**Petrobras seals acquisition of Termoceará thermal generator**

---

(Rio de Janeiro, June 17, 2005). PETRÓLEO BRASILEIRO S/A - PETROBRAS, [Bovespa: PETR3/PETR4, NYSE: PBR/PBRA, Latibex: XPBR/XPBRA], a Brazilian international energy company, announces that its Board of Directors has approved the financial terms required for the definitive transfer of the thermoelectric Power Plant Termoceará, located in the Pecém Industrial Complex, in the State of Ceará, to Petrobras.

The power plant has nominal capacity of 220 MW and is one of the three merchant plants with which Petrobras signed Consortium Contracts in 2001 and 2002, which included clauses establishing contingent liabilities for payment of taxes, rates and tariffs, operating costs and maintenance and capacity investments, in the event the plant was unable to generate sufficient revenues to cover these items.

The value of the operation to acquire the shares is US\$ 137 million including cash payments and debt assumptions. The ownership of the Power Plant will be entirely transferred to Petrobras. In compensation Petrobras will be exempt from any current contingency payments arising from the Consortium Contract that will be terminated and will enjoy all benefits arising from the operation of the Power Plant from the date of the signing of the definitive documentation.

The parties are in the final phase of the elaboration of the legal documents necessary for the definitive closing of the operation, which is predicted for the 22 June.

## FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
