VOTING AND RELATED MATTERS

Voting Procedures

As a stockholder of Ascent Solar, you have a right to vote on certain business matters affecting us. The proposals that will be presented at the Annual Meeting, and upon which you are being asked to vote, are discussed below. Each share of our common stock you owned as of the record date entitles you to one vote on each proposal presented at the Annual Meeting.

Methods of Voting

You may vote over the Internet, by telephone, by mail or in person at the Annual Meeting.

Voting over the Internet

You can vote via the Internet. The website address for Internet voting and the instructions for voting are provided on your Notice or proxy card. You will need to use the control number appearing on your Notice or proxy card to vote via the Internet. If you vote via the Internet you do not need to vote by telephone or return a proxy card.

Voting by Telephone

You can vote by telephone by calling the toll-free telephone number provided on your proxy card. You will need to use the control number appearing on your Notice or proxy card to vote by telephone. If you vote by telephone you do not need to vote over the Internet or return a proxy card.

Voting by Mail

If you received a printed proxy card, you can vote by marking, dating and signing it, and returning it in the postage-paid envelope provided. You may also download the form of proxy card off the Internet and mail it to us. Please promptly mail your proxy card to ensure that it is received prior to the closing of the polls at the Annual Meeting.

Voting in Person at the Meeting

If you attend the Annual Meeting and plan to vote in person, we will provide you with a ballot at the Annual Meeting. If your shares are registered directly in your name, you are considered the stockholder of record, and you have the right to vote in person at the Annual Meeting. If your shares are held in the name of your broker or other nominee, you are considered the beneficial owner of shares held in street name. As a beneficial owner, if you wish to vote at the Annual Meeting, you will need to bring to the Annual Meeting a legal proxy from your broker or other nominee authorizing you to vote those shares.

Revoking Your Proxy

You may revoke your proxy at any time before it is voted at the Annual Meeting. To do this, you must:

- enter a new vote over the Internet or by telephone, or by signing and returning a replacement proxy card;
- provide written notice by June 11, 2018 of the revocation to our Corporate Secretary at our principal executive offices, which are located at 12300 North Grant Street, Thornton, Colorado 80241; or
- attend the Annual Meeting and vote in person.

Quorum and Voting Requirements

Stockholders of record at the close of business on May 10, 2018 are entitled to receive notice and vote at the meeting. On the record date, there were 18,994,480,144 issued and outstanding shares of our common stock. Each holder of our common stock voting at the meeting, either in person or by proxy, may cast one vote per share of common stock held on all matters to be voted on at the meeting.

The presence, in person or by proxy, of the holders of a majority of the outstanding shares of common stock entitled to vote constitutes a quorum for the transaction of business at the meeting. Assuming that a quorum is present:

the affirmative vote of a majority of the shares having voting power present in person or by proxy will be required to elect the director nominee;

Table of Contents

the affirmative vote of a majority of the shares having voting power present in person or by proxy will be required to ratify the appointment of Haynie & Company as our independent registered public accounting firm for the year ending December 31, 2018;

- the affirmative vote of the holders of a majority of the outstanding shares of common stock will be required to approve the authorization of the Board of Directors to implement a Reverse Stock Split;
 - the affirmative vote of a majority of the shares having voting power present in person or by proxy will be required to approve the Adjournment Proposal; and
- unless otherwise required by our Second Amended and Restated Bylaws (the “Bylaws”) or by applicable law, the affirmative vote of a majority of the shares present having voting power in person or by proxy will be required to approve any other matter properly presented for a vote at the meeting; provided that if any stockholders are entitled to vote thereon as a class, such approval will require the affirmative vote of a majority of the shares entitled to vote as a class who are present in person or by proxy.

The vote on Proposal 3 (advisory vote on executive compensation) is a non-binding advisory vote. The Board of Directors will consider our executive officer compensation to have been approved by stockholders if Proposal 3 receives more votes “For” than “Against.”

Votes cast by proxy or in person at the meeting will be tabulated by the election inspectors appointed for the meeting. Such inspectors will also determine whether a quorum is present. The election inspectors will treat abstentions as shares that are present and entitled to vote for purposes of determining the presence of a quorum, but as unvoted for purposes of determining the approval of any matter submitted to the stockholders for a vote. If your shares are held in street name and you do not instruct your broker on how to vote your shares, your brokerage firm, in its discretion, may either leave your shares unvoted or vote your shares on routine matters.

The Company believes that the election of directors and the advisory vote to approve executive compensation are considered non-routine matters. Consequently, without your voting instructions, your brokerage firm cannot vote your shares on these proposals. These unvoted shares, called “broker non-votes,” refer to shares held by brokers who have not received voting instructions from their clients and who do not have discretionary authority to vote on non-routine matters.

The Company believes that the proposal to ratify the appointment of Haynie & Company as our independent registered public accounting firm for the current fiscal year, the proposal to authorize the Reverse Stock Split, and the proposal to adjourn the Annual Meeting will each be considered a routine matter. To the extent your brokerage firm votes your shares on your behalf on these proposals, your shares also will be counted as present for the purpose of determining a quorum.

Abstentions shall have the same effect as a vote against Proposals 1 (election of directors), 2 (approval of auditors), 3 (advisory vote on executive compensation), 4 (authorization of Reverse Stock Split), and 5 (adjournment of the Annual Meeting).

Broker non-votes shall have the same effect as a vote against Proposal 4 (authorization of Reverse Stock Split). Broker non-votes shall have no effect on the outcome of Proposals 1 (election of directors), 2 (approval of auditors), 3 (advisory vote on executive compensation), and 5 (adjournment of the Annual Meeting).

Voting of Proxies

When a proxy is properly executed and returned, the shares it represents will be voted at the Annual Meeting as directed. If no specification is indicated, the shares will be voted:

- (1) "for" the election of the director nominees set forth in this Proxy Statement;
- (2) "for" the ratification of the appointment of Haynie & Company as our independent registered public accounting firm for the year ending December 31, 2018;
- (3) "for" the approval, on an advisory basis, of the compensation of our executive officers;
- (4) "for" the authorization of the Board of Directors to implement a Reverse Stock Split;
- (5) "for" the adjournment of the Annual Meeting; and
- (6) at the discretion of your proxies on any other matter that may be properly brought before the Annual Meeting.

Table of Contents

If your shares are held in street name and you do not instruct your broker on how to vote your shares, your brokerage firm, in its discretion, may either leave your shares unvoted or vote your shares on routine matters, which include the ratification of our independent registered public accounting firm.

Voting Confidentiality

Proxies, ballots and voting tabulations are handled on a confidential basis to protect your voting privacy. This information will not be disclosed, except as required by law.

Voting Results

Voting results will be announced at the Annual Meeting and published in a Form 8-K to be filed within four (4) business days after the Annual Meeting.

Householding of Proxy Materials

In a further effort to reduce printing costs and postage fees, we have adopted a practice approved by the SEC called “householding.” Under this practice, stockholders who have the same address and last name and do not participate in electronic delivery of proxy materials will receive only one copy of our proxy materials, unless one or more of these stockholders notifies us that he or she wishes to continue receiving individual copies.

If: (1) you share an address with another stockholder and received only one set of proxy materials, and would like to request a separate paper copy of these materials; or (2) you share an address with another stockholder and in the future together you would like to receive only a single paper copy of these materials, please notify our Corporate Secretary by mail at 12300 North Grant Street, Thornton, Colorado 80241.

Proxy Solicitation

We will bear the cost of this solicitation. In addition, we may reimburse brokerage firms and other persons representing beneficial owners of shares for reasonable expenses incurred in forwarding solicitation materials to such beneficial owners. Proxies also may be solicited by our directors, officers or employees, personally, or by mail, facsimile, telephone, messenger or via the Internet, without additional compensation.

CORPORATE GOVERNANCE

Overview

Our Bylaws provide that the size of our Board of Directors is to be determined from time to time by resolution of the Board of Directors, but shall consist of at least two and no more than nine members. Our Board of Directors currently consists of four members. The Board has determined that the following directors are “independent” as required by the listing standards of the OTC Market and by our corporate governance guidelines: Dr. Kumar, Mr. Huntley and Mr. Marsh.

Our Certificate of Incorporation provides that the Board of Directors will be divided into three classes. Our Class 1 director is Dr. Amit Kumar. Our Class 2 directors are Kim J. Huntley and G. Thomas Marsh. Our Class 3 director is Victor Lee. The term of Dr. Kumar will expire at the Company's 2018 annual stockholder meeting. Upon the recommendation of the Nominating and Governance Committee, the Board has nominated Dr. Kumar as the Class 1 director nominee.

Board Leadership Structure and Role in Risk Oversight

We currently separate the roles of Chairman of the Board and Chief Executive Officer. We believe that Dr. Kumar possesses the strategic, technical and industry knowledge and expertise to serve as our Chairman. As President and Chief Executive Officer, Mr. Lee is responsible for day-to-day oversight of our operations and personnel.

Notwithstanding the foregoing, our Board does not have a formal policy regarding separation of the Chairman and Chief Executive Officer roles, and the Board may in the future decide to implement such a policy if it deems it in the best interests of us and our stockholders. The Board does not have a lead independent director.

Risk is inherent with every business, and how well a business manages risk can ultimately determine its success. We face a number of risks, including credit risk, interest rate risk, liquidity risk, operational risk, strategic risk and reputation risk. Management is responsible for the day-to-day management of risks we face, while the Board, as a whole and through its committees, has responsibility for the oversight of risk management. In its risk oversight role, the Board of Directors has the responsibility to satisfy itself that the risk management processes designed and implemented by management are adequate and functioning as designed. To do this, the Chairman of the Board meets regularly with management to discuss strategy and the risks we face. In addition, the Audit Committee regularly monitors our enterprise risk, including financial risks, through reports from management. Senior management attends the Board meetings and is available to address any questions or concerns raised by the Board on risk management and any other matters. The Chairman of the Board and independent members of the Board work together to provide strong, independent oversight of our management and affairs through the Board's standing committees and, when necessary, executive sessions of the independent directors.

Committees of the Board of Directors

Our Board has three standing committees: an Audit Committee, a Compensation Committee, and a Nominating and Governance Committee. Each committee operates pursuant to a charter. The charters of the Audit Committee, the Compensation Committee, and the Nominating and Governance Committee can be found on our website www.ascentsolar.com.

Audit Committee. Our Audit Committee oversees our accounting and financial reporting processes, internal systems of accounting and financial controls, relationships with independent auditors, and audits of financial statements. Specific responsibilities include the following:

- selecting, hiring and terminating our independent auditors;
- evaluating the qualifications, independence and performance of our independent auditors;
- approving the audit and non-audit services to be performed by our independent auditors;
- reviewing the design, implementation, adequacy and effectiveness of our internal controls and critical accounting policies;
- reviewing and monitoring the enterprise risk management process;
- overseeing and monitoring the integrity of our financial statements and our compliance with legal and regulatory requirements as they relate to financial statements or accounting matters;
-

reviewing, with management and our independent auditors, any earnings announcements and other public announcements regarding our results of operations; and

preparing the report that the SEC requires in our annual proxy statement.

Our Audit Committee is comprised of Mr. Huntley, Dr. Kumar and Mr. Marsh. Mr. Huntley serves as Chairman of the Audit Committee. The Board has determined that all members of the Audit Committee are independent under the rules of the OTC Market, and that Mr. Huntley qualifies as an “audit committee financial expert,” as defined by the rules of the SEC.

Table of Contents

Compensation Committee. Our Compensation Committee assists our Board in determining the development plans and compensation of our officers, directors and employees. Specific responsibilities include the following:

- approving the compensation and benefits of our executive officers;
- reviewing the performance objectives and actual performance of our officers; and
- administering our stock option and other equity compensation plans.

The Compensation Committee reviews all components of compensation including base salary, bonus, equity compensation, benefits and other perquisites. In addition to reviewing competitive market values, the Compensation Committee also examines the total compensation mix, pay-for-performance relationship and how all elements, in the aggregate, comprise the executives' total compensation package. The CEO makes recommendations to the Compensation Committee from time to time regarding the appropriate mix and level of compensation for other officers. Those recommendations consider the objectives of our compensation philosophy and the range of compensation programs authorized by the Compensation Committee. The Compensation Committee may determine director compensation by reviewing peer group data. Although the Compensation Committee has the authority to retain outside third parties, it does not currently utilize any outside consultants. The Compensation Committee may delegate certain of its responsibilities, as it deems appropriate, to other committees or officers.

Our Compensation Committee is comprised of Mr. Marsh, Mr. Huntley and Dr. Kumar. Mr. Marsh serves as Chairman of the Compensation Committee. Our Board has determined that all members of the Compensation Committee are independent under the rules of the OTC Market.

Nominating and Governance Committee. Our Nominating and Governance Committee assists our Board by identifying and recommending individuals qualified to become members of our Board, reviewing correspondence from our stockholders, and establishing, evaluating and overseeing our corporate governance guidelines. Specific responsibilities include the following:

- evaluating the composition, size and governance of our Board and its committees and making recommendations regarding future planning and the appointment of directors to our committees;
- establishing a policy for considering stockholder nominees for election to our Board; and
- evaluating and recommending candidates for election to our Board.

Our Nominating and Governance Committee is comprised of Dr. Kumar, Mr. Huntley, and Mr. Marsh. Dr. Kumar serves as Chairman of our Nominating and Governance Committee. Our Board has determined that all members of the Nominating and Governance Committee are independent under the rules of OTC Market.

When considering potential director candidates for nomination or election, the following characteristics are considered in accordance with our Nominating and Governance Committee Charter:

- high standard of personal and professional ethics, integrity and values;
- training, experience and ability at making and overseeing policy in business, government and/or education sectors;
- willingness and ability to keep an open mind when considering matters affecting interests of us and our constituents;
- willingness and ability to devote the time and effort required to effectively fulfill the duties and responsibilities related to the Board and its committees;
- willingness and ability to serve on the Board for multiple terms, if nominated and elected, to enable development of a deeper understanding of our business affairs;
- willingness not to engage in activities or interests that may create a conflict of interest with a director's responsibilities and duties to us and our constituents; and
- willingness to act in the best interests of us and our constituents, and objectively assess Board, committee and management performances.

In addition, in order to maintain an effective mix of skills and backgrounds among the members of our Board, the following characteristics also may be considered when filling vacancies or identifying candidates:

•diversity (e.g., age, geography, professional, other);
•professional experience;
•industry knowledge (e.g., relevant industry or trade association participation);
•skills and expertise (e.g., accounting or financial);

The Nominating and Governance Committee will consider candidates recommended by stockholders who follow the nomination procedures in our bylaws. The Nominating and Governance Committee does not have a formal policy with respect to diversity; however, as noted above, the Board and the Nominating and Governance Committee believe that it is essential that Board members represent diverse viewpoints.

Policies and Procedures with Respect to Transactions with Related Persons

The Board recognizes that related person transactions can present a heightened risk of potential or actual conflicts of interest. Accordingly, our Audit Committee charter requires that all such transactions will be reviewed and subject to approval by members of our Audit Committee, which will have access, at our expense, to our or independent legal counsel. Future transactions with our officers, directors or greater than five percent stockholders will be on terms no less favorable to us than could be obtained from independent third parties.

Director Independence

Our Board of Directors has determined that three out of our five directors are independent directors, as defined under the applicable rules of the OTC Market listing standards. The independent directors are Messrs. Kumar, Huntley and Marsh.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Exchange Act requires our directors, officers, and persons that own more than 10 percent of a registered class of our equity securities to file reports of ownership and changes in ownership with the SEC. On November 15, 2017, following the completion of the combination with Moss Adams, LLP, Hein & Associates, LLP (“Hein”) informed the Company of its resignation as the Company’s independent registered public accounting firm, effective immediately, which resignation was accepted by the audit committee of the Company's board of directors on November 16, 2017.

Table of Contents

The reports of Hein on the financial statements of the Company for the past two fiscal years ended December 31, 2016 and 2015 did not contain an adverse opinion or disclaimer of opinion, nor were they qualified or modified as to uncertainty, audit scope or accounting principles, with the exception of providing a qualification as to the Company's ability to continue as a going concern in the Company's financial statements for the fiscal years ended December 31, 2016 and December 31, 2015.

In its quarterly report to the audit committee dated August 15, 2017, Hein noted that the Company's management and Hein had initially disagreed over the accounting for conversions of the Company's Series K preferred stock into common stock. Ultimately, the Company's management agreed with the accounting treatment proposed by Hein with respect to this issue, which was reflected in the Company's financial statements filed in its Form 10-Q for the period ended June 30, 2017. Accordingly, the Company and Hein consider this matter to be resolved. The Company's audit committee did discuss the subject matter of this disagreement with Hein.

PROPOSAL 3 – NON-BINDING ADVISORY VOTE TO APPROVE EXECUTIVE COMPENSATION

Overview

Section 14A of the Securities Exchange Act requires public companies to conduct a separate stockholder advisory vote on executive compensation as disclosed in the Executive Compensation section of the annual proxy statement. While this advisory vote, commonly referred to as a “say-on-pay” vote, is non-binding, the Board of Directors and the Compensation Committee will review and consider the voting results when making future decisions regarding our executive compensation programs.

We urge stockholders to carefully read the Executive Compensation section of this proxy statement, which describes the executive compensation paid to our executive officers. Our Board of Directors and our Compensation Committee believe that the compensation paid to our executive officers is effective in achieving our compensation objectives.

In accordance with Section 14A of the Securities Exchange Act, we are asking stockholders to approve the following advisory resolution at the 2018 Annual Meeting:

RESOLVED, that the stockholders of Ascent Solar Technologies, Inc. approve, on an advisory basis, the compensation of the Company's executive officers as disclosed in the Executive Compensation section of the proxy statement for the Company's 2018 Annual Meeting.

Vote Required

The affirmative vote of a majority of shares with voting power present in person or by proxy will be required to approve the resolution.

Recommendation

The Board recommends that stockholders vote FOR the resolution. Unless marked otherwise, proxies received will be voted FOR the resolution.

PROPOSAL 4 – AMENDMENT TO THE CERTIFICATE OF INCORPORATION TO AUTHORIZE A REVERSE STOCK SPLIT

General

Our Board of Directors has unanimously adopted a resolution approving, declaring advisable and recommending to the stockholders for their approval of a proposal to amend our Certificate of Incorporation to effect a Reverse Stock Split at any whole number ratio between, and inclusive of, one-for-100 (every 100 shares would be combined into one) and one-for-1,000 (every 1,000 shares would be combined into one). Approval of this Proposal will grant the Board of Directors the authority, without further action by the stockholders, to carry out the amendment to the Certificate of Incorporation at any time within one year after the date stockholder approval for the amendment is obtained, with the exact exchange ratio and timing of the Reverse Stock Split to be determined at the discretion of the Board of Directors. The decision whether and when to effect the Reverse Stock Split, and at what whole number ratio to effect the Reverse Stock Split, will be based on a number of factors, including market conditions, existing and anticipated trading prices for our common stock and the continued listing requirements of the OTC Market.

The Board of Directors reserves the right to abandon the Reverse Stock Split without further action by our stockholders at any time before the effectiveness of the amendment to the Certificate of Incorporation, even if the

Reverse Stock Split has been authorized by our stockholders at the Annual Meeting. By voting in favor of the Reverse Stock Split, you are expressly also authorizing our Board of Directors to determine not to proceed with, and abandon, the Reverse Stock Split if it should so decide.

A sample form of the certificate of amendment relating to this Proposal, which we would file with the Secretary of State of the State of Delaware to effect the Reverse Stock Split, is attached to this Proxy Statement as Annex A.

Background

Significant Increase in Outstanding Shares; Previous Reverse Stock Splits; Previous Authorized Share Increases

During the past several years, the Company has needed the ability to issue extremely large amounts of common stock in order to raise capital to fund ongoing operations. In order to enable the Company to issue such large amounts of common stock, the Company has previously implemented the following actions (after obtaining the required Board and stockholder approvals):

• On June 7, 2014, the Company amended its certificate of incorporation to increase its number of authorized shares of common stock from 125 million to 250 million.

• On August 26, 2014, the Company implemented a one-for-ten reverse common stock split, which reverse split reduced the number of our outstanding common shares but which did not reduce the number of our authorized shares of common stock (which remained at 250 million).

• On October 27, 2014, the Company amended its certificate of incorporation to decrease its number of authorized shares of common stock from 250 million to 150 million.

• On December 22, 2014, the Company amended its certificate of incorporation to increase its number of authorized shares of common stock from 150 million to 450 million.

• On June 1, 2016, the Company implemented a one-for-twenty reverse common stock split, which reverse split reduced the number of our outstanding common shares but which did not reduce the number of our authorized shares of common stock (which remained at 450 million).

• On August 15, 2016, the Company amended its certificate of incorporation to increase its number of authorized shares of common stock from 450 million to 2 billion.

• On March 16, 2017, the Company amended its certificate of incorporation to increase its number of authorized shares of common stock from 2 billion to 20 billion.

These measures enabled the Company to issue a large number of shares of common stock to settle our obligations under our outstanding debt securities and convertible preferred stock by allowing us to issue shares rather than make payments in cash. These measures also enabled the Company to conduct multiple offerings of newly issued convertible and non-convertible securities in order to raise additional capital for operations. Issuing shares (rather than cash payments) to settle our obligations under our outstanding debt securities and convertible preferred stock has resulted in the very substantial dilution of stockholders over the past several years.

The very large number of shares of common stock issued over this time period is due primarily to the following factors:

• The conversion price of many of our outstanding convertible securities being variable rather than fixed.

• The conversion price of many of our outstanding convertible securities being set at a discount to the Company's then current per share trading market price on the date of the conversion.

Certain of the conversion price formulas contained in the Company's convertible securities being changed at various times pursuant to (i) adjustment or default provisions contained in the terms of the convertible securities or (ii) negotiated agreements between the Company and the holder of the convertible securities. These changes resulted in conversion price formulas that were more favorable to the holders of the convertible securities and more dilutive to common stockholders generally.

• The continued decline in the per share market price of the Company's common stock.

The conversion of large amounts of the Company's outstanding convertible securities into common stock by the holders of such securities at increasingly lower conversion prices which occurred throughout the period as our stock price declined.

•

The sale of large amounts of common stock into the public markets by the holders of our convertible securities following such conversions. Such sales of large amounts of common stock into the public markets increased the downward pressure on the Company's stock price.

The issuance of large amounts of common stock pursuant to the Company's variable-priced convertible securities and other market factors resulted in a rapid decline in the market price of our common stock. This decline in market price resulted in a greater number of shares of common stock being issued to settle conversion and redemption obligations on many of these convertible securities. This downward pressure on our stock price was also amplified by the post-split market price effects of the one-for-twenty reverse stock split implemented in June 2016.

In order to illustrate the effect of these factors, the following table summarizes, as of the dates shown, (i) the number of our issued and outstanding common shares, (ii) the number of our authorized common shares, and (iii) our stock price.

(1) On June 1, 2016, the Company implemented a one-for-twenty reverse common stock split.

(2) The share amounts and share prices for March 2, 2016 and May 26, 2016 have been retroactively adjusted to give effect to the June 1, 2016 one-for-twenty reverse common stock split.

(3) The Company's number of authorized common shares was 450,000,000 prior to the 2016 reverse stock split. The Company's number of authorized common shares remained at 450,000,000 following the 2016 reverse stock split.

Reasons for the Reverse Stock Split

Increase in the number of Authorized Common Shares Available for Future Issuance

The Board is recommending the Reverse Stock Split primarily to give the Company appropriate flexibility to issue shares of common stock in the future. The increased shares available for issuance would provide the Company greater flexibility to settle our obligations under our outstanding convertible notes and outstanding convertible preferred stock by allowing us to issue shares rather than make payments in cash. The additional shares would also permit the Company to issue shares for general corporate purposes and to provide for future corporate needs. The shares may be issued by the Board in its discretion, subject to any further stockholder action required in the case of any particular issuance by applicable law, regulatory agency, or under the rules of any stock exchange or stock market on which the Company's common stock is then listed or traded.

The additional authorized shares of common stock would be issuable for any proper general corporate purposes, including issuances of shares (rather than cash payments) to settle our obligations on our outstanding convertible notes

and outstanding convertible preferred stock, future acquisitions, investment opportunities, capital raising transactions of equity or convertible debt securities, stock splits, stock dividends, issuance under current or future equity compensation plans, or for other general corporate purposes.

Other than issuing shares (in lieu of making cash payments) on our existing convertible notes and existing convertible preferred stock, there are no immediate agreements, plans, arrangements, commitments or understandings with respect to issuance of any of the additional shares of common stock that would be authorized by the proposed Reverse Stock Split. However, the Board believes that these additional shares will provide the Company with needed ability to issue shares in the future to take advantage of market conditions or favorable opportunities without the potential expense or delay incident to obtaining stockholder approval for a particular issuance.

Table of Contents

If the Reverse Stock Split is approved, it will increase the number of shares of common stock available for issuance to settle our outstanding convertible notes and convertible preferred stock. Absent the availability of shares of common stock, the Company would be forced to settle such outstanding convertible notes by payment of the outstanding principal and accrued interest in cash, if available. Further, the Company would be forced to redeem outstanding shares of convertible preferred stock for cash. If the Company does not have sufficient cash to make such payments on the outstanding convertible notes and outstanding convertible preferred stock, the Company would be unable to continue operations if it cannot otherwise negotiate the settlement of such obligations.

For this reason, the Board determined that the Reverse Stock Split would give the Company greater flexibility in settling these securities by increasing the number of shares of common stock available for issuance.

Since inception, we have incurred significant operating losses and anticipate that we will continue to incur losses for the foreseeable future. To fund ongoing operations, therefore, we will need to rely on additional financings of our equity and convertible debt securities. If the Reverse Stock Split is not approved by our stockholders, our future financing alternatives will be severely limited by the lack of unissued and unreserved authorized shares of common stock. If the Company does not have unissued and unreserved authorized shares of common stock sufficient to facilitate future offerings of our equity and convertible debt securities, the Company may be unable to raise the amount of working capital needed to continue operations.

In addition, our success depends in part on our continued ability to attract, retain and motivate highly qualified management and operations personnel, and if the Reverse Stock Split is not approved by our stockholders, the lack of unissued and unreserved authorized shares of common stock to provide future equity incentive opportunities that the Compensation Committee of our Board deems appropriate could adversely impact our ability to achieve these goals. In short, the Board believes approval of this Proposal 4 is important to access the capital markets, attract, retain and motivate employees, and pursue other business opportunities integral to our growth and success.

The Company's Amended and Restated Certificate of Incorporation currently authorizes the issuance of an aggregate of 20,000,000,000 shares of common stock. The proposed Reverse Stock Split would not increase or decrease the authorized number of shares of common stock that the Company is currently authorized to issue. The Reverse Stock Split would, however, reduce the number of common shares that the Company has outstanding, which would increase the number of authorized shares that would be available for issuance in the future.

The Company's Amended and Restated Certificate of Incorporation also authorizes the issuance of 25,000,000 shares of preferred stock. The proposed Reverse Stock Split does not increase or decrease the number of shares of preferred stock that the Company is authorized to issue.

Increase Our Common Stock Price to a Level More Appealing for Investors.

We believe that the Reverse Stock Split could enhance the appeal of our common stock to the financial community, including institutional investors, and the general investing public. We believe that a number of institutional investors and investment funds are reluctant to invest in lower-priced securities and that brokerage firms may be reluctant to recommend lower-priced stock to their clients, which may be due in part to a perception that lower-priced securities are less promising as investments, are less liquid, or are less likely to be followed by institutional securities research firms. We believe that the reduction in the number of issued and outstanding shares of our common stock caused by the Reverse Stock Split, together with the anticipated increased stock price immediately following and resulting from the Reverse Stock Split, may encourage further interest in our common stock.

Potential Risks and Adverse Effects of the Proposed Reverse Stock Split

Dilution

The issuance in the future of additional shares of our common stock made available by the Reverse Stock Split may have the effect of diluting the earnings or loss per share and book value per share, as well as the ownership and voting rights of the holders of our then-outstanding shares of common stock. If the Reverse Stock Split is approved and implemented, our stockholders will experience significant dilution as a result of shares of common stock being issued pursuant to our outstanding convertible notes and outstanding convertible preferred stock. Further, due to our need to raise additional capital in order to fund continuing operations, our stockholders will also experience significant dilution as a result of shares of common stock being issued in connection with future financings that the Company may complete.

Table of Contents

The Reverse Stock Split will dramatically increase the number of our authorized shares of common stock available for future issuance. A large amount of available shares of common stock could have adverse consequences, including but not limited to if the price of our common stock continues to decrease, the number of shares of common stock required to settle our variable-priced convertible notes and convertible preferred stock will continue to increase, and we may be required to issue a large number of shares of common stock to settle such conversions, which could massively dilute current stockholders, or if we run out of available authorized shares of common stock, we could be forced to make large cash payments, for which we may not have sufficient available capital.

Risks Associated with the Per Share Market Price of Our Common Stock and the Liquidity of Our Common Stock Following the Reverse Stock Split

The Board believes that the Reverse Stock Split will initially increase the price level of our shares of common stock. The Board, however, cannot predict the effect of the Reverse Stock Split upon the market price for our shares of common stock over the longer term. The history of similar reverse stock splits for companies in like circumstances has varied. The Company experienced a significant decline in its per share market price following the June 2016 1-for-20 reverse stock split, and it is possible that the Company could experience a similar decline in the per share market price in relation to this Reverse Stock Split if implemented.

The market price per share of common stock after the Reverse Stock Split may not rise in proportion to the reduction in the number of shares of common stock outstanding resulting from the Reverse Stock Split. If the market price of our shares of common stock declines after the Reverse Stock Split, the percentage decline as an absolute number and as a percentage of the Company's overall market capitalization may be greater than would occur in the absence of the Reverse Stock Split. Additionally, the liquidity of the shares of our common stock could be adversely affected by the reduced number of shares that would be outstanding after the implementation of the Reverse Stock Split.

Although the Board believes that a higher stock price may help generate the interest of new investors, the Reverse Stock Split may not result in a per-share price that will successfully attract certain types of investors and such resulting share price may not satisfy the investing guidelines of institutional investors or investment funds. Further, other factors, such as our financial results, market conditions and the market perception of our business, may adversely affect the interest of new investors in the shares of our common stock. As a result, the trading liquidity of the shares of our common stock may not improve as a result of the Reverse Stock Split and there can be no assurance that the Reverse Stock Split, if completed, will result in the intended benefits described above.

The Reverse Stock Split could be viewed negatively by the market and other factors, such as those described above, may adversely affect the market price of the shares of our common stock. Consequently, the market price of the post-Reverse Stock Split shares may not increase in proportion to the reduction of the number of shares of our Common Stock outstanding before the implementation of the Reverse Stock Split.

Possible Anti-Takeover Implications of the Reverse Stock Split

An increase in the number of authorized but unissued shares of our common stock due to the Reverse Stock Split may have a potential anti-takeover effect, as our ability to issue additional shares could be used to thwart persons, or otherwise dilute the stock ownership of stockholders, seeking to control us. Further, the ability to issue our shares of Common Stock at a lower price may afford the Company added flexibility to deter a potential takeover of the Company by diluting the shares held by a potential suitor or issuing shares to a stockholder that will vote in accordance with the Board's desires at a very low price. A takeover may be beneficial to independent stockholders because, among other reasons, a potential suitor may offer such stockholders a premium for their shares of Common Stock compared to the then-existing market price. The Reverse Stock Split is not being recommended by our Board as part of an anti-takeover strategy. The Company has no intent or plan to employ the additional unissued authorized

shares as an anti-takeover device.

Table of Contents

Principal Effects of the Reverse Stock Split

Reduction of Shares Held by Our Stockholders.

After the effective date of the Reverse Stock Split, each stockholder will own fewer shares of our common stock. However, the Reverse Stock Split will affect all of our stockholders uniformly and will not affect any stockholder's percentage ownership interest in the Company. For example, a holder of two percent of the voting power of the outstanding shares of common stock immediately prior to the Reverse Stock Split would continue to hold two percent of the voting power of the outstanding shares of common stock immediately after the Reverse Stock Split. The number of stockholders of record will not be affected by the Reverse Stock Split. In addition, because the current number of shares of authorized common stock will not be adjusted, the Reverse Stock Split will result in an increase in the authorized, but unissued, shares of common stock as a percentage of total authorized shares.

Change in Number and Exercise Price of Outstanding Options and RSUs.

Under the terms of our 2005 Stock Option Plan, as amended, and our 2008 Restricted Stock Plan, as amended, the administrator will make appropriate adjustments to the maximum number of shares that may be issued under the plans, the number of shares subject to outstanding awards and the exercise prices relating to awards.

Change in Conversion Prices and Other Terms Relating to our Preferred Stock, Senior Secured Convertible Notes and Warrants.

We currently have outstanding shares of our preferred stock, convertible notes and also warrants to purchase common stock. Such preferred shares, notes and warrants (under certain circumstances) are convertible into or exercisable for our common stock at a fixed conversion or exercise price. Such preferred shares, notes and warrants also have other features and adjustments which are tied to the market price of our common stock. The governing documents for such preferred stock, notes and warrants contain provisions that will automatically make ratable adjustments to the conversion and exercise prices and other price-related provisions in the event of a reverse stock split.

Reduction in Number of Outstanding Shares; Increase in Number of Authorized and Unreserved Shares Available for Future Issuance.

The Reverse Stock Split will reduce the total number of outstanding shares of common stock by the exchange ratio determined by the Board in its discretion and it will apply automatically to all shares of our common stock, including shares issuable upon the exercise of outstanding convertible securities, warrants, stock options and RSUs.

Based on 18,994,480,144 shares of Common Stock outstanding as of May 10, 2018, the principal effects of the Reverse Stock Split will be that the number of shares of our Common Stock issued and outstanding will be reduced from 18,994,480,144 shares as of May 10, 2018 to a range of 189,944,802 shares (if a 1-for-100 ratio is chosen) to 18,994,481 shares (if a 1-for-1,000 ratio is chosen), depending on the exact exchange ratio chosen by the Board and without giving effect to any rounding up of fractional shares.

The table below sets forth, as of May 10, 2018 and for illustrative purposes only, certain effects of the potential ratios of 1-for-100 and 1-for-1000, including our total outstanding Common Stock equivalents (without giving effect to the treatment of fractional shares).

Includes additional shares of common stock which may be issued under certain circumstances to pay make whole (1) dividend and interest amounts due on our preferred shares and convertible notes if we elect to pay such amounts in shares rather than cash.

The share amounts shown as being potentially issuable are current estimates. The number of shares that would actually be issued by the Company could be less or more than the amounts shown based upon a number of factors, including the then current trading market price for the Company's common stock. These convertible securities, with the exception of the Series K Preferred Stock, have a variable conversion price that is based upon a discount to the Company's common stock trading price as of the time of conversion. Accordingly, the number of potentially (2) issuable shares will increase or decrease, respectively, as the trading market price for the common stock decreases or increases. The estimated amounts shown above have been calculated (i) assuming that common stock would be issued by the Company (in accordance with and after giving effect to various discounted and other applicable pricing provisions of the applicable contracts) as of May 10, 2018 and (ii) using the Company's per share closing market price on the OTC Market of \$0.0002 on May 10, 2018.

Table of Contents

- The share amounts shown above also assume the maximum number of common shares that could be issued under the applicable contracts. The applicable contracts contain a number of ownership cap restrictions that limit the numbers of shares that could be issued in any particular time period or under any particular set of circumstances. The share estimates above do not give effect to those contractual restrictions.
- (3) The issuable share amounts shown in the 1-for-100 column and the 1-for-1,000 column assume that the Company's per share stock price would be ratably increased by the amount of the assumed Reverse Stock Split ratio shown in the column. The number of shares actually issuable at any time following the implementation of the Reverse Stock Split would vary based upon the actual market trading for the shares of Common Stock in effect from time to time.
- (4) The issuable share amounts shown assume the Company would elect to fulfill redemptions in shares in lieu of cash.
- (5) These promissory notes are not convertible at the option of the holder.

As reflected in the table above, the number of authorized shares of our common stock will not be reduced by the Reverse Stock Split. Accordingly, the Reverse Stock Split will have the effect of significantly increasing the authorized, but unissued, shares of our common stock as a percentage of total authorized shares. These shares may be used by us for various purposes in the future without further stockholder approval (subject to applicable OTC or other exchange listing rules), including, among other things, financings, strategic partnering arrangements, equity incentive plans, acquisitions of assets or businesses, stock splits or stock dividends.

Procedure for Effecting Reverse Stock Split and Exchange of Stock Certificates

If this Proposal is approved by our stockholders and if our Board of Directors concludes that the Reverse Stock Split is in the best interests of the Company and its stockholders on a date within one year after stockholder approval is obtained, our Board of Directors will cause the Reverse Stock Split to be implemented at the whole number ratio between 1-for-100 and 1-for-1,000 as selected by our Board of Directors in its sole discretion. We will file an amendment to our Certificate of Incorporation with the Delaware Secretary of State at such time as our Board of Directors deems appropriate. The amendment will become effective on the date that it is filed (the "Effective Date").

As soon as practicable after the Effective Date, stockholders will be notified that the Reverse Stock Split has been effected. We will retain an exchange agent (the "Exchange Agent") for purposes of implementing the exchange of stock certificates. Holders of pre-reverse split shares will be asked to surrender to the Exchange Agent certificates representing pre-reverse split shares in exchange for certificates representing post-reverse split shares in accordance with the procedures to be set forth in a letter of transmittal that will be delivered to the Company's stockholders. No new certificates will be issued to a stockholder until the stockholder has surrendered to the Exchange Agent his, her or its outstanding certificate(s) together with the properly completed and executed letter of transmittal. **STOCKHOLDERS SHOULD NOT DESTROY ANY STOCK CERTIFICATES AND SHOULD NOT SUBMIT ANY CERTIFICATES UNTIL REQUESTED TO DO SO.** Stockholders whose shares are held in book-entry form do not need to submit old share certificates for exchange. These shares will automatically reflect the new quantity of shares based on the Reverse Stock Split. Beginning on the Effective Date, each certificate representing pre-reverse split shares will be deemed for all corporate purposes to evidence ownership of post-reverse split shares.

After the Effective Date, our common stock will have a new Committee on Uniform Securities Identification Procedures ("CUSIP") number, which is a number used to identify our equity securities, and stock certificates with the older CUSIP numbers will need to be exchanged for stock certificates with the new CUSIP numbers by following the procedures described above.

No Going Private Transaction

The Reverse Stock Split is not intended as, and will not have the effect of, a "going private transaction" covered by Rule 13e-3 under the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Following the Reverse Stock Split,

the Company will continue to be subject to the periodic reporting requirements of the Exchange Act.

Fractional Shares

No fractional shares will be issued in connection with the Reverse Stock Split. Stockholders of record who otherwise would be entitled to receive fractional shares will be entitled to rounding up of their fractional share to the nearest whole share.

Table of Contents

Accounting Matters

The Reverse Stock Split will not affect the common stock capital account on our balance sheet. As of the Effective Date, the stated capital on our balance sheet attributable to our common stock will be reduced proportionately based on the selected exchange ratio, and the additional paid-in capital account will be credited with the amount by which the stated capital is reduced. In future financial statements, we will restate net income or loss per share and other per share amounts for periods ending before the Reverse Stock Split to give retroactive effect to the Reverse Stock Split. The per share net income or loss and net book value of our common stock will be increased because there will be fewer shares of our common stock outstanding.

Certain Material U.S. Federal Income Tax Consequences of the Reverse Stock Split

The following is a summary of material United States federal income tax consequences of the Reverse Stock Split to holders of our common stock. Except where noted, this summary deals only with our common stock that is held as a capital asset.

This summary is based upon provisions of the Internal Revenue Code of 1986, as amended (the “Code”), and United States Treasury regulations, rulings and judicial decisions as of the date hereof. Those authorities may be changed, perhaps retroactively, so as to result in United States federal income tax consequences different from those summarized below.

This summary does not address all aspects of United States federal income taxes that may be applicable to holders of common stock and does not deal with non-U.S., state, local or other tax considerations that may be relevant to stockholders in light of their particular circumstances. In addition, it does not represent a detailed description of the United States federal income tax consequences applicable to you if you are subject to special treatment under the United States federal income tax laws (including if you are a dealer in securities or currencies; a financial institution; a regulated investment company; a real estate investment trust; an insurance company; a tax-exempt organization; a person holding shares as part of a hedging, integrated or conversion transaction, a constructive sale or a straddle; a trader in securities that has elected the mark-to-market method of accounting for your securities; a person liable for alternative minimum tax; a person who owns or is deemed to own 10% or more of our voting stock; a partnership or other pass-through entity for United States federal income tax purposes; a person whose “functional currency” is not the United States dollar; a United States expatriate; a “controlled foreign corporation”; or a “passive foreign investment company”).

We cannot assure you that a change in law will not alter significantly the tax considerations that we describe in this summary. No ruling from the Internal Revenue Service or opinion of counsel will be obtained regarding the federal income tax consequences to stockholders as a result of the Reverse Stock Split.

If a partnership (or other entity treated as a partnership for United States federal income tax purposes) holds our common stock, the tax treatment of a partner will generally depend upon the status of the partner and the activities of the partnership. If you are a partner of a partnership holding our common stock, you should consult your own tax advisors.

We believe that the Reverse Stock Split, if implemented, would be a tax-free recapitalization under the Code. If the Reverse Stock Split qualifies as a tax-free recapitalization under the Code, then, generally, for United States federal income tax purposes, no gain or loss will be recognized by the Company in connection with the Reverse Stock Split, and no gain or loss will be recognized by stockholders that exchange their shares of pre-split common stock for shares of post-split common stock. The post-split common stock in the hands of a stockholder following the Reverse Stock Split will have an aggregate tax basis equal to the aggregate tax basis of the pre-split common stock held by that

stockholder immediately prior to the Reverse Stock Split. A stockholder's holding period for the post-split common stock generally will be the same as the holding period for the pre-split common stock exchanged therefor.

Discretionary Authority of the Board of Directors to Abandon Reverse Stock Split

The Board of Directors reserves the right to abandon the Reverse Stock Split without further action by our stockholders at any time before the effectiveness of the amendment to the Certificate of Incorporation, even if the Reverse Stock Split has been authorized by our stockholders at the Annual Meeting. By voting in favor of the Reverse Stock Split, you are expressly also authorizing our Board of Directors to determine not to proceed with, and abandon, the Reverse Stock Split if it should so decide.

No Dissenter's Rights

Under applicable Delaware law, our stockholders are not entitled to dissenter's rights with respect to the Reverse Stock Split, and we will not independently provide stockholders with any such right.

Directors' Recommendation

The affirmative vote of a majority of all issued and outstanding shares of common stock is required to approve the Reverse Stock Split at the Annual Meeting. If you abstain from voting on this proposal to approve the Reverse Stock Split, it will have the same effect as a vote "AGAINST" the proposal. Your vote is therefore extremely important.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR THE PROPOSAL TO AMEND THE COMPANY'S CERTIFICATE OF INCORPORATION TO EFFECT THE REVERSE STOCK SPLIT.

Please Note: This Proxy Statement contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, and is subject to the safe harbor created by that section. Such statements include, but are not limited to, all statements as to expectation or belief and statements as to the future trading price and liquidity of our common stock, whether traded on the OTC Market or otherwise; our future results of operations; our ability to satisfy the listing requirements of OTC; the prospect for analyst coverage; and financing needs, as well as assumptions relating to the foregoing. The words "anticipate," "believe," "expect," "may," "plan," "will," and similar expressions identify forward-looking statements, which speak only as of the date the statement was made.

These forward-looking statements are not guarantees of future performance. All forward-looking statements attributable to us or to persons acting on our behalf are expressly qualified in their entirety by the cautionary statements and risk factors identified from time to time in our SEC reports, including our Annual Report on Form 10-K and Quarterly Reports on Form 10-Q filed with the SEC. Except as expressly required by federal securities laws, we undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events, changes in circumstances or any other reason.

PROPOSAL NO. 5 - ADJOURNMENT PROPOSAL

Overview

If at the Annual Meeting the number of shares of common stock present or represented and voting in favor of the Reverse Stock Split is insufficient to approve the Reverse Stock Split, management may move to adjourn, postpone or continue the Annual Meeting in order to enable the Board to continue to solicit additional proxies in favor of the Reverse Stock Split.

In this Adjournment Proposal, we are asking you to authorize the holder of any proxy solicited by the Board to vote in favor of adjourning, postponing or continuing the Annual Meeting and any later adjournments. If the stockholders approve the Adjournment Proposal, we could adjourn, postpone or continue the Annual Meeting, and any adjourned session of the Annual Meeting, to use the additional time to solicit additional proxies in favor of the Reverse Stock Split. Among other things, approval of the Adjournment Proposal could mean that, even if proxies representing a sufficient number of votes against the Reverse Stock Split have been received, we could adjourn, postpone or continue the Annual Meeting without a vote on the Reverse Stock Split and seek to convince the holders of those shares to change their votes to votes in favor of the Reverse Stock Split.

Required Vote

The Adjournment Proposal will be approved if a majority of the shares of common stock present in person or by proxy at the Annual Meeting votes FOR the proposal. Accordingly, abstentions, if any, will be counted as votes AGAINST the Adjournment Proposal. No proxy that is specifically marked AGAINST the Reverse Stock Split will be voted in favor of the Adjournment Proposal, unless it is specifically marked FOR the discretionary authority to

adjourn, postpone or continue the Annual Meeting to a later date.

Recommendation

The Board believes that if the number of shares of common stock present or represented at the Annual Meeting and voting in favor of the Reverse Stock Split is insufficient to approve such proposals, it is in the best interests of the stockholders to enable the Board, for a limited period of time, to continue to seek to obtain a sufficient number of additional votes to approve the amendment.

RECOMMENDATION OF THE BOARD OF DIRECTORS FOR PROPOSAL NO. 5:

THE BOARD RECOMMENDS A VOTE FOR THE PROPOSAL TO AUTHORIZE THE ADJOURNMENT OF THE ANNUAL MEETING, IF NECESSARY, IF A QUORUM IS PRESENT, TO SOLICIT ADDITIONAL PROXIES IF THERE ARE NOT SUFFICIENT VOTES IN FAVOR OF THE REVERSE STOCK SPLIT.

ANNUAL REPORT ON FORM 10-K

Our financial statements and management's discussion and analysis of financial condition and results of operations are incorporated by reference to our Annual Report.
