AMERICAN GREETINGS CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

Three and Six Months Ended August 29, 2014 and August 30, 2013

Note 1 Basis of Presentation

The accompanying unaudited consolidated financial statements of American Greetings Corporation and its subsidiaries (the Corporation) have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and notes required by accounting principles generally accepted in the United States for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary to fairly present financial position, results of operations and cash flows for the periods have been included. On August 9, 2013, the Corporation completed a merger whereby the Corporation was acquired by Century Intermediate Holding Company, a company that was formed by the Chairman of the Board, the co-Chief Executive Officers of the Corporation and certain other members of the Weiss family and related entities (the Merger). As a result of the Merger, the Corporation's equity is no longer publicly traded. As such, earnings per share information is not required.

The Corporation's fiscal year ends on February 28 or 29. References to a particular year refer to the fiscal year ending in February of that year. For example, 2014 refers to the year ended February 28, 2014. The Corporation's subsidiary, AG Retail Cards Limited is consolidated on a one-month lag corresponding with its fiscal year-end of January 31 for 2015.

These interim financial statements should be read in conjunction with the Corporation's financial statements and notes thereto included in its Annual Report on Form 10-K for the year ended February 28, 2014, from which the Consolidated Statement of Financial Position at February 28, 2014, presented herein, has been derived.

The Corporation's investments in less than majority-owned companies in which it has the ability to exercise significant influence over the operation and financial policies are accounted for using the equity method except when they qualify as variable interest entities (VIE) and the Corporation is the primary beneficiary, in which case, the investments are consolidated in accordance with Accounting Standards Codification (ASC) Topic 810 (ASC 810), Consolidation. Investments that do not meet the above criteria are accounted for under the cost method.

Prior to the fourth quarter of 2014, the Corporation held an approximate 15% equity interest in Schurman Fine Papers (Schurman) which is a VIE as defined in ASC 810. Schurman owns and operates specialty card and gift retail stores in the United States and Canada. The stores are primarily located in malls and strip shopping centers. During the third quarter of 2014, the Corporation determined that, due to continued operating losses, shareholders' deficit and lack of return on the Corporation's investment, the cost method investment was permanently impaired. As a result, the Corporation recorded an impairment charge in the amount of \$1.9 million which reduced the carrying amount of the investment to zero. In addition, during the fourth quarter of 2014, in order to mitigate ongoing risks to the Corporation that may arise from retaining an equity interest in Schurman, the Corporation transferred to Schurman its 15% equity interest and, as a result, no longer has an equity interest in Schurman.

The Corporation provides Schurman limited credit support through the provision of a liquidity guaranty (Liquidity Guaranty) in favor of the lenders under Schurman's senior revolving credit facility (the Senior Credit Facility). Pursuant to the terms of the Liquidity Guaranty, the Corporation has guaranteed the repayment of up to \$10.0 million

of Schurman's borrowings under the Senior Credit Facility to help ensure that Schurman has sufficient borrowing availability under this facility. The Liquidity Guaranty is required to be backed by a letter of credit for the term of the Liquidity Guaranty, which is currently anticipated to end in July 2016. The Corporation's obligations under the Liquidity Guaranty generally may not be triggered unless Schurman's lenders under its Senior Credit Facility have substantially completed the liquidation of the collateral under Schurman's Senior Credit Facility, or 91 days after the liquidation is started, whichever is earlier, and will be limited to the deficiency, if any, between the amount owed and the amount collected in connection with the liquidation. There was no triggering event or liquidation of collateral as of August 29, 2014 requiring the use of the Liquidity Guaranty.

Table of Contents

During the current period, the Corporation assessed the variable interests in Schurman and determined that a third party holder of variable interests has the controlling financial interest in the VIE and thus, the third party, not the Corporation, is the primary beneficiary. In completing this assessment, the Corporation identified the activities that it considers most significant to the future economic success of the VIE and determined that it does not have the power to direct those activities. As such, Schurman is not consolidated in the Corporation's results. The Corporation's maximum exposure to loss as it relates to Schurman as of August 29, 2014 includes:

Liquidity Guaranty of Schurman's indebtedness of \$10.0 million;

normal course of business trade and other receivables due from Schurman of \$28.5 million, the balance of which fluctuates throughout the year due to the seasonal nature of the business; and

the retail store operating leases currently subleased to Schurman, the aggregate lease payments for the remaining life of which was \$5.8 million, \$7.1 million and \$9.4 million as of August 29, 2014, February 28, 2014 and August 30, 2013, respectively.

Correction of Immaterial Errors

During the first quarter of 2015, the Corporation identified and corrected errors in the accounting for income taxes that related to the year ended February 28, 2014. These errors primarily related to the Corporation's failure to consider all sources of available taxable income when assessing the need for a valuation allowance against certain deferred tax assets and the recognition of a liability for an uncertain tax position. These errors were the result of the significant complexity created as a result of the Merger and related transactions. The impact of correcting these items had a non-cash effect, decreasing tax expense and increasing net income by \$4.1 million. Based on its evaluation as discussed more fully below, the Corporation concluded that the corrections to the financial statements were immaterial to its financial results for the year ended February 28, 2014 and its expected financial results for the year ending February 28, 2015.

In accordance with ASC Topic 250, Accounting Changes and Error Corrections, the Corporation evaluated the effects of the errors on its financial statements for the year ended February 28, 2014 and the expected full year financial results for the year ending February 28, 2015 and concluded that the results of operations for these periods are not materially misstated. In reaching its conclusion, the Corporation considered numerous qualitative and quantitative factors, including but not limited to the following:

In evaluating the financial and operational performance, the Corporation's shareholder and debt holders focus on performance metrics such as earnings before interest, taxes, depreciation and amortization (EBITDA), operating income and cash flows from operations, none of which were impacted by the correction of the errors,

The numeric impact of the error on the Corporation's results of operations, including the net dollar impact, the impact as a percentage of period earnings, the impact on financial trends, and the impact on non-GAAP measures such as adjusted operating income the Corporation presents in quarterly public debt holder

conference calls, which were deemed immaterial, particularly in light of the Corporation's stakeholders' focus on EBITDA, operating income and cash flows from operations, and

The absence of any impact on the Corporation's compliance with its debt covenants, management compensation or segment reporting.

Based on its evaluation, the Corporation concluded that it is not probable that the judgment of a reasonable person relying on the financial statements would have been changed or influenced by the error or correction of the error.

Note 2 Seasonal Nature of Business

A significant portion of the Corporation's business is seasonal in nature. Therefore, the results of operations for interim periods are not necessarily indicative of the results for the fiscal year taken as a whole.

Note 3 Recent Accounting Pronouncements

In August 2014, the Financial Accounting Standards Board (the FASB) issued Accounting Standards Update (ASU) No. 2014-15, (ASU 2014-15), Disclosure of Uncertainties About an Entity's Ability to Continue as a Going Concern. ASU 2014-15 requires management to perform interim and annual assessments of an entity's ability to continue as a going concern within one year of the date the financial statements are issued and provides guidance on determining when and how to disclose going concern uncertainties in the financial statements. Certain disclosures will be required if conditions give rise to substantial doubt about an entity's ability to continue as a going concern. ASU 2014-15 applies to all entities and is effective for annual and interim reporting periods ending after December 15, 2016, with early adoption permitted. The Corporation does not expect that the adoption of this standard will have a material effect on its financial statements.

In May 2014, the FASB issued ASU No. 2014-09 (ASU 2014-09), Revenue from Contracts with Customers. The objective of ASU 2014-09 is to establish a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and will supersede most of the existing revenue recognition guidance, including industry-specific guidance. The core principle of ASU 2014-09 is that an entity recognizes revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The new guidance is effective for annual reporting periods (including interim periods within those periods) beginning after December 15, 2016 for public companies. Early adoption is not permitted. The standard permits the use of either a retrospective or modified retrospective (cumulative effect) transition method. The Corporation is currently evaluating the new guidance and has not determined the impact this standard may have on its financial statements nor decided upon the method of adoption.

In April 2014, the FASB issued ASU No. 2014-08 (ASU 2014-08), Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity. ASU 2014-08 changes the criteria for determining which disposals can be presented as discontinued operations and modifies the related disclosure requirements. Under the new guidance, a disposal of a component of an entity or a group of components of an entity is required to be reported in discontinued operations if the disposal represents a strategic shift that has (or will have) a major effect on an entity's operations and financial results and is disposed of or classified as held for sale. The standard also introduces several new disclosures. The guidance applies prospectively to new disposals and new classifications of disposal groups as held for sale after the effective date. ASU 2014-08 is effective for annual and interim periods beginning after December 15, 2014, with early adoption permitted. The Corporation adopted ASU 2014-08 early on August 29, 2014 in connection with the disposition of A.G. Industries, Inc. See Note 4 for further information.

In July 2013, the FASB issued ASU No. 2013-11 (ASU 2013-11), Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists. ASU 2013-11 requires an unrecognized tax benefit, or a portion of an unrecognized tax benefit, to be presented in the financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward, except as follows. To the extent a net operating loss carryforward, a similar tax loss, or a tax credit carryforward is not available at the reporting date, the unrecognized tax benefit should be presented in the financial statements as a liability and not combined with deferred tax assets. ASU 2013-11 is effective for annual and interim periods beginning after December 15, 2013 for public companies, with early adoption permitted. The Corporation adopted ASU 2013-11 on March 1, 2014.

Table of Contents**Note 4 Dispositions**

On July 1, 2014, the Corporation sold its current world headquarters location and entered into an operating lease arrangement with the new owner of the building. The Corporation expects to remain in this current location until the completion of the new world headquarters, which the Corporation anticipates will occur in calendar year 2016. Net of transaction costs, the Corporation received \$13.5 million cash from the sale, and recorded a non-cash loss on disposal of \$15.5 million in the Corporation's second fiscal quarter, which loss is included in Other operating income net on the Consolidated Statement of Income.

On August 29, 2014, the Corporation completed the sale of its wholly-owned display fixtures business, A.G. Industries, Inc. (dba AGI In-Store AGI In-Store), to Rock-Tenn Company for \$73.7 million in cash, subject to closing date working capital adjustments. A gain of \$38.8 million has been recognized from the sale in the Corporation's second fiscal quarter and is included in Other operating income net on the Consolidated Statement of Income. AGI In-Store, which is included in the non-reportable segment, had an operating loss of \$2.2 million for the three month period ended August 29, 2014 and operating income of \$0.1 million for the six month period ended August 29, 2014 (\$8.2 million and \$13.5 million of operating income for the three and six month periods ended August 30, 2013, respectively).

Note 5 Royalty Revenue and Related Expenses

The Corporation has agreements for licensing the Care Bears and Strawberry Shortcake characters and other intellectual property. These license agreements provide for royalty revenue to the Corporation, which is recorded in Other revenue on the Consolidated Statement of Income. These license agreements may include the receipt of upfront advances, which are recorded as deferred revenue and earned during the period of the agreement. Revenues and expenses associated with the servicing of these agreements, primarily relating to the licensing activities included in the non-reportable segment, are summarized as follows:

During the quarter ended August 29, 2014, the Corporation recognized a gain on the sale of AGI In-Store of \$38.8 million. The cash proceeds of \$73.7 million from the sale are included in Proceeds from sale of AGI In-Store on the Consolidated Statement of Cash Flows. See Note 4 for further information.

Loss (gain) on asset disposal during the three and six month periods ended August 29, 2014 included a non-cash loss of \$15.5 million related to the sale of the Corporation's current world headquarters location. The cash proceeds of \$13.5 million are included in Proceeds from sale of fixed assets on the Consolidated Statement of Cash Flows. See Note 4 for further information.

During the first quarter of 2015, the Corporation recorded an impairment recovery of \$3.4 million related to the senior secured debt of Clinton Cards that the Corporation acquired in May 2012 and subsequently impaired. This recovery, which was based on current estimated recovery information provided by the bankruptcy administrators of the Clinton Cards liquidation (Administrators), represents the final amount of a full recovery of the prior impairment. The liquidation process is expected to be completed during fiscal 2015.

During the three and six month periods ended August 30, 2013 the impairment of the secured debt of Clinton Cards, based on updated recovery information provided by the Administrators, was also adjusted, resulting in a gain of \$0.4 million and \$2.4 million, respectively.

The valuation of inventory under the Last-In, First-Out (LIFO) method is made at the end of each fiscal year based on inventory levels and costs at that time. Accordingly, interim LIFO calculations, by necessity, are based on estimates of expected fiscal year-end inventory levels and costs, and are subject to final fiscal year-end LIFO inventory calculations.

Table of Contents

Inventory held on location for retailers with scan-based trading arrangements, which is included in finished products, totaled \$70.8 million, \$66.8 million and \$63.9 million as of August 29, 2014, February 28, 2014 and August 30, 2013, respectively.

Note 10 Deferred Costs

Deferred costs and future payment commitments for retail supply agreements are included in the following financial statement captions:

(In thousands)	August 29, 2014	February 28, 2014	August 30, 2013

The Corporation maintains an allowance for deferred costs related to supply agreements of \$3.1 million, \$4.1 million and \$6.5 million at August 29, 2014, February 28, 2014 and August 30, 2013, respectively. This allowance is included in Other assets on the Consolidated Statement of Financial Position.

Note 11 Other Liabilities

Included in Other liabilities on the Consolidated Statement of Financial Position is a deferred lease obligation related to an operating lease with H L & L Property Company (H L & L), for a building that will function as the future use of American Greetings world headquarters. The building is currently being constructed and expected to be available for occupancy in calendar year 2016.

H L & L is an indirect affiliate of American Greetings as it is indirectly owned by members of the Weiss family. Due to, among other things, the Corporation's involvement in the construction of the building, the Corporation is required to be treated, for accounting purposes only, as the deemed owner of the new world headquarters building during the construction period. Accordingly, the Corporation has recorded an asset and associated offsetting liability during the construction of the building, even though the Corporation does not own the asset and is not the obligor on the corresponding construction debt. As of August 29, 2014, the asset and corresponding liability was \$14.8 million.

Note 12 Debt

Debt due within one year, which represents the current maturity of the term loan, totaled \$20.0 million as of both August 29, 2014 and February 28, 2014 and \$15.0 million as of August 30, 2013.

Long-term debt and their related calendar year due dates as of August 29, 2014, February 28, 2014 and August 30, 2013, respectively, were as follows:

(In thousands)	August 29, 2014	February 28, 2014	August 30, 2013

Table of Contents

At August 29, 2014, the balances outstanding on the term loan facility bear interest at a rate of approximately 4.0%. The revolving credit facility provides the Corporation with funding of up to \$250 million. The Corporation is also a party to an accounts receivable facility that provides up to \$50 million of additional funding. There were no amounts outstanding under the accounts receivable facility as of August 29, 2014, February 28, 2014 and August 30, 2013, respectively. Outstanding letters of credit, which reduce the total credit available under the revolving credit and the accounts receivable facilities, totaled \$27.7 million at August 29, 2014.

The total fair value of the Corporation's publicly traded debt, which was considered a Level 1 valuation as it was based on quoted market prices, was \$240.3 million (at a carrying value of \$225.2 million), \$234.7 million (at a carrying value of \$225.2 million) and \$222.9 million (at a carrying value of \$225.2 million) at August 29, 2014, February 28, 2014 and August 30, 2013, respectively.

The total fair value of the Corporation's non-publicly traded debt, which was considered a Level 2 valuation as it was based on comparable privately traded debt prices, was \$330.0 million (at a principal carrying value of \$330.0 million), \$344.5 million (at a principal carrying value of \$344.5 million), and \$363.9 million (at a principal carrying value of \$363.9 million) at August 29, 2014, February 28, 2014 and August 30, 2013, respectively.

On August 8, 2014, the Corporation amended its accounts receivable facility. The amendment modified the accounts receivable facility to, among other things: (i) extend the scheduled termination date to August 7, 2015 and (ii) reduce the fees associated with this facility.

Subsequent to the end of the second quarter, the Corporation amended the Credit Agreement which provides for the term loan facility and revolving credit facility. The amendment modifies the Credit Agreement to, among other things: (i) reduce the interest rates applicable to the term loan and revolving loans, (ii) eliminate the LIBOR floor interest rate used in the determination of interest charged on Eurodollar revolving loans, (iii) reduce the commitment fee applicable to unused revolving commitments and (iv) reset the usage term of the general restricted payment basket with effect from September 5, 2014.

At August 29, 2014, the Corporation was in compliance with the financial covenants under its borrowing agreements.

Table of Contents

The Corporation has a discretionary profit-sharing plan with a 401(k) provision covering most of its United States employees. The profit-sharing plan expense for the six months ended August 29, 2014 was \$5.5 million, compared to \$4.5 million in the prior year period. The Corporation also matches a portion of 401(k) employee contributions. The expenses recognized for the three and six month periods ended August 29, 2014 were \$1.3 million and \$2.6 million (\$1.4 million and \$2.7 million for the three and six month periods ended August 30, 2013), respectively. The profit-sharing plan and 401(k) matching expenses for the six month periods are estimates as actual contributions are determined after fiscal year-end.

At August 29, 2014, February 28, 2014 and August 30, 2013, the liability for postretirement benefits other than pensions was \$19.7 million, \$17.9 million and \$17.6 million, respectively, and is included in *Other liabilities* on the Consolidated Statement of Financial Position. At August 29, 2014, February 28, 2014 and August 30, 2013, the long-term liability for pension benefits was \$74.5 million, \$77.3 million and \$81.1 million, respectively, and is included in *Other liabilities* on the Consolidated Statement of Financial Position.

Note 14 Fair Value Measurements

Assets and liabilities measured at fair value are classified using the fair value hierarchy based upon the transparency of inputs as of the measurement date. The classification of fair value measurements within the hierarchy is based upon the lowest level of input that is significant to the measurement. The three levels are defined as follows:

Level 1 Valuation is based upon quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 Valuation is based upon quoted prices for similar assets and liabilities in active markets, or other inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3 Valuation is based upon unobservable inputs that are significant to the fair value measurement. The following table summarizes the assets and liabilities measured at fair value as of August 29, 2014:

(In thousands)	August 29, 2014	Level 1	Level 2	Level 3
Assets measured on a recurring basis:				
Deferred compensation plan assets	\$ 12,516	\$ 10,599	\$ 1,917	\$
Liabilities measured on a recurring basis:

Table of Contents

The deferred compensation plan includes investments in mutual funds and a money market fund. Assets held in mutual funds are recorded at fair value, which is considered a Level 1 valuation as it is based on each fund's quoted market value per share in an active market. The money market fund is classified as Level 2 as substantially all of the fund's investments are determined using amortized cost. The fair value of the deferred compensation plan liabilities is based on the fair value of: (i) the plan's assets for invested deferrals and (ii) hypothetical investments for unfunded deferrals resulting from the conversion of deferred restricted stock units to future cash-settled obligations pursuant to the Merger. Prior to the Merger, the assets and related obligation associated with deferred restricted stock units were carried at cost in equity and offset each other.

Note 15 Contingency

The Corporation is presently involved in various judicial, administrative, regulatory and arbitration proceedings concerning matters arising in the ordinary course of business, including but not limited to, employment, commercial disputes and other contractual matters, one of which is described below. These matters are inherently subject to many uncertainties regarding the possibility of a loss to the Corporation. These uncertainties will ultimately be resolved when one or more future events occur or fail to occur, confirming the incurrence of a liability or reduction of a liability. In accordance with ASC Topic 450, Contingencies, the Corporation accrues for these contingencies by a charge to income when it is both probable that one or more future events will occur confirming the fact of a loss and the amount of the loss can be reasonably estimated. Due to this uncertainty, the actual amount of any loss may ultimately prove to be larger or smaller than the amounts reflected in the Corporation's Consolidated Financial Statements. Some of these proceedings are at preliminary stages and some of these cases seek an indeterminate amount of damages.

On June 4, 2014, Al Smith and Jeffrey Hourcade, former fixture installation crew members for special projects, individually and on behalf of those similarly situated, filed a putative class action lawsuit against American Greetings Corporation in the U.S. District Court for the Northern District of California, San Francisco Division. Plaintiffs claim that the Corporation violated certain rules under the Fair Labor Standards Act and California law, including the California Labor Code, Industrial Welfare Commission Wage Orders. For themselves and the proposed classes, plaintiffs seek an unspecified amount of general and special damages, including but not limited to minimum wages, agreed upon wages and overtime wages, statutory liquidated damages, statutory penalties (including penalties under the California Labor Code Private Attorney General Act of 2004, unpaid benefits, reasonable attorneys' fees and costs, and interest. In addition, plaintiffs request disgorgement of all funds the Corporation acquired by means of any act or practice that constitutes unfair competition and restoration of such funds to the plaintiffs and the proposed classes.

Although the proceeding is in the early stages and there are significant factual issues to be resolved, management does not believe, based on currently available information, that the outcome of this proceeding will have a material adverse effect on the Corporation's financial condition, although the outcome could be material to the Corporation's operating results for any particular period, depending, in part, upon the operating results for such period. Please refer to Item 1. Legal Proceedings included in Part II Other Information of this Form 10-Q for a description of the Smith and Hourcade lawsuit.

Table of Contents**Note 16 Income Taxes**

The Corporation's provision for income taxes in interim periods is computed by applying its estimated annual effective tax rate against income before income tax expense for the period. In addition, non-recurring or discrete items are recorded during the period in which they occur. The magnitude of the impact that discrete items have on the Corporation's quarterly effective tax rate is dependent on the level of income in the period. The effective tax rate was 33.8% and 26.0% for the three and six months ended August 29, 2014, respectively, and 191.9% and 51.6% for the three and six months ended August 30, 2013, respectively. The lower than statutory rate for the current period was due to both the recording of a net \$3.1 million federal tax refund and related interest attributable to fiscal 2000 and the error corrections identified in the current year first quarter and recorded in accordance with ASC Topic 250, Accounting Changes and Error Corrections. The net impact of the error corrections was a reduction to income tax expense of \$4.1 million. During the first quarter of fiscal 2015, the Corporation identified and corrected errors in the accounting for income taxes that related to the year ended February 28, 2014. These errors primarily related to the Corporation's failure to consider all sources of available taxable income when assessing the need for a valuation allowance against certain deferred tax assets and the recognition of a liability for an uncertain tax position. These errors were the result of the significant complexity created as a result of the Merger and related transactions in fiscal 2014. See Note 1 for further information. The higher than statutory rate in the prior period was due primarily to the recording of an \$8.0 million valuation allowance against certain net operating loss and foreign tax credit carryforwards which the Corporation believed at the time would expire unused as a result of the Merger.

At August 29, 2014, the Corporation had unrecognized tax benefits of \$20.5 million that, if recognized, would have a favorable effect on the Corporation's income tax expense of \$18.0 million. During the six months ended August 29, 2014, the Corporation's unrecognized tax benefits increased \$1.4 million. The net increase was primarily a result of the error correction related to the uncertain tax position as discussed above which resulted in an increase of approximately \$2.4 million partially offset by decreases of approximately \$1.0 million due to the favorable settlement of certain state audits. It is reasonably possible that the Corporation's unrecognized tax positions as of August 29, 2014 could decrease \$2.5 million during the next twelve months due to anticipated settlements and resulting cash payments related to tax years which are open to examination.

The Corporation recognizes interest and penalties accrued on unrecognized tax benefits and refundable income taxes as a component of income tax expense. During the six months ended August 29, 2014, the Corporation recognized a net benefit of \$2.1 million for interest and penalties on unrecognized tax benefits and refundable income taxes. As of August 29, 2014, the total amount of gross accrued interest and penalties related to unrecognized tax benefits less refundable income taxes was a net payable of \$2.2 million.

The Corporation is subject to examination by the IRS for tax years 2010 to the present and various U.S. state and local jurisdictions for tax years 2001 to the present. The Corporation is also subject to tax examination in various international tax jurisdictions, including Canada, the United Kingdom, Australia, Italy, Mexico and New Zealand for tax years 2006 to the present.

Note 17 Related Party Information**World headquarters relocation**

In May 2011, the Corporation announced that it will be relocating its world headquarters to a new location in the City of Westlake, Ohio, in a mixed-use development known as Crocker Park (the Crocker Park Development), which offers a vibrant urban setting, with retail stores and restaurants, offices and apartments. After putting the project on hold pending the outcome of the going private transaction, the Corporation announced plans in October 2013 to

resume the project and, on March 26, 2014, the Corporation purchased from Crocker Park, LLC, the owner of the Crocker Park Development, 14.48 acres of land at the south end of the Crocker Park Development (the Crocker Park Site) on which the new world headquarters will be built. The purchase price for the land was \$7.4 million (based on a per acre price of \$510 thousand). Morry Weiss, the Chairman of the board of the Corporation,

Table of Contents

Zev Weiss and Jeffrey Weiss, directors and the Co-Chief Executive Officers of the Corporation, and Gary and Elie Weiss, directors and non-executive officers of the Corporation, together with members of their family (collectively, the Weiss Family), indirectly own a minority stake in Crocker Park, LLC through their indirect ownership of approximately 37% of the membership interests in Crocker Park, LLC. In addition, Morry Weiss and other members of the Weiss Family have guaranteed certain of Crocker Park, LLC's obligations, and are expected to guarantee additional obligations of Crocker Park, LLC, incurred in connection with the Crocker Park Development. The authority to conduct, manage and control the business of Crocker Park, LLC, including operating the Crocker Park Development and the decision whether to sell the Crocker Park Site to American Greetings, was reserved to the manager of Crocker Park, LLC, who is not an affiliate of the Weiss Family and that is an affiliate of Stark Enterprises, Inc.

The Corporation is leasing a portion of the Crocker Park Site to H L & L, which will construct the new world headquarters on the Crocker Park Site and sublease the new world headquarters back to the Corporation. The Corporation has also entered into an operating lease with H L & L for the use of the new world headquarters building, anticipated to be available for occupancy in calendar year 2016. The initial lease term is fifteen years and will begin upon occupancy. See Note 11 for further information. Please refer to the Corporation's Annual Report on Form 10-K for the fiscal year ended February 28, 2014 for a description of the transactions associated with the World headquarters relocation.

Transactions with Parent Companies and Other Affiliated Companies

From time to time employees of the Corporation may provide services to its parent companies as well as companies that are owned or controlled by members of the Weiss family, in each case provided that such services do not interfere with the Corporation's employees' ability to perform services on its behalf. When providing such services, the affiliated companies reimburse the Corporation for such services, based on the costs of employing the individual (including salary and benefits) and the amount of time spent by such employee in providing services to the affiliated company.

During the quarter ended August 29, 2014, the Corporation paid cash dividends in the aggregate amount of \$24.2 million to Century Intermediate Holding Company, its parent and sole shareholder, \$14.3 million of which was for the purpose of paying interest on the \$285.0 million aggregate principal amount 9.75%/10.50% Senior PIK Toggle Notes due 2019, which were issued by Century Intermediate Holding Company 2, an indirect parent of American Greetings. In addition, H L & L paid \$9.9 million to the Corporation to acquire certain assets previously purchased by the Corporation related to the new world headquarters project, which is included in Proceeds from sale of fixed assets on the Consolidated Statement of Cash Flows.

Note 18 Business Segment Information

The Corporation has North American Social Expression Products, International Social Expression Products, Retail Operations, AG Interactive and non-reportable segments. The North American Social Expression Products and International Social Expression Products segments primarily design, manufacture and sell greeting cards and other related products through various channels of distribution with mass merchandising as the primary channel. At August 29, 2014, the Retail Operations segment operated 402 card and gift retail stores in the United Kingdom. The stores sell products purchased from the International Social Expression Products segment as well as products purchased from other vendors. AG Interactive distributes social expression products, including electronic greetings and a broad range of graphics and digital services and products, through a variety of electronic channels, including Web sites, Internet portals and electronic mobile devices. The Corporation's non-reportable operating segment primarily includes licensing activities and the design, manufacture and sale of display fixtures. The display fixtures business was sold on the last day of the quarter ended August 29, 2014. See Note 4 for further information.

Corporate overhead expense includes costs associated with corporate operations including, among other costs, senior management, corporate finance, legal, and insurance programs.

During the current year second quarter, the Corporation sold its current world headquarters location and incurred a non-cash loss on disposal of \$15.5 million, of which \$13.3 million was recorded within the North American Social Expression Products segment and \$2.2 million was recorded in Corporate overhead expense. See Note 4 for further information

For both the three and six month periods ended August 29, 2014, Corporate overhead expense included the gain on sale of AGI In-Store of \$38.8 million. See Note 4 for further information.

For the three and six month periods ended August 30, 2013, Corporate overhead expense included non-recurring Merger-related transaction costs of approximately \$12.6 million and \$17.2 million, respectively.

For both the three and six month periods ended August 30, 2013, Corporate overhead expense included a gain totaling \$3.3 million related to a cash distribution on its minority investment in the common stock of Party City.

Termination Benefits

Termination benefits are primarily considered part of an ongoing benefit arrangement, accounted for in accordance with ASC Topic 712, Compensation - Nonretirement Postemployment Benefits, and are recorded when payment of the benefits is probable and can be reasonably estimated.

The balance of the severance accrual was \$3.5 million, \$4.0 million and \$2.9 million at August 29, 2014, February 28, 2014 and August 30, 2013, respectively. The payments expected within the next twelve months are included in

Accrued liabilities while the remaining payments beyond the next twelve months are included in Other liabilities on the Consolidated Statement of Financial Position.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This Management's Discussion and Analysis of Financial Condition and Results of Operations should be read in conjunction with our unaudited consolidated financial statements. This discussion and analysis, and other statements made in this Report, contain forward-looking statements, see "Factors That May Affect Future Results" at the end of this discussion and analysis for a description of the uncertainties, risks and assumptions associated with these statements. Unless otherwise indicated or the context otherwise requires, the Corporation, we, our, us and American Greetings used in this Report to refer to the businesses of American Greetings Corporation and its consolidated subsidiaries.

Overview

Second Quarter Transactions

On July 1, 2014, we sold our current world headquarters location and entered into an operating lease arrangement with the new owner of the building. We expect to remain in our current location until the completion of our new world headquarters, which we anticipate will occur in calendar year 2016. Net of transaction costs, we received \$13.5 million cash from the sale, and recorded a non-cash loss on disposal of \$15.5 million during our second fiscal quarter, of which \$13.3 million was recorded within the North American Social Expression segment and \$2.2 million was recorded within the Unallocated segment.

On August 29, 2014, we completed the sale of our wholly-owned display fixtures business, A.G. Industries, Inc. (dba AGI In-Store AGI In-Store), to Rock-Tenn Company for \$73.7 million in cash, subject to closing date working capital adjustments. We recognized a gain of \$38.8 million from the sale, which was recorded within the Unallocated segment.

Second Quarter Results of Operations

Total revenue for the current year second quarter was \$432.4 million, an increase of \$12.0 million or 2.9% compared to the prior year period. This improvement was primarily the result of increased sales of greeting cards, higher sales of gift wrap and party goods and the impact of favorable foreign currency movements. These improvements were partially offset by lower revenues from our fixtures business and decreased sales of other ancillary products.

Second quarter operating income was \$43.5 million, an increase of \$36.4 million compared to the prior period. The improvement was driven by the gain of \$38.8 million in connection with the sale of AGI In-Store and costs and fees related to the prior year going private transaction of \$22.3 million that did not recur in the current year quarter. These improvements were partially offset by the non-cash loss on disposal of \$15.5 million related to the sale of the current world headquarters location. Net of the above items, operating income decreased from the prior year primarily due to lower earnings in our display fixtures business, which is reported in the Non-reportable segment. In addition, improved earnings, net of the loss on sale of the headquarters, in our North American Social Expression Products segment was offset by lower earnings in our Retail Operations segment.

The current year six months includes the unfavorable impact of approximately \$5 million related to scan-based trading (SBT) implementations, which was approximately \$2 million higher than the prior year.

Table of Contents**Results of Operations*****Three months ended August 29, 2014 and August 30, 2013***

Net income was \$22.8 million in the second quarter compared to a net loss of \$5.2 million in the prior year period.

For the three months ended August 29, 2014, consolidated net sales were \$427.1 million, up from \$413.7 million in the prior year second quarter. This 3.2%, or \$13.4 million, increase was driven by higher sales of greeting cards of approximately \$16 million, increased sales of gift packaging and party goods of approximately \$3 million and the favorable impact of foreign currency of approximately \$10 million. These increases were partially offset by lower sales in our fixtures business of approximately \$11 million, decreased sales of other ancillary products of approximately \$4 million and the unfavorable impact of SBT implementations of approximately \$1 million.

Other revenue, primarily royalty revenue from our Strawberry Shortcake and Care Bears properties, decreased \$1.4 million during the three months ended August 29, 2014.

Wholesale Unit and Pricing Analysis for Greeting Cards

Unit and pricing comparatives (on a sales less returns basis), excluding intercompany eliminations, for the three months ended August 29, 2014 and August 30, 2013 are summarized below:

Increase (Decrease) From the Prior Year

	Everyday Cards		Seasonal Cards		Total Greeting Cards	
	2014	2013	2014	2013	2014	2013
Unit volume	1.1%	(3.8%)	(3.8%)	(0.7%)	0.1%	(3.2%)

Overall increase / (decrease)	5.3%	(1.6%)	8.7%	(6.0%)	6.0%	(2.5%)

Table of Contents

During the second quarter, combined everyday and seasonal greeting card sales less returns increased 6.0% compared to the prior year quarter, including increases in selling prices of 5.9% and unit volume of 0.1%. The overall increase in selling price was driven by both everyday and seasonal greeting cards in our North American Social Expression Products segment and everyday greeting cards in our International Social Expression Products segment.

Everyday card sales less returns for the second quarter increased 5.3% due to increases in selling prices of 4.2% and improvement in unit volume of 1.1%. The selling price increase was driven by general price increases and favorable product mix within the core product line, which more than offset the continued unfavorable shift to a higher proportion of value cards. The unit volume improvement was primarily driven by additional distribution to new customers in our North American Social Expression Products segment.

Seasonal card sales less returns increased 8.7% during the second quarter, including a 13.0% increase in selling prices and a decrease in unit volume of 3.8%. Since the second quarter has the fewest holidays, the change in selling prices and unit volume appear large on a percentage basis compared to other quarters. The increase in selling prices was driven by our Father's Day, Graduation and Fall programs in our North American Social Expression Products segment. The unit volume decline was driven by our Graduation and Fall programs in our North American Social Expression Products segment.

Expense Overview

Material, labor and other production costs (MLOPC) for the three months ended August 29, 2014 were \$180.1 million, compared to \$176.7 million in the prior year three months. As a percentage of total revenue, these costs were 41.7% in the current period compared to 42.0% for the three months ended August 30, 2013. The \$3.4 million dollar increase was primarily due to the impact of higher sales and unfavorable product mix in the current year second quarter as well as the unfavorable impact of foreign currency translation of approximately \$5 million. Partially offsetting these increases were lower product manufacturing expenses and the favorable impact of higher absorption of production and product related costs associated with inventory growth during the current year quarter that was greater than in the prior year quarter. The additional inventory growth in the current year is associated with a new party goods product launch and the timing of the pre-holiday seasonal inventory build.

Selling, distribution and marketing (SDM) expenses for the three months ended August 29, 2014 were \$165.8 million, increasing \$10.8 million from \$155.0 million in the prior year second quarter. As a percentage of total revenue, these costs were 38.3% in the current period compared to 36.9% for the prior year period. The dollar increase in the current year second quarter was driven by higher supply chain costs of approximately \$2 million, higher retail store expenses of approximately \$2 million and the unfavorable impact of foreign currency translation of approximately \$6 million.

Administrative and general expenses were \$66.9 million for the three months ended August 29, 2014, a decrease of \$15.8 million from \$82.7 million for the three months ended August 30, 2013. This decrease was driven primarily by prior year costs and fees related to taking the Corporation private of approximately \$22 million that did not recur in the current year. The decrease was partially offset by higher costs in the current year of approximately \$2 million related to a long-term incentive program that we established in the third quarter of the prior year as a replacement to our prior stock-based compensation programs, higher technology costs of approximately \$3 million and the unfavorable impact of foreign currency translation of approximately \$1 million.

Other operating income net was \$23.8 million for the three months ended August 29, 2014 compared to \$1.0 million for the prior year second quarter. The increase was driven primarily by the gain on the sale of AGI In-Store of \$38.8 million, partially offset by a non-cash loss recorded upon the sale of our current world headquarters location of \$15.5 million, both of which occurred in the current year second quarter.

Other non-operating income net for the three months ended August 29, 2014 was \$0.3 million, decreasing \$3.7 million from \$4.0 million in the prior year second quarter. The decrease was driven primarily by a gain of approximately \$3.3 million in the prior year second quarter related to the Corporation's investment in Party City Holdings, Inc. (Party City) that did not recur in the current year period.

Table of Contents

The effective tax rate was 33.8% and 191.9% for the three months ended August 29, 2014 and August 30, 2013, respectively. The lower than statutory rate in the current period is due primarily to the favorable settlement of state audits. The higher than statutory rate in the prior period was due primarily to the recording of an \$8.0 million valuation allowance against certain net operating loss and foreign tax credit carryforwards which we believed at the time would expire unused as a result of the going private transaction.

Results of Operations***Six months ended August 29, 2014 and August 30, 2013***

Net income was \$66.6 million in the six months ended August 29, 2014 compared to \$28.2 million in the prior year six months.

For the six months ended August 29, 2014, consolidated net sales were \$924.4 million, up from \$904.2 million in the prior year six months. This 2.2%, or \$20.2 million, increase was driven by higher sales of greeting cards of approximately \$26 million, increased sales of gift packaging and party goods of approximately \$1 million and the favorable impact of foreign currency of approximately \$17 million. These increases were partially offset by lower sales in our fixtures business of approximately \$15 million, decreased sales of other ancillary products of approximately \$7 million and the unfavorable impact of SBT implementations of approximately \$2 million.

Other revenue, primarily royalty revenue from our Strawberry Shortcake and Care Bears properties, decreased \$1.9 million in the six months ended August 29, 2014 compared to the same period in the prior year.

Table of Contents**Wholesale Unit and Pricing Analysis for Greeting Cards**

Unit and pricing comparatives (on a sales less returns basis), excluding intercompany eliminations, for the six months ended August 29, 2014 and August 30, 2013 are summarized below:

	Increase (Decrease) From the Prior Year					
	Everyday Cards		Seasonal Cards		Total Greeting Cards	
	2014	2013	2014	2013	2014	2013
Unit volume	(1.4%)	0.8%	4.2%	2.1%	0.1%	1.1%

Overall increase / (decrease)	3.4%	3.5%	6.3%	1.9%	4.2%	3.0%

During the six months ended August 29, 2014, combined everyday and seasonal greeting card sales less returns increased 4.2% compared to the prior year six months. The overall increase was primarily driven by increases in selling prices from our everyday and seasonal greeting cards in our North American Social Expression Products segment and everyday greeting cards in our International Social Expression Products segment.

Everyday card sales less returns were up 3.4% compared to the prior year six months, as a result of increases in selling prices of 4.9%, partially offset by a decline in unit volume of 1.4%. The increase in selling prices was driven by general price increases and favorable product mix within the core product line, which more than offset the continued unfavorable shift to a higher proportion of value cards. The unit volume decline was primarily driven by soft sales within our International Social Expression Products segment.

Seasonal card sales less returns increased 6.3%, with unit volume growth of 4.2% and selling price increases of 2.0%. The increase in unit volume was attributable to our Mother's Day program in both our North American Social Expression Products and International Social Expression Products segments and our Easter program within our North American Social Expression Products segment. The increase in selling prices was driven by our Father's Day, Graduation and Fall programs in our North American Social Expression Products segment.

Expense Overview

MLOPC for the six months ended August 29, 2014 were \$380.9 million, an increase of \$0.4 million from \$380.5 million for the comparable period in the prior year. As a percentage of total revenue, these costs were 40.7% in the current period compared to 41.5% for the six months ended August 30, 2013. The dollar increase was primarily due to the impact of higher sales and unfavorable product mix in the current year six months as well as the unfavorable impact of foreign currency translation of approximately \$9 million. Partially offsetting these increases were lower product display material costs, lower product manufacturing expenses and the favorable impact of higher absorption of production and product related costs associated with inventory growth during the current year first half that was greater than in the prior year period. The additional inventory growth in the current year is associated with a new party goods product launch and the timing of the pre-holiday seasonal inventory build.

SDM expenses for the six months ended August 29, 2014 were \$338.1 million, increasing \$12.8 million from \$325.3 million for the comparable period in the prior year. As a percentage of total revenue, these costs were 36.1% in the current period compared to 35.5% for the prior year period. The increase was primarily driven by higher supply chain costs of approximately \$4 million, increased retail store expenses of approximately \$1 million and the unfavorable impact of foreign currency translation of approximately \$10 million. Partially offsetting these increases were lower sales, marketing and product management expenses of approximately \$2 million.

Administrative and general expenses were \$136.1 million for the six months ended August 29, 2014, a decrease of \$17.7 million from \$153.8 million in the prior year period. This decrease was driven primarily by prior year costs and fees related to taking the Corporation private of approximately \$26 million that did not recur in the current year and lower stock-based compensation expense of approximately \$2 million. The decrease was partially offset by higher costs in the current year of approximately \$4 million related to a long-term incentive program that we established in the third quarter of the prior year as a replacement to our prior stock-based compensation programs,

Table of Contents

higher technology costs of approximately \$4 million and the unfavorable impact of foreign currency translation of approximately \$2 million.

Other operating income net was \$25.8 million for the six months ended August 29, 2014 compared to \$4.3 million for the prior year six month period. The increase was driven primarily by the gain on the sale of AGI In-Store of \$38.8 million, partially offset by a non-cash loss recorded upon sale of our current world headquarters location of \$15.5 million, both of which occurred in the current year second quarter. In addition, in both the current year and prior year six month periods, based on updated estimated recovery information provided in connection with the Clinton Cards bankruptcy administration, we recorded an impairment recovery related to the senior secured debt of Clinton Cards that we acquired in May 2012 and subsequently impaired. The recovery was \$3.4 million for the six months ended August 29, 2014 and \$2.4 million for six months ended August 30, 2013. The current year recovery represents the final amount of a full recovery of the impairment. The income related to the impairment recovery in the current year first quarter was partially offset by other expenses of \$2.1 million related to the Clinton Cards bankruptcy administration.

Other non-operating income net for the six months ended August 29, 2014 was \$1.4 million, decreasing \$4.0 million from \$5.4 million in the prior year second quarter. The decrease was driven primarily by a gain of approximately \$3.3 million in the prior year second quarter related to the Corporation's investment in Party City that did not recur in the current year period.

The effective tax rate was 26.0% and 51.6% for the six months ended August 29, 2014 and August 30, 2013, respectively. The lower than statutory rate in the current period is due to both the recording of a net \$3.1 million federal tax refund and related interest attributable to fiscal 2000 and the error corrections identified in the current year first quarter and recorded in accordance with Accounting Standards Codification (ASC) Topic 250, Accounting Changes and Error Corrections. The net impact of the error corrections was a reduction to income tax expense of \$4.1 million. During the first quarter of fiscal 2015, we identified and corrected errors in the accounting for income taxes that related primarily to the year ended February 28, 2014. These errors primarily related to our failure to consider all sources of available taxable income when assessing the need for a valuation allowance against certain deferred tax assets and the recognition of a liability for an uncertain tax position. These errors were the result of the significant complexity created as a result of the going private transaction in fiscal 2014. See Note 1, Basis of Presentation, to the Consolidated Financial Statements for further information. The higher than statutory rate in the prior period was due primarily to the recording of an \$8.0 million valuation allowance against certain net operating loss and foreign tax credit carryforwards which we believed at the time would expire unused as a result of the going private transaction.

Segment Information

Our operations are organized and managed according to a number of factors, including product categories, geographic locations and channels of distribution. Our North American Social Expression Products and International Social Expression Products segments primarily design, manufacture and sell greeting cards and other related products through various channels of distribution, with mass retailers as the primary channel. As permitted under ASC Topic 280 (ASC 280), Segment Reporting, certain operating segments have been aggregated into the International Social Expression Products segment. The aggregated operating divisions have similar economic characteristics, products, production processes, types of customers and distribution methods. At August 29, 2014, we operated 402 card and gift retail stores in the United Kingdom (UK) through our Retail Operations segment. These stores sell products purchased from the International Social Expression Products segment as well as products purchased from other vendors. The AG Interactive segment distributes social expression products, including electronic greetings, and a broad range of graphics and digital services and products, through a variety of electronic channels, including Web sites, Internet portals and electronic mobile devices. The Non-reportable segment primarily includes licensing activities and the

design, manufacture and sales of display fixtures. The display fixtures business was sold on the last day of the quarter ended August 29, 2014. See Note 4, Dispositions, to the Consolidated Financial Statements for further information.

Total revenue of our North American Social Expression Products segment increased \$15.3 million for the three months ended August 29, 2014 and increased \$16.1 million for the six months ended August 29, 2014 compared to the prior year periods. The increase during the current quarter was primarily driven by higher sales of greeting cards of approximately \$18 million and higher sales of gift packaging and party goods of approximately \$3 million. These increases for the current quarter were partially offset by lower sales of other ancillary products of approximately \$4 million and the unfavorable impacts of foreign currency translation and SBT implementations of approximately \$1 million each. The increase in total revenue for the six months ended August 29, 2014 was primarily driven by higher sales of greeting cards of approximately \$24 million and higher sales of gift packaging and party goods of approximately \$1 million. These increases for the six month period were partially offset by lower sales of other ancillary products of approximately \$4 million and the unfavorable impacts of foreign currency translation and SBT implementations of approximately \$3 million and \$2 million, respectively.

Segment earnings decreased \$7.2 million in the current three months compared to the three months ended August 30, 2013. The decrease was driven primarily by a non-cash loss related to the sale of our current world headquarters location, of which approximately \$13 million of the total loss of \$15.5 million was recorded within the North American Social Expression Products segment, higher supply chain costs of approximately \$3 million, increased technology costs of approximately \$3 million and higher costs in the current year of approximately \$1 million related to a long-term incentive program that we established in the third quarter of the prior year as a replacement to our prior stock-based compensation programs. These unfavorable variances were partially offset by the impact of higher revenues in the current year second quarter.

Segment earnings decreased \$4.2 million in the six month period ended August 30, 2014 compared to the prior year period. The decrease was driven primarily by a non-cash loss related to the sale of our current world headquarters location, of which approximately \$13 million of the total loss of \$15.5 million was recorded within the North American Social Expression Products segment, higher supply chain costs of approximately \$5 million, increased technology costs of approximately \$4 million and higher costs in the current year of approximately \$3 million related to a long-term incentive program that we established in the third quarter of the prior year as a replacement to our prior stock-based compensation programs. These unfavorable variances were partially offset by the impact of higher revenues and favorable product mix in the current year six month period.

Total revenue of our International Social Expression Products segment increased \$2.6 million and \$7.8 million for the three and six months ended August 29, 2014, respectively, compared to the prior year periods. The increases were primarily due to the favorable impact of foreign currency translation of approximately \$5 million and \$7 million for the current year three and six month periods, respectively. Greeting card sales for the three months ended August 29, 2014 decreased by approximately \$2 million compared to the prior year quarter while card sales

Table of Contents

for the six month period remained flat compared to the prior year. The current year six month period included the favorable impact of fewer SBT implementations of approximately \$1 million.

Segment earnings remained flat year-over-year for the three months ended August 29, 2014 and August 30, 2013. The impact on earnings from decreased greeting card sales as well as increased scrap expense of approximately \$2 million was offset by favorable product mix.

Segment earnings increased \$1.0 million in the six months ended August 29, 2014, compared to the six months ended August 30, 2013. The increased earnings were primarily driven by slightly lower year-over-year supply chain and general and administrative costs.

Segment loss	(14,563)	(8,984)	(62.1%)	(18,603)	(12,436)	(49.6%)

Total revenue of our Retail Operations segment increased \$7.0 million and \$11.5 million for the three and six months ended August 29, 2014, respectively, compared to the prior year periods. The increases were driven by the impact of favorable foreign exchange translation of approximately \$7 million and \$13 million for the three and six month periods, respectively. During the three and six month periods ended August 29, 2014, net sales at stores open one year or more were down approximately 0.5% and 2.1%, respectively, compared to the same periods in the prior year.

Segment earnings decreased \$5.6 million and \$6.2 million in the three and six months ended August 29, 2014, respectively, compared to the prior year periods. The lower segment earnings were the result of lower gross margins driven by promotional pricing activities and higher store operating costs.

Total revenue of AG Interactive decreased slightly for both the three and six months ended August 29, 2014. This decrease in revenue was driven primarily by slightly lower advertising revenue compared to the prior year. At the end of the second quarter of fiscal 2015, AG Interactive had approximately 3.6 million online paid subscriptions compared to 3.7 million at the end of the same period in the prior year.

Segment earnings increased \$2.8 million and \$4.9 million for the three and six months ended August 29, 2014 primarily due to cost savings initiatives initiated in the prior year.

Table of Contents

Total revenue from our Non-reportable segment decreased \$12.8 million and \$16.8 million for the three and six months ended August 29, 2014, respectively, compared to the prior year periods. This decrease in revenue was driven primarily by our fixtures business, where, during the first quarter of the prior year, we obtained a contract to supply fixtures to a large consumer electronics company. This contract, which was completed during the second quarter of the prior year, contributed approximately \$26 million of revenue in the prior year six month period, including approximately \$16 million in the prior year second quarter, and did not recur in the first half of the current year. This decrease in revenue was partially offset by other fixtures business revenue growth.

Segment earnings decreased \$11.4 million and \$14.7 million for the three and six months ended August 29, 2014 compared to the prior year periods. This decrease was primarily driven by the display fixtures business, due to lower sales volume, unfavorable product mix and higher operating costs. As noted above, the display fixtures business was sold on August 29, 2014.

Unallocated Items

Centrally incurred and managed costs are not allocated back to the operating segments. The unallocated items include interest expense for centrally-incurred debt, domestic profit-sharing expense, and for the three and six months ended August 30, 2013, stock-based compensation expense. Unallocated items also included costs associated with corporate operations such as the senior management, corporate finance, legal and insurance programs.

(Dollars in thousands)	Three Months Ended August		Six Months Ended August	
	29, 2014	30, 2013	29, 2014	30, 2013
Interest expense	\$ (9,255)	\$ (5,433)	\$ (18,249)	\$ (9,745)
Profit-sharing expense	(1,389)	(484)	(5,468)	(4,465)
Stock-based compensation expense		(11,121)		(13,596)
Corporate overhead expense	26,662	(17,249)	18,968	(27,855)
Total Unallocated	\$ 16,018	\$ (34,287)	\$ (4,749)	\$ (55,661)

For the three and six month periods ended August 30, 2013, stock-based compensation in the table above includes non-cash stock-based compensation prior to closing of the going private transaction and the impact of the settlement of stock options and the cancellation or modification of outstanding restricted stock units and performance shares concurrent with the closing of the going private transaction, a portion of which was non-cash. There is no stock-based compensation subsequent to the closing of the going private transaction as these plans were converted into cash compensation plans.

During the current year second quarter, we sold our world headquarters location and incurred a non-cash loss on disposal of \$15.5 million, of which \$2.2 million was recorded within the Unallocated segment. See Note 4, Dispositions, to the Consolidated Financial Statements for further information.

For both the three and six month periods ended August 29, 2014, Corporate overhead expense included the gain on sale of AGI In-Store of \$38.8 million. See Note 4, Dispositions, to the Consolidated Financial Statements for further information.

For the three and six month periods ended August 30, 2013, Corporate overhead expense included non-recurring costs related to the going private transaction of approximately \$12.6 million and \$17.2 million, respectively.

For both the three and six month periods ended August 30, 2013, Corporate overhead expense included a gain totaling \$3.3 million related to a cash distribution on its minority investment in the common stock of Party City.

Liquidity and Capital Resources

The seasonal nature of our business precludes a useful comparison of the current period and the fiscal year-end financial statements; therefore, a Consolidated Statement of Financial Position as of August 30, 2013, has been included.

Table of Contents

Operating Activities

Operating activities used \$28.3 million of cash during the six months ended August 29, 2014, compared to providing \$34.1 million in the prior year period.

Accounts receivable provided \$0.1 million of cash during the six months ended August 29, 2014, compared to providing \$9.5 million of cash during the prior year period. The year-over-year decrease in cash flow of approximately \$9 million occurred primarily within our North American Social Expression Products and International Social Expression Products segments due primarily to the timing of collections from, or credits issued to, certain customers occurring in a different pattern in the current year period compared to the prior year period.

Inventory used \$76.6 million of cash during the six months ended August 29, 2014, compared to \$49.6 million in the prior year six months. Historically, the first half of our fiscal year is a period of inventory build, and thus a use of cash, in preparation for the fall and winter seasonal holidays. In addition to the normal seasonal inventory build, the current year includes an inventory increase related to a new party goods product launch and inventory growth in our Retail Operations segment to align inventory to more normalized levels.

Other current assets used \$2.4 million of cash during the six months ended August 29, 2014, compared to providing \$16.1 million during the prior year six months. The variance between years is due to the change in the balance of prepaid rents in our Retail Operations segment, primarily driven by year-over-year timing differences.

Deferred costs net generally represents payments under agreements with retailers net of the related amortization of those payments. During the six months ended August 29, 2014, amortization exceeded payments by \$22.0 million. During the six months ended August 30, 2013, amortization exceeded payments by \$24.4 million. See Note 10, Deferred Costs, to the Consolidated Financial Statements for further detail of deferred costs related to customer agreements.

Accounts payable and other liabilities used \$39.4 million of cash during the six months ended August 29, 2014, compared to using \$39.7 million in the prior year period.

Investing Activities

Investing activities provided \$47.8 million of cash during the six months ended August 29, 2014, compared to using \$14.6 million in the prior year period. The current year includes proceeds received from the sale of AGI In-Store and the sale of our current world headquarters of \$73.7 million and \$13.5 million, respectively. See Note 4, Dispositions, to the Consolidated Financial Statements for further information. In addition, the current year includes proceeds received from H L & L Property Company, an indirect affiliate of American Greetings (H L & L) of \$9.9 million related to the sale of certain assets previously purchased by us related to the new world headquarters. Partially offsetting these cash inflows was cash paid for capital expenditures of \$50.2 million during the current year six month period.

In the prior year period, the cash usage was primarily driven by \$32.0 million of cash paid for capital expenditures. The prior year also included the receipt of a cash distribution of \$12.1 million related to our investment in Party City.

Financing Activities

Financing activities used \$38.7 million of cash during the current year six months, compared to \$56.7 million in the prior year six month period. During the current year, this use of cash was primarily driven by cash dividend payments

of \$24.2 million. In addition, we made payments in the aggregate of \$10.0 million on our term loan and made repayments, net of borrowings, under our revolving credit facility of \$4.5 million.

The primary use of cash in the prior year was in connection with activities related to the going private transaction. These activities included borrowings under our new credit agreement, net of repayments and debt issuance costs, which provided cash of \$285.4 million, the contribution from Century Intermediate Holding Company (CIHC), our parent and sole shareholder, which provided cash of \$240.0 million and payment of cash of \$568.3 million to

Table of Contents

complete the going private transaction and cancel outstanding shares. In addition, prior to the going private transaction, we paid cash dividends of \$9.6 million.

Credit Sources

Substantial credit sources are available to us. In total, we had available sources of credit of approximately \$630 million at August 29, 2014, which included \$330 million outstanding on our term loan facility, a \$250 million revolving credit facility and a \$50 million accounts receivable securitization facility, of which \$272.3 million in the aggregate was unused as of August 29, 2014. Borrowings under the accounts receivable securitization facility are limited based on our eligible receivables outstanding. At August 29, 2014, we had no borrowings outstanding under our revolving credit facility and we had no borrowings outstanding under our accounts receivable securitization facility. We had, in the aggregate, \$27.7 million outstanding under letters of credit, which reduced the total credit availability thereunder as of August 29, 2014.

Please refer to the discussion of our borrowing arrangements as disclosed in the *Credit Sources* section under Part II, Item 7 of our Annual Report on Form 10-K for the year ended February 28, 2014 for further information.

At August 29, 2014, we were in compliance with our financial covenants under the borrowing agreements described above.

Capital Deployment and Investments

On February 10, 2014, Century Intermediate Holding Company 2 (*CIHC2*), an indirect parent of American Greetings, issued \$285 million aggregate principal amount of 9.75%/10.50% Senior PIK Toggle Notes due 2019 (the *PIK Notes*). Excluding the first and last interest payment periods, which must be paid in cash, *CIHC2* may elect to either accrue or pay cash interest on the *PIK Notes*. The *PIK Notes* carry a cash interest rate of 9.75%. Prior to the payment of interest by *CIHC2*, it is expected that we will provide *CIHC2* with the cash flow for *CHIC2* to pay interest on the *PIK Notes*. Assuming interest is paid regularly in cash, rather than accrued, the annual cash required to pay the interest is expected to be approximately \$27.8 million while the entire issuance of *PIK Notes* are outstanding. For further information, refer to the discussion of the *PIK Notes* as disclosed in *Transactions with Parent Companies and Other Affiliated Companies* in Note 18, *Related Party Information*, to the Consolidated Financial Statements under Part II, Item 18 of our Annual Report on Form 10-K for the fiscal year ended February 28, 2014.

Throughout fiscal 2015 and thereafter, we will continue to consider all options for capital deployment including growth opportunities, acquisitions and other investments in third parties, expanding customer relationships, expenditures or investments related to our current product leadership initiatives or other future strategic initiatives, capital expenditures, the information technology systems refresh project, paying down debt, paying dividends and, as appropriate, preserving cash. Our future operating cash flow and borrowing availability under our credit agreement and our accounts receivable securitization facility are expected to meet these and other currently anticipated funding requirements. The seasonal nature of our business results in peak working capital requirements that may be financed through short-term borrowings when cash on hand is insufficient.

Over roughly the next five or six years, we expect to allocate resources, including capital, to refresh our information technology systems by modernizing our systems, redesigning and deploying new processes, and evolving new organization structures, all of which are intended to drive efficiencies within the business and add new capabilities. Amounts that we spend could be material in any fiscal year and over the life of the project. The total amount spent through fiscal 2014 on this project was approximately \$109 million. During the six months ended August 29, 2014, we spent approximately \$9 million, including capital of approximately \$6 million and expense of approximately \$3

million, on these information technology systems. We currently expect to spend a total of at least an additional \$150 million on these information technology systems over the remaining life of the project, the majority of which we expect will be capital expenditures. We believe these investments are important to our business, helping us drive further efficiencies and add new capabilities; however, there can be no assurance that we will not spend more or less than \$150 million over the remaining life of the project, or that we will achieve the anticipated efficiencies or any cost savings.

Table of Contents

In May 2011, we announced plans to relocate our world headquarters to the Crocker Park mixed use development in Westlake, Ohio, which offers a vibrant urban setting, with retail stores and restaurants, offices and apartments. After putting the project on hold pending the outcome of the going private transaction, we announced plans in October 2013 to resume the project and on March 26, 2014, we purchased the land on which the new world headquarters will be built. We are leasing a portion of the real property to H L & L, which will build the new world headquarters on the site. We have also entered into an operating lease with H L & L for the use of the new world headquarters building, which we expect to be ready for occupancy in calendar year 2016. Further details of the relocation undertaking are provided in Note 18, Related Party Information, to the Consolidated Financial Statements under Part II, Item 18 of our Annual Report on Form 10-K for the fiscal year ended February 28, 2014 and Note 17, Related Party Information, to the Consolidated Financial Statements of this Form 10-Q.

During the quarter ended August 29, 2014, we paid cash dividends in the aggregate amount of \$24.2 million to CIHC, our parent and sole shareholder, \$14.3 million of which was for the purpose of paying interest on the PIK Notes. In addition, H L & L paid to us \$9.9 million to acquire certain assets previously purchased by us related to the new world headquarters project.

Contractual Purchase Obligations

In connection with the sale of AGI In-Store, effective August 29, 2014, we entered into a long-term supply agreement whereby we are committed to purchase a significant portion of our North American display fixtures requirements from Rock-Tenn Company. The supply agreement has an initial term of five years. The Corporation is committed to purchase \$180 million of display fixture related products, accessories and/or services over the initial term of the agreement.

Critical Accounting Policies

Our consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the periods presented. Please refer to the discussion of our Critical Accounting Policies under Part II, Item 7 of our Annual Report on Form 10-K for the year ended February 28, 2014.

Factors That May Affect Future Results

Certain statements in this report may constitute forward-looking statements within the meaning of the Federal securities laws. These statements can be identified by the fact that they do not relate strictly to historic or current facts. They use such words as anticipate, estimate, expect, project, intend, plan, believe and other words and terms having meaning in connection with any discussion of future operating or financial performance. These forward-looking statements are based on currently available information, but are subject to a variety of uncertainties, unknown risks and other factors concerning our operations and business environment, which are difficult to predict and may be beyond our control. Important factors that could cause actual results to differ materially from those suggested by these forward-looking statements, and that could adversely affect our future financial performance, include, but are not limited to, the following:

a weak retail environment and general economic conditions;

the loss of one or more retail customers and/or retail consolidations, acquisitions and bankruptcies, including the possibility of resulting adverse changes to retail contract terms;

competitive terms of sale offered to customers, including costs and other terms associated with new and expanded customer relationships;

the ability of Clinton Cards to achieve the anticipated revenue and operating profits, including risks associated with leasing substantial amounts of space for its retail stores;

the timing and impact of expenses incurred and investments made to support new retail or product

Table of Contents

strategies, as well as new product introductions and achieving the desired benefits from those investments;

unanticipated expenses we may be required to incur relating to our world headquarters project;

our ability to qualify for state and local incentives offered to assist us in the development of a new world headquarters;

the timing of investments in, together with the ability to successfully implement or achieve the desired benefits and cost savings associated with, any information systems refresh we may implement;

our inability to remediate the material weakness related to our internal control over the accounting for income taxes;

the timing and impact of converting customers to a scan-based trading model;

Schurman Fine Papers' ability to successfully operate its retail operations and satisfy its obligations to us;

consumer demand for social expression products generally, shifts in consumer shopping behavior, and consumer acceptance of products as priced and marketed, including the success of advertising and marketing efforts, such as our online efforts through Cardstore.com;

the impact and availability of technology, including social media, on product sales;

escalation in the cost of providing employee health care;

the ability to comply with our debt covenants;

our ability to adequately maintain the security of our electronic and other confidential information;

fluctuations in the value of currencies in major areas where we operate, including the U.S. Dollar, Euro, UK Pound Sterling and Canadian Dollar; and

the outcome of any legal claims, known or unknown.

The risks and uncertainties identified above are not the only risks we face. Additional risks and uncertainties not presently known to us or that we believe to be immaterial also may adversely affect us. Should any known or

unknown risks or uncertainties develop into actual events, or underlying assumptions prove inaccurate, these developments could have material adverse effects on our business, financial condition and results of operations. For further information concerning the risks we face and issues that could materially affect our financial performance related to forward-looking statements, refer to our periodic filings with the Securities and Exchange Commission, including the Risk Factors section included in Part I, Item 1A of our Annual Report on Form 10-K for the fiscal year ended February 28, 2014.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

For further information, refer to our Annual Report on Form 10-K for the year ended February 28, 2014. There were no material changes in market risk, specifically interest rate and foreign currency exposure, for us from February 28, 2014, the end of our preceding fiscal year, to August 29, 2014, the end of our most recent fiscal quarter.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls

American Greetings maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in its reports under the Securities Exchange Act of 1934, as amended (the Exchange Act), is recorded, processed, summarized and reported within the time periods specified in the Commission's rules and forms and that such information is accumulated and communicated to the Corporation's management, including its Co-Chief Executive Officers and Chief Financial Officer, as appropriate, to allow for timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes

Table of Contents

that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives.

American Greetings carries out a variety of on-going procedures, under the supervision and with the participation of the Corporation's management, including its Co-Chief Executive Officers and Chief Financial Officer, to evaluate the effectiveness of the design and operation of the Corporation's disclosure controls and procedures. Based upon the procedures performed during the current fiscal quarter, our Co-Chief Executive Officers and Chief Financial Officer concluded that our disclosure controls and procedures were not effective as of the end of the period covered by this report because of the material weakness described below, which has not been remediated as of such date.

As previously reported in the Controls and Procedures section included in Part II, Item 9A of our Annual Report on Form 10-K for the fiscal year ended February 28, 2014, we identified a material weakness in internal control over financial reporting surrounding our accounting for income taxes. The principal factors contributing to the material weakness in accounting for income taxes were as follows:

the significant complexity created as a result of the going private transaction;

insufficient tax resources to properly execute the Corporation's review procedures required to maintain effective controls and ensure complete and accurate tax accounting, which was caused by staff turnover including during the year-end closing cycle.

Planned Remediation Efforts to Address Material Weakness

In order to remediate this material weakness and further strengthen the overall controls surrounding our accounting for income taxes, the following steps have been or will be taken to improve the overall processes and controls in our tax function:

review tax procedures and make recommendations to improve processes;

add tax resources to facilitate the execution of the Corporation's review procedures;

utilize external advisors regarding complex tax issues to supplement knowledge that may not be available internally.

Specifically related to the preparation of the tax accounts for the quarters ended May 30, 2014 and August 29, 2014 and to ensure that the consolidated financial statements filed with those quarterly reports on Form 10-Q are presented fairly in accordance with U.S. generally accepted accounting principles, we utilized external resources and advisors as discussed above. In utilizing the external resources and advisors, we identified additional errors which were corrected during the quarter ended May 30, 2014. See Note 1, Basis of Presentation, to the Consolidated Financial Statements for further information.

We intend that the remediation of the material weakness related to controls over the accounting for income taxes will be completed as of the end of fiscal 2015, however, it will not be considered remediated until the remedial controls

operate for a sufficient period of time and management has concluded, through testing, that these controls are operating effectively. We cannot make any assurances that we will successfully remediate this material weakness within the anticipated timeframe and thus reduce to remote the likelihood that material misstatements concerning accounting for income taxes will not be prevented or detected in a timely manner.

Changes in Internal Control over Financial Reporting

Except for the remedial actions taken to date with respect to the material weakness described above, there has been no change in the Corporation's internal control over financial reporting during the Corporation's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Corporation's internal control over financial reporting.

Table of Contents**PART II OTHER INFORMATION****Item 1. Legal Proceedings**

On June 4, 2014, Al Smith and Jeffrey Hourcade, former fixture installation crew members for special projects, individually and on behalf of those similarly situated, filed a lawsuit against American Greetings Corporation in the U.S. District Court for the Northern District of California, San Francisco Division. Plaintiffs claim that the Corporation (1) failed to pay overtime wages and minimum wages in violation of the Fair Labor Standards Act (FLSA) and the California Labor Code, Industrial Welfare Commission Wage Orders (California Law); (2) failed to make payments within the required time in violation of California Law; (3) failed to provide properly itemized wage statements in violation of the California law; and (4) engaged in unfair competition in violation of California s Business and Professions Code. Plaintiffs claim to represent a class of all persons who, at any time since June 4, 2010, were employed by the Corporation in California as non-exempt employees and certify subclasses therein with respect to the California Law violations detailed above. In addition, plaintiffs claim to assert a nationwide collective action under the FLSA. For themselves and the proposed classes, plaintiffs seek an unspecified amount of general and special damages, including but not limited to minimum wages, agreed upon wages and overtime wages, statutory liquidated damages, statutory penalties (including penalties under the California Labor Code Private Attorney General Act of 2004 (PAGA), unpaid benefits, reasonable attorneys fees and costs, and interest. In addition, plaintiffs request disgorgement of all funds the Corporation acquired by means of any act or practice that constitutes unfair competition and restoration of such funds to the plaintiffs and the proposed classes.

The Corporation was served with the Complaint on July 16, 2014 and on July 31, 2014, the Corporation filed a Motion to Dismiss. On August 3, 2014, prior to the Court ruling on the defendant s Motion to Dismiss, plaintiffs filed their First Amended Complaint. The Corporation vacated its Motion to Dismiss and filed its answer to the First Amended Complaint on August 21, 2014.

In addition to the foregoing, we are involved in various judicial, administrative, regulatory and arbitration proceedings concerning matters arising in the ordinary course of business operations, including, but not limited to, employment, commercial disputes and other contractual matters. We, however, do not believe that based on currently available information any of the litigation in which we are currently engaged, either individually or in the aggregate, will have a material adverse effect on the Corporation s financial condition, although the outcome could be material to the Corporation s operating results for any particular period, depending, in part, upon the operating results for such period.

Item 5. Other Information

American Greetings maintains a Supplemental Executive Retirement Plan (as amended and restated, the SERP) that provides retirement benefits to officers at the Vice President level and above named as participants by the Board of Directors before December 31, 2013, which includes our named executive officers. The amount of the benefit is calculated based on a formula consisting of the executive s length of service (to a maximum of twenty years) and final average earnings (the average of the two highest years of base salary earnings, plus the incentive that would have been paid under any annual incentive plan then in effect if the participant had been paid exactly 50% of his or her target incentive compensation). As previously disclosed, the SERP program was frozen effective December 31, 2013. As such, benefits earned as of that date were vested; however, the vested benefit amounts will be calculated using each participant s years of service and earnings as of that date. Notwithstanding, in connection with Mr. Jeffrey Weiss s August 2013 promotion to Co-Chief Executive Officer of American Greetings and associated increase in compensation to equal the compensation of Zev Weiss, for purposes of calculating his SERP benefit, as of October 7, 2014, Mr. Jeffrey Weiss s SERP benefit has been modified to be calculated based on base salary earnings and target bonus percentages that he would have earned had he been compensated at the same level as Mr. Zev Weiss during

2012 and 2013. The effect of this revision is that Mr. Jeffrey Weiss's SERP benefit at retirement will be based on a base salary of \$987,067, and a target bonus percentage of 100%, increasing his monthly benefit (assuming retirement at age 65) from \$20,023 to \$24,677. All other terms of the SERP continue to apply and were not otherwise modified. For a description of the SERP, please refer to our Annual Report on Form 10-K for the fiscal year ended February 28, 2014.
