We, Famous Dave s of America, Inc. (Famous Dave s or the Company), were incorporated in Minnesota on March 14, 1994. We develop, own, operate and franchise restaurants under the name Famous Dave s . As of October 2, 2011, there were 184 Famous Dave s restaurants operating in 37 states, including 53 company-owned restaurants and 131 franchise-operated restaurants. An additional 71 franchise restaurants were committed to be developed through signed area development agreements as of October 2, 2011.

We prepared these consolidated financial statements in accordance with Securities and Exchange Commission (SEC) Rules and Regulations. These unaudited financial statements represent the consolidated financial statements of Famous Dave s and its subsidiaries as of October 2, 2011 and January 2, 2011 and for the three and nine month periods ended October 2, 2011 and October 3, 2010. The information furnished in these financial statements includes normal recurring adjustments and reflects all adjustments, which are, in our opinion, necessary for a fair presentation. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. These consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in our Form 10-K for the fiscal year ended January 2, 2011 as filed with the SEC.

Due to the seasonality of our business, revenue and operating results for the three and nine months ended October 2, 2011 are not necessarily indicative of the results to be expected for the full year.

Reclassifications Certain reclassifications have been made to prior year amounts to conform to the current year s presentation.

(2) Net Income Per Common Share

Basic net income per common share (EPS) is computed by dividing net income by the weighted average number of common shares outstanding for the reporting period. Diluted EPS equals net income divided by the sum of the weighted average number of shares of common stock outstanding plus all additional common stock equivalents, such as stock options, when dilutive.

Following is a reconciliation of basic and diluted net income per common share:

<i>(in thousands, except per share data)</i>	Three Months Ended		Nine Months Ended

There were 25,500 options outstanding as of October 2, 2011 and October 3, 2010 that were not available to be included in the computation of diluted EPS because they were anti-dilutive.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(3) Allowance for Doubtful Accounts

Accounts Receivable, Net We provide an allowance for uncollectible accounts on accounts receivable based on historical losses and existing economic conditions, when relevant. We provide for a general bad debt reserve for franchise receivables due to increases in days sales outstanding and deterioration in general economic market conditions. This general reserve is based on the aging of receivables meeting specified criteria and is adjusted each quarter based on past due receivable balances. Additionally, we have periodically established a specific reserve on certain receivables as necessary. Any changes to the reserve are recorded in general and administrative expenses. The allowance for uncollectible accounts was approximately \$42,000 and \$80,000 at October 2, 2011 and January 2, 2011, respectively. Accounts receivable are written off when they become uncollectible, and payments subsequently received on such receivables are credited to allowance for doubtful accounts. Accounts receivable balances written off have not exceeded allowances provided. We believe all accounts receivable in excess of the allowance are fully collectible. If accounts receivable in excess of provided allowances are determined uncollectible, they are charged to expense in the period that determination is made. Outstanding past due accounts receivable are subject to a monthly interest charge on unpaid balances which is recorded as interest income in our consolidated statements of operations. In assessing recoverability of these receivables, we make judgments regarding the financial condition of the franchisees based primarily on past and current payment trends, as well as other variables, including annual financial information, which the franchisees are required to submit to us, as well as other variances.

(4) Public Relations and Marketing Development Fund and Restricted Cash

We have a system-wide Public Relations and Marketing Development Fund, to which company-owned restaurants, in addition to franchise-operated restaurants on which franchise agreements were signed after December 17, 2003, are required to contribute a percentage of net sales, currently 0.75%, for use in public relations and marketing development efforts throughout the system. The assets held by this fund are considered restricted. Accordingly, we reflect the cash related to this fund in restricted cash and reflect the liability in accounts payable on our consolidated balance sheets as of October 2, 2011 and January 2, 2011. As of October 2, 2011 and January 2, 2011, we had approximately \$288,000 and \$94,000 in this fund, respectively.

(5) Credit Facility, Long-Term Debt and Debt Covenants

The Company and certain of its subsidiaries (collectively known as the Borrower) currently have a Credit Agreement with Wells Fargo Bank, National Association, as administrative agent and lender (the Lender). The Credit Agreement was amended on July 5, 2011 and will expire on July 5, 2016, and contains a \$30.0 million revolving credit facility (the Facility) with an opportunity, subject to the Company meeting identified covenants and elections, to increase the commitment to \$50.0 million, and a term loan (the Term Loan).

Principal amounts outstanding under the Facility bear interest either at an adjusted Eurodollar rate plus an applicable margin or at a Base Rate plus an applicable margin. The Base Rate is defined in the agreement as the greater of the Federal Funds Rate (0.25% at October 2, 2011) plus 0.75% or Wells Fargo's prime rate (3.25% at October 2, 2011). The applicable margin will depend on the Company's Adjusted Leverage Ratio, as defined, at the end of the previous quarter and will range from 1.50% to 2.25% for Eurodollar Rate Loans and from -0.00% to +0.75% for Base Rate Loans. Unused portions of the Facility will be subject to an unused Facility fee which will be equal to either 0.25% or 0.375% of the unused portion, depending on the Company's Adjusted Leverage Ratio. Our rate for the unused portion of the Facility as of October 2, 2011, was 0.375%. An increase option exercise fee will apply to increased amounts between \$30.0 and \$50.0 million. Our current weighted average interest rate for the credit facility for the nine months ended October 2, 2011 was 2.74%.

Table of Contents**FAMOUS DAVE S OF AMERICA, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

The Facility contains customary affirmative and negative covenants for credit facilities of this type, including limitations on the Borrower with respect to indebtedness, liens, investments, distributions, mergers and acquisitions, dispositions of assets and transactions with affiliates of the Borrower, among others. The Facility also includes various financial covenants that have maximum target capital expenditures, cash flow ratios, and adjusted leverage ratios. If the Company's Adjusted Leverage Ratio is greater than 3.00 to 1.00, an additional covenant applies that limits the maximum royalty receivable aged past 30 days. In addition, capital expenditure limits include permitted stock repurchase limits (limited to \$10.0 million in aggregate during any 12 month period, and \$30.0 million in aggregate during the term of the agreement) beginning with the recent amendment of July 5, 2011.

The July amendment to the Credit Agreement accelerated the maturity date of the Term loan, which now matures on July 5, 2016. Principal amounts outstanding under the Term Loan bear interest at the same rate as the Facility. The weighted average interest rate of the Term Loan for the nine months ended October 2, 2011 was 2.60%. As required by the July Credit Agreement amendment, the Company is now required to make minimum annual amortization payments of 10.0% of the principal balance of the Term Loan.

The Credit Agreement currently provides for up to \$3.0 million in letters of credit to be used by the Company, with any amounts outstanding reducing our availability for general corporate purchases, and also allows for the termination of the Facility by the Borrower without penalty at any time. At October 2, 2011, the principal amount outstanding under the Facility and the Term Loan was \$10.0 million and \$6.2 million, respectively, and we had approximately \$779,000 in letters of credit for real estate locations. We were in compliance with all covenants as of October 2, 2011.

We expect to use any borrowings under the Credit Agreement for general working capital purchases as needed. Under the Credit Agreement, the Borrower has granted the Lender a security interest in all current and future personal property of the Borrower.

Performance Shares

As of October 2, 2011, we had three performance share programs in progress. All of these performance share awards qualify for equity-based treatment as required under the FASB Accounting Standards Codification for Stock Compensation. Accordingly, we recognize compensation cost for these share-based awards based on their fair value, which is the closing stock price at the date of grant over the requisite service period (i.e. fixed treatment). Participants in each performance share program are entitled to receive a specified number of shares of the common stock (Performance Shares) based upon our achieving a specified percentage of the cumulative total of the earnings per share goals established by our compensation committee for each fiscal year within a three-year performance period (the Cumulative EPS Goal). In the second and third year of any performance share program, the estimated attainment percentage is based on the forecasted earnings per share for that program. For the 2009 and 2010 programs, the attainment percentages were estimated at 100.0% and 96.7%, respectively. In the first year of any program, we estimate the attainment rate to be 100.0%. In accordance with FASB Accounting Standards Codification for Stock Compensation, we have recorded compensation net of the estimated non-attainment rates. We will continue to evaluate the need to adjust the attainment percentages in future periods.

Table of Contents**FAMOUS DAVES OF AMERICA, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

During the first quarter of fiscal 2011, we issued 24,632 shares upon satisfaction of conditions under the 2008 performance share program, representing the achievement of approximately 91.2% of the target payout for this program. Recipients elected to forfeit 8,412 of those shares to satisfy tax withholding obligations, resulting in a net issuance of 16,220 shares.

For each of the three programs currently in progress, if the Company achieves at least 80% of the Cumulative EPS Goal, then each recipient will be entitled to receive a percentage of the Target number of Performance Shares granted that is equal to the percentage of the Cumulative EPS Goal achieved, up to 100%. The maximum share payout a recipient will be entitled to receive is 100% of the Target number of Performance Shares granted if the Cumulative EPS Goal is met.

At October 2, 2011, the following performance share programs were in progress:

Award Date	Performance Share Program	Target No. of Performance Shares (Originally Granted)⁽²⁾	No. of Performance Shares (Outstanding at October 2, 2011)
12/29/2008	2009 Program ⁽¹⁾	280,300	266,600 ⁽³⁾
1/4/2010	2010 Program	193,700	179,296 ⁽⁴⁾
1/3/2011	2011 Program	129,900	126,400 ⁽³⁾

(1) The aggregate target number of performance shares awarded under this program was significantly higher than previous or subsequent years as a result of one-time grants related to the hiring of several new executives and board members in late 2008 and early 2009, and a significantly lower stock price at the grant date.

(2) Assumes achievement of 100% of the applicable cumulative EPS goal.

(3) Assumes an estimated payout equal to the achievement of 100% of the applicable cumulative EPS goal, net of employee forfeitures.

(4) Assumes achievement of 96.7% of the applicable cumulative EPS goal, net of employee forfeitures.

program for approximately \$3.1 million at an average market price per share of \$10.15, excluding commissions. Since the program was adopted in November 2010, we have repurchased 480,230 shares for approximately \$4.9 million at an average market price per share of \$10.21, excluding commissions.

Employee Stock Purchase Plan

The Company maintains an Employee Stock Purchase Plan, which gives eligible employees the option to purchase Common Stock (total purchases in a year may not exceed 10% of an employee's current year compensation) at 100% of the fair market value of the Common Stock at the end of each calendar quarter. There were approximately 1,640 and 1,368 shares purchased, respectively, with a weighted average fair value of \$8.32 and \$9.46 during the third quarter of 2011 and third quarter of 2010, respectively. For the nine months ended October 2, 2011 and October 3, 2010, there were approximately 4,079 shares and 4,556 shares purchased, respectively, with a weighted average fair value of \$9.25 and \$8.55, respectively. For the nine months ended October 2, 2011 and October 3, 2010 the Company recognized no expense related to the stock purchase plan due to it being non-compensatory as defined by IRS Section 423.

(9) Retirement Savings Plans

401(k) Plan

We have a pre-tax salary reduction/profit-sharing plan under the provisions of Section 401(k) of the Internal Revenue Code, which covers employees meeting certain eligibility requirements. In fiscal 2011, we will match 25.0%, and in fiscal 2010, we matched 25.0%, of the employee's contribution up to 4.0% of their earnings. Employee contributions were approximately \$151,000 and \$138,000 for the third quarter of fiscal years 2011 and 2010, respectively. The employer match was \$24,000 and \$22,000, respectively, for the third quarter of fiscal years 2011 and 2010. For the nine months ended October 2, 2011 and October 3, 2010, eligible participants contributed approximately \$444,000 and \$455,000, respectively, to the plan and the Company provided matching funds of approximately \$67,000 and \$71,000, respectively. There were discretionary contributions to the Plan of \$10,000 and \$11,000, respectively, during the nine months of fiscal years 2011 and 2010, respectively.

Non-Qualified Deferred Compensation Plan

We have a Non-Qualified Deferred Compensation Plan effective as of February 25, 2005 (the "Deferred Compensation Plan"). Eligible participants are those employees who are at the director level and above and who are selected by the Company to participate in the Deferred Compensation Plan. Participants must complete a deferral election each year to indicate the level of compensation (salary, bonus and commissions) they wish to have deferred for the coming year. This deferral election is irrevocable except to the extent permitted by the Deferred Compensation Plan Administrator, and the Regulations promulgated by the IRS. During fiscal 2011 and fiscal 2010, we are matching 25% of the first 4.0% contributed and paying a declared interest rate of 6.0% on balances outstanding. The board of directors administers the Deferred Compensation Plan and may change the rate or any other aspects of the Deferred Compensation Plan at any time.

Deferral periods are limited to the earlier of termination of employment or not less than three calendar years following the end of the applicable plan year. Extensions of the deferral period for a minimum of five years are allowed provided an election for extension is made at least one year before the first payment affected by the change. Payments can be in a lump sum or in equal payments over a two-, five- or ten-year period, plus interest from the commencement date.

The Deferred Compensation Plan assets are kept in an unsecured account that has no trust fund. In the event of bankruptcy, participants entitled to future payments under the Deferred Compensation Plan would have no greater rights than that of an unsecured general creditor of the Company and the Deferred Compensation Plan

confers no legal rights for interest or claim on any specific assets of the Company. Benefits provided by the Deferred Compensation Plan are not insured by the Pension Benefit Guaranty Corporation (PBGC) under Title IV of the Employee Retirement Income Security Act of 1974 (ERISA), because the pension insurance provisions of ERISA do not apply to the Deferred Compensation Plan.

For the quarter ended October 2, 2011 and October 3, 2010, eligible participants contributed approximately \$31,000 and \$21,000 to the Deferred Compensation Plan, respectively, and the Company provided matching funds and interest of approximately \$17,000 and \$13,000, respectively. (10) Asset Impairment and Estimated Lease Termination and Other Closing Costs

In accordance with FASB Accounting Standards Codification for Property, Plant, and Equipment, we evaluate restaurant sites and long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of restaurant sites to be held and used is measured by a comparison of the carrying amount of the restaurant site to the undiscounted future net cash flows expected to be generated on a restaurant-by-restaurant basis. If a restaurant is determined to be impaired, the loss is measured by the amount by which the carrying amount of the restaurant site exceeds its fair value. Fair value is estimated based on the best information available including estimated future cash flows, expected growth rates in comparable restaurant sales, remaining lease terms and other factors. If these assumptions change in the future, we may be required to take additional impairment charges for the related assets. Considerable management judgment is necessary to estimate future cash flows. Accordingly, actual results could vary significantly from such estimates. Restaurant sites that are operating but have been previously impaired are reported at the lower of their carrying amount or fair value less estimated costs to sell. Following is a summary of these events during the third quarter of fiscal 2011 and fiscal 2010.

(2) Based on the Company's assessment of expected cash flows, an asset impairment charge was recorded, in accordance with FASB Accounting Standards Codification for Property Plant and Equipment, for this restaurant which we expect to relocate within its existing market in early 2013.

(11) Fair Value Measurements*Non-Financial Assets Measured on a Non-Recurring Basis*

In the first quarter of fiscal 2011, an impairment charge was recorded for approximately \$148,000 for a restaurant that the Company expects to relocate within its existing market in early 2013. This restaurant had a carrying value of approximately \$327,000. We determined fair value based on projected discounted future operating cash flows of the restaurants over their remaining service life using a discount rate that is commensurate with the risk inherent in our current business model, which reflects our own judgment. According to the FASB Accounting Standards Codification for Fair Value Measurements and Disclosures, the fair value of approximately \$179,000 was determined by using significant unobservable inputs (Level 3).

(12) Acquisition of Seven Restaurants in New York and New Jersey

On March 3, 2010, the Company purchased the assets of seven of nine Famous Dave s restaurants located in New York and New Jersey previously owned and operated by a Famous Dave s franchisee, North Country BBQ Ventures, Inc. Famous Dave s of America, Inc. continues to operate the restaurants. Of the two restaurants that were not acquired; one was subsequently closed and the other was purchased out of bankruptcy by another buyer who assumed the existing franchise agreement.

The following unaudited pro forma information presents a summary of the results of operations of the Company assuming the acquisition of the seven restaurants described above occurred at the beginning of fiscal 2010 as required by FASB Accounting Standards Codification for Business Combinations. Pro forma results were based on the previous owner s unaudited financial statement which is permitted under the Securities and Exchange Commission rules for business that did not meet the significant subsidiary criteria. These results were then adjusted for the impact of certain acquisition-related items, such as: additional amortization of identified intangible assets, additional depreciation expense of property and equipment recorded at fair value, increased interest expense on acquisition debt, inclusion of transaction-related charges and related income tax effects.

The pro forma financial information is presented for informational purposes only and is not indicative of the results of operations that would have been achieved if the acquisition had taken place at the beginning of fiscal 2010, nor is it indicative of future operating results.

Item 2. MANAGEMENT S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS OVERVIEW

Famous Dave s of America, Inc. was incorporated as a Minnesota corporation in March 1994 and opened its first restaurant in Minneapolis in June 1995. As of October 2, 2011, there were 184 Famous Dave s restaurants operating in 37 states, including 53 company-owned restaurants and 131 franchise-operated restaurants. An additional 71 franchise restaurants were in various stages of development as of October 2, 2011.

Fiscal Year

Our fiscal year ends on the Sunday closest to December 31st. Our fiscal year is generally 52 weeks; however, it periodically consists of 53 weeks. The fiscal years ending January 1, 2012 (fiscal 2011) and January 2, 2011 (fiscal 2010) are both 52 week fiscal years.

Revenue

Our revenue consists of restaurant sales, franchise-related revenue, and licensing and other revenue. Our franchise-related revenue is comprised of area development fees, initial franchise fees, and continuing royalty payments. Our area development fee consists of a one-time, non-refundable payment equal to \$10,000 per restaurant in consideration for the services we perform in preparation of executing each area development agreement. Substantially all of these services, which include but are not limited to conducting market and trade area analysis, a meeting with Famous Dave s Executive Team, and performing potential franchise background investigation, are completed prior to our execution of the area development agreement and receipt of the corresponding area development fee. As a result, we recognize this fee in full upon receipt. Our initial, non-refundable, franchise fee typically ranges from \$30,000 to \$40,000 per restaurant, of which \$5,000 is recognized immediately when a franchise agreement is signed, reflecting the commission earned and expenses incurred related to the sale. The remaining non-refundable fee of \$25,000 to \$35,000 is included in deferred franchise fees and is recognized as revenue when we have performed substantially all of our obligations, which generally occurs upon the franchise entering into a lease agreement for the restaurant(s). The franchise agreement represents a separate and distinct earnings process from the area development agreements. Franchisees are also required to pay us a monthly royalty equal to a percentage of their net sales, which has historically varied from 4% to 5%. In general, new franchises pay us a monthly royalty of 5% of their net sales.

Because of the continuing difficult economic environment and scarcity of capital for development, we offered a reduced royalty rate for twelve months from date of opening for franchisees that opened restaurants during 2010 and 2009. We have modified and extended this growth incentive program for fiscal 2011. The modification offers new and existing franchisees reduced levels of franchise royalties, based on a sliding scale, for new restaurants opened during 2011. All franchise restaurants opened in the first, second, and third quarters will pay a reduced royalty of 2.5%, 3%, and 4%, respectively, for the remainder of 2011. Any openings in the fourth quarter and beyond would be at the 5% royalty rate.

Costs and Expenses

Restaurant costs and expenses include food and beverage costs, labor and benefits costs, operating expenses which include occupancy costs, repair and maintenance costs, supplies, advertising and promotion, and restaurant depreciation and amortization. Certain of these costs and expenses are variable and will increase or decrease with sales volume. The primary fixed costs are corporate and restaurant management salaries and occupancy costs. Our experience is that when a new restaurant opens, it incurs higher than normal levels of labor and food costs until operations stabilize, usually during the first three to four months of operation. As restaurant management and staff gain experience following a restaurant s opening, labor scheduling, food cost management and operating expense control typically improve to levels similar to those at our more established restaurants.

Table of Contents**FAMOUS DAVE S OF AMERICA, INC. AND SUBSIDIARIES****General and Administrative Expenses**

General and administrative expenses include all corporate and administrative functions that provide an infrastructure to support existing operations and support future growth. Salaries, bonuses, team member benefits, legal fees, accounting fees, consulting fees, travel, rent and general insurance are major items in this category. Additionally, we record expense for Managers In Training (MIT s) in this category for approximately six weeks prior to a restaurant opening. We also provide franchise services for which the revenue is included in other revenue and the expenses are included in general and administrative expenses.

Restaurant Sales, net

Restaurant sales were approximately \$34.3 million for the third quarters of fiscal 2011 and 2010. Our restaurant sales reflect the addition of two new-company owned restaurants in Bel Air, Maryland and Falls Church, Virginia, which opened August of 2010 and 2011, respectively. These increases were offset by the comparable sales decrease of 0.1%. Comparable sales for the quarter reflected the negative impact from weather-related events on the East coast equal to approximately 70 basis points, and also included a weighted average price increase of approximately 3.4%. As a breakdown of the third quarter comparable sales, on a weighted basis, dine-in represented a decline of 1.9%, almost completely offset by increased off-premise sales of 1.8%. For the third quarter of fiscal 2011, off-premise sales were 34.1% of total net sales, with catering representing 13.2% and To-Go representing 20.9%. This compares to off-premise sales of 32.1% for the prior year's third quarter.

Restaurant sales for the nine months ended October 2, 2011 were approximately \$103.6 million compared to approximately \$98.9 million for the nine months ended October 3, 2010, reflecting a 4.7% increase.

Franchise-Related Revenue

Franchise-related revenue consists of royalty revenue and franchise fees, which include initial franchise fees and area development fees. Franchise-related revenue was approximately \$4.4 million for the third quarter of fiscal 2011, compared to \$4.2 million for the third quarter of fiscal 2010. This increase was predominantly due to an increase of approximately \$220,000 in royalty revenue during the third quarter of 2011 compared the prior year period, which reflects a net five additional franchise restaurants year over year, partially offset by a comparable sales decline of 1.0%. Ten new franchise-operated restaurants opened since the third quarter of fiscal 2010 and five restaurants closed. There were 131 franchise-operated restaurants open at October 2, 2011 compared to 126 franchise-operated restaurants open at October 3, 2010.

Franchise-related revenue was approximately \$13.0 million for the nine months ended October 2, 2011 compared to approximately \$12.4 million for the nine months ended October 3, 2010, primarily reflecting a year-over-year increase in royalty revenue of 3.6% for the nine month timeframe.

Licensing and Other Revenue

Licensing revenue includes royalties from a retail line of business, including sauces, rubs, marinades and seasonings. Other revenue includes opening assistance and training we provide to our franchise partners. For the third quarter of fiscal 2011, the licensing royalty revenue was approximately \$148,000 compared to approximately \$130,000 for the comparable period of fiscal 2010. Licensing royalty revenue was approximately \$572,000 for the nine months ended October 2, 2011 as compared to \$507,000 for the comparable period of fiscal 2010.

Other revenue for the fiscal 2011 third quarter was approximately \$80,000 compared to \$103,000 for the comparable prior year quarter. Other revenue for the nine months ended October 2, 2011 was approximately \$211,000 compared to approximately \$182,000 for the comparable period of fiscal 2010.

Food and beverage costs for the third quarter of fiscal 2011 were approximately \$10.3 million or 30.0% of net restaurant sales, compared to approximately \$10.2 million or 29.7% of net restaurant sales for the third quarter of fiscal 2010. This increase primarily reflects the negative impact on food and liquor margins of our special

promotional pricing during the Hog Days of Summer limited time offering related to ribs, wings, and beer. As a percentage of dine-in sales, our adult beverage sales at our company-owned restaurants were 9.0% and 8.8% for the third quarter of fiscal 2011 and 2010, respectively. Food and beverage costs for the first nine months of fiscal 2011 were approximately \$30.6 million or 29.5% of net restaurant sales compared to approximately \$29.1 million or 29.4% of net restaurant sales for the comparable period of fiscal 2010.

Approximately 90% of our food and non-alcoholic beverage purchases are on contract now, and pork, chicken, and brisket represent approximately 55% of total purchases. We are protected on our pork and chicken contracts throughout 2011, at a year over year price increase of approximately 2.3% and 4.9%, respectively. Our brisket contract extends throughout 2011 at a net cost increase of 4.9% over fiscal 2011 s pricing. Lastly, we anticipate an approximate 2.5% year over year increase for the remainder of our contracts, which includes hamburger, seafood, and other key items, such as, our sauces, seasonings, cooking oil, and corn muffin batter. In order to mitigate the cost pressures, we took price increases twice during fiscal 2011 equating to weighted average price increase of approximately 2.6% for 2011. We continue to indentify strategies to combat the rising cost environment, including optimizing our freight distribution network, taking advantage of negotiated early-pay discounts with our food distributor and leveraging our secondary supplier program for key items on our menu. These strategies have helped us partially offset market conditions in fiscal 2011.

Due to some recently added fourth quarter marketing promotions, which carry an increased level of discounting, and higher commodity prices relating to our side items, we now anticipate an approximate 15 20 basis point increase in our food and beverage costs, as a percentage of net sales, year over year.

For 2012, we have locked in pricing for pork purchases, which represents approximately 35% of our total contracted purchases. For the past two years we have been able to mitigate the impact from rising pork prices by effectively blending and extending our existing pork contracts. In late 2011, we made the decision not to blend and extend for 2012 and, as a result, we recently locked in 2012 pricing for pork purchases and anticipate an approximate 20.5% price increase on an annualized basis over fiscal 2011 s pricing. Should we see pork prices soften in 2012, we will aggressively pursue a strategy of blending and extending our pork contracts into fiscal 2013. For other products such as chicken, brisket and several of our key side items, we are actively negotiating our contracts for fiscal 2012. At this time we are projecting a 5% to 7%, year over year increase in contracted food and beverage costs. We will be aggressively trying to offset these price increases, where possible, by continuing our 2011 cost savings initiatives, such as optimizing our distribution network and maximizing freight savings.

Labor and Benefits Costs

Labor and benefits costs for the third quarter ended October 2, 2011 were approximately \$10.8 million or 31.6% of net restaurant sales, compared to approximately \$10.9 million or 31.9% of net restaurant sales for the three months ended October 3, 2010. Labor and benefits for the nine months ended October 2, 2011 were approximately \$32.4 million or 31.3% of net restaurant sales, compared to approximately \$31.2 million or 31.6% of net restaurant sales for the nine months ended October 3, 2010.

For fiscal 2011, we originally anticipated advertising expense, as a percentage of net restaurant sales, to be 3.5%; however we now expect advertising expense will be approximately 3.3%, including a 0.75% contribution to the National Ad Fund. We are confident that we will be able to accomplish our marketing objectives while achieving these cost savings. For fiscal 2011, we still anticipate operating expenses, as percentage of net sales, to be approximately 45 50 basis points higher than 2010 s percentage.

Operating Expenses

Operating expenses for the third quarter of fiscal 2011 were approximately \$9.5 million or 27.8% of net restaurant sales, compared to operating expenses of approximately \$9.5 million or 27.6% of net restaurant sales for the third quarter of fiscal 2010. This year over year increase was primarily related to higher supply,

FAMOUS DAVE S OF AMERICA, INC. AND SUBSIDIARIES

advertising and repairs and maintenance costs, partially offset by lower utility costs. Operating expenses for the nine months ended October 2, 2011 were approximately \$28.6 million or 27.6% of net restaurant sales, compared to approximately \$26.7 million or 27.0% of net restaurant sales for the nine months ended October 3, 2010.

For fiscal 2011, advertising expense will be approximately 3.3% of net sales, including a 0.75% contribution to the National Ad Fund. We are confident that we will be able to accomplish our marketing objectives while still achieving these cost savings. For fiscal 2011, we still anticipate operating expenses, as percentage of net sales, to be approximately 45 – 50 basis points higher than 2010’s percentage.

Depreciation and Amortization

Depreciation and amortization expense for the third quarter of 2011 and 2010 was approximately \$1.4 million or 3.6% of total revenue. Depreciation and amortization expense for the nine months ended October 2, 2011 and October 3, 2010 was approximately \$4.2 million and \$4.1 million, respectively, and was 3.5% and 3.6%, respectively, of total revenue.

Pre-opening Expenses

Pre-opening expenses consist of labor, food, utilities, training and rent costs incurred prior to the opening of a restaurant. Included in pre-opening costs is pre-opening rent for approximately 16 weeks prior to opening but this will vary based on lease terms. During the third quarter of 2011 and 2010, we incurred \$237,000 and \$219,000, respectively, of pre-opening expenses consisting of pre-opening rent and other pre-opening expenses. During the nine months ended October 2, 2011 and October 3, 2010, we incurred pre-opening expenses of \$282,000 and \$300,000, respectively.

Pre-opening expenses during the third quarter of 2011 related to a company-owned restaurant in Falls Church, Virginia that we opened during the third quarter. During the fourth quarter, we will open another company-owned restaurant in Eden Prairie, Minnesota. We anticipate pre-opening expenses for 2011 to be approximately \$436,000, including pre-opening rent, for the two restaurants just mentioned.

Asset Impairment and Estimated Lease Termination and Other Closing Costs

In accordance with FASB Accounting Standards Codification for Property, Plant, and Equipment, we evaluate restaurant sites and long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of restaurant sites to be held and used is measured by a comparison of the carrying amount of the restaurant site to the undiscounted future net cash flows expected to be generated on a restaurant-by-restaurant basis. If a restaurant is determined to be impaired, the loss is measured by the amount by which the carrying amount of the restaurant assets exceeds its fair value. Fair value is estimated based on the best information available including estimated future cash flows, expected growth rates in comparable restaurant sales, remaining lease terms and other factors. If these assumptions change in the future, we may be required to take additional impairment charges for the related assets. Considerable management judgment is necessary to estimate future cash flows. Accordingly, actual results could vary significantly from such estimates. Restaurant sites that are operating but have been previously impaired are reported at the lower of their carrying amount or fair value less estimated costs to sell. The following is a summary of these events during the third quarter of fiscal 2011 and fiscal 2010.

(2) Based on the Company's assessment of expected cash flows, an asset impairment charge was recorded, in accordance with FASB Accounting Standards Codification for Property Plant and Equipment, for this restaurant which we expect to relocate within its existing market in early 2013.

Asset Impairment and Estimated Lease Termination and Other Closing Costs (in thousands):

(1) The Company incurred various costs for previously closed restaurants.

(2) During the year, the Company negotiated lease buyout for this location. Total termination fees were approximately \$506,000 less lease reserve of approximately \$590,000 for a net gain of approximately \$84,000.

General and Administrative Expenses

General and administrative expenses for the third quarter of 2011 were approximately \$4.0 million or 10.3% of total revenue, compared to approximately \$4.0 million or 10.4% of total revenue for the third quarter of fiscal 2010. General and administrative expenses as a percent of total revenue, excluding stock-based compensation and board of directors' cash compensation, were 9.2% for the third quarter of 2011 and 9.6% for the third quarter of 2010, respectively. General and administrative expenses for the first nine months of fiscal 2011, respectively, were approximately \$12.5 million or 10.7% of total revenue compared to approximately \$11.8 million or 10.5% of total revenue for the first nine months of fiscal 2010.

For the third quarter, board of directors' cash and stock-based compensation expense was \$427,000 compared to \$325,000 for the third quarter of 2010. This year over year change reflects a higher stock price in 2011 on the date of grant. We are expecting stock-based and board of director cash compensation to be approximately \$1.7 million in fiscal 2011, as follows (in thousands):

We now expect general and administrative expenses as a percentage of revenue, to be approximately flat to 2010's percentage due to several cost saving initiatives.

Interest Expense

Interest expense was approximately \$261,000 or 0.7% of total revenue for the third quarter of fiscal 2011, compared to approximately \$238,000 or 0.6% of total revenue for the comparable time frame of fiscal 2010. This category includes interest expense for notes payable, financing lease obligations, our line of credit, and a company match and interest for deferrals made under our non-qualified deferred compensation plan.

Interest expense was approximately \$821,000 or 0.7% of total revenue for the first nine months of fiscal 2011 and approximately \$800,000 or 0.7% of total revenue for the first nine months of fiscal 2010. We still expect interest expense, as a percent of total revenue, to be favorable, by 5 to 10 basis points to fiscal 2010's percentage, due to lower debt levels partially offset by slightly higher interest rates.

Interest Income

Interest income was approximately \$6,000 and \$19,000 for the third quarter of fiscal 2011 and fiscal 2010, respectively. Interest income was approximately \$19,000 and \$78,000 for the first nine months of fiscal 2011 and fiscal 2010, respectively. Interest income reflects interest received on short-term cash and cash equivalent balances.

Provision for Income Taxes

For the third quarter of 2011, we recorded an estimated provision for income taxes of approximately \$807,000 or 34.0% of income before income taxes, compared to a tax provision of approximately \$759,000 or 34.2% of income before income taxes, for the third quarter of 2010. We estimate an effective tax rate of approximately 34.0% for fiscal 2011. For the nine months ended October 2, 2011, our tax provision was approximately \$2.7 million, or 34.0% of income before income taxes, compared to the prior year comparable period of approximately \$3.5 million, or 34.4% of income before income taxes.

Basic and Diluted Net Income Per Common Share

Net income for the three months ended October 2, 2011 was approximately \$1.6 million, or \$0.20 per basic share and \$0.19 per diluted share, respectively, on approximately 7,994,000 weighted average basic shares outstanding and 8,173,000 weighted average diluted shares outstanding, respectively. Net income for the three months ended October 3, 2010 was approximately \$1.5 million, or \$0.17 per basic and diluted share on approximately 8,498,000 weighted average basic shares outstanding and 8,631,000 weighted average diluted shares outstanding, respectively.

Net income for the nine months ended October 2, 2011 was approximately \$5.1 million, or \$0.64 per basic share and \$0.63 per diluted share respectively, on approximately 8,041,000 weighted average basic shares outstanding and approximately 8,219,000 weighted average diluted shares outstanding, respectively. Net income for the nine months ended October 3, 2010 was approximately \$6.7 million, or \$0.77 per basic share and \$0.76 per diluted share respectively, on approximately 8,715,000 weighted average basic shares outstanding and approximately 8,870,000 weighted average diluted shares outstanding, respectively.

Financial Condition, Liquidity and Capital Resources

Our balance of unrestricted cash and cash equivalents was approximately \$1.7 million at October 2, 2011 and approximately \$2.7 million at January 2, 2011.

Our current ratio, which measures our immediate short-term liquidity, was 0.86 at October 2, 2011 and 0.81 at January 2, 2011. The current ratio is computed by dividing total current assets by total current liabilities. The change in our ratio was primarily due to increases in our prepaid expenses relating to our estimated income tax

payments made during the quarter and reduction in our accrued compensation and benefits due to the bonus payout in March of 2011. As is true with most restaurant companies, we often operate in a negative working capital environment due to the fact that we receive cash up front from customers and then pay our vendors on a delayed basis.

Net cash provided by operating activities through the third quarter of 2011 was approximately \$8.5 million and reflects net income of approximately \$5.1 million, depreciation and amortization of approximately \$4.2 million, stock-based compensation of \$960,000, an increase in deferred rent of \$644,000, and an increase in other current liabilities of \$570,000. These net increases were partially offset by a decrease in accounts payable of \$1.2 million, a decrease in accrued compensation and benefits of \$1.2 million and an approximate \$654,000 decrease in prepaid expenses and other current assets.

Net cash provided by operating activities for the nine months ended October 3, 2010 was approximately \$9.0 million. Cash provided by operating activities was primarily from net income of approximately \$6.7 million, depreciation and amortization of approximately \$4.1 million, stock-based compensation of \$861,000, an increase in deferred taxes of approximately \$716,000 and an increase in the use of restricted cash of \$516,000. These net increases were partially offset by an approximate \$2.3 million gain on the acquisition of seven restaurants, a decrease in accrued compensation of approximately \$1.2 million and benefits and a decrease in prepaid expenses of \$552,000.

Net cash used for investing activities was approximately \$3.0 million for the first nine months of fiscal 2011 and \$10.3 million for the first nine months of fiscal 2010. During the first nine months of 2011 and 2010, we used approximately \$3.4 million and \$3.7 million, respectively, on capital expenditures for our existing restaurants and for other infrastructure projects. Additionally, we used approximately \$6.8 million for the acquisition of seven restaurants in New York and New Jersey in fiscal 2010.

We still expect total 2011 capital expenditures to be approximately \$5.5 million, reflecting continued investments in our existing restaurants, including several significant remodeling projects, as well as, the conversion costs for two new company-owned restaurants, and continued investments in corporate infrastructure systems.

Net cash used for financing activities was approximately \$6.4 million in the first nine months of fiscal 2011 and net cash used for financing activities was approximately \$44,000 for the first nine months of fiscal 2010. During the first nine months of 2011, we had draws of \$21.9 million on our line of credit and had repayments of \$24.9 million. During the nine months of 2011, we also used approximately \$3.1 million to repurchase 306,130 shares at an average price of \$10.15, excluding commissions, under our current share repurchase program. During the nine months ended October 3, 2010, we had draws of \$17.1 million on our line of credit and had repayments of \$17.0 million. In addition, we borrowed \$6.8 million of long-term debt to finance the acquisition of the New York and New Jersey restaurants. During the nine months of fiscal 2010, we also used approximately \$6.9 million to repurchase approximately 893,000 shares at an average price of \$7.76, excluding commissions, under our previous share repurchase program.

The Company and certain of its subsidiaries (collectively known as the Borrower) currently have a Credit Agreement with Wells Fargo Bank, National Association, as administrative agent and lender (the Lender). The Credit Agreement was amended on July 5, 2011 and will expire on July 5, 2016, and contains a \$30.0 million revolving credit facility (the Facility) with an opportunity, subject to the Company meeting identified covenants and elections, to increase the commitment to \$50.0 million, and a term loan (the Term Loan).

Principal amounts outstanding under the Facility bear interest either at an adjusted Eurodollar rate plus an applicable margin or at a Base Rate plus an applicable margin. The Base Rate is defined in the agreement as the greater of the Federal Funds Rate (0.25% at October 2, 2011) plus 0.75% or Wells Fargo's prime rate (3.25% at October 2, 2011). The applicable margin will depend on the Company's Adjusted Leverage Ratio, as defined, at

Table of Contents

FAMOUS DAVE S OF AMERICA, INC. AND SUBSIDIARIES

the end of the previous quarter and will range from 1.50% to 2.25% for Eurodollar Rate Loans and from -0.00% to +0.75% for Base Rate Loans. Unused portions of the Facility will be subject to an unused Facility fee which will be equal to either 0.25% or 0.375% of the unused portion, depending on the Company's Adjusted Leverage Ratio. Our rate for the unused portion of the Facility as of October 2, 2011, was 0.375%. An increase option exercise fee will apply to increased amounts between \$30.0 and \$50.0 million. Our current weighted average interest rate for the credit facility for the nine months ended October 2, 2011 was 2.74%.

The Facility contains customary affirmative and negative covenants for credit facilities of this type, including limitations on the Borrower with respect to indebtedness, liens, investments, distributions, mergers and acquisitions, dispositions of assets and transactions with affiliates of the Borrower, among others. The Facility also includes various financial covenants that have maximum target capital expenditures, cash flow ratios, and adjusted leverage ratios. If the Company's Adjusted Leverage Ratio is greater than 3.00 to 1.00, an additional covenant applies that limits the maximum royalty receivable aged past 30 days. In addition, capital expenditure limits include permitted stock repurchase limits (limited to \$10.0 million in aggregate during any 12 month period, and \$30.0 million in aggregate during the term of the agreement) beginning with the recent amendment of July 5, 2011.

The July amendment to the Credit Agreement accelerated the maturity date of the Term loan, which now matures on July 5, 2016. Principal amounts outstanding under the Term loan bear interest at the same rate as the Facility. The weighted average interest rate of the Term Loan for the nine months ended October 2, 2011 was 2.60%. As required by the July Credit Agreement amendment, the Company is now required to make minimum annual amortization payments of 10.0% of the principal balance of the Term Loan.

The Credit Agreement currently provides for up to \$3.0 million in letters of credit to be used by the Company, with any amounts outstanding reducing our availability for general corporate purchases, and also allows for the termination of the Facility by the Borrower without penalty at any time. At October 2, 2011, the principal amount outstanding under the Facility and the Term Loan was \$10.0 million and \$6.2 million, respectively, and we had approximately \$779,000 in letters of credit for real estate locations. We were in compliance with all covenants as of October 2, 2011.

We expect to use any borrowings under the Credit Agreement for general working capital purchases as needed. Under the Credit Agreement, the Borrower has granted the Lender a security interest in all current and future personal property of the Borrower.

Contractual Obligations

Please reference the updated Contractual Obligations Table in the second quarter's Form 10-Q filed on August 12, 2011 with the SEC. That table reflects our recently Amended Credit Agreement, which extends the Facility to July 5, 2016. Additionally, it reflects the accelerated amortization and change in the due date of the Term Loan to July 5, 2016. Also see Notes 6 and 7 to our Consolidated Financial Statements in our Fiscal 2010 Annual Report on Form 10-K for the details of our other contractual obligations.

Under the combined Facility and Term Loan we are subject to various financial covenants which have maximum target capital expenditures, cash flow ratios and adjusted leverage ratios.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our Company's financial instruments include cash and cash equivalents and long-term debt. Our Company includes as unrestricted cash and cash equivalents investments with original maturities of three months or less when purchased and which are readily convertible into known amounts of cash. Our Company's unrestricted cash and cash equivalents are not subject to significant interest rate risk due to the short maturities of these instruments. We have no derivative financial instruments or derivative commodity instruments in our cash and cash equivalents. Our total outstanding long-term debt as of October 2, 2011 was approximately \$19.7 million, including our line of credit, our term loan with Wells Fargo and financing lease obligations. The terms of our credit facility with Wells Fargo Bank, National Association, as administrative agent and lender are discussed above under *Management's Discussion and Analysis of Financial Condition and Results of Operations - Financial Condition, Liquidity and Capital Resources*.

Some of the food products purchased by us are affected by commodity pricing and are, therefore, subject to price volatility caused by weather, production problems, delivery difficulties and other factors that are outside our control. To control this risk in part, we have fixed-priced purchase commitments for food from vendors. In addition, we believe that substantially all of our food is available from several sources, which helps to control food commodity risks. We have secondary source suppliers for certain items and in 2011 we have continued to make this a key area of focus in order to protect the supply chain and to ensure a more fair and competitive pricing environment. We believe we have the ability to increase menu prices, or vary the menu options offered, if needed, in response to a food product price increase.

Item 4. CONTROLS AND PROCEDURES

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we conducted an evaluation of our disclosure controls and procedures, as such term is defined under Rule 13a-15(e) promulgated under the Securities Exchange Act of 1934, as amended, as of the end of the period covered by this report. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective.

There has been no change in our internal control over financial reporting during the quarterly period coverage by this report that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. LEGAL PROCEEDINGS

From time to time, we are involved in various legal actions arising in the ordinary course of business. In the opinion of our management, the ultimate dispositions of these matters will not have a material adverse effect on our consolidated financial position and results of operations. Currently, there are no significant legal matters pending.

Item 2. PURCHASES OF EQUITY SECURITIES BY THE ISSUER

On November 4, 2010, our board of directors adopted a stock repurchase plan that authorized the repurchase of up to 1.0 million shares of our common stock from time-to-time in both the open market or through privately negotiated transactions. Since its adoption, we have repurchased 480,230 of the 1.0 million shares under this program, for approximately \$4.9 million at an average market price per share of \$10.21, excluding commissions.

The following table includes information about our share repurchases for the third quarter ended October 2, 2011:
