The accompanying financial statements have been prepared in conformity with principles of accounting applicable to a going concern, which contemplates the realization of assets and the liquidation of liabilities in the normal course of business. The Company plans to increase cash flows and take steps towards achieving profitable operations through the sale or closure of unprofitable operations, and through the merger with or acquisition of profitable operations.

NOTE 7 - COMMITMENTS AND CONTINGENCIES

General

The Company's operations for the 1st Quarter of 2005 were primarily affected through its subsidiaries, Net2Auction, Inc., and Net2Auction Corporation, RoboServer Systems Corp., Self-Serve Technologies, Inc., and through its 40% ownership of 449 and WDHQ. As of March 31, 2005, the Company owned 51% of Net2Auction, Inc., which owns 100% of Net2Auction Corporation. Net2Auction, Inc. is publicly traded on the NQB Pink Sheets, under the symbol of NAUC. As of March 31, 2005, we owned approximately 47% of RoboServer, while

Edgar Filing: AMERIRESOURCE TECHNOLOGIES INC - Form 10QSB

Roboserver wholly owns Self-Serve Technologies. Roboserver is publicly traded on the NQB Pink Sheets under the symbol RBSY.

Net2Auction, Inc. ("Net2Auction") has become a leading operator of online auction drop-off locations that allow people who cannot or do not want to sell online by developing relationships through partnership agreements with independently owned and/or franchised pack and ship centers. Currently, Net2Auction operates twenty-eight (28) drop-off locations, with those locations being awarded a customer satisfaction rating exceeding 99% with a goal to have fifty (50) locations by this calendar year end. Net2Auction's relationship with EBay allows Net2Auction to reach millions of potential buyers for our customers' unwanted goods. Management hopes Net2Auction's operations and revenues will begin to generate meaningful revenue prior to June 30, 2005. To learn more see at www.net2auction.com.

The industries involving RoboServer's point-of-sale and self-serve technologies for the fast-food restaurants and industries, in general, are increasing rapidly. Business owners are seeking out self-serve technologies through a kiosk application that allows for a more efficient service being provided to the customers as well as a reduction of labor costs for the business owners. Management believes the market is expanding quickly, creating a huge demand for self-serve technologies through the kiosk application. The Company has received numerous inquires and held meetings with some of the top Ten Fast-Food Restaurant Chains in the USA regarding the self-serve technologies through the kiosk application. Self-Serve Technologies, Inc. is a wholly-owned subsidiary of RoboServer Systems Corp. and is the entity that holds the POS software application and the Self-Serve technologies used in our kiosk applications, trademarks, copyrights, and all intellectual rights of the assets. Self-Serve is the subsidiary that has performed all of the research and development and modifications since the POS software and self-serve technologies were acquired on or about May 15, 2004. Management hopes RoboServer's operations and revenues will begin to generate meaningful revenue prior to September 30, 2005. To learn more see at www.roboservercorp.com.

8

WEST TEXAS REAL ESTATE AND RESOURCES, INC.

West Texas did not have any business operations in the first quarter of 2005.

The Company has made positive strides in its desire to become profitable with the acquisitions of Net2Auction, Inc. on or about December 9, 2004, and RoboServer Systems Corp., on or about August 26, 2004, and continues to search for viable business operations to acquire or merge with in order to increase the Company's revenues, asset base and to achieve profitability. The Company made a significant reduction in its liabilities in the approximate amount of \$1,300,000 during the calendar year ending, December 31, 2004 or subsequent thereto when the President, Delmar Janovec and spouse exchanged principal and interest in the approximate amount of \$1,217,773 that was owed to them which had been loaned to the Company for operations over a time period of several years in exchange for restricted common stock. The Company also retired misc. debts that it had been carrying on the books which exceeded the State statues for collection when some of its former subsidiaries were either sold or shut down during the time frame of 1996 & 1997. The Company will continue to strive to attain consistent profitability through acquisitions of revenue producing businesses or divestitures of our current subsidiaries if we obtain an attractive offer from possible suitors.

Edgar Filing: AMERIRESOURCE TECHNOLOGIES INC - Form 10QSB

Results of Operations

The following discussion should be read in conjunction with the audited financial statements and notes thereto included in our annual report on Form 10-KSB for the fiscal year ended December 31, 2004, and should further be read in conjunction with the financial statements included in this report. Comparisons made between reporting periods herein are for the three-month period ended March 31, 2005 as compared to the same period in 2004.

Revenues for the first quarter ended March 31, 2005 decreased to \$2,785 from \$25,000 in revenues for the same period in 2004. The operating loss increased to \$407,891 as compared to \$253,984 in 2004.

9

The Company's net loss for the quarter ended March 31, 2005 increased significantly to a net loss of \$380,321 from a net loss of \$253,984 for the same period in 2004. This increase is due to an increase in administration expenses, research and development expenses, and in legal expenses. The Company's expenses for the first quarter ended March 31, 2005 as compared to the same period in 2004 are set forth below:

Expenses	2005	2004
General and Administrative	114,981	34,365
Consulting	163,201	172,750
Employee Salaries and Bonuses	25,000	25,000
Interest Expense	15,768	0
Legal and Professional	68,238	46,869
Total Expenses	407,891	278,984

The increase in these expenses for the first quarter of 2005 as related to the same period for 2004 is due mostly to the increased operations of its wholly-owned subsidiaries, RoboServer Systems Corp. and Net2Auction, Inc.

Liquidity and Capital Resources

The Company's net cash used in operating activities for the three-months ended March 31, 2005 decreased to \$10,882 from net cash provided by operations of \$18,769 for the same period in 2004. This decrease is mainly attributable to a decrease in non-cash services through the issuance of stock to \$200,390 for the first quarter of 2005 from \$241,369 for the first quarter of 2004, and an increase in notes receivable from \$6,371 for the three months ended March 31, 2004 to \$10,870 for the three months ended March 31, 2005.

There was \$ 0 in cash flow from investing activities for the first quarter of 2005 as was the case for the same period in 2004.

There was \$141,157 in cash flow from financing activities for the first quarter of 2005 as compared to \$17,813 for the same period in 2004.

The Company has relied upon its chief executive officer for its capital

Edgar Filing: AMERIRESOURCE TECHNOLOGIES INC - Form 10QSB

requirements and liquidity. The Company's recurring losses, lack of cash flow and lack of cash on hand raise substantial doubt about the Company's ability to continue as a going concern. Management's plans with respect to these matters include raising additional working capital through equity or debt financing and acquisitions of ongoing concerns, which generate profits, ultimately allowing the Company to achieve consistent profitable operations. The accompanying financial statements do not include any adjustments that might be necessary should the Company be unable to continue as a going concern.

10

ITEM 3. CONTROLS AND PROCEDURES

Within the 90 days prior to the date of this report, the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and the person performing functions similar to that of a Principal Financial Officer of the Company, of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to Exchange Act Rule 13a-15. Based upon the evaluation, the Company's Chief Executive Officer and the person performing functions similar to that of a Principal Financial Officer of the Company concluded that the Company's disclosure controls are effective in timely alerting them to material information relating to the Company (including its consolidated subsidiaries) required to be included in the Company's periodic SEC filings. There have been no significant changes in the Company's internal controls or in other factors which could significantly affect internal controls subsequent to the date the Company conducted its evaluation.
