NOTE 1 ORGANIZATION

Installed Building Products, Inc. (IBP), a Delaware corporation formed on October 28, 2011, and its subsidiaries (collectively referred to as the Company and we , us and our), primarily install insulation, garage doors, rain gutters, shower doors, closet shelving and mirrors, and other products for residential and commercial builders located in the continental United States. IBP operates in over 100 locations within the continental United States and its corporate office is located in Columbus, Ohio.

We have one operating segment and a single reportable segment. Substantially all of our sales come from service based installation of various products in the existing and new residential and commercial construction end markets. Each of our branches has the capacity to serve all of our end markets. The following table sets forth the percentage of our net revenue by end market for the three months ended March 31:

	2015	2014
Existing and new residential construction	89%	88%
Commercial construction	11	12
	100%	100%

2014 Initial Public Offering (IPO)

On February 10, 2014, in anticipation of our IPO, we executed a 19.5-for-one stock split of our common stock which was originally a total of 1,129,944 shares of common stock issued and outstanding. The effect of the stock split on outstanding shares and earnings per share has been retroactively applied to all periods presented. Following the split we had 22,033,901 stock-split adjusted shares of common stock issued and outstanding.

On February 19, 2014, we completed an IPO of our common stock, which resulted in the sale of 8,567,500 shares. We received total proceeds from the IPO of \$87,645 after excluding underwriter discounts and commissions of \$6,597, based upon the price of \$11.00 per share. We used \$75,735 of the proceeds from our IPO to redeem our Redeemable Preferred Stock and \$11,910 to pay down our revolving credit facility. The common stock is listed on The New York Stock Exchange under the symbol IBP. See Note 6, Stockholders Equity (Deficit), for further information.

NOTE 2 SIGNIFICANT ACCOUNTING POLICIES**Basis of Presentation and Principles of Consolidation**

The accompanying condensed consolidated financial statements include all wholly owned subsidiaries and majority owned subsidiaries. The non-controlling interest relating to majority owned subsidiaries is not significant for presentation. All intercompany accounts and transactions have been eliminated.

Edgar Filing: Installed Building Products, Inc. - Form 10-Q

The information furnished in the condensed consolidated financial statements includes normal recurring adjustments and reflects all adjustments, which are, in the opinion of management, necessary for a fair presentation of the results of operations and statements of financial position for the interim periods

presented. Certain information and footnote disclosures normally included in the consolidated financial statements prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) have been condensed or omitted pursuant to such rules and regulations. We believe that the disclosures are adequate to prevent the information presented from being misleading when read in conjunction with our fiscal 2014 consolidated financial statements and the notes thereto included in Part II, Item 8. Financial Statements and Supplementary Data, of our Annual Report on Form 10-K as filed with the SEC on March 13, 2015. The December 31, 2014 condensed consolidated balance sheet data was derived from the audited financial statements but does not include all disclosures required by U.S. GAAP. Unless otherwise indicated, all amounts are in thousands except share and per share amounts.

Our interim operating results for the three months ended March 31, 2015 are not necessarily indicative of the results to be expected in future operating quarters. See Item 1A. Risk Factors, in our Annual Report on Form 10-K for the fiscal year ended December 31, 2014, for additional information regarding risk factors that may impact our results.

Note 2 to the consolidated financial statements in our Annual Report on Form 10-K for the fiscal year ended December 31, 2014 describes the significant accounting policies and estimates used in preparation of the consolidated financial statements. There have been no significant changes in our critical accounting estimates, other than those associated with share-based compensation, during the three months ended March 31, 2015.

Use of Estimates

Preparation of the condensed consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Significant estimates include the allowance for doubtful accounts, valuation allowance on deferred tax assets, intangible assets and other long-lived assets, share-based compensation, reserves for general liability, workers compensation, and medical insurance. Management believes the accounting estimates are appropriate and reasonably determined; however, due to the inherent uncertainties in making these estimates, actual amounts could differ from such estimates.

Advertising Costs

Advertising costs are expensed as incurred. Advertising expense was approximately \$439 and \$343 for the three months ended March 31, 2015 and 2014, respectively, and is included in selling expense on the Condensed Consolidated Statements of Operations.

Share-Based Compensation

Our share-based compensation program is designed to attract and retain employees while also aligning employees interests with the interests of our stockholders. Restricted stock awards are periodically granted to certain employees, officers, and non-employee members of our Board of Directors under the stockholder-approved 2014 Omnibus

Incentive Plan. The awards are deemed to be equity-based with a

Table of Contents

INSTALLED BUILDING PRODUCTS, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

(in thousands, except share and per share amounts)

service condition and do not contain a market condition. Fair value of the awards to employees and officers is measured at the grant date, amortized to expense over the vesting period of the awards using the straight-line attribution method for all service-based awards with a graded vesting feature. This fair value is reduced by assumed forfeitures and adjusted for actual forfeitures until vesting. Employees and officers are subject to tax at the vesting date based on market price of the shares on that date, or on the grant date if an election is made. The future income tax benefit associated with these awards is recorded over the vesting period. In the event dividends are ultimately declared and paid, a forfeiture rate for the unvested restricted shares would be applied.

Recently Adopted Accounting Pronouncements

In April 2014, the FASB issued ASU 2014-08, Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity. The amendments in this update change the requirements for reporting discontinued operations in Subtopic 205-20. We have concluded that, upon adoption, this ASU will not have a material impact on our consolidated financial statements.

Recently Issued Accounting Pronouncements Not Yet Adopted

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers (Topic 606). ASU 2014-09 sets forth a new revenue recognition model that requires identifying the contract(s) with a customer, identifying the performance obligations in the contract, determining the transaction price, allocating the transaction price to the performance obligations and recognizing the revenue upon satisfaction of performance obligations. We are still evaluating whether this ASU will have a material impact on our consolidated financial statements.

In April 2015, the FASB issued ASU 2015-03, Interest Imputation of Interest. The amendments in this update require that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. For public business entities, the amendments in this update are effective for financial statements issued for fiscal years beginning after December 15, 2015, and interim periods within those fiscal years. We are still evaluating whether this ASU will have a material impact on our consolidated financial statements.

Business combinations	14,847		14,847
March 31, 2015	\$ 138,244	\$ (70,004)	\$ 68,240

During the three months ended March 31, 2015 and 2014, goodwill increased \$14,847 and \$1,217, as a result of our 2015 and 2014 acquisitions, respectively. See Note 11, Business Combinations, for more information.

We test goodwill for impairment annually during the fourth quarter of our fiscal year or earlier if there is an impairment indicator. No impairment was recognized during either of the three month periods ended March 31, 2015 and 2014.

Intangibles, net

The following table provides the gross carrying amount and accumulated amortization for each major class of intangibles:

	March 31, 2015			December 31, 2014		
	Gross Carrying	Accumulated Amortization	Net Book	Gross Carrying	Accumulated Amortization	Net Book

	\$ 62,422	\$ (23,755)	\$ 38,667	\$ 40,683	\$ 22,965	\$ 17,718		

The gross carrying amount of intangibles increased \$21,739 during the three months ended March 31, 2015. Intangibles associated with 2015 acquisitions accounts for \$21,680 of the increase with the remaining change due to an increase in covenants not to compete at an existing location. See Note 11, Business Combinations, for more information. Amortization expense on intangible assets totaled \$789 and \$697 during the three months ended March 31, 2015 and 2014, respectively. Remaining estimated aggregate annual amortization expense is as follows (amounts are for the fiscal year ended):

Remainder of 2015	\$ 4,238

Less: current maturities	(2,514)	(1,786)
Long-term debt, less current maturities	\$ 61,076	\$ 25,070

On July 8, 2014, we entered into a Credit Agreement (as amended, the Credit Agreement) with a bank group with an aggregate commitment of \$100,000 and a maturity date of July 7, 2019 (the Maturity Date). The Credit Agreement provides for a \$75,000 revolving credit facility (LOC) and a \$25,000 term loan (Term Loan) secured by all of our assets except certain vehicles secured by capital leases and loans. We can also borrow swingline loans up to \$5,000 and obtain letters of credit of up to \$10,000; any outstanding letters of credit and swingline loans under the Credit Agreement reduce our borrowing capacity. See Note 5, Term Debt, in our Annual Report on Form 10-K for the fiscal year ended December 31, 2014, for further information regarding the Credit Agreement. See Note 13, Subsequent Event, Amended Credit Agreement, for further information regarding an amendment to the Credit Agreement.

In October 2014, we entered into a Master Loan and Security Agreement (Master Loan Agreement) with a lender to provide financing up to \$5,000 for the purpose of purchasing vehicles and equipment used in the normal course of business. Vehicles and equipment purchased under this Master Loan Agreement serve as collateral for each note controlled by this financing arrangement. Each financing arrangement under this Master Loan Agreement will serve as a separate note and obligation. Regular payments are due under each note at the time the obligation occurs for a period of 60 consecutive months. The specific terms of each note are based on specific criteria, including the type of vehicle or equipment, the length of the term of the note, and the market interest rates at the time. There is no termination date of this Master Loan Arrangement. On February 12, 2015, we entered into a separate Master Equipment

Lease Agreement (Master Equipment Agreement) with a lender to provide financing up to \$4,000 for the purpose of purchasing or leasing vehicles and related service equipment used in the normal course of business. Vehicles and equipment purchased or leased under this Master Equipment Agreement serve as collateral for each note controlled by this financing arrangement. Each financing arrangement under this Master Equipment Agreement will serve as a separate note and obligation. Regular payments are due under each note at the time the obligation occurs for a period of 60 consecutive months. The balance outstanding under both financing arrangements at March 31, 2015 was \$5,652. See Note 13, Subsequent Events, Amended Equipment Lease Agreement, for further information regarding an amendment to the Master Equipment Agreement.

NOTE 5 FAIR VALUE MEASUREMENTS

Fair Values

Fair value is the price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date.

The standard establishes a fair value hierarchy that requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect a reporting entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

Accounts receivable, accounts payable, and accrued liabilities as of March 31, 2015 and December 31, 2014 approximate fair value due to the short-term maturities of these financial instruments. The carrying amounts of the long-term debt, including the Term Loan and LOC as of March 31, 2015 and December 31, 2014, approximate fair value as of March 31, 2015 and December 31, 2014 due to the short term maturities of the underlying variable rate LIBOR agreements. The carrying amounts of the obligations associated with our capital leases approximate fair value as of March 31, 2015 and December 31, 2014 since the value of the obligations is based on the value of the associated tangible assets. Both debt classifications represent Level 2 fair value measurements.

Assets and Liabilities Measured at Fair Value on a Recurring Basis

In many cases, a valuation technique used to measure fair value includes inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy. During the periods presented, there were no transfers between fair value hierarchical levels.

Our Redeemable Preferred Stock was redeemed in February 2014 with proceeds from our IPO, eliminating the associated put option. In addition, the redeemable feature of our Redeemable Common Stock was terminated upon the IPO. See Note 1, Organization, 2014 Initial Public Offering, for further information. As such, corresponding fair values are zero as of March 31, 2015.

The following is a general description of the valuation methodologies used for liabilities and mezzanine equity (which includes redeemable preferred and common stock) items measured at fair value during fiscal year 2014:

Put option Redeemable Preferred Stock We identified a certain embedded feature in the Redeemable Preferred Stock that was required to be bifurcated and accounted for as a derivative. The identified put option allowed Redeemable Preferred stockholders to put their shares upon a change in control. The estimated fair value of the put option on Redeemable Preferred Stock was determined using our estimates of the probability of a change in control during each period the option was outstanding in combination with the accreted fair value of the Redeemable Preferred Stock during the option period. Those resulting probabilities were then calculated at net present value for each period presented.

Redeemable Common Stock The estimated fair value of the redeemable feature of certain shares of our outstanding common stock was determined using a combination of discounted cash flows and market multiple approach modeling in order to mark the Redeemable Common Stock to market at each period end.

Changes in the fair value of recurring fair value measurements using significant unobservable inputs (Level 3) for the three months ended March 31, 2014 were as follows (in thousands):

Balance as of January 1, 2014	\$ 81,500
Adjustments to fair value measurement impacting the Statement of Stockholders Deficit and Redeemable Instruments	8,357
Adjustments to fair value measurement impacting the Statement of Operations	(490)
Termination of Redemption Feature on common stock and put option	(89,367)
Balance as of March 31, 2014	\$

The unrealized gain related to the put option liabilities is recorded within other expense (income) on the Condensed Consolidated Statements of Operations for the three months ended March 31, 2014.

NOTE 6 STOCKHOLDERS EQUITY

In anticipation of our IPO, we amended our Certificate of Incorporation on February 10, 2014 to, among other things, authorize additional shares of common and preferred stock. On February 25, 2014, we further amended our Certificate of Incorporation to delete references to the Redeemable Preferred Stock, all of which was redeemed with proceeds from our IPO and subsequently retired and cancelled.

As of March 31, 2015, we had 5,000,000 shares of preferred stock authorized with no shares issued or outstanding, 100,000,000 shares of common stock authorized, 31,969,284 shares of common stock issued and 31,354,284 shares of common stock outstanding, all with par value of \$0.01, and 615,000 shares of treasury stock at cost.

On March 13, 2015, we entered into a share repurchase agreement with Installed Building Systems, Inc. (IBS), a related party, for the purchase of 315,000 shares of our common stock for a purchase price of \$6,057 (or \$19.23 per share, which represented a 7.5% discount to the last reported price of our common stock on March 13, 2015) plus minor costs we incurred with respect to the transaction of \$43, totaling \$6,100. The effect of these treasury shares reducing the number of common shares outstanding is reflected in our earnings per share calculation. For additional information on the related party relationship, see Note 9, Related Party Transactions.

NOTE 7 EMPLOYEE BENEFITSHealthcare

Our healthcare benefit expense (net of employee contributions) was approximately \$2,715 and \$2,612 for the three months ended March 31, 2015 and 2014, respectively, for all plans. An accrual for estimated healthcare claims incurred but not reported (IBNR) is included within accrued compensation on the Condensed Consolidated Balance Sheets and was \$1,431 and \$1,089 as of March 31, 2015 and December 31, 2014, respectively.

Workers Compensation

Workers compensation expense totaled \$2,065 and \$1,585 for the three months ended March 31, 2015 and 2014, respectively. Workers compensation known claims and IBNR reserves included on the Condensed Consolidated Balance Sheets were as follows:

	March 31, 2015	December 31, 2014
Included in other current liabilities	\$ 2,321	\$ 2,504
Included in other long-term liabilities	5,742	5,752

	\$ 8,063	\$ 8,256
--	----------	----------

We also had an insurance receivable for claims that exceeded the stop loss limit included on the Condensed Consolidated Balance Sheets. That receivable offsets an equal liability included within the reserve amounts noted above and was as follows:

	March 31, 2015	December 31, 2014
Included in other non-current assets	\$ 2,135	\$ 2,286

Share-Based Compensation*Directors*

In June 2014, we granted 23,490 shares of restricted stock at a price of \$12.77 per share (which represents market price on the grant date) to non-employee members of our Board of Directors. These shares effectively vested on the grant date since there is deemed to be no service period associated with these awards. The lack of a vesting or service period may not apply to any future share grants under our 2014 Omnibus Incentive Plan.

Employees

During the three months ended March 31, 2015, we granted 130,197 shares of restricted stock which vest fully between January 7, 2016 and March 31, 2016 for non-executive employees and in three equal installments for certain officers on each of March 31, 2016, March 31, 2017 and March 31, 2018, all with an estimated forfeiture rate of 3.3%. Share-based compensation expense and a related total recognized tax benefit were insignificant for the three months ended March 31, 2015. No shares were awarded during the three months ended March 31, 2014 and accordingly, no expense was recorded.

Nonvested restricted stock as of December 31, 2014 and changes during the three months ended March 31, 2015 were as follows:

	Restricted Stock Awards	Weighted Average Grant Date Fair Market Value Per Share
Nonvested restricted stock at December 31, 2014		\$
Granted	130,197	21.53
Vested		
Forfeited		
Nonvested restricted stock at March 31, 2015	130,197	\$ 21.53

As of March 31, 2015, there was \$2,590 of unrecognized compensation expense related to nonvested restricted stock. This expense is subject to future adjustments for vesting and forfeitures and is expected to be recognized on a straight-line basis over the remaining weighted-average period of 1.4 years.

Edgar Filing: Installed Building Products, Inc. - Form 10-Q

As of March 31, 2015, 2,846,313 shares of common stock were available for issuance under the 2014 Omnibus Incentive Plan.

NOTE 8 INCOME TAXES

Our provision for income taxes as a percentage of pretax earnings (effective tax rate) is based on a current estimate of the annual effective income tax rate adjusted to reflect the impact of discrete items.

During the three months ended March 31, 2015, the effective tax rate for continuing operations was 45.2 percent. The rate was favorably impacted by deductions related to domestic production activities, offset by separate tax filing entities in a loss position for which a full valuation allowance will be accounted for against the losses, causing no tax benefit to be recognized on the losses.

During the three months ended March 31, 2015, we increased our uncertain tax positions related to an acquisition that did not impact the effective tax rate.

NOTE 9 RELATED PARTY TRANSACTIONS

We sell installation services to other companies related through common or affiliated ownership. We also purchase services and materials and pay rent to companies with common or related ownership.

We lease our headquarters and other facilities from certain related parties. See Note 10, Commitments and Contingencies, for future minimum lease payments to be paid to these related parties.

For the three months ended March 31, 2015 and 2014, the amount of sales to common or related parties as well as the purchases from and rent expense paid to these common or related parties were as follows:

	Three months ended March 31,	
	2015	2014
Sales	\$ 1,166	\$ 414
Purchases	116	1,172
Rent	148	145

During the second quarter of 2014, we appointed a new member of our Board of Directors who is also the CEO of M/I Homes, Inc. (NYSE: MHO), one of our customers. As a result, we have included all sales to this customer during the three months ended March 31, 2015 in the above table.

At March 31, 2015 and December 31, 2014, we had related party balances of \$1,137 and \$1,255, respectively, included in accounts receivable on our Consolidated Balance Sheets. These balances represent trade accounts receivable arising during normal course of business with various related parties. M/I Homes, Inc. accounted for \$452

and \$627 of these balances as of March 31, 2015 and December 31, 2014, respectively.

As a result of our acquisition of TCI Contracting, LLC (TCI) in 2012, one of our existing suppliers became classified as a related party until a change in ownership of the supplier resulted in an end to such classification in August 2014. Purchases made from this supplier during the three months ended March 31, 2014 were \$1,089, and are included in total related party purchases in the preceding table.

(in thousands, except share and per share amounts)

On March 13, 2015, we entered into a share repurchase agreement with Installed Building Systems, Inc. (IBS) for the purchase of 315,000 shares of our common stock. Jeff Edwards, our Chief Executive Officer, has beneficial ownership in the shares of our common stock held by IBS. See Note 6, Stockholders' Equity, for additional information.

As of December 31, 2014, the Company maintained a receivable from IBP Holding Company, related to us through direct control by Jeff Edwards, in the amount of approximately \$600. The receivable represented amounts owed to us for wages and related expenses paid by the Company during 2011 to former employees of IBP Holding Company and was included in other current assets on the Condensed Consolidated Balance Sheet as of December 31, 2014. During the three months ended March 31, 2015, we received the full remaining balance and accordingly, no such receivable exists as of March 31, 2015.

NOTE 10 COMMITMENTS AND CONTINGENCIESAccrued Insurance

Accrued insurance reserves included on the Condensed Consolidated Balance Sheets were as follows:

	March 31, 2015	December 31, 2014
Included in other current liabilities	\$ 1,418	\$ 1,379
Included in other long-term liabilities	6,944	3,754
	\$ 8,362	\$ 5,133

We also had insurance receivables included on the Condensed Consolidated Balance Sheets that, in aggregate, offset an equal liability included within the reserve amounts noted above. The amounts were as follows:

	March 31, 2015	December 31, 2014
Insurance receivable for claims under a fully insured policy	\$ 2,013	\$
Insurance receivable for claims that exceeded the stop loss limit	677	677
Total insurance receivables included in other non-current assets	\$ 2,690	\$ 677

Leases

We are obligated under capital leases covering vehicles and certain equipment. The vehicle and equipment leases generally have terms ranging from four to six years. Total gross assets relating to capital leases were \$65,144 and \$65,238 as of March 31, 2015 and December 31, 2014, respectively, and a total of \$20,253 and \$20,499 were fully depreciated as of March 31, 2015 and December 31, 2014, respectively. The net book value of assets under capital leases was \$26,824 and \$28,754 as of March 31, 2015 and December 31, 2014, respectively, net of accumulated depreciation of \$38,320 and \$36,484 as of March 31, 2015 and December 31, 2014, respectively. Amortization of assets held under capital leases is included within cost of sales on the Condensed Consolidated Statements of Operations.

Table of Contents**INSTALLED BUILDING PRODUCTS, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)**

(in thousands, except share and per share amounts)

We also have several noncancellable operating leases, primarily for buildings, improvements, equipment, and certain vehicles. These leases generally contain renewal options for periods ranging from one to five years and require us to pay all executory costs such as property taxes, maintenance and insurance.

In some instances, lease agreements exist with related parties. Future minimum lease payments under noncancellable operating leases (with initial or remaining lease terms in excess of one year) with related parties as of March 31, 2015 are as follows (amounts are as of the fiscal year ended):

Remainder of 2015	\$ 308
2016	377
2017	150
2018	83
2019	
Thereafter	

Supply Contract Commitments

As of March 31, 2015, we had two product supply contracts, one extending through December 31, 2015 and one extending through August 31, 2017. Our obligations for both contracts are based on quantity without a specific rate applied and therefore are not quantifiable. We expect our quantity purchases to exceed the minimum quantity commitments for all years covered by the contracts. Actual purchases made under the contracts for the three months ended March 31, 2015 and 2014 were \$14,997 and \$8,452, respectively.

Other Commitments and Contingencies

From time to time, various claims and litigation are asserted or commenced against us principally arising from contractual and tort matters and personnel and employment disputes. In determining loss contingencies, management considers the likelihood of loss as well as the ability to reasonably estimate the amount of such loss or liability. An estimated loss is recorded when it is considered probable that such a liability has been incurred and when the amount of loss can be reasonably estimated. It is not certain that we will prevail in these matters. However, we do not believe that the ultimate outcome of any pending matters will have a material adverse effect on our consolidated financial position, results of operations or cash flows.

NOTE 11 BUSINESS COMBINATIONS

As part of our ongoing strategy to increase market share in certain markets, we completed one business combination during the three months ended March 31, 2015 and one business combination during the three months ended March 31, 2014. The goodwill to be recognized in conjunction with these business combinations is attributable to expected synergies. At least a portion of the goodwill resulting from the 2015 acquisition is expected to be deductible

for tax purposes while the goodwill resulting from the 2014 acquisition is not expected to be deductible for tax purposes.

2015

On March 12, 2015, we acquired 100% of the stock and membership interests of nine different legal entities, collectively referred to as BDI Insulation (BDI). The purchase price consisted of cash of \$30,680 and seller obligations of \$5,486. Revenue and net income since the date of acquisition included in our Condensed Consolidated Statement of Operations for the three months ended March 31, 2015 were \$2,121 and \$288, respectively.

2014

On March 24, 2014, we acquired 100% of the common stock of U.S. Insulation Corp. (U.S. Insulation). The purchase price consisted of cash of \$2,006 and seller obligations of \$279. Since the closing date was close to the end of the period, revenue and net income included in our Condensed Consolidated Statement of Operations for the three months ended March 31, 2014 were not significant.

The preliminary estimated fair values of the assets acquired and liabilities assumed for the acquisitions approximated the following:

	As of the three months	
	ended March 31,	
	2015	2014
Cash	\$ 661	\$

Total purchase price	\$ 36,166	\$ 2,285

Further adjustments are expected to the allocation above as the third-party valuation is finalized and certain tax aspects of the transaction and a customary post-closing review are completed during the measurement period.

Included in other noncurrent assets in the above table as of the three months ended March 31, 2015 is an insurance receivable of \$2,013 and an indemnification asset associated with the acquisition of BDI in the amount of \$1,723. These assets offset equal liabilities included in other long-term liabilities in the above table, which represent additional insurance reserves and an uncertain tax position liability for which we may be liable. All amounts are measured at their acquisition-date fair value.

(in thousands, except share and per share amounts)

Included in other accounts payable and accrued expenses in the above table as of the three months ended March 31, 2015 is additional consideration for a working capital adjustment to be finalized within 120 days of closing associated with the acquisition of BDI in the amount of \$902. This liability is measured at the acquisition-date fair value of the liability.

Estimates of acquired intangible assets related to the acquisitions are as follows:

Pro Forma Information

The unaudited pro forma information has been prepared as if the 2015 acquisition had taken place on January 1, 2014 and all 2014 acquisitions had taken place on January 1, 2013. The unaudited pro forma information is not necessarily indicative of the results that we would have achieved had the transactions actually taken place on January 1, 2014 and 2013, and the unaudited pro forma information does not purport to be indicative of future financial operating results. See Note 12, Business Combinations, to our audited financial statements in Item 8 of Part II of our Annual Report on Form 10-K filed with the SEC on March 13, 2014 for additional information on 2014 acquisitions included in the table below.

	Pro forma for the three months ended

NOTE 12 INCOME (LOSS) PER COMMON SHARE

Basic net income (loss) per share is calculated by dividing net income (loss) attributable to common shareholders by the weighted average shares outstanding during the period, without consideration for common stock equivalents.

Diluted net income (loss) per share is calculated by adjusting weighted average shares outstanding for the dilutive effect of common share equivalents outstanding for the period, determined using the treasury stock method. Potential common shares are included in the diluted income (loss) per share calculation when dilutive. Diluted income (loss) per share was as follows:

	For the three months ended March 31,	
	2015	2014
Net income (loss) attributable to common stockholders basic and diluted	\$ 1,242	\$ (19,524)
Weighted average number of common shares outstanding	31,493,587	25,841,679
Dilutive effect of outstanding restricted stock awards after application of the Treasury Stock Method	1,261	
Dilutive shares outstanding	31,494,848	25,841,679
Basic income (loss) per share attributable to common stockholders	\$ 0.04	\$ (0.76)
Diluted income (loss) per share attributable to common stockholders	\$ 0.04	\$ (0.76)

For the three months ended March 31, 2015, diluted income (loss) per share did not include approximately 28,684 shares of our non-vested restricted stock as the effect would have been antidilutive. There were no common stock equivalents with a dilutive effect during the three months ended March 31, 2014.

NOTE 13 SUBSEQUENT EVENTSBusiness Combination

Edgar Filing: Installed Building Products, Inc. - Form 10-Q

On April 6, 2015, we acquired 100% of the common stock of C.Q. Insulation Inc. (CQ) for total consideration of approximately \$5,868, subject to finalization of a working capital adjustment as well as a potential earnout determined based on CQ s profits (as defined in the purchase contract) for the twelve months ended June 30, 2015. If the maximum potential earnout is achieved, the total purchase price of the acquisition could increase up to approximately 35%. The initial accounting for the business combination was not complete at the time the financial statements were issued due to the timing of the acquisition and the filing of our Quarterly Report on Form 10-Q. As a result, disclosures required under ASC 805-10-50, Business Combinations, cannot be made at this time.

Amended Credit Agreement

On April 28, 2015, we entered into an amendment to the Credit and Security Agreement (the Amended Agreement) with a group of lenders named therein and KeyBank National Association, as lead arranger, sole book runner and administrative agent. The amendment provides for a Revolving Line of Credit (New LOC) with a maximum limit of \$100,000, a Term Loan in the amount of \$50,000, a Delayed Draw Term Loan (the DDTL) of \$50,000 and an uncommitted accordion feature in the amount of \$25,000. The Amended Agreement is due April 30, 2020 (the Maturity Date) and is secured by all of our assets except those subject to capital leases. The total facility commitment amount is \$200,000 including the New LOC, the Term Loan, the DDTL and any outstanding letters of credit.

The New LOC and Term Loan bear interest at either 1) the Eurodollar rate (LIBOR) or 2) the Base Rate (which approximates Prime Rate), plus a margin based on the type of rate applied and the value (represented as a ratio) of our total debt to earnings. The Term Loan requires quarterly principal payments beginning the second quarter of 2015 and ending with the second quarter of 2020, totaling \$17,500. Any outstanding principal balance on the Term Loan is due on the Maturity Date.

The Amended Agreement contains financial covenants requiring us to maintain 1) a leverage ratio of debt to earnings, as adjusted for certain items and as defined by the agreement, of no greater than 3.50 to 1.00 and 2) a fixed charge coverage ratio, as adjusted for certain items, of no less than 1.10 to 1.00. The Amended Agreement also contains various restrictive non-financial covenants and a provision that, upon an event of default (as defined by the agreement), amounts outstanding under the New LOC, Term Loan, and any outstanding DDTL would bear interest at the rate as determined above plus 2%.

Amended Equipment Lease Agreement

On April 7, 2015, we amended the original Master Equipment Lease Agreement dated February 12, 2015 (Amended Master Equipment Agreement) with a lender for the purpose of purchasing or leasing vehicles and related service equipment used in the normal course of business to increase financing up to \$22,000. Vehicles and equipment purchased or leased under this Amended Master Equipment Agreement serve as collateral for each note controlled by this financing arrangement. Each financing arrangement under this Amended Master Equipment Agreement will serve as a separate note and obligation. Regular payments are due under each note at the time the obligation occurs for a period of 60 consecutive months.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This Management's Discussion and Analysis of Financial Condition and Results of Operations should be read in conjunction with our consolidated financial statements and related notes in Item 1. Financial Statements of this Form 10-Q, as well as our Annual Report on Form 10-K for the year ended December 31, 2014 (our Form 10-K). Dollar amounts are presented in thousands.

OVERVIEW

We are the second largest new residential insulation installer in the United States based on our internal estimates, with a national platform consisting of over 100 locations serving customers in all 48 continental states and the District of Columbia. We also install complementary building products, including garage doors, rain gutters, shower doors, closet shelving and mirrors. Substantially all of our net revenue comes from service-based installation of these products in the residential new construction, repair and remodel and commercial construction end markets.

We believe our business is well positioned to continue to profitably grow during the housing recovery due to our strong balance sheet, liquidity and our continuing acquisition strategy. We may continue to adjust our strategies based on housing demand and our performance in each of our markets. Nevertheless, the pace of the housing recovery and our future results could be negatively affected by weakening economic conditions and decreases in housing demand and affordability as well as increases in interest rates and tightening of mortgage lending practices.

We manage all aspects of the installation process for our customers, from our direct purchase and receipt of materials from national manufacturers, to our timely supply of materials to job sites and quality installation. Installation of insulation, including air sealing, is a critical phase in the construction process, as certain other interior work cannot begin until the insulation phase passes inspection. Our branches have expertise in local building codes and energy-efficient building practices, and strong working relationships with homebuilders and on-site construction managers. At the same time, our centralized corporate support functions allow us to leverage our longstanding supplier relationships, web-based information system and other dedicated corporate services to benefit our operations as a whole.

Three Months Ended March 31, 2015 Compared to the Three Months Ended March 31, 2014

Net revenue

For the three months ended March 31, 2015, net revenue increased \$24,002, or 22.7%, to \$129,948 from \$105,946 during the three months ended March 31, 2014. The increase in net revenue included revenue from acquisitions of approximately \$9,217. Approximately \$7,159 was predominantly attributable to organic growth in the volume of completed jobs in all of our end markets. The remaining increase in net revenue of approximately \$7,626 resulted from a variety of other factors including customer and product mix, market pricing variations and insulation volumes driven by building code requirements. Of these other factors, none was more significant than any other.

Cost of sales

For the three months ended March 31, 2015, cost of sales increased \$16,281, or 20.5%, to \$95,822 from \$79,541 during the three months ended March 31, 2014. The increase in cost of sales included increases from acquisitions of approximately \$6,825. Approximately \$5,206 was predominantly attributable to organic growth in the volume of completed jobs in the residential new construction end market. Cost of

Table of Contents

sales also increased \$4,250 as a result of a variety of other factors including customer and product mix, market pricing variations and insulation volumes driven by building code requirements. Of these other factors, none was more significant than any other.

Gross Profit

For the three months ended March 31, 2015, gross profit increased \$7,721 to \$34,126 from \$26,405 during the three months ended March 31, 2014. As a percentage of net revenue, gross profit increased to 26.3% for the three months ended March 31, 2015 from 24.9% for the three months ended March 31, 2014 primarily from operating efficiencies in several cost of sales categories that result from higher sales levels.

Operating expenses

Selling

For the three months ended March 31, 2015, selling expenses increased \$1,642, or 25.4%, to \$8,112 from \$6,470 for the three months ended March 31, 2014. This increase was primarily due to increases in wages, benefits and commissions of \$1,488, approximately half of which was related to acquisitions and the other half was to support higher sales levels.

Administrative

For the three months ended March 31, 2015, administrative expenses increased \$3,876, or 21.1%, to \$22,237 from \$18,361 for the three months ended March 31, 2014. The increase in administrative expenses was primarily due to increases in wages and benefits of \$1,672, of which \$565 was related to acquisitions and the remainder was to support our growth, higher general liability insurance costs of \$595, higher legal and accounting fees of \$512 to support our status as a public company, an increase in facility costs of \$391 (approximately half of which was related to acquisitions), and changes in several other administrative expenses of approximately \$706 to support our growth.

Amortization

Amortization expense was relatively flat for the three months ended March 31, 2015 as compared to the three months ended March 31, 2014.

Other expense (income)

For the three months ended March 31, 2015, other expense increased \$597 to \$723 from \$126 for the three months ended March 31, 2014. Included in the three months ended March 31, 2015 is additional interest expense of \$110 primarily related to higher outstanding debt balances. Included in the three months ended March 31, 2014 is a one-time gain of \$490 recognized upon termination of the put option on our Redeemable Preferred Stock. See Item 1, Financial Statements, Note 5, Fair Value Information, for further information.

Income tax provision

During the three months ended March 31, 2015, we recorded an income tax provision of \$1,023 on our income from continuing operations before income taxes of \$2,265, or an effective tax rate of 45.2%. This rate was favorably impacted by deductions related to domestic production activities. The favorability was offset by separate tax filing entities in a loss position for which a full valuation allowance will be accounted for against the losses, causing no tax

benefit to be recognized on the losses.

Table of Contents

During the three months ended March 31, 2014, we recorded an income tax provision of \$350 on our income from continuing operations before income taxes of \$751, or an effective tax rate of 46.6%. This rate was unfavorably impacted by separate tax filing entities in a loss position for which a full valuation allowance will be accounted for against the losses, causing no tax benefit to be recognized on the losses.

Liquidity and Capital Resources

Our primary capital requirements are to fund working capital needs, operating expenses, acquisitions and capital expenditures and meet required principal and interest payments. Our capital resources primarily consist of cash and borrowings under our credit agreement and capital equipment leases and loans.

The residential construction industry, and therefore our business, experienced a significant downturn that started in 2006. However, beginning in 2012, we saw the first meaningful increase in housing completions since the downturn began. We have experienced improved profitability and liquidity since 2012 and have invested significantly in acquisitions, supported by our cash and credit facility. Additionally, we have utilized capitalized leases and loans to finance an increase in the number of our vehicles.

We believe that our cash flows from operations, combined with our current cash levels and available borrowing capacity, will be adequate to support our ongoing operations and to fund our debt service requirements, capital expenditures and working capital for at least the next 12 months.

Historical cash flow information

Cash flow from operating activities

Net cash provided by operating activities of \$5,985 and \$5,030 for the three months ended March 31, 2015 and 2014, respectively, consisted primarily of net income of \$1,242 and \$373, respectively, adjusted for non-cash and certain other items. Included in the net cash provided in 2015 was a non-cash adjustment for depreciation and amortization expense on our expanded base of property, plant and equipment to support our growth totaling \$3,500, as well as other changes in working capital, most notably a \$2,094 decline in accounts receivable collected in the three months ended March 31, 2015 resulting from timing of collection of fourth quarter sales. Included in the net cash provided in 2014 was \$2,638 of depreciation and amortization expense on our expanded base of property, plant and equipment, other changes in working capital, most notably \$2,900 of additional accounts payable resulting from the increase in purchases to support our growth, offset by \$490 of a one-time gain recognized upon termination of the put option on our Redeemable Preferred Stock.

Cash flows from investing activities

Net cash used in investing activities was \$35,532 and \$2,595 for the three months ended March 31, 2015 and 2014, respectively. In 2015 we made cash payments, net of cash acquired, of \$30,019 to acquire BDI and \$5,666 to purchase property, plant, and equipment, primarily to expand our fleet to support our growing business. In 2014 we made cash payments, net of cash acquired, of \$2,006 to acquire U.S. Insulation and \$749 to purchase property, plant, and equipment, primarily to expand our fleet to support our growing business. See Item 1, Financial Statements, Note 11, Business Combinations, for further information.

Table of Contents

Cash flows from financing activities

Net cash provided by financing activities was \$25,132 for the three months ended March 31, 2015 compared to net cash used in financing activities of \$1,350 for the three months ended March 31, 2014. Net cash provided in 2015 was primarily the result of additional net borrowings of \$30,050 on our revolver to support the acquisition of BDI offset by \$6,100 paid to repurchase shares of our common stock. Net cash used in 2014 was primarily the result of the redemption of our Redeemable Preferred Stock resulting from our IPO of \$75,735, net payments on our previous credit agreement of \$8,714, cash payments for offering costs related to our IPO of \$2,130, and vehicle capital lease principle payments of \$2,120 all offset by net proceeds from our initial public offering of \$87,645.

Capital expenditures

Capital expenditures vary depending on prevailing business factors, including current and anticipated market conditions. Total capital expenditures were \$5,666 and \$749 for the three months ended March 31, 2015 and 2014, respectively, and primarily related to purchases of vehicles and various equipment to support our operations and increased net revenue. Of the \$5,666 in capital expenditures during the three months ended March 31, 2015, \$4,361 was converted to a financing arrangement by March 31, 2015 under the Master Loan Agreement or Master Equipment Agreement discussed below.

Credit and Security Agreement

On July 8, 2014, we entered into a Credit Agreement (as amended, the *Credit Agreement*) with a bank group with an aggregate commitment of \$100,000 and a maturity date of July 7, 2019 (the *Maturity Date*). All of the obligations under the Credit Agreement are guaranteed by our existing and future direct and indirect material domestic subsidiaries, other than Suburban Insulation, Inc. (the *Guarantors*).

The Credit Agreement provides for a \$75,000 revolving credit facility (*LOC*) and a \$25,000 term loan (*Term Loan*) secured by all of our assets except certain vehicles secured by capital leases and loans. We can also borrow swingline loans up to \$5,000 and obtain letters of credit of up to \$10,000; any outstanding letters of credit and swingline loans under the Credit Agreement reduce our borrowing capacity. At March 31, 2015, we had \$9,815 of outstanding letters of credit and no outstanding swingline loans. See Note 4, Long-Term Debt, for more information on our Credit Agreement. At March 31, 2015 and 2014, we were in compliance with all financial covenants of our Credit Agreement.

See Note 13, Subsequent Events, *Amended Credit Agreement*, for further information regarding an amendment to the Credit Agreement, dated April 28, 2015.

In October 2014, we entered into a Master Loan and Security Agreement (*Master Loan Agreement*) with a lender to provide financing up to \$5,000 for the purpose of purchasing vehicles and equipment used in the normal course of business. Vehicles and equipment purchased under this Master Loan Agreement serve as collateral for each note controlled by this financing arrangement. Each financing arrangement under this Master Loan Agreement will serve as a separate note and obligation. Regular payments are due under each note at the time the obligation occurs for a period of 60 consecutive months. The specific terms of each note are based on specific criteria, including the type of vehicle or equipment, the length of the term of the note, and the market interest rates at the time. There is no termination date of this Master Loan Arrangement. On February 12, 2015, we entered into a separate Master Equipment Lease Agreement (*Master Equipment Agreement*) with a lender to provide financing up to \$4,000 for the purpose of purchasing or leasing vehicles and related service equipment used in the normal course of business. Vehicles and equipment purchased or leased under this Master Equipment Agreement serve as

Table of Contents

collateral for each note controlled by this financing arrangement. Each financing arrangement under this Master Equipment Agreement will serve as a separate note and obligation. Regular payments are due under each note at the time the obligation occurs for a period of 60 consecutive months. The balance outstanding under both financing arrangements at March 31, 2015 was \$5,652. See Note 13, Subsequent Events, Amended Equipment Lease Agreement, for further information regarding an amendment to the Master Equipment Agreement, dated April 7, 2015.

Letters of Credit and Bonds

We use letters of credit to secure our performance under our general liability and workers compensation insurance programs. Our workers compensation insurance program is considered a high deductible program whereby we are responsible for the cost of claims under \$750. If we do not pay these claims, our insurance carriers are required to make these payments to the claimants on our behalf. Our general liability insurance program has an SIR of \$350 whereby we are responsible for all claims below the SIR, and the insurance company only has liability above the SIR. As of March 31, 2015, we had \$9,815 of outstanding letters of credit and \$315 in cash securing our performance under these insurance programs. We occasionally use performance bonds to ensure completion of our work on certain larger customer contracts that can span multiple accounting periods. As of March 31, 2015, we had approximately 14 performance bonds outstanding, totaling \$1,366. Performance bonds generally do not have stated expiration dates; rather, we are released from the bonds as the contractual performance is completed. As of March 31, 2015, we had approximately 218 permit and license bonds outstanding, totaling \$3,841. Permit and license bonds are typically issued for one year and are required by certain municipalities when we obtain licenses and permits to perform work in their jurisdictions.

Capped Call Agreement

Certain of our shareholders entered into a capped call agreement with the underwriters of a secondary public offering of our common stock that was completed on June 17, 2014. We are not a party to the agreement. This agreement provides that these shareholders have the option to call a total of approximately 1.1 million shares at a capped price. The option can be exercised within specific dates based on the then price of the underlying shares. This has the effect of permitting the selling shareholders of this offering to receive additional benefit on the sold shares up to a predetermined price. This agreement is between such selling shareholders and the underwriters of this offering and does not represent compensation to the shareholders for services rendered and the price paid for the option represents fair value of that transaction. Accordingly, we have not recorded any expense related to this transaction.

Table of Contents**Contractual Obligations**

In the table below, we set forth our enforceable and legally binding obligations as of March 31, 2015. Some of the amounts included in the table are based on management's estimates and assumptions about these obligations, including their duration, the possibility of renewal, anticipated actions by third parties and other factors. Because these estimates and assumptions are necessarily subjective, our actual payments may vary from those reflected in the table.

	Total	Payments due by year:					
		Remainder of 2015	2016	2017	2018	2019	Thereafter
Long-term debt obligations (1)	\$ 40,094	\$ 2,899	\$ 4,200	\$ 4,373	\$ 4,448	\$ 19,794	\$ 4,380
Capital lease obligations (2)	27,796	8,034	8,617	5,749	3,385	1,976	35
Operating lease obligations (3)	19,323	5,183	5,781	3,477	1,462	1,182	2,238
Purchase obligations (4)	104,377	69,045	20,955	14,377			

- (1) Long-term debt obligations include amounts outstanding under our revolving credit facility as well as principal and interest payments on our Term Loan as of March 31, 2015. See Item 1, Financial Statements, Note 13, Subsequent Events, for information on an amendment to our Credit Agreement. Long-term debt obligations also include principal and interest payments on various notes payable, maturing through December 2016. See Item 1, Financial Statements, Note 13, Subsequent Events, for information on an amendment to our Equipment Lease Agreement.
- (2) We maintain a fleet of production vehicles under a capital lease structure. The leases expire on various dates through May 2020. We anticipate continuing the leasing of production vehicles to include new vehicles to support the increasing number of installation jobs in our business as well as to replace aging vehicles. Capital lease obligations, as disclosed above, include estimated interest expense payments. In determining expected interest expense payments, we utilize the current market rate.
- (3) We lease certain locations, vehicles and equipment under operating lease agreements, including, but not limited to, corporate offices, branch locations and various office and operating equipment. In some instances, these location lease agreements exist with related parties. See Note 9, Related Party Transactions, for further information.
- (4) We currently maintain two supply contracts with minimum purchase requirements based on quantity without a specified market rate applied. The amounts in the above table represent our best estimate as to the prices that will be payable for the minimum volume of purchases that must be made under the contracts.

Off-Balance Sheet Arrangements

As of March 31, 2015, other than operating leases and purchase obligations described above, letters of credit issued under our revolving credit facility and performance and license bonds, we had no material off-balance sheet arrangements.

Critical Accounting Policies and Estimates

There have been no material changes for the three months ended March 31, 2015 from the critical accounting policies and estimates as previously disclosed in our Annual Report on Form 10-K.

Forward-looking Statements

Statements contained in this report that reflect our views about our future performance constitute forward-looking statements under the Private Securities Litigation Reform Act of 1995. Forward-looking statements can be identified by words such as believe, anticipate, appear, may, will, intend, plan, estimate, expect, assume, and similar references to future periods. These views involve risks and uncertainties that are difficult to predict and, accordingly,

our actual results may differ materially from the results discussed in our forward-looking statements. We caution you against relying on any of these forward-looking statements. Our future performance may be affected by: our dependence on the residential construction industry, the economy and the credit markets; uncertainty regarding the housing recovery; declines in the economy or expectations regarding the housing recovery that could lead to additional significant impairment charges; the cyclical and seasonal nature of our business; our exposure to severe weather conditions; the highly fragmented and competitive nature of our industry; product shortages or the loss of key suppliers; changes in the costs and availability of products; inability to successfully acquire and integrate other businesses; our exposure to claims arising from our acquired operations; our reliance on key personnel; our ability to attract, train and retain qualified employees while controlling labor costs; our exposure to product liability, workmanship warranty, casualty, construction defect and other claims and legal proceedings; changes in, or failure to comply with, federal, state, local and other regulations; disruptions in our information technology systems; and our ability to implement and maintain effective internal control over financial reporting. These and other factors are discussed in detail in Item 1A. Risk Factors in our most recent Annual Report on Form 10-K. Our forward-looking statements in this report speak only as of the date of this report. Factors or events that could cause our actual results to differ may emerge from time to time, and it is not possible for us to predict all of them. Unless required by law, we undertake no obligation to update publicly any forward-looking statements as a result of new information, future events or otherwise.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There have been no material changes to our exposure to market risk since December 31, 2014.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We have evaluated the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report with the participation of our Chief Executive Officer (CEO) and Chief Financial Officer (CFO) as required by Exchange Act Rules 13a-15(e) and 15d-15(e). Based on that evaluation, our CEO and CFO concluded that our disclosure controls and procedures were effective as of March 31, 2015.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting during the three months ended March 31, 2015 that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
