September 2016 Preferred Stock Offering Issuer Free Writing Prospectus Dated September 6, 2016 Filed Pursuant to Rule 433 Relating to Preliminary Prospectus Supplement dated September \_\_, 2016 to Prospectus dated September 6, 2016 Registration No. 333-213294

SAFE HARBOR Wheeler Real Estate Investment Trust, Inc. (the “Company”) believes this presentation may contain “forward-looking” statements as defined in the Private Securities Litigation Reform Act of 1995. When the Company uses words such as “may,” “will,” “intend,” “should,” “believe,” “expect,” “anticipate,” “project,” “estimate” or similar expressions do not relate solely to historical matters, it is making forward-looking statements. Forward-looking statements are not guarantees of future performance and involve risks and uncertainties that may cause the actual results to differ materially from the Company’s expectations discussed in the forward-looking statements. Although the Company believes that the expectations reflected in such forward-looking statements are based upon reasonable assumptions, it can give no assurance that expected results will be achieved, and actual results may differ materially from expectations. Specifically, the Company’s statements regarding: (i) the anticipated implementation of the Company’s growth, acquisition and disposition strategy; (ii) the future generation of value to the Company from the acquisition of service-oriented retail properties in secondary and tertiary markets; (iii) the development and return on undeveloped properties; (iv) the amount of and the Company’s ability to obtain loans intended to fund acquisitions and development; and (v) anticipated dividend coverage are forward-looking statements. These statements are not guarantees of future performance and are subject to risks, uncertainties and other factors, some of which are beyond our control, are difficult to predict and could cause actual results to differ materially from those expressed or forecasted in the forward-looking statements. For these reasons, among others, investors are cautioned not to place undue reliance upon any forward-looking statements in this presentation. Additional factors that could cause the operations of the Company to differ materially from those listed in the forward-looking statements are discussed in the Company’s filings with the U.S. Securities and Exchange Commission, which are available for review at [www.sec.gov](http://www.sec.gov). The Company undertakes no obligation to publicly revise these forward looking statements to reflect events or circumstances that arise after the date hereof. The offering is being made pursuant to the Issuer’s effective shelf registration statement filed with the U.S. Securities and Exchange Commission (“SEC”), which became effective on September 6, 2016. Before you invest, you should read the registration statement, preliminary prospectus supplement and the accompanying base prospectus and the other documents the Issuer has filed with the SEC for more complete information about the Issuer and this offering. Copies of these documents may be obtained from the SEC’s website at [www.sec.gov](http://www.sec.gov) or by contacting: Wunderlich Securities, Inc., Attention: Equity Syndicate, 6000 Poplar Avenue, Suite 150, Memphis, Tennessee 38119, or by email at [syndicate@wundernet.com](mailto:syndicate@wundernet.com); Compass Point Research & Trading, LLC, Attention: Equity Syndicate, 1055 Thomas Jefferson Street NW, Suite 303, Washington, D.C. 20007, or by email at [syndicate@compasspointllc.com](mailto:syndicate@compasspointllc.com); or, Wheeler Real Estate Investment Trust, Inc., Attention: Investor Relations, 2529 Va. **NON-GAAP MEASURES Funds from Operations (FFO):** an alternative measure of a REIT's operating performance, specifically as it relates to results of operations and liquidity. FFO is a measurement that is not in accordance with accounting principles generally accepted in the United States (GAAP). Wheeler computes FFO in accordance with standards established by the Board of Governors of NAREIT in its March 1995 White Paper (as amended in November 1999 and April 2002). As defined by NAREIT, FFO represents net income (computed in accordance with GAAP), excluding gains (or losses) from sales of property, plus real estate related depreciation and amortization (excluding amortization of loan origination costs) and after adjustments for unconsolidated partnerships and joint ventures. Most industry analysts and equity REITs, including Wheeler, consider FFO to be an appropriate supplemental measure of operating performance because, by excluding gains or losses on dispositions and excluding depreciation, FFO is a helpful tool that can assist in the comparison of the operating performance of a company's real estate between periods, or as compared to different companies. Management uses FFO as a supplemental measure to conduct and evaluate the business because there are certain limitations associated with using GAAP net income alone as the primary measure of our operating performance. Historical cost accounting for real estate assets in accordance with GAAP implicitly assumes that the value of real estate assets diminishes predictably over time, while, historically, real estate values have risen or fallen with market conditions. **Adjusted FFO (AFFO):** Management believes that the computation of FFO in accordance with NAREIT's definition includes certain items that are not indicative of the operating performance of the Company's real estate assets. These items include, but are not limited to, non-recurring expenses, legal settlements, acquisition costs and capital raise costs. Management uses AFFO, which is a non-GAAP financial measure, to exclude such items. Management believes that reporting AFFO in addition to FFO is a useful supplemental measure for the investment community to use when evaluating the operating performance of the Company on a comparative basis. The Company also presents Pro Forma AFFO which shows the impact of certain activities assuming they occurred at the beginning of the year. **Earnings Before Interest, Taxes, Depreciation and Amortization (EBITDA):** another widely-recognized non-GAAP financial measure that the Company believes, when considered with financial statements prepared in accordance with GAAP, is useful to investors and lenders in understanding financial performance and providing a relevant basis for comparison among other companies, including REITs. While EBITDA should not be considered as a substitute for net income attributable to the Company's common shareholders, net operating income, cash flow from operating activities, or other income or cash flow data prepared in accordance with GAAP, the Company believes that EBITDA may provide additional information with respect to the Company's performance or ability to meet its future debt service requirements, capital expenditures and working capital requirements. The Company computes EBITDA by excluding interest expense, net loss attributable to noncontrolling interests, and depreciation and amortization, from income from continuing operations. The Company also presents Adjusted EBITDA which excludes items affecting the comparability of the periods presented, including, but not limited to, costs associated with acquisitions and capital-related activities. **Net Operating Income (NOI):** The Company believes that NOI is a useful measure of the Company's property operating performance. The Company defines NOI as property revenues (rental and other revenues) less property and related expenses (property operation and maintenance and real estate taxes). Because NOI excludes general and administrative expenses, depreciation and amortization, interest expense, interest income, provision for income taxes, gain or loss on sale or capital expenditures and leasing costs, it provides a performance measure, that when compared year over year, reflects the revenues and expenses directly associated with owning and operating commercial real estate properties and the impact to operations from trends in occupancy rates, rental rates and operating costs, providing perspective not immediately apparent from net income. The Company uses NOI to evaluate its operating performance since NOI allows the Company to evaluate the impact that certain factors, such as occupancy levels, lease structure, lease rates and tenant base, have on the Company's results, margins and returns. NOI should not be viewed as a measure of the Company's overall financial performance since it does not reflect general and administrative expenses, depreciation and amortization, involuntary conversion, interest expense, interest income, provision for income taxes, gain or loss on sale or disposition of assets, and the level of capital expenditures and leasing costs necessary to maintain the operating performance of the Company's properties. Other REITs may use different methodologies for calculating NOI, and, accordingly, the Company's NOI may not be comparable to that of other REITs.

FFO / AFFO RECONCILIATION Other non-recurring expenses are detailed in “Management’s Discussion and Analysis of Financial Condition and Results of Operations” included in our corresponding Quarterly and Annual Reports on Forms 10-Q and 10-K, respectively

ADJUSTED EBITDA & COVERAGE RATIOS Includes above (below) market lease amortization and amounts associated with assets held for sale Includes loan cost amortization and amounts associated with assets held for sale Other non-recurring expenses are detailed in "Management's Discussion and Analysis of Financial Condition and Results of Operations" included in our corresponding Quarterly and Annual Reports on Forms 10-Q and 10-K, respectively
