FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q, contains both historical and forward-looking statements. We may, in some cases, use words such as "project," "predict," "believe," "anticipate," "plan," "expect," "estimate," "intend," "should," "would," "could," "potentially," "may," or other words that convey uncertainty of future events or outcomes to identify these forward-looking statements. Forward-looking statements in this Quarterly Report on Form 10-Q are subject to a number of risks and uncertainties, some of which are beyond our control, including, among other things:

- our ability to successfully operate our businesses on a combined basis, and to effectively integrate and improve future acquisitions;
- our ability to remove CGM and CGM's right to resign;
- our organizational structure, which may limit our ability to meet our dividend and distribution policy;
- our ability to service and comply with the terms of our indebtedness;
- our cash flow available for distribution and reinvestment and our ability to make distributions in the future to our shareholders;
- our ability to pay the management fee and profit allocation if and when due;
- our ability to make and finance future acquisitions;
- our ability to implement our acquisition and management strategies;
- the regulatory environment in which our businesses operate;
- trends in the industries in which our businesses operate;
- changes in general economic or business conditions or economic or demographic trends in the United States and other countries in which we have a presence, including changes in interest rates and inflation;
- environmental risks affecting the business or operations of our businesses;
- our and CGM's ability to retain or replace qualified employees of our businesses and CGM;
- costs and effects of legal and administrative proceedings, settlements, investigations and claims; and
- extraordinary or force majeure events affecting the business or operations of our businesses.

Our actual results, performance, prospects or opportunities could differ materially from those expressed in or implied by the forward-looking statements. Additional risks of which we are not currently aware or which we currently deem immaterial could also cause our actual results to differ.

In light of these risks, uncertainties and assumptions, you should not place undue reliance on any forward-looking statements. The forward-looking events discussed in this Quarterly Report on Form 10-Q may not occur. These forward-looking statements are made as of the date of this Quarterly Report on Form 10-Q. We undertake no obligation to publicly update or revise any forward-looking statements to reflect subsequent events or circumstances, whether as a result of new information, future events or otherwise, except as required by law.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

June 30, 2017

Note A — Organization and Business Operations

Compass Diversified Holdings, a Delaware statutory trust (the "Trust" or "Holdings"), was incorporated in Delaware on November 18, 2005. Compass Group Diversified Holdings, LLC, a Delaware limited liability company (the "Company" or "CODI"), was also formed on November 18, 2005 with equity interests which were subsequently reclassified as the "Allocation Interests". The Trust and the Company were formed to acquire and manage a group of small and middle-market businesses headquartered in North America. In accordance with the amended and restated Trust Agreement, dated as of December 6, 2016 (the "Trust Agreement"), the Trust is sole owner of 100% of the Trust Interests (as defined in the Company's amended and restated operating agreement, dated as of December 6, 2016 (as amended and restated, the "LLC Agreement")) of the Company and, pursuant to the LLC Agreement, the Company has, outstanding, the identical number of Trust Interests as the number of outstanding shares of the Trust. The Company is the operating entity with a board of directors and other corporate governance responsibilities, similar to that of a Delaware corporation.

The Company is a controlling owner of nine businesses, or reportable operating segments, at June 30, 2017. The segments are as follows: 5.11 Acquisition Corp. ("5.11" or "5.11 Tactical"), CBCP Acquisition Corp. ("Crosman"), The Ergo Baby Carrier, Inc. ("Ergobaby"), Liberty Safe and Security Products, Inc. ("Liberty Safe" or "Liberty"), Fresh Hemp Foods Ltd. ("Manitoba Harvest"), Compass AC Holdings, Inc. ("ACI" or "Advanced Circuits"), AMT Acquisition Corporation ("Arnold" or "Arnold Magnetics"), Clean Earth Holdings, Inc. ("Clean Earth"), and Sterno Products, LLC ("Sterno" or "Sterno Products"). Refer to Note E - "Operating Segment Data" for further discussion of the operating segments. Compass Group Management LLC, a Delaware limited liability company ("CGM" or the "Manager"), manages the day to day operations of the Company and oversees the management and operations of our businesses pursuant to a management services agreement ("MSA").

Note B - Presentation and Principles of Consolidation

The condensed consolidated financial statements for the three and six month periods ended June 30, 2017 and June 30, 2016, are unaudited, and in the opinion of management, contain all adjustments necessary for a fair presentation of the condensed consolidated financial statements. Such adjustments consist solely of normal recurring items. Interim results are not necessarily indicative of results for a full year or any subsequent interim period. The condensed consolidated financial statements and notes are prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP" or "GAAP") and presented as permitted by Form 10-Q and do not contain certain information included in the annual consolidated financial statements and accompanying notes of the Company. These interim condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and accompanying notes included in the Company's Annual Report on Form 10-K for the year ended December 31, 2016.

Seasonality

Earnings of certain of the Company's operating segments are seasonal in nature. Earnings from Liberty are typically lowest in the second quarter due to lower demand for safes at the onset of summer. Crosman typically has higher sales in the third and fourth quarter each year, reflecting the hunting and holiday seasons. Earnings from Clean Earth are typically lower during the winter months due to the limits on outdoor construction and development activity because of the colder weather in the Northeastern United States. Sterno Products typically has higher sales in the second and fourth quarter of each year, reflecting the outdoor summer and holiday seasons, respectively.

Consolidation

The condensed consolidated financial statements include the accounts of Holdings and all majority owned subsidiaries. All significant intercompany transactions and balances have been eliminated in consolidation.

Discontinued Operations

During the third quarter of 2016, the Company completed the sale of Tridien Medical, Inc. ("Tridien"). The results of operations of Tridien are reported as discontinued operations in the condensed consolidated statements of operations for the three and six months ended June 30, 2016. Refer to Note D - "Discontinued Operations" for additional

information. Unless otherwise indicated, the disclosures accompanying the condensed consolidated financial statements reflect the Company's continuing operations.

Recently Adopted Accounting Pronouncements

In January 2017, the FASB issued new accounting guidance to simplify the accounting for goodwill impairment. The guidance removes step two of the goodwill impairment test, which requires a hypothetical purchase price allocation. Under the new guidance, a goodwill impairment will now be the amount by which a reporting unit's carrying value exceeds its fair value, not

to exceed the carrying amount of goodwill. All other goodwill impairment guidance remains largely unchanged. Entities will continue to have the option to perform a qualitative test to determine if a quantitative test is necessary. The guidance is effective for fiscal years and interim periods within those years, after December 31, 2019, with early adoption permitted for any goodwill impairment tests performed after January 1, 2017 and will be applied prospectively. The Company adopted this guidance early, effective January 1, 2017, on a prospective basis, and will apply the guidance as necessary to annual and interim goodwill testing performed subsequent to January 1, 2017.

Recently Issued Accounting Pronouncements

In March 2017, the FASB issued new guidance that will require employers that sponsor defined benefit plans to present the service cost component of net periodic benefit cost in the same income statement line item as other employee compensation costs arising from services rendered during the period, and requires the other components of net periodic pension cost to be presented in the income statement separately from the service component cost and outside a subtotal of income from operations. The new guidance shall be applied retrospectively for the presentation of the service cost component and the other components of net periodic pension cost. The amended guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2017. The Company's Arnold business segment has a defined benefit plan covering substantially all of Arnold's employees at its Switzerland location. The adoption of this guidance is not expected to have a material impact upon our financial condition or results of operations.

In January 2017, the FASB issued new guidance that changes the definition of a business to assist entities in evaluating when a set of transferred assets and activities constitutes a business. The guidance requires an entity to evaluate if substantially all of the fair value of the gross assets acquired is concentrated in a single identifiable asset or group of similar identifiable assets. If so, the set of transferred asset and activities is not a business. The guidance also requires a business to include at least one substantive process and narrows the definition of outputs by more closely aligning it with how outputs are described in the new revenue recognition guidance. The new standard will be effective for fiscal years, and interim periods within those years, beginning after December 15, 2017. The adoption of this guidance is not expected to have a material impact upon our financial condition or results of operations.

In August 2016, the FASB issued an accounting standard update which updates the guidance as to how certain cash receipts and cash payments should be presented and classified within the statement of cash flows. The amended guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2017, with early adoption permitted, including adoption in an interim period. The adoption of this guidance is not expected to have a material impact on our consolidated financial statements.

In February 2016, the FASB issued an accounting standard update related to the accounting for leases which will require an entity to recognize right-of-use assets and lease liabilities on its balance sheet and disclose key information about leasing arrangements. The standard update offers specific accounting guidance for a lessee, a lessor and sale and leaseback transactions. Lessees and lessors are required to disclose qualitative and quantitative information about leasing arrangements to enable a user of financial statements to assess the amount, timing and uncertainty of cash flows arising from leases. For public companies, the new standard is effective for annual reporting periods beginning after December 15, 2018, including interim periods within that reporting period, and requires modified retrospective adoption, with early adoption permitted. Accordingly, this standard is effective for the Company on January 1, 2019. The Company is currently assessing the impact of the new standard on our consolidated financial statements.

In May 2014, the FASB issued a comprehensive new revenue recognition standard. The new standard outlines a new, single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance, including industry-specific guidance. The core principle of the revenue model is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. In addition, the standard requires disclosure of the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. The standard is designed to create greater comparability for financial statement users across industries, jurisdictions and capital markets and also requires enhanced disclosures. The new standard will be effective for the Company beginning January 1, 2018. The guidance permits two methods of adoption: retrospectively to each prior reporting period presented (full retrospective method), or retrospectively with the cumulative effect of initially applying the guidance recognized at the date of initial

application (the cumulative catch-up transition method). The Company currently anticipates adopting the standard using the cumulative catch-up transition method. The Company has commenced its initial assessment to evaluate the impact, if any, the new revenue standard will have on the Company's consolidated financial statements. During this initial assessment, the Company has identified certain differences that will likely have the most impact; however, the significance of any impact cannot be determined during this phase of the Company's implementation process. These differences relate to the new concepts of variable consideration, consideration payable and the focus on control to determine when and how revenue should be recognized (i.e. point in time versus over time). The Company expects to complete its initial assessment by the end of the third quarter of 2017 and finalize its implementation process prior to the adoption of the new revenue standard on January 1, 2018. The Company will also continue to monitor for any additional implementation

or other guidance that may be issued in 2017 with respect to the new revenue standard and adjust its assessment and implementation plans accordingly.

Note C — Acquisitions

Acquisition of Crosman

On June 2, 2017, CBCP Acquisition Corp. (the "Buyer"), a wholly owned subsidiary of the Company, entered into an equity purchase agreement pursuant to which it acquired all of the outstanding equity interests of Bullseye Acquisition Corporation, ("Bullseye"), the indirect owner of the equity interests of Crosman Corp. ("Crosman"). Crosman is a designer, manufacturer and marketer of airguns, archery products and related accessories. Headquartered in Bloomfield, New York, Crosman serves over 425 customers worldwide, including mass merchants, sporting goods retailers, online channels and distributors serving smaller specialty stores and international markets. Its diversified product portfolio includes the widely known Crosman, Benjamin and CenterPoint brands.

The Company made loans to, and purchased a 98.9% controlling interest in, Crosman Corp. The purchase price, including proceeds from noncontrolling interests and net of transaction costs, was approximately \$150.8 million. Crosman management invested in the transaction along with the Company, representing approximately 1.1% initial noncontrolling interest on a primary and fully diluted basis. The fair value of the noncontrolling interest was determined based on the enterprise value of the acquired entity multiplied by the ratio of the number of shares acquired by the minority holders to total shares. The transaction was accounted for as a business combination. CGM acted as an advisor to the Company in the acquisition and will continue to provide integration services during the first year of the Company's ownership of Crosman. CGM will receive integration service fees of \$1.5 million payable quarterly over a twelve month period as services are rendered beginning in the quarter ended September 30, 2017. The Company incurred \$1.4 million of transaction costs in conjunction with the Crosman acquisition, which was included in selling, general and administrative expense in the consolidated statements of income during the second quarter of 2017.

The results of operations of Crosman have been included in the consolidated results of operations since the date of acquisition. Crosman's results of operations are reported as a separate operating segment as a branded consumer business. The table below provides the preliminary recording of assets acquired and liabilities assumed as of the acquisition date. The preliminary purchase price allocation has not been completed and the excess of purchase price over net assets acquired has been recorded as goodwill. The Company expects to have a provisional recording of the purchase price allocation in the September 30, 2017 financial statements.

Goodwill is calculated as the excess of the consideration transferred over the net assets acquired and is not expected to be deductible for income tax purposes. The Company expects to complete the preliminary purchase price allocation during the third quarter of 2017 and will allocate excess purchase price fair value to intangible assets, property, plant and equipment and inventory.

Acquisition of 5.11 Tactical

On August 31, 2016, 5.11 ABR Merger Corp. ("Merger Sub"), a wholly owned subsidiary of 5.11 ABR Corp. ("Parent"), which in turn is a wholly owned subsidiary of the Company, merged with and into 5.11 Tactical, with 5.11 Tactical as the surviving entity, pursuant to an agreement and plan of merger among Merger Sub, Parent, 5.11 Tactical, and TA Associates Management L.P. entered into on July 29, 2016. 5.11 Tactical is a leading provider of purpose-built tactical apparel and gear for law enforcement, firefighters, EMS, and military special operations as well as outdoor and adventure enthusiasts. 5.11 is a brand known for innovation and authenticity, and works directly with end users to create purpose-built apparel and gear designed to enhance the safety, accuracy, speed and performance of tactical professionals and enthusiasts worldwide. Headquartered in Irvine, California, 5.11 operates sales offices and distribution centers globally, and 5.11 products are widely distributed in uniform stores, military exchanges, outdoor retail stores, its own retail stores and on 511tactical.com.

The Company made loans to, and purchased a 97.5% controlling interest in, 5.11 ABR Corp. The purchase price, including proceeds from noncontrolling interest and net of transaction costs, was approximately \$408.2 million. 5.11 management invested in the transaction along with the Company, representing approximately 2.5% initial noncontrolling interest on a primary and fully diluted basis. The fair value of the noncontrolling interest was determined based on the enterprise value of the acquired entity multiplied by the ratio of the number of shares acquired by the minority holders to total shares. The transaction was accounted for as a business combination. CGM acted as an advisor to the Company in the acquisition and will continue to provide integration services during the first year of the Company's ownership of 5.11. CGM will receive integration service fees of \$3.5 million payable quarterly over a twelve month period as services are rendered beginning in the quarter ended December 31, 2016.

The results of operations of 5.11 have been included in the consolidated results of operations since the date of acquisition. 5.11's results of operations are reported as a separate operating segment. The Company incurred \$2.1 million of transaction costs in conjunction with the 5.11 acquisition, which was included in selling, general and administrative expense in the consolidated statements of income during the year of acquisition. The allocation of the purchase price, which was finalized during the fourth quarter of 2016, was based upon management's estimate of the fair values using valuation techniques including income, cost and market approaches. In estimating the fair value of the acquired assets and assumed liabilities, the fair value estimates were based on, but not limited to, expected future revenue and cash flows, expected future growth rates and estimated discount rates. Current and noncurrent assets and current and other liabilities were estimated at their historical carrying values. Property, plant and equipment was

valued through a purchase price appraisal and will be depreciated on a straight-line basis over the respective remaining useful lives. Goodwill was calculated as the excess of the consideration transferred over the fair value of the identifiable net assets and represents the future economic benefits expected to arise from other intangible assets acquired that do not qualify for separate recognition, including assembled workforce and non-contractual relationships, as well as expected future synergies. The goodwill of \$93.0 million reflects the strategic fit of 5.11 in the Company's branded products business and is not expected to be deductible for income tax purposes.

Edgar Filing: Compass Diversified Holdings - Form 10-Q

The customer relationships intangible asset was valued at \$75.2 million using an excess earnings methodology, in which an asset is valuable to the extent it enables its owners to earn a return in excess of the required returns on and of the other assets utilized in the business. The tradename intangible asset (\$48.7 million) and the design patent technology asset (\$4.0 million) were valued using a royalty savings methodology, in which an asset is valuable to the extent that the ownership of the asset relieves the company from the obligation of paying royalties for the benefits generated by the asset.

Unaudited pro forma information

The following unaudited pro forma data for the three and six months ended June 30, 2017 and June 30, 2016 gives effect to the acquisition of Crosman and 5.11 Tactical, as described above, as if the acquisitions had been completed as of January 1, 2016, and the sale of Tridien as if the disposition had been completed on January 1, 2016. The pro forma data gives effect to historical operating results with adjustments to interest expense, amortization and depreciation expense, management fees and related tax effects. The information is provided for illustrative purposes only and is not necessarily indicative of the operating results that would have occurred if the transaction had been consummated on the date indicated, nor is it necessarily indicative of future operating results of the consolidated companies, and should not be construed as representing results for any future period.

Other acquisitions

Ergobaby

On May 11, 2016, the Company's Ergobaby subsidiary acquired all of the outstanding membership interests in New Baby Tula LLC ("Baby Tula"), a maker of premium baby carriers, toddler carriers, slings, blankets and wraps. The purchase price was \$73.8 million, net of transaction costs, plus a potential earn-out of \$8.2 million based on 2017 financial performance. Ergobaby paid \$0.8 million in transaction costs in connection with the acquisition. Ergobaby funded the acquisition and payment of related transaction costs through the issuance of an additional \$68.2 million in intercompany loans with the Company, and the issuance of \$8.2 million in Ergobaby shares to the selling shareholders. Ergobaby recorded a purchase price allocation of \$13.2 million in goodwill, which is expected to be deductible for income tax purposes, \$55.3 million in intangible assets comprised of \$52.9 million in finite lived tradenames, \$1.7 million in non-compete agreements, \$0.7 million in customer relationships, and \$4.8 million in inventory step-up. In addition, the earn-out provision of the purchase price was allocated a fair value of \$3.8 million. The remainder of the purchase consideration was allocated to net assets acquired. The Company finalized the purchase price for the Baby Tula acquisition during the fourth quarter of 2016.

Clean Earth

On June 1, 2016, the Company's Clean Earth subsidiary acquired certain of the assets and liabilities of EWS Alabama, Inc. ("EWS"). Clean Earth funded the acquisition and the related transaction costs through the issuance of additional intercompany debt with the Company. Based in Glencoe, Alabama, EWS provides a range of hazardous and non-hazardous waste management services from a fully permitted hazardous waste RCRA Part B facility. In connection with the acquisition, Clean Earth recorded a purchase price allocation of \$3.6 million in goodwill and \$12.1 million in intangible assets.

On April 15, 2016, Clean Earth acquired certain assets of Phoenix Soil, LLC ("Phoenix Soil") and WIC, LLC (together with Phoenix Soil, the "Sellers"). Phoenix Soil is based in Plainville, Connecticut and provides environmental services for nonhazardous contaminated soil materials with a primary focus on soil. Phoenix Soil recently completed its transition to a new 58,000 square foot thermal desorption facility owned by WIC, LLC. The acquisition increased Clean Earth's soil treatment capabilities and expanded its geographic footprint into New England. Clean Earth financed the acquisition and payment of related transaction costs through the issuance of additional intercompany loans with the Company. In connection with the acquisition, Clean Earth recorded a purchase price allocation of \$3.2 million in goodwill and \$5.6 million in intangible assets.

Sterno Products

On January 22, 2016, Sterno Products, a wholly owned subsidiary of the Company, acquired all of the outstanding stock of Northern International, Inc. ("NII"), for a total purchase price of approximately \$35.8 million (C\$50.6 million), plus a potential earn-out opportunity payable over the next two years up to a maximum amount of \$1.8 million (C\$2.5 million), and is subject to working capital adjustments. The contingent consideration was fair valued at \$1.5 million, based on probability weighted models of the achievement of certain performance based financial targets. Headquartered in Coquitlam, British Columbia, Canada, NII sells flameless candles and outdoor lighting products through the retail segment. Sterno Products financed the acquisition and payment of the related transaction costs through the issuance of an additional \$37.0 million in intercompany loans with the Company.

In connection with the acquisition, Sterno recorded a purchase price allocation of \$6.0 million of goodwill, which is not expected to be deductible for income tax purposes, \$12.7 million in intangible assets and \$1.2 million in inventory step-up. In addition, the earn-out provision of the purchase price was allocated a fair value of \$1.5 million. The remainder of the purchase consideration was allocated to net assets acquired. Sterno Products incurred \$0.4 million in acquisition related costs in connection with the NII acquisition.

Note D - Discontinued Operations

Sale of Tridien

On September 21, 2016, the Company sold its majority owned subsidiary, Tridien, based on an enterprise value of \$25 million. After the allocation of the sale proceeds to non-controlling equity holders and the payment of transaction expenses, the Company received approximately \$22.7 million in net proceeds at closing related to its debt and equity interests in Tridien. The Company recognized a gain of \$1.7 million for the year ended December 31, 2016 as a result of the sale of Tridien. Approximately \$1.6 million of the proceeds received by the Company from the sale of Tridien have been reserved to support the Company's indemnification obligations for future claims against Tridien that the Company may be liable for under the terms of the Tridien sale agreement.

Operating results of discontinued operations

Summarized operating results of Tridien for the three and six months ended June 30, 2016 are as follows:

(in thousands)	Three months ended June 30, 2016	Six months ended June 30, 2016

Fox Factory Holdings Corp. ("FOX"), a former majority owned subsidiary of the Company that is publicly traded on the NASDAQ Stock Market under the ticker "FOXF," is a designer, manufacturer and marketer of high-performance ride dynamic products used primarily for bicycles, side-by-side vehicles, on-road vehicles with off-road capabilities, off-road vehicles and trucks, all-terrain vehicles, snowmobiles, specialty vehicles and applications, and motorcycles. The Company held a 41% ownership interest in FOX as of January 1, 2016, and a 14% ownership interest as of January 1, 2017. The investment in FOX was accounted for using the fair value option.

In March 2016, FOX closed on a secondary public offering (the "March 2016 Offering") of 2,500,000 FOX common shares held by the Company. Concurrently with the closing of the March 2016 Offering, FOX repurchased 500,000 shares of FOX common shares directly from the Company. As a result of the sale of shares through the March 2016 Offering and the repurchase of shares by FOX, the Company sold a total of 3,000,000 shares of FOX common stock, with total net proceeds of approximately \$47.7 million. Upon completion of the March 2016 Offering and repurchase of shares by FOX, the Company's ownership interest in FOX was reduced from approximately 41% to 33%.

In August 2016, FOX closed on a secondary public offering (the "August Offering") of 4,025,000 shares held by certain FOX shareholders, including the Company. The Company sold a total of 3,500,000 shares of FOX common stock in the August Offering, for total net proceeds of \$63.0 million. Upon completion of the August Offering, the Company's ownership of FOX decreased from approximately 33% to approximately 23%.

In November 2016, FOX closed on a secondary public offering (the "November Offering") of 3,500,000 shares of FOX common stock held by the Company, for total net proceeds of \$71.8 million. Upon completion of the November Offering, the Company's ownership of FOX decreased from approximately 23% to approximately 14%. The Company's investment in FOX had a fair value of \$141.8 million on December 31, 2016 based on the closing price of FOX shares on that date.

In March 2017, FOX closed on a secondary public offering (the "March 2017 Offering") through which the Company sold their remaining 5,108,718 shares in FOX for total net proceeds of \$136.1 million. Subsequent to the March 2017 Offering, the Company no longer holds an ownership interest in FOX.

Note H — Goodwill and Other Intangible Assets

As a result of acquisitions of various businesses, the Company has significant intangible assets on its balance sheet that include goodwill and indefinite-lived intangibles. The Company's goodwill and indefinite-lived intangibles are tested and reviewed for impairment annually as of March 31st or more frequently if facts and circumstances warrant by comparing the fair value of each reporting unit to its carrying value. Each of the Company's businesses represent a reporting unit, except Arnold, which comprises three reporting units.

Goodwill

2017 Annual goodwill impairment testing

The Company uses a qualitative approach to test goodwill for impairment by first assessing qualitative factors to determine whether it is more-likely-than-not that the fair value of a reporting unit is less than its carrying amount as a basis for determining whether it is necessary to perform the two-step goodwill impairment testing. The qualitative factors we consider include, in part, the general macroeconomic environment, industry and market specific conditions for each reporting unit, financial performance including actual versus planned results and results of relevant prior periods, operating costs and cost impacts, as well as issues or events specific to the reporting unit. At March 31, 2017, we determined that the Manitoba Harvest reporting unit required further quantitative testing (Step 1) because we could not conclude that the fair value of the reporting unit exceeds its carrying value based on qualitative factors alone. The Company utilized an income approach to perform the Step 1 testing at Manitoba Harvest. The weighted average cost of capital used in the income approach for Manitoba Harvest was 12.0%. Results of the Step 1 quantitative testing of Manitoba Harvest indicated that the fair value of Manitoba Harvest exceeded its carrying value by 15.0%. For the reporting units that were tested qualitatively, the Company concluded that the results of the qualitative analysis indicated that the fair value of those reporting units exceeded their carrying value and that a quantitative analysis was not necessary.

2016 Interim goodwill impairment testing

Arnold

As a result of decreases in forecasted revenue, operating income and cash flows at Arnold, as well as a shortfall in revenue and operating income during the latter half of 2016 as compared to budgeted amounts, the Company determined that it was necessary to perform interim goodwill impairment testing on each of the three reporting units at Arnold. The Company performed Step 1 of the goodwill impairment assessment at December 31, 2016. In Step 1 of the goodwill impairment test, the Company compared the fair value of the reporting units to the carrying amount. Based on the results of the valuation, the fair value of the FlexMag and PTM reporting units exceeded the carrying amount, therefore no additional goodwill testing was required. The results of the Step 1 test for the PMAG unit indicated a potential impairment of goodwill and the Company performed the second step of goodwill impairment testing (Step 2) to determine the amount of impairment of the PMAG reporting unit.

In the first test of goodwill impairment testing, we compare the fair value of each reporting unit to its carrying amount. For purposes of the Step 1 for the Arnold reporting units, we estimated the fair value of the reporting unit

using an income approach, whereby we estimate the fair value of a reporting unit based on the present value of future cash flows. Cash flow projections are based on management's estimate of revenue growth rates and operating margins and take into consideration industry and market conditions as well as company and reporting unit specific economic factors. The discount rate used is based on the weighted average cost of capital adjusted for the relevant risk associated with the business specific

characteristics and the uncertainty associated with the reporting unit's ability to execute on the projected cash flows. For the Step 1 quantitative impairment testing for Arnold's reporting units, we used only an income approach because we determined that the guideline public company comparables for PMAG, FlexMag and PTM were not representative of these three reporting units. In the income approach, we used a weighted average cost of capital of 12.5% for PMAG, 12.0% for FlexMag and 13.0% for PTM.

The Company had not completed the Step 2 analysis as of December 31, 2016, and therefore estimated a range of impairment loss of \$14 million to \$19 million based on the value of the total invested capital of the PMAG unit as well as the results of the Step 1 testing of the fair value of PMAG. The Company recorded an estimated impairment loss for PMAG of \$16 million at December 31, 2016 based on that range. The Company completed the Step 2 goodwill impairment test of the PMAG reporting unit in the first quarter of 2017, and the results indicated total impairment of the goodwill of the PMAG reporting unit of \$24.9 million. The Step 2 impairment was higher than the initial estimate at December 31, 2016 due primarily to the valuation of PMAG's property, plant and equipment during the Step 2 exercise. The Company recorded the additional impairment loss of \$8.9 million in the first quarter of 2017.

2016 Annual goodwill impairment testing
At March 31, 2016, we determined that the Tridien reporting unit (which is reported as a discontinued operation in the accompanying financial statements after the sale of the reporting unit in September 2016) required further quantitative testing (Step 1) because we could not conclude that the fair value of the reporting unit exceeds its carrying value based on qualitative factors alone. Results of the Step 1 quantitative testing of Tridien indicated that the fair value of Tridien exceeded its carrying value. For the reporting units that were tested qualitatively, the results of the qualitative analysis indicated that the fair value of those reporting units exceeded their carrying value.

A summary of the net carrying value of goodwill at June 30, 2017 and December 31, 2016, is as follows (in thousands):

	Six months ended June 30, 2017	Year ended December 31, 2016

- (4) Represents the final settlement related to Sterno's acquisition of NII.

Long lived assets

Annual indefinite lived impairment testing

The Company used a qualitative approach to test indefinite lived intangible assets for impairment by first assessing qualitative factors to determine whether it is more-likely-than-not that the fair value of an indefinite lived intangible asset is impaired as a basis for determining whether it is necessary to perform quantitative impairment testing. The Company evaluated the qualitative factors of each reporting unit that maintains indefinite lived intangible assets in connection with the annual impairment testing for 2017 and 2016. Results of the qualitative analysis indicate that the carrying value of the Company's indefinite lived intangible assets did not exceed their fair value.

Note I — Debt

2014 Credit Facility

The 2014 Credit Facility is secured by all of the assets of the Company, including all of its equity interests in, and loans to, its consolidated subsidiaries. The Company amended the 2014 Credit Facility in June 2015, primarily to allow for intercompany loans to, and the acquisition of, Canadian-based companies on an unsecured basis, and to modify provisions that would allow for early termination of a "Leverage Increase Period," thereby providing additional flexibility as to the timing of subsequent acquisitions. On August 15, 2016, the Company amended the 2014 Credit Facility to, among other things, increase the aggregate amount of the 2014 Credit Facility by \$400 million. On August 31, 2016, the Company entered into an Incremental Facility Amendment to the 2014 Credit Agreement (the "Incremental Facility Amendment"). The Incremental Facility Amendment provided for an increase to the 2014 Revolving Credit Facility of \$150 million, and the 2016 Incremental Term Loan, in the amount of \$250 million. As a result of the Incremental Facility Amendment, the 2014 Credit Facility currently provides for (i) a revolving credit facility of \$550 million (as amended from time to time, the "2014 Revolving Credit Facility"), (ii) a \$325 million term loan (the "2014 Term Loan Facility"), and (iii) a \$250 million incremental term loan (the "2016 Incremental Term Loan").

2014 Revolving Credit Facility

The 2014 Revolving Credit Facility will become due in June 2019. The Company can borrow, prepay and reborrow principal under the 2014 Revolving Credit Facility from time to time during its term. Advances under the 2014 Revolving Credit Facility can be either LIBOR rate loans (as defined below) or base rate loans. LIBOR rate revolving loans bear interest at a rate per annum equal to the London Interbank Offered Rate (the "LIBOR Rate") plus a margin ranging from 2.00% to 2.75% based on the ratio of consolidated net indebtedness to adjusted consolidated earnings before interest expense, tax expense and depreciation and amortization expenses (the "Consolidated Leverage Ratio"). Base rate revolving loans bear interest at a fluctuating rate per annum equal to the greatest of (i) the prime rate of interest, or (ii) the Federal Funds Rate plus 0.50% (the "Base Rate"), plus a margin ranging from 1.00% to 1.75% based upon the Consolidated Leverage Ratio.

Term Loans

2014 Term Loan

The 2014 Term Loan Facility expires in June 2021 and requires quarterly payments that commenced September 30, 2014, with a final payment of all remaining principal and interest due on June 6, 2021. The 2014 Term Loan Facility was issued at an original issue discount of 99.5% of par value.

2016 Incremental Term Loan

The 2016 Incremental Term Loan was issued at an original issue discount of 99.25% of par value. The Company incurred \$6.0 million in additional debt issuance costs related to the Incremental Credit Facility, which will be recognized as expense during the remaining term of the related 2014 Revolving Credit Facility, and 2014 Term Loan and 2016 Incremental Term Loan. The Incremental Facility Amendment did not change the due dates or applicable interest rates of the 2014 Credit Agreement. The quarterly payments for the term advances under the 2014 Credit Agreement increased to approximately \$1.4 million per quarter. The additional advances under the Incremental Credit Facility was a loan modification for accounting purposes. Consequently, the Company capitalized debt issuance costs of \$6.0 million associated with fees charged by lenders of the Incremental Credit Facility. The capitalized debt issuance costs will be amortized over the remaining period of the 2014 Credit Facility.

In March 2017, the Company amended the 2014 Credit Facility (the "Fourth Amendment") to reduce the applicable rate of interest for the 2014 Term Loan and 2016 Incremental Term Loan. Under the Fourth Amendment, outstanding LIBOR loans bear interest at LIBOR plus an applicable rate of 2.75% and outstanding Base Rate loans bear interest at Base Rate plus 1.75%. Prior to the amendment, the outstanding term loans bore interest at LIBOR plus 3.25% or Base Rate plus 2.25%. In connection with the Fourth Amendment, the Company capitalized debt issuance costs of \$1.2 million associated with fees charged by term loan lenders.

Other

The 2014 Credit Facility provides for sub-facilities under the 2014 Revolving Credit Facility pursuant to which an aggregate amount of up to \$100 million in letters of credit may be issued, as well as swing line loans of up to \$25 million outstanding at one time. The issuance of such letters of credit and the making of any swing line loan reduces the amount available under the 2014 Revolving Credit Facility. The Company will pay (i) commitment fees on the unused portion of the 2014 Revolving Credit Facility ranging from 0.45% to 0.60% per annum based on its Consolidated Leverage Ratio, (ii) quarterly letter of credit fees, and (iii) administrative and agency fees.

The following table provides the Company's debt holdings at June 30, 2017 and December 31, 2016 (in thousands):

	June 30, 2017	December 31, 2016

Net availability under the 2014 Revolving Credit Facility was approximately \$544.6 million at June 30, 2017. Letters of credit outstanding at June 30, 2017 totaled approximately \$1.8 million. At June 30, 2017, the Company was in compliance with all covenants as defined in the 2014 Credit Facility.

Debt Issuance Costs

Deferred debt issuance costs represent the costs associated with the entering into the 2014 Credit Facility as well as amendments to the 2014 Credit Facility, and are amortized over the term of the related debt instrument. Since the Company can borrow, repay and reborrow principal under the 2014 Revolving Credit Facility, the debt issuance costs associated with this facility have been classified as other non-current assets in the accompanying consolidated balance sheet. The debt issuance costs associated with the 2014 Term Loan and 2016 Incremental Term Loan are classified as a reduction of long-term debt in the accompanying consolidated balance sheet.

The following table summarizes debt issuance costs at June 30, 2017 and December 31, 2016, and the balance sheet classification in each of the periods presents (in thousands):

	June 30, 2017	December 31, 2016

Note J — Derivative Instruments and Hedging Activities

On September 16, 2014, the Company purchased an interest rate swap ("New Swap") with a notional amount of \$220 million. The New Swap is effective April 1, 2016 through June 6, 2021, the termination date of the 2014 Term Loan. The agreement requires the Company to pay interest on the notional amount at the rate of 2.97% in exchange for the three-month LIBOR rate. At June 30, 2017 and December 31, 2016, the New Swap had a fair value loss of \$9.9 million and \$10.7 million, respectively, principally reflecting the present value of future payments and receipts under the agreement.

The Company did not elect hedge accounting for the above derivative transaction and as a result, periodic mark-to-market changes in fair value are reflected as a component of interest expense in the consolidated statement of operations.

The following table reflects the classification of the Company's interest rate swap on the consolidated balance sheets at June 30, 2017 and December 31, 2016 (in thousands):

Valuation Techniques

The Company has not changed its valuation techniques in measuring the fair value of any of its other financial assets and liabilities during the period. For details of the Company's fair value measurement policies under the fair value hierarchy, refer to the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2016.

2014 Term Loan and 2016 Incremental Term Loan

At June 30, 2017, the carrying value of the principal under the Company's outstanding Term Loans, including the current portion, was \$562.8 million, which approximates fair value because it has a variable interest rate that reflects market changes in interest rates and changes in the Company's net leverage ratio. The estimated fair value of the outstanding 2014 Term Loan is based on quoted market prices for similar debt issues and is, therefore, classified as Level 2 in the fair value hierarchy.

Trust Common Shares

The Trust is authorized to issue 500,000,000 Trust shares and the Company is authorized to issue a corresponding number of LLC interests. The Company will at all times have the identical number of LLC interests outstanding as Trust shares. Each Trust share represents an undivided beneficial interest in the Trust, and each Trust share is entitled to one vote per share on any matter with respect to which members of the Company are entitled to vote.

Trust Preferred Shares

The Trust is authorized to issue up to 50,000,000 Trust preferred shares and the Company is authorized to issue a corresponding number of trust preferred interests. On June 28, 2017, the Trust issued 4,000,000 7.250% Series A Preferred Shares (the "Series A Preferred Shares") with a liquidation preference of \$25.00 per share, for gross proceeds of \$100.0 million, or \$96.6 million net of underwriters' discount and issuance costs. When, and if declared by the Company's board of directors, distribution on the Series A Preferred Shares will be payable quarterly on January 30, April 30, July 30, and October 30 of each year, beginning on October 30, 2017, at a rate per annum of 7.250%. Distributions on the Series A Preferred Shares are discretionary and non-cumulative. The Company has no obligation to pay distributions for a quarterly distribution period if the board of directors does not declare the distribution before the scheduled record of date for the period, whether or not distributions are paid for any subsequent distribution periods with respect to the Series A Preferred Shares, or the Trust common shares. If the Company's board of directors does not declare a distribution for the Series A Preferred Shares for a quarterly distribution period, during the remainder of that quarterly distribution period the Company cannot declare or pay distributions on the Trust common shares. The Series A Preferred Shares are not convertible into Trust common shares and have no voting rights, except in limited circumstances as provided for in the share designation for the preferred shares.

The Series A Preferred Shares may be redeemed at the Company's option, in whole or in part, at any time after July 30, 2022, at a price of \$25.00 per share, plus declared and unpaid distribution to, but excluding, the redemption date, without payment of any undeclared distributions. Holders of Series A Preferred Shares will have no right to require the redemption of the Series A Preferred Shares and there is no maturity date.

If a certain tax redemption event occurs prior to July 30, 2022, the Series A Preferred Shares may be redeemed at the Company's option, in whole but not in part, upon at least 30 days' notice, within 60 days of the occurrence of such tax redemption event, at a price of \$25.25 per share, plus declared and unpaid distributions to, but excluding, the redemption date, without payment of any undeclared distributions. If a certain fundamental change related to the Series A Preferred Shares or the Company occurs (whether before, on or after July 30, 2022), the Company will be required to repurchase the Series A Preferred Shares at a price of \$25.25 per share, plus declared and unpaid distributions to, but excluding, the date of purchase, without payment of any undeclared distributions. If (i) a fundamental change occurs and (ii) the Company does not give notice prior to the 31st day following the fundamental change to repurchase all the outstanding Series A Preferred Shares, the distribution rate per annum on the Series A Preferred Shares will increase by 5.00%, beginning on the 31st day following such fundamental change.

Notwithstanding any requirement that the Company repurchase all of the outstanding Series A Preferred Shares, the increase in the distribution rate is the sole remedy to holders in the event the Company fails to do so, and following any such increase, the Company will be under no obligation to repurchase any Series A Preferred Shares.

Profit Allocation Interests

The Allocation Interests represent the original equity interest in the Company. The holders of the Allocation Interests ("Holders") are entitled to receive distributions pursuant to a profit allocation formula upon the occurrence of certain events. The distributions of the profit allocation are paid upon the occurrence of the sale of a material amount of capital stock or assets of one of the Company's businesses ("Sale Event") or, at the option of the Holders, at each five-year anniversary date of the acquisition of one of the Company's businesses ("Holding Event"). The Company records distributions of the profit allocation to the Holders upon occurrence of a Sale Event or Holding Event as distributions declared on Allocation Interests to stockholders' equity when they are approved by the Company's board of directors.

The sale of FOX shares in March 2017 (refer to Note F - "Investment in FOX") qualified as a Sale Event under the Company's LLC Agreement. In April 2017, with respect to the March 2017 Offering, the Company's board of directors approved and declared a profit allocation payment totaling \$25.8 million that was paid in the second quarter of 2017.

The sale of FOX shares in March 2016 (refer to Note F - "Investment in FOX") qualified as a Sale Event under the Company's LLC Agreement. In April 2016, with respect to the March 2016 Offering, the Company's board of directors approved and declared a profit allocation payment totaling \$8.6 million that was paid to Holders during the second quarter of 2016. In November 2016, with respect to the sale of FOX shares in August 2016 and the sale of Tridien, both qualifying as Sale Events, the Company's board of directors approved and declared a profit allocation payment of \$7.0 million that was paid during the fourth quarter of 2016. In the fourth quarter of 2016, the Company's board of directors declared a profit allocation payment to the Allocation Interest Holders of \$13.4 million related to the FOX November Offering (refer to Note F - "Investment in FOX"). This amount was paid in the first quarter of 2017.

The Company's board of directors also declared and the Company paid an \$8.2 million distribution in the third quarter of 2016 to the Allocation Member in connection with a Holding Event of our ownership of the Advanced Circuits subsidiary. The payment is in respect to Advanced Circuits' positive contribution-based profit in the five year holding period ending June 30, 2016.

Earnings per share

The Company calculates basic and diluted earnings per share using the two-class method which requires the Company to allocate participating securities that have rights to earnings that otherwise would have been available only to Trust shareholders as a separate class of securities in calculating earnings per share. The Allocation Interests are considered participating securities that contain participating rights to receive profit allocations upon the occurrence of a Holding Event or Sale Event. The calculation of basic and diluted earnings per share for the three and six months ended June 30, 2017 and 2016 reflects the incremental increase during the period in the profit allocation distribution to Holders related to Holding Events.

Basic and diluted earnings per share for the three and six months ended June 30, 2017 and 2016 attributable to Holdings is calculated as follows (in thousands, except per share data):

- On April 27, 2017, the Company paid a distribution of \$0.36 per share to holders of record as of April 20, 2017. This distribution was declared on April 6, 2017.

On July 27, 2017, the Company paid a distribution of \$0.36 per share to holders of record as of July 20, 2017. The distribution was declared on July 6, 2017.

Note M — Warranties

The Company's Crosman, Ergobaby and Liberty operating segments estimate their exposure to warranty claims based on both current and historical product sales data and warranty costs incurred. The Company assesses the adequacy of its recorded warranty liability quarterly and adjusts the amount as necessary. A reconciliation of the change in the carrying value of the Company's warranty liability for the six months ended June 30, 2017 and the year ended December 31, 2016 is as follows (in thousands):

	Six months ended June 30, 2017	Year ended December 31, 2016

Other ⁽¹⁾	442	—
Ending balance	\$1,740	\$ 1,258

⁽¹⁾ Represents the warranty liability recorded in relation to the Crosman acquisition in June 2017.

Note N — Noncontrolling Interest

Noncontrolling interest represents the portion of the Company's majority owned subsidiary's net income (loss) and equity that is owned by noncontrolling shareholders. The following tables reflect the Company's ownership percentage of its majority owned operating segments and related noncontrolling interest balances as of June 30, 2017 and December 31, 2016:

Note O — Income taxes

Each fiscal quarter, the Company estimates its annual effective tax rate and applies that rate to its interim pre-tax earnings. In this regard, the Company reflects the full year's estimated tax impact of certain unusual or infrequently occurring items and the effects of changes in tax laws or rates in the interim period in which they occur.

The computation of the annual estimated effective tax rate in each interim period requires certain estimates and significant judgment, including the projected operating income for the year, projections of the proportion of income earned and taxed in other jurisdictions, permanent and temporary differences and the likelihood of recovering deferred tax assets generated in the current year. The accounting estimates used to compute the provision for income taxes may change as new events occur, as additional information is obtained or as the tax environment changes. Certain foreign operations are subject to foreign income taxation under existing provisions of the laws of those jurisdictions. Pursuant to U.S. tax laws, earnings from those jurisdictions will be subject to the U.S. income tax rate when those earnings are repatriated.

The reconciliation between the Federal Statutory Rate and the effective income tax rate for the six months ended June 30, 2017 and 2016 is as follows:

Edgar Filing: Compass Diversified Holdings - Form 10-Q

	Six months ended June 30,	
	2017	2016
United States Federal Statutory Rate	(35.0)%	35.0 %

Other	4.0	4.2
Effective income tax rate	(8.3)%	58.9 %

(1) The effective income tax rate for the six months ended June 30, 2017 and 2016 includes a loss at the Company's parent, which is taxed as a partnership.

(2) The investment in FOX was held at the Company's parent, which is taxed as a partnership, resulting in the gain or loss on the investment as a reconciling item in deriving the effective tax rate.

Note P — Defined Benefit Plan

In connection with the acquisition of Arnold, the Company has a defined benefit plan covering substantially all of Arnold's employees at its Lupfig, Switzerland location. The benefits are based on years of service and the employees' highest average compensation during the specific period.

The unfunded liability of \$3.4 million is recognized in the consolidated balance sheet as a component of other non-current liabilities at June 30, 2017. Net periodic benefit cost consists of the following for the three and six months ended June 30, 2017 and 2016 (in thousands):

	Three months ended June 30,		Six months ended June 30,	
	2017	2016	2017	2016
Service cost	\$136	\$107	\$267	\$214
Interest cost	24	34	47	68
Expected return on plan assets	(40)	(38)	(78)	(77)
Amortization of unrecognized loss	\$64	\$43	\$125	\$87
Net periodic benefit cost	\$184	\$146	\$361	\$292

During the three and six months ended June 30, 2017, Arnold contributed \$0.1 million and \$0.2 million to the plan utilizing reserves from prior years over funding of the plan, respectively. For the remainder of 2017, the expected contribution to the plan will be approximately \$0.6 million.

The plan assets are pooled with assets of other participating employers and are not separable; therefore the fair values of the pension plan assets at June 30, 2017 were considered Level 3.

Note Q - Commitments and Contingencies

In the normal course of business, the Company and its subsidiaries are involved in various claims and legal proceedings. While the ultimate resolution of these matters has yet to be determined, the Company does not believe that any unfavorable outcomes will have a material adverse effect on the Company's consolidated financial position or

results of operations.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This Item 2 contains forward-looking statements. Forward-looking statements in this Quarterly Report on Form 10-Q are subject to a number of risks and uncertainties, some of which are beyond our control. Our actual results, performance, prospects or opportunities could differ materially from those expressed in or implied by the forward-looking statements. Additional risks of which we are not currently aware or which we currently deem immaterial could also cause our actual results to differ, including those discussed in the sections entitled "Forward-Looking Statements" included elsewhere in this Quarterly Report on Form 10-Q as well as those risk factors discussed in the section entitled "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2016 and in the section entitled "Risk Factors" in Part II, Item 1A Quarterly Report on Form 10-Q.

Overview

Compass Diversified Holdings, a Delaware statutory trust ("Holdings" or the "Trust"), was incorporated in Delaware on November 18, 2005. Compass Group Diversified Holdings LLC, a Delaware limited liability Company (the "Company"), was also formed on November 18, 2005. The Trust and the Company (collectively "CODI") were formed to acquire and manage a group of small and middle-market businesses headquartered in North America. The Trust is the sole owner of 100% of the Trust Interests, as defined in our LLC Agreement, of the Company. Pursuant to the LLC Agreement, the Trust owns an identical number of Trust Interests in the Company as exist for the number of outstanding shares of the Trust. Accordingly, our shareholders are treated as beneficial owners of Trust Interests in the Company and, as such, are subject to tax under partnership income tax provisions. The Company is the operating entity with a board of directors whose corporate governance responsibilities are similar to that of a Delaware corporation. The Company's board of directors oversees the management of the Company and our businesses and the performance of Compass Group Management LLC ("CGM" or our "Manager"). Certain persons who are employees and partners of our Manager receive a profit allocation as owners of 60.4% of the Allocation Interests in us, as defined in our LLC Agreement.

The Trust and the Company were formed to acquire and manage a group of small and middle-market businesses headquartered in North America. We characterize small to middle market businesses as those that generate annual cash flows of up to \$60 million. We focus on companies of this size because of our belief that these companies are often more able to achieve growth rates above those of their relevant industries and are also frequently more susceptible to efforts to improve earnings and cash flow.

In pursuing new acquisitions, we seek businesses with the following characteristics:

- North American base of operations;
- stable and growing earnings and cash flow;
- maintains a significant market share in defensible industry niche (i.e., has a "reason to exist");
- solid and proven management team with meaningful incentives;
- low technological and/or product obsolescence risk; and
- a diversified customer and supplier base.

Our management team's strategy for our businesses involves:

- utilizing structured incentive compensation programs tailored to each business to attract, recruit and retain talented managers to operate our businesses;
- regularly monitoring financial and operational performance, instilling consistent financial discipline, and supporting management in the development and implementation of information systems to effectively achieve these goals;
- assisting management in their analysis and pursuit of prudent organic cash flow growth strategies (both revenue and cost related);
- identifying and working with management to execute attractive external growth and acquisition opportunities; and
- forming strong subsidiary level boards of directors to supplement management in their development and implementation of strategic goals and objectives.

We are dependent on the earnings of, and cash receipts from our businesses to meet our corporate overhead and management fee expenses and to pay distributions. These earnings and distributions, net of any minority interests in these businesses, are generally available:

- first, to meet capital expenditure requirements, management fees and corporate overhead expenses;

second, to fund distributions from the businesses to the Company; and
third, to be distributed by the Trust to shareholders.

32

We acquired our existing businesses (segments) at June 30, 2017 as follows:

Business	Acquisition Date	Ownership	
		Primary	Diluted
		Interest - June 30, 2017	
Advanced Circuits	May 16, 2006	69.4%	69.2%
Liberty Safe	March 31, 2010	88.6%	84.7%
Ergobaby	September 16, 2010	83.5%	76.5%
Arnold Magnetics	March 5, 2012	96.7%	84.7%
Clean Earth	August 7, 2014	97.5%	79.8%
Sterno Products	October 10, 2014	100.0%	89.5%
Manitoba Harvest	July 10, 2015	76.6%	67.9%
5.11 Tactical	August 31, 2016	97.5%	85.1%
Crosman	June 2, 2017	98.9%	98.9%

We categorize the businesses we own into two separate groups of businesses: (i) branded consumer businesses, and (ii) niche industrial businesses. Branded consumer businesses are characterized as those businesses that we believe capitalize on a valuable brand name in their respective market sector. We believe that our branded consumer businesses are leaders in their particular product category. Niche industrial businesses are characterized as those businesses that focus on manufacturing and selling particular products and industrial services within a specific market sector. We believe that our niche industrial businesses are leaders in their specific market sector.

Recent Events

Trust Preferred Share Issuance

On June 28, 2017, the Company issued 4,000,000 7.250% Series A Trust Preferred Shares (the "Series A Preferred Shares") for gross proceeds of \$100.0 million, or \$96.6 million net of underwriters' discount and issuance costs.

Acquisition of Crosman

On June 2, 2017, through a wholly owned subsidiary, Crosman Acquisition Corp., we acquired 98.9% of the outstanding equity of Bullseye Acquisition Corporation, which is the sole owner of Crosman Corp. ("Crosman"). Crosman is a designer, manufacturer and marketer of airguns, archery products and related accessories. Headquartered in Bloomfield, New York, Crosman serves over 425 customers worldwide, including mass merchants, sporting goods retailers, online channels and distributors serving smaller specialty stores and international markets. Its diversified product portfolio includes the widely known Crosman, Benjamin and CenterPoint brands. The purchase price, including proceeds from noncontrolling interests and net of transaction costs, was approximately \$150.8 million. Crosman management invested in the transaction along with the Company, representing approximately 1.1% initial noncontrolling interest.

Divestiture of FOX shares

On March 13, 2017, Fox Factory Holding Corp. ("FOX") closed on a secondary public offering of 5,108,718 shares of FOX common stock held by CODI, which represented CODI's remaining investment in FOX. CODI received \$136.1 million in net proceeds as a result of the sale. As a result of this secondary offering, the Company no longer holds an ownership interest in FOX.

This sale of the portion of our FOX shares in March 2017 qualified as a Sale Event under the Company's LLC Agreement. During the second quarter, our board of directors declared a distribution to the Holders of the Allocation Interests of \$25.8 million in connection with the Sale Event of FOX. The profit allocation payment was made during the quarter ended June 30, 2017.

2017 Outlook

Middle market deal flow continues to remain steady, in part due to continued attractive valuations for sellers. High valuation levels continue to be driven by the availability of debt capital with favorable terms and financial and strategic buyers seeking to deploy available equity capital. We remain focused on marketing the Company's attractive ownership and management attributes to potential sellers of middle market businesses and intermediaries. In addition, we continue to pursue opportunities for add-on acquisitions by certain of our existing subsidiary companies, which

can be particularly attractive from a strategic perspective.

33

Discontinued Operations

The results of operations for Tridien for the three and six months ended June 30, 2016 are presented as discontinued operations in our consolidated financial statements as a result of the sale of Tridien in September 2016. Refer to Note D - "Discontinued Operations", of the consolidated financial statements for further discussion of the operating results of our discontinued businesses.

Non-GAAP Financial Measures

U.S. GAAP refers to generally accepted accounting principles in the United States. A non-GAAP financial measure is a numerical measure of historical or future performance, financial position or cash flow that excludes amounts, or is subject to adjustments that effectively exclude amounts, included in the most directly comparable measure calculated and presented in accordance with GAAP in our financial statements, and vice versa for measures that include amounts, or are subject to adjustments that effectively include amounts, that are excluded from the most directly comparable measure as calculated and presented. Our Manitoba Harvest acquisition uses the Canadian Dollar as its functional currency. We will periodically refer to net sales and net sales growth rates in the Manitoba Harvest management's discussion and analysis on a "constant currency" basis so that the business results can be viewed without the impact of fluctuations in foreign currency exchange rates, thereby facilitating period-to-period comparisons of Manitoba Harvest's business performance. "Constant currency" net sales results are calculated by translating current period net sales in local currency using the prior year's currency conversion rate. Generally, when the dollar either strengthens or weakens against other currencies, the growth at constant currency rates or adjusting for currency will be higher or lower than growth reported at actual exchange rates. "Constant currency" measured net sales is not a measure of net sales presented in accordance with U.S. GAAP.

Results of Operations

In the following results of operations, we provide (i) our actual consolidated results of operations for the three and six months ended June 30, 2017 and 2016, which includes the historical results of operations of our businesses (operating segments) from the date of acquisition and (ii) comparative results of operations for each of our businesses on a stand-alone basis for the three and six months ended June 30, 2017 and 2016, where all periods presented include relevant pro-forma adjustments for pre-acquisition periods and explanations where applicable.

Three months ended June 30, 2017 compared to three months ended June 30, 2016

Net sales

On a consolidated basis, net sales for the three months ended June 30, 2017 increased by approximately \$93.2 million or 43.5% compared to the corresponding period in 2016. Our acquisition of 5.11 Tactical on August 31, 2016 contributed \$78.0 million to the increase in net sales, while our acquisition of Crosman on June 2, 2017 contributed

\$9.8 million. During the three months ended June 30, 2017 compared to 2016, we also saw notable sales increases at Ergobaby (\$1.3 million, primarily due to the acquisition of Baby Tula in May 2016), Clean Earth (\$6.2 million, primarily due to two acquisitions in 2016 and one acquisition in 2017), partially offset by a decrease in sales at our Liberty (\$2.3 million decrease) and Arnold (\$2.1

million decrease) subsidiaries. Refer to "Results of Operations - Our Businesses" for a more detailed analysis of net sales by business segment.

We do not generate any revenues apart from those generated by the businesses we own. We may generate interest income on the investment of available funds, but we expect such earnings to be minimal. Our investment in our businesses is typically in the form of loans from the Company to such businesses, as well as equity interests in those companies. Cash flows coming to the Trust and the Company are the result of interest payments on those loans, amortization of those loans and dividends on our equity ownership. However, on a consolidated basis, these items will be eliminated.

Cost of sales

On a consolidated basis, cost of sales increased approximately \$60.2 million during the three month period ended June 30, 2017, compared to the corresponding period in 2016. 5.11 Tactical accounted for \$49.5 million of the increase, including \$8.7 million in expense related to the amortization of the inventory step-up resulting from purchase accounting, while our Crosman acquisition accounted for \$7.3 million of the increase in cost of sales during the three months ended June 30, 2017. Clean Earth accounted for \$6.0 million of the increase due to acquisitions in the prior and current year, and Sterno accounted for \$1.2 million of the increase. These increases were offset by decreases in cost of sales at other operating segments, particularly Liberty (\$1.8 million) and Arnold (\$2.3 million). Gross profit as a percentage of sales was approximately 35.7% in the three months ended June 30, 2017 compared to 35.8% in the three months ended June 30, 2016. Refer to "Results of Operations - Our Businesses" for a more detailed analysis of cost of sales by business segment.

Selling, general and administrative expense

On a consolidated basis, selling, general and administrative expense increased approximately \$34.8 million during the three month period ended June 30, 2017, compared to the corresponding period in 2016. The increase in selling, general and administrative expense in the 2017 quarter compared to 2016 is principally the result of the 5.11 Tactical acquisition in August 2016 (\$30.9 million) and Crosman in June 2017 (\$2.6 million, including \$1.4 million in transaction costs incurred for the acquisition of Crosman). Refer to "Results of Operations - Our Businesses" for a more detailed analysis of selling, general and administrative expense by business segment. At the corporate level, general and administrative expense was \$2.7 million in the second quarter of 2017 and \$2.3 million in the second quarter of 2016.

Fees to manager

Pursuant to the Management Services Agreement ("MSA"), we pay CGM a quarterly management fee equal to 0.5% (2.0% annually) of our consolidated adjusted net assets. We accrue for the management fee on a quarterly basis. For the three months ended June 30, 2017, we incurred approximately \$8.2 million in management fees as compared to \$6.6 million in fees in the three months ended June 30, 2016. The increase in the management fees that occurred is a result of the increase in consolidated net assets resulting from the acquisitions of 5.11 Tactical in the third quarter of 2016 and Crosman in the second quarter of 2017.

Amortization expense

Amortization expense for the three months ended June 30, 2017 increased \$6.6 million as compared to the three months ended June 30, 2016 as a result of the acquisition of 5.11 in August 2016 and the add-on acquisitions at Clean Earth and Ergobaby in 2016.

Loss on disposal of assets

Ergobaby recorded a \$6.7 million loss on disposal of assets during the second quarter of 2016 related to its decision to dispose of the Orbit Baby product line. Refer to the Ergobaby section under "Results of Operations - Our Businesses" for additional details regarding the loss on disposal.

Net sales

Edgar Filing: Compass Diversified Holdings - Form 10-Q

On a consolidated basis, net sales for the six months ended June 30, 2017 increased by approximately \$189.9 million or 46.6% compared to the corresponding period in 2016. Our acquisition of 5.11 in August 2016 contributed \$156.5 million to the increase in net sales and our acquisition of Crosman in June 2016 contributed \$9.8 million to the increase. During the six months ended June 30, 2017 compared to 2016, we also saw notable sales increases at Ergobaby (\$4.5 million, primarily due to the acquisition of Baby Tula), Clean Earth (\$15.2 million, primarily due to two acquisition in 2016 and one in 2017) and Sterno (\$9.3 million, primarily due to the acquisition of NII in January 2016), offset by decreases in sales at Liberty (\$3.3 million) and Arnold Magnetics (\$2.9 million). Refer to "Results of Operations - Our Businesses" for a more detailed analysis of net sales by business segment.

We do not generate any revenues apart from those generated by the businesses we own. We may generate interest income on the investment of available funds, but we expect such earnings to be minimal. Our investment in our businesses is typically in the form of loans from the Company to such businesses, as well as equity interests in those companies. Cash flows coming to the Trust and the Company are the result of interest payments on those loans, amortization of those loans and dividends on our equity ownership. However, on a consolidated basis, these items will be eliminated.

Cost of sales

On a consolidated basis, cost of sales increased approximately \$126.6 million during the six month period ended June 30, 2017, compared to the corresponding period in 2016. 5.11 accounted for \$104.1 million of the increase in cost of sales, including \$27.1 in expense related to the amortization of the inventory step-up resulting from purchase accounting during the six months ended June 30, 2017, while our Crosman acquisition accounted for \$7.3 million of the increase. Clean Earth accounted for \$11.7 million of the increase due to acquisitions in the prior and current year, and Sterno accounted for \$7.1 million of the increase. These increases were offset by decreases in cost of sales at other operating segments, particularly Liberty (\$1.4 million) and Arnold (\$3.6 million). Gross profit as a percentage of sales was approximately 34.2% in the six months ended June 30, 2017 compared to 34.6% in the six months ended June 30, 2016. Refer to "Results of Operations - Our Businesses" for a more detailed analysis of cost of sales by business segment.

Selling, general and administrative expense

On a consolidated basis, selling, general and administrative expense increased approximately \$71.2 million during the six month period ended June 30, 2017, compared to the corresponding period in 2016. The increase in selling, general and administrative expense in 2017 compared to 2016 is principally the result of the 5.11 acquisition in August 2016 (\$61.6 million), and Crosman in June 2017 (\$2.6 million, including \$1.4 million in transaction costs related to the acquisition). We also saw notable increases in selling general and administrative expenses for the six months ended June 30, 2017 at Clean Earth (\$3.5 million due to acquisition in the current and prior year) and Sterno (\$1.4 million). Refer to "Results of Operations - Our Businesses" for a more detailed analysis of selling, general and administrative expense by business segment. At the corporate level, general and administrative expense increased from \$5.9 million in the six months ended June 30, 2016 to \$6.2 million in the six months ended June 30, 2017.

Fees to manager

Pursuant to the MSA, we pay CGM a quarterly management fee equal to 0.5% (2.0% annually) of our consolidated adjusted net assets. We accrue for the management fee on a quarterly basis. For the six months ended June 30, 2017, we incurred approximately \$16.0 million in expense for these fees compared to \$13.0 million for the corresponding period in 2016. The increase in the management fees that occurred due to the increase in consolidated net assets resulting from the the acquisition of 5.11 in August 2016, and the acquisition of Crosman in June 2017.

Amortization expense

Amortization expense for the six months ended June 30, 2017 increased \$9.5 million as compared to the six months ended June 30, 2016 as a result of the acquisition of 5.11 in August 2016 and the add-on acquisitions at Clean Earth and Ergobaby in 2016.

Impairment expense

Arnold performed an interim impairment test at each of its reporting units in the fourth quarter of 2016, which resulted in the recording of preliminary impairment expense of the PMAG reporting unit of \$16.0 million. In the first quarter of 2017, Arnold completed the impairment testing of the PMAG reporting unit and recorded an additional \$8.9 million impairment expense based on the results of the Step 2 impairment testing.

Loss on disposal of assets

Ergobaby recorded a \$6.7 million loss on disposal of assets during the second quarter of 2016 related to its decision to dispose of the Orbitbaby product line. Refer to the Ergobaby section under "Results of Operations - Our Businesses" for additional details regarding the loss on disposal.

Results of Operations - Our Businesses

The following discussion reflects a comparison of the historical results of operations of each of our businesses for the three and six month periods ending June 30, 2017 and June 30, 2016 on a stand-alone basis. For the 2017 acquisition of Crosman, the following discussion reflects pro forma results of operations for the three and six months ended June 30, 2017 and 2016 as if we had acquired Crosman January 1, 2016. For the 2016 acquisition of 5.11, the following discussion reflects pro forma results of operations for the three and six months ended June 30, 2016 as if we had acquired 5.11 on January 1, 2016. Where appropriate, relevant pro forma adjustments are reflected as part of the historical operating results. We believe this

is the most meaningful comparison of the operating results for each of our business segments. The following results of operations at each of our businesses are not necessarily indicative of the results to be expected for a full year.

Branded Consumer Businesses

5.11 Tactical

Overview

5.11 is a leading provider of purpose-built tactical apparel and gear for law enforcement, firefighters, EMS, and military special operations as well as outdoor and adventure enthusiasts. 5.11 is a brand known for innovation and authenticity, and works directly with end users to create purpose-built apparel and gear designed to enhance the safety, accuracy, speed and performance of tactical professionals and enthusiasts worldwide. Headquartered in Irvine, California, 5.11 operates sales offices and distribution centers globally, and 5.11 products are widely distributed in uniform stores, military exchanges, outdoor retail stores, its own retail stores and on 511tactical.com.

We made loans to, and purchased a controlling interest in, 5.11 for a net purchase price of \$408.2 million in August 2016, representing approximately 97.5% of the initial outstanding equity of 5.11 ABR Corp.

Results of Operations

The table below summarizes the income from operations data for 5.11 Tactical for the three and six months ended June 30, 2017, and the pro forma income from operations data for the three and six months ended June 30, 2016.

(in thousands)	Three months ended		Six months ended

Pro forma results of operations of 5.11 Tactical for the three and six months ended June 30, 2016 include the following pro forma adjustments, applied to historical results as if we had acquired 5.11 on January 1, 2016:

⁽¹⁾ The purchase price allocation for 5.11 included a step-up in the value of inventory of \$39.1 million which was recognized through cost of sales over the inventory turns of 5.11 of approximately 1.3x annually. \$17.4 million in expense was recognized from the date of acquisition through December 31, 2016, \$13.0 million in expense was recognized in the first quarter of 2017 and \$8.7 million in expense was recognized in the second quarter of 2017.

⁽²⁾ Selling, general and administrative expense was increased by approximately \$0.2 and \$0.3 million in the three and six months ended June 30, 2016, respectively, as a result of stock compensation expense related to stock options that were granted to 5.11 employees as a result of the acquisition.

⁽³⁾ Represents management fees that would have been payable to the Manager in the first and second quarter of 2016.

⁽⁴⁾ Represents amortization of intangible assets in the three and six month period ended June 30, 2016 for amortization expense associated with the allocation of the fair value of intangible assets resulting from the purchase price allocation in connection with our acquisition.

Three months ended June 30, 2017 compared to the pro forma three months ended June 30, 2016

Net sales

Net sales for the three months ended June 30, 2017 were \$78.0 million as compared to net sales of \$70.0 million for the three months ended June 30, 2016, an increase of \$7.9 million, or 11.3%. This increase is due primarily to an increase in international direct-to-agency business (\$2.8 million) and retail and e-commerce revenues (\$4.0 million). Direct-to-agency sales represent large non-recurring contracts consisting primarily of special-make-up ("SMU") uniform product designed for large law enforcement divisions. Retail and e-commerce revenues grew 51%, driven by

growing demand in direct to consumer

37

channels. Retail revenues grew due to eight new retail store openings since June 2016 (bringing the total store count to 14 as of June 30, 2017).

Cost of sales

Cost of sales for the three months ended June 30, 2017 were \$49.5 million as compared to \$39.2 million for the comparable period in 2016, an increase of \$10.3 million. Gross profit as a percentage of sales was 36.5% in the three months ended June 30, 2017 as compared to 44.1% in the three months ended June 30, 2016. Cost of sales for the three months ended June 30, 2017 includes \$8.7 million in expense related to a \$39.1 million inventory step-up resulting from the acquisition purchase price allocation. The total inventory step-up amount of \$39.1 million was expensed to cost of goods sold over the expected turns of 5.11's inventory. Excluding the effect of the \$8.7 million of expense associated with the inventory step-up, gross profit as a percentage of sales increased 370 basis points to 47.7% for the three months ended June 30, 2017 compared to 44.1% for the three months ended June 30, 2016. This increase in gross profit percentage is due to lower product costs from efficiency in sourcing operations, improved gross margins on new product introductions, and a larger proportion of revenues from the higher margin retail and e-commerce distribution channels as compared to the prior period.

Selling, general and administrative expense

Selling, general and administrative expense for the three months ended June 30, 2017 was \$30.9 million, or 39.6% of net sales compared to \$26.4 million, or 37.8%, for the comparable period in 2016. This increase in selling, general and administrative expense was primarily due to eight new retail stores that were not open in the prior comparable period, and integration service fees billed by CGM to 5.11.

(Loss) income from operations

Loss from operations for the three months ended June 30, 2017 was \$4.8 million, a decrease of \$6.8 million when compared to income from operations of \$2.0 million for the same period in 2016, based on the factors described above.

Six months ended June 30, 2017 compared to the pro forma six months ended June 30, 2016

Net sales

Net sales for the six months ended June 30, 2017 were \$156.5 million as compared to net sales of \$138.0 million for the six months ended June 30, 2016, an increase of \$18.5 million, or 13.4%. This increase is due primarily to an increase in international direct-to-agency business (\$12.5 million). Direct-to-agency sales represent large non-recurring contracts consisting primarily of special-make-up (SMU) uniform product designed for large law enforcement divisions. Retail and e-commerce revenues grew \$6.4 million, or 45%, driven by growing demand in direct to consumer channels. Retail revenues grew due to eight new retail store openings since June 2016 (bringing the total store count to 14 as of June 30, 2017). The consumer wholesale channel experienced a \$1.6 million decrease due primarily to the bankruptcy of a large outdoor retail customer.

Cost of sales

Cost of sales for the six months ended June 30, 2017 were \$104.1 million as compared to \$77.1 million for the comparable period in 2016, an increase of \$27.1 million. Gross profit as a percentage of sales was 33.4% in the six months ended June 30, 2017 as compared to 44.2% in the six months ended June 30, 2016. Cost of sales for the six months ended June 30, 2017 includes \$21.7 million in expense related to a \$39.1 million inventory step-up resulting from the acquisition purchase price allocation. The total inventory step-up amount of \$39.1 million was expensed to cost of goods sold over the expected turns of 5.11's inventory. Excluding the effect of the \$21.7 million of expense associated with the inventory step-up, gross profit as a percentage of sales increased 320 basis points to 47.3% for the six months ended June 30, 2017 compared to 44.2% for the six months ended June 30, 2016. This increase in gross profit percentage is due to lower product costs from efficiency in sourcing operations, improved gross margins on new product introductions, and a larger proportion of revenues from the higher margin retail and e-commerce distribution channels as compared to the prior period.

Selling, general and administrative expense

Selling, general and administrative expense for the six months ended June 30, 2017 was \$61.6 million, or 39.4% of net sales compared to \$53.7 million, or 38.9%, for the comparable period in 2016. This increase in selling, general and administrative expense was primarily due to an accounts receivable reserve for a large outdoor retail customer that filed for bankruptcy, eight new retail stores that were not open in the prior comparable period, and integration service

fees billed by CGM to 5.11.

(Loss) income from operations

Loss from operations for the six months ended June 30, 2017 was \$14.3 million, a decrease of \$16.7 million when compared to income from operations of \$2.4 million for the same period in 2016, based on the factors described above.

Crosman Overview

Crosman, headquartered in Bloomfield, New York, is a leading designer, manufacturer, and marketer of airguns, archery products and related accessories. Crosman offers its products under the highly recognizable Crosman, Benjamin and CenterPoint brands that are available through national retail chains, mass merchants, dealer and distributor networks. Airguns historically represent Crosman's largest product category, with more than 50% of gross sales. The airgun product category consists of air rifles, air pistols and a range of accessories including targets, holsters and cases. Crosman's other primary product categories are archery, with products including CenterPoint crossbows and the Pioneer Airbow, consumables, which includes steel and plastic BBs, lead pellets and CO2 cartridges, and airsoft products. We made loans to, and purchased a controlling interest in, Crosman for a net purchase price of \$150.8 million in June 2016, representing approximately 98.9% of the initial outstanding equity of Crosman Corp.

Results of Operations

The table below summarizes the pro forma income from operations data for Crosman for the three and six months ended June 30, 2017 and June 30, 2016. The purchase price allocation for Crosman has not been prepared therefore the pro forma amounts reflect historical amounts and do not reflect depreciation, amortization or the effect of an expected step-up in the fair value of inventory related to the acquisition purchase price.

Pro forma three months ended June 30, 2017 compared to the pro forma three months ended June 30, 2016

Net sales

Net sales for the three months ended June 30, 2017 were \$28.6 million, an increase of \$1.3 million or 4.7%, compared to the same period in 2016. The increase in net sales for the three months ended June 30, 2017 is primarily due to growth in the archery products category.

Cost of sales

Cost of sales for the three months ended June 30, 2017 were \$21.7 million as compared to \$20.6 million for the comparable period in 2016, an increase of \$1.1 million, which is consistent with the net sales increase. Gross profit as a percentage of sales was 24.3% for the three months ended June 30, 2017 as compared to 24.7% in the three months ended June 30, 2016 due to the mix of products sold during the two periods.

Selling general and administrative expense

Selling, general and administrative expense for the three months ended June 30, 2017 was \$4.7 million, or 16.5% of net sales compared to \$3.3 million or 12.1%, for the three months ended June 30, 2016. The June 30, 2017 expense includes \$1.4 million in transaction costs paid in relation to the acquisition of Crosman in June 2017.

Income from operations

Income from operations for the three months ended June 30, 2017 was \$0.1 million, a decrease of \$1.2 million when compared to income from operations of \$1.4 million for the same period in 2016, based on the factors described above.

Pro forma six months ended June 30, 2017 compared to the pro forma six months ended June 30, 2016

Net sales

Edgar Filing: Compass Diversified Holdings - Form 10-Q

Net sales for the six months ended June 30, 2017 were \$51.4 million compared to net sales of \$50.9 million for the six months ended June 30, 2016, an increase of \$0.5 million or 1.1%. The increase in net sales for the six months ended June 30, 2017 is primarily due to growth in the archery products category.

Cost of sales

Cost of sales for the six month period ended June 30, 2017 were \$38.2 million, an increase of \$0.3 million as compared to the comparable period in 2016. Gross profit as a percentage of sales was 25.7% for the six months ended June 30, 2017 as compared to 25.5% for the six months ended June 30, 2016 due to the mix of products sold during the two periods.

Selling general and administrative expense

Selling, general and administrative expense for the six months ended June 30, 2017 was \$8.6 million, or 16.7% of net sales compared to \$7.4 million, or 14.5%, for the six months ended June 30, 2016. The June 30, 2017 expense includes \$1.4 million in transaction costs paid in relation to the acquisition of Crosman in June 2017. Excluding the transaction costs from the selling, general and administrative expense, there was no material change in expense items.

Income from operations

Income from operations for the six months ended June 30, 2017 was \$0.4 million, a decrease of \$1.0 million when compared to income from operations of \$1.4 million for the comparable period in 2016, based on the factors described above.

Ergobaby

Overview

Ergobaby, headquartered in Los Angeles, California, is a designer, marketer and distributor of wearable baby carriers and accessories, blankets and swaddlers, nursing pillows, and related products. Ergobaby primarily sells its Ergobaby and Baby Tula branded products through brick-and-mortar retailers, national chain stores, online retailers, its own websites and distributors and derives approximately 59% of its sales from outside of the United States.

On May 12, 2016, Ergobaby acquired New Baby Tula LLC (“Baby Tula”) for approximately \$73.8 million, excluding a potential earn-out payment. Baby Tula designs, markets and distributes baby carriers and accessories.

Results of Operations

The table below summarizes the income from operations data for Ergobaby for the three and six months ended June 30, 2017 and June 30, 2016.

Three months ended June 30, 2017 compared to the three months ended June 30, 2016

Net sales

Net sales for the three months ended June 30, 2017 were \$27.3 million, an increase of \$1.3 million or 5.1% compared to the same period in 2016. Net sales from Baby Tula for the second quarter were \$6.3 million, compared to \$4.8 million for the corresponding period in 2016. During the second quarter of 2016, Ergobaby’s Board of Directors approved a plan to dispose of the Orbit Baby infant travel system product line. Net sales from Orbit Baby branded infant travel systems were \$2.1 million for the three months ended June 30, 2016. During the three months ended June 30, 2017, international sales were approximately \$16.4 million, representing an increase of \$2.8 million over the corresponding period in 2016. International sales from Baby Tula for the second quarter of 2017 were \$2.4 million.

International sales of baby carriers and accessories, including Baby Tula, increased by approximately \$3.2 million and international sales of infant travel systems decreased by approximately \$0.4 million during the quarter ended June 30, 2017 as compared to the comparable quarter in 2016. Domestic sales were \$10.9 million in the second quarter of 2017, reflecting a decrease of \$1.5 million compared to the corresponding period in 2016. The decrease in domestic sales was due to a \$1.7 million decrease in domestic sales of infant travel systems and accessories, which was partially offset by a \$0.2 million increase in sales of baby carrier and accessories. Baby carriers

and accessories represented 100% of sales in the three months ended June 30, 2017 compared to 92% in the same period in 2016.

Cost of sales

Cost of sales was approximately \$9.0 million for the three months ended June 30, 2017, as compared to \$8.5 million for the three months ended June 30, 2016, an increase of \$0.4 million. Cost of sales for Baby Tula were approximately \$2.1 million. The increase in cost of sales was primarily attributable to higher sales compared to the prior period.

Gross profit as a percentage of sales was 67.1% for both the quarter ended June 30, 2017 and 2016.

Selling, general and administrative expense

Selling, general and administrative expense for the three months ended June 30, 2017 decreased to approximately \$9.1 million or 33.3% of net sales compared to \$9.7 million or 37.4% of net sales for the same period of 2016. The \$0.6 million decrease in the three months ended June 30, 2017 compared to the same period in 2016 was primarily attributable to reductions in Baby Tula related acquisition expenses, incurred in 2016, which were not recorded in 2017.

Amortization of intangible assets

Amortization of intangible assets increased \$4.9 million for the three months ended June 30, 2017 as compared to the three months ended June 30, 2016 due primarily to the amortization of intangible assets associated with the acquisition of Baby Tula in the prior year.

Loss on disposal of assets

Ergobaby recorded a \$6.7 million loss on disposal of assets during the second quarter of 2016 related to its decision to dispose of the Orbit Baby product line. The loss is comprised of the write-off of intangible assets of \$5.5 million, property, plant and equipment of \$0.4 million, and other assets of \$0.8 million.

Income from operations

Income from operations for the three months ended June 30, 2017 increased \$3.3 million, to \$3.6 million, compared to \$0.3 million for the same period of 2016, primarily as a result of the loss on disposal of assets that was recorded in 2016.

Six months ended June 30, 2017 compared to six months ended June 30, 2016

Net sales

Net sales for the six months ended June 30, 2017 were \$49.9 million, an increase of \$4.5 million or 10.0% compared to the same period in 2016. Net sales from Baby Tula for the six months ended June 30, 2017 were \$11.7 million, compared to \$4.8 million in sales in the post-May acquisition period in 2016. During the six months ended June 30, 2017, international sales were approximately \$29.2 million, representing an increase of \$5.3 million over the corresponding period in 2016. International sales of baby carriers and accessories increased by approximately \$6.0 million and international sales of infant travel systems decreased by approximately \$0.7 million during the six months ended June 30, 2017 as compared to the comparable six-month period in 2016. Baby Tula international sales represent an increase of \$3.3 million. Domestic sales were \$20.7 million during the six months ended June 30, 2017, reflecting a decrease of \$0.8 million compared to the corresponding period in 2016. The decrease in domestic sales is attributable to a \$3.4 million decrease in domestic infant travel systems and accessories sales, a \$1.1 million decrease in sales of Ergo branded baby carrier and accessories to national and specialty retail accounts, partially offset by a \$3.6 million increase in Baby Tula domestic sales. The decrease in baby carrier and accessories sales was attributable to the overall weakness in the U.S. retail market during the six months ended June 30, 2017. The decrease in infant travel systems and accessories sales was primarily attributable to exiting the Orbit Baby business during 2016. Baby carriers and accessories represented 100% of sales in the six months ended June 30, 2017 compared to 91% in the same period in 2016.

Cost of sales

Edgar Filing: Compass Diversified Holdings - Form 10-Q

Cost of sales was approximately \$16.5 million for the six months ended June 30, 2017, as compared to \$15.4 million for the six months ended June 30, 2016, an increase of \$1.1 million. The increase in cost of sales was primarily attributable to higher sales compared to the prior period. Gross profit as a percentage of sales was 67.0% for the six months ended June 30, 2017 compared to 66.2% for the same period in 2016.

Selling, general and administrative expense

Selling, general and administrative expense for the six months ended June 30, 2017 increased to approximately \$18.4 million or 36.8% of net sales compared to \$17.5 million or 38.6% of net sales for the same period of 2016. The \$0.8 million increase in the six months ended June 30, 2017 compared to the same period in 2016 was primarily attributable to increases in

variable expenses, such as distribution and fulfillment and commission, due to the increases in direct market sales, and to increases in employee related costs due to increased staffing levels, due in part to the addition of Baby Tula in 2016. These increases were partially offset by lower marketing expenses, due to the timing of marketing spend, and lower acquisition costs, related to the 2016 Baby Tula acquisition.

Amortization of intangible assets

Amortization of intangible assets increased \$4.8 million for the six months ended June 30, 2017 as compared to six months ended June 30, 2016 due primarily to the amortization of intangible assets associated with the acquisition of Baby Tula in the prior year.

Loss on disposal of assets

Ergobaby recorded a \$6.7 million loss on disposal of assets during the second quarter of 2016 related to its decision to dispose of the Orbit Baby product line. The loss was comprised of the write-off of intangible assets of \$5.5 million, property, plant and equipment of \$0.4 million, and other assets of \$0.8 million.

Income from operations

Income from operations for the six months ended June 30, 2017 increased \$4.4 million, to \$8.8 million, compared to \$4.4 million for the same period of 2016, primarily as a result of the loss on disposal of assets that was recorded in 2016.

Liberty Safe

Overview

Based in Payson, Utah and founded in 1988, Liberty Safe is the premier designer, manufacturer and marketer of home and gun safes in North America. From its over 314,000 square foot manufacturing facility, Liberty Safe produces a wide range of home and gun safe models in a broad assortment of sizes, features and styles ranging from an entry level product to good, better and best products. Products are marketed under the Liberty brand, as well as a portfolio of licensed and private label brands, including Cabela's, Case IH and John Deere. Liberty Safe's products are the market share leader and are sold through an independent dealer network ("Dealer sales") in addition to various sporting goods, farm and fleet and home improvement retail outlets ("Non-Dealer sales"). Liberty has the largest independent dealer network in the industry. Historically, approximately 55% of Liberty Safe's net sales are Non-Dealer sales and 45% are Dealer sales.

Results of Operations

The table below summarizes the income from operations data for Liberty Safe for the three and six months ended June 30, 2017 and June 30, 2016.

(in thousands)	Three months ended		Six months ended

Three months ended June 30, 2017 compared to the three months ended June 30, 2016

Net sales

Net sales for the quarter ended June 30, 2017 decreased approximately \$2.3 million or 10.5%, to \$19.6 million, compared to the corresponding quarter ended June 30, 2016. Non-Dealer sales were approximately \$8.3 million in the three months ended June 30, 2017 compared to \$10.2 million for the three months ended June 30, 2016 representing a

decrease of \$1.9 million or 18.6%. Dealer sales totaled approximately \$11.3 million in the three months ended June 30, 2017 compared to \$11.7 million in the same period in 2016, representing a decrease of \$0.4 million or 3.4%. The decrease in second quarter 2017 sales for the Non-Dealer channel is primarily attributable to the bankruptcy filing by a national retailer in the first quarter of 2017. The decrease in sales in the Dealer channel can be attributed to lower overall market demand in the second quarter of 2017 as compared to the second quarter of 2016.

Cost of sales

Cost of sales for the three months ended June 30, 2017 decreased approximately \$1.8 million when compared to the same period in 2016. Gross profit as a percentage of net sales totaled approximately 28.6% and 27.8% for the quarters ended June 30, 2017 and June 30, 2016, respectively. The increase in gross profit as a percentage of sales during the three months ended June 30, 2017 compared to the same period in 2016 is primarily attributable to lower sales to national accounts, which have lower margins, in the second quarter of 2017 versus the prior year.

Selling, general and administrative expense

Selling, general and administrative expense was \$3.1 million for both the three months ended June 30, 2017 and June 30, 2016. Selling, general and administrative expense represented 15.8% of net sales in 2017 and 14.1% of net sales for the same period of 2016. The increase in selling, general and administrative expense as a percentage of net sales is a result of the decrease in net sales for the quarter ended June 30, 2017 as compared to the corresponding second quarter in 2016.

Income from operations

Income from operations decreased \$0.3 million during the three months ended June 30, 2017 to \$2.4 million, compared to the corresponding period in 2016. This decrease was principally based on the factors described above.

Six months ended June 30, 2017 compared to six months ended June 30, 2016

Net sales

Net sales for the six months ended June 30, 2017 decreased approximately \$3.3 million or 6.5%, to \$47.6 million, compared to the corresponding six months ended June 30, 2016. Non-Dealer sales were approximately \$22.0 million in the six months ended June 30, 2017 compared to \$24.5 million for the six months ended June 30, 2016, representing a decrease of \$2.5 million or 10.2%. Dealer sales totaled approximately \$25.6 million in the six months ended June 30, 2017 compared to \$26.4 million in the same period in 2016, representing a decrease of \$0.8 million or 3.0%. The decrease in sales is attributable to lower overall market demand during the first half of 2017 as compared to the prior year.

Cost of sales

Cost of sales for the six months ended June 30, 2017 decreased approximately \$1.4 million when compared to the same period in 2016. Gross profit as a percentage of net sales totaled approximately 28.3% and 30.2% for the six months ended June 30, 2017 and June 30, 2016, respectively. The decrease in gross profit as a percentage of sales during the six months ended June 30, 2017 compared to the same period in 2016 is attributable to higher raw material costs.

Selling, general and administrative expense

Selling, general and administrative expense for the six months ended June 30, 2017 increased to approximately \$8.1 million or 17.0% of net sales compared to \$7.2 million or 14.0% of net sales for the same period of 2016. The \$0.9 million increase during the six months ended June 30, 2017 is primarily attributable to a \$1.4 million reserve established to reserve against outstanding accounts receivable of a retail customer that filed for bankruptcy in the first quarter of 2017.

Income from operations

Income from operations decreased \$2.6 million during the six months ended June 30, 2017 to \$4.9 million, compared to \$7.5 million during the same period in 2016, principally as a result of the decrease in sales, as described above.

Manitoba Harvest

Overview

Headquartered in Winnipeg, Manitoba, Manitoba Harvest is a pioneer and leader in branded, hemp-based foods and ingredients. Manitoba Harvest's products, which management believes are one of the fastest growing in the hemp food market and among the fastest growing in the natural foods industry, are currently carried in approximately 13,000 retail stores across the United States and Canada. The Company's hemp-based, 100% all-natural consumer products include hemp hearts, protein powder, hemp oil and snacks.

Results of Operations

The table below summarizes the income from operations data for Manitoba Harvest for the three and six months ended June 30, 2017 and June 30, 2016.

Edgar Filing: Compass Diversified Holdings - Form 10-Q

Three months ended June 30, 2017 compared to three months ended June 30, 2016

Net sales

Net sales for the three months ended June 30, 2017 were approximately \$15.5 million as compared to \$14.7 million for the three months ended June 30, 2016, an increase of \$0.9 million, or 5.9%. During the second quarter of 2017, Manitoba Harvest experienced strong growth in their branded hemp heart and hemp oil businesses, partially offset by declines in branded protein powders and the discontinuance of hemp heart bars. International sales were \$3.4 million in the second quarter of 2017 compared to \$6.3 million in the comparable prior year quarter, primarily driven by an oversaturation of hemp ingredient supply in an international market in the second half of 2016.

Cost of sales

Cost of sales for the three months ended June 30, 2017 was approximately \$8.7 million compared to approximately \$8.8 million for the same period in 2016. Gross profit as a percentage of sales was 44.0% in the quarter ended June 30, 2017 and 40.2% in the quarter ended June 30, 2016. The increase in gross profit as a percentage of sales in the second quarter of 2017 as compared to the same quarter in the prior year is primarily attributable to higher sales of branded hemp products, which have a higher gross margin percentage than our bulk ingredient business.

Selling, general and administrative expense

Selling, general and administrative expense for the three months ended June 30, 2017 decreased to approximately \$5.6 million, or 36.3% of net sales compared to \$6.3 million, or 42.6% of net sales for the same period in 2016. The \$0.6 million decrease in the three months ended June 30, 2017 compared to the same period in 2016 was primarily due to lower customer shipping costs, more efficient field selling costs and lower event and sampling spending.

Income (loss) from operations

Income from operations for the three months ended June 30, 2017 increased \$1.8 million when compared to the same period in 2016, based on the factors described above.

Six months ended June 30, 2017 compared to six months ended June 30, 2016

Net sales

Net sales for the six months ended June 30, 2017 were approximately \$28.7 million as compared to \$28.4 million for the six months ended June 30, 2016, an increase of \$0.3 million, or 1.0%. Manitoba Harvest experienced strong growth in their U.S. Club and online businesses, driven by sales of branded hemp heart products. Year-to-date growth was muted by declines in bulk hemp seed ingredient sales to international markets. International sales in the six months ended June 30, 2017 were \$6.3 million as compared to \$12.4 million for the six months ended June 30, 2016, a decrease of \$6.1 million.

Cost of sales

Cost of sales for the six months ended June 30, 2017 was approximately \$15.6 million compared to approximately \$15.5 million for the same period in 2016. Gross profit as a percentage of sales was 45.5% in the six months ended

Edgar Filing: Compass Diversified Holdings - Form 10-Q

June 30, 2017 and 45.6% in the six months ended June 30, 2016, a decrease of 10 basis points. For the first six months of the year, gross profit margins in our branded business expanded due to improving product mix and lower material costs. Gross profit margins in our ingredient business declined due to less fixed costs leverage and increased hemp seed cleaning costs.

Selling, general and administrative expense

Selling, general and administrative expense for the six months ended June 30, 2017 decreased to approximately \$10.4 million or 36.4% of net sales compared to \$12.0 million or 42.3% of net sales for the same period in 2016. The \$1.6 million decrease in the six months ended June 30, 2017 compared to the same period in 2016 was primarily due to lower customer shipping costs, more efficient field selling operations and the timing of our consumer promotion spending.

Income (loss) from operations

Income from operations for the six months ended June 30, 2017 was approximately \$0.2 million, compared to loss from operations of \$1.4 million in the same period in 2016, based on the factors described above.

Niche Industrial Businesses

Advanced Circuits

Overview

Advanced Circuits is a provider of small-run, quick-turn and volume production printed circuit boards ("PCBs") to customers throughout the United States. Historically, small-run and quick-turn PCBs have represented approximately 54% of Advanced Circuits' gross revenues. Small-run and quick-turn PCBs typically command higher margins than volume production PCBs given that customers require high levels of responsiveness, technical support and timely delivery of small-run and quick-turn PCBs and are willing to pay a premium for them. Advanced Circuits is able to meet its customers' demands by manufacturing custom PCBs in as little as 24 hours, while maintaining over 98.0% error-free production rates and real-time customer service and product tracking 24 hours per day.

Results of Operations

The table below summarizes the income from operations data for Advanced Circuits for the three and six months ended June 30, 2017 and June 30, 2016.

Three months ended June 30, 2017 compared to the three months ended June 30, 2016

Net sales

Net sales for the three months ended June 30, 2017 increased approximately \$0.8 million to \$22.5 million compared to the three months ended June 30, 2016. The increase in net sales was due to increased sales in Quick-Turn Small-Run PCBs by approximately \$0.1 million, Quick-Turn Production PCBs by approximately \$0.7 million, Long-Lead Time PCBs by approximately \$0.1 million, and Subcontract sales by approximately \$0.2 million, offset by a decrease in Assembly sales by approximately \$0.4 million. On a consolidated basis, Quick-Turn Small-Run PCBs comprised approximately 21.0% of gross sales and Quick-Turn Production PCBs represented approximately 32.8% of gross sales for the second quarter of 2017. Quick-Turn Small-Run PCBs comprised approximately 21.4% of gross sales and Quick-Turn Production PCBs represented approximately 30.8% of gross sales for the second quarter of 2016.

Cost of sales

Edgar Filing: Compass Diversified Holdings - Form 10-Q

Cost of sales for both the three months ended June 30, 2017 and the three months ended June 30, 2016 were \$12.1 million. Gross profit as a percentage of sales increased 200 basis points during the three months ended June 30, 2017 compared to the corresponding period in 2016 (46.2% at June 30, 2017 compared to 44.2% at June 30, 2016) primarily as a result of sales mix.

45

Selling, general and administrative expense

Selling, general and administrative expense was approximately \$3.7 million in the three months ended June 30, 2017 and \$3.5 million in the three months ended June 30, 2016. Selling, general and administrative expense represented 16.3% of net sales for the three months ended June 30, 2017 compared to 16.2% of net sales in the corresponding period in 2016.

Income from operations

Income from operations for the three months ended June 30, 2017 was approximately \$6.3 million compared to \$5.7 million in the same period in 2016, an increase of approximately \$0.6 million, principally as a result of the factors described above.

Six months ended June 30, 2017 compared to six months ended June 30, 2016

Net sales

Net sales for the six months ended June 30, 2017 increased approximately \$0.7 million to \$44.0 million as compared to the six months ended June 30, 2016. The increase in net sales during the six months ended June 30, 2017 was due to an increase in Quick-Turn Production PCBs by approximately \$1.0 million, Long-Lead Time PCBs by approximately \$0.3 million, Subcontract sales by approximately \$0.3 million, and a decrease in customer promotions by approximately \$0.2 million. This was partially offset by decreases in Assembly sales by approximately \$0.7 million and Quick-Turn Small-Run PCBs by approximately \$0.4 million. On a consolidated basis, Quick-Turn Small-Run comprised approximately 20.9% of gross sales and Quick-Turn Production PCBs represented approximately 33.2% of gross sales for the six months ended June 30, 2017. Quick-Turn Small-Run comprised approximately 21.9% of gross sales and Quick-Turn Production PCBs represented approximately 31.5% of gross sales for the six months ended June 30, 2016.

Cost of sales

Cost of sales for both the six months ended June 30, 2017 and June 30, 2016 were \$24.0 million. Gross profit as a percentage of sales increased 90 basis points during the six months ended June 30, 2017 compared to the same period in 2016 (45.5% at June 30, 2017 compared to 44.6% at June 30, 2016) primarily as a result of sales mix.

Selling, general and administrative expense

Selling, general and administrative expense was approximately \$7.2 million in the six months ended June 30, 2017 as compared to \$7.0 million in the six months ended June 30, 2016. Selling, general and administrative expense represented 16.4% of net sales for the six months ended June 30, 2017 compared to 16.1% of net sales in the prior year period.

Income from operations

Income from operations for the six months ended June 30, 2017 was approximately \$11.9 million compared to \$11.5 million in the same period in 2016, an increase of approximately \$0.4 million, principally as a result of the factors described above.

Arnold Magnetics

Overview

Founded in 1895 and headquartered in Rochester, New York, Arnold Magnetics is a global manufacturer of engineered magnetic solutions for a wide range of specialty applications and end-markets, including aerospace and defense, motorsport/automotive, oil and gas, medical, general industrial, electric utility, reprographics and advertising specialties markets. Arnold is the largest and, we believe, most technically advanced U. S. manufacturer of engineered magnets. Arnold is one of two domestic producers to design, engineer and manufacture rare earth magnetic solutions. Arnold operates a 70,000 square foot manufacturing assembly and distribution facility in Rochester, New York with nine additional facilities worldwide, including sites in the United Kingdom, Switzerland and China. Arnold serves customers via three primary product sectors:

-

Edgar Filing: Compass Diversified Holdings - Form 10-Q

Permanent Magnet and Assemblies and Reprographics (PMAG) (historically approximately 70% of net sales) - High performance permanent magnets and magnetic assemblies with a wide variety of applications including precision motor/generator sensors as well as beam focusing and reprographics applications;

• Flexible Magnets ("Flexmag") (historically approximately 20% of net sales) - Flexible bonded magnetic materials for commercial printing, advertising, and industrial applications; and

• Precision Thin Metals (PTM) (historically approximately 10% of net sales) - Ultra thin metal foil products utilizing magnetic and non- magnetic alloys.

Results of Operations

The table below summarizes the income from operations data for Arnold Magnetics for the three and six months ended June 30, 2017 and June 30, 2016.

Three months ended June 30, 2017 compared to the three months ended June 30, 2016

Net sales

Net sales for the three months ended June 30, 2017 were approximately \$26.4 million, a decrease of \$2.1 million compared to the same period in 2016. The decrease in net sales is primarily a result of a decrease in aerospace and defense and reprographic sales in the PMAG reporting unit. International sales were \$10.1 million in the three months ended June 30, 2017 as compared to \$10.6 million in the three months ended June 30, 2016, a decrease of \$0.6 million, primarily as a result of the decrease in sales at PMAG.

Cost of sales

Cost of sales for the three months ended June 30, 2017 were approximately \$19.5 million compared to approximately \$21.8 million in the same period of 2016. Gross profit as a percentage of sales increased from 23.5% for the quarter ended June 30, 2016 to 26.3% in the quarter ended June 30, 2017 principally due to improved material costs.

Selling, general and administrative expense

Selling, general and administrative expense in the three month period ended June 30, 2017 was \$4.1 million as compared to approximately \$3.3 million for the three months ended June 30, 2016. The increase in expense is primarily attributable to increased legal costs and professional fees.

Income from operations

Income from operations for the three months ended June 30, 2017 was approximately \$1.8 million, a decrease of \$0.5 million when compared to the same period in 2016, principally as a result of the factors noted above.

Six months ended June 30, 2017 compared to six months ended June 30, 2016

Net sales

Net sales for the six months ended June 30, 2017 were approximately \$52.9 million, a decrease of \$2.9 million compared to the same period in 2016. The decrease in net sales is primarily a result of decreases in the PMAG (\$2.2 million) and FlexMag (\$1.5 million) product sectors. PMAG sales represented approximately 73% of net sales for both the six months ended June 30, 2017 and the six months ended June 30, 2016. The decrease in PMAG sales is principally attributable to lower sales of reprographic products. The decrease in FlexMag sales is attributable to lower overall customer demand.

International sales were \$21.1 million during the six months ended June 30, 2017 compared to \$21.4 million during the same period in 2016, a decrease of \$0.3 million or 1.5%. The decrease in international sales is due to a decrease in

sales at PMAG.

Cost of sales

Cost of sales for the six months ended June 30, 2017 were approximately \$39.7 million compared to approximately \$43.3 million in the same period of 2016. Gross profit as a percentage of sales increased from 22.5% for the six months ended June 30, 2016 to 25.0% in the six months ended June 30, 2017 principally due to a reduction in material costs.

47

Selling, general and administrative expense

Selling, general and administrative expense in the six month period ended June 30, 2017 was \$8.9 million as compared to approximately \$7.6 million for the six months ended June 30, 2016. The increase in expense is primarily attributable to increased legal and professional fees.

Impairment expense

Arnold performed an interim impairment test at each of its reporting units in the fourth quarter of 2016, which resulted in the recording of preliminary impairment expense of the PMAG reporting unit of \$16.0 million. In the first quarter of 2017, Arnold completed the impairment testing of the PMAG reporting unit and recorded an additional \$8.9 million impairment expense based on the results of the Step 2 impairment testing.

(Loss) income from operations

Loss from operations for the six months ended June 30, 2017 was approximately \$6.6 million, a decrease of \$9.5 million when compared to the same period in 2016, principally as a result of the impairment expense recognized in the first quarter of 2017, and the factors described above.

Clean Earth

Overview

Founded in 1990 and headquartered in Hatboro, Pennsylvania, Clean Earth is a provider of environmental services for a variety of contaminated materials. Clean Earth provides a one-stop shop solution that analyzes, treats, documents and recycles waste streams generated in multiple end-markets such as power, construction, commercial development, oil and gas, medical, infrastructure, industrial and dredging. Historically, the majority of Clean Earth's revenues have been generated by contaminated soils, which includes environmentally impacted soils, drill cuttings and other materials which are treated at one of its nine permitted soil treatment facilities. Clean Earth also operates four RCRA Part B hazardous waste facilities. The remaining revenue has been generated by dredge material, which consists of sediment removed from the floor of a body of water for navigational purposes and/or environmental remediation of contaminated waterways and is treated at one of its two permitted dredge processing facilities. Approximately 98% of the material processed by Clean Earth is beneficially reused for such purposes as daily landfill cover, industrial and brownfield redevelopment projects.

Three months ended June 30, 2017 compared to the three months ended June 30, 2016.

Service revenues

Revenues for the three months ended June 30, 2017 were approximately \$50.4 million, an increase of \$6.2 million or 14.0% compared to the same period in 2016. The increase in revenues is primarily due to acquisitions made in the second quarter of 2016 and the first quarter of 2017 as well as an increase in contaminated soil revenue. For the three months ended June 30, 2017, contaminated soil revenue increased 16% as compared to the same period last year, which is principally attributable to project timing as well as from a prior year acquisition. Hazardous waste revenues increased 34% principally as a result of acquisitions. Revenue from dredged material decreased for the three months ended June 30, 2017 as compared to the same period in 2016 due to the timing of projects. Contaminated soils represented approximately 57% of net sales

for the three months ended June 30, 2017 compared to 56% for the three months ended June 30, 2016.

Cost of services

Cost of services for the three months ended June 30, 2017 were approximately \$35.5 million compared to approximately \$29.6 million in the same period of 2016. Gross profit as a percentage of sales decreased from 33.2% for the three month period ended June 30, 2016 to 29.6% for the same period ended June 30, 2017. The decrease in gross margin during the three months ended June 30, 2017 was primarily due to reduced dredged material volume.

Selling, general and administrative expense

Selling, general and administrative expense for the three months ended June 30, 2017 increased to approximately \$9.3 million or 18.4% of service revenues, as compared to \$8.3 million or 18.8% of service revenues for the same period in 2016. The increase was primarily due to the aforementioned acquisitions and increased labor costs.

Income from operations

Income from operations for the three months ended June 30, 2017 was approximately \$2.5 million as compared to income from operations of \$3.2 million for the three months ended June 30, 2016, a decrease of \$0.8 million, primarily as a result of those factors described above.

Six months ended June 30, 2017 compared to six months ended June 30, 2016

Service revenues

Service revenues for the six months ended June 30, 2017 were approximately \$97.7 million, an increase of \$15.2 million or 18.4% compared to the same period in 2016. The increase in service revenues is principally due to two acquisitions in 2016 and one in 2017, as well as increased contaminated soil revenue, offset in part by lower dredge revenue.

For the six months ended June 30, 2017, contaminated soil revenue increased 15% as compared to the same period last year principally attributable to increased development activity in the Northeast and an acquisition made in 2016. Hazardous waste revenues increased 34% principally as a result of acquisitions. Revenue from dredged material decreased 38% for the six months ended June 30, 2017 as compared to the same period in 2016 due to the timing of new bidding activity. Contaminated soils represented approximately 58% of net sales for the six months ended June 30, 2017 compared to 59% for the six months ended June 30, 2016.

Cost of services

Cost of services for the six months ended June 30, 2017 were approximately \$70.9 million compared to approximately \$59.1 million in the same period of 2016. Gross profit as a percentage of sales decreased from 28.4% for the six month period ended June 30, 2016 to 27.5% for the same period ended June 30, 2017. The decrease in gross margin during the six months ended June 30, 2017 was primarily due to reduced dredged material volume

Selling, general and administrative expense

Selling, general and administrative expense for the six months ended June 30, 2017 increased to approximately \$18.4 million or 18.9% of service revenues, as compared to \$14.9 million or 18.1% of service revenues for the same period in 2016. The \$3.5 million increase in selling, general and administrative expense in the six months ended June 30, 2017 compared to 2016 is primarily attributable to acquisitions and increased corporate expenses.

Income from operations

Income from operations for the six months ended June 30, 2017 was approximately \$2.0 million, a decrease of \$0.3 million as compared to the six months ended June 30, 2016, primarily as a result of those factors described above.

Sterno Products

Overview

Sterno Products, headquartered in Corona, California, is a manufacturer and marketer of portable food warming fuel and creative table lighting solutions for the food service industry. Sterno Products offers a broad range of wick and gel chafing fuels, butane stoves and accessories, liquid and traditional wax candles, catering equipment and lamps. Sterno Products was formed in 2012 with the merger of two manufacturers and marketers of portable food warming fuel products, The Sterno Products Group LLC and the Candle Lamp Company, LLC. On January 22, 2016, Sterno Products acquired Northern International, Inc. ("NII"), a seller of flameless candles and outdoor lighting products through the retail segment.

Results of Operations

The table below summarizes the income from operations data for Sterno Products for the three and six months ended June 30, 2017 and June 30, 2016.

(in thousands)	Three months ended		Six months ended

Three months ended June 30, 2017 compared to the three months ended June 30, 2016

Net sales

Net sales for the three months ended June 30, 2017 were approximately \$57.9 million, an increase of \$0.7 million or 1.3% compared to the same period in 2016.

Cost of sales

Cost of sales for the three months ended June 30, 2017 were approximately \$42.1 million compared to approximately \$40.9 million in the same period of 2016. Gross profit as a percentage of sales decreased from 28.5% for the three months ended June 30, 2016 to 27.3% for the same period ended June 30, 2017. The decrease in gross margin during the three months ended June 30, 2017 primarily reflects an increase in chemical material costs and lower margins on certain sales.

Selling, general and administrative expense

Selling, general and administrative expense for the three months ended June 30, 2017 and 2016 was approximately \$8.5 million and \$8.2 million, respectively. Selling, general and administrative expense represented 14.8% of net sales for the three months ended June 30, 2017 as compared to 14.4% of net sales for the same period in 2016. The increase in selling, general and administrative expense during the second quarter of 2017 reflects higher commissions and an increase in product development costs.

Income from operations

Income from operations for the three months ended June 30, 2017 was approximately \$5.3 million, a decrease of \$0.8 million when compared to the same period in 2016, as a result of those factors described above.

Six months ended June 30, 2017 compared to six months ended June 30, 2016

Net sales

Net sales for the six months ended June 30, 2017 were approximately \$110.4 million, an increase of \$9.3 million or 9.2% compared to the same period in 2016. The increase in net sales is a result of the acquisition of NII in January 2016. NII had net sales of \$9.0 million in the period prior to acquisition in January 2016.

Cost of sales

Cost of sales for the six months ended June 30, 2017 were approximately \$81.1 million compared to approximately \$74.0 million in the same period of 2016. Gross profit as a percentage of sales decreased from 26.8% for the six months ended June 30, 2016 to 26.5% for the same period ended June 30, 2017. The decrease in gross margin during the six months ended June 30, 2017 primarily reflects an increase in chemical material costs.

Selling, general and administrative expense

Selling, general and administrative expense for the six months ended June 30, 2017 and 2016 was approximately \$16.4 million and \$15.0 million, respectively. Selling, general and administrative expense represented 14.9% of net sales for the six months ended June 30, 2017 as compared to 14.8% of net sales for the same period in 2016. The increase in selling,

general and administrative expense during the first half of 2017 reflects the acquisition of NII, which has historically had a higher selling, general and administrative expense as a percentage of revenue, as well as an increase in staffing to strengthen sales and marketing and increased professional service costs associated with the acquisition of NII.

Income from operations

Income from operations for the six months ended June 30, 2017 was approximately \$9.0 million, an increase of \$0.4 million when compared to the same period in 2016, as a result of those factors described above.

Liquidity and Capital Resources

Liquidity

At June 30, 2017, we had approximately \$39.3 million of cash and cash equivalents on hand, a decrease of \$0.5 million as compared to the year ended December 31, 2016. The decrease in cash is due primarily to our acquisition of Crosman and our first quarter distribution, offset by the sale of our remaining shares of our FOX investment in the first quarter of 2017, which resulted in net proceeds of \$136.1 million, and the issuance of preferred shares in the second quarter of 2017. The majority of our cash is in non-interest bearing checking accounts or invested in short-term money market accounts and is maintained in accordance with the Company's investment policy, which identifies allowable investments and specifies credit quality standards.

The change in cash and cash equivalents is as follows:

(in thousands)	Six months ended	
	June 30, 2017	June 30, 2016
Cash provided by operations	\$35,868	\$45,534
Cash used investing activities	(44,386)	(99,589)
Cash provided by (used in) financing activities	8,532	(6,831)
Effect of exchange rates on cash and cash equivalents	(499)	(3,823)
Increase (decrease) in cash and cash equivalents	\$(485)	\$(64,709)

Operating Activities:

For the six months ended June 30, 2017, cash flows provided by operating activities totaled approximately \$35.9 million, which represents a \$9.7 million decrease compared to cash provided by operating activities of \$45.5 million during the six month period ended June 30, 2016 (from both continuing and discontinued operations). This decrease is principally the result of changes in cash used for working capital and non-cash charges in the six months ended June 30, 2017 as compared to the same period in 2016, primarily as a result of the 5.11 acquisition, which occurred in the third quarter of 2016, and the effect of the cash flows from add-on acquisitions completed in 2016. Cash used in operating activities for working capital for the six months ended June 30, 2017 was \$16.1 million, as compared to cash provided by working capital of \$5.4 million for the six months ended June 30, 2016. The increase was primarily due to cash used for working capital by our 5.11 and Sterno subsidiaries (combined cash used for working capital of \$13.5 million).

Investing Activities:

Cash flows used in investing activities for the six months ended June 30, 2017 totaled approximately \$44.4 million, compared to cash used in investing activities of \$99.6 million in the same period of 2016. In the current year, we received approximately \$136.1 million related to the sale of our remaining investment in FOX, offset by cash used for our Crosman acquisition and a Clean Earth add-on acquisition (\$159.0 million) and capital expenditures (\$19.6 million). Capital expenditures in the six months ended June 30, 2017 increased approximately \$9.1 million compared to the prior year, due primarily to expenditures at our 5.11 business. We expect capital expenditures for the full year of 2017 to be approximately \$45 million to \$55 million. The 2016 investing activities reflect the acquisition of NII by

Edgar Filing: Compass Diversified Holdings - Form 10-Q

Sterno in January 2016 (\$35.6 million), Baby Tula by Ergobaby (\$65.0 million) and add-on acquisitions at Clean Earth (\$33.6 million), offset by proceeds from a partial divestiture of our FOX shares of \$47.7 million.

Financing Activities:

Cash flows provided by financing activities totaled approximately \$8.5 million during the six months ended June 30, 2017 compared to cash flows used in financing activities of \$6.8 million during the six months ended June 30, 2016. Financing activities reflect the payment of our quarterly distribution (\$43.1 million in 2017 and \$39.1 million in 2016), activity on our

credit facility and the payment of a profit allocation related to the sale of FOX shares (\$39.2 million in 2017 and \$8.6 million in 2016). In the six months ended June 30, 2017, activity on our credit facility totaled \$3.6 million of cash repayments, while the activity for the six months ended June 30, 2016 reflected net borrowings of \$76.4 million, which was used to fund the acquisitions of Baby Tula by Ergobaby, a Clean Earth add-on acquisition and the repurchase of Ergobaby common stock from a noncontrolling shareholder. We also completed a preferred share offering during the second quarter of 2017, resulting in cash proceeds net of transaction costs, of \$96.6 million.

Intercompany Debt

A component of our acquisition financing strategy that we utilize in acquiring the businesses we own and manage is to provide both equity capital and debt capital, raised at the parent level through our existing credit facility. Our strategy of providing intercompany debt financing within the capital structure of the businesses that we acquire and manage allows us the ability to distribute cash to the parent company through monthly interest payments and amortization of the principal on these intercompany loans. Each loan to our businesses has a scheduled maturity and each business is entitled to repay all or a portion of the principal amount of the outstanding loans, without penalty, prior to maturity. Certain of our businesses have paid down their respective intercompany debt balances through the cash flow generated by these businesses and we have recapitalized, and expect to continue to recapitalize, these businesses in the normal course of our business. The recapitalization process involves funding the intercompany debt using either cash on hand at the parent or our revolving credit facility, and serves the purpose of optimizing the capital structure at our subsidiaries and providing the noncontrolling shareholders with a distribution on their ownership interest in a cash flow positive business.

As a result of significant investment in operational improvements to enhance its competitive position, including planned capital expenditures to reposition Arnold for future growth, we have granted Arnold a waiver for certain financial covenants under their intercompany debt agreement effective the quarter ended June 30, 2017 through December 31, 2017. At June 30, 2016, Manitoba Harvest was in default of certain financial covenants under the intercompany loan agreement with the Company. The Company waived the default by amending its intercompany loan agreement with Manitoba Harvest. The amendment included certain provisions that provided relief of Manitoba Harvest's financial covenants through June 30, 2017. Manitoba Harvest was in compliance with the financial covenants under the intercompany loan agreement effective June 30, 2017, the date of the expiration of the waiver.

As of June 30, 2017, we had the following outstanding loans due from each of our businesses:

(in thousands)

5.11 Tactical	\$ 175,313
Crosman	\$92,000
Ergobaby	\$76,177
Liberty	\$47,850
Manitoba Harvest	\$48,393
Advanced Circuits	\$98,361
Arnold Magnetics	\$72,265
Clean Earth	\$171,749
Sterno Products	\$79,203

Our primary source of cash is from the receipt of interest and principal on the outstanding loans to our businesses. Accordingly, we are dependent upon the earnings of and cash flow from these businesses, which are available for (i) operating expenses; (ii) payment of principal and interest under our 2014 Credit Facility; (iii) payments to CGM due pursuant to the Management Services Agreement and the LLC Agreement; (iv) cash distributions to our shareholders; and (v) investments in future acquisitions. Payments made under (iii) above are required to be paid before distributions to shareholders and may be significant and exceed the funds held by us, which may require us to dispose of assets or incur debt to fund such expenditures.

Edgar Filing: Compass Diversified Holdings - Form 10-Q

We believe that we currently have sufficient liquidity and capital resources to meet our existing obligations, including quarterly distributions to our shareholders, as approved by our board of directors, over the next twelve months. The quarterly distribution for the quarter ended June 30, 2017 was paid on July 27, 2017 and totaled \$21.6 million.

Investment in FOX

On March 13, 2017, Fox Factory Holding Corp. ("FOX") closed on a secondary public offering of 5,108,718 shares of FOX common stock held by CODI, which represented CODI's remaining investment in FOX. CODI received \$136.1 million in net

proceeds as a result of the sale. We acquired a controlling interest in FOX in January 2008 for approximately \$80.4 million. FOX completed an initial public offering in August 2013, and additional secondary offerings in July 2014, March, August and November 2016, and March 2017. We sold shares of FOX in each of these offerings, recognizing total net proceeds of \$465.1 million.

2014 Credit Facility

On June 6, 2014, we entered into a new credit facility, the 2014 Credit Facility, which replaced our then existing 2011 Credit Facility entered into in October 2011. On August 31, 2016, we entered into an Incremental Facility Amendment to the 2014 Credit Agreement. The Incremental Facility Amendment provided an increase to the 2014 Revolving Credit Facility of \$150.0 million, and the 2016 Incremental Term Loan in the amount of \$250.0 million. The 2014 Credit Facility now provides for (i) revolving loans, swing line loans and letters of credit up to a maximum aggregate amount of \$550 million and matures in June 2019, (ii) a \$325 million term loan, and (iii) a \$250 million incremental term loan. Our 2014 Term Loan and 2016 Incremental Term Loan requires quarterly payments with a final payment of the outstanding principal balance due in June 2021. (Refer to Note I - "Debt" of the condensed consolidated financial statements for a complete description of our 2014 Credit Facility.)

In March 2017, we amended the 2014 Credit Facility (the "Fourth Amendment") to reduce the applicable rate of interest for the 2014 Term Loan and 2016 Incremental Term Loan. Under the Fourth Amendment, outstanding LIBOR loans bear interest at LIBOR plus an applicable rate of 2.75% and outstanding Base Rate loans bear interest at Base Rate plus 1.75%. Prior to the amendment, the outstanding term loans bore interest at LIBOR plus 3.25% or Base Rate plus 2.25%.

We had \$544.6 million in net availability under the 2014 Revolving Credit Facility at June 30, 2017. The outstanding borrowings under the 2014 Revolving Credit Facility includes \$1.8 million at June 30, 2017 of outstanding letters of credit.

The following table reflects required and actual financial ratios as of June 30, 2017 included as part of the affirmative covenants in our 2014 Credit Facility:

Description of Required Covenant Ratio	Covenant Ratio Requirement	Actual Ratio
Fixed Charge Coverage Ratio	greater than or equal to 1.50:1.0	3.70:1.0
Total Debt to EBITDA Ratio	less than or equal to 4.25:1.0	2.59:1.0

We intend to use the availability under our 2014 Credit Facility and cash on hand to pursue acquisitions of additional businesses to the extent permitted under our 2014 Credit Facility, to fund distributions and to provide for other working capital needs.

Interest Expense

We recorded interest expense totaling \$15.6 million for the six months ended June 30, 2017 compared to \$18.8 million for the comparable period in 2016. The components of interest expense and periodic interest charges on outstanding debt are as follows (in thousands):

	Six months ended June 30,	
	2017	2016
Interest on credit facilities	\$12,015	\$7,325
Unused fee on Revolving Credit Facility	1,473	937

⁽¹⁾ On September 16, 2014, we purchased an interest rate swap (the "New Swap") with a notional amount of \$220 million effective April 1, 2016 through June 6, 2021. The agreement requires us to pay interest on the notional amount at the rate of 2.97% in exchange for the three-month LIBOR rate. At June 30, 2017, the New Swap had a fair value loss of \$9.9 million, reflecting the present value of future payments and receipts under the agreement and is reflected as a component of interest expense and current and other non-current liabilities. Refer to "Note J - Derivatives and Hedging Activities" of the condensed consolidated financial statements for a description of the New Swap.

Income Taxes

We incurred an income tax benefit of \$2.2 million with an effective tax rate of (8.3)% during the six months ended June 30, 2017 compared to income tax expense of \$4.9 million with an effective income tax rate of 58.9% during the same period in 2016. The impairment expense at our Arnold business and non-deductible costs at the corporate level account, including the effect of the loss on our equity investment of FOX prior to the sale of our FOX shares in the first quarter, account for the majority of the remaining difference in our effective income tax rates in the first half of 2017, while non-deductible costs at the corporate level, including the gain on our equity investment in FOX, account for the majority of the remaining differences in the first half of 2016. Certain foreign operations are subject to foreign income taxation under existing provisions of the laws of those jurisdictions. Pursuant to U.S. tax laws, earnings from those jurisdictions will be subject to the U.S. income tax rate when those earnings are repatriated.

The components of income tax expense as a percentage of income from continuing operations before income taxes for the six months ended June 30, 2017 and 2016 are as follows:

	Six months ended June 30,	
	2017	2016
United States Federal Statutory Rate	(35.0)%	35.0 %
State income taxes (net of Federal benefits)	(2.2)	3.5

Domestic production activities deduction	(1.0)	(3.2)
Effect of undistributed foreign earnings	1.3	—
Non-recognition of NOL carryforwards at subsidiaries	(2.2)	—
Other	4.0	4.2
Effective income tax rate	(8.3)%	58.9 %

(1) The effective income tax rate for the six months ended June 30, 2017 and 2016 includes a loss at the Company's parent, which is taxed as a partnership.

(2) The equity method investment in FOX was held at the Company's parent, which is taxed as a partnership, resulting in the gain or loss on the investment being a reconciling item in deriving our effective tax rate.

Reconciliation of Non-GAAP Financial Measures

U.S. GAAP refers to generally accepted accounting principles in the United States. From time to time we may publicly disclose certain "non-GAAP" financial measures in the course of our investor presentations, earnings releases, earnings conference calls or other venues. A non-GAAP financial measure is a numerical measure of historical or future performance, financial position or cash flow that excludes amounts, or is subject to adjustments that effectively exclude amounts, included in the most directly comparable measure calculated and presented in accordance with GAAP in our financial statements, and vice versa for measures that include amounts, or are subject to adjustments that effectively include amounts, that are excluded from the most directly comparable measure as calculated and presented.

Non-GAAP financial measures are provided as additional information to investors in order to provide them with an alternative method for assessing our financial condition and operating results. These measures are not meant to be a substitute for GAAP, and may be different from or otherwise inconsistent with non-GAAP financial measures used by other companies.

Edgar Filing: Compass Diversified Holdings - Form 10-Q

The tables below reconcile the most directly comparable GAAP financial measures to Earnings before Interest, Income Taxes, Depreciation and Amortization ("EBITDA"), Adjusted EBITDA, and Cash Flow Available for Distribution and Reinvestment ("CAD").

Reconciliation of Net income (Loss) to EBITDA and Adjusted EBITDA

EBITDA – EBITDA is calculated as income (loss) from continuing operations before interest expense, income tax expense (benefit), depreciation expense and amortization expense. Amortization expenses consist of amortization of intangibles and debt charges, including debt issuance costs, discounts, etc.

Adjusted EBITDA – Adjusted EBITDA is calculated utilizing the same calculation as described above in arriving at EBITDA further adjusted by; (i) non-controlling stockholder compensation, which generally consists of non-cash stock option expense; (ii) successful acquisition costs, which consist of transaction costs (legal, accounting, due diligence, etc.) incurred in connection with the successful acquisition of a business expensed during the period in compliance with ASC 805; (iii) management fees, which reflect fees due quarterly to our Manager in connection with our Management Services Agreement ("MSA"), as well as Integration Services Fees paid by newly acquired companies; (iv) impairment charges, which reflect write downs to goodwill or other intangible assets; (v) gains or losses recorded in connection with our investment; (vi) gains or losses recorded in connection with the sale of fixed assets and (vii) foreign currency transaction gains or losses incurred in connection with the conversion of intercompany debt from a foreign functional currency to U.S. dollar.

We believe that EBITDA and Adjusted EBITDA provide useful information to investors and reflect important financial measures as they exclude the effects of items which reflect the impact of long-term investment decisions, rather than the performance of near term operations. When compared to income (loss) from continuing operations these financial measures are limited in that they do not reflect the periodic costs of certain capital assets used in generating revenues of our businesses or the non-cash charges associated with impairments. This presentation also allows investors to view the performance of our businesses in a manner similar to the methods used by us and the management of our businesses, provides additional insight into our operating results and provides a measure for evaluating targeted businesses for acquisition.

We believe that these measurements are also useful in measuring our ability to service debt and other payment obligations. EBITDA and Adjusted EBITDA are not meant to be a substitute for GAAP, and may be different from or otherwise inconsistent with non-GAAP financial measures used by other companies.

The following tables reconcile EBITDA and Adjusted EBITDA to net income (loss), which we consider to be the most comparable GAAP financial measure (in thousands):

⁽¹⁾ Net income (loss) does not include income from discontinued operations for the six months ended June 30, 2016.

(2) As a result of the sale of our Tridien subsidiary in September 2016, Adjusted EBITDA for the six months ended June 30, 2016 does not include Adjusted EBITDA from Tridien of \$1.5 million.

Cash Flow Available for Distribution and Reinvestment

The table below details cash receipts and payments that are not reflected on our income statement in order to provide an additional measure of management's estimate of cash available for distribution ("CAD"). CAD is a non-GAAP measure that we believe provides additional, useful information to our shareholders in order to enable them to evaluate our ability to make anticipated quarterly distributions. CAD is not meant to be a substitute for GAAP, and may be different from or otherwise inconsistent with non-GAAP financial measures used by other companies. The following table reconciles CAD to net income (loss) and cash flows provided by (used in) operating activities, which we consider to be the most directly comparable financial measure calculated and presented in accordance with GAAP.
