## Forward Looking Statements

Certain statements in this communication regarding the proposed transaction between NXP and FSL are forward-looking statements. The words anticipate, believe, ensure, expect, if, intend, estimate, probable, forecasts, predict, outlook, aim, will, could, should, would, potential, may, might, anticipate, strategy, and similar expressions, and the negative thereof, are intended to identify forward-looking statements. These forward-looking statements, which are subject to numerous factors, risks and uncertainties about NXP and FSL, may include projections of their respective future business, strategies, financial condition, results of operations and market data. These statements are only predictions based on current expectations and projections about future events. There are important factors, risks and uncertainties that could cause actual outcomes and results to be materially different from those projected, including the risk factors set forth in NXP's most recent Form 20-F and FSL's most recent reports on Form 10-K, Form 10-Q and other documents on file with the SEC and the factors given below:

the failure to obtain the approval of shareholders of NXP or FSL in connection with the proposed transaction;

the failure to consummate or delay in consummating the proposed transaction for other reasons;

the timing to consummate the proposed transaction;

the risk that a condition to closing of the proposed transaction may not be satisfied;

the risk that a regulatory approval that may be required for the proposed transaction is delayed, is not obtained, or is obtained subject to conditions that are not anticipated;

NXP's and FSL's ability to achieve the synergies and value creation contemplated by the proposed transaction;

The ability of either NXP or FSL to effectively integrate their businesses; and

the diversion of management time on transaction-related issues.

FSL's and NXP's forward-looking statements are based on assumptions that may not prove to be accurate. Neither FSL nor NXP can guarantee future results, level of activity, performance or achievements. Moreover, neither FSL nor NXP assumes responsibility for the accuracy and completeness of any of these forward-looking statements. FSL and NXP assume no obligation to update or revise any forward-looking statements as a result of new information, future events or otherwise. Readers are cautioned not to place undue reliance on these forward-looking statements that speak only as of the date hereof.

The following customer and supplier letters were distributed on March 2, 2015.

Dear Customer,

Today we have announced that we have entered into a definitive agreement under which NXP will merge with Freescale, strengthening NXP's position as a stronger leader in high performance mixed signal solutions. We would like to share with you the rationale for this transaction and why we are convinced that this will lead NXP to become an even stronger partner for you!

(The following link will take you directly to the press release:

<http://www.nxp.com/news/press-releases/2015/03/nxp-and-freescale-announce-40-billion-merger.html>)

NXP's stated mission is to deliver outstanding value to our customers with a focus on providing the most innovative and complete solutions in Secure Connections for a Smarter World. We believe that the merger with Freescale will tremendously accelerate our ability to accomplish our mission and serve you better than ever.

With the merger with Freescale we further strengthen our position as a major supplier in the semiconductor industry with greater than \$10 billion in annual revenues, almost 45,000 employees across more than 25 countries, over 12,000 engineers and in excess of 9,800 patent families. With this deal we'll jump from the being the 14th largest semiconductor company to a top 4 position<sup>(1)</sup>.

Freescale is a global leader in embedded processing solutions in the automotive, consumer, industrial and networking markets, reporting \$4.63 billion in revenue last year, with innovations to help make the world greener, safer, healthier and more connected.

With approximately 17,000 employees in more than 20 countries, Freescale has 5,500 engineers who will greatly complement our capabilities. The merger also brings with it over 6,000 patent families, in microprocessors (MPUs) and microcontrollers (MCUs), sensors, analog integrated circuits and connectivity solutions. The range of applications includes automotive safety, hybrid and all-electric vehicles, next-generation wireless infrastructure, smart energy management, portable medical devices, consumer appliances and enterprise & data center networking equipment.

The combination of both companies will enable us to deliver more complete Secure Connected Solutions in our target applications and further enhance the value we bring to our customers. As a much stronger leader in the HPMS segment, we will expand our reach to better serve customers, with dedicated and targeted solutions, especially in secure solutions for portable & wearables and the internet of things, where having the ability to offer secure smart solutions for the connected cloud and the secure connected car is a significant differentiator.

NXP and Freescale have been innovation leaders in the Automotive sector through focused investments on value added solutions for many years with industry leading supply chain, world class quality and ground breaking innovation. As a result of the merger, NXP emerges as the leading supplier in automotive semiconductor solutions. Furthermore, the combination of both automotive portfolios unlocks true system solutions offering in Car Infotainment, Safety & Chassis, Body and Powertrain. And above all, the company will be able to greatly accelerate innovations in Advanced Driver Assistance System solutions and to create compelling propositions for the Securely Connected Car.

Our offering will also be further strengthened in our Security & Connectivity solutions; our combined resources make NXP the leader in general purpose MCU products<sup>(2)</sup>, with the broadest portfolio in ARM 32bit MCUs, and a clear path to leadership in solutions for next generation secure connected smart devices. In addition, with Freescale having a strong market presence in the US and China added to our own strong bases in Europe and Asia, we will be equipped to serve you globally with a local presence. Strong application focus is one of the key pillars of our strategy, the resulting combined application know-how and support capabilities will enable us to have a deeper innovation based relationship with our customers.

With this major step, NXP and Freescale demonstrate leadership in the continuing consolidation of the semiconductor industry; we look forward to welcoming the Freescale colleagues and jointly build the highest added value offering in the entire industry.

It is expected that we can close on the merger in the second half of this year. Until then, it will be business as usual and we will continue to operate as separate, independent companies. Rest assured that we personally, and our entire teams, remain focused on a single objective: serving you with a customer focused passion to win!

We thank you for your continued trust and partnership

Sincerely,

Rick Clemmer
