the drilling of development wells and the production and sale of oil and gas from productive wells. The Company also provides the administration, accounting and tax preparation work for the Partnerships, and is liable for all debts and liabilities of the affiliated Partnerships, to the extent that the assets of a given limited Partnership are not sufficient to satisfy its obligations. As of June 30, 2011, the affiliated Partnerships have established cash reserves in excess of their debts and liabilities and the Company believes these reserves will be sufficient to satisfy Partnership obligations.

The Company is subject to environmental laws and regulations. Management believes that future expenses, before recoveries from third parties, if any, will not have a material effect on the Company's financial condition. This opinion is based on expenses incurred to date for remediation and compliance with laws and regulations, which have not been material to the Company's results of operations.

Table of Contents

From time to time, the Company is party to certain legal actions arising in the ordinary course of business. While the outcome of these events cannot be predicted with certainty, management does not expect these matters to have a materially adverse effect on the financial position or results of operations of the Company.

(9) Stock Options and Other Compensation:

In May 1989, non-statutory stock options were granted by the Company to four key executive officers for the purchase of shares of common stock. At June 30, 2011 and 2010, options on 767,500 shares were outstanding and exercisable at prices ranging from \$1.00 to \$1.25. According to their terms, the options have no expiration date.

(10) Related Party Transactions:

The Company, as managing general partner or managing trustee, makes an annual offer to repurchase the interests of the partners and trust unit holders in certain of the Partnerships or Trusts. The Company purchased such interests in an amount totaling \$169,000 and \$1,000 for the six months ended June 30, 2011 and 2010, respectively.

Receivables from related parties consist of reimbursable general and administrative costs, lease operating expenses and reimbursement for property development and related costs. These receivables are due from joint venture partners, which may include members of the Company's Board of Directors.

Payables owed to related parties primarily represent receipts collected by the Company as agent for the joint venture partners, which may include members of the Company's Board of Directors, for oil and gas sales net of expenses. Also included in due to related parties at December 31, 2010 was the amount of accrued interest, \$170,000, owed to a related party, a company controlled by a Director of the Company, with whom the Company's offshore subsidiary entered into a credit agreement. This agreement was concluded as of June 2011 and all interest owed and the loan balance remaining was paid at that time.

(11) Financial Instruments***Fair Value measurements:***

Authoritative guidance on fair value measurements defines fair value, establishes a framework for measuring fair value and stipulates the related disclosure requirements. The Company follows a three-level hierarchy, prioritizing and defining the types of inputs used to measure fair value. The fair values of the Company's interest rate swaps, natural gas and crude oil price collars and swaps are designated as Level 3. The following fair value hierarchy table presents information about the Company's assets and liabilities measured at fair value on a recurring basis as of June 30, 2011 and December 31, 2010:

	Quoted Prices in Active Markets For Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Balance as of June 30, 2011
June 30, 2011				
Assets				
Commodity derivative contracts			\$ 2,040,000	\$ 2,040,000
Total assets			\$ 2,040,000	\$ 2,040,000
Liabilities				
Commodity derivative contracts			\$ (8,128,000)	\$ (8,128,000)
Total liability			\$ (8,128,000)	\$ (8,128,000)

	Quoted Prices in Active Markets For Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Balance as of December 31, 2010
December 31, 2010				
Assets				
Commodity derivative contracts			\$ 3,042,000	\$ 3,042,000
Total assets			\$ 3,042,000	\$ 3,042,000
Liabilities				
Commodity derivative contracts			\$ (5,635,000)	\$ (5,635,000)
Total liability			\$ (5,635,000)	\$ (5,635,000)

Table of Contents

The following table sets forth a reconciliation of changes in the fair value of financial assets and liabilities classified as level 3 in the fair value hierarchy for the six months ended June 30, 2011.

Net liabilities	December 31, 2010	\$ (2,593,000)
Total realized and unrealized gains or losses:		
Included in earnings (a)		(3,360,000)
Purchases, sales, issuances and settlements,		(135,000)
Net liabilities	June 30, 2011	\$ (6,088,000)

- (a) Derivative instruments are reported in oil and gas sales as realized gain/loss and on a separately reported line item captioned unrealized gain/loss on derivative instruments.

Derivative Instrument:

The Company is exposed to commodity price and interest rate risk, and management considers periodically the Company's exposure to cash flow variability resulting from the commodity price changes and interest rate fluctuations. Futures, swaps and options are used to manage the Company's exposure to commodity price risk inherent in the Company's oil and gas production operations. The Company does not apply hedge accounting to any of its commodity based derivatives. Both realized and unrealized gains and losses associated with derivative instruments are recognized in earnings.

Effect of derivative instruments on the consolidated balance sheet:

	Balance Sheet Location	Fair Value	
		June 30, 2011	December 31, 2010
Asset Derivatives:			
<i>Derivatives not designated as hedging instruments:</i>			
Natural gas commodity contracts	Current derivative contracts	\$ 1,832,000	\$ 3,038,000
Natural gas commodity contracts	Other assets	208,000	0
Crude oil commodity contracts	Other assets	0	4,000
Total		\$ 2,040,000	\$ 3,042,000
Liability Derivatives:			
<i>Derivatives not designated as hedging instruments:</i>			
Crude oil commodity contracts	Derivative liability short term	\$ (2,796,000)	\$ (3,048,000)
Crude oil commodity contracts	Derivative liability long term	(5,332,000)	(2,587,000)
Total		\$ (8,128,000)	\$ (5,635,000)
Total derivative instruments		\$ (6,088,000)	\$ (2,593,000)

Effect of derivative instruments on the consolidated statement of operations for the six-month periods ended June 30, 2011 and 2010:

	Location of gain/loss reclassified from OCI into income	Amount of gain/loss reclassified from accumulated OCI into income	
		2011	2010
<i>Derivatives designated as cash-flow hedges</i>			
Interest rate swap derivatives	Interest expense	\$ 0	\$ (347,000)
		\$ 0	\$ (347,000)

	Location of gain/loss recognized in income	Amount of gain/loss recognized in income	
		2011	2010
<i>Derivatives not designated as cash-flow hedge instruments</i>			
Natural gas commodity contracts	Unrealized gain(loss) on derivative instruments	\$ (998,000)	\$ 1,570,000
Crude oil commodity contracts	Unrealized gain(loss) on derivative instruments	(2,498,000)	7,673,000
Natural gas commodity contracts	Oil and gas sales	1,972,000	1,646,000
Crude oil commodity contracts	Oil and gas sales	(1,836,000)	(96,000)
		\$ (3,360,000)	\$ 10,793,000

Table of Contents**(12) Earnings Per Share:**

Basic earnings per share are computed by dividing earnings available to common stockholders by the weighted average number of common shares outstanding during the period. Diluted earnings per share reflect per share amounts that would have resulted if dilutive potential common stock had been converted to common stock in gain periods. The following reconciles amounts reported in the financial statements:

	Six Months Ended June 30, 2011			Six Months Ended June 30, 2010		
	Net Income	Weighted Average Number of Shares Outstanding	Per Share Amount	Net Income	Weighted Average Number of Shares Outstanding	Per Share Amount
Basic	\$ 821,000	2,767,124	\$ 0.30	\$ 9,675,000	2,996,491	\$ 3.23
Effect of dilutive securities:						
Options		734,671			735,395	
Diluted	\$ 821,000	3,501,795	\$ 0.23	\$ 9,675,000	3,731,886	\$ 2.59

	Three Months Ended June 30, 2011			Three Months Ended June 30, 2010		
	Net Income	Weighted Average Number of Shares Outstanding	Per Share Amount	Net Income	Weighted Average Number of Shares Outstanding	Per Share Amount
Basic	\$ 3,203,000	2,755,035	\$ 1.16	\$ 6,235,000	2,964,696	\$ 2.09
Effect of dilutive securities:						
Options		736,739			729,694	
Diluted	\$ 3,203,000	3,491,774	\$ 0.92	\$ 6,235,000	3,694,390	\$ 1.68

Table of Contents

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This discussion should be read in conjunction with the consolidated financial statements of the Company and notes thereto.

OVERVIEW

The Company presently owns producing and non-producing properties located primarily in Texas, Oklahoma, West Virginia, the Gulf of Mexico, New Mexico, Colorado and Louisiana, and owns a substantial amount of well servicing equipment. All of the Company's oil and gas properties and interests are located in the United States. Assets in our principal focus areas include mature properties with long-lived reserves and significant development opportunities as well as newer properties with development and exploration potential. We believe our balanced portfolio of assets and our ongoing hedging program position us well for both the current commodity price environment and future potential upside as we develop our attractive resource opportunities. Our primary sources of liquidity are cash generated from our operations and our credit facility.

The Company attempts to assume the position of operator in all acquisitions of producing properties. The Company will continue to evaluate prospects for leasehold acquisitions and for exploration and development operations in areas in which it owns interests and is actively pursuing the acquisition of producing properties. In order to diversify and broaden its asset base, the Company will consider acquiring the assets or stock in other entities and companies in the oil and gas business. The main objective of the Company in making any such acquisitions will be to acquire income producing assets so as to increase the Company's net worth and increase the Company's oil and gas reserve base.

Our cash flows depend on many factors, including the price of oil and gas, the success of our acquisition and drilling activities and the operational performance of our producing properties. We use derivative instruments to manage our commodity price risk. This practice may prevent us from receiving the full advantage of increases in oil and gas prices above the maximum fixed amount specified in the derivative agreements and subjects us to the credit risk of the counterparties to such agreements. Since all of our derivative contracts are accounted for under mark-to-market accounting, we expect continued volatility in gains and losses on mark-to-market derivative contracts in our consolidated income statement as changes occur in the NYMEX price indices.

RECENT ACTIVITIES

During the first six months of 2011, the Company continued its drilling program in our West Texas district, drilling a total of 15 gross (10.4 net) wells, all of which were successful completions. The Company intends to drill approximately 30 wells this year, primarily in West Texas.

In June 2011 the Company successfully completed the amendment of its \$250,000,000 credit facility with an increase in the current borrowing base from \$100,000,000 to \$125,000,000 and closed our previously existing subordinated credit facility with a related party private lender.

LIQUIDITY AND CAPITAL RESOURCES

Cash flow provided by operations for the six month period ended June 30, 2011 was \$19,449,000. Excluding the effects of significant unforeseen expenses or other income, our cash flow from operations fluctuates primarily because of variations in oil and gas production and prices or changes in working capital accounts. Our oil and gas production will vary based on actual well performance but may be curtailed due to factors beyond our control. Hurricanes in the Gulf of Mexico may shut down our production for the duration of the storm's presence in the Gulf or damage production facilities so that we cannot produce from a particular property for an extended amount of time. In addition, downstream activities on major pipelines in the Gulf of Mexico can also cause us to shut-in production for various lengths of time.

Our realized oil and gas prices vary due to world political events, supply and demand of products, product storage levels, and weather patterns. We sell the vast majority of our production at spot market prices. Accordingly, product price volatility will affect our cash flow from operations. To mitigate price volatility we sometimes lock in prices for some portion of our production through the use of financial instruments.

The Company's activities include development and exploratory drilling. The Company's strategy is to develop a balanced portfolio of drilling prospects that includes lower risk wells with a high probability of success and higher risk wells with greater economic potential. The Company plans on drilling in excess of 30 wells (20 net), mainly in the Permian Basin in West Texas.

The Company has in place both a stock repurchase program and a limited partnership interest repurchase program under which the Company expects to continue spending during 2011. For the six month period ended June 30, 2011, the Company spent \$1,348,000 under these programs.

Edgar Filing: PRIMEENERGY CORP - Form 10-Q

The Company currently maintains a credit facility totaling \$250 million, with a current borrowing base of \$125 million. The bank reviews the borrowing base semi-annually and, at their discretion, may decrease or propose an increase to the borrowing base relative to a redetermined estimate of proved oil and gas reserves. Our oil and gas properties are pledged as collateral for the line of credit and we are subject to certain financial covenants defined in the agreement. We are currently in compliance with these financial covenants.

Table of Contents

If we do not comply with these covenants on a continuing basis, the lenders have the right to refuse to advance additional funds under the facility and/or declare all principal and interest immediately due and payable.

It is the goal of the Company to increase its oil and gas reserves and production through the acquisition and development of oil and gas properties. The Company also continues to explore and consider opportunities to further expand its oilfield servicing revenues through additional investment in field service equipment. However, the majority of the Company's capital spending is discretionary, and the ultimate level of expenditures will be dependent on the Company's assessment of the oil and gas business environment, the number and quality of oil and gas prospects available, the market for oilfield services, and oil and gas business opportunities in general.

RESULTS OF OPERATIONS

Revenues and net income during the six and three month periods ended June 30, 2011, as compared to the same periods in 2010 reflect the increased oil and gas sales, presented below, offset by depreciation and depletion of oil and gas properties. The table summarizes production volumes and average sales prices realized (including realized gains and losses from derivatives).

	Six Months Ended June 30,			Three Months Ended June 30,		
	2011	2010	Increase / (Decrease)	2011	2010	Increase / (Decrease)
Barrels of Oil Produced	303,000	328,000	(25,000)	147,000	168,000	(21,000)
Average Price Received (rounded, including the impact of derivatives)	\$ 87.28	\$ 72.90	\$ 14.38	\$ 88.73	\$ 70.83	\$ 17.89
Oil Revenue	\$ 26,447,000	\$ 23,910,000	\$ 2,537,000	\$ 13,043,000	\$ 11,900,000	\$ 1,143,000
Mcf of Gas Produced	2,409,000	3,071,000	(662,000)	1,243,000	1,533,000	(290,000)
Average Price Received (rounded, including the impact of derivatives)	\$ 7.13	\$ 6.49	\$ 0.64	\$ 7.34	\$ 6.28	\$ 1.06
Gas Revenue	\$ 17,169,000	\$ 19,924,000	\$ (2,755,000)	\$ 9,128,000	\$ 9,629,000	\$ (501,000)
Total Oil & Gas Revenue	\$ 43,616,000	\$ 43,834,000	\$ (218,000)	\$ 22,171,000	\$ 21,529,000	\$ 642,000

Oil and gas prices received excluding the impact of derivatives were:

	Six Months Ended June 30,			Three Months Ended June 30,		
	2011	2010	Increase / (Decrease)	2011	2010	Increase / (Decrease)
Oil Price	\$ 93.34	\$ 73.19	\$ 20.15	\$ 96.72	\$ 71.36	\$ 25.36
Gas Price	\$ 6.31	\$ 5.95	\$ 0.36	\$ 6.60	\$ 5.51	\$ 1.09

The decrease in oil production reflects the natural decline of existing properties offset by production from properties added during 2010 and 2011. The decrease in gas production is primarily due to the natural decline of the offshore properties.

Lease operating expense for the six months of 2011 decreased by \$728,000 or 4.15 % compared to 2010 reflecting a decrease in expensed workovers across all districts.

General and administrative expenses increased \$1,060,000 in the first six months of 2011 or 17.73% as compared to 2010 primarily due to increased personnel costs including engineering consultants, and employee related taxes and insurance.

Field service income for the six months of 2011 increased \$1,931,000 or 24.62% compared to 2010. Field service expense for the six months of 2011 increased \$1,611,000 or 24.66% compared to 2010. The changes in field service income are a direct result of changes in utilization of equipment and rates charged to customers. Workover rig services represent the bulk of our operation, and those rates all increased in our most

Edgar Filing: PRIMEENERGY CORP - Form 10-Q

active districts. Utilization of our workover rigs increased in all districts. Water hauling and disposal services also increased in our South Texas district. The most significant costs included in field service expense are salaries and employee-related expenses. These costs increased relative to our increased utilization and rates.

Depreciation, depletion, amortization and accretion on discounted liabilities expense increased to \$18,031,000 in 2011 from \$16,929,000 in 2010 or 6.51%. This increase is primarily related to the additional properties and equipment added during 2010 and 2011 combined with decreased offshore reserves.

This report may contain statements relating to the future results of the Company that are considered forward-looking statements as defined in the Private Securities Litigation Reform Act of 1995 (the PSLRA). In addition, certain statements may be contained in the Company's future filings with the SEC, in press releases, and in oral and written statements made by or with the approval of the Company that are not statements of historical fact and constitute forward-looking statements within the meaning of the PSLRA. Such

Table of Contents

forward-looking statements, in addition to historical information, which involve risk and uncertainties, are based on the beliefs, assumptions and expectations of management of the Company. Words such as expects, believes, should, plans, anticipates, will, potential, could, in outlook, predict, project, would, estimates, assumes, likely and variations of such similar expressions are intended to identify such forward-looking statements. These statements are not guarantees of future performance and involve risks and uncertainties and are based on a number of assumptions that could ultimately prove inaccurate and, therefore, there can be no assurance that they will prove to be accurate. Actual results and outcomes may vary materially from what is expressed or forecast in such statements due to various risks and uncertainties. These risks and uncertainties include, among other things, the possibility of drilling cost overruns and technical difficulties, volatility of oil and gas prices, competition, risks inherent in the Company's oil and gas operations, the inexact nature of interpretation of seismic and other geological and geophysical data, imprecision of reserve estimates, and the Company's ability to replace and expand oil and gas reserves. Accordingly, stockholders and potential investors are cautioned that certain events or circumstances could cause actual results to differ materially from those projected. The forward looking statements are made as of the date of this report and the Company assumes no obligation to update the forward-looking statement or to update the reasons why actual results could differ from those projected in the forward-looking statements.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company is a smaller reporting company and no response is required pursuant to this Item.

Item 4. CONTROLS AND PROCEDURES

As of the end of the current reported period covered by this report, the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to Rules 13a-15 and 15d-15 of the Securities Exchange Act of 1934 (the Exchange Act). Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective with respect to the recording, processing, summarizing and reporting, within the time periods specified in the Commission's rules and forms, of information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act.

There were no changes in the Company's internal control over financial reporting that occurred during the first six months of 2011 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Table of Contents**PART II OTHER INFORMATION****Item 1. LEGAL PROCEEDINGS**

Not applicable.

Item 1A. RISK FACTORS

The Company is a smaller reporting company and no response is required pursuant to this Item.

Item 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

There were no sales of equity securities by the Company during the period covered by this report.

During the six months ended June 30, 2011, the Company purchased the following shares of common stock as treasury shares.

2011 Month	Number of Shares	Average Price Paid per share	Maximum Number of Shares that May Yet Be Purchased Under The Program at Month - End (1)
January	17,225	\$ 19.44	238,372
February	12,110	\$ 24.08	226,262
March	12,492	\$ 26.61	213,770
April	5,227	\$ 27.63	208,543
May	1,788	\$ 27.17	206,755
June	1,152	\$ 23.55	205,603
Total/Average	49,994	\$ 23.58	

- (1) In December 1993, we announced that our Board of Directors authorized a stock repurchase program whereby we may purchase outstanding shares of our common stock from time-to-time, in open market transactions or negotiated sales. The Board of Directors of the Company approved an additional 300,000 shares of the Company's stock to be included in the stock repurchase program effective May 20, 2010. A total of 3,000,000 shares have been authorized, to date, under this program. Through June 30, 2011 we repurchased a total of 2,794,397 shares under this program for \$38,732,325 at an average price of \$13.86 per share. Additional purchases may occur as market conditions warrant. We expect future purchases will be funded with internally generated cash flow or from working capital.

Item 3. DEFAULTS UPON SENIOR SECURITIES

None

Item 4. RESERVED

Item 5. OTHER INFORMATION

None
