NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. Overview

ORBCOMM Inc. (ORBCOMM or the Company), a Delaware corporation, is a global wireless data communications company focused on machine-to-machine (M2M) communications. The Company's services are designed to enable businesses and government agencies to track, monitor, and control and communicate with fixed and mobile assets. The Company operates a two-way global wireless data messaging system optimized for narrowband data communication. The Company also provides customers with technology to proactively monitor, manage and remotely control refrigerated transportation assets. This technology enables the Company to expand its global technology platform by transferring capabilities across new and existing vertical markets and deliver complementary products to our channel partners and resellers worldwide. The Company provides these services through a constellation of 25 owned low-Earth orbit, or LEO satellites, 2 AIS microsatellites and accompanying ground infrastructure, and also provides terrestrial-based cellular communication services through reseller agreements with major cellular wireless providers. The Company's satellite-based system uses small, low power, fixed or mobile satellite subscriber communicators (Communicators) for connectivity, and cellular wireless subscriber identity modules, or SIMS that are connected to the cellular wireless providers' networks, with these systems capable of being connected to other public or private networks, including the Internet (collectively, the ORBCOMM System).

2. Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared pursuant to the rules of the Securities and Exchange Commission (the SEC). Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) have been condensed or omitted pursuant to SEC rules. These financial statements should be read in conjunction with the Company's Annual Report on Form 10-K for the year ended December 31, 2012.

In the opinion of management, the financial statements as of June 30, 2013 and for the three and six month periods ended June 30, 2013 and 2012 include all adjustments (including normal recurring accruals) necessary for a fair presentation of the consolidated financial position, results of operations and cash flows for the periods presented. The results of operations for the interim periods are not necessarily indicative of the results to be expected for the full year.

The financial statements include the accounts of the Company, its wholly-owned and majority-owned subsidiaries, and investments in variable interest entities in which the Company is determined to be the primary beneficiary. All significant intercompany accounts and transactions have been eliminated in consolidation. The portions of majority-owned subsidiaries that the Company does not own are reflected as noncontrolling interests in the condensed consolidated balance sheets.

Investments in entities over which the Company has the ability to exercise significant influence but does not have a controlling interest are accounted for under the equity method of accounting. The Company considers several factors in determining whether it has the ability to exercise significant influence with respect to investments, including, but not limited to, direct and indirect ownership level in the voting securities, active participation on the board of directors, approval of operating and budgeting decisions and other participatory and protective rights. Under the equity method, the Company's proportionate share of the net income or loss of such investee is reflected in the Company's condensed consolidated results of operations.

Although the Company owns interests in companies that it accounts for pursuant to the equity method, the investments in those entities had no carrying value as of June 30, 2013 and December 31, 2012. The Company has no guarantees or other funding obligations to those entities. The Company had no equity or losses of those investees for the three and six months ended June 30, 2013 and 2012.

When the Company does not exercise significant influence over the investee the investment is accounted under the cost method.

Acquisition costs

Acquisition-related costs directly relate to acquisitions. These costs include professional services expenses. For the three months ended June 30, 2013 and 2012, acquisition-related costs were \$216 and \$210, respectively. For the six months ended June 30, 2013 and 2012, acquisition-related costs were \$620 and \$633, respectively.

Fair Value of Financial instruments

Edgar Filing: ORBCOMM Inc. - Form 10-Q

The Company has no financial assets or liabilities that are measured at fair value on a recurring basis. However, if certain triggering events occur the Company is required to evaluate the non-financial assets for impairment and any resulting asset impairment would require that a non-financial asset be recorded at the fair value. FASB Topic ASC 820 *Fair Value Measurement Disclosure*, prioritizes inputs used in measuring fair value into a hierarchy of three levels: Level 1- unadjusted quoted prices for identical assets or liabilities traded in active markets, Level 2- inputs other than quoted prices included within Level 1 that are either directly or indirectly observable; and Level 3- unobservable inputs in which little or no market activity exists, therefore requiring an entity to develop its own assumptions that market participants would use in pricing.

The carrying value of the Company's financial instruments, including cash, accounts receivable, note receivable and accounts payable approximated their fair value due to the short-term nature of these items. The carrying value of the Senior Notes approximated its fair value due to the recent issuance (See Note 14). The fair value of the Note payable-related party is de minimis.

Marketable securities

Marketable securities consist of debt securities including U.S. government and agency obligations, corporate obligations and FDIC-insured certificates of deposit, which have stated maturities ranging from three months to less than one year. The Company classifies these securities as held-to-maturity since it has the positive intent and ability to hold until maturity. These securities are carried at amortized cost. The changes in the fair value of these marketable securities, other than impairment charges, are not reported in the consolidated financial statements. The fair value of the Company's marketable securities approximates their carrying value (See Note 7).

Concentration of credit risk

The Company's customers are primarily commercial organizations. Accounts receivable are generally unsecured.

Accounts receivable are due in accordance with payment terms included in contracts negotiated with customers. Amounts due from customers are stated net of an allowance for doubtful accounts. The Company determines its allowance for doubtful accounts by considering a number of factors, including the length of time accounts are past due, the customer's current ability to pay its obligations to the Company, and the condition of the general economy and the industry as a whole. The Company writes-off accounts receivable when they are deemed uncollectible.

Table of Contents

The following table presents customers with revenues greater than 10% of the Company's consolidated total revenues for the periods shown:

	Three Months ended June 30,		Six Months ended June 30,	
	2013	2012	2013	2012
Caterpillar Inc.	15.7%	19.0%	20.0%	18.8%
Komatsu Ltd.	11.5%	12.1%	12.1%	11.8%
Hitachi Construction Machinery Co., Ltd.	*	10.3%	*	10.6%

* Balance is less than 10% of consolidated revenues.

The following table presents customers with accounts receivable greater than 10% of the Company's consolidated accounts receivable for the periods shown:

	June 30, 2013	December 31, 2012
Caterpillar Inc.	35.2%	24.2%

The Company does not currently maintain in-orbit insurance coverage for its satellites to address the risk of potential systemic anomalies, failures or catastrophic events affecting its satellite constellation. If the Company experiences significant uninsured losses, such events could have a material adverse impact on the Company's business.

Inventories

Inventories are stated at the lower of cost or market, determined on a first-in, first-out basis. Inventory consists primarily of raw materials and purchased parts to be utilized by its contract manufacturer. The Company reviews inventory quantities on hand and evaluates the realizability of inventories and adjusts the carrying value as necessary based on forecasted product demand. A provision is made for potential losses on slow moving and obsolete inventories when identified.

Warranty costs

The Company accrues for one-year warranty coverage on product sales estimated at the time of sale based on historical costs to repair or replace products for customers compared to historical product revenues. The warranty accrual is included in accrued liabilities.

Accounting Pronouncements

In February 2013, FASB issued ASU 2013-02, *Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income*. Under ASU 2013-02, an entity is required to provide information about the amounts reclassified out of Accumulated Other Comprehensive Income (AOCI) by component. In addition, an entity is required to present, either on the face of the financial statements or in the notes, significant amounts reclassified out of AOCI by the respective line items of net income, but only if the amount reclassified is required to be reclassified in its entirety in the same reporting period. For amounts that are not required to be reclassified in their entirety to net income, an entity is required to cross-reference to other disclosures that provide additional details about those amounts. ASU 2013-02 is effective for interim and annual periods beginning after December 15, 2012 and is to be applied on prospective basis. ASU 2013-02 does not change the current requirements for reporting net income or other comprehensive income in the financial statements. On January 1, 2013, the Company adopted ASU 2013-02 and will disclose significant amounts reclassified out of AOCI as such transactions arise.

3. Acquisitions**GlobalTrak**

Effective on the close of business on April 3, 2013, the Company completed the acquisition of certain assets and liabilities of GlobalTrak, a division of System Planning Corporation (SPC), pursuant to an Asset Purchase Agreement (GlobalTrak Asset Purchase Agreement) dated as of

Edgar Filing: ORBCOMM Inc. - Form 10-Q

March 13, 2013. The consideration paid to acquire GlobalTrak was \$2,990 in cash, including a preliminary working capital adjustment, of which \$500 was deposited in escrow with a third party escrow agent. The \$500 is available to pay indemnification obligations of SPC to the Company primarily relating for breaches of representations and warranties made by SPC. As this acquisition was effective on April 3, 2013, the results of operations of GlobalTrak are included in the condensed consolidated financial statements beginning April 4, 2013.

Preliminary Estimated Purchase Price Allocation

The total preliminary estimated purchase price was allocated to the net assets acquired based upon their preliminary estimated fair values as of the close of business on April 3, 2013 as set forth below. The excess of the preliminary purchase price over the preliminary net assets was recorded as goodwill. The preliminary allocation of the purchase price was based upon a preliminary valuation and the estimates and assumptions are subject to change. The areas of the preliminary purchase price allocation that are not yet finalized relate to the fair values of certain assets and liabilities, including intangible assets, goodwill and the final working capital adjustment. The Company anticipates finalizing the purchase price allocation by the end of the first quarter of 2014. The preliminary estimated purchase price allocation for the acquisition is as follows:

The fair values of the technology and trade names and trademarks were estimated using a relief from royalty method under the income approach based on discounted cash flows. A discount rate of 37% was selected to reflect risk characteristics of these intangible assets. The discount rate was applied to the projected cash flows associated with the assets in order to value the intangible assets. The remaining useful lives of the technology and trade names and trademarks were based on historical product development cycles, the projected rate of technology migration and a market participant's use of these intangible assets and the pattern of projected economic benefit of these intangible assets.

Goodwill

The acquisition of GlobalTrak gives the Company access to a customer base that includes military, international, government and commercial customers as well as expanded reach in growing regions, such as the Middle East, Asia and South America. These factors contributed to a preliminary estimated purchase price resulting in the recognition of goodwill. The acquired goodwill is deductible for income tax purposes.

Indemnification Asset

In connection with the GlobalTrak Asset Purchase Agreement, the Company entered into an escrow agreement with SPC and an escrow agent. Under the terms of this escrow agreement, \$500 was placed in an escrow account for up to fifteen months to fund any indemnification obligations to the Company primarily relating for breaches of representations and warranties made by SPC. Under the terms of the escrow agreement, SPC will be entitled to receive one-half of the \$500, less the aggregate amount of claims made by the Company against SPC six months from April 3, 2013. In the event that the Company believes that an indemnity obligation of SPC has arisen under the GlobalTrak Asset Purchase Agreement, the Company shall have the right to provide written notice to the escrow agent and SPC setting forth a description of the claim and the amount of cash to be distributed to the Company from the escrow account. As of June 30, 2013, the Company has not recorded an indemnification asset for any indemnity obligations of SPC arising under the GlobalTrak Asset Purchase Agreement. The Company will continue to evaluate if there are any indemnity obligations of SPC arising under the GlobalTrak Asset Purchase Agreement during the remainder

of the measurement period.

Pre-Acquisition Contingencies

The Company has evaluated and continues to evaluate pre-acquisition contingencies related to GlobalTrak that existed as of the acquisition date. If any pre-acquisition contingencies that were acquired as part of the acquisition become probable and estimable, the Company will record such amounts in the measurement period or the Company's results of operations, as applicable.

MobileNet, Inc.

Effective on the close of business on April 1, 2013, the Company completed the acquisition of substantially all of the assets of MobileNet, Inc. (MobileNet), pursuant to an Asset Purchase Agreement (the MobileNet Asset Purchase Agreement) dated as of March 13, 2013. As this acquisition was effective on April 1, 2013, the results of operations of MobileNet are included in the condensed consolidated financial statements beginning April 2, 2013, however the impact of this acquisition was not material to the Company's condensed consolidated results of operations.

The consideration paid by the Company on closing consisted of \$3,203 in cash, subject to a final working capital adjustment specified in the MobileNet Asset Purchase Agreement and the issuance of 329,344 shares of the Company's common stock (valued at \$4.96 per share, which reflects the Company's common stock closing price on April 1, 2013), of which 164,672 shares of common stock were placed into an escrow account for up to fifteen months from closing to fund any indemnification obligations to the Company primarily relating for breaches of representations and warranties made by MobileNet.

In addition to the consideration paid at closing, the MobileNet Asset Purchase Agreement provides for contingent consideration payable by the Company to MobileNet if service revenues attributable to the MobileNet business for either of the two one year earn-out periods May 1, 2013 through April 30, 2014 and May 1, 2014 through April 30, 2015 are in excess of the specified baseline amount. In that event, the Company has agreed to pay to MobileNet an amount equal to (i) 50% of the first \$2,000 of such excess amount for the applicable earn-out period and (ii) 35% of any amount of such excess amount for the applicable earn-out period which is greater than \$2,000. Up to 50% of any potential earn-out amounts can be paid in common stock at the Company's option. Any shares of common stock to be issued will be based on the 20-day average closing price of the common stock prior to the last trading day of the earn-out period. At the acquisition date, the Company recorded a liability of \$1,539 for the estimated value of the earn-out amounts.

Table of Contents

The following table summarizes the preliminary fair values of the purchase price:

Cash	\$ 3,203
Issuance of 329,344 shares of common stock (valued at \$4.96 per share, which reflects the Company's common stock closing price on April 1, 2013)	1,634
Fair value of contingent earn-out amounts	1,539
Total	\$ 6,376

Contingent earn-out consideration

The estimated fair value of the contingent earn-out amounts was determined based on the Company's preliminary estimates using weighted probabilities to achieve the service revenues attributable to the MobileNet business for either of the two one year earn-out periods May 1, 2013 through April 30, 2014 and May 1, 2014 through April 30, 2015. The Company estimated the fair value of the contingent earn-out amounts using a probability-weighted discounted cash flow models discounted at 19%. The Company has recorded a liability for the estimated fair value of the contingent earn-out consideration. The fair value measurements are based on significant inputs not observed in the market and thus represents a Level 3 measurement. Any change in the fair value of the contingent earn-out amounts subsequent to the acquisition date, including changes from events after the acquisition date, will be recognized in earnings in the period the estimated fair value changes. Achievement of the service revenues lower than the targets will result in less being paid out. Achievement below certain thresholds will reduce the liability to zero. As of June 30, 2013 \$481 is included in accrued liabilities and \$1,058 is included in other liabilities in the condensed consolidated balance sheet.

Preliminary Estimated Purchase Price Allocation

The total preliminary estimated purchase price was allocated to the net assets acquired based upon their preliminary estimated fair values as of the close of business on April 1, 2013 as set forth below. The excess of the preliminary purchase price over the preliminary net assets was recorded as goodwill. The preliminary allocation of the purchase price was based upon a preliminary valuation and the estimates and assumptions are subject to change. The areas of the preliminary purchase price allocation that are not yet finalized relate to the fair values of certain assets and liabilities, including contingent consideration, deferred revenues, intangible assets, goodwill and the final working capital adjustment. The Company anticipates finalizing the purchase price allocation by the end of the first quarter of 2014. The preliminary estimated purchase price allocation for the acquisition is as follows:

The fair values of the technology and trademarks were estimated using a relief from royalty method under the income approach based on discounted cash flows. The fair value of the customer lists was estimated based on an income approach using the excess earnings method. A discount rate of 24% was selected to reflect risk characteristics of these intangible assets. The discount rate was applied to the projected cash flows associated with the assets in order to value the intangible assets. The remaining useful lives of the technology and trademarks were based on historical product development cycles, the projected rate of technology migration, a market participant's use of these intangible assets and the pattern of projected economic benefit of these intangible assets. The remaining useful lives of customer relationships were based on the customer attrition and the projected economic benefit of these customers.

Indemnification Asset

In connection with the MobileNet Asset Purchase Agreement, the Company entered into an escrow agreement with MobileNet and an escrow agent. Under the terms of this escrow agreement, 164,672 shares of common stock were issued to MobileNet and placed in an escrow account for up to fifteen months to fund any indemnification obligations to the Company primarily relating for breaches of representations and warranties made by MobileNet. Under the terms of the escrow agreement, MobileNet will retain all rights and privileges of ownership of the common stock placed in the escrow account. Further subject to certain resale restrictions, MobileNet has the right to sell any of the common stock that was placed in escrow provided that all proceeds of any such sale are deposited directly with the escrow agent. In the event that the Company believes that an indemnity obligation of MobileNet has arisen under the MobileNet Asset Purchase Agreement, the Company shall have the right to provide written notice to the escrow agent and MobileNet setting forth a description of the distribution event and the number of shares of the Company's common stock and or amount of cash to be distributed to the Company from the escrow account. The number of shares of common stock that the Company will direct the escrow agent to release to the Company from the escrow account will equal to the distribution event valued at the 20-day average closing price from April 1, 2013. As of June 30, 2013, the Company has not recorded an indemnification asset for any indemnity obligations of MobileNet arising under the MobileNet Asset Purchase Agreement. The Company will continue to evaluate if there are any indemnity obligations of MobileNet arising under the MobileNet Asset Purchase Agreement during the remainder of the measurement period.

Pre-Acquisition Contingencies

The Company has evaluated and continues to evaluate pre-acquisition contingencies related to MobileNet that existed as of the acquisition date. If any pre-acquisition contingencies that were acquired as part of the acquisition become probable and estimable, the Company will record such amounts in the measurement period or the Company's results of operations, as applicable.

LMS

Effective on the close of business on January 12, 2012, the Company completed the acquisition of the assets of LMS, pursuant to an Asset Purchase Agreement dated as of December 23, 2011. As this acquisition was effective on January 12, 2012, the results of operations of LMS are included in the condensed consolidated financial statements beginning January 13, 2012.

The consideration paid by the Company to PAR on closing to acquire LMS consisted of \$4,000 in cash, subject to a final working capital adjustment specified in the Asset Purchase Agreement and the issuance of 645,162 shares of the Company's common stock, of which 387,097 shares of common stock were placed into an escrow account for up to fifteen months from closing to fund any indemnification obligations to the Company, including for breaches of representations and warranties made by PAR. During the three months ended June 30, 2013, the Company and PAR agreed to a working capital adjustment of \$112 for amounts owed to the Company by PAR. This amount was recorded to other income in the Company's condensed consolidated statements of operations for the three and six months ended June 30, 2013 since the adjustment to the working capital exceeded the one-year measurement period.

In addition to the consideration paid at closing, the Asset Purchase Agreement provides for contingent payments of up to \$3,950 payable post-closing by the Company to PAR. Up to \$3,000 of the contingent payments will be payable based on achieving subscriber targets for calendar year 2012. For the year ended December 31, 2012, LMS did not achieve the subscriber targets. Up to \$950 of the contingent payments will be payable based on achieving sales targets through 2014. Any potential earn-out amount can be paid in common stock, cash or a combination at the Company's option. Any shares of common stock to be issued will be based on the 20-day average closing price ending on the third trading day preceding the date of payment. The potential earn-out amount for achieving the sales targets for any calendar year if earned will be paid within 30 days after the Company files its Form 10-K for years 2013 and 2014.

Contingent earn-out consideration

The estimated fair value of the contingent earn-out amount was determined based on the Company's estimates using weighted probabilities to achieve the sales targets for calendar years 2013 through 2014. The Company estimated the fair value of the sales targets contingent earn-out amounts using a probability-weighted discounted cash flow model. The Company has recorded a liability for the estimated fair value of the contingent earn-out consideration. The fair value measurements are based on significant inputs not observed in the market and thus represents a Level 3 measurement. Any change in the fair value of the contingent earn-out amounts subsequent to the acquisition date, including changes from events after the acquisition date will be recognized in earnings in the period the estimated fair value changes. Achievement of the sales target lower than the target will result in less than the \$950 being paid out. Achievement below certain thresholds will reduce the liability to zero. As of June 30, 2013, \$320 is included in accrued liabilities and \$270 is included in other liabilities in the condensed consolidated balance sheet.

Indemnification Asset

In connection with the asset purchase agreement, the Company entered into an escrow agreement with PAR and an escrow agent. Under the terms of this escrow agreement, 387,097 shares of common stock were issued to PAR and placed in an escrow account for up to fifteen months to fund any indemnification obligations to the Company, including for breaches of representations and warranties made by PAR. Under the terms of the escrow agreement, PAR will retain all rights and privileges of ownership of the common stock placed in the escrow account. Further subject to certain resale restrictions, PAR has the right to sell any of the common stock that was placed in escrow provided that all proceeds of any such sale are deposited directly with the escrow agent. In the event that the Company believes that an indemnity obligation of PAR has arisen under the asset purchase agreement, the Company had the right to provide written notice to the escrow agent and PAR setting forth a description of the distribution event and the number of shares of the Company's common stock and or amount of cash to be distributed to the Company from the escrow account.

PAR and the Company have agreed to release \$843 from escrow to PAR. The Company has recorded \$285 for a claim made against PAR under the escrow agreement. The \$285 was recorded to other income in the Company's condensed consolidated statements of operations for the three and six months ended June 30, 2013 since the resolution of the claim exceeded the one-year measurement period. The Company had not recorded an indemnification asset for any indemnity obligations of PAR arising under the asset purchase agreement through the measurement period.

Warranty Liabilities and Escrow Agreement

As a result of the acquisition of StarTrak on May 16, 2011, the Company recorded warranty obligations on StarTrak's product sales, which provide for costs to replace or fix the product. One-year warranty coverage is accrued on product sales which provide for costs to replace or fix the product.

In connection with the acquisition, the Company entered into an escrow agreement with Alanco. Under the terms of the escrow agreement, 166,611 shares of common stock were issued to Alanco and placed in an escrow account to cover 50% of certain costs relating to fuel sensor warranty obligations incurred by the Company. In the event that the sum of (i) aggregate warranty expenses (other than for fuel sensors) and (ii) any fuel sensor damages directly expended or accrued on the StarTrak balance sheet from March 1, 2011 through March 1, 2012 exceeds \$600, the Company shall have the right to provide written notice to the escrow agent and Alanco setting forth a description of the fuel sensor distribution event and the number of shares of the Company's common stock to be distributed to the Company from the escrow account. The number of shares of common stock that the Company will direct the escrow agent to release to the Company from the escrow account will equal 50% of the fuel sensor damages (excluding the amount of damages that when added to the non-fuel sensor damages equals \$600) incurred or suffered from June 1, 2011 through March 1, 2012, valued at \$3.001 per share. The Company is in the process of finalizing the arrangement. As a result, the Company recorded \$469 relating to the escrow agreement as an indemnification asset, which is included in other assets. For the three months ended June 30, 2013 and 2012, the Company recorded a loss of \$75 and \$62, respectively, and for the six months ended June 30, 2013 and 2012 recorded a gain of \$60 and \$28 on the fair value of the common stock held in escrow, which is recorded in selling, general and administrative expenses in the condensed consolidated statements of operations.

4. Satcom International Group plc (Satcom)

On March 28, 2012, the Company purchased the remaining 48% noncontrolling ownership interests in its majority owned subsidiary, Satcom for \$1,119. The consideration consisted of: (i) \$119 in cash and (ii) the issuance of 263,133 shares of the Company's common stock (valued at \$3.80 per share, which reflects the Company's common stock opening stock price on March 28, 2012). The Company incurred transaction fees of \$80 which was recorded as a reduction to additional paid-in capital. As a result, the noncontrolling interests and accumulated other comprehensive income increased by \$180 and \$16, respectively, and additional paid-in capital decreased by \$395.

Concurrently, Satcom paid \$253 to its note holders, which included \$43 to a creditor of Satcom who is a related-party serving as the Company's Chairman of the Board of Directors, in exchange for a waiver and release of all outstanding principal and accrued interest previously recorded in accrued liabilities totaling \$1,340, which included \$290 owed to the related-party. As a result, the Company recognized a gain on extinguishment of debt of \$1,062, net of expenses of \$24 in other income (expense) in its condensed consolidated statements of operations, for the difference between the payments made and the net carrying amounts of the outstanding principal and accrued interest for the six months ended June 30, 2012. Further, Satcom also paid \$128 to a trade creditor in exchange for a waiver and release of the outstanding trade payables totaling \$256. As a result, the Company reduced selling, general and administrative expenses by \$128 in its condensed consolidated statements of operations for the six months ended June 30, 2012.

5. Stock-based Compensation

As of June 30, 2013, the Company had unrecognized compensation cost of \$280 related to these SARs is expected to be recognized through the first quarter of 2014.

The intrinsic value of the SARs exercised was \$107 for the six months ended June 30, 2013.

The fair value of each time and performance-based SAR award is estimated on the date of grant using the Black-Scholes option pricing model with the assumptions described below for the periods indicated. For the six months ended June 30, 2012, the expected volatility was based on an average of the Company's historical volatility over the expected terms of the SAR awards and the comparable publicly traded companies historical volatility. The Company uses the simplified method to determine the expected terms of SARs due to an insufficient history of exercises. Estimated forfeitures were based on voluntary and involuntary termination behavior as well as analysis of actual forfeitures. The risk-free interest rate was based on the U.S. Treasury yield curve at the time of the grant over the expected term of the SAR grants.

Performance Units

Edgar Filing: ORBCOMM Inc. - Form 10-Q

In December 2012, the Company granted Market Performance Units (MPUs) to its senior executives based on its stock price performance over a three-year period. The MPUs will vest at the end of each performance period only if the Company satisfies the stock price performance targets and continued employment by the senior executives through the dates the Compensation Committee has determined that the targets have been achieved. The value of the MPUs that will be earned each year ranges up to 15% of each of the senior executives 2013 base salary depending on the Company's stock price performance target for that year. The value of the MPUs can be paid in either cash or common stock or a combination at the Company's option. The MPUs are classified as a liability and are revalued at the end of reporting period based on the awards fair value over a three-year period.

As the MPUs contain both a performance and service condition, the MPUs have been treated as a series of three separate awards or tranches for purposes of recognizing stock-based compensation expense. The Company recognizes stock-based compensation expense on a tranche-by-tranche basis over the requisite service period for that specific tranche. The Company estimated the fair value of the MPUs granted using a Monte Carlo Simulation Model that used the following assumptions: risk-free interest rates of ranging from 0.12% to 0.56%, estimated volatility factor of 40% and no expected dividends. For the three and six months ended June 30, 2013, the Company recorded stock-based compensation relating to these MPUs of \$38 and \$89, respectively.

Table of Contents**2004 Stock Option Plan**

A summary of the status of the Company's stock options as of June 30, 2013 is as follows:

	Number of Shares	Weighted-Average Exercise Price	Weighted-Average Remaining Contractual Term (years)	Aggregate Intrinsic Value (In thousands)
Outstanding at January 1, 2013	737,291	\$ 2.96		
Granted				
Exercised	(69,535)	2.43

Outstanding at June 30, 2013	667,756	\$ 3.02	0.78	\$ 1,003
Exercisable at June 30, 2013	667,756	\$ 3.02	0.78	\$ 1,003
Vested and expected to vest at June 30, 2013	667,756	\$ 3.02	0.78	\$ 1,003

The intrinsic value of the stock options exercised was \$177 for the six months ended June 30, 2013.

6. Net Income Attributable to ORBCOMM Inc. Common Stockholders

Basic net income per common share is calculated by dividing net income attributable to ORBCOMM Inc. by the weighted-average number of common shares outstanding for the period. Diluted net income per common share is computed by giving effect to all potentially dilutive securities. For the three months ended June 30, 2013 and 2012, the Company included the effect of 880,633 and 440,245 SARs, RSUs and stock options in its diluted weighted average common shares outstanding, respectively. For the six months ended June 30, 2013 and 2012, the Company included the effect of 981,524 and 520,914 SARs, RSUs and stock options in its diluted weighted average common shares outstanding, respectively. For the three and six months ended June 30, 2013, the Company included 260,044 shares of Series A convertible preferred stock in its diluted weighted average common shares outstanding.

The potentially dilutive securities excluded from the determination of diluted income per share, as their effect is antidilutive, are as follows:

	Three months ended June 30,		Six months ended June 30,	
	2013	2012	2013	2012
Series A convertible preferred stock		289,923		289,923
SARs	3,801,668	3,703,877	3,744,086	3,672,966
RSUs	57,159	67,434	35,229	29,007
Stock options	464,546	605,283	443,166	593,951
	4,323,373	4,666,517	4,222,481	4,585,847

The computation of net income attributable to ORBCOMM Inc. common stockholders is as follows for the three and six months June 30, 2013 and 2012.

Three months ended June 30,		Six months ended June 30,	
2013	2012	2013	2012

Edgar Filing: ORBCOMM Inc. - Form 10-Q

Net income attributable to ORBCOMM Inc.	\$ 1,686	\$ 1,882	\$ 2,794	\$ 4,291
Preferred stock dividends on Series A convertible preferred stock	(15)	(17)	(31)	(36)
Net income attributable to ORBCOMM Inc. common stockholders	\$ 1,671	\$ 1,865	\$ 2,763	\$ 4,255

Table of Contents**7. Marketable Securities**

As of June 30, 2013 and December 31, 2012, the marketable securities are recorded at amortized cost which approximates fair market value which was based on Level 1 inputs. All investments mature in one year or less.

	June 30, 2013			December 31, 2012		
	Fair Value	Gross Unrealized Losses	Gross Unrealized Gains	Fair Value	Gross Unrealized Losses	Gross Unrealized Gains
U.S. government and agency obligations	\$ 23,017	\$ 1	\$	\$ 13,557	\$	\$
Corporate obligations	7,499			8,925	7	
FDIC-insured certificates of deposit	1,399	1		5,479	1	
	\$ 31,915	\$ 2	\$	\$ 27,961	\$ 8	\$

The Company would recognize an impairment loss when the decline in the estimated fair value of a marketable security below the amortized cost is determined to be other-than-temporary. The Company considers various factors in determining whether to recognize an impairment charge, including the duration of time and the severity to which the fair value has been less than the amortized cost, any adverse changes in the issuer's financial conditions and the Company's intent to sell or whether it is more likely than not that it would be required to sell the marketable security before its anticipated recovery. Investments with unrealized losses have been in an unrealized loss position for less than a year.

As of June 30, 2013 and December 31, 2012, the gross unrealized losses of \$2 and \$8, respectively, were primarily due to changes in interest rates and not credit quality of the issuer. Accordingly, the Company has determined that the gross unrealized losses are not other-than-temporary at June 30, 2013 and there has been no recognition of impairment losses in its condensed consolidated statements of operations for the six months ended June 30, 2013.

8. Satellite Network and Other Equipment

Satellite network and other equipment consisted of the following:

	Useful life (years)	June 30, 2013	December 31, 2012
Land		\$ 381	\$ 381
Satellite network	1-10	25,665	24,976
Capitalized software	3-7	3,890	3,009
Computer hardware	3	2,181	1,852
Other	2-7	2,285	1,703
Assets under construction		107,592	89,658
		141,994	121,579
Less: accumulated depreciation and amortization		(22,129)	(20,371)
		\$ 119,865	\$ 101,208

During the six months ended June 30, 2013 and 2012, the Company capitalized costs attributable to the design and development of internal-use software in the amount of \$746 and \$321, respectively. Depreciation and amortization expense for the three months ended June 30, 2013 and 2012 was \$1,010 and \$925, respectively. This includes amortization of internal-use software of \$119 and \$100 for the three months ended June 30, 2013 and 2012, respectively. Depreciation and amortization expense for the six months ended June 30, 2013 and 2012 was \$2,011 and \$1,678, respectively. This includes amortization of internal-use software of \$228 and \$180 for the six months ended June 30, 2013 and 2012, respectively.

Edgar Filing: ORBCOMM Inc. - Form 10-Q

Assets under construction primarily consist of milestone payments pursuant to procurement agreements which includes, the design, development, launch and other direct costs relating to the construction of the next-generation satellites (See Note 18) and upgrades to its infrastructure and ground segment.

During the three months ended June 30, 2013, the Company lost communications with one of its plane C satellites. The Company does not expect the loss of this satellite to materially affect its business.

For the year ended December 31, 2012, the Company adjusted satellite network and accumulated depreciation and amortization by \$14,550 due to fully depreciated satellites that are no longer placed in service.

9. Restricted Cash

Restricted cash consists of the remaining cash collateral of \$2,000 for a performance bond required by the FCC in connection with the construction, launch and operation of the 18 next-generation satellites that was authorized in the March 21, 2008 FCC Space Segment License modification. Under the terms of the performance bond, the cash collateral will be reduced in increments of \$1,000 upon completion of specified milestones. The Company has classified the remaining \$2,000 as a non-current asset at June 30, 2013 and December 31, 2012.

10. Goodwill and Intangible Assets

Goodwill represents the excess of the purchase price of an acquired business over the estimated fair values of the underlying net tangible and intangible assets.

Goodwill consisted of the following:

Balance at January 1, 2013	\$ 14,740
Addition resulting from the acquisition of MobileNet	2,872
Addition resulting from the acquisition of GlobalTrak	2,288
Balance at June 30, 2013	\$ 19,900

Table of Contents

Goodwill is allocated to the Company's one reportable segment.

The Company's intangible assets consisted of the following:

	Useful life (years)	Cost	June 30, 2013 Accumulated amortization	Net	Cost	December 31, 2012 Accumulated amortization	Net
Customer lists	5 and 10	\$ 6,470	\$ (821)	\$ 5,649	\$ 3,820	\$ (776)	\$ 3,044
Patents and technology	5 and 10	5,720	(1,070)	4,650	4,610	(563)	4,047
Trade names and trademarks	2, 5 and 10	1,060	(225)	835	860	(160)	700
		\$ 13,250	\$ (2,116)	\$ 11,134	\$ 9,290	\$ (1,499)	\$ 7,791

The weighted-average amortization period for the intangible assets is 9.7 years. The weighted-average amortization period for customer lists, patents and technology and trade names and trademarks is 10, 9.5 and 8.7 years, respectively.

Amortization expense was \$361 and \$256 for the three months ended June 30, 2013 and 2012, respectively. Amortization expense was \$617 and \$512 for the six months ended June 30, 2013 and 2012, respectively.

Estimated amortization expense for intangible assets subsequent to June 30, 2013 is as follows:

Years ending December 31,	
Remainder of 2013	\$ 723
2014	1,415
2015	1,415
2016	1,415
2017	1,273
Thereafter	4,893
	\$ 11,134

11. Accrued Liabilities

The Company's accrued liabilities consisted of the following:

	June 30, 2013	December 31, 2012
Accrued compensation and benefits	\$ 2,368	\$ 3,092
Warranty	2,401	2,762
Corporate income tax payable	172	843
Contingent earn-out amounts	801	320
AIS deployment and license agreement	188	216
Accrued satellite network and other equipment	216	1,559
Other accrued expenses	2,951	2,479
	\$ 9,097	\$ 11,271

Table of Contents

For the six months ended June 30, 2013 and 2012, changes in accrued warranty obligations consisted of the following:

	June 30, 2013	June 30, 2012
Balance at January 1,	\$ 2,762	\$ 2,631
Warranty liabilities assumed from acquisitions	38	806
Amortization of fair value adjustment of warranty liabilities acquired through acquisitions	(13)	(148)
Warranty expense	140	197
Warranty charges	(526)	(307)
Balance at June 30,	\$ 2,401	\$ 3,179

12. Deferred Revenues

Deferred revenues consisted of the following:

	June 30, 2013	December 31, 2012
Service activation fees	\$ 2,865	\$ 2,690
Prepaid services	1,985	1,331
Prepaid product revenues	773	
Warranty revenues	324	332
	5,947	4,353
Less current portion	(3,787)	(2,394)
Long-term portion	\$ 2,160	\$ 1,959

13. Note Payable-Related Party

In connection with the acquisition of a majority interest in Satcom in 2005, the Company recorded an indebtedness to OHB Technology A.G. (formerly known as OHB Teledata A.G.), a stockholder of the Company. At June 30, 2013, the principal balance of the note payable was 1,138 and it had a carrying value of \$1,480. At December 31, 2012, the principal balance of the note payable was 1,138 and it had a carrying value of \$1,503. The carrying value was based on the note's estimated fair value at the time of acquisition. The difference between the carrying value and principal balance was being amortized to interest expense over the estimated life of the note of six years which ended in September 30, 2011. This note does not bear interest and has no fixed repayment term. Repayment will be made from the distribution profits (as defined in the note agreement) of ORBCOMM Europe LLC. The note has been classified as long-term and the Company does not expect any repayments to be required prior to June 30, 2014.

14. Notes Payable***\$45,000 9.5% Senior Notes***

On January 4, 2013, the Company issued \$45,000 aggregate principal amount of Senior Notes (Senior Notes) due January 4, 2018. Interest is payable quarterly at a rate of 9.5% per annum. The Senior Notes are secured by a first priority security interest in substantially all of the Company's and its subsidiaries' assets. The covenants in the Senior Notes limits the Company's ability to among other things to, incur additional indebtedness and liens, to sell, transfer, lease or otherwise dispose of the Company's or subsidiaries' assets, merge or consolidate with other companies. The Company is also required to obtain launch and one year in-orbit insurance for the next-generation satellites under the terms of the Senior Notes. The Company must also comply with a maintenance covenant of either having available liquidity of \$10,000 (the sum of (a) cash and cash equivalents plus (b) the total amount available to be borrowed under a working capital facility) or a leverage ratio

Edgar Filing: ORBCOMM Inc. - Form 10-Q

(consolidated total debt to consolidated adjusted EBITDA, adjusted for stock-based compensation, certain other non-cash items and other agreed upon other charges) of not more than 4.5 to 1.0. In connection with the issuance of the Senior Notes, the Company incurred approximately \$1,313 of debt issuance costs, which will be amortized through January 4, 2018. For the three and six months ended June 30, 2013, the amortization of the debt issuance costs was \$56 and \$131, respectively. For the three and six months ended June 30, 2013, the Company capitalized all of the interest expense and amortization of the debt issuance costs to construction of the next-generation satellites.

As of June 30, 2013, the Company was in compliance with the covenants.

\$3,900 6% Notes

On May 16, 2011, the Company issued a \$3,900 6% secured promissory note to an existing lender and stockholder of Alanco. The note bore interest at 6.00% per annum. On January 4, 2013, the remaining unpaid principal amount of \$3,450 and unpaid interest was repaid as a condition of the Company issuing the Senior Notes discussed above.

15. Stockholders Equity

Series A convertible preferred stock

During the six months ended June 30, 2013, holders of the Series A convertible preferred stock converted 11,011 shares into 18,345 shares of the Company's common stock. During the six months ended June 30, 2013, the Company issued dividends in the amount of 3,118 shares to the holders of the Series A convertible preferred stock. As of June 30, 2013, dividends in arrears were \$15.

Table of Contents**Common Stock**

As of June 30, 2013, the Company has reserved 8,907,007 shares of common stock for future issuances related to employee stock compensation plans.

16. Segment Information

The Company operates in one reportable segment, M2M data communications. Other than satellites in orbit, long-lived assets outside of the United States are not significant. The following table summarizes revenues on a percentage basis by geographic regions, based on the country in which the customer is located.

	Three months ended June 30,		Six months ended June 30,	
	2013	2012	2013	2012
United States	85%	81%	86%	80%
Japan	8%	16%	9%	17%
Other	7%	3%	5%	3%
	100%	100%	100%	100%

17. Income taxes

For the three months ended June 30, 2013, the Company's income tax provision was \$204, resulting from a foreign income tax expense of \$115 from income generated by ORBCOMM Japan operating in Japan and \$89 of amortization of tax goodwill generated from acquisitions. For the three months ended June 30, 2012, the Company's income tax provision was \$402, resulting from a foreign income tax expense of \$338 from income generated by ORBCOMM Japan and \$64 of amortization of tax goodwill generated from acquisitions.

For the six months ended June 30, 2013, the Company's income tax provision was \$349, resulting from a foreign income tax expense of \$197 from income generated by ORBCOMM Japan, and \$152 of amortization of tax goodwill generated from acquisitions. For the six months ended June 30, 2012, the Company's income tax provision was \$796, resulting from a foreign income tax expense of \$666 from income generated by ORBCOMM Japan and \$130 of amortization of tax goodwill generated from acquisitions.

As of June 30, 2013 and 2012, the Company maintained a valuation allowance against all of its net deferred tax assets, excluding goodwill, attributable to operations in the United States and all other foreign jurisdictions, except for Japan, as the realization of such assets was not considered more likely than not.

As of June 30, 2013, the Company had unrecognized tax benefits of \$775. There were no changes to the Company's unrecognized tax benefits during the six months ended June 30, 2013. The Company is subject to U.S. federal and state examinations by tax authorities from 2008. The Company does not expect any significant changes to its unrecognized tax positions during the next twelve months.

The Company recognizes interest and penalties related to uncertain tax positions in income tax expense. No interest and penalties related to uncertain tax positions were recognized during the three and six months ended June 30, 2013.

18. Commitments and Contingencies***Procurement agreements in connection with next-generation satellites***

On May 5, 2008, the Company entered into a procurement agreement with Sierra Nevada Corporation (SNC) pursuant to which SNC is constructing eighteen low-earth-orbit satellites in three sets of satellites (shipsets) for the Company's next-generation satellites (the Initial Satellites). Under the agreement, SNC is also providing launch support services, a test satellite (excluding the mechanical structure), a satellite software simulator and the associated ground support equipment.

Edgar Filing: ORBCOMM Inc. - Form 10-Q

The total contract price for the Initial Satellites under the procurement agreement is \$117,000, subject to reduction upon failure to achieve certain in-orbit operational milestones with respect to the Initial Satellites or if the pre-ship reviews of each shipset are delayed more than 60-120 days after the specified time periods described below. The Company has agreed to pay SNC up to \$1,500 in incentive payments for the successful operation of the Initial Satellites five years following the successful completion of in-orbit testing for the third shipset of eight satellites.

On August 31, 2010, the Company entered into two additional task order agreements with SNC in connection with the procurement agreement discussed above. Under the terms of the launch vehicle changes task order agreement, SNC will perform the activities to launch eighteen of the Company's next-generation satellites on a SpaceX Falcon 1e or Falcon 9 launch vehicle. The total price for the launch activities is cost reimbursable up to \$4,110 that is cancelable by the Company, less a credit of \$1,528. Any unused credit can be applied to other activities under the task order agreement or the original procurement agreement if application to the task order agreement becomes impossible or impracticable. Under the terms of the engineering change requests and enhancements task order agreement, SNC will design and make changes to each of the next-generation satellites in order to accommodate an additional payload-to-bus interface. The total price for the engineering changes requests is cost reimbursable up to \$317. Both task order agreements are payable monthly as the services are performed, provided that with respect to the launch vehicle changes task order agreement, the credit in the amount of \$1,528 will first be deducted against amounts accrued thereunder until the entire balance is expended.

On August 23, 2011, the Company and SNC entered into a definitive First Amendment to the procurement agreement (the "Amendment"). The Amendment amends certain terms of the procurement agreement dated May 5, 2008 and supplements or amends five separate task order agreements, dated as of May 20, 2010 (Task Order #1), August 31, 2010 (Task Orders #2 and #3), and December 15, 2010 (Task Orders #4 and #5) (collectively with Task Order #6, the "Task Orders"). On July 3, 2012, the Company and SNC entered into an additional task order agreement ("Task Order #06") for SNC to perform final design work to enable additional payload components in satellites 3-18 to be re-programmable while in-orbit. The total price for the work under Task Order #6 is cost plus fixed fee of up to \$521.

The Amendment modifies the milestone payment schedule under the procurement agreement dated May 5, 2008 but does not change the total contract price (excluding optional satellites and costs under the Task Orders) of \$117,000. Payments under the Amendment extend into the second quarter of 2014, subject to SNC's successful completion of each payment milestone.

Table of Contents

The Amendment also settles the liquidated delay damages triggered under the procurement agreement dated May 5, 2008 and provides an ongoing mechanism for the Company to obtain pricing proposals to order up to thirty optional satellites substantially identical to the Initial Satellites for which firm fixed pricing previously had expired under the procurement agreement dated May 5, 2008.

As of June 30, 2013, the Company has made milestone payments of \$58,500 under the agreement. The Company anticipates making payments under the agreement of approximately \$22,230 during the remainder of 2013.

On December 21, 2012, the Company and Space Exploration Technologies Corp. (SpaceX) entered into a Launch Services Agreement (the Falcon 9 Agreement) pursuant to which SpaceX will provide launch services (the Launch Services) for the carriage into low-Earth-orbit of up to 17 ORBCOMM next-generation satellites currently being constructed by Sierra Nevada Corporation. Under the Falcon 9 Agreement, SpaceX will also provide to the Company satellite-to-launch vehicle integration and launch support services, as well as certain related optional services. The total price under the Falcon 9 Agreement (excluding any optional services) is \$42,600 subject to certain adjustments, which reflects pricing agreed under the 2009 agreement for Launch Services discussed below. The amounts due under the Falcon 9 Agreement are payable by the Company in installments from the date of execution of the Falcon 9 Agreement through the performance of each Launch Service.

The Falcon 9 Agreement anticipates that the Launch Services for 17 Satellites will be performed between the third quarter of 2013 and the second quarter of 2014, subject to certain rights of ORBCOMM and SpaceX to reschedule the Launch Services as needed. Either the Company or SpaceX may postpone and reschedule either Launch Service based on satellite and launch vehicle readiness, among other factors, subject to the payment of certain fees by the party requesting or causing the delay following 6 months of delay with respect to either of the two Launch Services.

Both the Company and SpaceX have customary termination rights under the Falcon 9 Agreement, including for material breaches and aggregate delays beyond 365 days by the other party. The Company has the right to terminate either of the Launch Services subject to the payment of a termination fee in an amount that would be based on the date ORBCOMM exercises its termination right.

As of June 30, 2013, the Company has made milestone payments of \$33,210 under the Falcon 9 Agreement. The Company anticipates making payments of approximately \$7,040 during the remainder of 2013.

On August 28, 2009, the Company and Space Exploration Technologies Corp. (SpaceX) entered into a Commercial Launch Services Agreement (the Agreement) pursuant to which SpaceX will provide launch services (the Launch Services) using multiple SpaceX Falcon 1e launch vehicles for the carriage into low-Earth-orbit for the Company's 18 next-generation commercial communications satellites currently being constructed by SNC. Under the Agreement, SpaceX will also provide to the Company launch vehicle integration and support services, as well as certain related optional services.

The total price under the Agreement (excluding any options or additional launch services) was \$46,600, subject to certain adjustments. The amounts due under the Agreement were payable in periodic installments from the date of execution of the Agreement through the performance of each Launch Service.

On September 21, 2012, SpaceX and the Company entered into a Secondary Payload Launch Services Agreement totaling \$4,000 of the original \$46,600 to launch the next-generation prototype which occurred on October 7, 2012.

Airtime credits

In 2001, in connection with the organization of ORBCOMM Europe LLC and the reorganization of the ORBCOMM business in Europe, the Company agreed to grant certain country representatives in Europe approximately \$3,736 in airtime credits. The Company has not recorded the airtime credits as a liability for the following reasons: (i) the Company has no obligation to pay the unused airtime credits if they are not utilized; and (ii) the airtime credits are earned by the country representatives only when the Company generates revenue from the country representatives. The airtime credits have no expiration date. Accordingly, the Company is recording airtime credits as services are rendered and these airtime credits are recorded net of revenues from the country representatives. For the three months ended June 30, 2013 and 2012, airtime credits used totaled approximately \$7 and \$8, respectively. For the six months ended June 30, 2013 and 2012, airtime credits used totaled approximately \$15 and \$16, respectively. As of June 30, 2013 and December 31, 2012, unused credits granted by the Company were approximately \$2,113 and \$2,128, respectively.

Litigation

Edgar Filing: ORBCOMM Inc. - Form 10-Q

From time to time, the Company is involved in various claims or litigation matters involving ordinary and routine claims incidental to its business. Management currently believes that the outcome of these proceedings, either individually or in the aggregate, will not have a material adverse effect on the Company's business, results of operations or financial condition.

Such forward-looking statements, including those concerning the Company's expectations, are subject to known and unknown risks and uncertainties, which could cause actual results to differ materially from the results, projected, expected or implied by the forward-looking statements, some of which are beyond the Company's control, that may cause the Company's actual results, performance or achievements, or industry results, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. These risks and uncertainties include but are not limited to: ongoing global economic instability and uncertainty; substantial losses we have incurred and may continue to incur; demand for and market acceptance of our products and services and the applications developed by our resellers; we may need additional capital to pursue our growth strategy; loss or decline or slowdown in the growth in business from our key customers, such as Caterpillar Inc., (Caterpillar), Komatsu Ltd., (Komatsu), Hitachi Construction Machinery Co., Ltd., (Hitachi), and Asset Intelligence, a subsidiary of I.D. Systems, Inc., other value-added resellers or VARs and international value-added resellers or IVARs; loss or decline or slowdown in growth in business of any of the specific industry sectors the Company serves, such as transportation, heavy equipment, fixed assets and maritime; dependence on a few significant customers; our acquisitions may expose us to additional risks; litigation proceedings; technological changes, pricing pressures and other competitive factors; the inability of our international resellers and licensees to develop markets outside the United States; the inability to obtain or maintain the necessary regulatory approvals or licenses for particular countries or to operate our satellites; market acceptance and success of our Automatic Identification System (AIS) business; satellite launch and construction delays and cost overruns of our next-generation satellites and launch vehicles; in-orbit satellite failures or reduced performance of our existing satellites; significant liabilities created by products we sell; the \$45 million 9.5% Senior Notes that we issued on January 4, 2013 could restrict our business activities or our ability to execute our strategic objectives or adversely affect our financial performance; the failure of our system or reductions in levels of service due to technological malfunctions or deficiencies or other events; our inability to renew or expand our satellite constellation; inability to operate due to changes or restrictions in the political, legal regulatory, government administrative and economic conditions and developments in the United States and other countries and territories in which we operate; and changes in our business strategy. In addition, specific consideration should be given to various factors described in Part I, Item 1A. Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2012. The Company undertakes no obligation to publicly revise any forward-looking statements or cautionary factors, except as required by law.

Overview

We operate a global commercial wireless messaging system optimized for narrowband communications. Our system consists of a global network of 25 low-Earth orbit, or LEO, satellites, 2 microsatellites and accompanying ground infrastructure. Our 26 first-generation satellites are the core of a two-way communications system that enables our customers and end-users to track, monitor, control and communicate cost-effectively with fixed and mobile assets located anywhere in the world, and 2 microsatellites that only provide worldwide ship tracking capability using the Automatic Identification System (AIS) technology already installed on large ocean-going vessels. We have agreements with another satellite provider to resell their satellite services as well. We also provide terrestrial-based cellular communication services through reseller agreements with major cellular wireless providers. Currently, our agreements with major cellular providers include GSM and CDMA offerings in the United States and GSM services with significant coverage worldwide. These terrestrial-based communication services enable our customers who have higher bandwidth requirements to receive and send messages from communication devices based on terrestrial-based technologies using the cellular providers' wireless networks as well as from dual-mode devices combining the technologies from our satellite subscriber communicators and terrestrial-based technologies. As a result, our customers are now able to integrate into their applications communication technologies that will allow them to send and receive messages, including data intensive messaging using the cellular providers' wireless networks and our satellite network.

Our products and services enable our customers and end-users to enhance productivity, reduce costs and improve security through a variety of commercial, government, and emerging homeland security applications. We enable our customers and end-users to achieve these benefits on a world-wide basis by using a single global satellite technology standard for machine-to-machine and telematic, or M2M, data communications, as well as providing the benefits of using terrestrial based cellular systems. Our customers have made significant investments in developing ORBCOMM-based applications. Examples of assets that are connected through our M2M data communications system include trucks, trailers, railcars, containers, heavy equipment, fluid tanks, utility meters, pipeline monitoring equipment, marine vessels, oil and gas wells and irrigation control systems. Customers benefiting from our network include original equipment manufacturers, or OEMs, such as Caterpillar, Komatsu, Doosan Infracore America, Hitachi, Hyundai Heavy Industries, The Manitowoc Company and Volvo Construction Equipment. In addition, we market our services through a distribution network of vertical market technology integrators known as VARs and IVARs, such as I.D. Systems,

Inc., inthinc Technology Solutions Inc., and American Innovations, Ltd.

As a result of our acquisitions in 2012 and 2011, we provide products and services in the cold chain telematics solutions business that enables customers to proactively monitor, manage and remotely control their refrigerated and other transport assets using complete end-to-end solutions. These solutions enable optimal business efficiencies, increased asset utilization, and substantially reduce asset write-offs and manual yard counts of chassis, refrigeration units, containers and generators (gensets). The information provided from these solutions also help industry leaders realize better fleet efficiency and utilization while reducing risk by adding safety monitoring of perishable cargo, including refrigerated and frozen food. In addition to relationships with leading refrigeration unit manufacturers such as Carrier and Thermo King, the customer base includes well-known brands such as Tropicana, Maersk Line, Prime Inc., C.R. England, FFE Transport, Inc., Target, Chiquita, Ryder, J.B. Hunt, Hapag-Lloyd, Golden State Foods, Martin-Brower and Canadian National Railways. These acquisitions enable us to create a global technology platform to transfer capabilities across new and existing vertical markets and deliver complementary products to our channel partners and resellers worldwide.

Table of Contents

Our acquisitions of GlobalTrak and MobileNet, Inc. ("MobileNet") in April 2013 enable us to expand our end-to-end telematics solutions portfolio into key vertical markets and geographic regions. GlobalTrak is an information services company that utilizes networks, sensors and proprietary software platforms to provide near-real-time situational awareness and intelligence to improve logistics and security processes and operations on a global basis. GlobalTrak gives us access to a customer base that includes military, international, government, and commercial customers as well as expanded reach in growing regions, such as the Middle East, Asia and South America. Combining GlobalTrak's advanced products including container and vehicle technology with our existing capabilities creates a suite of transportation-related product offerings across the expanded global distribution network. MobileNet, one of our VARs, is a provider of telematics solutions to the heavy equipment and rail support industries. The acquisition enables us to offer MobileNet's complete fleet management solution directly to OEMs, dealers and fleet owners. Leveraging MobileNet's turn-key telematics platform, we can provide customers in the heavy equipment sector with significant operating advantages as well as savings in development costs and faster time to market for implementing solutions in the field. MobileNet's current customers include Doosan North America, a world-class construction equipment company, and leading rail companies Union Pacific, CSX and BNSF.

The 2 AIS microsatellites we operate provide what we believe is the most comprehensive global AIS data service to government and commercial customers to track over 60,000 ocean-going vessels worldwide. AIS is a shipboard broadcast system that transmits a vessel's identification and position to aid navigation and improve maritime safety. Terrestrial-based AIS receivers provide only limited visibility of ships close to shore and are not able to provide global visibility of ship traffic with open ocean coverage. Using our satellite communications system, customers have access to AIS data well beyond coastal regions in a cost effective and timely fashion. Further, we intend to continue working with system integrators and maritime information service providers providing value-added services to facilitate the sales and distribution of AIS data. We will continue to work to address and expand the various market sectors that could benefit from access to AIS data, such as suppliers to the shipping sector, like traders, brokers, insurance companies and support services. An additional potential benefit of AIS is the ability to combine AIS data with asset tracking and monitoring solutions. We believe this creates the potential to provide complete end-to-end visibility of the shipment of goods throughout the global supply chain from an integrated information solution. This solution, once fully integrated into transportation management systems, has the potential to track and monitor individual shipping containers through the intermodal transportation system from origination to destination as it is transported on truck, rail and ship.

Through our M2M data satellite communications system, our customers and end-users can send and receive information to and from any place in the world using low-cost subscriber communicators and paying airtime costs that we believe are the lowest in the industry for global connectivity. Our customers can also use cellular terrestrial units, or wireless subscriber identity modules ("SIMS"), for use with devices or equipment that enable the use of a cellular provider's wireless network, singularly or in conjunction with satellite services, to send and receive information from these devices. We believe that there is no other satellite or terrestrial network currently in operation that can offer global two-way wireless narrowband data service including coverage at comparable cost using a single technology standard worldwide, that also provides a parallel terrestrial network for data intensive applications. We are currently authorized, either directly or indirectly, to provide our satellite communications services in over 100 countries and territories in North America, Europe, South America, Asia, Africa and Australia.

Acquisitions

GlobalTrak

Effective on the close of business on April 3, 2013, we completed the acquisition of certain assets and liabilities of GlobalTrak, a division of System Planning Corporation ("SPC"), pursuant to an Asset Purchase Agreement ("GlobalTrak Asset Purchase Agreement") dated as of March 13, 2013. The consideration paid to acquire GlobalTrak was \$3.0 million in cash, subject to a working capital adjustment, of which \$0.5 million was deposited in escrow with a third party escrow agent. The \$0.5 million is available to pay indemnification obligations of SPC to us primarily relating for breaches of representations and warranties made by SPC.

As a result of the acquisition of GlobalTrak, we recognized \$2.3 million of goodwill and \$ 0.5 million of intangible assets, which consist of technology, trade names and trademarks and customer lists. The results of operations of GlobalTrak are included in our condensed consolidated results for the period subsequent to the acquisition date of April 3, 2013.

MobileNet

Effective on the close of business on April 1, 2013, we completed the acquisition of substantially all of the assets of MobileNet, pursuant to an Asset Purchase Agreement (the "MobileNet Asset Purchase Agreement") dated as of March 13, 2013. The consideration paid by us on closing consisted of \$3.2 million in cash, subject to a final working capital adjustment specified in the MobileNet Asset Purchase Agreement and the issuance of 329,344 shares of our common stock (valued at \$4.96 per share, which reflects our common stock closing price on April 1, 2013), of which 164,672 shares of common stock were placed into an escrow account for up to fifteen months from closing to fund any indemnification obligations to us primarily relating for breaches of representations and warranties made by MobileNet.

Edgar Filing: ORBCOMM Inc. - Form 10-Q

In addition to the consideration paid at closing, the MobileNet Asset Purchase Agreement provides for contingent consideration payable by us to MobileNet if service revenues attributable to the MobileNet business for either of the two one year earn-out periods May 1, 2013 through April 30, 2014 and May 1, 2014 through April 30, 2015 are in excess of the specified baseline amount. In that event, we have agreed to pay to MobileNet an amount equal to (i) 50% of the first \$2.0 million of such excess amount for the applicable earn-out period and (ii) 35% of any amount of such excess amount for the applicable earn-out period which is greater than \$2.0 million. Up to 50% of any potential earn-out amounts can be paid in common stock at our option. Any shares of common stock to be issued will be based on the 20-day average closing price of our common stock prior to the last trading day of the earn-out period. At the acquisition date, we recorded a liability of \$1.5 million for the estimated value of the earn-out amounts.

Table of Contents

As a result of the acquisition of MobileNet, we recognized \$2.9 million of goodwill and \$3.5 million of intangible assets, which consist of technology, trademarks and customer lists. The results of operations of MobileNet are included in our condensed consolidated results for the period subsequent to the acquisition date of April 1, 2013.

The acquired goodwill from the acquisitions of GlobalTrak and MobileNet will not be amortized for financial reporting purposes. However the acquired goodwill is tax deductible, and therefore amortized over fifteen years for income tax purposes. As such, deferred income tax expense and a deferred tax liability arise as a result of the difference in tax deductibility of this amount for tax and financial reporting purposes. The resulting deferred tax liability, which is expected to continue to increase over time and will remain on our balance sheet indefinitely unless there is an impairment of the goodwill.

See Note 3 to the condensed consolidated financial statements for further discussion on the acquisitions of GlobalTrak and MobileNet.

PAR Logistics Management Systems Corporation

Effective on the close of business on January 12, 2012, we completed the acquisition of the assets of PAR Logistics Management Systems Corporation (LMS), a wholly-owned subsidiary of PAR Technology Corporation, (PAR) including but not limited to, accounts receivable, inventory, equipment, intellectual property, all of LMS 's rights to customer contracts, supplier lists and certain liabilities pursuant to an Asset Purchase Agreement dated as of December 23, 2011.

In addition to the consideration paid at closing, the Asset Purchase Agreement provides for contingent payments of up to \$3.9 million payable post-closing by us to PAR. Up to \$3.0 million of the contingent payments was payable based on achieving subscriber targets for calendar year 2012. We recorded at the acquisition date a liability of \$0.7 million for the estimated fair value of the earn-out amounts. For the year ended December 31, 2012, LMS did not achieve the subscriber targets. Up to \$0.9 million of the contingent payments will be payable based on achieving sales targets through 2014. Any potential earn-out amount can be paid in common stock, cash or a combination at our option. Any shares of common stock to be issued will be based on the 20-day average closing price ending on the third trading day preceding the date of payment. The potential earn-out amount for achieving the sales targets for any calendar year if earned, will be paid within 30 days after we file our Form 10-K for years 2013 and 2014.

The results of operations of LMS are included in our condensed consolidated results for the period subsequent to the acquisition date of January 12, 2012. See Note 3 to the condensed consolidated financial statements for further discussion.

StarTrak Systems, LLC

Effective on the close of business on May 16, 2011, we completed the acquisition of substantially all of the assets of StarTrak Systems, LLC (StarTrak) a wholly-owned subsidiary of Alanco Technologies, Inc., including but not limited to cash, accounts receivable, inventory, equipment, intellectual property, all of StarTrak 's rights to customer contracts, supplier lists and assumed certain liabilities pursuant to an Asset Purchase Agreement dated as of February 23, 2011. See Note 3 to the condensed consolidated financial statements for further discussion.

Critical Accounting Policies and Estimates

Our discussion and analysis of our results of operations, liquidity and capital resources are based on our consolidated financial statements which have been prepared in conformity with accounting principles generally accepted in the United States of America. The preparation of these consolidated financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and disclosure of contingent assets and liabilities. On an on-going basis, we evaluate our estimates and judgments, including those related to revenue recognition, accounts receivable, accounting for business combinations, goodwill, satellite network and other equipment, long-lived assets, capitalized development costs, income taxes, warranty costs, loss contingencies and the value of securities underlying stock-based compensation. We base our estimates on historical and anticipated results and trends and on various other assumptions that we believe are reasonable under the circumstances, including assumptions as to future events. These estimates form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. By their nature, estimates are subject to an inherent degree of uncertainty. Actual results may differ from our estimates and could have a significant adverse effect on our results of operations and financial position. For a discussion of our critical accounting policies and estimates see Part II, Item 7. Management 's Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K for the year ended December 31, 2012. There have been no material changes to our critical accounting policies during 2013.

EBITDA

Edgar Filing: ORBCOMM Inc. - Form 10-Q

EBITDA is defined as earnings attributable to ORBCOMM Inc., before interest income (expense), provision for income taxes and depreciation and amortization. We believe EBITDA is useful to our management and investors in evaluating our operating performance because it is one of the primary measures we use to evaluate the economic productivity of our operations, including our ability to obtain and maintain our customers, our ability to operate our business effectively, the efficiency of our employees and the profitability associated with their performance. It also helps our management and investors to meaningfully evaluate and compare the results of our operations from period to period on a consistent basis by removing the impact of our financing transactions and the depreciation and amortization impact of capital investments from our operating results. In addition, our management uses EBITDA in presentations to our board of directors to enable it to have the same measurement of operating performance used by management and for planning purposes, including the preparation of our annual operating budget.

EBITDA is not a performance measure calculated in accordance with accounting principles generally accepted in the United States, or GAAP. While we consider EBITDA to be an important measure of operating performance, it should be considered in addition to, and not as a substitute for, or superior to, net income (loss) or other measures of financial performance prepared in accordance with GAAP and may be different than EBITDA measures presented by other companies.

Table of Contents

The following table reconciles our net income to EBITDA for the periods shown:

	Three months ended June 30,		Six months ended June 30,	
	2013	2012	2013	2012
Net income attributable to ORBCOMM Inc.	\$ 1,686	\$ 1,882	\$ 2,794	\$ 4,291
Income tax expense	204	402	349	796
Interest income	(12)	(23)	(29)	(50)
Interest expense	5	8	51	32
Depreciation and amortization	1,370	1,181	2,628	2,190
EBITDA	\$ 3,253	\$ 3,450	\$ 5,793	\$ 7,259

Three months: EBITDA during the three months ended June 30, 2013 decreased by \$0.2 million over 2012. The decrease was due to an increase in expenses of \$2.8 million excluding depreciation and amortization. The increase in operating expenses was primarily due to \$2.1 million to operate the acquisitions in 2013. The increase in expenses was offset by an increase of \$1.1 million to both service and product revenues. The increase in service revenues was primarily due to an increase in organic service revenues of \$0.6 million and \$0.5 million from acquisitions in 2013. The increase in product revenues was primarily due to acquisitions in 2013.

Six months: EBITDA during the six months ended June 30, 2013 decreased by \$1.5 million over 2012. The decrease was due to an increase in expenses, excluding depreciation and amortization, of \$3.8 million, a decrease in product revenues of \$0.4 million and a \$1.2 million gain on extinguishment of debt and accounts payable in 2012, offset by an increase in service revenues of \$3.5 million. The increase in operating expenses was primarily due to \$2.1 million to operate the acquisitions in 2013, and an increase in stock-based compensation of \$0.4 million due to timing of grants, an increase in facility costs of \$0.4 million that includes \$0.1 million in lease termination costs related to consolidation of locations into our new facility in 2013 and an increase in professional service fees of \$0.6 million primarily due to our acquisitions last year. The increase in service revenues was primarily due to an increase in organic service revenues of \$3.0 million that includes a backbilling adjustment with a customer and \$0.5 million from acquisitions.

Revenues

We derive service revenues from our resellers and direct customers from utilization of satellite subscriber communicators and the reselling of airtime from a third party satellite system and the utilization of terrestrial-based subscriber communicators using SIMS on cellular providers wireless networks. These service revenues generally consist of a one-time activation fee for each subscriber communicator and SIMS activated for use and monthly usage fees. Usage fees that we charge our customers are based upon the number, size and frequency of data transmitted by the customer and the overall number of subscriber communicators and SIMS activated by each customer. Revenues for usage fees from currently billing subscriber communicators and SIMS are recognized on an accrual basis, as services are rendered, or on cash basis, if collection from the customer is not reasonably assured at the time the service is provided. Usage fees charged to our resellers and direct customers are charged primarily at wholesale rates based on the overall number of subscriber communicators activated by them and the total amount of data transmitted. We also earn service revenues from extended warranty service agreements extending beyond the initial warranty period of one year, royalty fees from third parties for the use of our proprietary communications protocol charged on a one-time basis for each satellite subscriber communicator connected to our M2M data communications system and fees from providing engineering, technical and management support services to customers. Service revenues include AIS revenues.

We derive product revenues primarily from sales of subscriber communicators to our resellers (i.e., our VARs, IVARs, international licensees and country representatives) and direct customers. We also sell cellular wireless subscriber identity modules, or SIMS, (for our terrestrial-communication services) to our resellers and direct customers. Revenues generated from product revenues are either recognized when the products are shipped or when customers accept the product depending on the specific contractual terms.

Table of Contents

The table below presents our revenues for the three and six months ended June 30, 2013 and 2012, together with the percentage of total revenue represented by each revenue category in (in thousands):

	Three months ended June 30, 2013			Six months ended June 30, 2013			Six months ended June 30, 2012		
		% of Total			% of Total			% of Total	
Service revenues	\$ 13,517	72.8%	\$ 12,418	\$ 27,407	77.7%	\$ 23,949	\$ 23,949	74.4%	
Product sales	5,042	27.2%	3,901	7,872	22.3%	8,249	8,249	25.6%	
	\$ 18,559	100.0%	\$ 16,319	\$ 35,279	100.0%	\$ 32,198	\$ 32,198	100.0%	

Three months: Total revenues for the three months ended June 30, 2013 and 2012 were \$18.6 million and \$16.3 million, respectively, an increase of 13.7%.

Six months: Total revenues for the six months ended June 30, 2013 and 2012 were \$35.3 million and \$32.2 million, respectively, an increase of 9.6%.

Service revenues

Three months: Service revenues increased \$1.1 million for the three months ended June 30, 2013, or 8.9%, to \$13.5 million from \$12.4 million for the three months ended June 30, 2012. The increase in service revenues in 2013 over 2012 was primarily due to an increase in organic revenues of \$0.6 million and \$0.5 million from acquisitions in 2013. Service revenues was impacted by a less favorable exchange rate due to the decrease of the yen against the U.S. dollar of \$0.2 million.

Six months: Service revenues increased \$3.5 million for the six months ended June 30, 2013, or 14.4%, to \$27.4 million from \$24.0 million for the six months ended June 30, 2012. The increase in service revenues in 2013 over 2012 was primarily due to an increase in organic revenues of \$3.0 million that includes a backbilling adjustment with a customer and \$0.5 million from acquisitions in 2013. Service revenues was impacted by a less favorable exchange rate due to the decrease of the yen against the U.S. dollar of \$0.3 million.

As of June 30, 2013, we had approximately 800,000 billable subscriber communicators compared to approximately 715,000 billable subscriber communicators as of June 30, 2012, an increase of 11.8%.

Service revenue growth can be impacted by the customary lag between subscriber communicator activations and recognition of service revenue from these units.

Product sales

Three months: Revenues from product sales increased \$1.1 million for the three months ended June 30, 2013, or 29.3%, to \$5.0 million from \$3.9 million for the three months June 30, 2013. The increase was primarily due to higher product sales of \$0.4 million from direct channel sales and \$1.8 million from acquisitions in 2013. The increase was primarily offset by lower product sales of \$1.1 million by our Japanese subsidiary and the effect of a less favorable exchange rate due to the decrease of the yen against the U.S. dollar of \$0.1 million.

Six months: Revenues from product sales decreased by \$0.4 million for the six months ended June 30, 2013, or 4.6%, to \$7.9 million from \$8.2 million for the six months June 30, 2013. The decrease was primarily due to lower product sales of \$2.2 million by our Japanese subsidiary reflecting a significant hardware sale in the first quarter of 2012 and the effect of a less favorable exchange rate due to the decrease of the yen against the U.S. dollar of \$0.2 million, offset by \$1.8 million from acquisitions in 2013.

Costs of services

Costs of services is comprised of expenses to provide services, such as payroll and related costs, including stock-based compensation, materials and supplies, depreciation and amortization of assets and usage fees to cellular wireless providers for the data transmitted by the resellers on our network and other third-party networks.

Edgar Filing: ORBCOMM Inc. - Form 10-Q

Three months: Costs of services increased by \$0.4 million, or 8.1%, to \$5.3 million for the three months ended June 30, 2013 from \$5.0 million for the three months ended June 30, 2012. The increase was primarily due from acquisitions in 2013.

Six months: Costs of services increased by \$1.3 million, or 13.7%, to \$11.0 million for the six months ended June 30, 2013 from \$9.7 million for the six months ended June 30, 2012. The increase was primarily due to \$0.5 million from acquisitions in 2013 and an increase in costs to provide for the increase in service revenues.

Costs of product sales

Costs of products includes the purchase price of subscriber communicators and SIMS sold, costs of warranty obligations, shipping charges, depreciation and amortization as well as operational costs to fulfill customer orders, including costs for employees.

Three months: Costs of product sales increased by \$1.6 million, or 63.6% to \$4.2 million for the three months ended June 30, 2013 from \$2.6 million for the three months ended June 30, 2012. We had a gross profit from product sales (revenues from product sales minus costs of product sales) of \$0.8 million for the three months ended June 30, 2013 compared to a gross profit from product sales of \$1.3 million for the three months ended June 30, 2012. The decrease in gross profit from product sales was primarily due to lower product sales by our Japanese subsidiary offset by \$0.6 million of gross profit from product sales from acquisitions in 2013.

Table of Contents

Six months: Costs of product sales increased by \$0.7 million, or 12.4% to \$6.4 million for the six months ended June 30, 2013 from \$5.7 million for the six months ended June 30, 2012. We had a gross profit from product sales (revenues from product sales minus costs of product sales) of \$1.5 million for the six months ended June 30, 2013 compared to a gross profit from product sales of \$2.6 million for the six months ended June 30, 2012. The decrease in gross profit from product sales was primarily due to lower product sales by our Japanese subsidiary offset by \$0.6 million of gross profit from product sales from acquisitions in 2013.

Selling, general and administrative expenses

Selling, general and administrative expenses relate primarily to expenses for general management, sales and marketing, and finance, professional fees and general operating expenses.

Three months: Selling, general and administrative expenses increased by \$1.1 million, or 19.6%, to \$6.7 million for the three months ended June 30, 2013 from \$5.6 million for the three months ended June 30, 2012. The increase was primarily due to \$0.4 million from acquisitions in 2013, and an increase of \$0.1 million in stock-based compensation primarily due to timing of grants, a \$0.1 million increase in professional service fees for audit, legal and public company expenses due to our acquisitions last year and a \$0.2 million increase in advertising and marketing and travel expenses.

Six months: Selling, general and administrative expenses increased by \$2.1 million, or 19.4%, to \$13.1 million for the six months ended June 30, 2013 from \$10.9 million for the six months ended June 30, 2012. The increase was primarily due to \$0.4 million from acquisitions in 2013 and an increase in stock-based compensation of \$0.4 million primarily due to timing of grants, a \$0.4 million increase in facility costs that includes a \$0.1 million in lease termination costs related to consolidation of locations into our new facility in 2013, a \$0.5 million increase in professional service fees for audit, legal and public company expenses due to our acquisitions last year and a \$0.3 million increase in advertising and marketing and travel expenses.

Product development expenses

Product development expenses consist primarily of the expenses associated with our engineering team, along with the cost of third parties that are contracted to support our current applications.

Product development expenses for the three months ended June 30, 2013 and June 30, 2012 were \$0.5 million and \$0.6 million, respectively.

Product development expenses for the six months ended June 30, 2013 and June 30, 2012 were \$1.3 million and \$1.2 million, respectively.

Acquisition costs

Acquisition-related costs directly related to our acquisitions which include professional services expenses.

Other income (expense)

Other income (expense) is comprised primarily of interest income from our cash and cash equivalents, which consists of U.S. Treasuries, interest bearing instruments, and our investments in marketable securities consisting of U.S. government and agency obligations, corporate obligations and FDIC-insured certificates of deposit classified as held to maturity, foreign exchange gains and losses, gain on extinguishment of debt and interest expense.

Three months: For the three months ended June 30, 2013 other income was \$0.4 million compared to less than \$0.1 million for the three months ended June 30, 2012. The increase is primarily due to a working capital adjustment of \$0.1 million for amounts owed to us by PAR and a resolution of a claim of \$0.3 million made by us against PAR under the escrow agreement relating to the acquisition of LMS which exceeded the one-year measurement period.

Six months: For the six months ended June 30, 2013 other income was \$0.4 million compared to \$1.1 million for the six months ended June 30, 2012. The decrease in other income is primarily due to a \$1.1 million gain on extinguishment of debt in connection with Satcom's note holders in 2012, offset by a working capital adjustment of \$0.1 million for amounts owed to us by PAR and a resolution of a claim of \$0.3 million made by us against PAR under the escrow agreement relating to the acquisition of LMS which exceeded the one-year measurement period.

Income before income taxes

Edgar Filing: ORBCOMM Inc. - Form 10-Q

Three months: We have income before income taxes of \$2.0 million for the three months ended June 30, 2013, compared to income before income taxes of \$2.4 million for the three months ended June 30, 2012.

Six months: We have income before income taxes of \$3.3 million for the six months ended June 30, 2013, compared to income before income taxes of \$5.3 million for the six months ended June 30, 2012.

Provision for income taxes

For the three months ended June 30, 2013, we recorded income taxes of \$0.2 million, which included foreign income tax of \$0.1 million from income generated by our subsidiary ORBCOMM Japan operating in Japan and \$0.1 million from the amortization of tax goodwill generated from our acquisitions.

For the three months ended June 30, 2012, we recorded income taxes of \$0.4 million, which was primarily due to a foreign income tax of \$0.3 million from income generated by our subsidiary ORBCOMM Japan and \$0.1 million from the amortization of tax goodwill generated from our acquisitions.

Table of Contents

For the six months ended June 30, 2013, we recorded income taxes of \$0.3 million, which included foreign income tax of \$0.2 million from income generated by our subsidiary ORBCOMM Japan and \$0.1 million from the amortization of tax goodwill generated from our acquisitions.

For the six months ended June 30, 2012, we recorded income taxes of \$0.8 million, which was primarily due to a foreign income tax of \$0.7 million from income generated by our subsidiary ORBCOMM Japan and \$0.1 million from the amortization of tax goodwill generated from our acquisitions.

As of June 30, 2013 and June 30, 2012, we maintained a valuation allowance against all of our net deferred tax assets, excluding goodwill, attributable to operations in the United States and all foreign jurisdictions, except for Japan, as the realization of such assets was not considered more likely than not.

Six months: We have net income of \$2.9 million for the six months ended June 30, 2013 compared to net income of \$4.5 million for the six months ended June 30, 2012.

Noncontrolling interests

Noncontrolling interests relate to earnings and losses attributable to noncontrolling shareholders.

Net income attributable to ORBCOMM Inc.

Three months: We have net income attributable to our company of \$1.7 million for the three months ended June 30, 2013 compared to a net income of \$1.9 million for the three months ended June 30, 2012.

Six months: We have net income attributable to our company of \$2.8 million for the six months ended June 30, 2013 compared to a net income of \$4.3 million for the six months ended June 30, 2012.

For the three and six months ended June 30, 2013 and 2012, the net income attributable to our common stockholders includes dividends of less than \$0.1 million paid in shares of the Series A convertible preferred stock issued in connection with the acquisition of StarTrak.

Liquidity and Capital Resources

Overview

Our liquidity requirements arise from our working capital needs and to fund capital expenditures to support our current operations, and facilitate growth and expansion. We have financed our operations and expansion mostly from sales of our common stock through public offerings and private placements of debt, convertible preferred stock, common stock and most recently net income. At June 30, 2013, we have an accumulated deficit of \$65.2 million. Our primary source of liquidity consisted of cash, cash equivalents, restricted cash and marketable securities totaling \$80.2 million, which we believe will be sufficient to provide working capital and capital expenditures for the next twelve months.

Operating activities

Cash provided by our operating activities for the six months ended June 30, 2013 was \$2.2 million resulting from net income of \$2.9 million, supplemented by non-cash items including \$2.6 million for depreciation and amortization and \$1.2 million for stock-based compensation. Working capital activities primarily consisted of a net uses of cash of \$2.8 million for an increase in accounts receivable primarily due to the increase in revenues and \$2.0 million from a decrease in accounts payable and accrued expenses primarily related to timing for payments for professional fees.

Cash provided by our operating activities for the six months ended June 30, 2012 was \$5.1 million resulting from net income of \$4.5 million, supplemented by non-cash items including \$2.2 million for depreciation and amortization and \$0.8 million for stock-based compensation, offset by a \$1.2 million gain on extinguishment of debt and accounts payable. Working capital activities primarily consisted of a net use of cash of

\$2.0 million for an increase in accounts receivable primarily due to the increase in revenues.

Investing activities

Cash used in our investing activities for the six months ended June 30, 2013 was \$30.9 million, resulting primarily from capital expenditures of \$21.6 million, purchases of marketable securities of \$51.4 million and \$3.2 million and \$2.0 million in consideration paid to acquire MobileNet and GlobalTrak, respectively, offset by proceeds received from the maturities of marketable securities totaling \$47.3 million.

Table of Contents

Cash used in our investing activities for the six months ended June 30, 2012 was \$9.4 million, resulting from \$4.0 million in consideration paid to acquire LMS, capital expenditures of \$8.6 million and purchases of marketable securities of \$34.6 million, offset by proceeds received from the maturities of marketable securities totaling \$36.8 million and a refund of \$1.0 million in restricted cash.

Financing activities

Cash provided by our financing activities for the six months ended June 30, 2013 was \$40.3 million, resulting primarily from proceeds received from the issuance of \$45 million Senior Notes, offset by payments for debt issuance costs of \$1.3 million in connection with the Senior Notes and a \$3.4 million principal repayment of the 6% secured promissory note issued in connection with the acquisition of StarTrak.

Cash used in our financing activities for the six months ended June 30, 2012 was \$0.8 million, resulting from ORBCOMM's purchase of noncontrolling ownership interests in Satcom of \$0.2 million, Satcom's repayment of \$0.3 million in notes payable and \$0.3 million in principal payments of capital leases and a note payable.

Future Liquidity and Capital Resource Requirements

We expect cash flows from operating activities, along with our existing cash, cash equivalents, restricted cash and marketable securities will be sufficient to provide working capital and to fund our interest payments on the \$45 million Senior Notes and capital expenditures, which primarily includes milestone payments under the procurement agreements for the next-generation satellites for the next twelve months. For the remainder of 2013, we expect to incur approximately \$30 million of capital expenditures primarily for our next-generation satellites.

On January 4, 2013, we issued \$45 million aggregate principal amount of Senior Notes due on January 4, 2018. Interest is payable quarterly at a rate of 9.5% per annum. The Senior Notes are secured by a first priority security interest in substantially all of our and subsidiaries' assets. The covenants in the Senior Notes limits our ability among other things to, incur additional indebtedness and liens, to sell, transfer, lease or otherwise dispose of our subsidiaries assets, merge or consolidate with other companies. We are also required to obtain launch and one year in-orbit insurance for our next-generation satellites under the terms of the Senior Notes. We must also comply with a maintenance covenant of either having available liquidity of \$10 million (the sum of (a) cash and cash equivalents plus (b) the total amount available to be borrowed under a working capital facility) or a maximum leverage ratio (consolidated total debt to consolidated adjusted EBITDA, adjusted for stock-based compensation and certain other non-cash items and other agreed upon other charges) of not more than 4.5 to 1.0.

Debt Covenants

As of June 30, 2013, we were in compliance with our covenants of the \$45 million Senior Notes.

Contractual Obligations

There have been no material changes in our contractual obligations as of June 30, 2013, as previously disclosed in our Annual Report on Form 10-K for the year ended December 31, 2012, except for the annual interest payments of \$4.2 million and the principal balance due in January 2018 of the Senior Notes discussed above.

Off-Balance Sheet Arrangements

We have no material off-balance sheet arrangements as defined in Item 303(a)(4)(ii) of Regulation S-K.

Item 3. Quantitative and Qualitative Disclosures about Market Risks

There has been no material changes in our assessment of our sensitivity to market risk as of June 30, 2013, as previously disclosed in Part II, Item 7A "Quantitative and Qualitative Disclosures about Market Risks" in our Annual Report on Form 10-K for the year ended December 31, 2012.

Changes in Internal Control over Financial Reporting.

We reviewed our internal control over financial reporting at June 30, 2013. As a result of the acquisitions, we have begun to integrate certain business processes and systems of MobileNet and GlobalTrak. Accordingly, certain changes have been made and will continue to be made to our internal controls over financial reporting until such time as this integration is complete. In reliance on interpretive guidance issued by the SEC staff, management has chosen to exclude disclosure of changes in internal control over financial related to MobileNet and GlobalTrak.

There have been no other changes in our internal control over financial reporting identified in an evaluation thereof that occurred during the second quarter of 2013 that materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II OTHER INFORMATION

Item 1. Legal Proceedings

From time to time, we are involved in various litigation claims or matters involving ordinary and routine claims incidental to our business.
