**ITEM 1.01. Entry into a Material Definitive Agreement**

On May 7, 2012, CalAmp Corp. (the "Company") through its wholly-owned subsidiary, CalAmp Wireless Networks Corporation, entered into a five-year supply agreement (the "Supply Agreement") to provide at least \$25 million of fleet tracking products to Navman Wireless, a privately held company ("Navman"). In conjunction with the Supply Agreement, the Company also entered into an asset purchase agreement on May 7, 2012 with Navman (the "Asset Purchase Agreement") as described in Item 2.01 below. The information relating to the Supply Agreement and the Asset Purchase Agreement set forth under Item 2.01 of this Current Report on Form 8-K is incorporated by reference into this Item 1.01.

In conjunction with the foregoing, on May 7, 2012, the Company entered into the Sixth Amendment to its Loan and Security Agreement with Square 1 Bank (the "Sixth Amendment"), in which the bank consented to the Company entering into the Asset Purchase Agreement with Navman. The Sixth Amendment also establishes a minimum level of earnings before interest, income taxes, depreciation, amortization and other noncash charges (commonly known as EBITDA or adjusted EBITDA) and debt coverage ratio that the Company is required to maintain through the end of fiscal 2013. The summary with respect to the Sixth Amendment does not purport to be complete and is qualified in its entirety by reference to the actual text of the Sixth Amendment, which is filed as Exhibit 10.2 to this Current Report on Form 8-K and is incorporated herein by reference.

**ITEM 2.01. Completion of Acquisition or Disposition of Assets**

On May 7, 2012, the Company entered into a five-year supply agreement to provide at least \$25 million of fleet tracking products to Navman. In conjunction with the Supply Agreement, the Company acquired certain products and technologies from Navman and established a research and development center in Auckland, New Zealand with an initial staff of 14 employees who transferred from Navman.

The purchase price for the products and technologies acquired from Navman was approximately \$6 million, comprised of \$1 million paid in cash at closing, a \$4 million non-interest bearing promissory note that is payable over five years in the form of a 15% rebate on certain products sold by CalAmp to Navman under the Supply Agreement, and contingent consideration in the form of royalties in the estimated amount of \$1 million for mobile display terminal product sales by CalAmp during the first three years.

The unpaid balance of the promissory note would become immediately due and payable upon any termination of the Supply Agreement by the Company before the end of its five-year term (other than as a result of an uncured breach of the Supply Agreement by Navman)(an "Acceleration Event"), except that in the case of such acceleration the note balance would be subordinated to the Company's bank debt pursuant to the provisions of the Debt Subordination Agreement Upon Acceleration Event Only. In the absence of an Acceleration Event, the promissory note is payable solely in the form of a rebate on products sold by CalAmp to Navman under the Supply Agreement. After all rebates have been applied to pay down the note balance, and assuming that an Acceleration Event has not occurred, any unpaid balance remaining on the promissory note would be forgiven at the later of May 7, 2017 or the final date to which the Supply Agreement is extended pursuant to a Force Majeure Event in accordance with Section 4.2 of the Supply Agreement. The Debt Subordination Agreement Upon Acceleration Event Only is filed as Exhibit 10.3 to this Current Report on Form 8-K and is incorporated herein by reference.

The Company had no material relationship with Navman, other than in respect of these agreements.
