MEDIA RELEASE

Trading statement for FY 2018

Johannesburg, 6 February 2019: Gold Fields Limited (Gold Fields) (JSE, NYSE: GFI) advises that headline earnings per share for the 12 months ended 31 December 2018 (FY 2018) is expected to range from US\$0.05-0.09 per share, 65-81% (US\$0.17-0.21 per share) lower than the headline earnings of US\$0.26 per share reported for the 12 months ended 31 December 2017 (FY 2017).

Basic loss per share for FY 2018 is expected to range from US\$0.40-0.44 per share, 1900-2100% (US\$0.38-0.42 per share) higher than the basic loss of US\$0.02 per share reported for FY 2017.

Normalised earnings per share for FY 2018 is expected to range from US\$0.01-0.05 per share, 74-95% (US\$0.14-0.18 per share) lower than the normalised earnings of US\$0.19 per share reported for FY 2017.

The basic loss for FY 2018 was higher than FY 2017 mainly due to lower revenue and higher non-recurring costs, partially offset by lower cost of sales.

Revenue in FY 2018 was lower than in FY 2017 primarily due to lower gold sold at South Deep as a result of the restructuring and industrial action in Q4 2018, as well as the sale of Darlot in 2017.

The rest of the operations within the portfolio exceeded guidance for FY 2018.

Cost of sales in FY 2018 was lower than in FY 2017 mainly due to lower amortisation primarily at Cerro Corona and South Deep.

Non-recurring costs in FY 2018 were higher than in FY 2017 mainly due to:

—
—
—

Higher impairment charge at South Deep as reported in H1 2018. There was no additional impairment at year-end;

Higher retrenchment costs in FY 2018 compared to FY 2017, mainly at Tarkwa and South Deep;

Higher loss on sale of inventory and assets in FY 2018 compared to FY 2017, mainly at Tarkwa due to the conversion to contractor mining in FY 2018.

This was partially offset by:

—
—

A tax credit as a result of the South Deep Tax Dispute Settlement in FY 2018;

An accounting credit as a result of the acquisition of Asanko in FY 2018.

-2-

For Q4 2018, attributable gold equivalent production is expected to be 509koz (Q3 2018: 533koz), with all-in sustaining costs (AISC) of US\$1,016/oz (Q3 2018: US\$977/oz) and all-in costs (AIC) of US\$1,213/oz (Q3 2018: US\$1,140/oz).

Attributable gold equivalent production for 2018 is expected to be 2.04Moz (FY17: 2.16Moz), exceeding revised guidance (provided in November 2018) of 2.00Moz. Excluding Asanko, attributable production for 2018 was 96% of original guidance (provided in February 2018), almost exclusively due to the impact of the lower production at South Deep, a significant proportion of which is attributable to the strike. AISC and AIC are expected to be US\$981/oz (FY17: US\$955/oz) and US\$1,173/oz (FY17: US\$1,088/oz), respectively, both below the lower end of the guidance range provided in February 2018 AISC: US\$990-1,010/oz and AIC: US\$1,190-1,210/oz.

The financial information on which this trading statement is based has not been reviewed, and reported Gold Fields will release FY 2018 financial results on Friday, 15 February 2019.
