Q: Why am I receiving this proxy statement?

A: You are receiving this proxy statement because you were a stockholder of BioAmber as of the close of business on March 15, 2018, the record date for the special meeting, which entitles you to vote at the special meeting. Q: What proposals will be voted on at the special meeting?

A: There are three matters on which a vote is scheduled at the special meeting:

A proposal to approve an amendment to our Amended and Restated Certificate of Incorporation (our certificate of incorporation) to increase the authorized shares of common stock, par value \$0.01 per share, of the Company from 250,000,000 to 1,000,000,000 (the Authorized Shares Increase Proposal or Proposal 1);

A proposal to approve an amendment to our certificate of incorporation to effect a reverse stock split at a ratio of not less than fifty-to-one and not more than three-hundred-to-one, such ratio and the implementation and timing of such reverse stock split to be determined in the discretion of our Board of Directors (the Reverse Stock Split Proposal or Proposal 2); and

A proposal to approve one or more adjournments to the special meeting, if necessary, to permit further solicitation of proxies if there are not sufficient votes at the time of the special meeting cast in favor of Proposal 1 or Proposal 2 (the Adjournment Proposal or Proposal 3).

FOR the Reverse Stock Split Proposal (Proposal 2); and

FOR the Adjournment Proposal (Proposal 3).

Table of Contents

For a more detailed discussion of why you should vote FOR Proposal 1, Proposal 2 and Proposal 3, see Proposal 1 Amendment to the Amended and Restated Certificate of Incorporation to Increase the Number of Authorized Shares of Common Stock, Proposal 2 Amendment to the Amended and Restated Certificate of Incorporation to Implement a Reverse Stock Split of the Company's Outstanding Common Stock and Proposal 3 Grant of Discretionary Authority to Adjourn the Special Meeting if Necessary to Solicit Additional Proxies.

Q: What shares may I vote?

A: You may vote all shares of common stock of the Company that you owned as of the close of business on the Record Date. These shares include:

1. those held directly in your name as the stockholder of record; and
2. those held for you as the beneficial owner through a bank, broker or other financial intermediary at the close of business on the Record Date.

Each share of common stock is entitled to one vote. On the Record Date, there were approximately 126,150,655 shares of our common stock issued and outstanding.

Q: How do I vote if I am a stockholder of record?

A: If your shares are registered directly in your name with BioAmber's transfer agent, Computershare Trust Company, N.A., you may vote:

by telephone by following the voting instructions printed on your proxy card;

by Internet by following the voting instructions printed on your proxy card;

by completing, signing and dating each proxy card that you receive; or

in person by appearing and casting your vote at the special meeting.

If you are voting by telephone or via the Internet, your voting instructions must be received by the date and time indicated on the applicable proxy card(s). Voting via the Internet, by telephone or by mailing in your proxy card will not prevent you from voting in person at the special meeting. You are encouraged to submit a proxy by mail, via the Internet or by telephone even if you plan to attend the special meeting in person, to ensure that your shares of BioAmber common stock are present in person or represented at the special meeting.

If you return a properly signed and dated proxy card but do not mark the box showing how you wish to vote, your shares will be voted FOR Authorized Shares Increase Proposal (Proposal 1), FOR Reverse Stock Split Proposal (Proposal 2) and FOR Adjournment Proposal (Proposal 3). With respect to any other matter that properly comes before the special meeting, shares present in person or represented by all proxies received by BioAmber will be voted with respect to such matter in accordance with the judgment of the persons named as attorneys-in-fact in the proxies.

Q: How do I vote if my shares are held by my brokerage firm, bank, trust or other nominee?

A: If your shares are held in a brokerage account or by another nominee, such as a bank or trust, then the brokerage firm, bank, trust or other nominee is considered to be the stockholder of record with respect to those shares. However, you still are considered to be the beneficial owner of those shares, with your shares being held in street name. If your shares are held in street name, your brokerage firm, bank, trust or other nominee, under certain circumstances, may vote your shares for you if you do not return your proxy. Brokerage firms, banks, trusts and other nominees have authority to vote customers' unvoted shares on routine matters. Proposal 1, Proposal 2 and Proposal 3 are currently considered routine matters. If you do not give a proxy to your brokerage firm, bank, trust or other nominee to vote your shares, your brokerage firm, bank, trust or other nominee may either: vote your shares on routine matters, or leave your shares

Table of Contents

unvoted. We therefore strongly encourage you to provide voting instructions to your brokerage firm, bank, trust or other nominee by submitting your proxy. This ensures your shares will be voted at the meeting according to your instructions. You should receive directions from your brokerage firm, bank, trust or other nominee about how to submit your proxy to them. If you wish to vote in person at the special meeting, you must bring a proxy from your brokerage firm, bank, trust or other nominee authorizing you to vote at the special meeting.

Q: May I attend the special meeting in person?

A: You are invited to attend the special meeting in person. All stockholders attending the special meeting will be asked to present a form of photo identification, such as a driver's license, in order to be admitted to the special meeting. All bags or packages permitted in the meeting room will be subject to inspection. No cameras, computers, recording equipment, other similar electronic devices, signs, placards, briefcases, backpacks, large bags or packages will be permitted in the special meeting. The use of mobile phones, tablets, laptops and similar electronic devices during the special meeting is prohibited, and such devices must be turned off and put away before entering the meeting room. By attending the special meeting, stockholders agree to abide by the agenda and procedures for the special meeting, copies of which will be distributed to attendees at the meeting.

Q: What is the quorum requirement for the special meeting?

A: The quorum requirement for holding the special meeting and transacting business is a majority of the shares entitled to vote. The shares may be present in person or represented by proxy at the special meeting. Abstentions will be counted as present and entitled to vote for purposes of determining a quorum. Broker non-votes (described below) will not be counted for this purpose.

Q: What is the voting requirement to approve each of the proposals?

A: Pursuant to the provisions of our certificate of incorporation and the Delaware General Corporation Law, each of the Authorized Shares Increase Proposal (Proposal 1) and the Reverse Stock Split Proposal (Proposal 2) must be approved by the affirmative vote of the majority of the outstanding shares of common stock entitled to vote on such proposals.

The Adjournment Proposal (Proposal 3) must be approved by a majority of the votes properly cast with respect to such proposal. In each case, a quorum must be present at the special meeting for a valid vote.

Q: What happens if I abstain from voting?

A: If you submit a proxy and explicitly abstain from voting on any proposal, the shares represented by the proxy will be considered present at the special meeting for the purpose of determining a quorum. **If you abstain from voting, fail to cast your vote, in person or by proxy, or fail to give voting instructions to your brokerage firm, bank, trust or other nominee, it will have the same effect as a vote against the proposal to approve the**

Authorized Shares Increase Proposal (Proposal 1) and the Reverse Stock Split Proposal (Proposal 2). With respect to the Adjournment Proposal (Proposal 3), because abstentions are not considered votes cast for the foregoing purpose, abstentions will have no effect on the vote for this proposal.

Q: What is a broker non-vote ?

A: A broker non-vote occurs when a broker submits a proxy that does not indicate a vote for one or more of the proposals because the broker has not received instructions from the beneficial owner on how to vote on such proposals and does not have discretionary authority to vote in the absence of instructions. Brokers have discretionary authority to vote on matters that are deemed routine, but brokers do not have discretionary authority to vote on matters that are deemed non-routine. Each of the Authorized Shares Increase Proposal

(Proposal 1), the Reverse Stock Split Proposal (Proposal 2) and the Adjournment Proposal (Proposal 3) are matters that are deemed routine. Accordingly, these proposals may be voted upon by your broker if you do not submit voting instructions. You should follow the directions provided by your broker regarding how to instruct your broker to vote your shares.

Q: Am I entitled to dissenters' rights?

A: No dissenters' rights are available under the General Corporation Law of the State of Delaware, our certificate of incorporation, or our Second Amended and Restated Bylaws (our bylaws) to any stockholder with respect to any of the matters proposed to be voted on at the special meeting.

Q: Who can help answer my other questions?

PROPOSAL 1:

AMENDMENT TO THE AMENDED AND RESTATED CERTIFICATE OF

INCORPORATION TO INCREASE THE NUMBER OF AUTHORIZED SHARES OF

COMMON STOCK

General

On March 27, 2018, our Board of Directors determined that it is advisable and in our and our stockholders' best interests to increase the number of authorized shares of common stock, par value \$0.01 per share, of the Company from 250,000,000 shares to 1,000,000,000 shares. Accordingly, stockholders are asked to approve an amendment to our certificate of incorporation to effectuate such increase. The form of the proposed amendment to the certificate of incorporation is attached to this proxy statement as Appendix A, which you should carefully review.

Purpose of the Amendment

We are seeking stockholder approval of Proposal 1 because it is necessary to increase the amount of authorized common stock permitted to be issued under our Amended and Restated Certificate of Incorporation in order to have a sufficient amount of common stock to (i) allow the issuance of common stock upon exercise of the Outstanding Warrants (as defined below), (ii) allow the issuance of common stock upon exercise of the outstanding stock options granted under the Company's 2008 Stock Option and Incentive Plan and the Company's Amended and Restated 2013 Stock Option and Incentive Plan (the "Outstanding Stock Options") and (iii) continue to have sufficient common stock available for other general corporate purposes on an ongoing basis, including for future possible issuance to fund ongoing operations, growth and strategic investments. The increase of authorized shares of common stock from 250,000,000 shares to 1,000,000,000 shares will yield sufficient shares of common stock authorized and reserved to cover exercise of all of the Outstanding Warrants and Outstanding Stock Options.

Outstanding Shares

Our certificate of incorporation currently provides us with the authority to issue up to 250,000,000 shares of common stock. As of March 14, 2018, we had 126,150,655 shares of common stock issued and outstanding. Below is a table that calculates the shares available for future issuance and issuable upon exercise or conversion of the Outstanding Warrants and Outstanding Stock Options as of March 14, 2018.

	Shares of Common Stock
Authorized shares of common stock	250,000,000
Issued and outstanding shares of common stock, including treasury shares	126,150,655
Shares available for future issuance	123,849,345
Shares issuable upon conversion of the Outstanding Stock Options	7,266,648
Shares issuable upon conversion of the Outstanding Warrants	339,564,098

(222,981,401)

Below is a table that calculates the projected shares available for future issuance assuming that Proposal 1 is approved.

	Shares of Common Stock
Authorized shares of common stock	1,000,000,000
Issued and outstanding shares of common stock, including treasury shares	126,150,655
Shares available for future issuance	873,849,345

February 2018 Warrants

On February 9, 2018, we sold 15,969,166 Series A Units, with each Series A Unit consisting of one share of our common stock, one Series A common stock purchase warrant, or Series A common warrant, to purchase one share of our common stock, and one Series B common stock purchase warrant, or Series B common warrant, to purchase one share of our common stock and one Series C common stock purchase warrant, or Series C common warrant, to purchase that number of shares of our common stock as set forth therein (and the shares of common stock issuable from time to time upon exercise of these common warrants) to certain institutional investors in a registered direct offering. For investors whose purchase of Series A Units would have resulted in such investor, together with its affiliates and certain related parties, beneficially owning more than 4.99% of our outstanding common stock following the closing of the offering, we offered the opportunity to purchase, in lieu of Series A Units that have would otherwise resulted in ownership in excess of 4.99% of our outstanding common stock, 30,935,833 Series B Units. Each Series B Unit consists of one pre-funded common stock purchase warrant, or pre-funded warrant, to purchase one share of our common stock, one Series A common warrant, one Series B common warrant and one Series C common warrant (the Series A common warrants, Series B common warrants, Series C common warrants and pre-funded common warrants, collectively, the February 2018 Common Warrants).

320,787,498 shares of our common stock are issuable upon exercise of the February 2018 Common Warrants.

August 2017 Warrants

On August 11, 2017, we issued and sold 14,666,667 shares of our common stock, together with warrants to purchase up to 14,666,667 shares of common stock with an initial exercise price of \$0.75 per share (the August 2017 Underwritten Warrants), subject to the adjustments set forth in the August 2017 Underwritten Warrants in an underwritten public offering. Concurrent with this offering, we entered into subscription agreements with certain of our officers and directors to issue and sell in a private placement an aggregate of 273,331 shares of common stock, together with warrants to purchase up to 273,331 shares of common stock with an initial exercise price of \$0.75 per share of common stock (the August 2017 Private Placement Warrants and, together with the August 2017 Underwritten Warrants, the August 2017 Common Warrants).

14,939,998 shares of our common stock are issuable upon exercise of the August 2017 Common Warrants.

January 2017 Warrants

On January 23, 2017, we issued and sold 3,684,212 shares of common stock, together with warrants to purchase up to 1,842,106 shares of Common Stock with an initial exercise price of \$5.50 per share of Common Stock (the January 2017 Warrants), subject to certain adjustments, at a price to the public of \$4.75 per fixed combination consisting of one share of common stock and associated January 2017 Warrant to purchase one-half share of our common stock.

The Company also granted the underwriters a 30-day option to purchase up to an additional

Table of Contents

552,632 shares of common stock and/or warrants to purchase 276,316 shares of common stock at the public offering price, which the underwriters exercised in full on January 27, 2017.

2,118,422 shares of our common stock are issuable upon exercise of the January 2017 Common Warrants.

Legacy Warrants

As of March 14, 2018, our outstanding warrants issued prior to our initial public offering (which we refer to as legacy warrants, and together with the January 2017 Common Warrants, August 2017 Common Warrants and February 2018 Common Warrants, the Outstanding Warrants) consist of the following (if applicable, as adjusted to reflect the effect of anti-dilution protection on the number of shares issuable upon exercise of such warrant):

On February 6, 2009, the Company issued warrants to purchase up to 159,390 shares of common stock (the February 2009 Warrants).

On April 17, 2009, the Company issued warrants to purchase up to 44,240 shares of common stock (the April 2009 Warrants).

On June 22, 2009, the Company issued warrants to purchase up to 991,217 shares of common stock common stock (the June 2009 Warrants).

On April 11, 2011, the Company issued warrants to purchase up to 523,333 shares of common stock (the 2011 Warrants).

1,718,180 shares of our common stock are issuable upon exercise of the legacy warrants.

Post-Closing Purchase Price Adjustment and Limitation on Exercise of Warrants

If at any time while any of the February 2018 Common Warrants are outstanding we issue common stock or any type of securities giving the holders thereof the right to purchase common stock at a price below the as-adjusted purchase price of the pre-funded warrants or the exercise price of the Series A common warrants and the Series B common warrants, the purchasers of the February 2018 Common Warrants will have full-ratchet anti-dilution protection on any outstanding pre-funded warrants (via an increase in the number of shares of common stock underlying the pre-funded warrants) and the Series A common warrants and Series B common warrants (via a decrease in the exercise price per share thereof), subject to a \$0.05 floor. In addition, the August 2017 Common Warrants contain full ratchet anti-dilution protection upon the issuance of any common stock, securities convertible into common stock or certain other issuances at a price below the then-existing exercise price of the warrants, with certain exceptions. This anti-dilution protection was triggered in connection with the sale of the February 2018 Common Warrants. The June 2009 Warrants and 2011 Warrants contain anti-dilution protection in the event that we issue any common stock, securities convertible into common stock, or other securities at a price below the then-existing exercise price of such warrants, with certain exceptions. The anti-dilution protection contains a price adjustment and an adjustment to the number of shares issuable upon exercise of such warrants. This anti-dilution protection was triggered in connection with our underwritten public offerings in 2015 and in 2016, as well as by our offerings in August 2017 and February 2018. The issuance of additional securities in connection with the adjustment to the exercise price of such warrants

could result in further dilution to our stockholders.

The number of shares of common stock that we issue upon exercise or conversion of the February 2018 Common Warrants may not exceed the number of shares of common stock authorized under our certificate of incorporation, less the number of shares of common stock then outstanding or reserved for issuance upon exercise or conversion of other convertible securities that are then outstanding. Such limit may be increased by procuring an increase in the number of our authorized shares of common stock or reducing the number of outstanding shares of common stock, including through a reverse split of our common stock.

Reasons for the Proposed Increase in Number of Authorized Shares of Common Stock

We Do Not Have Sufficient Authorized Shares for Exercise of the Outstanding Warrants

The Outstanding Warrants represent the right to purchase an additional 339,564,098 shares of our common stock, accounting for anti-dilution provisions contained in the Outstanding Warrants, as applicable, that have been triggered to date.

The outstanding award agreements under the 2008 Plan and 2013 Plan represent the right (assuming all vesting conditions have been met) to purchase an additional 7,266,648 shares of our common stock.

We currently do not have sufficient shares authorized for exercise of the Outstanding Warrants and Outstanding Stock Options in full, and the Outstanding Warrants and Outstanding Stock Options will not be exercisable in full unless we file an amendment to our certificate of incorporation, subject to approval by its stockholders, to increase the number of authorized shares of the Company's common stock such that all of the Outstanding Warrants and Outstanding Stock Options may be exercised in full by the holders thereof.

Contractual Obligations Pursuant to the Outstanding Warrants

Pursuant to the terms of the Outstanding Warrants, and, as applicable, the offering or sale documents relating to the same, we are contractually obligated to reserve and keep available a sufficient number of shares of common stock for the purpose of enabling us to issue shares pursuant to contracts governing the rights and obligations of the Company and purchasers of the Outstanding Warrants with respect to the Outstanding Warrants. Pursuant to certain of the February 2018 Common Warrants and the related offering and sale documents, we are contractually obligated to keep reserved a sufficient number of shares of common stock for the purpose of enabling us to issue shares pursuant to the agreement. If on any date, the number of authorized but unissued, and otherwise unreserved, shares is insufficient to meet this obligation, then we are contractually obligated to use commercially reasonable efforts to, pursuant to the Securities Purchase Agreement, and to immediately take all action necessary to, pursuant to the February 2018 Common Warrants, amend our certificate of incorporation to increase the number of authorized shares to a minimum number calculated in accordance with the provisions of the 2018 Warrant Purchase Agreement, as soon as possible and in any event not later than the 75th day after such date. The sale of the February 2018 Common Warrants triggered this obligation. We must use our best efforts to solicit our stockholders' approval of such increase in authorized shares of common stock and to cause our Board of Directors to recommend to the stockholders that they approve such proposal.

Pursuant to certain of the Outstanding Warrants, if we fail for any reason to deliver to the holder of the warrant the shares of common stock for which the warrant has been exercised by a certain delivery date, as more fully detailed by the warrant, we shall pay to the holder, in cash, as liquidated damages and not as a penalty, for each \$1,000 of common stock shares underlying the exercise of the warrant, as calculated pursuant to the warrant, \$10 per trading day for each trading day (increasing to \$20 per trading day on the fifth such day after such liquidated damages begin to accrue) after such delivery date until such shares of common stock are delivered or the holder rescinds their exercise.

Future Capital Raising and General Corporate Purposes

In addition to being necessitated by the exercise and conversion terms of the Outstanding Warrants, our Board of Directors believes that the proposed increase in the number of authorized shares of common stock will also benefit us by improving our flexibility in considering opportunities that require the issuance of shares of common stock. The additional authorized shares will be available for issuance from time to time to enable us to respond to future business

opportunities requiring the issuance of shares, including stock dividends, the consummation of equity-linked financings involving common stock or securities convertible into or exercisable for common stock (common stock derivatives) including refinancings of current or future indebtedness involving the issuance of common stock or common stock derivatives, acquisition or strategic joint venture transactions involving the

Table of Contents

issuance of common stock or common stock derivatives, grants of common stock and common stock derivatives to our current and future employees and consultants, or for other general purposes that our Board of Directors may deem advisable from time to time.

In determining the size of the proposed authorized share increase, our Board of Directors considered a number of factors, including the factors set forth above, our historical issuances of shares and our potential future needs, including that over a number of years that we may potentially need additional shares in connection with one or more future equity transactions, acquisitions or other strategic transactions and future issuances under equity compensation plans.

Consequences of Failure to Obtain Stockholder Approval

Impact on Funding and Ability to Raise Capital

If the stockholders do not approve Proposal 1, we may also not have needed additional shares available for financing transactions or would be required to seek stockholder approval in connection with any such transaction, which could delay, prevent or otherwise have a material adverse effect on the transaction or our ability to raise capital and may cause the loss of significant business opportunities. Any of the foregoing outcomes could adversely affect our financial performance, growth and ability to continue our operations. In addition, our failure to obtain the approval of our stockholders for this Proposal 1 and fulfill our obligations to the investors as described in the purchase agreements pursuant to which investors purchased any of the Outstanding Warrants could adversely affect our ability to raise capital in the future and have a detrimental impact on our capital raising efforts. It is also possible that investors or potential new investors may be unwilling to participate in such future transactions. The exercise of Outstanding Warrants for cash provides the Company with an additional funding source, which we will forego if there are insufficient authorized shares for the exercise of the Outstanding Warrants.

Contractual Obligations Pursuant to the Outstanding Warrants

Please see the discussion under **Reasons for the Proposed Increase in Number of Authorized Shares of Common Stock** Contractual Obligations Pursuant to the Outstanding Warrants.

Principal Effects of Increase in Number of Authorized Shares of Common Stock

If stockholders approve this Proposal 1, the additional authorized common stock will have rights identical to the currently outstanding shares of our common stock. The proposed amendment will not affect the par value of the common stock, which will remain at \$0.01 per share. Approval of this Proposal 1 and issuance of the additional authorized shares of common stock would not affect the rights of the holders of currently outstanding shares of our common stock, except for effects incidental to increasing the number of shares of our common stock outstanding, such as dilution of any earnings per share and voting rights of current holders of common stock. Future issuance of common stock or securities convertible into our common stock could have a dilutive effect on the earnings per share, book value per share, voting power and percentage interest of holdings of current stockholders.

The proposed increase in the number of authorized shares of common stock will not have any immediate effect on the rights of our existing stockholders. However, our Board of Directors will have the authority to issue the additional shares of common stock without requiring future stockholder approval of such issuances, except as may be required by applicable law or rules of any stock exchange on which our securities may be listed. Stockholders do not have preemptive rights to subscribe to additional securities that we may issue, which means that current stockholders do not have a prior right thereunder to purchase any new issue of common stock, or securities that are convertible into

common stock, in order to maintain their proportionate ownership interests in the Company. The issuance of additional shares of common stock may decrease the relative percentage of equity

Table of Contents

ownership of our existing stockholders, thereby diluting the voting power of their common stock. The perception that there might be additional dilution to our existing stockholders may put pressure on our stock price. We can provide no assurance that we will be successful in amending our certificate of incorporation to increase the number of shares of common stock that are available for issuance, or that the Authorized Shares Increase Amendment will not have an adverse effect on our stock price.

If stockholders approve this Proposal 1, then we will have sufficient shares for the exercise of the Outstanding Warrants, which, if the Outstanding Warrants are exercised, will be a source of additional funding to us via payment of the warrant exercise price.

Rights of Additional Authorized Shares

The additional authorized shares of common stock, if and when issued, would be part of the existing class of common stock and would have the same rights and privileges as the shares of common stock presently outstanding. Our stockholders do not have preemptive rights with respect to our common stock. Accordingly, should our Board of Directors elect to issue additional shares of our common stock, existing stockholders would not have any preferential rights to purchase the shares.

Effectiveness of the Authorized Shares Amendment

If the Authorized Shares Increase Amendment is approved by our stockholders, it will become effective upon the acceptance by the Secretary of State of the State of Delaware of the filing of the Authorized Shares Increase Amendment. Such filing is expected to occur promptly after stockholder approval of this proposal. If this proposal is not approved, our certificate of incorporation would remain unchanged, and the number of authorized shares of common stock would remain 250,000,000. Other than as described herein, this proposed Authorized Shares Increase Amendment effects no other changes to our certificate of incorporation.

No Appraisal Rights

Our stockholders are not entitled to dissenters or appraisal rights under the DGCL or our certificate of incorporation and bylaws with respect to the proposed amendment to our certificate of incorporation to increase the number of authorized shares of common stock and we will not independently provide the stockholders with any such right if the increase is implemented.

Required Vote and Director Recommendation

The affirmative vote of the majority of the outstanding shares of common stock entitled to vote is required for approval of this proposal. Therefore, abstentions and broker non-votes will have the effect of a vote AGAINST this proposal. **OUR BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT YOU VOTE FOR PROPOSAL 1 TO APPROVE THE INCREASE IN THE AUTHORIZED SHARES OF COMMON STOCK.**

PROPOSAL 2:
AMENDMENT TO THE AMENDED AND RESTATED CERTIFICATE OF
INCORPORATION TO EFFECT A REVERSE STOCK SPLIT OF
THE COMPANY S OUTSTANDING COMMON STOCK

General

We are seeking stockholder approval for an amendment to our certificate of incorporation authorizing a reverse stock split of the issued and outstanding shares of our common stock, at a ratio within a range of fifty-to-one and not more than three-hundred-to-one (the reverse stock split), such ratio and the implementation and timing of such reverse stock split to be determined in the discretion of our Board of Directors. The form of the proposed amendment to our certificate of incorporation is attached to this proxy statement as Appendix B (the Reverse Stock Split Amendment).

On March 27, 2018, our Board of Directors approved the proposed reverse stock split and the Reverse Stock Split Amendment in order to effect the reverse stock split, subject to stockholder approval, and directed that the Reverse Stock Split Amendment be submitted to a vote of our stockholders at the special meeting.

We are proposing that our Board of Directors have the discretion to select the reverse stock split ratio from within a range between and including fifty-to-one and three hundred-to-one, rather than proposing that stockholders approve a specific ratio at this time, in order to give our Board of Directors the flexibility to implement a reverse stock split at a ratio that reflects the Board of Directors' then-current assessment of factors including:

the minimum price per share requirements of the New York Stock Exchange (the NYSE), the NYSE American, the Nasdaq Capital Market, the Nasdaq Global Market, or the Nasdaq Global Select Market;

the historical trading price and trading volume of our common stock;

the number of shares of our common stock outstanding;

business developments affecting us; and

prevailing general market and economic conditions.

If Proposal 2 is approved and our Board of Directors decides to implement a reverse stock split, we will file the Reverse Stock Split Amendment with the Secretary of State of the State of Delaware and the reverse stock split will be effective when it is filed with the Secretary of State of the State of Delaware, or such later time as is chosen by the Board of Directors and set forth in the Reverse Stock Split Amendment. Except for adjustments that may result from the treatment of fractional shares as described below, each of our stockholders will hold the same percentage of our outstanding common stock immediately following the reverse stock split as such stockholder holds immediately prior to the reverse stock split.

Reasons for the Reverse Stock Split

Our Board of Directors believes that the reverse stock split, if implemented, would have the effect of increasing the price of our common stock so that we can meet the price criteria for listing on a national stock exchange on which our securities may be listed.

Our common stock was formerly publicly traded and listed on the NYSE under the symbol BIOA. On February 8, 2018, the NYSE notified us that it had suspended trading in our common stock, effective immediately, and had commenced proceedings to delist our common stock from the NYSE. The NYSE took this action when the trading price of our common stock decreased to below \$0.16 per share on February 8, 2018. The NYSE, in interpreting the continued listing standards under Section 802.01D of the NYSE's Listed Company Manual, determined that a trading price of below \$0.16 per share was abnormally low and, therefore, was

Table of Contents

cause for suspension of trading and delisting from the NYSE. On February 9, 2018, our common stock started to trade on the OTC Pink Sheets Market. The NYSE's application to the SEC to delist our common stock became effective on February 27, 2018.

We can provide no assurance that we can or will attempt to obtain or maintain a listing on a national stock exchange or market, or that our common stock will commence trading on such exchange or market (or, if commenced, continue to trade on such exchange or market), whether broker-dealers will continue to provide public quotes of our common stock on this market, whether the trading volume of our common stock will be sufficient to provide for a liquid trading market for our common stock or whether quotes for our common stock may be blocked by such exchange or market in the future. Although we expect that the reverse stock split will result in an increase in the market price of our common stock, the reverse stock split may not result in a permanent increase in the market price of our common stock, which is dependent on many factors, including general economic, market and industry conditions and other factors detailed from time to time in the reports we filed with the SEC.

Certain Risks Associated with the Reverse Stock Split

Reducing the number of outstanding shares of common stock through the reverse stock split is intended, absent other factors, to increase the per share market price of our common stock. However, other factors, including our financial results, market conditions and the market perception of our business could adversely affect the market price of our common stock. As a result, there can be no assurance that the reverse stock split, if completed, will result in the intended benefits described above, that the market price of our common stock will increase following the reverse stock split or that the market price of our common stock will not decrease in the future. Additionally, we cannot assure you that the market price of our common stock after a reverse stock split will increase in proportion to the reduction in the number of shares of our common stock outstanding before the reverse stock split. Accordingly, the total market capitalization of our common stock after the reverse stock split may be lower than the total market capitalization before the reverse stock split. If the reverse stock split is effectuated, the liquidity of our common stock could be adversely affected by the reduced number of shares that would be outstanding after the reverse stock split.

There can be no assurance that if we obtain a re-listing on a national stock exchange, the market price per new share of our common stock after the reverse stock split will remain unchanged or increase in proportion to the reduction in the number of old shares of our common stock outstanding before the reverse stock split. We are aware that in many cases, the market price of a company's shares declines after a reverse stock split is implemented.

Accordingly, the total market capitalization of our common stock after the reverse stock split, when and if implemented, may be lower than the total market capitalization before the reverse stock split. Moreover, in the future, the market price of our common stock following the reverse stock split if we obtain a re-listing may not exceed or remain higher than the market price prior to the reverse stock split.

Further, the liquidity of our capital stock may be harmed by the proposed reverse stock split given the reduced number of shares that will be outstanding after the reverse stock split, particularly if we are not able to obtain re-listing, and, if we do obtain re-listing, particularly if the stock price does not remain increased as a result of the reverse stock split. In addition, the proposed reverse stock split may increase the number of stockholders who own odd lots (less than 100 shares) of our common stock, creating the potential for such stockholders to experience an increase in the cost of selling their shares and greater difficulty effecting sales. If we effect the reverse stock split, the resulting per-share market price may not attract institutional investors and may not satisfy the investing guidelines of such investors and, consequently, the trading liquidity of our common stock may not improve.

While our Board of Directors proposes the reverse stock split to enable us to bring the price of our common stock up such that we are able to obtain a re-listing on a national exchange or market, there is no guarantee that the

Table of Contents

price of our common stock will not decrease in the future, or that for any other reason our common stock will not remain in compliance with such trading market's listing standards.

Potential Effects of the Proposed Reverse Stock Split***General***

If this proposal is approved and the reverse stock split is effected, the reverse stock split will be realized simultaneously and in the same ratio for all of our issued and outstanding shares of common stock. The immediate effect of the reverse stock split would be to reduce the number of shares of our common stock outstanding and to increase the per-share price of our common stock. Following the reverse stock split, our common stock would continue to be listed on OTC Pink Sheets Market, although it would receive a new CUSIP number.

However, we cannot predict the effect of any reverse stock split upon the price of our common stock over an extended period, and in many cases, the market value of a company's common stock following a reverse stock split declines because of variables outside of a company's control, including market volatility, investor response to the news of a reverse stock split and the general economic environment. We cannot assure you that if we re-list and effect the reverse stock split, that the trading price of our common stock will rise in inverse proportion to the reduction in the number of shares of our common stock outstanding as a result of the reverse stock split. Also, we cannot assure you that the reverse stock split would lead to a sustained increase in the trading price of our common stock. The trading price of our common stock may change due to a variety of other factors, including our operating results and other factors related to our business and general market conditions. You should also keep in mind that the implementation of a reverse stock split does not have an effect on the actual or intrinsic value of our business or a stockholder's proportional ownership in our Company. However, should the overall value of our common stock decline after the proposed reverse stock split, then the actual or intrinsic value of the shares of our common stock held by you will also proportionately decrease as a result of the overall decline in value.

If our Board of Directors, in its discretion, elects to effect the reverse stock split, we may reduce the authorized number of shares of common stock but are under no obligation to do so. Such a reduction, if implemented, may not be proportionate to the reverse stock split ratio.

Examples of Potential Reverse Stock Split at Various Ratios

The table below provides examples of reverse stock splits at various ratios up to three hundred-to-one, in each case without giving effect to the treatment of fractional shares. If we implement the reverse stock split, the actual number of shares outstanding after giving effect to the reverse stock split will depend on the actual ratio that is determined by our Board of Directors in accordance with the Reverse Stock Split Amendment.

Shares Outstanding at March 14, 2018	Reverse Stock Split Ratio	Shares Outstanding After Reverse Stock Split	Reduction in Shares Outstanding

The resulting decrease in the number of shares of our common stock outstanding could potentially adversely affect the liquidity of our common stock.

Table of Contents

Effects on Ownership by Individual Stockholders

If we implement the reverse stock split, the number of shares of our common stock held by each stockholder would be reduced by multiplying the number of shares held immediately before the reverse stock split by the appropriate ratio and then rounding down to the nearest whole share. We would pay cash to each stockholder in lieu of any fractional interest in a share to which each stockholder would otherwise be entitled as a result of the reverse stock split, as described in further detail below. The reverse stock split would not affect any stockholder's percentage ownership interest in our Company or proportionate voting power, except to the extent that interests in fractional shares would be paid in cash.

Effect on Stock Options and Warrants

In addition, as a result of the reverse stock split, we would adjust all outstanding shares of any stock options and warrants entitling the holders to purchase shares of our common stock, in each case as required by the terms of these securities. In particular, with respect to the 2008 Plan and the 2013 Plan and awards outstanding thereunder, among other effects, appropriate or proportionate adjustments would be made to: (i) the maximum numbers of shares reserved for issuance under the two plans, (ii) the number of stock options or stock appreciation rights that can be granted to any one individual grantee and the maximum number of shares that may be granted under a performance-based award, (iii) the number and kind of shares subject to any then-outstanding awards, and (iv) the exercise price for each share subject to any then outstanding stock options and stock appreciation rights, without changing the aggregate exercise price. Pursuant to the terms of the Outstanding Warrants, following the reverse stock split, the exercise price (without changing the aggregate exercise price) and the number of shares issuable upon exercise of the warrants will be adjusted as more fully described in the applicable warrant. The reverse stock split would not otherwise affect any of the rights currently accruing to holders of our common stock, or options or warrants exercisable for our common stock.

Other Effects on Issued and Outstanding Shares

If we implement the reverse stock split, the rights pertaining to the issued and outstanding shares of our common stock would be unchanged after the reverse stock split. Each share of our common stock issued following the reverse stock split would be fully paid and non-assessable.

Reservation of Right to Abandon the Proposed Amendment to our Amended and Restated Certificate of Incorporation

Our Board of Directors reserves the right not to file the Reverse Stock Split Amendment to our certificate of incorporation without further action by our stockholders at any time before the effectiveness of the filing of the amendment with the Secretary of State of the State of Delaware, even if the authority to effect the Reverse Stock Split Amendment is approved by our stockholders at the special meeting. By voting in favor of the Reverse Stock Split Amendment, you are expressly also authorizing our Board of Directors to delay, not proceed with, and abandon, the proposed Amendment if it should so decide, in its sole discretion, that such action is in the best interests of the Company and its stockholders.

Procedure for Effecting the Proposed Reverse Stock Split and Exchange of Stock Certificates

If stockholders approve this proposal and our Board of Directors does not otherwise abandon the Reverse Stock Split Amendment contemplating the reverse stock split, we will file with the Delaware Secretary of State a Certificate of Amendment to our certificate of incorporation, in the form attached to this proxy statement as [Appendix B](#). The

reverse stock split will become effective at the time and on the date of filing of, or at such later time as is specified in, the Reverse Stock Split Amendment, which we refer to as the effective time. Beginning at the effective time, each certificate representing shares of common stock will be deemed for all corporate purposes to evidence ownership of the number of whole shares into which the shares previously represented by the certificate were combined pursuant to the reverse stock split.

Table of Contents

Upon the effectuation of the reverse stock split, we intend to treat stockholders holding our common stock in street name, through a bank, broker or other nominee, in the same manner as registered stockholders whose shares are registered in their names. Banks, brokers or other nominees will be instructed to effect the reverse stock split for their beneficial holders holding our common stock in street name. However, these banks, brokers or other nominees may have different procedures than registered stockholders for processing the reverse stock split. If you hold your shares with a bank, broker or other nominee and if you have any questions in this regard, we encourage you to contact your nominee.

Following the reverse stock split, stockholders holding physical certificates must exchange those certificates for new certificates and a cash payment in lieu of any fractional shares.

Computershare will advise registered stockholders of the procedures to be followed to exchange certificates in a letter of transmittal to be sent to stockholders. No new certificates will be issued to a stockholder until the stockholder has surrendered the stockholder's outstanding certificate(s), together with the properly completed and executed letter of transmittal, to Computershare. Any old shares submitted for transfer, whether pursuant to a sale, other disposition or otherwise, will automatically be exchanged for new shares. **Stockholders should not destroy any stock certificate(s) and should not submit any certificate(s) until requested to do so.**

No Appraisal Rights

No appraisal rights are available under the General Corporation Law of the State of Delaware or under our certificate of incorporation, or our bylaws with respect to the reverse stock split. There may exist other rights or actions under state law for stockholders who are aggrieved by reverse stock splits generally.

Accounting Consequences

The par value of our common stock would remain unchanged at \$0.01 per share after the reverse stock split. Also, our capital account would remain unchanged, and we do not anticipate that any other accounting consequences would arise as a result of the reverse stock split.

No Going Private Transaction

Notwithstanding the decrease in the number of outstanding shares following the proposed reverse stock split, our Board of Directors does not intend for this transaction to be the first step in a going private transaction within the meaning of Rule 13e-3 of the Exchange Act.

Potential Anti-Takeover Effect

Although the relative increase in our authorized but unissued shares of common stock could potentially deter takeovers, including takeovers that our Board of Directors determines are not in the best interest of our stockholders, in that additional shares could be issued (within the limits imposed by applicable law) in one or more transactions that could make a change in control or takeover more difficult, the reverse stock split proposal is not being proposed in response to any effort of which we are aware to accumulate shares of our common stock or obtain control of the Company, nor is it part of a plan by management to recommend a series of similar amendments to our Board of Directors and stockholders. Other than the reverse stock split proposal, our Board of Directors does not currently contemplate recommending the adoption of any other actions that could be construed to affect the ability of third parties to take over or change control of the Company.

Material U.S. Federal Income Tax Considerations Related to the Reverse Stock Split

The following discussion summarizes certain material U.S. federal income tax considerations relating to the participation in the reverse stock split by a U.S. holder (as defined below). Tax consequences to holders other

than U.S. holders are not addressed. This discussion is based on the provisions of the U.S. Internal Revenue Code of 1986, as amended, or the Code, final, temporary and proposed U.S. Treasury regulations promulgated thereunder and current administrative rulings and judicial decisions, all as in effect as of the date hereof. All of these authorities may be subject to differing interpretations or repealed, revoked or modified, possibly with retroactive effect, which could materially alter the tax consequences set forth herein.

There can be no assurance that the IRS will not take a contrary position to the tax consequences described herein or that such position will not be sustained by a court. No ruling from the IRS has been obtained with respect to the U.S. federal income tax consequences of the reverse stock split.

This discussion does not address all aspects of U.S. federal income taxation that may be relevant to such holders in light of their particular circumstances or to holders that may be subject to special tax rules, including, without limitation: (i) holders subject to the alternative minimum tax; (ii) banks, insurance companies, or other financial institutions; (iii) tax-exempt organizations; (iv) dealers in securities or commodities; (v) regulated investment companies or real estate investment trusts; (vi) partnerships (or other flow-through entities for U.S. federal income tax purposes and their partners or members); (vii) traders in securities that elect to use a mark-to-market method of accounting for their securities holdings; (viii) U.S. Holders (as defined below) whose functional currency is not the U.S. dollar; (ix) persons holding common stock as a position in a hedging transaction, straddle, conversion transaction or other risk reduction transaction; (x) persons who acquire shares of common stock in connection with employment or other performance of services; or (xi) U.S. expatriates. If a partnership (including any entity or arrangement treated as a partnership for U.S. federal income tax purposes) holds shares of our common stock, the tax treatment of a holder that is a partner in the partnership generally will depend upon the status of the partner and the activities of the partnership.

This discussion is for general information only and is not tax advice. All stockholders should consult their own tax advisors with respect to the U.S. federal, state, local and non-U.S. tax consequences of the reverse stock split.

For purposes of the discussion below, a U.S. Holder is a beneficial owner of shares of our common stock that for U.S. federal income tax purposes is: (1) an individual citizen or resident of the United States; (2) a corporation (including any entity treated as a corporation for U.S. federal income tax purposes) created or organized in or under the laws of the United States, any state or political subdivision thereof; (3) an estate the income of which is subject to U.S. federal income taxation regardless of its source; or (4) a trust, the administration of which is subject to the primary supervision of a U.S. court and as to which one or more U.S. persons have the authority to control all substantial decisions of the trust, or that has a valid election in effect to be treated as a U.S. person. A non-U.S. holder is any beneficial owner of shares of common stock that is not a U.S. holder.

The reverse stock split should be treated as a recapitalization for U.S. federal income tax purposes, and subject to the limitations and qualifications set forth in this discussion and the discussion below regarding the treatment of cash paid in lieu of fractional shares, the following U.S. federal income tax consequences should result from the reverse stock split:

a U.S. holder should not recognize gain or loss on the deemed exchange of shares pursuant to the reverse stock split;

the aggregate tax basis of the shares deemed received by a U.S. holder in the reverse stock split should be equal to the aggregate tax basis of the shares deemed surrendered in exchange therefor (excluding any portion of such basis that is allocated to any fractional share of our shares); and

the holding period of the shares received by a U.S. holder in the reverse stock split should include the holding period of the shares deemed surrendered therefor.

Treasury regulations promulgated under the Code provide detailed rules for allocating the tax basis and holding period of the shares of our shares surrendered to the shares of our share received pursuant to the reverse stock

split. Holders of shares of our shares acquired on different dates and at different prices should consult their tax advisors regarding the allocation of the tax basis and holding period of such shares.

A U.S. holder who receives cash in lieu of fractional shares in the reverse stock split should recognize capital gain or loss equal to the difference between the amount of the cash received in lieu of fractional shares and the portion of the stockholder's adjusted tax basis allocable to the fractional shares unless the distribution of cash is treated as having the effect of a distribution of dividend, in which case the gain will be treated as dividend income to the extent of our current accumulated earnings and profits as calculated for U.S. federal income tax purposes. Stockholders are urged to consult their own tax advisors to determine whether a stockholder's receipt of cash has the effect of a distribution of a dividend.

Information returns generally will be required to be filed with the IRS with respect to the receipt of cash in lieu of a fractional share of our common stock pursuant to the reverse stock split in the case of certain U.S. Holders. In addition, U.S. Holders may be subject to a backup withholding tax (at the current applicable rate of 24%) on the payment of such cash if they do not provide their taxpayer identification numbers (in the case of individuals, their social security number) in the manner required or otherwise fail to comply with applicable backup withholding tax rules. Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules may be refunded or allowed as a credit against the U.S. Holder's federal income tax liability, if any, provided the required information is timely furnished to the IRS.

STOCKHOLDERS PROPOSALS

Stockholder Proposals to be Brought Before the Special Meeting

Pursuant to our bylaws, because this is a special meeting of stockholders and is not being held in lieu of an annual meeting of stockholders, our stockholders may not propose business to be brought at the special meeting.

Stockholder Proposals to be Brought Before the Annual Meeting

Our bylaws provide that, for nominations of persons for election to our Board of Directors or other proposals to be considered at an annual meeting of stockholders, a stockholder must give written notice to our Secretary at BioAmber Inc., 1250 Rene Levesque West, Suite 4310, Montreal, Quebec, Canada H3B4W8, not later than the close of business ninety days, nor earlier than the close of business 120 days, prior to the first anniversary of the date of the preceding year's annual meeting. However, the bylaws also provide that in the event the date of the annual meeting is more than thirty days before or more than sixty days after such anniversary date, notice must be delivered not later than the close of business on the later of the ninetieth day prior to such annual meeting or the tenth day following the day on which public announcement of the date of such meeting is first made. Any nomination must include all information relating to the nominee that is required to be disclosed in solicitations of proxies for election of directors in election contests or is otherwise required under Regulation 14A of the Exchange Act, the person's written consent to be named in the proxy statement and to serve as a director if elected and such information as we might reasonably require to determine the eligibility of the person to serve as a director. As to other business, the notice must include a brief description of the business desired to be brought before the meeting, the reasons for conducting such business at the meeting, and any material interest of such stockholder (and the beneficial owner) in the proposal. The proposal must be a proper subject for stockholder action. In addition, to make a nomination or proposal, the stockholder must be of record at the time the notice is made and must provide certain information regarding itself (and the beneficial owner), including the name and address, as they appear on our books, of the stockholder proposing such business, the number of shares of our capital stock which are, directly or indirectly, owned beneficially or of record by the stockholder proposing such business or its affiliates or associates (as defined in Rule 12b-2 promulgated under the Exchange Act) and certain additional information.

The advance notice requirements for the Annual Meeting, which is the first annual meeting following the initial public offering of our common stock, are as follows: a stockholder's notice shall be timely if delivered to our Secretary at the address set forth above not later than the close of business on the later of the ninetieth day prior to the scheduled date of the Annual Meeting or the tenth day following the day on which public announcement of the date of the Annual Meeting is first made or sent by us.

Requirements for Stockholder Proposals to be Considered for Inclusion in the Company's Proxy Materials

In addition to the requirements stated above, any stockholder who wishes to submit a proposal for inclusion in our proxy materials must comply with Rule 14a-8 promulgated under the Exchange Act. For such proposals to be included in our proxy materials relating to our 2018 annual meeting of stockholders, all applicable requirements of Rule 14a-8 must be satisfied and we would have had to have received such proposals no later than November 30, 2017. Such proposals must have been delivered to our Secretary, c/o BioAmber Inc., 1250 Rene Levesque West, Suite 4310, Montreal, Quebec, Canada H3B4W8.

(a) Article FOURTH of the Charter is hereby amended by changing the first sentence so that, as amended, it shall read as follows:

The aggregate number of shares of all classes of capital stock which the Corporation shall have authority to issue is 60,000,000 shares of capital stock, consisting of 50,000,000 shares designated as Common Stock, \$0.01 par value per share, and 10,000,000 shares of Preferred Stock, \$0.01 par value per share.
